In October of 1988, the inlet system collapsed and caused a devastating five-day water outage on the Reservation. That catastrophe required emergency assistance from the National Guard. A home burned to the ground without necessary water to fight the fire. After that experience, the Tribe expended its own funds to make some repairs, and began a large-scale evaluation of the system. The Tribe has discovered serious problems with the system.

Line breaks are common and frequent, and existing supply facilities are near or at maximum capacity. The Jicarilla Apaches have had to ration water for the last seven summers.

According to a recent EPA report, the water system on the Jicarilla Reservation is the third worst system operating in a six-state region. In addition to being out of compliance with federal drinking water standards, the

sewage plant has been operating without a federal discharge permit, exposing the BIA to fines up to \$25,000 per day.

Sewage lagoons are operating at 200% capacity, and wastewater spillage threatens not only the Jicarilla Apaches, but down-stream communities in New Mexico and beyond. The Jicarilla Apache Tribal Council has enacted a resolution declaring a state of emergency due to the continued operation of these unsafe water systems.

The Tribe has been forced to expend their own funds due to the serious health threats posed by the unsafe system. In addition to the severe health threats that these systems pose, their inadequate and unsafe condition has virtually suspended social and economic development on the Reservation.

The water deficiencies have forced the Tribe to place a moratorium on new projects, including housing, school, senior center, post office, and health care facility construction. These projects cannot be completed, even though many are already funded, because the existing infrastructure cannot support any further development. While the federal government is entirely responsible to maintain and operate the federal water systems which serve the Reservation, the BIA lacks the resources improve the system.

The water system on the Jicarilla Apache Reservation is one of only two or three such systems still being maintained by the BIA. The BIA does not even own equipment necessary for routine sewer cleaning. While the BIA has continued federal responsibility for these systems, BIA no longer budgets for water delivery systems.

In fact, Kevin Gover of the BIA referred the Tribe to the Bureau of Reclamation for assistance. The Bureau of Reclamation has the needed expertise to help, having experience in providing water to Native Americans through irrigation projects, as well as providing water supplies to other rural communities.

The Tribe wants to eventually own and operate the water system, and wishes to enter into a relationship with the Bureau of Reclamation for completion of rehabilitation of this project. This legislation will allow the Bureau of Reclamation to conduct a feasibility study to determine the best method for developing a safe and adequate municipal, rural, and industrial water supply for the residents of the Jicarilla Apache Indian Reservation in the State of New Mexico.

We want to help the Jicarilla Apaches end their water crisis, and secure congressional authorization for the necessary studies the Bureau of Reclamation has the expertise to conduct. I ask unanimous consent that our proposed legislation and the Jicarilla Apache Council Resolution be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1965

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS.

Congress finds that—

(1) there are major deficiencies with regard to adequate and sufficient water supplies available to resident of the Jicarilla Apache Reservation in the State of New Mexico.

(2) the existing municipal water system that serves the Jicarilla Apache Reservation is under the ownership and control of the Bureau of Indian Affairs and is outdated, dilapidated, and cannot adequately and safely serve the existing and future growth needs of the Jicarilla Apache Tribe;

(3) the federally owned municipal water system on the Jicarilla Apache Reservation has been unable to meet the minimum Federal water requirements necessary for discharging wastewater into a public watercourse and has been operating without a Federal discharge permit;

(4) the federally owned municipal water system that serves the Jicarilla Apache Reservation has been cited by the United States Environmental Protection Agency for violations of Federal safe drinking standards and poses a threat to public health and safety both on and off the Jicarilla Apache Reservation;

(5) the lack of reliable supplies of potable water impedes economic development and has detrimental effects on the quality of life and economic self-sufficiency of the Jicarilla Apache Tribe;

(6) due to the severe health threats and impediments to economic development, the Jicarilla Apache Tribe has authorized and expended \$4,500,000 of tribal funds for the repair and replacement of the municipal water system on the Jicarilla Apache Reservation; and

(7) the United States has a trust responsibility to ensure that adequate and safe water supplies are available to meet the economic, environmental, water supply, and public health needs of the Jicarilla Apache Indian Reservation.

SEC. 2. AUTHORIZATION.

(a) AUTHORIZATION.—Pursuant to reclamation laws, the Secretary of the Interior, through the Bureau of Reclamation and in consultation and cooperation with the Jicarilla Apache Tribe, shall conduct a feasibility study to determine the most feasible method of developing a safe and adequate municipal, rural, and industrial water supply for the residents of the Jicarilla Apache Indian Reservation in the State of New Mexico.

(b) REPORT.—Not later than 1 year after funds are appropriated to carry out this Act, the Secretary of the Interior shall transmit to Congress a report containing the results of the feasibility study required by subsection (a).

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated \$200,000 to carry out this Act.

THE JICARILLA APACHE TRIBE—RESOLUTION No. 99-R-314-06

Whereas, the Jicarilla Apache Tribe is a federally recognized Indian tribe organized under Section 17 of the Indian Reorganization Act of 1934, 25 U.S.C. § 476 (1988); and

Whereas, the inherent powers of the Jicarilla Apache Tribe are vested in the Jicarilla Apache Tribal Council pursuant to

Article XI, Section 1 of the Revised Constitution of the Jicarilla Apache Tribe; and

Whereas, the Jicarilla Apache Tribal Council is authorized by Article XI, Section I(d) of the Revised Constitution of the Jicarilla Apache Tribe to enact ordinances to promote the peace, safety, property, health and general welfare of the people of the Reservation and is authorized by Article X of the Revised Constitution to enact ordinances and resolutions on matters of permanent interest to the members of the tribe and on matters relating to particular individuals, officials or circumstances; and

Whereas, the Jicarilla Apache Tribal Council has the power to authorize tribal officials to act on its behalf for regulatory and other purposes; and

Whereas, the lack of adequate and safe drinking water facilities on the Jicarilla Apache Reservation leads to serious health problems among tribal members and other residents of the Reservation, such as early loss of life and morbidity and diseases; and

Whereas, the current water treatment plant, water delivery infrastructure and sewage systems that serve the Jicarilla Apache Reservation are owned and operated by the United States, through the Jicarilla Agency Bureau of Indian Affairs ("BIA"); and

Whereas, the Federal Government has a trust responsibility to provide safe drinking water to the Jicarilla Apache people and the United States has failed to carry out this responsibility by not providing the BIA adequate resources to properly maintain and operate the water systems;

Whereas, in October 1998, due to the lack of adequate Federal resources to properly maintain and operate the water systems, the inlet system, which diverts water from the Navajo River, collapsed causing a catastrophic five-day water outage on the Jicarilla Apache Reservation, which necessitated emergency relief by the National Guard; and

Whereas, the Jicarilla Apache Tribe worked around the clock to restore water and expended tribal funds to do so, and as a result of the water outage, the Jicarilla Apache Tribe began investigating and evaluating the operation of the water systems and discovered numerous additional problems; and

Whereas, the water treatment plant, which treats water diverted from the Navajo River prior to being released for public consumption in Dulce, New Mexico, has been the subject of various notices of environmental non-compliance by the United States Environmental Protection Agency ("EPA");

Whereas, the sewage facilities that serve the Jicarilla Apache Reservation are not in compliance with Federal law and are operating without a federal discharge permit, which exposes the BIA to fines up to \$25,000 a day, and to meet the national requirements, a new waste water plant must be constructed; and

Whereas, although the Federal Government is responsible for maintaining and operating its own water systems that serve the Reservation, the Tribe has been forced to take action out of its own funds due to the serious health threats these deficient and unsafe systems have on the people within and near the Reservation; and

Whereas, based on the analysis and recommendation of the Tribe's engineers and consultants, the Tribal Council has authorized the construction of a new inlet system, waste water treatment plant, and sewage facilities and the upgrade and rehabilitation of the water delivery infrastructure; and

Whereas, Congress amended the Safe Drinking Water Act, in 1996 and found, among other things, that:

(1) safe drinking water is essential to the protection of public health;

(2) because the requirements of the Safe Drinking Water Act (42 U.S.C. 300f et seq.) now exceed the financial and technical capacity of some public water systems, especially many small public water systems, the Federal Government needs to provide assistance to communities to help the communities meet Federal drinking water requirements;

(3) more effective protection of public health requires prevention of drinking water contamination through well-trained system operators, water systems with adequate managerial, technical and financial capacity and enhanced protection of source waters of public water systems;

(4) compliance with the requirements of the Safe Drinking Water Act continues to be a concern at public water systems experiencing technical and financial limitations and Federal, State and local governments need more resources and more effective authority to attain the objectives of the Safe Drinking Water Act;

(5) Federal health services to maintain and improve the health of the Indians are consistent with and required by the Federal Government's trust relationship with the American Indian people;

Whereas, the repair and replacement authorization by the Tribal Council is consistent with the Congressional purposes of ensuring safe drinking water to the public; and

Whereas, Indian tribes are recognized as domestic nations under the protection of the United States Government and possessed with the inherent powers of government; and

Whereas, pursuant to the Federal trust relationship between the Federal government and Indian tribes arising from the United States Constitution, United States Supreme Court caselaw, numerous treaties, statutes, and regulations, the Federal government had fiduciary duties to Indian tribes to protect tribal self-government and to provide and ensure adequate and safe drinking water; and

Whereas, in accordance with the Federal policy of Indian Self-Determination, the Federal government has pledged to assist Indian tribes in making reservations permanent homes from Indian people; and

Whereas, The Federal Indian policy of Self-Determination and the Federal trust responsibility to Indian tribes requires that the Federal government conduct government-to-government consultations with Indian tribes on matters affecting tribal interests and to promote tribal economic development, tribal governments, tribal self-sufficiency, which includes proper and adequate and safe drinking water facilities.

Now, Therefore, Be It Resolved, by the Tribal Council of the Jicarilla Apache Tribe that the Tribal Council hereby declares that the Jicarilla Apache Reservation is in a state of critical emergency due to the continued operation of the unsafe water systems that serve the Jicarilla Apache Reservation.

Be It Further Resolved, by the Tribal Council of the Jicarilla Apache Tribe that the Tribal Council, hereby authorizes the Vice-President and his staff to do all acts immediate and necessary to address this emergency, including but not limited to, executing contracts, consulting on a government-to-government basis with Congressional members and the Executive Branch, including the Federal agencies and the White

House and lobbying for congressional appropriations.

And Be It Further Resolved, by the Tribal Council of the Jicarilla Apache Tribe that the Jicarilla Apache Tribe calls upon the United States Congress and the United States Department of Interior's Bureau of Indian Affairs and Bureau of Reclamation, the Department of Health and Human Services and the United States Environmental Protection Agency, to exercise their Federal Trust Responsibility and work with the Jicarilla Apache Tribe on a government-to-government basis to address this emergency.

By Mr. COCHRAN (for himself and Mr. LOTT):

S. 1967. A bill to make technical corrections to the status of certain land held in trust for the Mississippi Band of Choctaw Indians, to take certain land into trust for that Band, and for other purposes; to the Committee on Indian Affairs.

MISSISSIPPI BAND OF CHOCTAW INDIANS

• Mr. COCHRAN. Mr. President, today I am introducing a bill to make technical corrections to the status of certain land held in trust for the Mississippi Band of Choctaw Indians, and to take certain land into trust for the Band.

Mr. President, the lands involved in this bill are lands currently owned by the tribe. Over the last 20 years, the tribe has attempted to transfer the land to reservation land, through the regular processes of the Department of Interior and the Bureau of Indian Affairs. The land transfer applications have the support of the State of Mississippi and the local neighboring governments.

Countless times over the years, the tribe has been told by the Department that land transfer applications have been lost and that action would occur soon.

Housing, a school and a medical clinic are among the construction plans that are detained because of the inaction by the Department and BIA. Mr. President, this tribe is simply out of time. The school waiting to be replaced has over two pages of safety violations from the BIA. The medical clinic will not pass its next inspection. Thousands of Mississippi Choctaw citizens have substandard living conditions because of the lack of available housing.

Mr. President, the Choctaws are held up as the best example of self determination. Yet, the federal government seems determined to throw obstacles in the course of their success. The history of these land acquisition applications and the treatment of the tribe is intolerable.

The Congressional Budget Office has reviewed the bill and advises it has no budgetary impact. I urge the Senate to pass this bill. •

By Mr. CRAIG (for himself, Mr. MURKOWSKI, and Mr. THOMAS):

S. 1969. A bill to provide for improved management of, and increases account-

ability for, outfitted activities by which the public gains access to and occupancy and use of Federal land, and for other purposes; to the Committee on Energy and Natural Resources.

THE OUTFITTER POLICY ACT OF 1999

Mr. CRAIG. Mr. President, I am pleased to introduce today in conjunction with my colleagues Senator MURKOWSKI and Senator THOMAS the Outfitter Policy Act of 1999.

This legislation is very similar to legislation I introduced in the past congress. As that legislation did, this bill would put into law many of the management practices by which federal land management agencies have successfully managed the outfitter and guide industry on National Forests, National Parks and other federal lands over many decades.

The bill recognizes that many Americans want and seek out the skills and experience of commercial outfitters and guides to help them enjoy a safe and pleasant journey through our forests and deserts and over the rivers and lakes that are the spectacular destinations for many visitors to our federal lands.

The Outfitter Policy Act would assure the public continued opportunities for reasonable and safe access to the special areas found throughout our public lands. It establishes high standards that will be met for the health and welfare of visitors who choose outfitted services. It will help guarantee that quality professional services. It will help guarantee that will be available for their recreational and educational experiences on federal land.

This legislation is needed because the management of outfitting and guiding services by this Administration had created problems that threaten to destabilize many of these typically small, independent outfitter and guide businesses. In addressing these problems, this legislation relies heavily on practices that have historically worked well for outfitters, visitors, and other users groups, as well as for federal land managers in the field. When the bill is enacted, it will assure that these past levels of service are continued and enhanced.

Previous hearings and discussions on prior versions of this legislation helped to refine the bill I am introducing today. This process provided the intended opportunity for discussion. It allowed for the examination of the historical practices that have offered consistent, reliable outfitter services to the public. The legislation I am now introducing is a result of that process.

I look forward to considering this legislation in the coming session of the 106th Congress.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1969

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Outfitter Policy Act of 1999".

SEC. 2. FINDINGS.

Congress finds that—

(1) the experience, skills, trained staff, and investment in equipment that are provided by authorized outfitters are necessary to provide access to Federal land to members of the public that need or desire commercial outfitted activities to facilitate their use and enjoyment of recreational or educational opportunities on Federal land;

(2) such activities constitute an important contribution toward meeting the recreational and educational objectives of resource management plans approved and administered by agencies of the Department of Agriculture and the Department of the Interior;

(3) an effective relationship between those agencies and authorized outfitters requires implementation of agency policies and programs that provide for—

(A) a reasonable opportunity for an authorized outfitter to realize a profit;

(B) a fair and reasonable return to the United States through appropriate fees;

(C) renewal of outfitter permits based on a performance evaluation system that rewards outfitters that meet required performance standards and discontinues outfitters that fail to meet those standards; and

(D) transfer of an outfitter permit to the qualified purchaser of the operation of an authorized outfitter, an heir or assign, or another qualified person or entity; and

(4) the provision of opportunities for outfitted visitors to Federal land to engage in fishing and hunting is best served by continued recognition that the States retain primary authority over the taking of fish and wildlife on Federal land.

SEC. 3. PURPOSES.

The purposes of this Act are—

(1) to establish terms and conditions of access to, and occupancy and use of, Federal land by visitors who require or desire the assistance of an authorized outfitter; and

(2) to establish a stable regulatory climate that encourages a qualified person or entity to provide, and to continue to invest in the ability to provide, outfitted visitors with access to, and occupancy and use of, Federal land.

SEC. 4. DEFINITIONS.

In this Act:

(1) **ACTUAL USE.**—The term "actual use" means the portion of a principal allocation of outfitter use that an authorized outfitter uses in conducting commercial outfitted activities during a period, for a type of use, for a location, or in terms of another measurement of the term or outfitted activities covered by an outfitter permit.

(2) **ALLOCATION OF USE.**—

(A) **IN GENERAL.**—The term "allocation of use" means a method or measurement of access that—

(i) is granted by the Secretary to an authorized outfitter for the purpose of facilitating the occupancy and use of Federal land by an outfitted visitor;

(ii) takes the form of—

(I) an amount or type of commercial outfitted activity resulting from an apportionment of the total recreation capacity of a resource area; or

(II) in the case of a resource area for which recreation capacity has not been appor-

tioned, a type of commercial outfitted activity conducted in a manner that is not inconsistent with or incompatible with an approved resource management plan; and

(iii) is calibrated in terms of amount of use, type of use, or location of a commercial outfitted activity, including user days or portions of user days, seasons or other periods of operation, launch dates, assigned camps, or other formulations of the type or amount of authorized activity.

(B) **INCLUSION.**—The term "allocation of use" includes the designation of a geographic area, zone, or district in which a limited number of authorized outfitters are authorized to operate.

(3) **AUTHORIZED OUTFITTER.**—

(A) **IN GENERAL.**—The term "authorized outfitter" means a person that conducts a commercial outfitted activity on Federal land under an outfitter authorization.

(B) **INCLUSION.**—The term "authorized outfitter" includes an outfitter that conducts a commercial outfitted activity on Federal land under an outfitter authorization awarded under an agreement between the Secretary and a State or local government that provides for the regulation by a State or local agency of commercial outfitted activities on Federal land.

(4) **COMMERCIAL OUTFITTED ACTIVITY.**—The term "commercial outfitted activity" means an authorized outfitted activity—

(A) that is available to the public;

(B) that is conducted under the direction of paid staff; and

(C) for which an outfitted visitor is required to pay more than shared expenses (including payment to an authorized outfitter that is a nonprofit organization).

(5) **FEDERAL AGENCY.**—The term "Federal agency" means—

(A) the Forest Service;

(B) the Bureau of Land Management;

(C) the United States Fish and Wildlife Service; and

(D) the Bureau of Reclamation.

(6) **FEDERAL LAND.**—

(A) **IN GENERAL.**—The term "Federal land" means all land and interests in land administered by a Federal agency.

(B) **EXCLUSION.**—The term "Federal land" does not include—

(i) land held in trust by the United States for the benefit of an Indian tribe or individual; or

(ii) land held by an Indian tribe or individual subject to a restriction by the United States against alienation.

(7) **INSTITUTIONAL RECREATION PROGRAM.**—The term "institutional recreation program" means a program of recreational activities on Federal land that may include the conduct of an outfitted activity on Federal land sponsored and guided by—

(A) an institution with a membership or limited constituency, such as a religious, conservation, youth, fraternal, or social organization; or

(B) an educational institution, such as a college or university.

(8) **LIMITED OUTFITTER AUTHORIZATION.**—The term "limited outfitter authorization" means an outfitter authorization under section 6(f).

(9) **LIVERY.**—The term "livery" means the dropping off or picking up of visitors, supplies, or equipment on Federal land.

(10) **OUTFITTED ACTIVITY.**—

(A) **IN GENERAL.**—The term "outfitted activity" means an activity—

(i) such as outfitting, guiding, supervision, education, interpretation, skills training, assistance, or livery operation conducted for a

member of the public in an outdoor environment; and

(ii) that uses the recreational, natural, historical, or cultural resources of Federal land.

(B) **EXCLUSION.**—The term "outfitted activity" does not include a service provided under the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b).

(11) **OUTFITTED VISITOR.**—The term "outfitted visitor" means a member of the public that relies on an authorized outfitter for access to and occupancy and use of Federal land.

(12) **OUTFITTER.**—The term "outfitter" means a person that conducts a commercial outfitted activity, including a person that, by local custom or tradition, is known as a "guide".

(13) **OUTFITTER AUTHORIZATION.**—The term "outfitter authorization" means—

(A) an outfitter permit; or

(B) a limited outfitter authorization.

(14) **OUTFITTER PERMIT.**—The term "outfitter permit" means an outfitter permit under section 6.

(15) **PRINCIPAL ALLOCATION OF OUTFITTER USE.**—The term "principal allocation of outfitter use" means a commitment by the Secretary in an outfitter permit for an allocation of use to an authorized outfitter in accordance with section 9.

(16) **RESOURCE AREA.**—The term "resource area" means a management unit that is described by or contained within the boundaries of—

(A) a national forest;

(B) an area of public land;

(C) a wildlife refuge;

(D) a congressionally designated area;

(E) a hunting zone or district; or

(F) any other Federal planning unit (including an area in which outfitted activities are regulated by more than 1 Federal agency).

(17) **SECRETARY.**—The term "Secretary" means—

(A) with respect to Federal land administered by the Forest Service, the Secretary of Agriculture, acting through the Chief of the Forest Service or a designee;

(B) with respect to Federal land administered by the Bureau of Land Management, the Secretary of the Interior, acting through the Director of the Bureau of Land Management or a designee;

(C) with respect to Federal land administered by the United States Fish and Wildlife Service, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service or a designee; and

(D) with respect to Federal land administered by the Bureau of Reclamation, the Secretary of the Interior, acting through the Commissioner of Reclamation or a designee.

(18) **TEMPORARY ALLOCATION OF USE.**—The term "temporary allocation of use" means an allocation of use to an authorized outfitter in accordance with section 9.

SEC. 5. NONOUTFITTER USE AND ENJOYMENT.

Nothing in this Act enlarges or diminishes the right or privilege of occupancy and use of Federal land under any applicable law (including planning process rules and any administrative allocation), by a commercial or noncommercial individual or entity that is not an authorized outfitter or outfitted visitor.

SEC. 6. OUTFITTER AUTHORIZATIONS.

(a) **IN GENERAL.**—

(1) **PROHIBITION.**—No person or entity, except an authorized outfitter, shall conduct a commercial outfitted activity on Federal land.

(2) CONDUCT OF OUTFITTER ACTIVITIES.—An authorized outfitter shall not conduct an outfitted activity on Federal land except in accordance with an outfitter authorization.

(3) SPECIAL RULE FOR ALASKA.—With respect to a commercial outfitted activity conducted in the State of Alaska, the Secretary shall not establish or impose a limitation on access by an authorized outfitter that is inconsistent with the access ensured under subsections (a) and (b) of section 1110 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3170).

(b) TERMS AND CONDITIONS.—An outfitter authorization shall specify—

(1) the rights and obligations of the authorized outfitter and the Secretary; and

(2) other terms and conditions of the authorization.

(c) CRITERIA FOR AWARD OF AN OUTFITTER PERMIT.—The Secretary shall establish criteria for award of an outfitter permit that—

(1) identify skilled, experienced, and financially capable persons or entities with knowledge of the resource area to offer and conduct commercial outfitted activities;

(2) provide a stable regulatory climate in accordance with this Act and other law (including regulations) that encourages a qualified person or entity to provide, and to continue to invest in the ability to provide, commercial outfitted activities;

(3) offer a reasonable opportunity for an authorized outfitter to realize a profit; and

(4) subordinate considerations of revenue to the United States to the objectives of—

(A) providing recreational or educational opportunities for the outfitted visitor;

(B) providing for the health and welfare of the public; and

(C) conserving resources.

(d) AWARD.—

(1) IN GENERAL.—The Secretary may award an outfitter permit under this Act if—

(A) the commercial outfitted activity to be authorized is not inconsistent with or incompatible with an approved resource management plan applicable to the resource area in which the commercial outfitted activity is to be conducted; and

(B) the authorized outfitter meets the criteria established under subsection (c)(1).

(2) USE OF COMPETITIVE PROCESS.—

(A) IN GENERAL.—Except as otherwise provided by this Act, the Secretary shall use a competitive process to select an authorized outfitter to which an outfitter permit is to be awarded.

(B) EXCEPTION FOR CERTAIN ACTIVITIES.—The Secretary may award an outfitter permit to an applicant without conducting a competitive selection process if the Secretary determines that—

(i) the applicant meets criteria established by the Secretary under subsection (c); and

(ii) there is no competitive interest in the commercial outfitted activity to be conducted.

(C) EXCEPTION FOR RENEWALS AND TRANSFERS.—The Secretary shall award an outfitter permit to an applicant without conducting a competitive selection process if the authorization is a renewal or transfer of an existing outfitter permit under section 11 or 12.

(e) PROVISIONS OF OUTFITTER PERMITS.—

(1) IN GENERAL.—An outfitter permit shall provide for—

(A) the health and welfare of the public;

(B) conservation of resource values;

(C) a fair and reasonable return to the United States through an authorization fee in accordance with section 7;

(D) a term of 10 years;

(E) the obligation of an authorized outfitter to defend and indemnify the United States in accordance with section 8;

(F) a principal allocation of outfitter use, and, if appropriate, a temporary allocation of use, in accordance with section 9;

(G) a plan to conduct performance evaluations in accordance with section 10;

(H) renewal or termination of an outfitter permit in accordance with section 11;

(I) transfer of an outfitter permit in accordance with section 12;

(J) a means of modifying an outfitter permit to reflect material changes from the terms and conditions specified in the outfitter permit;

(K) notice of a right of appeal and judicial review in accordance with section 14; and

(L) such other terms and conditions as the Secretary may require.

(2) EXTENSIONS.—The Secretary may award not more than 3 temporary 1-year extensions of an outfitter permit, unless the Secretary determines that extraordinary circumstances warrant additional extensions.

(f) LIMITED OUTFITTER AUTHORIZATIONS.—

(1) IN GENERAL.—The Secretary may issue a limited outfitter authorization to an applicant for incidental occupancy and use of Federal land for the purpose of conducting a commercial outfitted activity on a limited basis.

(2) TERM.—A limited outfitter authorization shall have a term of not to exceed 2 years.

(3) REISSUANCE OR RENEWAL.—A limited outfitter authorization may be reissued or renewed at the discretion of the Secretary.

SEC. 7. AUTHORIZATION FEES.

(a) AMOUNT OF FEE.—

(1) IN GENERAL.—An outfitter permit shall provide for payment to the United States of a fair and reasonable authorization fee, as determined by the Secretary.

(2) DETERMINATION OF AMOUNT OF FEE.—In determining the amount of an authorization fee, the Secretary shall take into consideration—

(A) the obligations of the outfitter under the outfitter permit;

(B) the provision of a reasonable opportunity for net profit in relation to capital invested; and

(C) economic conditions.

(b) ESTABLISHMENT OF AMOUNT APPLICABLE TO AN OUTFITTER PERMIT.—

(1) IN GENERAL.—The amount of the authorization fee paid to the United States for the term of an outfitter permit shall be specified in the outfitter permit.

(2) REQUIREMENTS.—The amount of the authorization fee—

(A)(i) shall be expressed as—

(I) a simple charge per day of actual use; or

(II) an annual or seasonal flat fee;

(ii) if calculated as a percentage of revenue, shall be determined based on adjusted gross receipts; or

(iii) with respect to a commercial outfitted activity conducted in the State of Alaska, shall be based on a simple charge per user day;

(B) shall be subordinate to the objectives of—

(i) conserving resources;

(ii) protecting the health and welfare of the public; and

(iii) providing reliable, consistent performance in conducting outfitted activities; and

(C) shall be required to be paid by an authorized outfitter to the United States on a reasonable schedule during the operating season.

(3) ADJUSTED GROSS RECEIPTS.—For the purpose of paragraph (2)(A)(ii), the Secretary shall—

(A) take into consideration revenue from the gross receipts of the authorized outfitter from commercial outfitted activities conducted on Federal land; and

(B) exclude from consideration any revenue that is derived from—

(i) fees paid by the authorized outfitter to any unit of Federal, State, or local government for—

(I) hunting or fishing licenses;

(II) entrance or recreation fees; or

(III) other purposes (other than commercial outfitted activities conducted on Federal land);

(ii) goods and services sold to outfitted visitors that are not within the scope of authorized outfitter activities conducted on Federal land; or

(iii) operations on non-Federal land.

(4) SUBSTANTIALLY SIMILAR SERVICES IN A SPECIFIC GEOGRAPHIC AREA.—

(A) IN GENERAL.—Except as provided in subparagraph (B), if more than 1 outfitter permit is awarded to conduct the same or similar commercial outfitted activities in the same resource area, the Secretary shall establish an identical fee for all such outfitter permits.

(B) EXCEPTION.—The terms and conditions of an existing outfitter permit shall not be subject to modification or open to renegotiation by the Secretary because of the award of a new outfitter permit at the same resource area for the same or similar commercial outfitted activities.

(5) ACTUAL USE.—

(A) IN GENERAL.—For the purpose of calculating an authorization fee for actual use under clauses (ii) and (iii) of paragraph (2)(A), the sum of authorization fees proportionately assessed per outfitted visitor in a single calendar day for commercial outfitted activities at more than 1 resource area shall be not greater than the equivalent fee charged for 1 full user day.

(B) RECONSIDERATION OF FEE.—The authorization fee may be reconsidered during the term of the outfitter permit in accordance with paragraph (6) or section 9(c)(3) at the request of the Secretary or the authorized outfitter.

(6) ADJUSTMENT OF FEES.—The amount of an authorization fee—

(A) shall be determined as of the date of the outfitter permit; and

(B) may be modified to reflect—

(i) changes relating to the terms and conditions of the outfitter permit, including 1 or more outfitter permits described in paragraph (5);

(ii) extraordinary unanticipated changes affecting operating conditions, such as natural disasters, economic conditions, or other material adverse changes from the terms and conditions specified in the outfitter permit;

(iii) changes affecting operating or economic conditions determined by other governing entities, such as the availability of State fish or game licenses; or

(iv) the imposition of new or higher fees assessed under other law.

(c) ESTABLISHMENT OF AMOUNT APPLICABLE TO A LIMITED OUTFITTER AUTHORIZATION.—The Secretary shall determine the amount of an authorization fee, if any, under a limited outfitter authorization.

SEC. 8. LIABILITY AND INDEMNIFICATION.

(a) IN GENERAL.—An authorized outfitter shall defend and indemnify the United States for costs or expenses associated with injury, death, or damage to any person or property

caused by the authorized outfitter's negligence, gross negligence, or willful and wanton disregard for persons or property arising directly out of the authorized outfitter's conduct of a commercial outfitted activity under an outfitter authorization.

(b) **NO LIABILITY.**—An authorized outfitter—

(1) shall have no responsibility to defend or indemnify the United States, its agents, employees, or contractors, or third parties for costs or expenses associated with injury, death, or damage to any person or property caused by the acts, omissions, negligence, gross negligence, or willful and wanton misconduct of the United States, its agents, employees, or contractors, or third parties;

(2) shall not incur liability of any kind to the United States, its agents, employees, or contractors, or third parties as a result of the award of an outfitter authorization or as a result of the conduct of a commercial outfitted activity under an outfitter authorization absent a finding by a court of competent jurisdiction of negligence, gross negligence, or willful and wanton disregard for persons or property on the part of the authorized outfitter; and

(3) shall have no responsibility to defend or indemnify the United States, its agents, employees, or contractors, or third parties for costs or expenses associated with injury, death, or damage to any person or property resulting from the inherent risks of the commercial outfitted activity conducted by the authorized outfitter under the outfitter authorization or the inherent risks present on Federal land.

(c) **AGREEMENTS.**—An authorized outfitter may enter into contracts or other agreements with outfitted visitors, including agreements providing for release, waiver, indemnification, acknowledgment of risk, or allocation of risk.

SEC. 9. ALLOCATION OF USE.

(a) **IN GENERAL.**—In a manner that is not inconsistent with or incompatible with an approved resource management plan applicable to the resource area in which a commercial outfitted activity occurs, the Secretary—

(1) shall provide a principal allocation of outfitter use to an authorized outfitter under an outfitter permit; and

(2) may provide a temporary allocation of use to an authorized outfitter under an outfitter permit.

(b) **RENEWALS, TRANSFERS, AND EXTENSIONS.**—The Secretary shall provide a principal allocation of outfitter use to an authorized outfitter that—

(1) in the case of the renewal of an outfitter permit, is not inconsistent with or incompatible with the terms and conditions of an approved resource management plan applicable to the resource area in which the commercial outfitted activity occurs; or

(2) in the case of the transfer or temporary extension of an outfitter permit, is the same amount of principal allocation of outfitter use provided to the current authorized outfitter.

(c) **WAIVER.**—

(1) **IN GENERAL.**—At the request of an authorized outfitter, the Secretary may waive any obligation of the authorized outfitter to use all or part of the amount of allocation of use provided under the outfitter permit, if the request is made in sufficient time to allow the Secretary to temporarily reallocate the unused portion of the allocation of use in that season or calendar year.

(2) **RECLAIMING OF ALLOCATION OF USE.**—Unless the Secretary has reallocated the unused

portion of an allocation of use in accordance with paragraph (1), the authorized outfitter may reclaim any part of the unused portion in that season or calendar year.

(3) **NO FEE OBLIGATION.**—An outfitter permit fee may not be charged for any amount of allocation of use subject to a waiver under paragraph (1).

(d) **ADJUSTMENT TO ALLOCATION OF USE.**—The Secretary—

(1) may adjust an allocation of use assigned to an authorized outfitter to reflect—

(A) material change arising from approval of a change in the resource management plan for the area of operation; or

(B) requirements arising under other law; and

(2) shall provide an authorized outfitter with documentation supporting the basis for any adjustment in the principal allocation of outfitter use, including new terms and conditions that result from the adjustment.

(e) **TEMPORARY ALLOCATION OF USE.**—

(1) **IN GENERAL.**—A temporary allocation of use may be provided to an authorized outfitter at the discretion of the Secretary for a period not to exceed 2 years.

(2) **RENEWALS, TRANSFERS, AND EXTENSIONS.**—A temporary allocation of use may be renewed, transferred, or extended at the discretion of the Secretary.

SEC. 10. EVALUATION OF PERFORMANCE UNDER OUTFITTER PERMITS.

(a) **EVALUATION PROCESS.**—

(1) **IN GENERAL.**—The Secretary shall develop a process for annual evaluation of the performance of an authorized outfitter in conducting a commercial outfitted activity under an outfitter permit.

(2) **EVALUATION CRITERIA.**—Criteria to be used by the Secretary to evaluate the performance of an authorized outfitter shall—

(A) be objective, measurable, and reasonably attainable; and

(B) include—

(i) standards generally applicable to all commercial outfitted activities;

(ii) standards specific to a resource area, an individual outfitter operation, or a type of commercial outfitted activity; and

(iii) such other terms and conditions of the outfitter permit as are agreed to by the Secretary and the authorized outfitter as measurements of performance.

(3) **SPECIAL RULE FOR ALASKA.**—With respect to commercial outfitted activities conducted in the State of Alaska, objectives relating to conservation of natural resources and the taking of fish and game shall not be inconsistent with the laws (including regulations) of the Alaska Department of Fish and Game.

(4) **REQUIREMENTS.**—In evaluating the level of performance of an authorized outfitter, the Secretary shall—

(A) appropriately account for factors beyond the control of the authorized outfitter, including conditions described in section 7(b)(6)(B);

(B) ensure that the effect of any performance deficiency reflected by the performance rating is proportionate to the severity of the deficiency, including any harm that may have resulted from the deficiency; and

(C) allow additional credit to be earned for elements of performance that exceed the requirements of the outfitter permit.

(b) **LEVELS OF PERFORMANCE.**—The Secretary shall define 3 levels of performance, as follows:

(1) **Good**, indicating a level of performance that fulfills the terms and conditions of the outfitter permit.

(2) **Marginal**, indicating a level of performance that, if not corrected, will result in an unsatisfactory level of performance.

(3) **Unsatisfactory**, indicating a level of performance that fails to fulfill the terms and conditions of the outfitter permit.

(c) **PERFORMANCE EVALUATION.**—

(1) **EVALUATION SYSTEM.**—The Secretary shall establish a performance evaluation system that assures the public of continued availability of dependable commercial outfitted activities and discontinues any authorized outfitter that fails to meet the required standards.

(2) **PROCEDURE.**—An authorized outfitter shall be entitled—

(A) to be present, or represented, at inspections of operations or facilities, which inspections shall be limited to the operations and facilities of the authorized outfitter located on Federal land;

(B) to receive written notice of any conduct or condition that, if not corrected, might lead to a performance evaluation of marginal or unsatisfactory, which notice shall include an explanation of needed corrections and provide a reasonable period of time in which the corrections may be made without penalty; and

(C) to receive written notice of the results of the performance evaluation not later than 30 days after the conclusion of the authorized outfitter's operating season, including the level of performance and the status of corrections that may have been required.

(d) **MARGINAL PERFORMANCE.**—If an authorized outfitter's level of performance for a year is determined to be marginal, and the authorized outfitter fails to complete the corrections within the time period specified under subsection (c)(2)(B), the level of performance shall be determined to be unsatisfactory for the year.

(e) **DETERMINATION OF ELIGIBILITY FOR RENEWAL.**—

(1) **IN GENERAL.**—The results of all annual performance evaluations of an authorized outfitter shall be reviewed by the Secretary in the year preceding the year in which the outfitter permit expires to determine whether the authorized outfitter's overall performance during the term has met the requirements for renewal under section 11.

(2) **FAILURE TO EVALUATE.**—If, in any year of the term of an outfitter permit, the Secretary fails to evaluate the performance of the authorized outfitter by the date that is 60 days after the conclusion of the authorized outfitter's operating season, the performance of the authorized outfitter in that year shall be considered to have been good.

(3) **NOTICE.**—Not later than 60 days after the end of the year preceding the year in which an outfitter permit expires, the Secretary shall provide the authorized outfitter with the cumulative results of performance evaluations conducted under this subsection during the term of the outfitter permit.

(4) **UNSATISFACTORY PERFORMANCE IN FINAL YEAR.**—If an authorized outfitter receives an unsatisfactory performance rating under subsection (d) in the final year of the term of an outfitter permit, the review and determination of eligibility for renewal of the outfitter permit under paragraph (1) shall be revised to reflect that result.

SEC. 11. RENEWAL OR TERMINATION OF OUTFITTER PERMITS.

(a) **RENEWAL AT EXPIRATION OF TERM.**—

(1) **IN GENERAL.**—On expiration of the term of an outfitter authorization, the Secretary shall renew the authorization in accordance with paragraph (2).

(2) **DETERMINATION BASED ON ANNUAL PERFORMANCE RATING.**—The Secretary shall

renew an outfitter authorization under paragraph (1) at the request of the authorized outfitter and subject to the requirements of this Act if the Secretary determines that the authorized outfitter has received not more than 1 unsatisfactory annual performance rating under section 10 during the term of the outfitter permit.

(b) **TERMINATION.**—An outfitter permit may be terminated only if the Secretary determines that—

(1) the authorized outfitter has failed to correct a condition for which the authorized outfitter received notice under section 10(c)(2)(B) and the condition is considered by the Secretary to be significant with respect to the health and welfare of outfitted visitors or the conservation of resources;

(2) the authorized outfitter is repeatedly in arrears in the payment of fees under section 7; or

(3) the authorized outfitter's conduct demonstrates repeated and willful disregard for—

(A) the health and welfare of outfitted visitors; or

(B) the conservation of resources on which the commercial outfitted activities are conducted.

SEC. 12. TRANSFERABILITY OF OUTFITTER PERMITS.

(a) **IN GENERAL.**—An outfitter permit shall not be transferred (including assigned or otherwise conveyed or pledged) by the authorized outfitter without prior written notification to, and approval by, the Secretary.

(b) **APPROVAL.**—

(1) **IN GENERAL.**—The Secretary shall approve a transfer of an outfitter permit unless the Secretary determines that the transferee does not have sufficient professional, financial, and other resources or business experience to be capable of performing under the outfitter permit for the remainder of the term of the outfitter permit.

(2) **QUALIFIED TRANSFEREES.**—Subject to section 6(d)(1), the Secretary shall approve a transfer of an outfitter permit—

(A) to a purchaser of the operation of the authorized outfitter;

(B) at the request of the authorized outfitter, to an assignee, partner, or stockholder or other owner of an interest in the operation of the authorized outfitter; or

(C) on the death of the authorized outfitter, to an heir or assign.

(c) **NO MODIFICATION AS CONDITION OF APPROVAL.**—The terms and conditions of an outfitter permit shall not be subject to modification or open to renegotiation by the Secretary because of a transfer described in subsection (a), unless the terms and conditions of the outfitter permit that is proposed to be transferred have become inconsistent or incompatible with an approved resource management plan for the resource area as a result of a modification to the plan.

(d) **CONSIDERATION PERIOD.**—

(1) **THRESHOLD FOR AUTOMATIC APPROVAL.**—Subject to paragraph (2), if the Secretary fails to approve or disapprove the transfer of an outfitter permit within 90 days after the date of receipt of an application containing the information required with respect to the transfer, the transfer shall be deemed to have been approved.

(2) **EXTENSION.**—The Secretary and the authorized outfitter making application for transfer of an outfitter permit may agree to extend the period for consideration of the application.

(e) **CONTINUANCE OF OUTFITTER PERMIT.**—If the transfer of an outfitter permit is not approved by the Secretary or if the transfer is not subsequently made, the outfitter permit shall remain in effect.

SEC. 13. RECORDKEEPING REQUIREMENTS.

(a) **IN GENERAL.**—An authorized outfitter shall keep such reasonable records as the Secretary may require to enable the Secretary to determine that all the terms of the outfitter authorization have been and are being carried out.

(b) **BURDEN ON AUTHORIZED OUTFITTER.**—The recordkeeping requirements established by the Secretary shall incorporate simplified procedures that do not impose an undue burden on an authorized outfitter.

(c) **ACCESS TO RECORDS.**—The Secretary, or an authorized representative of the Secretary, shall, until the end of the fifth calendar year beginning after the end of the business year of an authorized outfitter, have access to and the right to examine any books, papers, documents, and records of the authorized outfitter relating to each outfitter authorization held by the authorized outfitter during the business year.

SEC. 14. APPEALS AND JUDICIAL REVIEW.

(a) **APPEALS PROCEDURE.**—The Secretary shall by regulation—

(1) grant an authorized outfitter full access to administrative remedies under the Secretary's authority at the time of an appeal; and

(2) establish an expedited procedure for consideration of appeals of Federal agency decisions to deny, suspend, fail to renew, or terminate an outfitter permit.

(b) **JUDICIAL REVIEW.**—An authorized outfitter that is adversely affected by a final decision of the Secretary under this Act may commence a civil action in United States district court.

SEC. 15. INSTITUTIONAL RECREATION PROGRAMS.

(a) **IN GENERAL.**—The Secretary shall manage the occupancy and use of Federal land by institutional recreation programs that conduct outfitted activities under this Act.

(b) **REQUIREMENTS.**—In managing an institutional recreation program authorized under this Act, the Secretary shall require that the program—

(1) operate in a manner that is not inconsistent with or incompatible with an approved resource management plan applicable to the resource area in which the outfitted activity is conducted;

(2) provide for the health and welfare of members of the sponsoring organization or affiliated participants; and

(3) ensure the conservation of resources.

SEC. 16. CONSISTENCY WITH OTHER LAW AND RIGHTS.

(a) **CONSISTENCY WITH OTHER LAW.**—Each program of outfitted activities carried out on Federal land shall be consistent with the mission of the administering Federal agency and all laws (including regulations) applicable to the outfitted activities.

(b) **CONSISTENCY WITH RIGHTS OF UNITED STATES.**—Nothing in this Act limits or restricts any right, title, or interest of the United States in or to any land or resource.

SEC. 17. REGULATIONS.

Not later than 2 years after the date of enactment of this Act, the Secretary shall promulgate such regulations as are appropriate to carry out this Act.

SEC. 18. RELATIONSHIP TO OTHER LAW.

(a) **NATIONAL PARK OMNIBUS MANAGEMENT ACT OF 1998.**—Nothing in this Act supersedes or otherwise affects any provision of title IV of the National Park Omnibus Management Act of 1998 (16 U.S.C. 5951 et seq.).

(b) **STATE OUTFITTER LICENSING LAW.**—This Act does not preempt any outfitter or guide licensing law (including any regulation) of any State or territory.

SEC. 19. TRANSITION PROVISIONS.

(a) **IN GENERAL.**—

(1) **OUTFITTERS WITH SATISFACTORY RATINGS.**—An outfitter that holds a permit, contract, or other authorization to conduct commercial outfitted activities (or an extension of such a permit, contract, or other authorization) in effect on the date of enactment of this Act shall be entitled, on request or on expiration of the authorization, to the issuance of an outfitter permit under this Act if a recent performance evaluation determined that the outfitter's aggregate performance under the permit, contract, or other authorization was good or was the equivalent of good, satisfactory, or acceptable under a rating system in use before the date of enactment of this Act.

(2) **OUTFITTERS WITH NO RATINGS.**—For the purpose of paragraph (1), if no recent performance evaluation exists with respect to an outfitter, the outfitter's aggregate performance under the permit, contract, or other authorization shall be deemed to be good.

(b) **EFFECT OF ISSUANCE OF OUTFITTER PERMIT.**—The issuance of an outfitter permit under subsection (a) shall not adversely affect any right or obligation that existed under the permit, contract, or other authorization (or an extension of the permit, contract, or other authorization) on the date of enactment of this Act.

By Mr. SPECTER:

S. 1970. A bill to amend chapter 171 of title 28, United States Code, with respect to the liability of the United States for claims of military personnel for damages for certain injuries; to the Committee on the Judiciary.

FERES DOCTRINE REVERSAL LEGISLATION

Mr. SPECTER. Mr. President, I seek recognition to introduce a bill which will overturn what has come to be known as the "Feres doctrine." In the 1950 case of *Feres v. U.S.*, the Supreme Court held that the United States Government is not liable under the Federal Tort Claims Act for injuries to military personnel where the injuries are sustained "incident to service." Under the Feres doctrine, therefore, a soldier would not be able to seek compensation from the government for injuries sustained due to government negligence unless the soldier happened to be on leave or furlough at the time he or she sustained the injuries.

Over the years, we have seen the Feres doctrine produce anomalous results which reflect neither the will of the Congress nor basic common sense. For instance, under Feres, a soldier who is the victim of medical malpractice at an army hospital cannot sue the government for compensation. Likewise, his family cannot sue for compensation if the soldier dies from the malpractice. But a civilian who suffers from the same malpractice would be entitled to file suit against the government. Likewise, if a soldier driving home from work on an army base is hit by a negligently driven army truck, he is barred from suing the government for compensation. If the soldier dies in the accident, his family will be barred from suing for

compensation. Meanwhile, a civilian hit by the same truck would have a cause of action against the United States. Unfortunately, the individuals hurt by the Feres doctrine are the men and women of our armed forces—people whom we should protect and reward, not punish.

The recent decision of the Third Circuit Court of Appeals in *O'Neil v. United States* illustrates the troubling results produced by the Feres doctrine. In *O'Neil*, the family of slain Naval officer Kerryn O'Neil was barred from pursuing a wrongful death claim against the government under the Feres doctrine. O'Neil was murdered by her former fiancé, George Smith, a Navy ensign. The two met at the U.S. Naval Academy and were stationed at the same Naval base in California. After Ms. O'Neil broke off their engagement, Mr. Smith began to stalk her. One night while Ms. O'Neil was sitting in her on-base apartment watching a movie with a friend, Smith came to her building and killed her, her friend, and then himself.

After the murders, Kerryn O'Neil's family learned that Mr. Smith had scored in the 99.99th percentile for aggressive/destructive behavior in Navy psychological tests. Under Naval procedures, these results should have been forwarded to the Department of Psychiatry at the Naval Hospital for a full psychological evaluation. Had their claim not been barred, the O'Neils would have argued that the Navy was negligent in failing to follow up on these extreme test results. I do not know whether the O'Neils deserved to be compensated under the Act—this depends on the specific facts and the case law in this area. But it does seem clear to me that the O'Neils should not have been barred from pursuing their claim because their daughter's fatal injuries were sustained "incident to service."

Of course, there are situations in which soldiers should not be allowed to sue the government in tort. For example, in a combat situation, countless judgment calls are made which result in death or injuries to soldiers. We cannot have lawyers and juries second guessing the decisions made by field commanders and combatants in the heat of battle. But such considerations do not necessitate that military personnel should lose the right to sue the government in any context.

The bill I introduce today will reverse the court-created Feres doctrine and return the law to the way it was originally intended by Congress. My bill is very short and simple. It amends the Federal Tort Claims Act to specifically provide that the Act applies to military personnel on active duty the same as it applies to anyone else. My bill further specifies that military personnel will be limited by the exceptions to government liability already included in the Act, including the bar

on liability for injuries sustained by military personnel in combat and the bar on liability for claims which arise in a foreign country. In short, my bill will ensure that members of our armed forces will be entitled to damages they deserve when injured through the negligence or wrongful actions of the Federal government or its agents, except for certain limited cases contemplated by Congress when it originally passed the Act.

Congress passed the Federal Tort Claims Act in 1946 to give the general consent of the government to be sued in tort, subject to several specific restrictions. Under the common law doctrine of sovereign immunity, the United States cannot be sued without such specific consent. The Act provides that the government will be held liable "in the same manner and to the same extent as a private individual under the circumstances." Thus, the Act makes the United States liable for the torts of its employees and agents to the extent that private employers are liable under state law for the torts of their employees and agents.

The Act contains many exceptions to government liability, but it does not contain an explicit exception for injuries sustained by military personnel incident to service. In fact, one of the Act's exceptions prevents "any claim arising out of the combatant activities of the military or naval forces, or the Coast Guard during time of war." By including this exception, Congress clearly contemplated the special case of military personnel and decided that certain limits must be placed on government liability in this context. But by drawing this exception narrowly and limiting it to combat situations, Congress rejected any broad exception for injuries sustained "incident to service." The Supreme Court did far more than interpret our statute when it significantly broadened the limited combat exception provided by Congress. This bill leaves intact the government's exemption for injuries sustained in combat.

The Feres doctrine has been the subject of harsh criticism by some of the leading jurists in the nation. In the 1987 case of *United States v. Johnson*, a 5 to 4 majority of the Supreme Court held that the Feres doctrine bars suits on behalf of military personnel injured incident to service even in cases of torts committed by employees of civilian agencies. Justice Scalia wrote a scathing dissent in *Johnson*, in which he was joined by Justices Brennan, Marshall, and Stevens. Scalia wrote that Feres was "wrongly decided and heartily deserves the widespread, almost universal criticism it has received."

Judge Edward Becker, the Chief Judge of the Third Circuit Court of Appeals, has also spoken out strongly against the Feres doctrine. He has

noted that "the scholarly criticism of the doctrine is legion" and has urged the Supreme Court to grant cert. to reconsider Feres. Judge Becker has written to me that given the failure of the Court to overturn Feres thus far, I should introduce legislation doing so.

Even in the Feres opinion itself, the Supreme Court expressed an uncharacteristic doubt about its decision. The justices recognized that they may be misinterpreting the Federal Tort Claims Act. They called upon Congress to correct their mistake if this were the case. The Court wrote:

There are few guiding materials for our task of statutory construction. No committee reports or floor debates disclose what effect the statute was designed to have on the problem before us, or that it even was in mind. Under these circumstances, no conclusion can be above challenge, but if we misinterpret the Act, at least Congress possesses a ready remedy.

Congress does possess a ready remedy, and I call upon my colleagues to exercise it. The bill I introduce today will eliminate the judicially created Feres doctrine and revive the original framework of the Federal Tort Claims Act. There is no reason to deny compensation to the men and women of our armed services who are injured or killed in domestic accidents or violence outside the heat of combat. I hope that when we resume our business next year my colleagues will join me in supporting and passing this legislation.

ADDITIONAL COSPONSORS

S. 211

At the request of Mr. MOYNIHAN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 211, a bill to amend the Internal Revenue Code of 1986 to make permanent the exclusion for employer-provided educational assistance programs, and for other purposes.

S. 279

At the request of Mr. MCCAIN, the name of the Senator from Tennessee (Mr. FRIST) was added as a cosponsor of S. 279, a bill to amend title II of the Social Security Act to eliminate the earnings test for individuals who have attained retirement age.

S. 345

At the request of Mr. ALLARD, the names of the Senator from Minnesota (Mr. GRAMS) and the Senator from West Virginia (Mr. BYRD) were added as cosponsors of S. 345, a bill to amend the Animal Welfare Act to remove the limitation that permits interstate movement of live birds, for the purpose of fighting, to States in which animal fighting is lawful.

S. 486

At the request of Mr. EDWARDS, his name was added as a cosponsor of S. 486, a bill to provide for the punishment of methamphetamine laboratory operators, provide additional resources

to combat methamphetamine production, trafficking, and abuse in the United States, and for other purposes.

At the request of Mr. HATCH, his name, and the name of the Senator from Delaware (Mr. BIDEN) were added as cosponsors of S. 486, *supra*.

S. 1020

At the request of Mr. GRASSLEY, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 1020, a bill to amend chapter 1 of title 9, United States Code, to provide for greater fairness in the arbitration process relating to motor vehicle franchise contracts.

S. 1109

At the request of Mr. MCCONNELL, the names of the Senator from Arizona (Mr. KYL) and the Senator from Missouri (Mr. BOND) were added as cosponsors of S. 1109, a bill to conserve global bear populations by prohibiting the importation, exportation, and interstate trade of bear viscera and items, products, or substances containing, or labeled or advertised as containing, bear viscera, and for other purposes.

S. 1197

At the request of Mr. ROTH, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1197, a bill to prohibit the importation of products made with dog or cat fur, to prohibit the sale, manufacture, offer for sale, transportation, and distribution of products made with dog or cat fur in the United States, and for other purposes.

S. 1257

At the request of Mr. HATCH, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 1257, a bill to amend statutory damages provisions of title 17, United States Code.

S. 1380

At the request of Mr. HATCH, the name of the Senator from Virginia (Mr. ROBB) was added as a cosponsor of S. 1380, a bill to provide for a study of long-term care needs in the 21st century.

S. 1419

At the request of Mr. MCCAIN, the names of the Senator from Oklahoma (Mr. NICKLES), the Senator from Tennessee (Mr. THOMPSON), and the Senator from Alaska (Mr. STEVENS) were added as cosponsors of S. 1419, a bill to amend title 36, United States Code, to designate May as "National Military Appreciation Month."

S. 1447

At the request of Mr. WELLSTONE, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1447, a bill to amend the Public Health Service Act, Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to provide for nondiscriminatory coverage for substance abuse treatment service under private group and individual health coverage.

S. 1500

At the request of Mr. HATCH, the name of the Senator from Wyoming (Mr. ENZI) was added as a cosponsor of S. 1500, a bill to amend title XVIII of the Social Security Act to provide for an additional payment for services provided to certain high-cost individuals under the prospective payment system for skilled nursing facility services, and for other purposes.

S. 1590

At the request of Mr. CRAPO, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1590, a bill to amend title 49, United States Code, to modify the authority of the Surface Transportation Board, and for other purposes.

S. 1668

At the request of Mr. KERRY, the name of the Senator from New York (Mr. MOYNIHAN) was added as a cosponsor of S. 1668, a bill to amend title VII of the Civil Rights Act of 1964 to establish provisions with respect to religious accommodation in employment, and for other purposes.

S. 1708

At the request of Mr. MOYNIHAN, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 1708, a bill to amend the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986 to require plans which adopt amendments that significantly reduce future benefit accruals to provide participants with adequate notice of the changes made by such amendments.

S. 1812

At the request of Mr. WARNER, the names of the Senator from Nebraska (Mr. HAGEL), the Senator from New York (Mr. MOYNIHAN), the Senator from Maine (Ms. SNOWE), the Senator from Oregon (Mr. SMITH), and the Senator from Connecticut (Mr. LIEBERMAN) were added as cosponsors of S. 1812, a bill to establish a commission on a nuclear testing treaty, and for other purposes.

S. 1823

At the request of Mr. DEWINE, the name of the Senator from Iowa (Mr. GRASSLEY) was added as a cosponsor of S. 1823, a bill to revise and extend the Safe and Drug-Free Schools and Communities Act of 1994.

S. 1900

At the request of Mr. LAUTENBERG, the names of the Senator from Nevada (Mr. REID), the Senator from Wisconsin (Mr. FEINGOLD), and the Senator from Washington (Mrs. MURRAY) were added as cosponsors of S. 1900, a bill to amend the Internal Revenue Code of 1986 to allow a credit to holders of qualified bonds issued by Amtrak, and for other purposes.

S. 1954

At the request of Mr. BINGAMAN, the name of the Senator from Tennessee (Mr. FRIST) was added as a cosponsor of

S. 1954, a bill to establish a compensation program for employees of the Department of Energy, its contractors, subcontractors, and beryllium vendors, who sustained beryllium-related illness due to the performance of their duty; to establish a compensation program for certain workers at the Paducah, Kentucky, gaseous diffusion plant; to establish a pilot program for examining the possible relationship between workplace exposure to radiation and hazardous materials and illnesses or health conditions; and for other purposes.

SENATE CONCURRENT RESOLUTION 53

At the request of Mrs. FEINSTEIN, the name of the Senator from Washington (Mr. GORTON) was added as a cosponsor of Senate Concurrent Resolution 53, a concurrent resolution condemning all prejudice against individuals of Asian and Pacific Island ancestry in the United States and supporting political and civic participation by such individuals throughout the United States.

SENATE RESOLUTION 91

At the request of Mr. NICKLES, his name was added as a cosponsor of Senate Resolution 91, a resolution expressing the sense of the Senate that Jim Thorpe should be recognized as the "Athlete of the Century."

SENATE RESOLUTION 118

At the request of Mr. REID, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of Senate Resolution 118, a resolution designating December 12, 1999, as "National Children's Memorial Day."

SENATE RESOLUTION 128

At the request of Mr. COCHRAN, the names of the Senator from Virginia (Mr. ROBB) and the Senator from Nevada (Mr. REID) were added as cosponsors of Senate Resolution 128, a resolution designating March 2000, as "Arts Education Month."

SENATE CONCURRENT RESOLUTION 76—EXPRESSING THE SENSE OF CONGRESS REGARDING A PEACEFUL RESOLUTION OF THE CONFLICT IN THE STATE OF CHIAPAS, MEXICO AND FOR OTHER PURPOSES

Mr. LEAHY (for himself, Mr. KENNEDY, Mrs. FEINSTEIN, Mr. JEFFORDS, Mr. TORRICELLI, Mrs. MURRAY, Mr. DURBIN, Mr. WELLSTONE, Mr. FEINGOLD, Mr. HARKIN, Mr. KERRY, Ms. MIKULSKI, and Mrs. BOXER) submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 76

Whereas the United States and Mexico have a long history of close relations and share a wide range of interests;

Whereas a democratic, peaceful and prosperous Mexico is of vital importance to the security of the United States.

Whereas the United States Government provides assistance and licenses exports of

military equipment to Mexican security forces for counter-narcotics purposes;

Whereas the Department of State's 1998 Country Report on Human Rights Practices in Mexico stated that a "culture of impunity pervades the security forces" and documented human rights violations, including arbitrary detention, torture, extrajudicial killings, and disappearances, by these forces;

Whereas confrontations in August 1999 between members of the Mexican military and supporters of the Zapatista National Liberation Army (EZLN) in Chiapas, Mexico are representative of the political tension and violence that has plagued the region for years;

Whereas the conflict has its roots in the poverty and injustice suffered by the indigenous people of Chiapas, and shared by the poor in the neighboring states of Oaxaca and Guerrero;

Whereas the lack of progress in implementing a preliminary peace agreement signed in 1996 and the intimidating level of militarization by the Mexican army, paramilitary groups and the EZLN has resulted in the forced displacement of thousands of indigenous people and exacerbated the impoverished conditions in Chiapas;

Whereas on September 14, 1999, the Commission for Peace and Reconciliation in Chiapas of the Conference of Mexican Catholic Bishops urged the Government of Mexico to consider relocating military forces in Chiapas to only those positions absolutely necessary to maintaining the integrity and security of Mexico;

Whereas the Government of Mexico has devoted resources to reduce poverty in Chiapas, but the breakdown in peace negotiations and the lack of trust between the Mexican Government and some indigenous communities have limited the impact of that assistance;

Whereas on September 7, 1999, the Government of Mexico pledged to renew dialogue with the EZLN, support the formation of a new mediation team, and investigate human rights abuses in Chiapas;

Whereas the EZLN has not yet accepted the Government of Mexico's overtures to resume negotiations; and

Whereas the summary expulsions of American citizens and human rights monitors from Mexico are inconsistent with the freedoms of movement, association and expression: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring). That it is the sense of Congress that the Secretary of State should—

(1) take effective measures to ensure that United States assistance and exports of equipment to Mexican security forces—

(A) are used primarily for counter-narcotics purposes; and

(B) are not provided to units of security forces that have been implicated in human rights violations, unless the Government of Mexico is taking effective measures to bring the individuals responsible to justice;

(2) encourage the EZLN and the Government of Mexico to take steps to create conditions for good faith negotiations that address the social, economic and political causes of the conflict in Chiapas, to achieve a peaceful and lasting resolution of the conflict, and to vigorously pursue such negotiations;

(3) commend the Government of Mexico for its renewed commitment to negotiations and for establishing a date for the United Nations High Commissioner for Human Rights to visit Mexico to discuss human rights concerns there;

(4) give a higher priority in discussions with the Government of Mexico to criminal justice reforms that protect human rights, emphasizing United States concerns about arbitrary detention, torture, extra judicial killings, and disappearances, and the failure to prosecute individuals responsible for these crimes; and

(5) urge the Government of Mexico to implement the recommendations of the Inter-American Commission on Human Rights, particularly with regard to American citizens and others who have been summarily expelled from Mexico in violation of Mexican law and international law.

Mr. LEAHY. Mr. President, I am today submitting a concurrent resolution expressing the sense of Congress regarding measures to achieve a peaceful settlement of the conflict in the state of Chiapas, Mexico.

This resolution is cosponsored by Senators KENNEDY, FEINSTEIN, JEFFORDS, TORRICELLI, MURRAY, DURBIN, WELLSTONE, FEINGOLD, HARKIN, KERRY, MIKULSKI, and BOXER.

Congresswoman NANCY PELOSI is introducing an identical resolution today in the House of Representatives.

The purpose of this resolution is to convey our support for a peaceful settlement of the conflict in Chiapas that has been simmering since the Zapatista uprising in 1994. Since then, and despite repeated attempts at negotiations, the situation remains tense and prospects for productive dialogue remote. In August, armed confrontations between members of the Mexican military and Zapatista supporters in Chiapas was a reminder of the political violence that has plagued the region for years. I submitted a similar resolution just over a year ago and, unfortunately, the situation remains largely unchanged.

This resolution does not attempt to take sides or to dictate an outcome of that conflict. It is not meant to embarrass or interfere in Mexico's internal affairs. The situation in Chiapas is a complex one that has social, ethnic, economic and political dimensions. It is a manifestation of years of Mexican history. It is for the Mexican people to resolve.

But despite its complexities, there is no doubt that the indigenous people of Chiapas have been the victims of injustice for centuries. Most do not own any land and they live—as their parents and grandparents did—in abject poverty. The 1994 Zapatista uprising, in which some 150 people died, was a reflection of that injustice and despair, and the political tension and violence of recent years has only exacerbated their plight.

To his credit, President Zedillo has devoted considerable financial resources to address the poverty and lack of basic services in Chiapas. On September 7, 1999, he pledged to renew dialogue with the Zapatistas and investigate human rights abuses there. The scheduled November 23rd visit to Mexico by Mary Robinson, the United Na-

tions High Commissioner for Human Rights, is an important and welcome development. I am hopeful that the Mexican Government will engage in an open dialogue with Ms. Robinson and that progress can be made on ways to further promote and protect human rights in Mexico.

Despite these positive steps, however, Mexican officials indicate that they expect little progress toward resolving the conflict before the presidential elections in July 2000. This is very disappointing. While mistrust runs deep on both sides, a great deal can be accomplished in eight months if the parties to the conflict are willing to take the steps to create conditions for good faith negotiations to succeed, and then sit down at the table together.

There is little evidence that the Mexican Government's strategy is working. Since early 1998, the Zedillo administration has, on the one hand, lavishly funded social programs in those indigenous communities in Chiapas that are willing to accept them. On the other hand, Mexican troops have tightened their grip on the impoverished communities of Zapatista supporters. They patrol the roads in and out of Chiapas in armored vehicles, brandishing weapons and establishing military check-points and bases when it is abundantly clear that neither the communities, nor the Zapatistas themselves, pose a credible threat to the Mexican Government. In addition, paramilitary forces, responsible for some of the worst atrocities, continue to operate in the region.

Human rights monitors, including Mexican citizens, have been harassed, and foreigners, including American citizens, have been summarily expelled from Mexico for activities that amount to nothing more than criticizing the policies of the Mexican Government.

The Zapatistas have also contributed to their isolation. They have not accepted the Mexican Government's recent overtures to resume dialogue and seem resigned to wait in their jungle stronghold until there is a new government before considering a return to talks. Again, July is a long way away, especially for the Zapatistas' supporters who struggle every day just to find food and shelter for themselves and their families. They have suffered long enough.

Mr. President, this resolution calls on our Secretary of State to encourage the Mexican Government and the Zapatistas to support negotiations that address the underlying causes of the conflict, to achieve a lasting peace. It seeks to convey our concern about the people of Chiapas, and the urgent need for concrete progress to resolve a conflict that has cost many innocent lives and threatens the economic and political development of our southern neighbor.

A stable, peaceful and prosperous Mexico is not only in the best interest

of all Mexicans, it is also in the economic and security interests of the United States. And human rights abuses, wherever and however they occur, deserve our attention.

The resolution urges the Secretary of State to ensure that the United States is not contributing to the political violence, by reaffirming current law which limits assistance and exports of equipment only to Mexican security forces who are primarily involved in counter-narcotics activities and who do not commit human rights abuses. In order to ensure that the law is faithfully implemented, the State Department needs to know who we train and who receives our equipment.

It calls on the Mexican Government to respect the freedoms of movement, association and expression by implementing the recommendations of the Inter-American Commission on Human Rights, particularly with regard to American citizens and others who have been summarily expelled from Mexico in violation of Mexican law and international law.

And it urges both sides to take initiatives for peace.

Mr. President, some may ask why we are submitting this resolution today, when this conflict has been simmering for years. It is my hope that in conjunction with Mary Robinson's visit next week, this Resolution will send a strong message to the Mexican Government, the Zapatistas, our own administration and the international community that an intensified effort is needed urgently to resolve the conflict peacefully.

SENATE RESOLUTION 233—EXPRESSING THE SENSE OF THE SENATE REGARDING THE URGENT NEED FOR THE DEPARTMENT OF AGRICULTURE TO RESOLVE CERTAIN MONTANA CIVIL RIGHTS DISCRIMINATION CASES

Mr. BAUCUS (for himself and Mr. BURNS) submitted the following resolution; which was referred to the Committee on Agriculture, Nutrition, and Forestry:

S. RES. 233

Whereas there exists a strong public policy against discrimination against minority groups, whether the discrimination is committed by private individuals or by the Federal Government in the operation of its programs;

Whereas, whenever discrimination occurs in the conduct of a Federal Government program, the responsible Federal Government agency should take quick and aggressive action to remedy the discrimination;

Whereas, last year, the Department of Agriculture was held accountable for certain civil rights violations against United States agricultural producers in connection with their attempted participation in lending programs of the Department;

Whereas, a significant number of Montana civil rights petitioners have not received a timely, and equitable resolution of their complaints;

Whereas the agricultural community has faced a series of hardships, including record low prices, extreme weather disasters, and a shortage of farm loan opportunities;

Whereas additional frustration and financial difficulties perpetuated by the inadequate review process has further imposed undue hardship on the Montana civil rights petitioners;

Whereas the mission of the Office of Civil Rights of the Department of Agriculture requires the Office to facilitate the fair and equitable treatment of customers and employees of the Department while ensuring the delivery and enforcement of civil rights programs and activities;

Whereas the Department of Agriculture should be committed to the policy of treating its customers with dignity and respect as well as to providing high quality and timely products and services; and

Whereas an urgent need exists for the Department of Agriculture to resolve certain Montana civil rights discrimination cases, many backlogged, by a date certain in furtherance of that policy: Now, therefore, be it

Resolved, That it is the sense of the Senate that, not later than March 1, 2000, the Secretary of Agriculture should resolve, or take other action to resolve, all cases pending on the date of approval of this resolution of alleged civil rights discrimination by the Department of Agriculture against agricultural producers located in the State of Montana.

• Mr. BAUCUS. Mr. President, I rise today to submit a sense-of-the-Senate Resolution regarding the urgent need for the U.S. Department of Agriculture to resolve its civil rights discrimination cases. On behalf of Senator BURNS, the bill's cosponsor, and myself, I urge the Senate to recognize the urgency of this situation.

Mr. President, there exists a strong public policy against discrimination against minority groups, whether the discrimination is committed by private individuals or by the Government in the operation of its programs, and it is our firmly held belief that whenever discrimination occurs in the conduct of Government programs, the responsible Government agencies should take quick and aggressive action to remedy such discrimination.

I am most concerned that over the past year, such action has not been taken by the U.S. Department of Agriculture's Office of Civil Rights. In fact, many Montana civil rights cases that my office and that of Senator's BURNS have been working with are seriously backlogged in the system and have consequently remained unsatisfactorily addressed.

We have worked hard with the Montana Department of Agriculture's Farm Agency to resolve these cases. The Director of the FSA and the State FSA Committee has worked hard to resolve any outstanding problems concerning its programs and have made certain that these kinds of problems do not occur in Montana. I commend their outreach efforts in ensuring the equitable delivery of the Agency's programs to all eligible Montana recipients.

We need a better working relationship with the USDA's Office of Civil

Rights to bring the outstanding cases to resolution in a timely manner. Repeated phone calls and requests have yielded few answers. For that reason, I am offering this resolution which binds the agency to its mission of facilitating the fair and equitable treatment of USDA customers and employees while ensuring the delivery and enforcement of civil rights programs and activities. Further we hope to commit the USDA to treating its customers with dignity and respect as well as to providing quality and timely products and services. Finally, the resolution resolves that not later than March 1, 2000, the Secretary should resolve all the outstanding cases of alleged civil rights discrimination by the Department of Agriculture.

It is high time to bring this issue to resolution, and I appreciate the Senate's consideration of this important matter. •

• Mr. BURNS. Mr. President. I am pleased to be joined by Mr. BAUCUS, in sponsoring a sense-of-the-Senate resolution which addresses the backlog of Montana civil rights complaints at the U.S. Department of Agriculture (USDA).

Last year, a finding was made that the USDA had, for decades, been guilty of violating many of America's producer's civil rights. When these producers tried to take advantage of the programs offered by the USDA they were treated differently than their friends and neighbors. We enacted Legislation last fall, that was intended to right this wrong. Even with passage of this provision, it remains a difficult challenge to ensure that those who have been harmed by USDA will receive a prompt and balanced resolution of their complaints.

It appears that a number of those previously investigated complaints have fallen into some sort of "black hole". Despite numerous phone calls and concerted pressure, no progress has been made in resolving these cases. We have been contacted by a number of Montanans who have shared horror stories about the treatment their cases have received from the USDA's Office of Civil Rights. These complaints are simply being ignored. The inadequacy of this process is adding insult to injury, keeping these producers in limbo and allowing their complaints to rest, unresolved. These constituents cannot get on with their lives until the USDA takes action. For those who have justified complaints, this delay is another slap in the face.

This resolution expresses the sense of the Senate that USDA's delays must stop. These cases must be resolved soon. It is our intent that they be resolved by March 1, 2000. These producers has suffered too much already. They cannot afford to wait any longer.

We look forward to working with members of other states affected by

this abuse of the civil rights program to resolve these complaints as quickly as possible.●

AMENDMENTS SUBMITTED

FURTHER CONTINUING RESOLUTION, 2000

BYRD (AND OTHERS) AMENDMENT NO. 2780

Mr. BYRD (for himself, Mr. McCONNELL, Mr. ROCKEFELLER, Mr. BUNNING, Mr. REID, Mr. CRAIG, Mr. BRYAN, Mr. HATCH, Mr. BENNETT, Mr. MURKOWSKI, Mr. CRAPO, Mr. ENZI, Mr. BURNS, Mr. KYL, Mr. BREAUX, Mr. SHELBY, Mr. GRAMM, and Mr. GRAMS) proposed an amendment to the joint resolution (H.J. Res. 82) making further continuing appropriations for the fiscal year 2000, and for other purposes, as follows:

At the appropriate place, insert the following:

SEC. ____ . DISPOSAL OF EXCESS SPOIL AND COAL MINE WASTE.

(a) IN GENERAL.—Notwithstanding any other provision of law (including any regulation or court ruling), hereafter—

(1) in rendering permit decisions for discharges of excess spoil and coal mine waste into waters of the United States from surface coal mining and reclamation operations, the permitting authority shall apply section 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344) and the section 404(b)(1) guidelines pursuant to section 404(b)(1) of the Federal Water Pollution Control Act (33 U.S.C. 1344(b)(1)) and implementing regulations set forth in part 230 of title 40, Code of Federal Regulations (as in effect on October 19, 1999);

(2) the permitted disposal of such spoil or waste meeting the requirements of the section 404(b)(1) guidelines referred to in paragraph (1) shall be deemed to satisfy the criteria for granting a variance under regulations set forth in sections 816.57 and 817.57 of title 30, Code of Federal Regulations, and applicable State regulations; and

(3) Federal and State water quality standards shall not apply to the portions of waters filled by discharges permitted pursuant to the procedures set forth in paragraphs (1) and (2); all applicable Federal and State water quality standards shall apply to all portions of waters other than those filled pursuant to the permitting procedures set forth in paragraphs (1) and (2).

(b) DURATION OF EFFECTIVENESS.—The permitting procedures specified in subsection (a) shall remain in effect until the later of—

(1) the date that is 2 years after the date of enactment of this Act; or

(2) the effective date of regulations promulgated to implement recommendations made as a result of the environmental impact statement relating to the permitting process, the preparation of which was announced at 64 Fed. Reg. 5800 (February 5, 1999).

(c) EFFECT OF SECTION.—Nothing in this section modifies, supersedes, undermines, displaces, or amends any requirement of, or regulation issued under, the Federal Water Pollution Control Act (commonly known as the "Clean Water Act") (33 U.S.C. 1251 et

seq.) or the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 et seq.), as applied by the responsible Federal agencies on October 19, 1999.

(d) PERIOD OF EFFECTIVENESS.—Notwithstanding any other provision of law repealing or terminating the effectiveness of this Act, this section shall remain in effect until the date of termination of the effectiveness of the permitting procedures in accordance with subsection (b).

SEC. ____ . HARDROCK MINING.

(a) IN GENERAL.—For the purposes of section 1000(a)(3) of division B of the Act enacting H.R. 3194 of the 106th Congress, in lieu of section 357 of title III of H.R. 3423 of the 106th Congress, as introduced on November 17, 1999, regarding the issuance of regulations on hardrock mining, the following shall apply:

(1) HARDROCK MINING.—None of the funds made available under this Act or any other Act shall be used by the Secretary of the Interior to promulgate final regulations to revise subpart 3809 of 43, Code of Federal Regulations, except that the Secretary, after the end of the public comment period required by section 3002 of the 1999 Emergency Supplemental Appropriations Act (Public Law 106-31; 113 Stat. 89), may issue final regulations to amend that subpart if the regulations are consistent with—

(A) the regulatory gap findings identified in the report of the National Research Council entitled "Hardrock Mining on Federal Lands"; and

(B) statutory authorities in effect as of the date of enactment of this Act.

(2) LIMITATION.—Nothing in this section expands the statutory authority of the Secretary of the Interior in effect as of the date of enactment of this Act.

(b) PERIOD OF EFFECTIVENESS.—This section—

(1) takes effect 1 day after the date of enactment of the Act enacting H.R. 3194 referred to in subsection (a); and

(2) notwithstanding any other provision of law repealing or terminating the effectiveness of this Act, shall remain in effect unless repealed by Act of Congress that makes specific reference to this section.

SEC. ____ . MILLSITES.

(a) IN GENERAL.—For the purposes of section 1000(a)(3) of division B of the Act enacting H.R. 3194 of the 106th Congress, in lieu of section 337 of title III of H.R. 3423 of the 106th Congress, as introduced on November 17, 1999, regarding the millsites opinion, the following shall apply:

(1) MILLSITES OPINION.—No funds shall be expended by the Secretary of the Interior or the Secretary of Agriculture, for fiscal years 2000 and 2001, to limit the number or acreage of millsites based on the ratio between the number or acreage of millsites and the number or acreage of associated lode or placer claims with respect to—

(A) any patent application excluded from the operation of section 112 of the Department of the Interior and Related Agencies Appropriations Act, 1995, by section 113 of that Act (108 Stat. 2519);

(B) any operation or property for which a plan of operations has been approved before the date of enactment of this Act; or

(C) any operation or property for which a plan of operations, or amendment or modification to an existing plan, was submitted to the Bureau of Land Management or the Forest Service before May 21, 1999.

(2) NO RATIFICATION.—Nothing in this Act or the 1999 Emergency Supplemental Appropriations Act (Public Law 106-31) shall be

construed as an explicit or tacit adoption, ratification, endorsement, approval, rejection, or disapproval of the opinion dated November 7, 1997, by the Solicitor of the Department of the Interior concerning mill-sites.

(b) PERIOD OF EFFECTIVENESS.—This section—

(1) takes effect 1 day after the date of enactment of the Act enacting H.R. 3194 referred to in subsection (a); and

(2) notwithstanding any other provision of law repealing or terminating the effectiveness of this Act, shall remain in effect unless repealed by Act of Congress that makes specific reference to this section.

HELMS (AND OTHERS) AMENDMENT NO. 2781

Mr. LOTT (for Mr. HELMS (for himself, Mr. EDWARDS, and Mr. ROBB)) proposed an amendment to the joint resolution, H.J. Res. 82, supra; as follows:

At the appropriate place insert:

COMMODITY CREDIT CORPORATION PRODUCER- OWNED MARKETING ASSOCIATIONS FORGIVENESS

SEC. 1. The Secretary of Agriculture shall reduce the amount of any principal due on a loan made to marketing association incorporated in the State of North Carolina for the 1999 crop of an agricultural commodity by at least 75 percent if the marketing association suffered losses of the agricultural commodity in a county with respect to which—(1) a natural disaster was declared by the Secretary for losses due to Hurricane Dennis, Floyd, or Irene; or (2) a major disaster or emergency was declared by the President for losses due to Hurricane Dennis, Floyd, or Irene under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.)

If the Secretary assigns a grade quality for the 1999 crop of an agricultural commodity marketed by an association described in subsection (a) that is below the base quality of the agricultural commodity, the Secretary shall compensate the association for losses incurred by the association as a result of the reduction in grade quality.

Up to \$81,000,000 of the resources of the Commodity Credit Corporation may be used for the cost of this provision: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) and prevent sequestration of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

SEC. 2. In administering \$50,000,000 in emergency supplemental funding for the Emergency Conservation Program, the Secretary shall give priority to the repair of structures essential to the operation of the farm.

ADDITIONAL STATEMENTS

TRIBUTE TO GRAHAM STILES NEWELL

● Mr. JEFFORDS. Mr. President, it gives me great pleasure to stand before the Senate today and pay tribute to a man who has greatly influenced the cultural maturity of my home state of Vermont. Graham Stiles Newell will be honored as Citizen of the Year by the Vermont Chamber of Commerce on December 4, 1999. Graham has made extraordinary contributions to Vermont

in many areas throughout his life. And he has made his biggest contributions in one area in which I have spent a great deal of legislative energy—education.

Graham Newell probably learned to read before he learned to walk. I understand that he first secured a library card at the Saint Johnsbury Atheneum when he was in the first grade. Since then, he has been passing on his knowledge to anyone willing to learn, and that number is larger than you can imagine. After graduating from the University of Chicago in 1938, he launched an incredible career in education, one that touched three generations of many Vermont families.

Graham has been a leader in Vermont education in both the professional and legislative arenas. In the last seven decades he has been a teacher at the Junior High, High School, and College level, and will undoubtedly keep teaching well into the next millennium. Graham began his teaching career at his alma mater, Saint Johnsbury Academy, in 1938, and remained on the faculty for nine years. From 1945 to 1982 he taught history at Lyndon State College full-time. After “retiring” in 1982, he returned to the Academy to teach Latin, where you will still find him today. He also continued to teach one or two history classes a semester at Lyndon State College until 1996.

Most people consider Latin a dead language, but if you were to enter Graham's classroom today you would find it to be as alive and enjoyable as ever. A testament to Graham's teaching skills was demonstrated at the Academy in 1997, when 47 of his 52 Latin students, over 90 percent, made honors on the National Latin Exam, an extremely challenging test taken by over 90,000 students across the United States.

Graham's contributions to education do not end in the classroom. While teaching, he also served in the Vermont Legislature for over 25 years. He was a member and chair of the Vermont Senate Education Committee during the 1960s, helping to create Vermont's education laws. Indeed, the self-proclaimed Ambassador of the Northeast Kingdom has positively affected every single student in the state of Vermont over the last 30 years. In fact, his influence has even reached students outside of Vermont, due to his tenure on the New England Board of Higher Education. But Graham always remained supremely faithful to the students in his classroom, once even teaching class over the phone from the Vermont Statehouse.

One can look at Graham's education accomplishments alone and see a lifetime of work and success. However, his influence has touched many in other fields as well. As President of the Vermont Historical Society from 1965

to 1969, his many successes included securing a permanent home for the organization in the historic Pavilion Office Building in Montpelier. He has also served on a number of commissions, including the Commission on Interstate Cooperation, the Historic Sites Commission, the Commission to Study State Government (or “Little Hoover” as we called it), the Vermont Civil War Centennial Commission, the board of managers of the Council of State Governments, and the Education Commission of the States. In addition, the thousands of people who check into the Northeastern Vermont Regional Hospital each year should be thankful to Graham as he is largely responsible for its existence. I could go on, but I'm afraid it would take the remainder of this session of congress to do so.

I am thankful for the opportunity to provide my colleagues with a shining example of a real Vermont renaissance man. I join countless Vermonters in offering my heartfelt congratulations and gratitude to Graham Stiles Newell for his many years of hard work and dedication to the citizens of Vermont.●

TRIBUTE TO BARB RABE

● Mr. KOHL. Mr. President, I rise today to recognize the work of Barb Rabe, who retired after 29 years of service in the Oshkosh School District. She began her career in the Oshkosh School District in 1970 at the Perry Tippler Middle School as a Teachers Assistant, and then transferred to Oakwood Elementary School where she served for the next 27 years. During her years of service, Barb worked for six principals, adapting to each new principal's style, and was always actively involved as the staff grew from 12 to 42 and the student population grew from 200 to 500. She worked hard at creating partnerships with staff, students and families that would foster collaboration, cooperation and allegiance. Barb's strong work ethic, energy and enthusiasm will be missed.

While mastering the key elements of organization and flexibility, giving of her time and talent in serving the faculty and students of Oakwood School, and showing love and appreciation for students, she also came up with new ideas to adapt to the changing work environment. She developed the computerized milk and lunch money collection program at the school, which helped the school collect money more efficiently and thoroughly. She also purchased her own computer years before the school purchased them and took her work home to complete it in an organized fashion. When Oakwood School became computerized, she played an instrumental role in the conversion process. The students and staff of Oakwood will miss her professional and positive demeanor, although her husband of 45 years, Gordon, and their

three sons and their families, will enjoy spending more time with her. Barb will be sorely missed by the entire Oakwood Elementary School community, however I extend my best wishes for a healthy, enriched and rewarding retirement.●

30TH ANNIVERSARY OF THE SAN DIEGO REGIONAL PRINTING FACILITY OF THE JOHN H. HARLAND COMPANY

● Mrs. FEINSTEIN. Mr. President, this year marks the 30th anniversary of the San Diego Regional Printing Facility of the John H. Harland Company.

The John H. Harland Company was founded in 1923, and is the second largest check printer in the United States.

The John H. Harland Company opened its doors in California in 1969. Today, the San Diego Regional Printing Facility employs 249 employees and fills 98,900 orders per week. The jobs this facility has brought to our state throughout the years have been of great benefit to California.

I offer my congratulations to the John H. Harland Company and its employees on the occasion of its 30th Anniversary and wish it great, continued success in the future.●

TRIBUTE TO MR. MICHAEL J. NAPLES

● Mr. LAUTENBERG. Mr. President, I rise today to pay tribute to Mr. Michael J. Naples. “Napes,” as he is affectionately called by all who know him, is retiring after 29 years of teaching at Ocean City High School in New Jersey. He has earned great respect from students and peers alike. Each year the students Mr. Naples' taught and the athletes he coached attest to his dedication to excellence.

Although his first commitment was to education, his enthusiasm for cross-country and track leave an enduring legacy at Ocean City High School. Mr. Naples' cross-country record over the last 21 years is 209 victories and 28 losses. His track record is 133 wins and only 8 losses. During his tenure as a track coach, Mr. Naples led the Raiders to two state titles and coached 9 individual state champions.

His greatest moment as a coach came during the 1989 cross-country season, when he inspired his girls' team to capture the first state title for an Ocean City High School team in 24 years!

Mr. President, it is often difficult to say goodbye to a teacher who has touched the lives of so many people. This is a teacher whose former students are continually coming back to thank him for inspiring them, educating them and, most importantly, caring about them. My deepest respects go to this inductee of the New Jersey Interscholastic Athletic Association

Hall of Fame. He has left a lasting legacy of high academic standards and excellence in sports.●

NATIONAL ADOPTION MONTH HONORS WEST VIRGINIA ADOPTION ANGELS

● Mr. ROCKEFELLER. Mr. President, I rise today to honor three West Virginia individuals who have recently been awarded "Adoption Angel" awards by the Congressional Coalition on Adoption. Larry and Jane Leech and Judge Gary Johnson are truly "angels" in adoption.

President Clinton recently proclaimed November "National Adoption Month". It is a good time to re-commit ourselves to doing all we can to ensure that all children have the opportunity to grow up in safe, stable and permanent homes.

During Adoption Month in 1997, the Adoption and Safe Families Act, a bill I sponsored, was signed into law. This act, for the first time ever, made children's safety, health and opportunity for loving, stable families the paramount factors to consider when planning for children in foster care. The act provided incentive bonuses for states successful in increasing adoptions.

My state of West Virginia has made a lot of progress in moving kids out of foster care and into permanent homes. When the adoption bonuses for 1999 were announced, I was proud that West Virginia, because three of our state's children, Brian, Shawn and Sarah Keane, had the honor of introducing President Clinton the day the bonuses were announced. The 3 Keane children along with 208 more West Virginia foster children moved in with their adoptive families in 1998.

Our State is working hard to increase public awareness of adoption and children needing homes. A quarterly newsletter, "Open Your Heart, Open Your Home" features stories of waiting children and successful adoptive families. In May, Dave Thomas came to West Virginia for the third annual Foster and Adoptive Parent Recognition Day, to recognize adoptive parents who provide homes for children with special needs.

We have been able to make this progress largely as a result of the efforts of the individuals who were honored by the Congressional Coalition on Adoption, and other dedicated and hard-working West Virginians like them. Let me tell you a little about these "angels".

Larry and Jane Leech have been foster parents for many years, opening their home and their hearts to children in need of both. Working with the West Virginia Department of Health and Human Resources, the Leeches adopted a sibling group of three young boys, twins age 4 and an older brother, age 6, in 1998. Now, a year later, the Leeches

are again in the final stages of adopting another sibling group—this time, three older girls. Mr. and Mrs. Leech also have three biological children. They have a tremendous amount of love and a strong commitment to all nine of their children. Recently, the Leeches and their children visited the West Virginia Governor's mansion where they were honored by First Lady Hovah Underwood, for their commitment to children in need.

Judge Gary Johnson believes that all children in the foster care system deserve permanent homes. As the 28th Judicial circuit judge, elected in 1992, Judge Johnson has worked closely with the West Virginia Department of Health and Human Resources. He meets with them quarterly to review problems or identify issues that prevent children in West Virginia from achieving permanence in their lives. Judge Johnson continually increases his own knowledge of the issues by attending conferences on child welfare.

The progress we have made since the passage of the 1997 Adoption Act is significant. Certainly the 211 West Virginia children who found families last year, including the six children who now call Larry and Jane Leech "Mom" and "Dad" know that. But over 400 West Virginia children are still waiting and hoping to be adopted—over 100,000 children in our nation are still waiting and hoping to be adopted. Too many of these children are growing up in the insecurity of foster care. Too many of them are becoming teenagers without a permanent family.

And that is why we need "National Adoption Month". We need opportunities to honor the angels in adoption like the Leeches and Judge Johnson. And we need the opportunity to publicly re-new our commitment to ensuring that all children have the opportunity for permanent adoptive homes.

I am pleased to join the other members of the Congressional Coalition on Adoption in honoring more than 50 "Angels of Adoption" from around the country. I am doubly pleased that 3 of these angels are from West Virginia. And I pledge to continue to work on legislation that will help all of West Virginia's, and America's foster children have the opportunity that the Leech children now have, the chance to grow up in a permanent, loving family.

I urge my colleagues to dedicate themselves to this effort as well.●

JEWISH HISTORY IN GREECE

● Mr. SARBANES. Mr. President, in recent years there has been renewed interest in the early history of the Jewish community in Greece. The Hellenic and Jewish peoples have had a long and constructive relationship, and that interaction has been one of the foundations of Western civilization.

An important part of this historical movement is the renewed research on

historic Jewish sites in Greece. There is now an active and impressive Jewish museum in Athens which has served as a focal point for this activity. These efforts have spawned a number of individuals to do their own family and group research; and I am pleased to report that one of my constituents, Dr. Judith Mazza, has written an excellent account of her visit to Greece entitled, "First-time Traveler's Impressions of Jewish Sites in Greece," which was published in the spring 1999 issue of *Kol haKEHILA*. Dr. Mazza is descended from a Romaniote Jewish family from Greece, and her article depicts succinctly the rich and enduring Jewish cultural and religious legacy in Greece. I recommend it to all those interested in the history of the Jewish people and ask that the article be inserted at this point in the RECORD.

The article follows:

[From *Kol haKEHILA*, Spring 1999]

A FIRST-TIME TRAVELER'S IMPRESSIONS OF JEWISH SITES IN GREECE

(By Dr. Judith Mazza)

I first saw mention of the Jewish Museum of Greece, located in Athens, about twenty years ago. Curious about my family history, I joined the Museum as an "American Friend." Upon joining, I received a letter from the founder (now Director Emeritus) of the museum, Nicholas Stavroulakis, concerning my family name (Mazza, Matsas, Matza, etc.). I learned from that letter that my family most probably was a Romaniote family rather than a Sephardi family. I then understood why my father's family never spoke Ladino (judaeo-espanol). My father, born in the United States, spoke Greek at home, as did his parents (who emigrated to the United States in the early 1900s from Ionnina and Corfu).

My husband and I were curious to visit Jewish sites in Greece. My interest had been stimulated by the book *Jewish Sites and Synagogues of Greece* (Athens, 1992) by Stavroulakis and Timothy DeVinney. Prior to reading this book, I knew little about the communities that had existed in Greece prior to World War II. I did not have the opportunity to travel to Greece until November 1998. As soon as I knew I would be in Athens, I attempted to contact the Jewish Museum of Greece. *Kol haKEHILA*, was the first internet source to give me a way to contact the museum by e-mail.

By e-mail, I asked the museum's curator, Zanet Battinou, to help find us a knowledgeable guide for our day in Athens. She recommended Dolly Asser. In addition to visiting ancient sites in Athens that day, Ms. Asser also took us to the Jewish Museum of Greece, and to the two modern synagogues in Athens.

ATHENS

We began our day at the Museum. It had recently relocated and now occupies an entire building in the Plaka neighborhood. The museum has a number of floors, each with a different focus. As a first-time visitor, I found it interesting to see historic artifacts, documents, clothing and a wide variety of religious and domestic objects. There is a research library on the top floor. School children arrived as we were leaving, so apparently a visit to the Jewish Museum of Greece has become a part of the public school curriculum.

After we left the museum, we visited the two synagogues. They are located on Melidoni Street, immediately across the street from one another. The street is gated and guarded by an armed policeman as a precaution against potential terrorist incidents.

We first went to the Beth Shalom synagogue, which is the only actively used synagogue for the 3,500 Jews in Athens today. Ms. Asser introduced us to Rabbi Jacob Arar, who studied in France and Israel, inasmuch as there are no rabbinical schools in Greece. The outside of the building has simple lines and is faced in white marble. The interior of the synagogue is mostly wood paneled and has a warm and comfortable feeling.

Directly across the street is the Ianniotiki synagogue, which had been built by Romaniote Jews from Ionnina. It is located on the second floor of the building. The lower floor houses the Athens Jewish community offices. We obtained the key to the synagogue from the office staff and walked through a hallway into a courtyard. The courtyard was fully paved except for a small area from which one large palm tree grew. We walked up the narrow exterior stairs to a walkway, and unlocked the door. This synagogue was smaller and seemed older than the synagogue across the street. We later learned that it is mostly used for special occasions. It is elegant in its simplicity.

RHODES

We had the opportunity to see one other Jewish site in Greece when we stopped in Rhodes a few days later. We had seen a website for the Jewish Museum of Rhodes before our travels began at www.RhodesJewishMuseum.org. We sought out the island's synagogue and adjacent museum. Finding the street in the old walled city of Rhodes was not too difficult, as it was clearly labeled and the synagogue is noted on tourist maps. As we walked toward the synagogue and museum, we knew that we were in what had once been the Jewish quarter of the city. We could see Hebrew inscriptions above some of the doorways, signifying houses built by prominent Jewish families. However, many of these buildings appeared to be in a state of disrepair. Unfortunately, we had no information about the buildings and knew virtually nothing about the Jewish community that once existed here.

As we walked, we could see through iron gates, that some buildings had interior courtyards with interesting floor patterns formed by smooth black and white stones. In some courtyards, the stone patterns were intact, while in others the patterns were quite deteriorated.

We could not find the synagogue itself, but luckily, we asked directions from an elderly woman. Lucia Modiano Sulam turned out to be the keeper of the synagogue and was kind enough to guide us to it. She was a Holocaust survivor, with tattooed numbers on her forearm.

We were quite unprepared for what we found when we entered Kahal Shalom synagogue. The synagogue, in very good condition, was more elaborate than the synagogues we had seen in Athens. Crystal chandeliers hung from the ceiling. Beautiful carpets lay on the floor. The mosaic floor inside was made of the same black and white smooth stones that we had seen elsewhere. Here, the stones were arranged in more elaborate patterns. Chairs were placed on the two long sides of the interior and the wooden bimah was in the middle of the room.

Just outside the synagogue entrance is a courtyard which has a stone mosaic floor. It is well preserved.

We also visited the Jewish Museum of Rhodes, located next to the synagogue. This is a new museum in its first stage of development. Aron Hasson, a Los Angeles attorney whose family came from Rhodes, founded it. The museum currently consists of one room with white rustic walls and a curved ceiling. When we were there, the museum exhibition consisted of photographs and other printed materials.

TOURISM TO JEWISH SITES IN GREECE

We knew that the Jewish population in Greece had been decimated by the Holocaust, and that only remnants of that once-thriving community remains there. However, as a traveler and tourist, I have been stuck by the difficulty in obtaining information about Jewish sites and Jewish history of Greece. I do not understand why one organization or resource does not reference another. Organizations that have websites or access to the Internet should have hypertext links to other Greek Jewish organizations, including e-mail links to facilities that may not yet have a website.

There should be a list of bibliographic references about Greek Jewry and Jewish tourist sites in Greece. When we were in the Jewish Museum of Greece shop in Athens, I was stunned to find an English language book about the Jews of Ionnina (Dalven, R., *The Jews of Ioannina*, Philadelphia, 1992). I purchased the book immediately! Likewise, it was through word of mouth from both Yitzhak Kerem (publisher of the electronic newsletter *Sefarad*) and Elias Messinas (editor of *Kol haKEHILA*) that I learned of the fascinating book written by Dr. Michael Matsas entitled *The Illusion of Safety*; The story of the Greek Jews During the Second World War (New York, 1997). In reading these books and in speaking with both Messinas and Kerem whom I recently met in Jerusalem, I understand that the Greek Jews, unlike Jews in some other parts of Europe, had ample opportunity to flee or hide from the Nazis. In instance after instance the warnings of the catastrophic consequences of not fleeing or hiding were not disseminated, or the seriousness of the situation was minimized. The communication among the communities was poor.

When we visited Rhodes, we stood on its acropolis and clearly saw the Turkish coast only 11 miles away. It was difficult to come to terms with the complacency of the Jewish population of Rhodes in 1944 that resulted in their slaughter. They were among the last Greek Jews to be sent to Auschwitz. By 1944, other communities in Greece had already been eliminated. Safety lay only eleven miles away. The Jews of the city of Rhodes did not even flee to the island's countryside. Perhaps a reader can explain this puzzling apparent fact.

The lesson today seems clear. To preserve the remnants of the Greek Jewish heritage, various interested organizations should cooperate with the another. They should use electronic hypertext links to cross-reference one another whenever possible. The Jewish Museum of Greece in Athens should have information about Jewish sites throughout Greece, including other museums, such as the one in Rhodes. Likewise, the Jewish Museum of Rhodes should link to as many Jewish sites throughout Greece as possible. Books, bibliographies and brochures about Jewish sites throughout Greece should be made available at each of the sites and at Tourist Offices. Never again should the Jewish community of Greece be weakened by poor communication among various components. Certainly, not in this age of electronic

communications and the Internet. There are some dedicated people working in disparate organizations to preserve and memorialize Greek Jewish sites and culture. Now they need to recognize the gestalt effect that would result from closer cooperation.

We came away from our experience wanting to learn more about the various communities that only existed in the past, and also those which continue to survive. We hope that others will become interested in exploring and preserving Jewish heritage in Greece. The best way to do this and to attract Jewish tourists is to make information about Jewish sites more readily available. We hope that the various organizations and interested parties will work together to that end.●

IN RECOGNITION OF THE FOURTH BIRTHDAY OF THE PROVIDENCE GAY MEN'S CHORUS

● Mr. REED. Mr. President, I rise today to pay tribute to the Providence Gay Men's Chorus, which celebrated its fourth anniversary on November 14, 1999. I would like to thank the Chorus for its four years of community involvement, during which time the members have shared not only their melodious voices with the citizens of Rhode Island, but also their hopes and ambitions for a better world.

The Providence Gay Men's Chorus, which began in 1995 as a group of eight, now has 50 members. In addition to their musical talent, one of the attributes that is most unique about the Chorus, and most appreciated, is the group's mission to promote tolerance. As we know, the real work of fostering support for people with diverse backgrounds and lifestyles usually happens slowly, and within the context of shared activities and community. The Providence Gay Men's Chorus reaches out with its concerts to expand the bounds of community. By helping to create an atmosphere of tolerance and understanding, their work benefits not only the citizens of Rhode Island, but ultimately the entire nation.

I am pleased to make it known that November 14, 1999 was not only the fourth anniversary of the Chorus, but also was declared Providence Gay Men's Chorus Day in the State of Rhode Island. Mr. President, I ask that a gubernatorial proclamation from the Governor of my home state of Rhode Island proclaiming November 14th as "Providence Gay Men's Chorus Day" be printed in the CONGRESSIONAL RECORD.

I join in the chorus of voices supporting the Providence Gay Men's Chorus' dual mission of creating beautiful music and promoting mutual respect and understanding. I know this talented musical group will continue its good work and I wish them many, many more birthdays.

The proclamation follows:

STATE OF RHODE ISLAND AND PROVIDENCE
PLANTATIONS—GUBERNATORIAL PROCLAMATION

Whereas, the Providence Gay Men's Chorus was first conceived in a karaoke bar in Providence in October 1995. The first meeting of its original eight members from Rhode Island and Massachusetts was held in November 1995, in a home in Pawtucket. The name Providence Gay Men's Chorus (PGMC) was decided on after some deliberation and the group was then underway with a music director and an accompanist; and,

Whereas, the mission of the PGMC is to provide and foster continuing growth of men's voices. Through the sharing of song concerts, the PGMC hopes to foster mutual understanding, tolerance and support of people with diverse backgrounds and lifestyles; and,

Whereas, the membership started to blossom during the first year and moved to St. James Episcopal Church in North Providence. During this year, the first board was also formed and the first concert was held in Warcham, Massachusetts with 12 members; and,

Whereas, the chorus kept growing and moved again. This time to the Bell Street Chapel in Providence, where the now 35-member chorus was performing two seasons per year with three concerts per season. It was at the Bell Street Chapel that the PGMC achieved their first sell out audience; and,

Whereas, as membership approached 40 members, the chorus moved once again to the First Unitarian Church in Providence. During this time, the PGMC joined the national choral organization for gay and lesbians called GALA and received its first corporate sponsorship; and,

Whereas, the chorus is now approaching its fourth birthday, has a membership of 50 and is back at the Bell Street Chapel. The members will be performing series of concerts in November, singing at First Night 2000, and initiating a scholarship program. Future plans for the chorus are to bring a program to the Hasbro's Children's Hospital, perform to mainstream audiences throughout the city and state, and attend the national GALA conferences; and,

Whereas, on November 14, 1999 the chorus will hold a concert at the Newport Congregational Church, under the direction of Charles Pietrello and the accompaniment of Bruce Ruby;

Now, therefore, I, Lincoln Almond, Governor of the State of Rhode Island and Providence Plantations, do hereby proclaim November 14, 1999, as Providence Gay Men's Chorus Day.●

TRIBUTE TO WILLIAM AND OLENE
DOYLE

● Mr. JEFFORDS. Mr. President, I am proud to stand before my colleagues today and pay tribute to a couple who have so positively influenced the people of Washington County, Vermont over the course of their lives. William and Olene Doyle will be honored as the Washington County Citizens of the Year by the Green Mountain Council of Boy Scouts on November 22nd, 1999.

My old friend Bill Doyle has navigated a well rounded career as a teacher, politician, and author. Since 1958, he has been teaching history and government at Johnson State College. In 1968, he was elected to serve as one of

Washington County's three State Senators, a role in which he has thrived for over three decades. As a skilled teacher and a master of parliamentary rules, Bill has been an invaluable mentor and mediator in the Vermont State House. Bill has written two books, including *The Vermont Political Tradition*, which is regarded by many to be a "must read" on Vermont political history. He has also taken his passion for government and politics and created the annual "Doyle Poll," our yearly gauge of public opinion on the hottest and sometimes most controversial issues facing Vermonters. While admittedly unscientific, the poll's results are soundly reflective of Vermont sentiment.

As the son of an art teacher, I have always held a deep respect for the arts and for those who are able to inspire creativity in our nation's young people. Olene Doyle has taught art in elementary, secondary, and higher education institutions in the central Vermont region. Her dedication to arts and education led her to volunteer positions on the local school board in Montpelier, as well as on the board of the Wood Art Gallery, where, incidentally, I now hold the annual Congressional Arts Competition.

Bill and Olene raised three wonderful children. However, they have never stopped teaching as evidenced by their ongoing community service and involvement in their local church and non-profit organizations. Given the countless hours they dedicate to community service, it is noteworthy that the couple finds the time to pursue personal hobbies such as golf and gardening. And while I have never had the privilege of seeing the Doyle gardens, I have been told they are a vibrant reflection of the dedication which Bill and Olene give to everything they do.

I am thankful for the opportunity to express my heartfelt praise. I can think of few couples more worthy of this award. Years of partnership and devotion to each other have inevitably spilled over into the Vermont community, where Bill and Olene have truly made their mark as two of Vermont's most influential and giving people.●

BRETT WAGNER ON RUSSIAN
NUCLEAR MATERIALS

● Mr. KENNEDY. Mr. President, it is important that we remember how vital our nuclear nonproliferation programs with Russia are to our national security. That's why I was pleased, in recent weeks, to see two articles by Brett Wagner in the San Francisco chronicle and in the Wall Street Journal, which I would like to submit for the RECORD.

Mr. Wagner is the president of the California Center for Strategic Studies, and his articles bring much needed attention to an essential aspect of our nuclear nonproliferation policy—to en-

sure that Russian weapons-grade, highly-enriched uranium does not fall into the wrong hands. We need to live up to our agreement with Russia and strengthen our nuclear, chemical and biological nonproliferation program with that nation. Our future could well depend on it.

I believe that Mr. Wagner's articles will be of interest to all of us in Congress who care about these issues, and I ask that they be printed in the RECORD.

The articles follow.

[From the San Francisco Chronicle, Oct. 22, 1999]

U.S. MUST MOVE QUICKLY TO BUY RUSSIA'S
EXCESS NUKES

(By Brett Wagner)

Without a doubt, what's been most frustrating about being a national security specialist in the 1990s has been urging that the United States buy the hundreds of tons of undersecured excess weapon-grade uranium scattered across Russia—only to repeatedly hear in response that this could never happen in the real world because of Washington's never-ending struggle to balance the federal budget.

My, how things change.

Today, Washington is awash in an unprecedented trillion-dollar budget surplus—a surplus expected to surpass \$100 billion in the next fiscal year alone.

Politicians from both major parties are busy, of course, debating what to do with all the extra money. Unfortunately, neither party has even mentioned Russia's offer to sell its enormous stockpiles of excess weapon-grade uranium to the United States as quickly as possible in exchange for badly needed hard currency.

Congressional and presidential priorities aside, it's hard to imagine a better time to reconsider this issue.

By now, almost everyone who reads the newspaper or watches the evening news knows that Russia has yet to develop any reliable means of securing its enormous stockpiles of weapon-grade uranium and plutonium. It doesn't even have an accounting system capable of keeping track of them.

And as the media often remind us, these materials have already begun leaking into the West—troubling news, to say the least, considering that:

The blueprints and non-nuclear components necessary to build crude but highly effective nuclear weapons are already widely available;

It only takes 20 or 30 pounds of highly enriched uranium to arm a device capable of leveling a city the size of downtown Washington;

Rogue states and terrorist groups openly hostile to the United States have already attempted several times to purchase nuclear warheads or material from Russian nuclear workers;

There is no reliable way of keeping a nuclear weapon or contraband from being smuggled into U.S. territory if it ever does fall into the wrong hands.

What most people don't seem to remember, however, is that for several years now Russia has been trying to sell these same undersecured stockpiles of highly enriched uranium to the United States for use as nuclear fuel in commercial power plants and, what's more, that an agreement designed to help further this goal was signed by President Clinton and Russian leader Boris Yeltsin in February 1993.

Unfortunately, that agreement is a full year behind schedule, with shipments from 1993 through 1999 representing only 80 tons of highly enriched uranium—30 tons short of the minimum goal by the end of its seventh year in force. Moreover, even if the agreement were moving ahead at full speed, it would still cover only a fraction of Russia's excess weapon-grade uranium (500 of 1,200 tons), and none of its plutonium. A frustrated Russia can't understand why America wants to move so slowly.

Meanwhile, terrorism is spiraling out of control in and around Moscow, war is breaking out again in the Caucasus and the nuclear materials from thousands of dismantled Russian warheads continue to pile up in poorly protected makeshift warehouses scattered across several time zones, many of them far from the central government's watchful eye.

All of which begs the question: How long can things go on this way, before we run out of luck? Or, in other words, how long can Russia's hundreds of tons of missile materials be stored so haphazardly before small but significant amounts begin winding up in the hands of terrorists or rogue states?

The time has come for Washington to finally put its money where its mouth is and use part of the enormous budget surplus to purchase as much of Russia's fissile materials—both uranium and plutonium—as Moscow is willing to sell, and as quickly as Moscow is willing to sell them.

The case for taking such a bold step should be easy to make with the American people.

First, the sticker price would be remarkably low—less than \$20 billion. And since the U.S. government would presumably one day sell most or all of the uranium and plutonium for use as nuclear fuel, the expense would not have to be counted as an expense—an argument sure to resonate well with fiscal conservatives eager to keep pace with Gramm-Rudman.

Second, one could compare the price tag with the hundreds of billions of dollars America spent to defend itself and its allies against nuclear weapons during the Cold War; the trillion dollars of human life that would result if a small nuclear device were ever successfully detonated in a place such as downtown Washington; and the billions of dollars that rogue states and terrorist groups have already offered Russian nuclear workers for extremely small amounts of the same nuclear material.

And there is the tremendous sense of relief in purchasing the very stuff that for so long threatened America's very survival, and which now threatens the whole world.

With the 2000 election cycle beginning to pick up steam, and with the possibility of a viable third-party presidential candidate growing by the day, one would think that the two major parties would be scrambling to take the lead on this most serious of national Security issues.

[From the Wall Street Journal, Sept. 9, 1999]

NUKES FOR SALE

(By Brett Wagner)

Strangely absent from the debate over how to spend Washington's projected \$1 trillion surplus has been any discussion of Russia's longstanding offer to sell its stockpiles of excess weapon-grade uranium. The time has come to take Russia up on this offer.

Russia has never developed a reliable system for protecting the enormous stockpiles of weapon-grade uranium and plutonium it inherited from the Soviet Union. These stockpiles are often stored in makeshift warehouses, some protected only by \$5 com-

bination locks and soldiers who occasionally desert their posts in search of food. Small caches of these nuclear materials have already begun leaking out of Russia. It would only take 20 or 30 pounds of highly enriched uranium to arm a device capable of leveling a city the size of lower Manhattan.

In February 1993 Presidents Clinton and Boris Yeltsin signed an agreement for Russia to sell the U.S. highly enriched uranium extracted from its dismantled nuclear warheads in exchange for hard currency. Russia is currently dismantling thousands of warheads. Unfortunately, this unprecedented opportunity to advance U.S. and international security has fallen behind schedule at nearly every turn, primarily because Washington is constantly distracted by less important issues. So far Russia has shipped only 50.5 tons of highly enriched uranium—almost 30 tons short of the agreement's stated goal by this point.

One major holdup has been the U.S. enrichment Corp., a recently privatized company selected by the U.S. government to implement the American side of the accord. It has resisted accepting delivery of Russia's enriched uranium because, among other reasons, it claims that the materials are not pure enough for U.S. nuclear plants. But the corporation has a fundamental conflict of interest. Since it also produces enriched uranium, it wants to limit Russian competition in the international market.

The question is: How long do we have before we run out of luck? How long before some of Russia's uranium winds up in the hands of terrorists like Osama bin Laden or regimes like Saddam Hussein's?

Washington should switch the power of executive agent from the U.S. Enrichment Corp. to the Department of Energy. Given that most of the delays in implementing the agreement have stemmed from America's insistence that the highly enriched uranium be blended down into nuclear fuel in Russia, Washington should reverse this policy and accept Moscow's offer to ship its undiluted uranium directly to the U.S.

As soon as the agreement gets back on track, Washington should ask Moscow to expand it to include all of Russia's excess weapon-grade uranium, not to mention its excess plutonium. It makes no sense to purchase one stockpile of unsecured fissile material while leaving others in jeopardy.

The pricetag for such a deal would be remarkably low. The cost of purchasing 500 tons of Russia's highly enriched uranium, the quantity covered in the agreement, is approximately \$8 billion. Beyond what the agreement covers, Moscow has some 700 tons of additional weapons-grade uranium it has deemed "excess." That would increase the price to around \$19 billion. And for an additional \$1 billion or \$2 billion, Moscow would probably throw in its excess weapon-grade plutonium, which it has also been trying to sell for use as nuclear fuel.

With Russian parliamentary elections scheduled for later this year and a presidential election next June—which may well bring in a government less friendly to the West than Mr. Yeltsin's—the time to act is now rather than later. ●

MORNING BUSINESS

Mr. MURKOWSKI. I ask consent that there be a period for the transaction of routine morning business, with any Senator permitted to speak for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL SALVAGE MOTOR VEHICLE CONSUMER PROTECTION ACT

Mr. LOTT. Mr. President, I am proud to add the American Automobile Association (AAA) and the California DMV to the long list of organizations that support S. 655, the National Salvage Motor Vehicle Consumer Protection Act that I introduced during this session to protect consumers from title fraud.

Other supporters of my title branding legislation include the American Association of Motor Vehicle Administrators (AAMVA), state DMV directors around the country, the Michigan Secretary of State and other Secretaries of State, the International Union of Police Associations AFL-CIO, International Association of Auto Theft Investigators, National Odometer and Title Fraud Enforcement Association, American Automobile Manufacturers Association, Association of International Automobile Manufacturers, National Automobile Dealers Association, National Association of Minority Automobile Dealers, National Independent Automobile Dealers Association, Honda North America, Nissan North America, Carfax, CarMax, American Service Industry Association, American Automotive Leasing Association, American Car Rental Association, American Salvage Pool Association, Automotive Engine Rebuilders Association, Automotive Parts and Accessories Association, Automotive Parts Rebuilders Association, National Association of Fleet Resale Dealers, National Auto Auction Association, and State Farm Insurance.

I also think it is worth recognizing 23 of our colleagues who have actively signaled their intention to protect motorists in their state and throughout the nation by formally supporting S. 655. Senators MCCAIN, BREAUX, STEVENS, CONRAD, BURNS, HUTCHISON, FRIST, ABRAHAM, MACK, WARNER, BENNETT, SESSIONS, MURKOWSKI, SHELBY, INHOFE, GRAMS, THOMAS, ROBERTS, HATCH, THOMPSON, ENZI, KYL, and HUTCHINSON are to be commended for cosponsoring this important consumer protection measure.

The American Automobile Association represents over 40 million drivers. It is a nonpartisan organization that champions the interests of the driving public in virtually every city, county, and state across this great land. AAA supports S. 655 because it shares my belief that national standards for titling salvage, rebuilt salvage, non-repairable and flood damaged vehicles will help prevent the fraudulent sale of damaged vehicles and protect consumers from unknowingly purchasing them. Mr. President, I ask unanimous consent to

print AAA's letter of support for S. 655 in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

AAA WASHINGTON OFFICE,

Washington, DC, November 17, 1999.

Hon. TRENT LOTT,

Majority Leader, U.S. Senate, Washington, DC.

DEAR SENATOR LOTT: As a representative of 42 million motorists, AAA appreciates your effort to establish more uniformity in the titling and registration of salvage and other damaged vehicles.

AAA shares your concern about the practice of unscrupulous individuals buying damaged vehicles at low cost, rebuilding them, and then retitling them in another state with less or no protections. A "washed" title does not disclose previous damage to a vehicle and therefore, subsequent purchasers have no knowledge of the damage. Unwitting consumers are the victims of such fraudulent practices.

In an effort to help AAA members avoid the pitfalls of buying damaged or rebuilt vehicles, AAA provides tips on ways to identify damaged or flood vehicles. AAA also recommends that consumers have used cars checked for safety and reliability by a reputable auto technician before they purchase the vehicle.

Minimum standards for titling salvage, rebuilt salvage, non-repairable and flood-damaged vehicles will help present the fraudulent sale of damaged vehicles and protect consumers from unknowingly purchasing them. However, because states often have unique and various problems relating specifically to salvage vehicles, AAA believes states should be provided flexibility to enact stricter standards that address individual state concerns as your bill allows.

S. 655 represents an important step toward addressing the problem, while recognizing the legitimate role states have in motor vehicle licensing and titling laws. AAA commends your leadership in working with all parties to craft a workable solution and is pleased to support your bill.

Sincerely,

SUSAN G. PIKRALLIDAS,

Interim Vice President,

Public & Government Relations.

Mr. LOTT. Mr. President, my goal from the outset has been to protect used car buyers from title fraud. The solution I proposed was simple, straightforward, and modeled after the recommendations of the Motor Vehicle Titling, Registration, and Salvage Advisory Committee. S. 655 merely establishes model uniform definitions and disclosure requirements for four basic terms: salvage; rebuilt salvage; flood; and nonrepairable vehicles. Under the legislation reported out by the Senate Commerce Committee, states would be free to utilize additional terms and to provide additional disclosures beyond those provided for in this bill. States that choose to adopt the four uniform terms and related provisions would be eligible for incentive grants. No state would be penalized for non-participation or for retaining different standards.

While there is substantial and broad support for this much needed legislation, there continues to be resistance

to moving forward with this legislation in the Senate. Unfortunately, this resistance has the effect of allowing unsuspecting consumers to continue to purchase and drive potentially life-threatening vehicles. Delaying this legislation will cost used car buyers another \$4 billion this year and place millions of structurally unsafe vehicles back on America's roads and highways. Roads that our family, friends, and neighbors share every day.

Even though S. 655 has wide-spread support and follows the recommendations of the Congressionally-chartered Salvage Advisory Committee, a few groups have attempted to undermine this measure at every stage of the process. Unfortunately, these groups seemed to have convinced some of my colleagues that it is better to delay the implementation of clearly needed consumer protections and continue to press for the imposition of untried, untested and in many cases anti-consumer requirements. Requirements that states have rejected time and again. Provisions that focus on post-purchase redress rather than pre-purchase disclosure. Definitions and standards that would perpetuate confusion rather than promote uniformity among the states, undermining the very purpose of this legislation. These groups claim to have the interests of consumers in mind, yet the best representative of car-buying consumers, the American Automobile Association, has rejected their approach and supports passage of S. 655.

As I am sure my colleagues will agree, advancing titling definitions and standards that states have rejected, and will continue to reject, will only exacerbate title fraud. Such an approach only benefits those who prey on unsuspecting car buyers and would jeopardize the minimum standards required to make the program work, unnecessarily harm many vehicle owners and buyers by needlessly reducing the value of their vehicles, create unreasonable or untested standards, foster unnecessary litigation, impinge on states rights, and promote a scheme that states will reject.

During the 104th and 105th Congresses, this was a bipartisan, better yet nonpartisan, initiative. My only interest has been to protect consumers by encouraging the use of minimal uniform disclosure standards for severely damaged vehicles—those involved in a serious accident, severely damaged by falling objects, or vehicles that have sustained significant and lingering water damage. Whether the used car buyer is in Mississippi, California, Nevada, Minnesota, or in any other state, he or she needs the pre-purchase disclosure information that S. 655 would provide.

I have made every effort to reach consensus on this legislation. In that vein, a number of changes were incor-

porated throughout the legislative process to address the concerns of State attorneys general, certain consumer groups, and many of my colleagues. The latest version of this legislation incorporates the full range of changes that DMV administrators, including California's Administrator, believe are practicable. The substitute makes it very clear that there is no preemption of state law. The substitute also mirrors much of the State of California's current titling requirements, ensuring that minimal change will be required by our largest state should it choose to apply for the bill's grant monies.

Mr. President, even though I have made numerous compromises on this legislation, the goal post continues to move further away. Instead of gaining acceptance, I was recently presented with yet another round of proposed modifications. AAMVA reviewed these proposed changes and determined they would eviscerate the purpose of this legislation. AAMVA opposes these additional changes because they could potentially harm the very people this legislation aims to protect, create a mountain of unnecessary paperwork, and would create a substantial amount of bureaucracy with no added value.

It makes no sense to adopt provisions that the experts on titling matters believe are harmful to used car consumers, the very people this balanced legislation aims to protect. AAMVA, Secretaries of State, local and state law enforcement, state legislators, and the automotive and insurance industries have repeatedly pronounced their support for S. 655. AAA and the California DMV also agree that my substitute bill is the right legislative solution.

Mr. President, if we do not pass this legislation, the real loser is the unfortunate used car buyer in these and other states who unknowingly purchases a wreck on wheels, perhaps a previously totaled government crash test vehicle. Every day that Congress fails to act on this prudent title branding legislation, thousands of individuals are harmed and millions of dollars are lost to the unscrupulous practice of title laundering. Let's pass this bill now.

S. 1949

Mr. LEAHY. Mr. President, I ask unanimous consent that the text of the bill, S. 1949, the "Clean Power Plant and Modernization Act," introduced on November 18, 1999, be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1949

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the “Clean Power Plant and Modernization Act of 1999”.

(b) **TABLE OF CONTENTS.**—The table of contents of this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings and purposes.
- Sec. 3. Definitions.
- Sec. 4. Combustion heat rate efficiency standards for fossil fuel-fired generating units.
- Sec. 5. Air emission standards for fossil fuel-fired generating units.
- Sec. 6. Extension of renewable energy production credit.
- Sec. 7. Megawatt hour generation fees.
- Sec. 8. Clean Air Trust Fund.
- Sec. 9. Accelerated depreciation for investor-owned generating units.
- Sec. 10. Grants for publicly owned generating units.
- Sec. 11. Recognition of permanent emission reductions in future climate change implementation programs.
- Sec. 12. Renewable and clean power generation technologies.
- Sec. 13. Clean coal, advanced gas turbine, and combined heat and power demonstration program.
- Sec. 14. Evaluation of implementation of this Act and other statutes.
- Sec. 15. Assistance for workers adversely affected by reduced consumption of coal.
- Sec. 16. Community economic development incentives for communities adversely affected by reduced consumption of coal.
- Sec. 17. Carbon sequestration.

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds that—

(1) the United States is relying increasingly on old, needlessly inefficient, and highly polluting powerplants to provide electricity;

(2) the pollution from those powerplants causes a wide range of health and environmental damage, including—

(A) fine particulate matter that is associated with the deaths of approximately 50,000 Americans annually;

(B) urban ozone, commonly known as “smog”, that impairs normal respiratory functions and is of special concern to individuals afflicted with asthma, emphysema, and other respiratory ailments;

(C) rural ozone that obscures visibility and damages forests and wildlife;

(D) acid deposition that damages estuaries, lakes, rivers, and streams (and the plants and animals that depend on them for survival) and leaches heavy metals from the soil;

(E) mercury and heavy metal contamination that renders fish unsafe to eat, with especially serious consequences for pregnant women and their fetuses;

(F) eutrophication of estuaries, lakes, rivers, and streams; and

(G) global climate change that may fundamentally and irreversibly alter human, animal, and plant life;

(3) tax laws and environmental laws—

(A) provide a very strong incentive for electric utilities to keep old, dirty, and inefficient generating units in operation; and

(B) provide a strong disincentive to investing in new, clean, and efficient generating technologies;

(4) fossil fuel-fired power plants, consisting of plants fueled by coal, fuel oil, and natural gas, produce nearly two-thirds of the electricity generated in the United States;

(5) since, according to the Department of Energy, the average combustion heat rate efficiency of fossil fuel-fired power plants in the United States is 33 percent, 67 percent of the heat generated by burning the fuel is wasted;

(6) technology exists to increase the combustion heat rate efficiency of coal combustion from 35 percent to 50 percent above current levels, and technological advances are possible that would boost the net combustion heat rate efficiency even more;

(7) coal-fired power plants are the leading source of mercury emissions in the United States, releasing an estimated 52 tons of this potent neurotoxin each year;

(8) in 1996, fossil fuel-fired power plants in the United States produced over 2,000,000,000 tons of carbon dioxide, the primary greenhouse gas;

(9) on average—

(A) fossil fuel-fired power plants emit 1,999 pounds of carbon dioxide for every megawatt hour of electricity produced;

(B) coal-fired power plants emit 2,110 pounds of carbon dioxide for every megawatt hour of electricity produced; and

(C) coal-fired power plants emit 205 pounds of carbon dioxide for every million British thermal units of fuel consumed;

(10) the average fossil fuel-fired generating unit in the United States commenced operation in 1964, 6 years before the Clean Air Act (42 U.S.C. 7401 et seq.) was amended to establish requirements for stationary sources;

(11)(A) according to the Department of Energy, only 23 percent of the 1,000 largest emitting units are subject to stringent new source performance standards under section 111 of the Clean Air Act (42 U.S.C. 7411); and

(B) the remaining 77 percent, commonly referred to as “grandfathered” power plants, are subject to much less stringent requirements;

(12) on the basis of scientific and medical evidence, exposure to mercury and mercury compounds is of concern to human health and the environment;

(13) pregnant women and their developing fetuses, women of childbearing age, and children are most at risk for mercury-related health impacts such as neurotoxicity;

(14) although exposure to mercury and mercury compounds occurs most frequently through consumption of mercury-contaminated fish, such exposure can also occur through—

(A) ingestion of breast milk;

(B) ingestion of drinking water, and foods other than fish, that are contaminated with methyl mercury; and

(C) dermal uptake through contact with soil and water;

(15) the report entitled “Mercury Study Report to Congress” and submitted by the Environmental Protection Agency under section 112(n)(1)(B) of the Clean Air Act (42 U.S.C. 7412(n)(1)(B)), in conjunction with other scientific knowledge, supports a plausible link between mercury emissions from combustion of coal and other fossil fuels and mercury concentrations in air, soil, water, and sediments;

(16)(A) the Environmental Protection Agency report described in paragraph (15) supports a plausible link between mercury emissions from combustion of coal and other fossil fuels and methyl mercury concentrations in freshwater fish;

(B) in 1997, 39 States issued health advisories that warned the public about consuming mercury-tainted fish, as compared to 27 States that issued such advisories in 1993; and

(C) the number of mercury advisories nationwide increased from 899 in 1993 to 1,675 in 1996, an increase of 86 percent;

(17) pollution from powerplants can be reduced through adoption of modern technologies and practices, including—

(A) methods of combusting coal that are intrinsically more efficient and less polluting, such as pressurized fluidized bed combustion and an integrated gasification combined cycle system;

(B) methods of combusting cleaner fuels, such as gases from fossil and biological resources and combined cycle turbines;

(C) treating flue gases through application of pollution controls;

(D) methods of extracting energy from natural, renewable resources of energy, such as solar and wind sources;

(E) methods of producing electricity and thermal energy from fuels without conventional combustion, such as fuel cells; and

(F) combined heat and power methods of extracting and using heat that would otherwise be wasted, for the purpose of heating or cooling office buildings, providing steam to processing facilities, or otherwise increasing total efficiency; and

(18) adopting the technologies and practices described in paragraph (17) would increase competitiveness and productivity, secure employment, save lives, and preserve the future.

(b) **PURPOSES.**—The purposes of this Act are—

(1) to protect and preserve the environment while safeguarding health by ensuring that each fossil fuel-fired generating unit minimizes air pollution to levels that are technologically feasible through modernization and application of pollution controls;

(2) to greatly reduce the quantities of mercury, carbon dioxide, sulfur dioxide, and nitrogen oxides entering the environment from combustion of fossil fuels;

(3) to permanently reduce emissions of those pollutants by increasing the combustion heat rate efficiency of fossil fuel-fired generating units to levels achievable through—

(A) use of commercially available combustion technology, including clean coal technologies such as pressurized fluidized bed combustion and an integrated gasification combined cycle system;

(B) installation of pollution controls;

(C) expanded use of renewable and clean energy sources such as biomass, geothermal, solar, wind, and fuel cells; and

(D) promotion of application of combined heat and power technologies;

(4)(A) to create financial and regulatory incentives to retire thermally inefficient generating units and replace them with new units that employ high-thermal-efficiency combustion technology; and

(B) to increase use of renewable and clean energy sources such as biomass, geothermal, solar, wind, and fuel cells;

(5) to establish the Clean Air Trust Fund to fund the training, economic development, carbon sequestration, and research, development, and demonstration programs established under this Act;

(6) to eliminate the “grandfather” loophole in the Clean Air Act relating to sources in operation before the promulgation of standards under section 111 of that Act (42 U.S.C. 7411);

(7) to express the sense of Congress that permanent reductions in emissions of greenhouse gases that are accomplished through the retirement of old units and replacement by new units that meet the combustion heat

rate efficiency and emission standards specified in this Act should be credited to the utility sector and the owner or operator in any climate change implementation program;

(8) to promote permanent and safe disposal of mercury recovered through coal cleaning, flue gas control systems, and other methods of mercury pollution control;

(9) to increase public knowledge of the sources of mercury exposure and the threat to public health from mercury, particularly the threat to the health of pregnant women and their fetuses, women of childbearing age, and children;

(10) to decrease significantly the threat to human health and the environment posed by mercury;

(11) to provide worker retraining for workers adversely affected by reduced consumption of coal; and

(12) to provide economic development incentives for communities adversely affected by reduced consumption of coal.

SEC. 3. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) GENERATING UNIT.—The term “generating unit” means an electric utility generating unit.

SEC. 4. COMBUSTION HEAT RATE EFFICIENCY STANDARDS FOR FOSSIL FUEL-FIRED GENERATING UNITS.

(a) STANDARDS.—

(1) IN GENERAL.—Not later than the day that is 10 years after the date of enactment of this Act, each fossil fuel-fired generating unit that commences operation on or before that day shall achieve and maintain, at all operating levels, a combustion heat rate efficiency of not less than 45 percent (based on the higher heating value of the fuel).

(2) FUTURE GENERATING UNITS.—Each fossil fuel-fired generating unit that commences operation more than 10 years after the date of enactment of this Act shall achieve and maintain, at all operating levels, a combustion heat rate efficiency of not less than 50 percent (based on the higher heating value of the fuel), unless granted a waiver under subsection (d).

(b) TEST METHODS.—Not later than 2 years after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Energy, shall promulgate methods for determining initial and continuing compliance with this section.

(c) PERMIT REQUIREMENT.—Not later than 10 years after the date of enactment of this Act, each generating unit shall have a permit issued under title V of the Clean Air Act (42 U.S.C. 7661 et seq.) that requires compliance with this section.

(d) WAIVER OF COMBUSTION HEAT RATE EFFICIENCY STANDARD.—

(1) APPLICATION.—The owner or operator of a generating unit that commences operation more than 10 years after the date of enactment of this Act may apply to the Administrator for a waiver of the combustion heat rate efficiency standard specified in subsection (a)(2) that is applicable to that type of generating unit.

(2) ISSUANCE.—The Administrator may grant the waiver only if—

(A)(i) the owner or operator of the generating unit demonstrates that the technology to meet the combustion heat rate efficiency standard is not commercially available; or

(ii) the owner or operator of the generating unit demonstrates that, despite best technical efforts and willingness to make the

necessary level of financial commitment, the combustion heat rate efficiency standard is not achievable at the generating unit; and

(B) the owner or operator of the generating unit enters into an agreement with the Administrator to offset by a factor of 1.5 to 1, using a method approved by the Administrator, the emission reductions that the generating unit does not achieve because of the failure to achieve the combustion heat rate efficiency standard specified in subsection (a)(2).

(3) EFFECT OF WAIVER.—If the Administrator grants a waiver under paragraph (1), the generating unit shall be required to achieve and maintain, at all operating levels, the combustion heat rate efficiency standard specified in subsection (a)(1).

SEC. 5. AIR EMISSION STANDARDS FOR FOSSIL FUEL-FIRED GENERATING UNITS.

(a) ALL FOSSIL FUEL-FIRED GENERATING UNITS.—Not later than 10 years after the date of enactment of this Act, each fossil fuel-fired generating unit, regardless of its date of construction or commencement of operation, shall be subject to, and operating in physical and operational compliance with, the new source review requirements under section 111 of the Clean Air Act (42 U.S.C. 7411).

(b) EMISSION RATES FOR SOURCES REQUIRED TO MAINTAIN 45 PERCENT EFFICIENCY.—Not later than 10 years after the date of enactment of this Act, each fossil fuel-fired generating unit subject to section 4(a)(1) shall be in compliance with the following emission limitations:

(1) MERCURY.—Each coal-fired or fuel oil-fired generating unit shall be required to remove 90 percent of the mercury contained in the fuel, calculated in accordance with subsection (e).

(2) CARBON DIOXIDE.—

(A) NATURAL GAS-FIRED GENERATING UNITS.—Each natural gas-fired generating unit shall be required to achieve an emission rate of not more than 0.9 pounds of carbon dioxide per kilowatt hour of net electric power output.

(B) FUEL OIL-FIRED GENERATING UNITS.—Each fuel oil-fired generating unit shall be required to achieve an emission rate of not more than 1.3 pounds of carbon dioxide per kilowatt hour of net electric power output.

(C) COAL-FIRED GENERATING UNITS.—Each coal-fired generating unit shall be required to achieve an emission rate of not more than 1.55 pounds of carbon dioxide per kilowatt hour of net electric power output.

(3) SULFUR DIOXIDE.—Each fossil fuel-fired generating unit shall be required—

(A) to remove 95 percent of the sulfur dioxide that would otherwise be present in the flue gas; and

(B) to achieve an emission rate of not more than 0.3 pounds of sulfur dioxide per million British thermal units of fuel consumed.

(4) NITROGEN OXIDES.—Each fossil fuel-fired generating unit shall be required—

(A) to remove 90 percent of nitrogen oxides that would otherwise be present in the flue gas; and

(B) to achieve an emission rate of not more than 0.15 pounds of nitrogen oxides per million British thermal units of fuel consumed.

(c) EMISSION RATES FOR SOURCES REQUIRED TO MAINTAIN 50 PERCENT EFFICIENCY.—Each fossil fuel-fired generating unit subject to section 4(a)(2) shall be in compliance with the following emission limitations:

(1) MERCURY.—Each coal-fired or fuel oil-fired generating unit shall be required to remove 90 percent of the mercury contained in the fuel, calculated in accordance with subsection (e).

(2) CARBON DIOXIDE.—

(A) NATURAL GAS-FIRED GENERATING UNITS.—Each natural gas-fired generating unit shall be required to achieve an emission rate of not more than 0.8 pounds of carbon dioxide per kilowatt hour of net electric power output.

(B) FUEL OIL-FIRED GENERATING UNITS.—Each fuel oil-fired generating unit shall be required to achieve an emission rate of not more than 1.2 pounds of carbon dioxide per kilowatt hour of net electric power output.

(C) COAL-FIRED GENERATING UNITS.—Each coal-fired generating unit shall be required to achieve an emission rate of not more than 1.4 pounds of carbon dioxide per kilowatt hour of net electric power output.

(3) SULFUR DIOXIDE.—Each fossil fuel-fired generating unit shall be required—

(A) to remove 95 percent of the sulfur dioxide that would otherwise be present in the flue gas; and

(B) to achieve an emission rate of not more than 0.3 pounds of sulfur dioxide per million British thermal units of fuel consumed.

(4) NITROGEN OXIDES.—Each fossil fuel-fired generating unit shall be required—

(A) to remove 90 percent of nitrogen oxides that would otherwise be present in the flue gas; and

(B) to achieve an emission rate of not more than 0.15 pounds of nitrogen oxides per million British thermal units of fuel consumed.

(d) PERMIT REQUIREMENT.—Not later than 10 years after the date of enactment of this Act, each generating unit shall have a permit issued under title V of the Clean Air Act (42 U.S.C. 7661 et seq.) that requires compliance with this section.

(e) COMPLIANCE DETERMINATION AND MONITORING.—

(1) REGULATIONS.—Not later than 2 years after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Energy, shall promulgate methods for determining initial and continuing compliance with this section.

(2) CALCULATION OF MERCURY EMISSION REDUCTIONS.—Not later than 2 years after the date of enactment of this Act, the Administrator shall promulgate fuel sampling techniques and emission monitoring techniques for use by generating units in calculating mercury emission reductions for the purposes of this section.

(3) REPORTING.—

(A) IN GENERAL.—Not less than once quarterly, the owner or operator of a generating unit shall submit a pollutant-specific emission report for each pollutant covered by this section.

(B) SIGNATURE.—Each report required under subparagraph (A) shall be signed by a responsible official of the generating unit, who shall certify the accuracy of the report.

(C) PUBLIC REPORTING.—The Administrator shall annually make available to the public, through 1 or more published reports and 1 or more forms of electronic media, facility-specific emission data for each generating unit and pollutant covered by this section.

(D) CONSUMER DISCLOSURE.—Not later than 2 years after the date of enactment of this Act, the Administrator shall promulgate regulations requiring each owner or operator of a generating unit to disclose to residential consumers of electricity generated by the unit, on a regular basis (but not less often than annually) and in a manner convenient to the consumers, data concerning the level of emissions by the generating unit of each pollutant covered by this section and each air pollutant covered by section 111 of the Clean Air Act (42 U.S.C. 7411).

(f) DISPOSAL OF MERCURY CAPTURED OR RECOVERED THROUGH EMISSION CONTROLS.—

(1) CAPTURED OR RECOVERED MERCURY.—Not later than 2 years after the date of enactment of this Act, the Administrator shall promulgate regulations to ensure that mercury that is captured or recovered through the use of an emission control, coal cleaning, or another method is disposed of in a manner that ensures that—

(A) the hazards from mercury are not transferred from 1 environmental medium to another; and

(B) there is no release of mercury into the environment.

(2) MERCURY-CONTAINING SLUDGES AND WASTES.—The regulations promulgated by the Administrator under paragraph (1) shall ensure that mercury-containing sludges and wastes are handled and disposed of in accordance with all applicable Federal and State laws (including regulations).

(g) PUBLIC REPORTING OF FACILITY-SPECIFIC EMISSION DATA.—

(1) IN GENERAL.—The Administrator shall annually make available to the public, through 1 or more published reports and the Internet, facility-specific emission data for each generating unit and for each pollutant covered by this section.

(2) SOURCE OF DATA.—The emission data shall be taken from the emission reports submitted under subsection (e)(3).

SEC. 6. EXTENSION OF RENEWABLE ENERGY PRODUCTION CREDIT.

Section 45(c) of the Internal Revenue Code of 1986 (relating to definitions) is amended—

(1) in paragraph (1)—

(A) in subparagraph (A), by striking “and”;

(B) in subparagraph (B), by striking the period and inserting “, and”; and

(C) by adding at the end the following:

“(C) solar power.”;

(2) in paragraph (3)—

(A) by inserting “, and December 31, 1998, in the case of a facility using solar power to produce electricity” after “electricity”; and

(B) by striking “1999” and inserting “2010”; and

(3) by adding at the end the following:

“(4) SOLAR POWER.—The term ‘solar power’ means solar power harnessed through—

“(A) photovoltaic systems,

“(B) solar boilers that provide process heat, and

“(C) any other means.”.

SEC. 7. MEGAWATT HOUR GENERATION FEES.

(a) IN GENERAL.—Chapter 38 of the Internal Revenue Code of 1986 (relating to miscellaneous excise taxes) is amended by inserting after subchapter D the following:

“Subchapter E—Megawatt Hour Generation Fees

“Sec. 4691. Imposition of fees.

“SEC. 4691. IMPOSITION OF FEES.

“(a) TAX IMPOSED.—There is hereby imposed on each covered fossil fuel-fired generating unit a tax equal to 30 cents per megawatt hour of electricity produced by the covered fossil fuel-fired generating unit.

“(b) ADJUSTMENT OF RATES.—Not less often than once every 2 years beginning after 2002, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall evaluate the rate of the tax imposed by subsection (a) and increase the rate if necessary for any succeeding calendar year to ensure that the Clean Air Trust Fund established by section 9511 has sufficient amounts to fully fund the activities described in section 9511(c).

“(c) PAYMENT OF TAX.—The tax imposed by this section shall be paid quarterly by the

owner or operator of each covered fossil fuel-fired generating unit.

“(d) COVERED FOSSIL FUEL-FIRED GENERATING UNIT.—The term ‘covered fossil fuel-fired generating unit’ means an electric utility generating unit that—

“(1) is powered by fossil fuels;

“(2) has a generating capacity of 5 or more megawatts; and

“(3) because of the date on which the generating unit commenced commercial operation, is not subject to all regulations promulgated under section 111 of the Clean Air Act (42 U.S.C. 7411).”.

(b) CONFORMING AMENDMENT.—The table of subchapters for such chapter 38 is amended by inserting after the item relating to subchapter D the following:

“SUBCHAPTER E. Megawatt hour generation fees.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to electricity produced in calendar years beginning after December 31, 2000.

SEC. 8. CLEAN AIR TRUST FUND.

(a) IN GENERAL.—Subchapter A of chapter 98 of the Internal Revenue Code of 1986 (relating to trust fund code) is amended by adding at the end the following:

“SEC. 9511. CLEAN AIR TRUST FUND.

“(a) CREATION OF TRUST FUND.—There is established in the Treasury of the United States a trust fund to be known as the ‘Clean Air Trust Fund’ (hereafter referred to in this section as the ‘Trust Fund’), consisting of such amounts as may be appropriated or credited to the Trust Fund as provided in this section or section 9602(b).

“(b) TRANSFERS TO TRUST FUND.—There are hereby appropriated to the Trust Fund amounts equivalent to the taxes received in the Treasury under section 4691.

“(c) EXPENDITURES FROM TRUST FUND.—Amounts in the Trust Fund shall be available, without further Act of appropriation, upon request by the head of the appropriate Federal agency in such amounts as the agency head determines are necessary—

“(1) to provide funding under section 12 of the Clean Power Plant and Modernization Act of 1999, as in effect on the date of enactment of this section;

“(2) to provide funding for the demonstration program under section 13 of such Act, as so in effect;

“(3) to provide assistance under section 15 of such Act, as so in effect;

“(4) to provide assistance under section 16 of such Act, as so in effect; and

“(5) to provide funding under section 17 of such Act, as so in effect.”.

(b) CONFORMING AMENDMENT.—The table of sections for such subchapter A is amended by adding at the end the following:

“Sec. 9511. Clean Air Trust Fund.”.

SEC. 9. ACCELERATED DEPRECIATION FOR INVESTOR-OWNED GENERATING UNITS.

(a) IN GENERAL.—Section 168(e)(3) of the Internal Revenue Code of 1986 (relating to classification of certain property) is amended—

(1) in subparagraph (E) (relating to 15-year property), by striking “and” at the end of clause (ii), by striking the period at the end of clause (iii) and inserting “, and”, and by adding at the end the following:

“(iv) any 45-percent efficient fossil fuel-fired generating unit.”; and

(2) by adding at the end the following:

“(F) 12-YEAR PROPERTY.—The term ‘12-year property’ includes any 50-percent efficient fossil fuel-fired generating unit.”.

(b) DEFINITIONS.—Section 168(i) of the Internal Revenue Code of 1986 (relating to defi-

nitions and special rules) is amended by adding at the end the following:

“(15) FOSSIL FUEL-FIRED GENERATING UNITS.—

“(A) 50-PERCENT EFFICIENT FOSSIL FUEL-FIRED GENERATING UNIT.—The term ‘50-percent efficient fossil fuel-fired generating unit’ means any property used in an investor-owned fossil fuel-fired generating unit pursuant to a plan approved by the Secretary, in consultation with the Administrator of the Environmental Protection Agency, to place into service such a unit that is in compliance with sections 4(a)(2) and 5(c) of the Clean Power Plant and Modernization Act of 1999, as in effect on the date of enactment of this paragraph.

“(B) 45-PERCENT EFFICIENT FOSSIL FUEL-FIRED GENERATING UNIT.—The term ‘45-percent efficient fossil fuel-fired generating unit’ means any property used in an investor-owned fossil fuel-fired generating unit pursuant to a plan so approved to place into service such a unit that is in compliance with sections 4(a)(1) and 5(b) of such Act, as so in effect.”.

(c) CONFORMING AMENDMENT.—The table contained in section 168(c) of the Internal Revenue Code of 1986 (relating to applicable recovery period) is amended by inserting after the item relating to 10-year property the following:

“12-year property 12 years”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property used after the date of enactment of this Act.

SEC. 10. GRANTS FOR PUBLICLY OWNED GENERATING UNITS.

Any capital expenditure made after the date of enactment of this Act to purchase, install, and bring into commercial operation any new publicly owned generating unit that—

(1) is in compliance with sections 4(a)(1) and 5(b) shall, for a 15-year period, be eligible for partial reimbursement through annual grants made by the Secretary of the Treasury, in consultation with the Administrator, in an amount equal to the monetary value of the depreciation deduction that would be realized by reason of section 168(c)(3)(E) of the Internal Revenue Code of 1986 by a similarly-situated investor-owned generating unit over that period; and

(2) is in compliance with sections 4(a)(2) and 5(c) shall, over a 12-year period, be eligible for partial reimbursement through annual grants made by the Secretary of the Treasury, in consultation with the Administrator, in an amount equal to the monetary value of the depreciation deduction that would be realized by reason of section 168(c)(3)(D) of such Code by a similarly-situated investor-owned generating unit over that period.

SEC. 11. RECOGNITION OF PERMANENT EMISSION REDUCTIONS IN FUTURE CLIMATE CHANGE IMPLEMENTATION PROGRAMS.

It is the sense of Congress that—

(1) permanent reductions in emissions of carbon dioxide and nitrogen oxides that are accomplished through the retirement of old generating units and replacement by new generating units that meet the combustion heat rate efficiency and emission standards specified in this Act, or through replacement of old generating units with nonpolluting renewable power generation technologies, should be credited to the utility sector, and

to the owner or operator that retires or replaces the old generating unit, in any climate change implementation program enacted by Congress;

(2) the base year for calculating reductions under a program described in paragraph (1) should be the calendar year preceding the calendar year in which this Act is enacted; and

(3) a reasonable portion of any monetary value that may accrue from the crediting described in paragraph (1) should be passed on to utility customers.

SEC. 12. RENEWABLE AND CLEAN POWER GENERATION TECHNOLOGIES.

(a) **IN GENERAL.**—Under the Renewable Energy and Energy Efficiency Technology Act of 1989 (42 U.S.C. 12001 et seq.), the Secretary of Energy shall fund research and development programs and commercial demonstration projects and partnerships to demonstrate the commercial viability and environmental benefits of electric power generation from—

(1) biomass (excluding unseparated municipal solid waste), geothermal, solar, and wind technologies; and

(2) fuel cells.

(b) **TYPES OF PROJECTS.**—Demonstration projects may include solar power tower plants, solar dishes and engines, co-firing of biomass with coal, biomass modular systems, next-generation wind turbines and wind turbine verification projects, geothermal energy conversion, and fuel cells.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—In addition to amounts made available under any other law, there is authorized to be appropriated to carry out this section \$75,000,000 for each of fiscal years 2001 through 2010.

SEC. 13. CLEAN COAL, ADVANCED GAS TURBINE, AND COMBINED HEAT AND POWER DEMONSTRATION PROGRAM.

(a) **IN GENERAL.**—Under subtitle B of title XXI of the Energy Policy Act of 1992 (42 U.S.C. 13471 et seq.), the Secretary of Energy shall establish a program to fund projects and partnerships designed to demonstrate the efficiency and environmental benefits of electric power generation from—

(1) clean coal technologies, such as pressurized fluidized bed combustion and an integrated gasification combined cycle system;

(2) advanced gas turbine technologies, such as flexible mid-sized gas turbines and base-load utility scale applications; and

(3) combined heat and power technologies.

(b) **SELECTION CRITERIA.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall promulgate criteria and procedures for selection of demonstration projects and partnerships to be funded under subsection (a).

(2) **REQUIRED CRITERIA.**—At a minimum, the selection criteria shall include—

(A) the potential of a proposed demonstration project or partnership to reduce or avoid emissions of pollutants covered by section 5 and air pollutants covered by section 111 of the Clean Air Act (42 U.S.C. 7411); and

(B) the potential commercial viability of the proposed demonstration project or partnership.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—In addition to amounts made available under any other law, there is authorized to be appropriated to carry out this section \$75,000,000 for each of fiscal years 2001 through 2010.

(2) **DISTRIBUTION.**—The Secretary shall make reasonable efforts to ensure that, under the program established under this

section, the same amount of funding is provided for demonstration projects and partnerships under each of paragraphs (1), (2), and (3) of subsection (a).

SEC. 14. EVALUATION OF IMPLEMENTATION OF THIS ACT AND OTHER STATUTES.

(a) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Energy, in consultation with the Chairman of the Federal Energy Regulatory Commission and the Administrator, shall submit to Congress a report on the implementation of this Act.

(b) **IDENTIFICATION OF CONFLICTING LAW.**—The report shall identify any provision of the Energy Policy Act of 1992 (Public Law 102-486), the Energy Supply and Environmental Coordination Act of 1974 (15 U.S.C. 791 et seq.), the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.), or the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 et seq.), or the amendments made by those Acts, that conflicts with the intent or efficient implementation of this Act.

(c) **RECOMMENDATIONS.**—The report shall include recommendations from the Secretary of Energy, the Chairman of the Federal Energy Regulatory Commission, and the Administrator for legislative or administrative measures to harmonize and streamline the statutes specified in subsection (b) and the regulations implementing those statutes.

SEC. 15. ASSISTANCE FOR WORKERS ADVERSELY AFFECTED BY REDUCED CONSUMPTION OF COAL.

In addition to amounts made available under any other law, there is authorized to be appropriated \$75,000,000 for each of fiscal years 2001 through 2015 to provide assistance, under the economic dislocation and worker adjustment assistance program of the Department of Labor authorized by title III of the Job Training Partnership Act (29 U.S.C. 1651 et seq.), to coal industry workers who are terminated from employment as a result of reduced consumption of coal by the electric power generation industry.

SEC. 16. COMMUNITY ECONOMIC DEVELOPMENT INCENTIVES FOR COMMUNITIES ADVERSELY AFFECTED BY REDUCED CONSUMPTION OF COAL.

In addition to amounts made available under any other law, there is authorized to be appropriated \$75,000,000 for each of fiscal years 2001 through 2015 to provide assistance, under the economic adjustment program of the Department of Commerce authorized by the Public Works and Economic Development Act of 1965 (42 U.S.C. 3121 et seq.), to assist communities adversely affected by reduced consumption of coal by the electric power generation industry.

SEC. 17. CARBON SEQUESTRATION.

(a) **CARBON SEQUESTRATION STRATEGY.**—In addition to amounts made available under any other law, there is authorized to be appropriated to the Environmental Protection Agency and the Department of Energy for each of fiscal years 2001 through 2003 a total of \$15,000,000 to conduct research and development activities in basic and applied science in support of development by September 30, 2003, of a carbon sequestration strategy that is designed to offset all growth in carbon dioxide emissions in the United States after 2010.

(b) **METHODS FOR BIOLOGICALLY SEQUESTERING CARBON DIOXIDE.**—In addition to amounts made available under any other law, there is authorized to be appropriated to the Environmental Protection Agency and the Department of Agriculture for each of fiscal years 2001 through 2010 a total of

\$30,000,000 to carry out soil restoration, tree planting, wetland protection, and other methods of biologically sequestering carbon dioxide.

(c) **LIMITATION.**—A project carried out using funds made available under this section shall not be used to offset any emission reduction required under any other provision of this Act.

THE RUSSIAN LEADERSHIP PROGRAM

Mr. STEVENS. Mr. President, I am pleased to announce that Congress included \$10 million in the Foreign Operations Appropriations bill to continue the Russian Leadership Program in Fiscal Year 2000.

The Russian Leadership Program was created earlier this year in the FY 1999 supplemental appropriations bill in order to bring emerging Russian leaders to the United States to see first hand how democracy and the American free market economic system function. The program was successful in bringing over 2,100 emerging leaders from 83 of the 89 states and republics in the Russian Federation during July, August, and September of this year. Dr. Billington, the Librarian of Congress, and one of the world's leading historians of Russian culture was asked to administer this program. Our thanks go to Dr. Billington for doing an excellent job implementing this program in a short period of time.

The program was modeled after the Marshall Plan which was implemented after World War II. Between 1946-1956, the U.S. Government brought over 10,000 Germans citizens to the United States to learn ways to rebuild their economy through technical assistance as well as cultural and political contacts. The Marshall Plan was one of the most successful foreign aid programs of the last century.

Similar to the Marshall Plan, participants in the Russian Leadership Program visited more than 400 communities in 46 states and the District of Columbia observing democracy in action at all levels of government. They met and discussed the American system of government with current and former U.S. Presidents, Members of the U.S. Senate and U.S. House, Governors, state legislators, state supreme court justices, mayors, and members of city and town councils.

Some of the participants also campaigned door-to-door with political candidates, visited police and fire stations, met with students in schools, visited hospitals, research facilities, businesses, soup kitchens, shelters and experienced firsthand the partnership among government, and the private sector.

This program was unique because more than 800 American families hosted our Russian visitors, welcoming them into their homes and communities, and spending the time to answer

questions about and show our guests the American way of life. Vadim Baikov, one of the six Russians who visited Alaska, the State I represent, wrote after the program that, "In my opinion, the best cultural aspect is that we stayed with the families, because in this way one can actually gain insight of the genuine American lifestyle. I think that is what counts the most."

Organizations such as Rotary International, the United Methodist Church, Freedom Force, and the Church of Jesus Christ of Latter-day Saints played a key role in organizing the participants in the program both in Russia and the United States. In addition to volunteering their time, these families and hosting communities generously supplemented the government's \$10 million appropriations by providing approximately \$1.5 million worth of meals, cultural activities, additional transportation and medical care.

Beyond the strong ties of friendship that developed between guests and hosts, it is clear that the Russian Leadership Program fundamentally changed how these Russian guests see America. They constitute the largest single group ever to travel from Russia to the U.S. They return to Russia with clear ideas and strong commitment to positive change. A mayor from Tomsk spend time with the mayor of Cleveland and said: "If we were to meet more often, there would be more peaceful relations."

The Russian Leadership Program has had a tremendous impact in one year. It is a good program and I am pleased that we were able to provide the necessary funding to continue this program into the new millenium.

INTELLECTUAL PROPERTY AND COMMUNICATIONS OMNIBUS REFORM ACT OF 1999

Mr. SCHUMER. Mr. President, I rise today in support of the revised "Intellectual Property and Communications Omnibus Reform Act of 1999" (H.R. 1554). As a Member of the Judiciary Committee, I am particularly pleased that this legislation includes as Title IV, the "American Inventors Protection Act of 1999." This important patent reform measure includes a series of initiatives intended to protect the rights of inventors, enhance patent protections and reduce patent litigation.

Perhaps most importantly, subtitle C of title IV contains the so-called "First Inventor Defense." This defense provides a first inventor (or "prior user") with a defense in patent infringement lawsuits, whenever an inventor of a business method (i.e., a practice process or system) uses the invention but does not patent it. Currently, patent law does not provide original inventors with any protections when a subse-

quent user, who patents the method at a later date, files a lawsuit for infringement against the real creator of the invention.

The first inventor defense will provide the financial services industry with important, needed protections in the face of the uncertainty presented by the Federal Circuit's decision in the State Street case. *State Street Bank and Trust Company v. Signature Financial Group, Inc.* 149 F.3d 1368 (Fed. Cir., 1998). In State Street, the Court did away with the so-called "business methods" exception to statutory patentable subject matter. Consequently, this decision has raised questions about what types of business methods may now be eligible for patent protection. In the financial services sector, this has prompted serious legal and practical concerns. It has created doubt regarding whether or not particular business methods used by the industry—including processes, practices, and systems—might now suddenly become subject to new claims under the patent law. In terms of everyday business practice, these types of activities were considered to be protected as trade secrets and were not viewed as patentable material.

The first inventor defense strikes a fair balance between patent and trade secret law. Specifically, this provision creates a defense for inventors who (1) acting in good faith have reduced the subject matter to practice in the United States at least one year prior to the patent filing date ("effective filing date") of another (typically later) inventor; and (2) commercially used the subject matter in the United States before the filing date of the patent. Commercial use does not require that the particular invention be made known to the public or be used in the public marketplace—it includes wholly internal commercial uses as well.

As used in this legislation, the term "method" is intended to be construed broadly. The term "method" is defined as meaning "a method of doing or conducting business." Thus, "method" includes any internal method of doing business, a method used in the course of doing or conducting business, or a method for conducting business in the public marketplace. It includes a practice, process, activity, or system that is used in the design, formulation, testing, or manufacture of any product or service. The defense will be applicable against method claims, as well as the claims involving machines or articles the manufacturer used to practice such methods (i.e., apparatus claims). New technologies are being developed every day, which include technology that employs both methods of doing business and physical apparatus designed to carry out a method of doing business. The first inventor defense is intended to protect both method claims and apparatus claims.

When viewed specifically from the standpoint of the financial services industry, the term "method" includes financial instruments, financial products, financial transactions, the ordering of financial information, and any system or process that transmits or transforms information with respect to investments or other types of financial transactions. In this context, it is important to point out the beneficial effects that such methods have brought to our society. These include the encouragement of home ownership, the broadened availability of capital for small businesses, and the development of a variety of pension and investment opportunities for millions of Americans.

As the joint explanatory statement of the Conference Committee on H.R. 1554 notes, the provision "focuses on methods for doing and conducting business, including methods used in connection with internal commercial operations as well as those used in connection with the sale or transfer of useful end results—whether in the form of physical products, or in the form of services, or in the form of some other useful results; for example, results produced to the manipulation of data or other imports to produce a useful result." H. Rept. 106- , p. 31.

The language of the provision states that the defense is not available if the person has actually abandoned commercial use of the subject matter. As used in the legislation, abandonment refers to the cessation of use with no intent to resume. Intervals of non-use between such periodic or cyclical activities such as seasonal factors or reasonable intervals between contracts, however, should not be considered to be abandonment.

As noted earlier, in the wake of State Street, thousands of methods and processes that have been and are used internally are now subject to the possibility of being claimed as patented inventions. Previously, the businesses that developed and used such methods and processes thought that secrecy was the only protection available. As the conference report on H.R. 1554 states: "(U)nder established law, any of these inventions which have been in commercial use—public or secret—for more than one year cannot now be the subject of a valid U.S. patent." H. Rept. 106- , p. 31.

Mr. President, patent law should encourage innovation, not create barriers to the development of innovative financial products, credit vehicles, and e-commerce generally. The patent law was never intended to prevent people from doing what they are already doing. While I am very pleased that the first inventors defense is included in H.R. 1554, it should be viewed as just the first step in defining the appropriate limits and boundaries of the

State Street decision. This legal defense will provide important protections for companies against unfair and unjustified patent infringement actions. But, at the same time, I believe that it is time for Congress to take a closer look at the potentially broad and, perhaps, adverse consequences of the State Street decision. I hope that beginning early next year the Judiciary Committee will hold hearings on the State Street issue, so Senators can carefully evaluate its economic and competitive consequences.

Mr. TORRICELLI. My colleague is correct. The State Street decision may have unintended consequences for the financial services community. By explicitly holding that business methods are patentable, financial service companies are finding that the techniques and ideas, that were in wide use, are being patented by others.

The Prior Inventor Defense of H.R. 1554 is an important step towards protecting the financial services industry. By protecting early developers and users of a business method, the defense allows U.S. companies to commit resources to the commercialization of their inventions with confidence that a subsequent patent holder will prevail in a patent infringement suit. Without this defense, financial services companies face unfair patent-infringement suits over the use of techniques and ideas (methods) they developed and have used for years.

While I support the Prior Inventor Defense, as a member of the Judiciary Committee, I hope we will revisit this issue next year. More must be done to address the boundaries of the State Street decision with the realities of the constantly changing and developing financial services industry.

I look forward to working with Senator SCHUMER and my colleagues on the committee on this important issue.

ORDERS FOR FRIDAY, NOVEMBER 19, 1999

Mr. MURKOWSKI. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 10 a.m. on Friday, November 19. I further ask consent that on Friday, immediately following the prayer, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and that the Senate then proceed to morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. MURKOWSKI. For the information of all Senators, when the Senate convenes, it will begin consideration of a number of legislative items that have been cleared for action and need to be considered in the House prior to adjournment. Following the consideration of these bills, the Senate will resume debate on the final appropriations bill. Further, as a reminder, cloture was filed today on the appropriations conference report, and there is still hope that the Wisconsin delegation will allow the cloture vote to occur at a reasonable hour during tomorrow's session. However, if no agreement is made, the cloture vote will occur at 1:01 a.m. on Saturday morning, and abbreviated postcloture debate is anticipated. Therefore, Senators can

expect a vote to occur a few hours after the cloture vote.

In addition, the Senate may consider the Work Incentives conference report prior to the pending adjournment.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. MURKOWSKI. If there is no further business to come before the Senate, I now ask unanimous consent the Senate stand in adjournment under the previous order.

Mr. FEINGOLD. Is there a unanimous consent request pending?

The PRESIDING OFFICER. There is, to adjourn.

Mr. FEINGOLD. Reserving the right to object, I ask unanimous consent with regard to the cloture vote which the Senator from Alaska described, that the vote take place at 10 a.m. on Saturday; and that should cloture be invoked, no more than 21 hours of debate remain.

Mr. MURKOWSKI. I object.

The PRESIDING OFFICER. The objection is heard.

Mr. FEINGOLD. Reserving the right to object, I simply want to indicate, as one member from the Wisconsin delegation, there is an effort to be reasonable with respect to the hour of the vote and to limit our rights with respect to the 30 hours respectively. Our goal is certainly not to cause people to vote at a very extreme hour.

The PRESIDING OFFICER. Under the previous order, the Senate stands in adjournment until 10 a.m., Friday, November 19, 1999.

Thereupon, the Senate, at 10:44 p.m., adjourned until Friday, November 19, 1999, at 10 a.m.

HOUSE OF REPRESENTATIVES—Thursday, November 18, 1999

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. LATOURETTE).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 18, 1999.

I hereby appoint the Honorable STEVEN C. LATOURETTE to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

PRAYER

The Reverend Douglas Tanner, Faith and Politics Institute, Washington, D.C., offered the following prayer:

Almighty God, we come before You this week before Thanksgiving only partially conscious of the many gifts You bestow upon us. We know that while others are hungry, we are fed, and while others are without shelter, we live in comfort. We give thanks for our material blessings and often share a measure of our abundance with those less fortunate.

Yet, we can live as unaware of the gifts You give us in each other, the gifts of those who think differently from the way we do, those whose experiences shape their perspectives differently from ours, those whose cultures cultivate different values and sensitivities, those whom You have placed with us in a land which we call one nation, indivisible, with liberty and justice for all.

Grant us, we pray in this season, a deeper appreciation of our brothers and our sisters all across this land, and across the aisles in this chamber. Open our hearts and strengthen our souls until we are instruments of Your peace. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Massachusetts (Mr. MOAKLEY) come forward and lead the House in the Pledge of Allegiance.

Mr. MOAKLEY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3308

Mr. PHELPS. Mr. Speaker, I ask unanimous consent to remove my name as cosponsor of H.R. 3308.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

PROVIDING FOR CONSIDERATION OF H.J. RES. 82, MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000 AND H.J. RES. 83, MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000

Mr. GOSS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 385 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 385

Resolved, That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the joint resolution (H.J. Res. 82) making further continuing appropriations for the fiscal year 2000, and for other purposes. The joint resolution shall be considered as read for amendment. The previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations; and (2) one motion to recommit.

SEC. 2. Upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the joint resolution (H.J. Res. 83) making further continuing appropriations for the fiscal year 2000, and for other purposes. The joint resolution shall be considered as read for amendment. The previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations; and (2) one motion to recommit.

The SPEAKER pro tempore. The gentleman from Florida (Mr. GOSS) is recognized for 1 hour.

Mr. GOSS. Mr. Speaker, before we begin on the rule, I am going to yield such time as he may consume to the

distinguished gentleman from South Dakota (Mr. THUNE) for a matter of interest to all Members of the House.

(Mr. THUNE asked and was given permission to speak out of order.)

TRIBUTE TO READING CLERK BOB BERRY

Mr. THUNE. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I wish to rise today to recognize the contributions of Bob Berry, a fellow South Dakotan.

Bob Berry has served the last several months as a Reading Clerk on the House Floor. Bob's father is a legend in South Dakota, the former Congressman E.Y. Berry, who represented South Dakota from 1951 to 1971. After his father's service, Bob served this institution as the Republican Reading Clerk. After several years of service, Bob was able to retire from the House 11 years ago.

As a result of the temporary departure of another Reading Clerk, Bob was asked to temporarily return to his old position in the House. The institution greatly appreciated Bob's willingness to return and enjoyed the last several months of his daily service.

The end of this session will allow Bob to return to retirement. We know he and his lovely wife, Marilyn, are pleased that the need for his services has passed and that they can enjoy their freedom to travel and visit their children, grandchildren and friends again.

Bob, on behalf of the House, I want to express our thanks for your service. You have truly helped this institution over the last several months and your contributions are much appreciated.

MOTION TO ADJOURN

Mr. OBEY. Mr. Speaker, I move that the House do now adjourn.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 14, nays 375, not voting 44, as follows:

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Messrs. COBURN, BLAGOJEVICH, DICKKEY, MCHUGH, MORAN of Virginia, LINDER, SALMON, BENTSEN, SPENCE, FROST, Ms. WOOLSEY, Ms. SANCHEZ, and Ms. DANNER changed their vote from "yea" to "nay."

Mr. RYAN of Wisconsin and Mr. PETRI changed their vote from "nay" to "yea."

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

PROVIDING FOR CONSIDERATION OF H.J. RES. 82, MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000 AND H.J. RES. 83, MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000—Continued

The SPEAKER pro tempore (Mr. LATOURETTE). The pending business is consideration of House Resolution 385 offered by the gentleman from Florida (Mr. GOSS).

The gentleman from Florida (Mr. GOSS) is recognized for 1 hour.

Mr. GOSS. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts (Mr. MOAKLEY), my colleague, pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, today, we place before the House what will hopefully be the last continuing resolution for fiscal year 2000. Yesterday, I referred to the movie "Groundhog Day" to describe the events of the past few weeks, where we seem to wake up each morning and do the same things we did the day before. And while we are here again as we were yesterday considering a rule to bring forward another short-term extension of the budget deadline, we are confident that a final agreement has been brokered and the process is finally now near total completion.

Like yesterday's, this rule is a standard closed rule providing for consideration of a continuing resolution whose expiration date is November 23. The rule waives all points of order against consideration of the joint resolution, provides 1 hour of debate, equally divided between the chairman and ranking member of the Committee on Appropriations, and affords the traditional motion to recommit.

Mr. Speaker, we have all been struggling to find the right negotiating mix to bring this budget process to a conclusion. Our firm line in the sand has remained constant: we will not spend one dime of the Social Security Trust Fund. While there has been the normal and appropriate give and take between the White House and the Congress on a host of other issues, our constituents, both young and old, I think are the real winners today.

Mr. Speaker, for the first time in over the 3 decades, Washington, D.C., will not be using Social Security as a slush fund. We have made the tough choices necessary to balance the budget without touching Social Security. It has been a long, it has been an arduous process; but the end result under the circumstances, I think, is well worth the effort: a more secure retirement for all Americans.

Just as there was 5 years ago when our new majority pledged to balance the budget, some cynical naysayers have claimed that we could not do the job this year without borrowing from Social Security. They were wrong in 1994, and they are wrong again today. We can do better, and this budget proves it.

Mr. Speaker, I want to particularly commend at this time the gentleman from Illinois (Mr. HASTERT), Speaker of the House, for his persistence and leadership, and the gentleman from Florida (Mr. YOUNG), the chairman of the Committee on Appropriations, and all the

other Members who have made this day come to pass.

It is a good victory for Congress, and a good one for the American people. I urge a "yes" vote on the rule and the underlying CR, of course.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I thank the gentleman from Florida (Mr. GOSS), who I have not seen since 4 o'clock this morning, for yielding me the customary half hour, and I yield myself such time as I may consume.

Mr. Speaker, even though we are 49 days into the fiscal year, only eight of the thirteen appropriation bills have been signed into law. Appropriation negotiations have been going on and on and on, with little hope in sight. That is until very early this morning.

Early this morning at about 2 o'clock, the appropriators and the White House reached agreement on an enormous omnibus appropriations bill that lumps all unfinished business together in one massive document nearly no one can understand. And supposedly, we just need to pass a couple of more continuing resolutions to keep the government open until the appropriation process is mercifully behind us, and the President signs this behemoth bill.

Mr. Speaker, the rule we are considering today makes in order not one, but two continuing resolutions. The first expires on November 23, and the second expires on December 2. I am told this is done to accommodate the deliberations of the Senate, so I see no reason to oppose it, despite the strange and inefficient process.

Mr. Speaker, I urge my colleagues to support this rule, and support the continuing resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. GOSS. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Florida (Mr. YOUNG), my colleague and friend, the chairman of the Committee on Appropriations.

Mr. YOUNG of Florida. Mr. Speaker, I thank the gentleman from Florida (Mr. GOSS) for yielding me the time, and I think we are going to pass the rule without too much difficulty.

But, Mr. Speaker, if I could have the attention of the House, the gentleman from Massachusetts (Mr. MOAKLEY) just mentioned the 4 o'clock hour, and he is right on target. At 6 minutes after 3 a.m. this morning, with the gentleman from California (Mr. DREIER) in the chair, I was able to file the final agreement on the last appropriations package.

We went to the Committee on Rules at 20 minutes after 3:00 and by 3:45, my part of it was complete and I was home by 4:30 this morning. I am not sure when the gentleman from Massachusetts got home, but the important issue here is that I have the oppor-

tunity to compliment and congratulate the Members of the Committee on Appropriations and the subcommittee chairmen and all of those who have done such a good job through this process.

But, Mr. Speaker, the unsung heroes do not often get those accolades, and I think it is appropriate that they do. Those heroes are the members of the Committee on Rules. They are here for early morning meetings and late night meetings. I want to compliment the gentleman from California (Mr. DREIER) and all of the members of the Committee on Rules for being available when the legislative process requires their presence.

In the last 10 days of our very serious negotiation with the representatives from the President's office, there have been numerous evenings when the Committee on Rules was told, be available, because we think we might have a bill for their consideration tonight. They have had to wait here until 10 or 11 o'clock at night, or midnight, and then the appropriators were not ready or the deal had not been struck yet. They have been so faithful to their responsibilities, and I just think it is timely to call attention to the work that they do and the generous giving of their time to help this process move.

Again, I want to thank the gentleman from California (Chairman DREIER) and the gentleman from Massachusetts (Mr. MOAKLEY), the ranking member, and all of the members of the Committee on Rules for being so patient with us as we move this process through.

Mr. MOAKLEY. Mr. Speaker, I yield 8 minutes to the gentleman from Wisconsin (Mr. OBEY), ranking member on the Committee on Appropriations.

Mr. OBEY. Mr. Speaker, first of all, before I begin, I simply want to say something about two people. I would like to say that the gentleman from Florida (Mr. YOUNG) is one of the most decent human beings I have ever dealt with in the over 30 years I have been a Member of this House. He and I do not share the same political philosophy on many, many issues; and he and I have different institutional responsibilities. We try to meet our institutional responsibilities to this House as one.

Mr. Speaker, I want to say with all the sincerity at my command that the gentleman from Florida (Mr. YOUNG), in the way that he deals honorably with each and every other Member of this House, is the way every Member of this place ought to deal with each and every Member. I know that if the gentleman promises me something, he will stick to it. And I know that he will do the best job that he can to deal with the concerns of each and every Member of this House.

I also want to say that with respect to his counterpart in the other body, Senator STEVENS, Senator STEVENS and

I are both known for our placid temperaments. I simply want to say that I regard Senator STEVENS as one of the easiest people to deal with. Not because he is easy in negotiations; he is hard as nails. But one always knows where he is coming from, and he plays it straight; and I, again, appreciate that very much.

Mr. Speaker, I want to explain why I called the last motion, and why I will be calling a number of other motions today. I think there are certain requirements that this House ought to meet in dealing with the most basic responsibility it has each year, which is to pass the budget for the coming year.

Budgets are not just numbers. They define our priorities. They indicate our values. The budget is the primary document by which Congress tries to influence the future direction of this country. We owe it to the country to consider that budget in a serious, thoughtful, fair-minded and honest way.

We are not going to do that today. The gentleman from Florida (Mr. YOUNG) indicated that this rule was put to bed at almost 4 o'clock this morning. It looks like it. I saw Arianna Huffington, again a person with whom I do not share much in common philosophically, but I saw her on a television program on women's issues a few nights ago; and she observed that she was very concerned about politicians who would brag about the fact that they were up until 4 o'clock in the morning making decisions. She said, "I do not trust any decision that is made at 4 o'clock in the morning," and I think she is largely right.

My problem, and I have numerous problems with this bill and I will explain more of them in detail when we get to the actual appropriation vehicle later on today or tomorrow, but the fact is that there are two problems that I have that override all others. First of all, we have at least nine separate authorization measures which are being folded into this bill. One of them, a more than 300-page authorization bill which is yet to be conferred, and yet it is being thrown in here. I defy my colleagues to tell me what is in it, and I urge my colleagues to remember that we will probably be, long after this bill is done, we will be trying to find out what is in it.

There are nine separate authorizations. I believe instead of having only 1 hour to debate all of those authorizations, plus the budgetary decisions that were made here in the bill before us today, I believe each of those authorizations should be pulled out of the bill. They should be debated separately and sequentially for at least an hour before we vote on each and every one of them.

Secondly, I think we should have had 24 hours to understand what is in this bill. We are going to be haunted by a number of things that are in this bill.

Mr. Speaker, among the authorizations that are added to this bill are the Medicare, Medicaid and State Children's Health Insurance program, which I probably favor. But I think we ought to know more about how they are being put together.

Second, we have the Admiral James W. Nance and Meg Donovan Foreign Relations Authorizations Act. I do not have the foggiest idea what is in that and neither does anybody else on the floor. We have H.R. 3428, which brings several dairy authorization measures to this floor, including the Northeast Compact. That compact was slipped into the law in the first place several years ago without ever having been voted on by either body. It was slipped in by the Senate, and now we are again slipping it in without it ever having been considered by either body. I think that is illegitimate.

The Intellectual Property and Communications Omnibus Reform Act. That is the satellite bill. I understand, coming from a rural area, the loan guarantees that are useful in rural areas have been taken out of that bill.

□ 1045

I understand there are also patents and trademark items in that bill. I think we ought to know more about that.

We have the Superfund Recycling Equity Act. This bill reminds me of what Churchill said about Russia, "A riddle wrapped in a mystery inside an enigma." We do not have any idea what that bill is really going to do in the fine print.

Then we have the Canyon Ferry Reservoir provisions, and international debt relief (again which I favor); but I am concerned, very, very concerned, about one section of that bill, which I think may not in fact deliver what it appears to promise.

Then we have a number of private bills which have been attached, one of which I think I would favor and the other which I am concerned about because it only includes a few people out of a much broader class that ought to be included in the kind of relief contemplated by that bill that is going to be given.

In my view, every time I make a motion which requires a rollcall before we can proceed to the next stage, that gives Members more time to find out what is in this bill before they actually cast the most important vote of the session. That is why I intend to make numerous motions today, and I most definitely would not count on being out of here by 4 p.m. or 5 p.m., or maybe even today.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LATOURETTE). The Chair would remind all Members that it is not appropriate to make references to the characteristics of Senators, even favorable characteristics.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. MINGE).

Mr. MINGE. Mr. Speaker, I would like to begin by associating myself with the comments of the gentleman from Wisconsin.

Today, we have before us an omnibus bill which, unfortunately, bears many similarities to the legislation that we considered a year ago at the close of the session. And for many of us, we promised we would never again let ourselves be trapped in this situation. We had a bipartisan budget process reform task force that worked. We came up with a series of recommendations. But, tragically, none of these recommendations was even brought to the floor for debate. I hope that in the year 2000 we can indeed take up this budget reform proposal and, hopefully, avoid an omnibus catch-all bill of the type that is being criticized today.

I recognize there are many good points to the bill, and I too would compliment the chairman of the Committee on Appropriations for his work. I have deep respect for him. But I would like to point out that there are many things in there that ought to be separately considered or are simply inappropriate in the bill, and commitments were made earlier in the session by the Speaker, by the majority leader and others that these provisions would not show up in an appropriations bill.

One such provision relates to dairy policy. In this country we have endured a dairy policy which has split our Nation into separate zones for no good reason other than to try to maintain some anti-competitive framework in dairy. This is crazy. In early December, we will go to Seattle, many will go to Seattle, for the WTO conference where we will be urging that Congress expand our international trade opportunities. And why is it at the same time that we are expanding international trade opportunities we continue to balkanize our country with respect to dairy programming?

Mr. Speaker, it makes absolutely no sense that we would continue to balkanize this country for purposes of dairy policy so that fluid milk from one part of the country, namely the upper Midwest, is at a competitive disadvantage because of government policy with fluid milk from other parts of the country. We cannot allow this type of antiquated dairy policy to survive, and for this reason and others I will be opposing the bill.

Mr. MOAKLEY. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK of Massachusetts. Mr. Speaker, I am sorry, marginally, to delay proceedings, but I do not think that significant deaths should go unnoticed. Unmourned, yes, but not unnoticed. And I am talking about the caps of 1997.

In 1997, this House engaged in a great orgy of self-congratulation by adopting a budget bill which not only cut Medicare, apparently without anybody here realizing that that was happening, but which enacted a set of restrictions on total spending. They would have lasted from 1997 until 2002, and they would be a template for the future. Alas, they did not last very long. The great balanced budget accomplishment of 1997, the caps, which were unnecessary and unrealistic at the time, have died. And it does not seem to me in this Chamber, where we are so given to ceremonial oratory, that we ought to allow that death to pass unnoticed.

The premature passing of the caps, as I said, is not an occasion for mourning. I think it is an occasion for celebration that reality has finally broken through the ideological miasma, but it ought to be noted. And it ought to be noted for a couple of reasons.

First of all, there were many of us who, in 1997, thought that the caps were, to use technical parliamentary language, a very stupid idea. They were clearly unrealistic, unsustainable, and they were a farce. And I find, Mr. Speaker, having been one of those who said that in 1997, that as I get older one of the few pleasures that increases with age is being able to say, "I told you so." So I do want to say that I and others told you so in 1997. Welcome to reality.

But it also is important because it shows that the vision of the role of the public sector that motivated this House, and particularly the majority in 1997, was flawed deeply. The American public understood better than this House did that there are needs that can best be served by private expenditures, but for a civilized society to achieve the right quality of life, some things have to be done together; transportation, the environment, compassion for people in need, public safety.

And the reason the caps died unceremoniously, hopefully unnoticed, according to the people on the other side, they have a new thing about Social Security spending, but I urge people to go back and read the budget debates of 1997. Never has an entity, the caps, been so widely praised and so quickly thrown over the side when reality broke in.

But the important point is that this is simply not a mistake made in numbers. It was a miscalculation about the American people's understanding of the importance of a public sector. The problem the people who put the caps had is this. It is a mathematical problem. They tried to construct a whole that was smaller than the sum of the parts.

All year we have been dealing with the parts. And as we look at those parts, public safety, education, the environment, highways, et cetera, et cetera, as we look at the parts, we find

that they add up to more than that whole. And, therefore, the whole with the "W" has become a hole with an "H." It has become a hole in the ground into which the caps have been interred and over which today we will shovel the dirt.

So Members should be aware that when they vote today on the major bill, the multi-omnibus appropriation bill, they are funding the government at a reasonable level. And funding the government at a reasonable level means the end of the caps. And I hope that we will not again put ourselves through that.

Now, of course, it is also the case that that bill will undo part of what we did with Medicare. And as I look at the extent to which this bill today will repudiate what was so enthusiastically held in 1997, I do wonder whether or not the crack investigative team, assembled by the gentleman from Indiana on the Committee on Government Reform, ought not to be set forward. Because there is a possibility that in 1997 imposters invaded this House, impersonated Members and voted into public policy Medicare and spending programs that were so foolish that today we have to repudiate them.

Now, back in 1997, DNA evidence was not as developed, so we may never know whether it was the real Members of the House or a group of mass invaders who did it. But whatever the reason was, the fact that the bill today will be a thorough repudiation of the mistakes of 1997, is something to be noticed, although not mourned.

Mr. MOAKLEY. Mr. Speaker, I yield 4½ minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I wish we could vote. I wish we had something of consequence to vote on. I wish my colleagues on the other side of the aisle would have provided us with real legislation.

I thank my good friend from Massachusetts, the ranking member of the Committee on Rules; but unfortunately, what we have here is a bag of tricks. This is a continuing resolution with an extension to November 23. It is a rule for that. I would ask, though I do realize that we are facing the Thanksgiving holiday, that we take our responsibilities in this body seriously. And though I appreciate the work of the chairman of the Committee on Appropriations and the ranking member for their individual intensity in the negotiations of this particular omnibus bill, it is sad and it is not worthy of the American people.

Earlier this morning we heard a point that I think is very well taken. The American people do not even know what we are doing up here. They do not understand the concept, and all of the mishmash and misinformation that has been given to them leaves them confused.

I think this bill has some valuable points to it. Ultimately, when it comes to the floor, we are told that teaching hospitals, Medicare payments to hospitals, and health care providers are included. That is a positive. It helps my community in Houston. My own school district suffered for the lack of teachers, so 100,000 teachers will be valuable. Fifty thousand police will be valuable as well.

But I cannot tell for the life of me whether we are spending the Social Security surplus or whether we are saving it. And because my seniors are extremely important to me, I have great doubts about this bill. And, in fact, since it is not here on the table, I think all the Members should be questioning this bill.

Then it is interesting that although we have argued continuously about riders and legislating on appropriations bills, because every time we bring up the idea of a patients' bill of rights, which 80 percent of the American people would like to see us pass, or prescription protection for our seniors, who are begging for relief because they cannot pay for housing and food and prescriptions at the same time, we get an argument that we cannot legislate on appropriations bills. Yet we have a 300-page State Department bill, which nobody knows what is in it; we have satellite TV special interests, and I am sure they are interested in that. I happen to support the resolution on that. But here we are lumping all of that together. We have the dairy issue, which some of our Members are for and against.

□ 1100

We are lowering the maintenance and readiness of our military by cutting into that very deeply. We have literally taken women for granted and thrown them aside because we have said family planning for women around the world, protecting their lives is irrelevant; here goes women again; just throw them off the side of the Earth.

And then I have been meeting for the families of the victims of the Tanzania and Kenya bombings. We agree we were in error. We know we did not have the kind of secure premises that we should have had in our embassies overseas. And yet, nobody has responded to the plea of these families to provide them with any relief. At least no one has called my office and said that we have given relief to the victims of those bombings who have lost loved ones. Some family members lost two members of their family.

And then we leave in a deep, dark hole 300,000 immigrants who have been paying taxes in this country who pleaded to simply allow them to apply for legal citizenship because the INS messed up procedurally their right to apply for citizenship. We have been begging for relief for these individuals

who own homes, who pay taxes, whose children are in school, but we have thrown them aside.

Human lives around here does not matter. But if they have got a big checkbook, they can write a check to somebody, you can be sure, to get their stuff in an omnibus bill.

I would tell Members who are considering voting for this that it is not worth voting for and sacrificing principles when they do not know whether they are saving Social Security or whether they are digging a big, deep hole.

If we had gone through this process the way we were supposed to go through it and had the appropriate review of these appropriations bills, maybe we would be able to have a considered process in dealing with this omnibus bill.

I would simply say, Mr. Speaker, that this continuing resolution really needs to be extended so that we can go to the drawing boards and deal with this bill in the way that the American people would like us to do so. And that is to include the likes of prescription protection for our seniors; include a patients' bill of rights; to discuss a real hate crimes bill; to provide compensation for the families who lost loved ones in the bombings in Africa; to keep family planning in; and, yes, to take care of our teaching hospitals, the 100,000 teachers and the 50,000 police.

But for God's sake, let us not vote on a ghost of a bill when we do not know whether we are saving Social Security or spending every dime.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. PETERSON).

Mr. PETERSON of Minnesota. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I want to today associate myself with the remarks of the gentleman from Wisconsin (Mr. OBEY). This is no way to do the process and the work of the House.

As the gentleman from Wisconsin (Mr. OBEY) pointed out, we have nine authorizations in this bill. I would like to focus on one of them.

I have had the misfortune, I guess you might call it, of serving on the Livestock and Horticulture Subcommittee of the Committee on Agriculture the last 4 years and went through the process when Steve Gunderson and myself, as ranking member, and tried to bring some legislation to the floor.

At that time, we were told that this was too complicated; we could not legislate it; so we had to give this to the Department and set up a process to figure out how we are going to untangle this convoluted system that puts one part of the country against another.

So we went through that process. The results did not please the people that put this forward, so now they have

turned around 180 degrees and they say, well, now it is not appropriate to do this by rule; now we are going to legislate it.

But what people need to understand, in addition to that, the fact that we are legislating 1(a), which is basically the current fluid milk differentials, we are also legislating the Northeast Compact again in this bill, we are taking probably the most important part of the dairy provision and suspending it until December 1, 2000. And that is the new manufacturing price maneuver that was established under this rule that USDA put forward.

Now, those of my colleagues that have dairy farms in their district should understand this. I represent a district that in some places we have more cows than we have people. I have one county that has 63,000 cows. I have more cows in my district than they have in the whole entire Northeast Dairy Compact. And so, we are very concerned about this. But the people that represent dairy farmers understand that the basic formula price that we have got in place has caused some tremendous volatility in the prices for dairy farmers.

We have seen a drop of \$6 a hundred-weight a few months ago. We just saw another big drop recently. We are not going to fix this by stalling this whole process and legislating, basically, the status quo on dairy.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from Maine (Mr. BALDACCI).

Mr. BALDACCI. Mr. Speaker, first of all, this is certainly a very terrible process, and it is no way to run a railroad.

There are many things that I would add, or there are many things that I would take out if I were in charge and was able to do it. But that is not the way the process works. And now we are at this particular point.

I think that there are more good things in this package than there are things that cause me concern to vote against it. One, I would like to focus on in particular is dairy.

The policies that we have been hearing talked about as it pertains to dairy does not take away from the issue of recognizing that the USDA's policy was going to cost small dairy farmers \$200 million. It was not going to leave things the way they were. It was going to take \$200 million from small dairy farmers who are on the verge of collapse or death and be put out of business. It retains an extension in a dairy compact that was a compact between the consumers and the dairy farmers.

If we look at the price differentials, we will see that the price of milk in the Northeast is five cents cheaper than the national average. So that has been a benefit between the farmers and the consumers.

I am also a member of the House Committee on Agriculture, and we

work on these issues; and there is no unanimity to these issues, but there are always disagreements. I appreciate the ranking member of the Committee on Appropriations and the concerns that he shares, because some of us look at this glass of milk as half full rather than half empty.

I would also like to focus on the teachers, the teacher training, the smaller classrooms, more discipline, higher test scores. We are talking about 50,000 more police officers, safer schools, more protection in our community. We are looking at veterans' health care. And we are talking about corrections in the balanced budget amendment that impacted on hospitals and home health agencies.

So there are many things that I think that when we look at that we could be in opposition towards. And, believe me, there are many things that I would rewrite. But, as I have learned in this process, we will have an opportunity in the future to change those things, to fight for those things, and another day will be in front of us.

Mr. FROST. Mr. Speaker, I yield back the balance of my time.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume for the observation that this has been a debate about the continuing resolution rule, and I think it has been properly described.

I think it is a worthy rule. We all know we have to have the continuing resolution. We have provided for contingencies as this, as has been explained by the gentleman from Massachusetts (Mr. MOAKLEY) and myself. No matter how the Members feel about individual pieces of the appropriations process, I do urge their consideration and in a favorable way for this continuing resolution, which is necessary for us to get on with our business and the rest of the day's work.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore (Mr. LATOURETTE). The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

This will be a 15-minute vote followed by a possible 5-minute vote.

The vote was taken by electronic device, and there were—yeas 375, nays 45, not voting 13, as follows:

 Fattah Ros-Lehtinen

□ 1129

Mr. Inslee changed his vote from “yea” to “nay.”

Ms. MCCARTHY of Missouri, Mr. GEJDENSON, Ms. DELAURO, Mr. WAXMAN, and Mr. RUSH changed their vote from “nay” to “yea.”

So the previous question was ordered. The result of the vote was announced as above recorded.

MOTION TO RECONSIDER THE VOTE OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I move to reconsider the vote just taken.

The SPEAKER pro tempore (LATOURETTE). Did the gentleman from Wisconsin support the previous question?

Mr. OBEY. Yes, I did.

MOTION TO TABLE OFFERED BY MR. GOSS

Mr. GOSS. Mr. Speaker, I move to lay on the table the motion to reconsider.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. GOSS) to lay on the table the motion to reconsider the vote offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. OBEY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 316, noes 101, not voting 16, as follows:

□ 1139

Messrs. HOLT, OBERSTAR, and GUTKNECHT changed their vote from “aye” to “no.”

Messrs. HERGER, DICKS, HALL of Ohio, and BOYD, and Mrs. MYRICK, Ms. BERKLEY, and Ms. ROYBAL-ALLARD changed their vote from “no” to “aye.”

So the motion to table the motion to reconsider was agreed to.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. OBEY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 352, noes 63, not voting 18, as follows:

□ 1148

Ms. MCCARTHY of Missouri, and Messrs. OBEY, LUCAS of Kentucky and PETRI changed their vote from “no” to “aye.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I move to reconsider the vote just taken.

The SPEAKER pro tempore (Mr. LATOURETTE). Did the gentleman vote in favor of the resolution?

Mr. OBEY. Yes, I did.

MOTION TO TABLE OFFERED BY MR. GOSS

Mr. GOSS. Mr. Speaker, I move to lay on the table the motion to reconsider.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. GOSS) to lay on the table the motion to reconsider the vote offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. OBEY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 294, noes 123, not voting 16, as follows:

[Roll No. 602]

□ 1213

Mr. EWING changed his vote from "aye" to "no".

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

REMOVAL OF NAME OF MEMBER
AS COSPONSOR OF H.R. 2420

Mr. BOEHLERT. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2420.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

MOTION TO ADJOURN

Mr. OBEY. Mr. Speaker, I move that the House do now adjourn.

The SPEAKER. The question is on the motion to adjourn offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 24, nays 378, not voting 31, as follows:

[Roll No. 604]

Mr. SHUSTER changed his vote from "yea" to "nay".

Mr. KLECZKA changed his vote from "nay" to "yea".

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER laid before the House the following communication from the Clerk of the House of Representatives:

Washington, DC, November 17, 1999.

Hon. J. DENNIS HASTERT,
The Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: I have the honor to transmit herewith a copy of the original Certificate of Election received from the Honorable Bill Jones, Secretary of State, State of California, indicating that, according to the semi-official canvas for the Special General election held November 16, 1999, the Honorable Joe Baca was elected Representative in Congress for the Forty-second Congressional District, State of California.

With best wishes, I am

Sincerely,

JEFF TRANDAH, *Clerk.*

SWEARING IN OF THE HONORABLE JOE BACA OF CALIFORNIA AS A MEMBER OF THE HOUSE

The SPEAKER. Will the Member-elect from California (Mr. BACA) come forward, accompanied by the California delegation, and raise your right hand?

Mr. BACA appeared at the bar of the House and took the oath of office, as follows:

Do you solemnly swear that you will support and defend the Constitution of the United States against all enemies, foreign and domestic; that you will bear the true faith and allegiance to the same; that you will take this obligation freely, without any mental reservation or purpose of evasion, and that you will well and faithfully discharge the duties of the office on which you are about to enter. So help you God.

The SPEAKER. Congratulations. You are now a Member of the House of Representatives.

INTRODUCTION OF THE HONORABLE JOE BACA, MEMBER OF THE HOUSE OF REPRESENTATIVES

(Mr. LEWIS of California asked and was given permission to address the House for 1 minute.)

Mr. LEWIS of California. Mr. Speaker, it is my honor and privilege to be cochair of the California delegation. I share that responsibility with the gentleman from California (Mr. FARR).

Mr. Speaker, it is my privilege to yield to the gentleman from California (Mr. FARR) for remarks.

Mr. FARR of California. Mr. Speaker, I thank the gentleman from California very much for yielding to me.

Mr. Speaker, what a great day for the State of California. All of us in this House know the honor of being sworn in as a Member of the House of Representatives, the only place in Washington where everyone has to be elected in order to take the oath of office.

It is a distinct pleasure that we honor another Californian in that regard, a person who has a great deal of experience in public life, and brings to this Chamber experience as a member of the board of trustees with a community college, was elected to the California State Assembly, was elected as the first pro tempore, the first Latino pro tempore in California history to that job, served in the California State Senate, and now is elected to serve his district in Southern California.

He is following in the footsteps of a great Member of this House, George Brown. We all remember the great service that he gave to this country and the deeds that he left, the great record that he left.

So JOE BACA comes to us with his own career of distinction, and I think he will be a great addition to this House. So I congratulate you.

On behalf of the California Democratic delegation, which I am Chair of, along with the gentleman from California (Mr. LEWIS), who is Dean of the Republican delegation from California, and as a joint bipartisan effort, we welcome the newest Member of our delegation, a delegation which has had over eight Members elected in special elections. So we know the special moment you are having right now, you are sharing with your family who is watching this on C-SPAN, and we appreciate the fact that you are here today to get sworn in. Congratulations on a great race and a great election.

Mr. LEWIS of California. Mr. Speaker, reclaiming my time, JOE, you should note with interest that a very sizable number of the Members on the floor happen to be from the California delegation. It was not always the case that we would have an occasion like this and we would have almost the entire delegation present.

But in recent years, we have had kind of a reawakening of our State. In the past, we have often been laughed at by States like Texas who come together regularly on issues relative to their own interests. Today, California is working together as it never has in its history, and our numbers are here to have a positive impact on the country.

So working with you in the seat of the former Dean of the California delegation, you have a great career ahead of you. We look forward to your help as we go about attempting to improve the country as we work on behalf of California's interest. So welcome, JOE. It is a great day for all of us.

OPENING REMARKS OF THE HONORABLE JOE BACA

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, I ask permission to address the House for 1 minute. I wanted to make sure that I followed the rules and procedures that are here.

Mr. Speaker, I do appreciate the gentleman from California (Mr. FARR) lowering this podium. I used to be 6 foot 5 as a paratrooper, but I made a lot of jumps; that is why I am only 5 foot 6.

It is really an honor to be here. I would like to thank the leadership for their support, the gentleman from Missouri (Mr. GEPHARDT), all of the Members, the DCCC individuals who are very helpful.

I want to thank God because God gave me the courage to run and to serve. Too many times we forget that it is the strength that we have, and God provided that strength to give us that courage. So I want to thank God.

I want to thank my family. I wish my mom and dad were here to see this. They are both deceased, but I know it is a proud moment in their lives. I know that somewhere up above they are seeing this even though they cannot be here right now. But I know very well that they are proud of their son, because I am one of 15. I am the 15th child.

Like a lot of us, I come from a poor family, an individual, the only one that graduated from high school and college. My other brothers and sisters graduated, but I was able to pursue that. I know that they are very proud.

I wish my wife were here right now. She is watching this right now. She is Barbara Dominguez Baca, with whom I will be celebrating 31 years of marriage next week. On November 23, it will be our anniversary, so it will be 31 years of marriage to one wife, not two wives or three wives, but one wife.

I would like to also thank my children, because my children were supporters. I believe in strong family values, because family values are the core of what makes America great. It is what makes our country. I would like to thank my family, because they have been very supportive.

I would like to thank Joe, Jr. That is my first son. He is now 30. Then Jeremy Baca; that is my second son. Then my daughter, first daughter, and that is Natalie. Then, of course, my daughter that is 13 years of age. She is the reason my wife cannot be here because we believe it is important to have our children in school and to obtain that, and we did not want to take her out of school during that time. It was important for her to be there. My wife realizes that, because she is also a great student, a 4.0 student, doing well in school, so we want to make sure she continues to receive those grades. Of

course, Mom is always there to help her.

So I love my family very much. I want to thank them.

But I also want to thank the voters, the voters of my district who made it possible for me to be here. Without the voters' support, I would not be here today.

I look forward to working in this House. It is going to be an honor for me to work on a bipartisan basis. I look forward to working with my colleague directly associated with me, and that is the gentleman from California (Mr. LEWIS). I look forward to working with him on issues that are important to all of us, the issues that are important to the State of California, because all of us care about the economy. All of us care about education, public safety, protecting Social Security, Medicare, drug prescriptions, areas that are important to a lot of us, health reform.

But most of all, we want to make sure that, as I look at the 52 Members of California, that we work together on a bipartisan basis to make California, like everybody else wants to make their State, a lot better. But I also look forward to working with the 52 delegates from California in assuring that we get our fair share of revenue coming back to California. No offense to the rest of the Members. But I believe, in reference to California, it is pretty big in population. We have over 34 million people in California. But it is important that we address those issues.

I want to work with them and also work with you on a bipartisan basis on other issues that are important with us as well that impact all of us.

What we all want is to improve the quality of life. We cannot do it by ourselves. We have to come together collectively. It has to come from a compromise, individuals willing to come together and do what is necessary to make our State and our Nation a lot better. It is not going to happen if we have political wedges that divide us. There are times that we have to come together to address those areas. We need to address those areas.

I want to thank you. I want to thank my family. I want to thank the leadership. I thank the gentleman from Missouri (Mr. GEPHARDT) very much for coming and getting all of the colleagues, the whips, you know, that raised all of the funds that were necessary.

I look forward to additional help from the other side in giving me additional monies. So it is very important for your support as well as we begin to work on a bipartisan effort.

Again, I thank the Speaker and my colleagues very much.

The SPEAKER. Does the gentleman from California (Mr. BACA) yield back the remainder of his time?

MOTION TO ADJOURN

Mr. OBEY. Mr. Speaker, I move that the House do now adjourn.

The SPEAKER. The question is on the motion to adjourn offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 24, nays 379, not voting 31, as follows:

□ 1304

Messrs. TANCREDO, BRADY of Texas, and NORWOOD changed their vote from “yea” to “nay.”

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2000

Mr. YOUNG of Florida. Mr. Speaker, pursuant to House Resolution 385, I call up the joint resolution (H.J. Res. 82) making further continuing appropriations for the fiscal year 2000, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the joint resolution.

The text of House Joint Resolution 82 is as follows:

H.J. RES. 82

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Public Law 106–62 is further amended by striking “November 18, 1999” in section 106(c) and inserting in lieu thereof “November 23, 1999”. Public Law 106–46 is amended by striking “November 18, 1999” and inserting in lieu thereof “November 23, 1999”.

The SPEAKER pro tempore (Mr. LATOURETTE). Pursuant to House Resolution 385, the gentleman from Florida (Mr. YOUNG) and the gentleman from Wisconsin (Mr. OBEY) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. YOUNG).

GENERAL LEAVE

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.J. Res. 82, and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

This continuing resolution extends the current CR for 5 days, until November 23, specifically for the purpose of allowing the Senate to have time to consider the measures that we will send them today.

Mr. Speaker, in the interest of allowing our Members to get home to their families and preparing for the Thanksgiving period, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield myself 20 minutes.

Mr. Speaker, I would very much like to see Members get home for Thanksgiving, but I think my public duty is to help Members understand what they are going to be voting on before they go home, because otherwise when they do go home, their experience with the news media and angry constituents is not going to be a very pleasant one; and I am afraid there are a lot of nasty surprises in this bill, some of which I will be discussing over the next 12 to 15 hours.

Let me say, first of all, that this bill has been a battleground about national priorities and national direction. It has

been the arena for battles between the President and his allies on one side and his political opponents on the other. By any measure, I think it is safe to say that the President has won victory after victory. We are going to be stuck having to extend the government, I am afraid, several times through CRs like this one because of some of the decisions made in the bill that is coming next, and people need to understand how they interrelate.

I think you can say, for instance, that in the area of international leadership, the President and those of us who agree with him have won a great victory in funding the Wye peace process agreement. We have won a very important battle in making sure that debts that would never be repaid are going to be wiped out so that Latin America and Africa can, in fact, become good markets for our products as well as stable neighbors in an ever more complicated world.

We have won the fight to, at least for now, take the U.S. off the list of U.N. deadbeats. On the environmental front, the President has beaten down virtually every antienvironmental rider that was tossed his way. In the fight against street crime, the President won 50,000 new cops.

On the education front, it is important to understand some of the major achievements that we have made. We have seen a lot of people denigrate the President's effort to provide for 100,000 new teachers. I want to put that effort in context. What Democrats have been fighting for on education in this package is a four-pronged research-based attack on educational incompetence and poor performance. The research shows, for instance, that children do much better in smaller classes. That is why the President fought so hard for and won the battle for 100,000 new teachers. That research also shows that, especially at the high school level, students perform better, they exhibit less antisocial adolescent behavior, and there is far less violence in high schools that are smaller.

And so we have an initiative that will provide for smaller high schools, or at least to help local school districts build smaller learning centers within their high schools. The research also shows that students do best when their teachers are welltrained. It sounds obvious, but some people seem to have missed it. So we have an initiative in this bill that will add additional funding for partnership grants between university schools of education and local school districts so that those schools of education are producing the kinds of teachers that the districts actually need. And also in the process, we are trying to raise the standards for those teachers so that they are actually getting a degree in the subject that they are going to wind up teaching, also I guess a shocking idea in some quarters.

And lastly, research also shows that if you want to reform schools, you need to do it from bottom to top and around again, that reform has to be comprehensive, systemic; and that is why this bill adds additional money to the Obey-Porter bipartisan comprehensive school reform package.

All of those are very good things. I say that there is no doubt on the major issues that have divided us the last 3 months, the President has run the table. He has won on issue after issue. But I think there are some things that are just as important as winning and losing, and I want to talk about some of them as we discuss this continuing resolution. We are being asked to continue the government a few more days so it gives us time to pass the next bill that is coming at us. I think we need to understand what is in that bill before we vote on this resolution.

There are many things in that package that disturb me. The protracted battle to persuade the majority to allow the United States to pay its back dues to the United Nations has resulted in a compromise that may still prevent release of all of the funds that are needed to return the U.S. to a position of good standing in the U.N. I think that is regrettable.

The Republican majority was also steadfast in its refusal to provide the Justice Department with the \$14 million that they need to pursue tobacco litigation. This money is needed for efforts to recover the hundreds of billions of tax dollars paid through the Medicare trust fund, the Public Health Service, the veterans and military medical systems, and the Social Security disability fund in dealing with tobacco-related illnesses. The tobacco companies that lied repeatedly to the American people about the health effects of smoking should pay a substantial portion of those costs. The Republican majority is clearly trying to protect them from having to repay the taxpayers.

I believe funds will be found by the administration to initiate litigation; but as everybody knows, legal outcomes are often dictated by the relative size of legal war chests. That is one of the things, for instance, that I am told CBS news had to take into account when they discussed whether or not to put on that famous "60 Minutes" special which went after the tobacco companies for not telling the truth. I would say that while the appropriation requested by the Justice Department to augment their ability to pursue that issue is small, the long-term fiscal impact on the Federal Government could be enormous; and we have failed to recognize that in the bill that is coming to us.

The Republican majority also repeatedly refused to include language that both the White House and I asked them to include to ensure that 100 percent of

the money paid from the Medicare and Social Security trust funds is returned to those trust funds if it is recovered in litigation. That item was repeatedly raised during negotiations. It is the fair thing to do with those funds. I find it hard to construct an argument that they should be used for a different purpose, but the Republican leadership flatly rejected that concept in both the Senate and the House.

□ 1315

I think the reason (and this was even said in conference,) they did not want to approve this language is because it would provide incentives to proceed with the lawsuit. Well, we ought to proceed with that lawsuit.

I think nothing more clearly underlies or underscores the hollowness of the claim of the majority that they have suffered a recent conversion and are now strong supporters of Social Security. Nothing is more clearly underscoring of the hollowness of that claim than their new-found concern over the solvency of those trust funds. It is a concern that suddenly emerged around here after Labor Day when polling data demonstrated to them how badly they had been damaged by their attempts to pass a huge tax bill that rewarded the rich, using all of the resources needed to strengthen Social Security and Medicare.

Another issue at the center of negotiations was whether to include a small across-the-board cut. This cut was not necessary to reach the offset targets to make sure the bill was paid for; more than enough money was available from other sources. It is simply an attempt by the majority to create a symbol that could be used to pretend that in the midst of this orgy of gimmickry in spending, that they are continuing to be fiscally responsible.

If my colleagues take a look at the dollars being provided across the board by the majority, it is apparent, it is apparent to me that the Republican leadership is willing to spend almost any amount to get out of town, just so long as we can obscure how much that really is through accounting gimmicks. I think that is a big mistake.

The problem with an across-the-board cut is that people say, "My God, any agency head ought to be able to administer a half a percent cut across the board." Of course they could. They could easily find waste if they are left to their own devices. But that is not the way this across-the-board cut is designed. Their across-the-board cut completely abandons the core responsibility of Congress to determine spending priorities. There are programs that could afford a 1 or 2 or even 10 percent cut. But, instead, the Congress requires much more limited authority be given to the President, and that means that this Congress ignores the fact that there are some programs that require a

precise amount of money in order to protect the taxpayers' interest.

Those kinds of programs fall into two categories: one, to protect public safety, and the other to control the in-flow and out-flow of public funds. These are largely accounts that include things like the FBI, the Drug Enforcement Administration, the Air Traffic Control, Customs Service, and Border Patrol. Numerous studies have demonstrated that cuts in the administration of the Social Security agency can drive up the error rate in the disbursement of those funds enough to cost the Federal Government as much as \$6 for every dollar saved in reduced expenditures in Social Security Administration; and yet those studies are ignored in the way this cut is applied.

Then we get to the question of national defense. The way national defense is treated in this across-the-board cut is very interesting. It was treated the way this bill treats it in order to protect congressional pork. So what the provision requires is that we will have to see about a \$520 million reduction in operation and maintenance accounts, which is the core of our military readiness, and that is occurring at the same time that the Pentagon reported that two out of the 10 divisions in the U.S. Army are now rated at C-4; in other words, not close to having the parts, people, and maintenance that are necessary to undertake military action. Yet, operation and maintenance is going to be required to be cut by a larger percentage than anything else in this bill. The reason for that is because the folks who put this bill together wanted to protect the projects and the pork in the research and procurement accounts. So we get that weird anomalous result.

I will insert in the RECORD at this point, Mr. Speaker, extraneous material related to my remarks, and I will expand further on that subject for the RECORD.

Mr. OBEY. Mr. Speaker, I am amazed, for instance, that on pay-fors, that the conferees chose to ignore the opportunity to recoup for the taxpayers money that we should be recouping from the sale of what is known as the Block C portion of spectrum sales. Several years ago when block seed portion of the spectrum was auctioned off a number of winning bidders went into bankruptcy without paying the Government for the spectrum rights that they had purchased. They have been allowed to hold on to those spectrum rights, refused to make any payments, and now they have the prospect of reemerging from bankruptcy by selling their share of the spectrum for a good deal more than they paid for it. It is a good deal if you can get it, but the American taxpayers are taking a bath; and we were blocked from correcting this specifically by one Member of the House Republican leadership.

But what bothers me the most about this proposal is the fact that it is laced through with accounting fixes to conceal an orgy of spending that every Member would deny if confronted with it by his constituents. I will insert in the RECORD a chart which shows that when this bill is passed, the Congress will have spent \$17,400 million that will not be counted in determining how much that we have spent. It also has declared almost \$15 billion in expenditures to emergency spending so that they are also exempt from spending limits we are supposed to be abiding by.

Mr. OBEY. Mr. Speaker, in this bill, for instance, they have decided now that they are going to declare Head Start to be an emergency. It has only been on the books since 1965. I guess we just found out that it is an emergency to deal with these kids. What they are really saying is they have a political emergency that requires them to hide the real cost of this bill from their taxpayers. That is the real emergency designation that is going on here.

Then they move about \$4.2 billion in outlays into different years. That saves no money. It simply hides money. They have miscellaneous spending, accounting gimmicks all told of \$45 billion on the outlays side, and \$43 billion on the budget authority side. If my colleagues want to go home and explain to their constituents that kind of hide-and-seek attention to fiscal affairs, be my guest. That is not my flavor of ice cream.

Let me make one other comment, Mr. Speaker. One of the reasons that I have been so unhappy with this bill, as I said earlier, is that it stands over 1 foot high. I defy anyone to tell me, and I have a ruler to prove it, I defy any of my Republican colleagues, I defy any of my Republican colleagues to tell me what is in these authorization bills that they are asking us to swallow. How much are we going to hear? How much are the reporters in the gallery going to dig out after we have left that we do not know about? I am afraid, a lot. But I have to say that what bothers me more than anything is that these accounting gimmicks may appear to be funny, but in fact, they are not funny at all. I would not laugh too long, because what we are witnessing here is something that is immensely corrosive of democracy and this institution's role in democracy.

Mr. Speaker, the primary job that the Congress has each year is to pass a budget. If we cannot be honest with the American people about what we are doing in that budget, I think they have a right to question whether we are being honest with them on anything that we say to them. And the fact is that the list of accounting shell games that are in this bill, not for policy reasons, but for political reasons, I think brings discredit on the entire institution. That is because I guess we are determined to live under a fiction that requires us to pretend that we are spending billions of dollars less than we are actually spending.

Frankly, a lot of this spending is perfectly justifiable. I think that the Republican educational priorities are good. I support them as well as our own. But I do not like the fact that we are hiding what we are doing in the process. I will have more to say about this along the line.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I have no other speakers except myself

to close, so I will continue to reserve my time.

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from Wisconsin (Mr. OBEY) has 10 minutes remaining.

Mr. OBEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Indiana (Mr. ROEMER).

Mr. ROEMER. Mr. Speaker, I came to this body this morning prepared to vote for a bipartisan omnibus bill, prepared to support reforms in the quality and in the resources for our education budget and for our schoolchildren across the country; prepared to defend firewalls on Social Security and further reduce the deficit and the debt, which is the best tax cut for all Americans. I have spent the last hour and a half to 2 hours in the parliamentarian's office reading through this bill and getting through a little bit of it; and the more I read of it, the more concerns I have about Social Security and debt reduction.

The gentleman from Wisconsin (Mr. OBEY) has said that there are some gimmicks and games, and I think maybe a hope and a prayer in this budget that we do not dip further than CBO has already said, which they have stated that Congress has dipped \$17 billion into Social Security. The most important thing for me in this budget is to not touch Social Security, further reduce the debt, and get quality education reforms. I do not see any firewalls on Social Security in this. CBO has not even scored this. We do not know what it does to Social Security.

Furthermore, when we have Head Start at \$1.7 billion declared as an emergency, I am not sure what that does to Social Security. I am not sure saying that \$2.4 billion becomes available on October 1, 2000, the next fiscal year, what is that impact on Social Security? Delayed obligations, \$3 billion for NIH, \$450 million for the Centers for Disease Control. What is the impact there on Social Security?

So all of these things give me a great deal of hesitation and reservation and concern, and I do not intend to vote for this omnibus bill.

Now, on education, Mr. Speaker, we have \$145 million for public charter schools. I think that is a step in the right direction. We have \$1.4 billion for more teachers, not just for more numbers; but we say 25 percent of the funds can go to quality improvement, to professional development. That is good progress, and I highly support that discretion and flexibility.

□ 1330

We furthermore have \$335 million for the Eisenhower Professional Development Program, again to try to address the shortage in quality of teaching and too many teachers teaching outside their subject area. So I think there are some high concerns for success in edu-

cation but I do not think this addresses the Social Security firewalls. It does not get scored by CBO, and I would encourage my colleagues to read this bill.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from North Carolina (Mrs. CLAYTON).

Mrs. CLAYTON. Mr. Speaker, I thank the gentleman from Wisconsin (Mr. OBEY) for yielding me this time.

Mr. Speaker, the budget process obviously allows us to say what is important to the American people. It is a process where we say some are winners and some are losers. It is a process for the Nation to declare what the priorities are. Obviously we cannot win everything we want so it has to be a compromise, but I can say, Mr. Speaker, the people in North Carolina, where there was actually a disaster, never was an emergency declared because it was not politically the right thing. Maybe those who indeed would have said that would have come from Social Security, we are trying to get the kind of basic relief, not all of it, just the basic relief, for our farmers which is in doubt.

Now, I want to vote for this bill because there are good things in it. I know there are winners and losers but I can say, Mr. Speaker, that as we go forward I think it says something about the American people when we ignore that over 72,000 people were affected in the region, farmers lost a tremendous amount of their crops. Many of them are going bankrupt and yet there is not the kind of relief that even responds in a very basic way to their needs, not all the relief because we knew an emergency was not declared.

We were willing to fight for that next year, but we need at least the \$81 million that was there for marketing. So I would urge, Mr. Speaker, that we look at that to try to make sure that this budget process, as we vote on it, indeed is speaking to the basic need. Some will be winners, some will be losers, but the American nation should not lose the principle of responding to those who are most desperately in need, while we go forward with such an enormous amount of resources. Eighty-one million dollars is a pittance; it is what is symbolic of what we stand for that we should make sure that as we consider this bill that at least the American farmers know that they were part of the consideration in this budget process.

Mr. OBEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from the District of Columbia (Ms. NORTON).

Ms. NORTON. Mr. Speaker, I very much appreciate and thank the gentleman from Wisconsin (Mr. OBEY), the distinguished ranking member, for yielding me time.

Mr. Speaker, as we approach yet another CR, with all of the terrible prob-

lems that the ranking member has described, I think it fair to say that none has been more harmed by the procedures of the House this year than the people I represent.

Shall I paraphrase Elizabeth Barrett Browning? How shall I dislike it? Let me count the ways.

What is this bill? The Commerce, Justice, State, Foreign Ops, Interior, Labor, HHS, DC bill, plus? All of our appropriations that remain have been packed on to the tiny D.C. appropriation. Five hundred thousand people are being used to take 300 million, or bills for 300 million, across the finish line, and the Nation's capital be damned; we just have to wait to spend our own money, understand, because almost all of the money in the D.C. appropriation is money raised in the District of Columbia.

Obviously I have to be for it. What kind of position does that put me in? The disgrace as affects the Nation's capital is outflanked only by what the procedures of the House this year have done for democracy itself and how we have displayed ourselves before the people of the United States. We have become, in and of ourselves, a threat to democracy. We have made democratic procedures a living joke on C-SPAN.

We are going to have before us a bill brimming with controversy. There is the international family planning gag rule that is certain to take the lives of countless of the poorest women in the world, with no chance to debate it up and down. There is the dairy controversy we have heard so much about today.

In a democracy, we vote our differences up and down. In a democracy we even vote our compromises up and down. This House has become an embarrassment to itself. However, I am very glad the Nation has been able to see it because maybe when we go home there will be a backlash that will keep us from ever doing this again.

The delay, with another CR, has needlessly harmed the people of the District of Columbia right at a time when we have gotten a new reform mayor and a reform city council. This has not made an ounce of difference to this body. The reputation of the House has been permanently damaged as an institution. We can reclaim it only by returning to regular order and democratic procedures.

Mr. OBEY. Mr. Speaker, I yield myself the remainder of the time.

Mr. Speaker, as I understand it section 1001 of the omnibus bill effectively waives the pay-as-you-go rules for all of the authorizing legislation included in the omnibus package. It also effectively, as I understand it, waives the pay-as-you-go rules for the outyear effects of other legislation passed this legislation.

I would like to ask the leadership of this House why these rules are being

waived and how much spending is not being counted as a result of that?

We have seen no CBO scoring on the omnibus package. Can anyone tell us the amount of spending covered by these budget waivers?

I would also ask why Members' pay was exempted from this across-the-board cut when it was included in the previous across-the-board cut that was made?

I think those are but some of the questions that Members ought to be asking before they vote on the budget that is coming at us later this afternoon.

I would also say, Mr. Speaker, I regret the time that we have taken but I think every hour that we spend gives Members an additional opportunity to understand what is in these bills, and I think in the end that serves the interest both of every Member and the taxpayers that they are trying to represent.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself the remaining time.

Mr. Speaker, I listened intently to all of the discussion and the debate from the Members on the other side of the aisle, and if any of that debate related to this CR that is presently before us I would have a lengthy response, but none of that debate relates to this CR. So at this point I would just like to make this suggestion, let us pass the CR and then get on to the appropriations bill that has been the subject of debate using this as a vehicle.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. LATOURETTE). All time for debate has expired.

The joint resolution is considered as having been read for amendment.

Pursuant to House Resolution 385, the previous question is ordered.

The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the joint resolution?

Mr. OBEY. Mr. Speaker, under these circumstances, regrettably I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. OBEY moves to recommit the joint resolution to the Committee on Appropriations.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently, a quorum is not present.

The Sergeant at Arms will notify absent Members.

The Chair would announce that if a vote on passage of the joint resolution is required, pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the time for votes on final passage and questions incidental thereto.

The vote was taken by electronic device, and there were—yeas 1, nays 420, not voting 13, as follows:

□ 1359

Messrs. TANNER, HEFLEY, BATEMAN, DAVIS of Illinois, MOLLOHAN, LINDER, CLYBURN, Ms. VELÁZQUEZ and Ms. JACKSON-LEE of Texas changed their vote from "yea" to "nay."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

□ 1400

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I move to reconsider the vote by which the House voted to reject the motion to recommit the bill to the Committee on Appropriations.

The SPEAKER pro tempore (Mr. LATOURETTE). Did the gentleman from Wisconsin vote on the prevailing side of the question on the motion?

Mr. OBEY. Yes, I did, Mr. Speaker.

MOTION TO TABLE OFFERED BY MR. YOUNG OF FLORIDA

Mr. YOUNG of Florida. Mr. Speaker, I move to lay on the table the motion to reconsider.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. YOUNG) to lay on the table the motion to reconsider the vote offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. OBEY. Mr. Speaker, I demand a recorded vote.

The SPEAKER pro tempore. An insufficient number having arisen, a recorded vote is not in order.

So a recorded vote was refused.

The SPEAKER pro tempore. The question is on passage of the joint resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. OBEY. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 403, noes 16, not voting 15, as follows:

□ 1408

Mr. COYNE changed his vote from “no” to “aye”.

So the joint resolution was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 329

Mr. FROST. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 329.

The SPEAKER pro tempore (Mr. LATOURETTE). Is there objection to the request of the gentleman from Texas?

There was no objection.

WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 3194, CONSOLIDATED APPROPRIATIONS AND DISTRICT OF COLUMBIA ACT, 2000

Mr. LINDER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 386 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 386

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 3194) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against revenues of said District for the fiscal year ending September 30, 2000, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

SEC. 2. Upon adoption of the conference report addressed in the first section of this resolution, the House shall be considered to have adopted a concurrent resolution consisting of the text printed in section 3.

SEC. 3. The text of the concurrent resolution addressed in section 2 is as follows:

"Resolved by the House of Representatives (the Senate concurring), That the enrolled copy of the bill (H.R. 2466) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2000, and for other purposes, shall not be presented to the President, to the end that the bill be, and is hereby, laid on the table."

The SPEAKER pro tempore. The gentleman from Georgia (Mr. LINDER) is recognized for 1 hour.

Mr. LINDER. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Texas (Mr. FROST), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H. Res. 386 is a typical rule providing for consideration of H.R. 3194, the conference report for the District of Columbia appropriations bill for fiscal year 2000. The rule waives all points of order against the conference report and its consideration and provides that the conference report shall be considered as read.

H. Res. 386 also provides that, upon the adoption of the conference report, the text of the concurrent resolution printed in the rule tabling the conference report accompanying the Department of Interior appropriations bill shall be considered as adopted.

Finally, House rules provide 1 hour of general debate divided equally between the chairman and ranking minority member on the Committee on Appropriations and one motion to recommit with or without instructions as is the right of the minority.

Mr. Speaker, this rule and this conference report bring the budget process for the fiscal year 2000 to a close by implementing a bipartisan compromise on the remaining appropriations bills, District of Columbia, Interior, Commerce-Justice-State, Foreign Operations, and Education, Labor, Health and Human Services.

Only three times in the last two decades has the Congress passed all 13 appropriations bills by the fiscal deadline. I point out one was recently when the gentleman from Wisconsin (Mr. OBEY) was chairman. It is true that we did not make this deadline this year. However, it is also true that keeping our fiscal house in order does take a little longer than the free-wheeling, big-spending days of the past because we must ensure that all funding is spent efficiently and where it is needed the most.

□ 1415

The conference report before us this afternoon not only holds the line on the President's additional spending requests, but also responsibly funds areas important to every American citizen and protects the American people from waste, fraud and abuse across the entire Federal Government.

Mr. Speaker, earlier this year the Republican Congress made a commitment to end the 30-year raid on Social Security and, according to the Congressional Budget Office, we have now completed that task. The President began the budget negotiations by taking a large step toward our position on the Social Security issue and joined us in locking away every penny of Social Security. We worked with him in a bipartisan fashion to protect retirement security. We were determined to protect American seniors and this Congress and its leadership denied any piece of legislation on the House floor that spent one penny of it.

To achieve our goal of protecting American seniors and responsibly funding important programs, we are including in this bill a plan to direct every Federal agency to reduce spending by less than one-half of one percent, .38 percent of 1 percent, by routing out waste, fraud, and abuse. Surely the government can save less than about half a penny out of every dollar. This Republican Congress is simply asking those who run Federal agencies to make fiscally responsible budgeting decisions with the money taxed out of our paychecks. We all know the agency directors and executives know where the waste is, and I am relatively certain they will be able to weed out at least that much in savings with this sensible plan.

In addition to meeting the fiscally responsible objectives, this conference report also ensures that our principles of quality and flexibility in the funding for teachers have been met. In the Labor-HHS section of the bill, this Congress ensures that funding may no longer be used to hire unqualified teachers, provides that schools will have more flexibility in using their funding for improving the quality of uncertified teachers, and increases the amount of funding that may be used for professional training for teachers.

The administration pushed for a one-size-fits-all mandate in which Washington controlled the 100,000 New Teachers program. Not every district needs new teachers. Some need better-trained teachers. Other districts need books, high-tech equipment, and updated math and reading programs. I think it is foolish for the Washington bureaucracy to tell every school district in America that Washington knows best how to spend tax dollars to educate our children.

The debate in Washington is not only about money. It is also about how that money should be spent. This bill moves us closer to the right balance of education funding by providing additional funds for America's students through programs like Pell grants and special education while lowering the bureaucratic burden imposed by Washington through programs like Goals 2000.

The Commerce, Justice, State section of the conference report maintains

our commitment to enhancing local law enforcement without involving Washington bureaucrats. We also provide funding for 1,000 new border patrol agents, funds for increased criminal and illegal alien detention, and the resources necessary to end the severe naturalization backlog at the INS.

The District of Columbia continues to receive the high level of funding provided in each round of this process. The conference report paves the way for dramatic improvement in the education of Washington's children, the safety of our streets, and the management of our Nation's Capital.

H.R. 3194 also brokers a responsible compromise on the environment in the Interior appropriations section of this conference report. Republicans rejected attempts to impose the restrictions of the Kyoto global warming regime on Americans without Senate consideration of the treaty. Nevertheless, the bill maintains our high environmental standards and ensures our air and water will be cleaned into the next millennium.

While I will permit the chairman of the Committee on Appropriations to describe fully all the contents of the appropriations bill, I did want to note the inclusion of the satellite copyright legislation about which many of our constituents have expressed concerns during the past year. I am pleased that this bill will provide a new copyright license to satellite television that will allow constituents to receive their local television channels over their satellite service.

In addition, this bill will bring real competition, ensure better prices and choices for our constituents, protect existing subscribers from having their distant network service shut off, and make it easier for consumers to get either a waiver or an eligibility test for distant network service in the event the waiver request is denied. This bill is good for our constituents, and I am pleased to support it.

Mr. Speaker, I want to commend the chairman of the Committee on Appropriations, the gentleman from Florida (Mr. YOUNG), each of the subcommittee chairmen on the Committee on Appropriations, and the ranking minority member, the gentleman from Wisconsin (Mr. OBEY), for their tireless efforts over the past few weeks to reach an agreement on the budget.

This rule was favorably reported by the Committee on Rules yesterday. I think that might have been this morning, at about 3:30 a.m., and I urge my colleagues to support the bill on the floor so we may proceed with the general debate and consideration of this important conference report.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, at 3:20 a.m. this morning the Committee on Rules was convened to report this rule. The chairman of the Committee on Appropriations, the gentleman from Florida (Mr. YOUNG), said at that time that he would like to take the time to explain to the committee what was in this conference agreement, but that to do so might take 4 days. While I know he was engaging in a little hyperbole, I cannot think he was too terribly off the mark.

Mr. Speaker, this rule rolls five appropriation bills, agriculture disaster assistance funding, and \$576 million for Hurricane Floyd disaster assistance, all into one bill. The conference agreement also contains a much-needed Medicare reimbursement fix for hospitals and nursing homes, the authorization for the Department of State, which contains terms and conditions that must be met in order for U.S. arrearages to be paid, as well as other matters that were not made clear to the Committee on Rules early this morning.

I am perfectly aware that Members are anxious to end the session of the 106th Congress, but could we not wait an extra hour or 2 to give Members an opportunity to find out what is really in this bill? I am also concerned that this enormous bill is only going to get 1 hour of debate when in fact each one of these bills in it should be considered separately. Evidently, the Republican leadership does not think that it is necessary for Members to know what they are voting on.

This is a very bad way to do business, Mr. Speaker. And no one should be surprised if Members raise objections to considering this rule at this time. While the contents of this omnibus appropriations bill might be known to negotiators from Congress, the White House, and a few select others, most of the Members of this body know what is in the bill only through news reports and summaries.

This is not the first time this has happened, nor will it be the last; but, Mr. Speaker, how hard would it be to give Members of this body a few extra hours to ask questions? The Republican leadership is obviously making contingent plans in case the other body does not act quickly on this conference agreement. The Committee on Rules reported a rule making in order two additional continuing resolutions that will carry us through November 23 and December 2. A few hours more today is not an extraordinary request, Mr. Speaker.

So what is in this bill? There are currently some significant improvements over the earlier appropriations vetoed by the President, and these represent a victory for Democrats and for the people of this country. The Commerce, Justice, State appropriation contains increased funding for the COPS program, increases for the Office of Civil

Rights, the EEOC, and for Legal Services.

The Foreign Operations appropriation fully fund the Wye Agreement, allowing the United States to meet its obligations in the Middle East. The Interior appropriation contains increases in funding for the Bureau of Indian Affairs and for Indian schools and tribal community colleges, provides funding for the Lands Legacy program, and deletes the most objectionable riders that have been added to the bill in the Senate.

The Labor-HHS, Education appropriation provides \$35.7 billion in funding for one of the top Democratic priorities, class size reduction. This is a major victory for the President and for Democrats in Congress; but even more so, it is a victory for parents and their children and for quality public school education. This conference agreement also includes funding for the Maternal and Child Health Block Grant, for the Low-Income Home Energy Assistance Program, and for the Older Americans Act programs.

This bill represents a lot of hard work and many hard-won compromises. However, there is one provision that is problematic for many Members of this House. While the bill funds the arrearages owed to the United Nations, these funds have been won at an extraordinarily high cost, a cost that for some Members may be too high. The fact that this bill trades off payment to the U.N. for family planning around the world is tragic. Women's lives and health are being held hostage, Mr. Speaker; and for many of us in this body, such a situation is deplorable. No one should be surprised if Members vote against this conference agreement because of that issue alone.

Finally, Mr. Speaker, this bill does contain an across-the-board cut. Granted, it is far smaller than originally proposed by the Republican majority, but the symbolism is hard to miss. Because this bill has only been whole for a matter of hours, it is doubtful that the Congressional Budget Office has had an opportunity to cost it out. But this across-the-board cut is a fig leaf designed to conceal the fact that gimmicks and bells and whistles have been used to mask the fact that this bill most likely does cut into the Social Security surplus. The White House may have bought into this charade, but this is one Member who understands that in this case the emperor and all his men have no clothes.

Mr. Speaker, this agreement is a mixed bag; and Members should really be given the time to look at it so they can intelligently make a decision about how they want to vote. There is a lot at stake here, and surely it is worth a little more time.

Mr. Speaker, I reserve the balance of my time.

Mr. LINDER. Mr. Speaker, I yield 2 minutes to the gentlewoman from New Jersey (Mrs. ROUKEMA).

Mrs. ROUKEMA. Mr. Speaker, I want to rise in strong support of the rule as well as the bill.

There are numbers of issues here that are well taken care of in this bill, but I specifically want to say for people in New Jersey that we have not only help here for the victims of Hurricane Floyd, but also for New Jersey farmers who have suffered a terrible drought over the past year or more.

The FEMA use of money in this bill, \$250 million, to buy out homes that were severely damaged by Floyd, is very, very necessary in New Jersey; and it will help to not only have mitigation efforts but also do the buyout of some of these homes.

But I rise particularly today to point out, as a member of the Committee on Banking and Financial Services as well as a member of the board of directors of Bread for the World, that we do have in this bill a wonderful effort to help debt burden relief for those poorest countries, and I think that is very important. I want to commend the majority leader, the gentleman from Texas (Mr. ARMEY), because it was through his efforts that we were able to get this money in there, help the hungry and the poorest countries of the world, and really help put in place reforms for the next year that will address the questions of transparency in the International Monetary Fund.

But for my part, aside from the fact that this is long overdue to help feed those poor people in the poorest countries, I also want to say that I will continue to track the distribution of that debt relief and ensure that it is not being diverted by corrupt government actions. This is a wonderful activity. We cannot forget these poor people, and it is in the grand tradition of our great country, the United States of America.

Although we have spent many weeks trying to get to this point I believe we have a fair compromise for all. Although there are many items in this bill that I could speak about today there are a few I would like to mention today.

First I am pleased that this bill contains extra funding to help victims of Hurricane Floyd and the disastrous drought suffered by our New Jersey farmers.

This legislation allows FEMA to use \$215 million to buyout homes severely damaged by the flood caused by Hurricane Floyd. This is very important to my state of New Jersey where many homes were damaged. This will help relocate some of those homes outside of the natural flood plain.

This bill also has additional funds to help our farmers who have suffered from weather related disasters.

I would also like to put my colleagues on notice—we, in New Jersey, are still tallying the price tag of Floyd. When the totality of the damage from this unprecedented hurricane is determined, we will most likely have to address this issue again early next year. And

when we do, I strongly urge my colleagues to address the unique circumstances of small businesses that were damaged by the storm. These small businesses are the economic backbone of many of our communities and need and deserve direct grants to help them back on their feet.

Also I am pleased that this bill contains many of the provisions of H.R. 1402 which implements the Option 1-A milk pricing system that is so important to the small dairy farmers in New Jersey and the northeast. It also extends the dairy Compact for two years.

Finally, I am pleased that this bill advances the international plan to provide debt relief to the world's poorest countries.

Mr. Speaker, I am on the Board of Directors of Bread for the World—one of the distinguished and notable groups that have been spearheading the debt relief movement. Indeed, much of the religious community is urging us to write off some of the unpayable debt of the world's poorest countries during the year 2000. And under the right conditions, it's the right thing to do.

The language Majority Leader ARMEY has negotiated with Treasury is very helpful and I commend him for his efforts. It will increase the impact of the funding the House has already voted to appropriate for the relief of debts that very poor countries owe to the United States. This language will ensure that the International Monetary Fund and other governments also help provide for this debt relief. In addition, I believe it will require accountability to ensure that the monies will be directed to feeding the hungry in these poorest countries.

For my part, I will continue to track the distribution of this debt relief to ensure that it is not being diverted by corrupt government actions.

Mr. Speaker, this language will also give Congress another opportunity next year to push for IMF reform. Many Members—from both parties—agree that the IMF should be more transparent and more accountable—to the taxpayer's of the United States and to people in the countries where it works.

There is also widespread agreement on the basic goal of debt relief—to support economic development and the reduction of poverty in the poorest countries. Treasury, the World Bank and IMF have adopted promising new policies and procedures recently, and Congress will need to be vigilant that these changes really do translate debt relief into help and opportunity for poor and hungry people.

Mr. Speaker, this nonomnibus package is far from perfect. Like many Members, I could find certain parts of this bill problematic. But, we must look at the whole picture. And on the whole this bill is fair.

I urge my colleagues to support this bill.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I thank my distinguished colleague for yielding me this time.

Mr. Speaker, once again I want to make clear why I have offered the motions that I have offered for the past 2½ hours. I did so because it was the

plan of the leadership to bring the rule and the continuing resolution that just passed, to have that up right away at 10 o'clock, whiz it through the House, immediately move to the rule, which we are now on, and then move immediately to the omnibus appropriation bill, which none of us have read and none of us understand. And that vote would have been taken by noon without even having a single copy of that bill on the floor.

□ 1430

What I was trying to do is to give Members, first of all, enough time to simply get a copy on the floor; secondly, to give our staffs an opportunity to try to determine with greater certainty exactly what is in the authorization attachments and what is not; and thirdly, to develop at least some pieces of information available to rank and file Members so that those Members who were not in the negotiations understand just how replete with gimmicks and replete with fraud this upcoming bill is.

Now, we have done I think as much as we could reasonably do. It has never been my intention once the debate on the bill starts to offer further motions because I think both parties are entitled to lay out their views on that bill without interruption, and I have no intention of making future motions once we get to the bill itself.

I do ask the House, on this bill, to vote against this rule because we have no business doing business this way. We have no business adding nine separate authorization bills to the underlying appropriations bill. We have no business hiding from Members the \$45 billion in spending gimmicks that are in these bills.

It just seems to me that the way we should proceed is to have an hour's debate on each of the provisions being added to the appropriations bills so that, whether Members are for them or against them, the House at least has an opportunity to understand what it is doing.

Nobody knows what we are doing on these bills except perhaps a few of the staffers who put them together, I will grant that. But I doubt that any Member is fully aware of all of the provisions in these bills. And we are going to regret a good many of them, I am sad to say.

I would simply say, for instance, that there are pieces of this bill, and this is not true of the appropriation items, but there are other pieces of the bill which we will consider which have not yet been scored by the Congressional Budget Office. We ought to know what they estimate the cost to be before we vote on this bill.

So I would urge my colleagues to vote against the rule.

Mr. LINDER. Mr. Speaker, I am pleased to yield 2 minutes to the gen-

tleman from Pennsylvania (Mr. GOODLING).

Mr. GOODLING. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, earlier in dissertation on the floor it was mentioned that the President won something in the area of education. I want to make sure, and I will do this several times this afternoon, that everybody understands that the President did not win anything in education.

The chairman of the Committee on Education and the Workforce did not win anything in the area of education. The children of the United States won a lot in the area of education. And, above all, the most disadvantaged children in the United States won in the area of education.

When I was able to show to the administration that 50 percent of many of the teachers in the schools in New York City and duplicated in large cities all over the country were totally uncertified and, beyond that, probably not qualified, some that were certified, they agreed there is no reason to put one more teacher in there. We better get those who are there properly qualified.

When they realized that last year 10 percent of all those new teachers that were hired were totally unqualified, they realized putting one teacher in there was not going to help anything, they better get the people who are there more qualified. And so, we say in that legislation agreed to by the administration that any new hires must be properly qualified and anybody that was hired last year that was not qualified must be qualified within 1 year.

That is why the administration agreed that we should move from 15 to 25 percent in the area of flexibility. That is why the administration agreed that we should move it 100 percent in those school districts where they have all the uncertified and unqualified teachers.

That is why the administration agreed that public school choice should be available to the 7,000 schools that are Title I schools who are not doing anything about improving the quality of their education, and they said those parents should have the right, and we agreed.

We brought it up. They agreed. So nobody won except the children of the United States and, above all, those children who are most disadvantaged.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. STARK).

Mr. STARK. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I would like to talk about the calendar and explain that Thanksgiving does not come until Thursday, a week, and the "turkey" that we are about to consider today is

stuffed with a lot of horrendous gifts and failures.

For example, stuffed away in this bill, unknown to many of my colleagues, is a gift of over \$500 million a year to drug companies who have their pharmaceutical drugs exempted from certain protections under the Medicare bill. But at the same time we are giving \$500 million a year to these pharmaceutical companies, members of the Committee on Ways and Means, all of them, all of the Republicans who were there voted to deny seniors a discount on their prescription drugs.

That means that the gentleman from Arizona (Mr. HAYWORTH), the gentleman from Pennsylvania (Mr. ENGLISH), the gentleman from Florida (Mr. SHAW), the gentleman from Florida (Mr. FOLEY), and the gentlewoman from Connecticut (Mrs. JOHNSON) all voted to deny the seniors in their district a discount on their prescription drugs, which would have cost the Federal Government not one penny. Yet, grandly, they are going to vote to give \$500 million a year to the pharmaceutical companies.

Now, this bill is not paid for. There is a \$4 billion gift to the medical providers. Yet it shortens Medicare solvency and raises the Part B premium on all of our seniors by \$12.

At the same time, this bill has failed to give Medicaid to children of legal immigrants. Young children are denied medical care if they came to this country after 1996.

Yet, we had a great gift to the Blue Cross/Blue Shield company by weakening quality control standards for managed care under Medicare. We weakened the standards when this same Congress has been unable to finalize the managed care bill of rights. We are doing nothing under the Republican leadership except giving big dollars to the pharmaceutical companies in exchange for their donations, giving big gifts to Blue Cross and for-profit managed care plans who are reaming our seniors.

And yet, in the next bill to be considered, if this turkey that we will consider in the extenders happens to have a bowel movement, we are going to spend \$40 million or \$30 million a year turning the results of that activity into energy.

I would suggest, if we are going to put up with all this Republican alchemy, why do we not ask these same poultry producers to turn that by-product into gold; and then they might find the \$17 billion they cannot find to pay for in this bill and, so, it is going to come out of the Social Security trust fund.

All in all, the gentleman from Texas (Mr. FROST) is correct. It is a bill we should not be voting on in the dark. Vote "no" on the rule and the bill.

Mr. LINDER. Mr. Speaker, I am pleased to yield 6 minutes to the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I thank the gentleman, the Chairman of Appropriations, for yielding me the time.

Mr. Speaker, we are supposed to be talking about a rule. But, obviously, we are into the substance of these measures. There has been a characterization of some of that substance by the gentleman from California (Mr. STARK), and I would like to take just a couple of minutes to set the stage for those of our colleagues who may be nervous about the fact that the body does not know what we are doing in terms of the Medicare reform or that items have been slipped into this bill.

Perhaps the gentleman does not remember that we had a subcommittee mark-up on October 15. We examined the bill at that time and voted it favorably to the full committee.

In between subcommittee passage and the full committee vote, the President wrote a letter to me dated October 19 and said, "Dear Mr. Chairman, I am writing to respond to your request about administrative actions."

He goes on and provides an outline for what the administration has been trying to do notwithstanding the Y2K computer problems that the administration has had the day after he signed the Balanced Budget Act of 1997. We were not aware of them prior to signing the bill, but they discovered them immediately after they signed the legislation.

His next-to-last paragraph said this: "We believe that our administrative actions can complement legislative modifications to refine BBA payment policies. These legislative modifications should be targeted to address unintended consequences of the Balanced Budget Act of 1997 that can expect to adversely affect beneficiary access to quality care."

That was exactly what we did. We targeted it. This is a refinement bill. And on October 21, it passed the full committee with a bipartisan vote. This is not something that was done in the dead of night at 3 a.m. in the morning. It went through the subcommittee. It went through the full committee. And then it came to the floor on November 5. And with 388 Members of the House supporting the very specific provisions that have been characterized as insidious or give-backs or rip-offs, 388 Members of the House voted for it.

But beyond that, after we worked with our sister committee on this side in jurisdiction, the Committee on Commerce, with the Senate Finance Committee, and with the White House to craft an agreement that looked virtually exactly like the House bill, there was a comment by White House representative Chris Jennings, who is identified as the health policy coordinator at the White House, in news stories published on November 11. Mr. Jennings said, "This is an honorable compromise. It lays down a foundation

for more significant Medicare reforms next year."

It is quite true that the gentleman from California tried to offer a number of killer amendments to fundamentally alter Medicare, to change the entire structure on a modest bill that the President agreed needed to correct some flaws in the Balanced Budget Act of 1997 refinements.

No refinement bill could carry the kind of amendments the gentleman from California offered. And clearly, the purpose of those amends was to be able to stand up on the floor and then make a statement that somehow we refused to provide prescription drugs to seniors.

It seems to me that if less of that kind of hyperbole were employed and more of a willingness to work together, as has been indicated by the White House, health care coordinator, we could accomplish much. In a letter dated November 15 that was addressed to the Speaker signed by John Podesta, Chief of Staff to the President of the United States, in which he said, for example, in the third paragraph, "As Office of Management and Budget Director Lew indicated in his letter to Mr. Thomas on October 18, findings or clarifications by Congress do not change the law and do not result in scoring. Therefore, the attached clarifying language on the hospital outpatient department policy would not be scored by the OMB. With this in mind, we would not characterize such legislation as having an adverse effect in any way on the Social Security surplus."

A letter from the White House says it does not affect the Social Security surplus. The comments from the White House people we worked with said it was an "honorable compromise". CBO has scored it, and I will put it in the RECORD in terms of the dollar amounts on a 1-year, 5-year, 10-year, in fact, a detailed scoring.

Why anyone would stand up on the floor of this House and characterize the Medicare legislation as reckless or inappropriate, when Democrats that we worked with to put the package together, such as the gentleman from Maryland (Mr. CARDIN), White House representatives, Chief of Staff John Podesta and their health care coordinator say this is an honorable agreement, that we have it scored that it does not affect the important hospital outpatient area, any adverse effect on Social Security, I have got to say it sounds a little desperate on the part of some individuals who voted no in subcommittee, no on the floor, and are voting no now that, frankly, their colleagues do not agree with them.

This is a good package. People are pleased to and it is endorsed by Republicans, some Democrats, most Democrats, 388 votes on the floor of the House, and the White House.

I am pleased to work together with those who want to improve Medicare to

make sure that it is better for our seniors today and tomorrow.

Mr. Speaker, I include the following for the RECORD:

THE WHITE HOUSE,
Washington, November 15, 1999.

Hon. DENNIS HASTERT,
Speaker of the House of Representatives,
Capitol Building, Washington, DC.

DEAR MR. SPEAKER: We are pleased that we have been able to work out a strong, bipartisan agreement on the Balanced Budget Refinement Act of 1999. All parties to the agreement, in particular Mr. Thomas, Mr. Bliley, Mr. Dingell, Mr. Rangel, Mr. Stark, Mrs. Johnson, Mr. McCrery, Senator Roth, Senator Moynihan and Senator Nickles, played critical roles in achieving this outcome. We know that this was as high a priority for you as it has been for the President and we appreciate your leadership.

As you know, a technical drafting change in the BBA has resulted in some confusion over the outpatient payment formula that could result in a reduction in payments. Aside from correcting a payment formula flaw, the hospital outpatient PPS was not designed to impose an additional reduction in aggregate payments. We continue to believe that such a reduction would be unwise. During our deliberations on the balanced Budget Refinement Act, we agreed to resolve any confusion through a Congressional intent clarification provision. Earlier today, language to this effect was worked out between the White House and Mr. Thomas.

As Office of Management and Budget (OMB) Director Law indicated in his letter to Mr. Thomas on October 18, findings or clarifications by Congress do not change the law and do not result in scoring. Therefore, the attached clarifying language on the hospital outpatient department policy would not be scored by OMB. With this in mind, we would not characterize such legislation as having an adverse effect in any way on the Social Security surplus.

Achieving a bipartisan consensus on addressing the unintended consequences of the BBA is an important accomplishment. The President hopes that we can build on this achievement and pass legislation to strengthen and modernize Medicare.

Sincerely,

JOHN D. PODESTA,
Chief of Staff to the President.

Enclosure.

BUDGETARY IMPACT OF THE "MEDICARE, MEDICAID, AND
S-CHIP BALANCED BUDGET REFINEMENT ACT OF 1999"
(In billions of dollars)

Program refinement	CBO estimate	
	5 year	10 year
House-Senate agreement:		
Hospitals	3.4	5.3
Skilled Nursing Facilities	2.1	2.1
Outpatient Therapy Services	0.6	0.6
Home Health & Hospice	1.3	1.4
Dialysis & Durable Medical Equipment	0.3	0.8
Pap Smears & Immunosuppressive Drugs	0.2	0.4
Medicare+Choice	1.9	2.5
Medicaid	0.7	1.2
S-CHIP	0.2	0.4
Part B Interaction and Medicare+Choice Interaction	0.8	1.8
Total spending (reflecting House-Senate agreement) ¹	12.4	17.1
Addition per administration's request:		
Administration's Request for Hospital Outpatient PPS Clarification ²	3.9	9.6
Total spending (reflecting Administration's request) ¹	16.0	27.0

¹ Components may not add to total due to rounding.

² Request detailed in letters from the OMB (10/18/99). Clarification will not be scored by OMB on its baseline.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. PELOSI).

Ms. PELOSI. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I rise reluctantly in opposition to this rule because I believe that it is not fair and it is not in keeping with the great tradition of this House for us to have an open debate and for Congress to work its will on important matters that affect our country.

□ 1445

There are at least nine bills rolled into this bill that this rule is for, five appropriations bills. I do not like to spend a good deal of time talking about process, but when the rule for a bill for at least nine pieces of legislation allows for 1 hour of debate, one-half an hour on each side, that is not serving the American people well.

One of the issues that I wish we could debate more fully if our bill on foreign operations were brought up separately, which it should have been, is the issue of international family planning. I think it is very instructive to the American people to see that the Republican majority in this House was willing to hold hostage the United States international role in the world. The Republican majority was willing to hold hostage the poorest women in the world and their access to family planning. They were willing to hold hostage our position at the United Nations at a time when we are calling out for multilateralism and not the U.S. carrying the full burden.

I think it points to the extremism of the Republican Party that this is, and I point out, my colleagues, this is not about abortion; it is about family planning, that a majority of the Republicans have voted to oppose all funding for all international family planning, that they would take that position and use it against the administration and force the administration's hand to agree to their position in order for us to maintain our vote at the U.N. while we paid our dues.

I urge my colleagues to vote "no" on this rule in the hopes that we could bring back the substantive matters before this House in a fair and open and democratic way.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from West Virginia (Mr. RAHALL).

Mr. RAHALL. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in opposition to the rule and wish to set the record straight on the swirling misperceptions that have surrounded the West Virginia delegation's efforts to provide a balance between protecting jobs so essential for our Nation's energy security and protecting our environment at the same time. Over the past several

weeks, the national media, environmental organizations, and the White House have engaged in a campaign of misinformation regarding a proposal by the West Virginia congressional delegation to address a coal mining crisis in our State.

Over the years, litigation in the State of West Virginia has resulted in some of the toughest mining reclamation laws in the Nation. Indeed our coal industry in West Virginia operates under greater environmental scrutiny than the industry does in any other State in our Nation. As a result of litigation, environmental plaintiffs entered into a settlement agreement with the United States on matters involving both the Clean Water Act and the Surface Mining and Reclamation Act.

On October 20 of this year, a Federal court decision rendered a rather unique interpretation of the relationship between provisions of the Clean Water Act and SMARA. This interpretation in my view is contrary to congressional intent in enacting the applicable statutes. Our delegation has sought to reaffirm the interpretation of these provisions of law and regulations that have been upheld by the EPA, the Corps of Engineers and the Interior Department. Nothing, and I repeat, nothing in our efforts have sought to undercut the Clean Water Act. In fact, the provision of our legislation clearly states, and I quote, "nothing in this section modifies, supersedes, undermines, displaces or amends any requirement or any regulation issued under the Federal Water Pollution Control Act."

I do not know how to better state it, how to make it more clear. Yet despite these facts, a campaign of misinformation has been trumpeted around this Nation and has been unfair to our West Virginia congressional delegation. The White House certainly is to blame. This is unfortunate, because the White House and the President's senior advisors particularly have turned their back on the many hundreds of hard-working men and women whose livelihoods, whose families and whose futures now hang in the balance. These are the individuals who have toiled beneath the surfaces of this Nation in order to provide us energy security that lights this very chamber today.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from West Virginia (Mr. WISE).

Mr. WISE. Mr. Speaker, I rise in opposition to this rule and to the final spending bill. There may be many laudable provisions, but unfortunately this bill does not include the important Byrd-McConnell mining amendment that the West Virginia delegation has sought so hard to include. Failure to include the West Virginia delegation's language which would rectify a Federal court decision means months, perhaps even years of uncertainty, uncertainty about whether to enter into coal contracts, uncertainty about whether to

make investments in future mining, uncertainty in families' lives about whether they will continue their jobs in the mining industry and, finally, uncertainty, yes, even for the environmental advocates, because there are no final rules of the road.

If this day ends without the important Byrd-McConnell language, I believe, though, we must continue working. First, all parties must agree that the present stay of the court decision has to remain in effect. Second, the DEP and Federal agencies must work together to analyze the full impact of the court's decision. And, third, all parties, mining, State and Federal officials, and environmental representatives must undertake serious negotiations to see if agreement can be reached to deal with the most severe impact of the court's decision.

But, Mr. Speaker, let me make a point. Great progress has been made in improving surface mining. As a result of environmental legislation and a sweeping environmental settlement just months ago, surface mining will never be the same again in the State of West Virginia. So great progress has been made. The question is whether balance will be preserved. And the court's decision takes it too far the other way. The important Byrd-McConnell language would guarantee that there would be balance, that gains in regulating mining would be preserved and at the same time the important mining jobs, particularly in those areas of high unemployment, would be preserved.

Mr. Speaker, mountaintop removal will never be conducted the same again. That is already a given. The Byrd-McConnell language, though, would guarantee that as we improve regulation in mountaintop removal, we do not automatically result in job removal. I wish this language had been included.

Mr. LINDER. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I thank the gentleman from Georgia for yielding me this time.

I reluctantly have to rise in opposition to this rule. I want to at least explain why. Early in the process we were told that there was not going to be an omnibus bill. We now know that that is not true. We were also told that very controversial issues would not be included in the final bill. We know that is not true, either. But part of the reason I have to rise in opposition to this rule is I remember several years ago when one of my favorite Presidents stood right there and he held up a bill that weighed about 45 pounds and he dropped it on the desk right here with a big thud, and he said, Congress should not send bills like this to my office, and he said, and if they do, I will

veto them. He did not keep that promise. He probably should have.

But in many respects, we all know, everybody in this body knows it is wrong to have these omnibus bills where we throw almost everything into it. If anybody here can say with an honest expression on their face that they know what everything is in that bill, well, God save you. We know that there is a lot of stuff in that. We are going to read over the next several months about issues that are in the bill, and we are going to be embarrassed by it.

But I am most embarrassed about what is happening to the dairy farmers in the upper Midwest. Every morning at 4:30 lights go on all over the upper Midwest, 3,000 in my district. Nobody works harder than dairy farmers, and this is a knife in the back to those people. For 62 years they have labored under the yoke of an unfair milk marketing order system, and this leadership has knifed them in the back in the 11th hour in a back-room deal. I can live with the outcome if we have regular order. I understand democracy. If we have an honest up or down vote and we lose in the House; we have an honest up or down vote and we lose in the Senate, I can live with that. That is called democracy. But when it is done at the 11th hour by a handful of leaders in a back-room deal, well, I cannot live with that, and I cannot vote for a rule that would support it.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Washington (Mr. DICKS).

Mr. DICKS. Mr. Speaker, I rise today to support this conference report and to commend my colleagues on the Committee on Appropriations, the gentleman from Wisconsin (Mr. OBEY) specifically, and those in the administration for their efforts. Bringing this package to the floor has not been easy. I want to applaud the patience and the determination both sides showed in reaching this agreement. I reluctantly opposed the conference report for the Interior appropriations bill earlier in the year because of numerous anti-environmental provisions that were attached by the other body. Thankfully we have removed or modified nearly all of those riders and significantly improved the Interior bill.

Additionally, though, through our negotiations with the White House, we were able to increase funding levels for some key programs that will better protect our environment. In the last few weeks, we negotiated millions of additional dollars for the President's land legacy initiative to protect sensitive or threatened lands in this country. The administration and Congress should be proud of the benefits this compromise means to our public lands.

Funding was included in both the Commerce Department as well as the Interior Department to help my State

and three other West Coast States address the recent salmon listings under the Endangered Species Act. Funding for these programs was my top priority. I want to sincerely thank the gentleman from Kentucky (Mr. ROGERS), the gentleman from New York (Mr. SERRANO), and the gentleman from Ohio (Mr. REGULA) for working with me to provide these critical funds that will help our State protect and restore West Coast salmon provisions.

Additionally, funds were included to help implement the recently negotiated treaty between the United States and Canada that will aid our efforts to recover these fish by substantially reducing their harvest. I regret that the conference agreement did not provide the requested increase for the National Endowment for the Arts, but appreciate the modest increase for the National Endowment for the Humanities. I believe there is strong public support for both of the endowments and wish the funding levels to the arts better reflected that support.

Again I wish to warmly thank the gentleman from Ohio (Mr. REGULA) for his tireless work on the Interior appropriations bill. These negotiations were lengthy and tedious, but he demonstrated extraordinary leadership and was instrumental in bringing this agreement to the floor today.

Mr. LINDER. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin (Mr. RYAN).

Mr. RYAN of Wisconsin. Mr. Speaker, I would like to speak out in opposition to not only this rule but to this final bill for many reasons, but chief among those reasons why I am opposing this rule and why I am opposing this bill is because of the dairy policy provisions contained within this bill. Blame can be spread all over the place. The President did not adequately protect his own agency's reform. The majority of Congress swept against us.

The point is this: we are preserving a 62-year-old antiquated program that pays a farmer more for the price of milk he produces the farther away from Eau Claire, Wisconsin, he lives. This Congress, which is elected to defend the Constitution, freedom, this Congress which contains most Members of Congress who proclaim to be in favor of free market principles, are voting in this bill to destroy those very free market principles. What I say to those Members of Congress from the Northeast, from the South, you like milking cows, I understand that, "Just don't milk our dairy farmers in the upper Midwest."

The problem with this bill is that half of this dairy policy never came to this body. It did come to the Senate and it was defeated. So why on earth are we dealing with this legislation in this big appropriations bill? This should be done through regular order. It should not be done in this appropriations bill. Worst of all, it pits one, two,

three regions of dairy farmers against one region, the upper Midwest. We simply want a chance to compete fairly on a level playing field in the upper Midwest, and we are being deprived of that because of this legislation that is being tacked onto this bill like a giant, ugly ornament on a big Christmas tree.

Mr. Speaker, I urge Members of this body to vote against this bill.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentlewoman from New York (Ms. SLAUGHTER).

Ms. SLAUGHTER. Mr. Speaker, I thank the gentleman for yielding me this time. There is so much to say and so little time, but I would like to focus on two specific items of importance to the American people.

Mr. Speaker, I consider the health-related provisions of this bill to be a mixed bag. I am extremely pleased to see that Congress is continuing its commitment to double the budget of the National Institutes of Health over 5 years. This is the lifesaving research which families fighting cancer and other dread diseases are depending on. The bill increases the NIH budget by another 15 percent, raising it from \$15.6 billion last year to \$17.9 billion in fiscal year 2000.

□ 1500

But, unfortunately, the shell game continues in order to pay for this spending.

The bill delays the release of \$4 billion of the NIH appropriations until September 29, 2000. Twenty of our colleagues wrote to the conferees urging them not to take this action, because medical research is not a faucet that can be turned off and on. No disease will wait for a clinical trial to get to the next round of funding. A colony of bacteria is not going to hibernate until the researcher receives the promised grant. Frankly, I am not too sure the researcher will stick around either. I am deeply concerned about the impact of this delayed appropriations on vital medical research.

In addition, I am appalled that Congress and the administration have conspired to imperil the health and welfare of women across the world by attaching onerous conditions to international family planning spending. Under this bill, United States funds are not only barred from going to groups that perform abortions directly or indirectly, but also to any group that lobbies in any way regarding governmental policies on abortion. An organization could even be barred from informing a government how many women were being harmed by unsafe or botched abortions, not just lobbying for abortion rights.

If the President uses his authority to waive this provision, international family planning funds are cut by 3 percent. At that point, thousands of women will not receive birth control,

leading to unintended pregnancies and abortions. It is simply beyond my grasp how abortion opponents believe that policies like this one help their cause.

This provision will not prevent a single abortion. It will only cause more and more dangerous abortions to occur. A woman in the Third World dies every 3 minutes. Surely that is the harshest kind of birth control, and we will be prevented from telling them how to prevent unintended pregnancy.

I am pleased that the bill makes progress in restoring the unexpectedly deep cuts made in Medicare reimbursement to hospitals, home care and other facilities under the Balanced Budget Act. Although the relief provided itself is modest, it will make a major difference in my district of Rochester, New York, in enabling our health care community to continue to provide world class care.

Mr. LINDER. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Wisconsin (Mr. GREEN).

Mr. GREEN of Wisconsin. Mr. Speaker, I thank my colleague for yielding me time.

Mr. Speaker, what I think is important to note today as this House appears poised apparently to vote for this bill with the anti-dairy reform in it, is it is important to point out why it was added to this bill.

It was added to this bill because these anti-reform provisions could not pass Congress in the normal fashion. Extension of the compact and 1(a) have not passed both Houses of Congress. Right now, there is a fight going on in the Senate that I think proves that point. Because they could not pass it in the normal fashion, they had to add it in the wee hours of this debate. That is unfortunate, but maybe it means that there is hope for those of us who believe in free market reforms. Maybe it shows to us, the fact that they have to try to get it done this way, maybe it shows us that there are more people behind us than we realized.

I can only hope that in the future, if given a chance to proceed in the normal order, maybe, just maybe, we will prevail, and maybe, just maybe, we will have true dairy reform.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin (Mr. KIND).

Mr. KIND. Mr. Speaker, I thank my friend for yielding me time.

Mr. Speaker, I rise today in opposition to the rule and to the final bill. Where does a promise mean nothing anymore? Right here on the floor of the House of Representatives. Where is one of the last remaining vestiges of a Soviet style, state-controlled economic industry? Right here in the blessed United States of America, with a depression-era Federal milk marketing order policy. Unfortunately, because of a last minute deal brokered behind

closed doors, the first significant step to reform an antiquated, senseless dairy policy will be blocked by language contained in this bill.

Just a couple of months ago, Mr. Speaker, I had a meeting with some of the leaders in the Republican Party on the House floor, where they promised me and other representatives that they would not allow any anti-dairy reform legislation to be attached to one of the year-end spending bills. But we wake up this morning and, lo and behold, there it is. Promises made, promises broken. And you would think an administration whose own reform proposals are under attack after three years of exhaustive work would stand a little more firm and fight for it, but that did not happen.

Now, it is never fun or pleasant to hold up the business of the House with delay tactics, and it is unfortunate we have had to resort to that tactic today. But I for one am willing to stay here until the cows come home, until we get this budget right, right for the American people, and right for the family farmers across the country.

For those of you who believe in budget integrity and fiscal discipline, there are a number of reasons for voting against it. It is \$35 billion over the spending caps from the 1997 budget agreement. We are dipping into the Social Security surplus by \$17 billion to \$18 billion according to our own Congressional Budget Office. We have done absolutely nothing to extend the solvency of Social Security and Medicare by one day in this budget. To top it all off, we are milking family farmers across the country and consumers and taxpayers with this 11th hour, backroom deal that will prohibit reform of a depression-era national dairy policy. We can do a lot better. I think the American people demand that we do a lot better.

I would encourage my colleagues to vote no on this budget agreement. Let us start over, let us get it right, and then let us go home.

Mr. LINDER. Mr. Speaker, I am pleased to yield 2 minutes to the gentlewoman from Connecticut (Mrs. JOHNSON).

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise in strong support of the bill, and particularly want to call attention to the Medicare "salvation" section. It is really a testament to the vitality of our democracy.

This Medicare salvation section is the direct result of a lot of us getting out there, visiting our nursing homes, talking to the people who run them and hearing from seniors who were being denied critical care because of mistakes made in past legislation or in administration policy.

Let me tell you, democracy is not a spectator sport, and this bill reflects that truth. Members of the subcommittee were out there, other Members of Congress were out there, and

our chairman, the gentleman from California (Mr. THOMAS), whose very bright mind and big heart wrote this bill, also took the time to get out there into the facilities and talk with the seniors. That enabled us to build a very precise effective package, providing relief to hospitals, home health care agencies and nursing home facilities.

And it is a very fine job we've done. It helps all of our providers, but it does not fundamentally step back on this Congress' commitment to save Medicare in the long run, from financial crisis, and to be there for our seniors with quality health care.

I just want to say that while the administration was very helpful and has really worked with us in many ways, it is unfortunate that the process, because it costs money, does not allow them to make specific proposals to help us. We did all of this, and it was heavy lifting, just as Members, listening to seniors and care providers and putting together an honest package that goes right to the heart of the problem and addresses it.

Members can take great pride in having saved Medicare quality health care for our seniors. As we go home, we can help our hospitals, nursing homes and health care agencies understand this expansion of resources and provide the care our seniors richly need and deserve.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentleman from Texas for yielding me time.

Mr. Speaker, this is what I have been trying to do in the last few minutes, is to review what this House has brought to the American people and calling it a budget, that has who knows what and does not address many of the concerns that the American people have asked them to address.

Just as an example, Mr. Speaker, this is what part of the bill looks like, lines drawn through, scribbles being made, and no one knows what was in it and what is out of it.

My concern, Mr. Speaker, as I said earlier, and this rule concerns me and I rise to oppose the rule, is that what we have is a mishmash that includes a number of addendums that have nothing to do with the appropriation process.

The satellite issue is an important issue that I would argue that we needed to support. The State Department authorization is likewise very important, and I have fought long and hard for Medicare help for our hospitals and health providers and will continue to fight for that. But we do not have a Patients' Bill of Rights, we do not have the protection of seniors for prescription drugs, and we have two inserts on the family planning issue typed up that deny family planning for women around the world.

Though I am certainly concerned about those who have a different view from me, I am likewise concerned about developing nations where women will be violated, intimidated, forgetting family planning because of this legislation.

I can say that I am gratified that my office worked to increase the amount of money for mental health services in the Community Mental Health Program, but I do say we are doing a tragic injustice to have Members be responsible for voting for a bill whose paperwork has yet to come to the floor and who has given us the responsibility of reading this within the few hours that we have.

Mr. Speaker, this is a bad rule, this is a bad process, and I am sorely disappointed that this is what we have come to. We need to go back to work and present to the American people the kind of legislative initiative that will be warranted of this country and this Congress.

Mr. LINDER. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Missouri (Mr. BLUNT).

Mr. BLUNT. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise in support of the rule and support of the bill. First of all, I want to say how much I appreciate the work of the appropriators. The new chairman, the gentleman from Florida (Mr. YOUNG), has done a tremendous job at a time when we are really laying out some new rules for appropriations, and all the members of appropriations on both sides of the aisle have worked hard to try to redefine this culture of what we are trying to achieve: A balanced budget, without spending Social Security.

We have heard a lot of debate about whose numbers may be right, whose predictions may be right. We really did not debate those things. Apparently the Congress did not debate them for 40 years, because we did not have a balanced budget without spending Social Security and nobody seemed to care.

It is great that we are down now to debating whose projection about income may be the closest to accurate next September, because that is really the projection date that counts. I am convinced we are not going to spend for the second year in a row a penny of Social Security income.

I like the way the committee put this package together. It is a big package, but it is a package of individual bills. You can go to each of those bills and see exactly what was in them, and what is in them are the items that should be in them. This is not a package that people have put things in that should not be there or are not understood to be there.

Social Security was not spent. That gives us a chance to really look at the future of Social Security. We cannot really talk about Social Security re-

form if we cannot stop spending the trust fund.

Somebody said the problem with the Social Security trust fund has been there was no trust and there is no fund. Well, this restores both of those concepts.

The balanced budget adjusters do tremendous things for home health care, for rural hospitals. This is a good bill, this is a good rule. I urge my colleagues to support both.

Mr. LINDER. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Florida (Mr. FOLEY).

Mr. FOLEY. I thank the gentleman from Georgia for yielding me time.

Mr. Speaker, for my colleagues who insist they do not know what is in this bill, they have not been paying attention during regular order, because within this bill are the multitude of bills that have been discussed in committee, discussed on this floor, and now rolled into one bill as we leave this process.

The others that suggest somehow we are dipping into the Social Security trust fund, the only reason we are here still is because the President keeps asking for more money, more spending, more funds for programs that he needs.

Now, some have suggested somehow we have been held hostage on international family planning. The President of the United States agreed to that provision in the bill.

Now, let us talk about why some people will vote against the fine bill here today. I challenge them to vote against increasing funding to Medicare choice. Organ transplant patients will have an extended coverage on anti-rejection drugs. Vote no to that today. I urge you to today.

Rehabilitation services, increasing therapy caps, something we have heard complaint after complaint from our citizens about, the need to increase physical therapy and rehabilitation.

Women's health. Pap smear tests now and cervical cancer screenings. Go ahead and vote against those fine initiatives. I challenge you to do it.

Increased flexibility for rural hospitals. Cancer hospitals, ensures that cancer hospitals will not face any reduction due to new outpatient prospective payment systems.

Changing the prospective payment system for hospital outpatients. Nursing home skilled facilities will be, in fact, have increased patients.

Home health care, reduce the scheduled reduction and increase benefit caps for some citizens.

Hospice care. Matt Lauer and I and several others were with hospice this week in Palm Beach County raising money for hospice.

□ 1515

This bill includes an increase in hospice coverage. Tell your hospice friends that you rejected this bill today because, I do not know why, but increased funding for them.

Teaching hospitals for New York and other places who have been belly-aching about not enough money for teaching hospitals. Thanks to the gentleman from California (Mr. THOMAS) and the Committee on Ways and Means, we have increased money for teaching hospitals. Durable equipment, increased senior access to durable equipment. Rural health care. On and on goes the list. For my Floridians who say they are going to vote against the bill, they are going to be voting against \$142 million for Everglades restoration. Go back and tell that to the Floridians who depend on the Everglades for water. I urge my colleagues to vote "no" and go home and explain that.

Indian programs. You name the list of things that are accomplished in this bill through the hard work of the committee in order to make this a better country. Money for national forests, bettering education, continuing our commitment to block grants. On and on goes the list of fine things in this bill.

Those that live in rural farming areas, please pay special attention, because in this bill is a \$178 million loan authorization for disaster relief, okay? My colleagues can go home and face their farmers this weekend and explain to them that they voted against this very important provision, if they have experienced a drought. Anyone from North Carolina, anyone from Florida, I urge you to go home and tell your farmers you had a chance to help them today and you chose not to from a partisan perspective. Juvenile accountability. On and on goes the list.

Mr. Speaker, I urge Members to support the rule, support the bill. It is a good bill.

Mr. FROST. Mr. Speaker, I yield the balance of my time to the gentleman from Wisconsin (Mr. OBEY), the ranking member on the Committee on Appropriations.

The SPEAKER pro tempore (Mr. HANSEN). The gentleman from Wisconsin (Mr. OBEY) is recognized for 3½ minutes.

Mr. OBEY. Mr. Speaker, let me simply address two points, since other Members have also addressed the dairy issue.

I believe that in this House a handshake is as good as a contract, and I believe that the day that one's word ceases to be one's bond is the day that we lose something very precious in this democratic institution.

I was told in August and again in September, and this was confirmed by one of the two Members of the Republican leadership 3 days ago in a conversation with me, I was told that if I would cooperate procedurally on appropriation bills with the majority, they would assure me that no extraneous dairy provision would be attached to any appropriation vehicle. The three key words were "any appropriation ve-

hicle." That promise has now been violated. I think that says more about the people who violated it than it says about anybody else in this institution. I deeply regret it.

I find it incredibly ironic that at a time when people are cheering with great huzzahs over the World Trade Organization-China deal, when they are earnestly pushing for free trade internationally, they are supporting internal trade barriers to the free flow of dairy products in the United States. That is absurdly old-fashioned, and no self-respecting free marketer should be supporting it.

[From the Wall Street Journal, Nov. 18, 1999]

LOTT HAS A COW

There are a million stories inside the Beltway, most of which the polls don't want you to know. But we thought you might be amused by the one about Trent Lott, dairy queen.

As Public Works Chair . . . sorry, Senate Majority Leader, Mr. Lott has already built himself a pork-barrel legacy for the Mississippi ages. But who would have thought his largess was big enough for all New England? There's apparently nothing the guy won't do to re-elect a fellow "singing senator," in this case the liberal James Jeffords of Vermont.

Vermont has lots of dairy farmers, most of whom are much less efficient than those in the Upper Midwest. Worse yet, Congressional permission for a six-state price-fixing dairy cartel known as the Northeast Compact is about to expire. So Mr. Jeffords who is running for a third term next November, got hold of Mr. Lott, who promised to jam an extension past an otherwise reluctant Senate.

Never mind that this milks consumers to the tune of about 20 extra cents a gallon. (Milk consumed by the same "poor children" who liberals like Mr. Jeffords and Vermont Democrat Pat Leahy are constantly invoking to sell their new programs.) Never mind that the Senate voted down and extension earlier this year.

And never mind that in the process of helping Mr. Jeffords, Mr. Lott is sticking a shiv in the back of another vulnerable GOP incumbent, Rod Grams of Minnesota. "I guess Jeffords is in a tough race," Mr. Grams told us ruefully. "But it can't be tougher than mine. And this is going to hurt me back in Minnesota, because it will hurt our farmers."

Mr. Lott likes to complain that he lacks a real conservative majority. Yet Mr. Jeffords is a routine apostate, agreeing with Ted Kennedy on demand, while Mr. Grams is a reliable conservative. It's nice to know how much Mr. Lott values ideological loyalty when he's doling out backroom favors.

Not that Mr. Lott deserves all of the credit. He has help in the House, where Speaker Dennis Hastert has caved in to Missouri Rep. Roy Blunt's attempt to gut the free market dairy reforms that Congress urged on a reluctant Clinton Administration as recently as 1996. Mr. Blunt's affront would add another 16 cents or so to a gallon of milk around the country. Mr. Lott wants to ram this into the end-of-session budget bill too.

Beyond the muscle politics, all of this is one more embarrassing sign that Republicans seem to have kicked over the reform stool. They're mainly into incumbent protection now. Messrs. Blunt and Lott are supposed to be GOP leaders. But the difference between them and Dick Gephardt is more

and more a matter of whose special interest gets gored.

As of this writing, Mr. Grams and Wisconsin Democrat Herb Kohl were promising to filibuster the Lott-Jeffords-Blunt cartel plans. But the way these things usually go, the dissenters get run over by the Members stampeding to leave town to brag about all of the pork they just voted to deliver. Cowabunga, Trent.

[From the Washington Post, Nov. 17, 1999]

GOP CHIEFS SOUR ON MILK REFORM—WHITE HOUSE, WISCONSIN'S KOHL BALK AT LOTT-HASTERT AGREEMENT

(By Michael Grunwald)

Three years after Congress ordered the Agriculture Department to revamp the nation's convoluted system for setting milk prices, Republican leaders agreed yesterday to send a new message to the department: Never mind.

Senate Majority Leader Trent Lott (R-Miss.) and House Speaker J. Dennis Hastert (R-Ill.) settled on language undoing the department's modest market-oriented dairy reforms and largely preserving the depression-era "Eau Claire system" that sets milk prices according to distance from Eau Claire, Wis. They also agreed to a two-year extension of the controversial Northeast Dairy Compact, a regional milk cartel that sets prices even higher in New England.

But the last minute maneuvering faced stiff opposition from the White House, which warned that plans to attach the dairy provisions to a giant year-end spending bill could jeopardize the entire budget deal. "It would create all sorts of obstacles," said presidential spokesman Jake Siewert, who noted that Clinton had promised to veto other spending bills including the milk language.

The upshot of the proposal—which Lott pushed on behalf of Sen. James M. Jeffords (R-Vt.), who is up for reelection in 2000—would be a bitter defeat for dairy farmers in the upper Midwest, a huge victory for dairy farmers in the Northeast, and a status-quo solution to a battle that could have resulted in lower prices for consumers. Sen. Herb Kohl (D-Wis.) yesterday vowed a last-ditch effort to hold up congressional business to block the deal, and he could have assistance from the administration.

"This is a very big thing for us, and I'm going to do whatever I need to do to try to make sure this doesn't happen," said Kohl, who noted that his state has 25,000 dairies, compared with 3,000 for all of New England.

The byzantine Eau Claire system was designed to ensure that every region of the country maintained a local supply of fresh milk, at a time when it was not possible to transport milk long distances in refrigerated trucks. The 1996 farm bill, touted as an effort to introduce free-market principles to America's farm economy, required the Clinton administration to propose a replacement for the Eau Claire regime. And while it authorized the Northeast Compact, it set its expiration date for this year.

Now Congress appears set to change its mind.

The Agriculture Department plan, which was supposed to go into effect last month before it was held up by a lawsuit in Vermont, would have smoothed out the formulas that favor farmers farther away from Eau Claire. Consumer advocates estimated that it would have cut milk prices by at least 2 cents a gallon nationally, saving consumers \$185 million to \$1 billion a year and saving taxpayers \$42 million to \$149 million on food programs. But the House passed a bill last month to

suspend the new plan, and congressional leaders have agreed to include a version of that bill in the overall budget agreement. And yesterday's deal will extend the compact until February 2001.

Kohl complained that maintaining the status quo would mean maintaining an unfair playing field, providing government protection to help inefficient dairies compete with midwestern farmers. John Czwartacki, a spokesman for Lott, cautioned that no deal is final until the budget agreement is complete, but he suggested that midwestern senators such as Kohl and Rod Grams (R-Minn.), who also is up for reelection, will be unable to stop it.

"It's all done but the fireworks," Czwartacki said. "I'm sure people will voice their unhappiness in tried and true ways. But on this issue, you can't make everyone happy."

Not even the regional alliance of compact supporters—who include likely New York Senate candidate Hillary Rodham Clinton, but not her husband—got everything it wanted. It did not get a permanent extension of the Northeast Compact. And the agreement did not create a Southern Compact. Still, Kohl vowed yesterday to protest the deal by filibustering anything that hits the floor. And Grams warned that he might force the Senate clerk to read the entire budget bill aloud, which could take days.

"We have the government picking winners and losers, and that's wrong," Grams said. "It's the whole country ganging up on the Midwest."

The Agriculture Department proposals, while somewhat more market-oriented than the current system, would have maintained the government's guarantee of a minimum milk price in all regions. But according to Christopher Galen, spokesman for the National Milk Producers Federation, they would have cost dairy farmers across the country about \$200 million a year, at a time when prices have dropped precipitously after several good years.

"We know people are upset in the Midwest, but we think this deal would create a rising tide that will lift almost all dairy farmers," said Galen, whose organization took no position on the compacts.

I also want to note that this bill is replete with gimmicks. This bill walks away from the majority party commitment to stick to the budget caps; it walks away from their "let-us-pretend" argument that they are saving Social Security; it hides \$45 billion in budgetary sleight of hand.

We have in this bill, first of all, in spending that is not counted by Congress, \$17 billion, \$17 billion. We then have in so-called emergency spending, which is another way of avoiding the spending caps, we have over \$11 billion in outlays; again, spending that is hidden in terms of whether or not it is going to be counted against the so-called budget limits that my Republican colleagues promised to live by in their own budget resolution.

Then we have what is called "delayed outlays." What this really means is that we legally delay spending until the final days of the fiscal year, so it is not counted this year, but it is still spent. That accounts for \$4.2 billion. Then we have what is called "advance appropriations," spending that ille-

gally counts spending against last year, even though it is available for this year, and that comes in at \$2.4 billion. Then we have other gimmicks worth \$9.9 billion. This from the new centurions who came in this place 5 years ago promising that under the Republican Party, things were going to be different. They are different. They have gotten worse.

So it seems to me, as I said earlier, this would be laughable if it was not so corrosive of the public's ability to believe what we are doing.

The SPEAKER pro tempore. All time of the minority has expired.

The gentleman from Georgia (Mr. LINDER) has 30 seconds remaining.

AMENDMENT OFFERED BY MR. LINDER

Mr. LINDER. Mr. Speaker, I offer an amendment to the resolution.

The Clerk read as follows:

Amendment offered by Mr. LINDER:

At the end of the first section of the resolution add the following:

The conference report shall be debatable for one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. The previous question shall be considered as ordered on the conference report to final adoption without intervening motion except one motion to recommit.

Mr. LINDER. Mr. Speaker, at this time I urge my colleagues to support the rule and the amendment to the rule, and I move the previous question on the amendment and on the resolution.

PARLIAMENTARY INQUIRY

Mr. OBEY. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman from Wisconsin will state it.

Mr. OBEY. Mr. Speaker, I am trying to understand what the import of the previous motion was. I understand that this is the method which will gag us and prevent any further motions being offered in protest to the rule that is brought before us. That is the effect of the gentleman's motion. It is, in fact, a new gag order, which will prevent us from doing anything except obediently moving toward passage of the bill. I am not going to contest it, but I think people need to know what it is. It is another symptom of how this House is run.

The SPEAKER pro tempore. That is not a parliamentary inquiry. The gentleman from Georgia managing the rule is offering an amendment to the rule.

Without objection, the previous question is ordered on the amendment and on the resolution.

There was no objection.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Georgia (Mr. LINDER).

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the resolution, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 226, nays 204, not voting 4, as follows:

NOT VOTING—4

□ 1543

Messrs. BONIOR, DICKEY, MATSUI, FLETCHER, BALDACCI, HINCHEY, WEYGAND, Ms. MALONEY of New York and Mrs. MCCARTHY of New York changed their vote from "yea" to "nay."

Mr. DAVIS of Virginia changed his vote from "nay" to "yea."

So the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1598

Mr. COOK. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 1598.

The SPEAKER pro tempore (Mr. HANSEN). Is there objection to the request of the gentleman from Utah?

There was no objection.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Sherman Williams, one of his secretaries.

□ 1545

CONFERENCE REPORT ON H.R. 3194, CONSOLIDATED APPROPRIATIONS AND DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 2000

Mr. YOUNG of Florida. Mr. Speaker, pursuant to House Resolution 386, I call up the conference report on the bill (H.R. 3194) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against revenues of said District for the fiscal year ending September 30, 2000, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. HANSEN). Pursuant to the rule, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of November 17, 1999, Part II.)

The SPEAKER pro tempore. The gentleman from Florida (Mr. YOUNG) and the gentleman from Wisconsin (Mr. OBEY) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. YOUNG).

GENERAL LEAVE

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the conference report to accompany H.R. 3194, and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are coming to the successful conclusion of a long road toward completion of our fiscal responsibilities. I thank my friend and colleague from Wisconsin (Mr. OBEY) for calling for order in the House. I want to say "thank you" to him for the many, many long hours and long days we have spent together during this process as the House concluded its work on 13 separate appropriations bills.

Mr. Speaker, the bills that are included in this conference report today, all of these bills, have gone before the House in one form or another. They have also gone before the House as part of a conference report. Most of those bills have not even been changed to any great extent from their previous forms.

The District of Columbia bill, which is the main vehicle for this conference

report, has only one minor change that was acceptable to all parties involved. The bill on Foreign Operations is basically the same as passed the House, except for a minor change that was agreed to by all the parties. As for the other three bills remaining, the gentleman from Ohio (Mr. REGULA), the distinguished chairman of the Subcommittee on Interior Appropriations, will make some comments on that as we go through the debate.

The chairman of the Subcommittee on Labor, Health and Human Services, and Education Appropriations, the gentleman from Illinois (Mr. PORTER), will have some comments on that portion of the bill. And the chairman of the Subcommittee on Commerce, Justice, State and Judiciary Appropriations, the gentleman from Kentucky (Mr. ROGERS), will have some comments on that bill.

During the various discussions that have led up to the point where we are about to conclude consideration of our appropriations responsibilities, one of the complaints has been the size of the bill. And it is true that a number of nonappropriations issues have been added by virtue of reference to their

bill number. But the fact is that the administration, the President's team, was here until nearly 3 o'clock this morning reading all of those pages, and they did read them all and gave us a sign-off to go ahead and file the bill. Not that we needed that, but it was a courtesy that we extended to the administration.

Mr. Speaker, of course, the staff representatives of the majority leadership and the minority leadership had access not only to this process last night and early this morning, but there has been ample opportunity for those who wanted to read the agreement and spend the hours late last night and early this morning to do so. They had that opportunity.

We have spent a considerable amount of time, long days and long nights, in negotiation with the representatives of the President. The gentleman from Wisconsin (Mr. OBEY) and I have spent a lot of time together in that room where we did the negotiating. But it is important to note, Members ought to know this, the negotiations were basically managed by the leadership of the subcommittees involved. This was not done at some high level with someone

who was not involved in the day-to-day activities relative to these bills.

So, this is a real product of the Committee on Appropriations and the appropriations process. I can give at least 237 reasons to vote against this bill. But also I could give hundreds of reasons why this is a good bill. Throughout the debate we will do that, Mr. Speaker. I hope that we can get a good bipartisan vote for a good bipartisan bill that is even agreed to by the administration.

Mr. Speaker, I would ask that all of our colleagues on our side of the aisle show the gentleman from Wisconsin (Mr. OBEY) the courtesy of listening to what he has to say. There are some very strong differences here, and I would hope that the House would remain in order so that we could all hear what each of our speakers has to say.

Mr. Speaker, at this point in the RECORD I would like to insert tables showing the details of the District of Columbia Appropriations, Foreign Operation, Export Financing, and Related Programs Appropriations, and Miscellaneous Appropriations.

DISTRICT OF COLUMBIA APPROPRIATIONS BILL, 2000

(Amounts in thousands)

	FY 1999 Enacted	FY 2000 Request	H.R. 2587	H.R. 3064	H.R. 3194	H.R. 3194 vs. enacted

(By transfer)	(21,500)
(Loan authorization)	(2,612,294)

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Missouri (Mr. GEPHARDT), the honorable minority leader.

Mr. GEPHARDT. Mr. Speaker, I want to thank the Members of the Committee on Appropriations on both sides of the aisle for tremendous long hours and hard work. I want to thank all of the Members of the President's staff for the work that they did in trying to bring this to a successful conclusion.

Mr. Speaker, this has been an imperfect process, and this is an imperfect bill. But on balance, it has more to recommend it than not, and I will support its final passage. Procedurally, this bill repeats many of the same mistakes that were made last fall by the leadership. Despite the promises of the Speaker last January, once again we have a bill that was not done on time and was not done in regular order. We have an omnibus bill that reflects a "kitchen sink" approach to governing and, once again, Members did not have adequate time to read the bill to understand all of its provisions.

On the substance of the bill, I am disappointed over the family planning provision that was contained and attached to the U.N. funding. I do not think it is the right thing to do. And I am upset that we failed to include a hate crimes provision in this bill, and I think we had a chance to do that.

But on balance, this budget is an overall victory for our priorities. The President and Democrats in Congress hung together in support of an agreement that has made a real commitment to the priorities that we feel are critical to the continued health and well-being of America's families. Once again, as we did last fall in our negotiations with Speaker Gingrich, we snatched a modest victory out of a misguided Republican budget process that cared more about providing a tax cut for the wealthy and corporate special interests than about doing the right thing for average Americans.

We achieved a big win for our efforts to educate our children for the challenges of the next century. This bill contains funding for 100,000 new, qualified teachers to reduce class size and increase discipline and accountability in America's classrooms. I am very happy that that priority has been recognized in this budget.

It makes a strong commitment to after-school programs to keep kids off the street and in safe and productive environments until they go home. And it advances us substantially on our goal towards getting 1 million children included in Head Start finally in this country, and I am very happy that that priority has been advanced.

We achieved a big win in the effort to fight crime. This budget will allow local police departments to hire an ad-

ditional 50,000 officers over and above the 100,000 that have already been hired to continue our progress in making our neighborhoods safe.

Mr. Speaker, we achieved a big win for the environment by stripping out the most extreme Republican anti-environmental provisions that were sneaked into the back door of this budget.

But for all we have accomplished in this bill, this Congress has this year failed the American people. Despite the progress we made in the last several weeks on behalf of these priorities, we have not done enough on the agenda of the American people. And instead of doing the people's business, we squandered at least 2 months debating a failed trillion dollar tax cut for the wealthy and special interests.

Despite the chest beating, the button wearing and the commercial airing of the Republicans, this Congress failed to extend the life of Social Security by 1 day. We have done nothing to provide a prescription drug benefit for seniors to modernize Medicare to meet their current needs. We failed to enact key bipartisan reform efforts, the Patients' Bill of Rights, and the Shays-Meehan campaign reform bill into law.

We dropped the ball, and we lost a real opportunity to modernize our health care system once and for all. And we did not help low-income families get a step up into the middle-class with a minimum wage increase. We did not strike a blow against violence in our schools and our playgrounds by passing common sense gun safety legislation.

Our work, in short, is not finished. In many ways, it has not even yet begun. We intend to be back here in January ready and prepared to fight for the priorities and the agenda of the American people. And I simply say to our friends on the other side of the aisle, we have achieved a certain level of agreement here today on some important priorities. I am glad for that, and I thank them for their help in bringing that about.

Mr. Speaker, in that same spirit of can-do, I say to our friends in the Republican Party today: let us continue to work together next year. Let us get a Patients' Bill of Rights that really gets the job done. Let us get campaign reform. Let us get something done on gun safety. Let us pass a minimum wage increase. Let us get Medicare reform. Let us extend the solvency of Social Security. Let us get a prescription drug benefit for our senior citizens. If we could do this, we can do that, and the American people would be very happy for it.

Mr. YOUNG of Florida. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. ARMEY), the majority leader.

Mr. ARMEY. Mr. Speaker, I thank the gentleman from Florida (Mr.

YOUNG) for yielding me this time. Let me just say, Mr. Speaker, I believe this is a very, very proud moment for this body. To think that we could in just these few short years move ourselves from where we had been in 1994, perpetual debt as much as \$250 billion a year for as long as anybody could see to the point where with this budget deal we will consummate and finalize forever an end to the raid on Social Security.

Beginning in 1998, fiscal year 1999, and now with this budget agreement in fiscal year 2000, we will have retired a third of a trillion dollars' worth of debt for the American people. We will have stopped the raid on Social Security forever. We will have enforced this with an across-the-board spending reduction that acknowledges truly it is time now to be disciplined to eliminate waste, inefficiency, fraud in the use of the taxpayers' dollars. A new commitment of good government in government.

□ 1600

Then when we start looking at the details, some of the things we did in education to bring a real opportunity for the schools that serve the children better, and for those children in the most desperate of economic circumstances in their families who find themselves with the most desperate of situations in their schools, to actually have the opportunity now in this bill for public school choice is a wonderful new break, through reinforcing the consistent pattern of this year of providing respect for local communities as they manage their schools, providing greater opportunity to use the resources provided through the Federal Government for better management, better performance on the school on behalf of the children. It is just another good example of the good work we have done.

So I say to our colleagues, we saw the opportunity that was presented to us to stop the raid and to write good policy on education and defense and any number of ways. We seized the opportunity, and we saw it through, and today is the day.

Let us vote it through, and let us go home and enjoy the results with our schools, our communities, our families, and our constituents.

I say to everyone congratulations, and I thank all of my colleagues for their long, hard work. I know we are all tired at this time of the year, but we all should have such a sense of gratification. We did the right thing, and we did it well.

Mr. OBEY. Mr. Speaker, I yield 4 minutes to the gentleman from Michigan (Mr. BONIOR), the distinguished minority whip.

Mr. BONIOR. Mr. Speaker, I share the views of the gentleman from Missouri (Mr. GEPHARDT), my leader, with respect to the process in which we have

been engaged. Seven weeks late on a budget, and of course this budget is minus many important issues that he enumerated: Nothing for Social Security solvency, nothing on Medicare reform, nothing on prescription drugs, nothing on Patients' Bill of Rights, nothing on the minimum wage.

We, indeed, have not done the people's work, and we have squandered a good deal of our time debating a tax bill that did not meet the approval of the American public.

But the bill that we have before us today does have some good features in it. It is with that in mind that I rise in support of it. It is a victory, first of all, for our children because it provides funding to hire and train 100,000 new teachers and dramatically expand the after-school program.

It is a budget victory, in a sense, for public safety because it provides funding to hire and train 50,000 police officers to patrol our streets and neighborhoods and keep our children safe in school.

Third, this budget is a victory for the environment because it increases funding to protect our clean water, to preserve community parks and forests and historic sites through the Lands Legacy Program, and to fight the congestion and pollution that threaten our quality of life of our constituents.

The fourth issue that I would mention here this afternoon is in the foreign policy area. This provides the resources to move the Mideast peace process forward, providing resources for the Israelis, the Palestinians, and the Jordanians. I think that moves on successes that we have had in the past.

This year, Federal funding allows schools in my congressional district Macomb and St. Clair Counties in Michigan to hire 60 new teachers. What that has done is it has translated into smaller classes, greater discipline, more learning, higher academic performance. This is an investment in our future, and it is an investment that will pay dividends in years to come.

This year's budget also provides funding to enable 675,000 students to participate in the after-school program where they can mentor with seniors and other adults working in athletic and crafts and the computer rooms and the libraries and all the things that are necessary to keep them safe in a safe environment after school, to help them mentor in a way in which they can learn the respect of their elders and work with their elders and learn the skills of those who have gone before them.

Programs like the Kids Klub in Macomb and St. Clair Counties will directly benefit from this budget and will help young people set off on the right foot.

This budget will also help keep our families safe through the hiring of 50,000 new police officers. As with the

teacher initiative, this builds on our past successes.

Because of Federal funding, 85 extra officers patrol in my district today. That makes people safer in their homes and their businesses, and serves as a strong deterrent to would-be criminals. It also makes our students strong in their places of education.

So, Mr. Speaker, let me just conclude by saying that I am very pleased that we Democrats were able to strip some of these environmental riders from the bill, protecting the environment, protecting the budget process itself. We have done good things for education. We have done good things to protect our communities in terms of its safety with the addition of the police officers. We have done the responsible thing to move peace forward in foreign lands.

So for these reasons, for our children, for our communities, for our environment, for our international responsibilities and obligations, I am voting yes on this budget.

Mr. YOUNG of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas (Mr. DELAY), the majority whip.

Mr. DELAY. Mr. Speaker, I want to congratulate the gentleman from Florida (Mr. YOUNG), the chairman of the Committee on Appropriations, on an outstanding performance in bringing this bill to the floor and finalizing the budget process. This chairman of the Committee on Appropriations and the chairmen of the subcommittees have done an outstanding job.

I rise in support of this bill, but more importantly, I rise to set the record straight. The Republican majority in Congress has redefined the way that budgets are crafted. In so doing, we have set the Nation down the path to fiscal responsibility.

When I ran for office the first time, I ran because I found a situation where we were running up the debt on my children and my grandchildren and no one wanting to pay down the debt; that we had budgets that ran deficits as far as the eye could see and no one trying to balance the budget; that we had a situation where we raised surpluses in the Social Security Trust Fund so that we could spend the money on big government programs.

I ran for office and never really thought that I would be standing before my colleagues today very, very proud of the work of this House over the last 5 years. At this time, it is important for everyone to reflect on how far we have come.

When Republicans took control 5 years ago, we pledged that we would change the scope of government; and we are delivering on that promise, going down the line of issues that are important in this country. The fact is unavoidable that this Congress has been an overwhelming success.

Even when people would like to rewrite recent history, this is the first

time in my 15-year career that we put 13 appropriations bills on the desk of the President. He signed eight of them and vetoed five because there was not enough spending to suit him.

We negotiated each bill individually. This is not an omnibus bill. Each bill was negotiated individually, and each authorizing bill that is in this package has been voted on by this House.

We have rebuilt our military after years of neglect. We took significant power over education away from the Federal Government, returned it to the States. We tried to cut waste by just suggesting a 1 percent across-the-board cut. Incredibly, the Democrats maintain that a measly 1 percent of waste could not be found in the Federal Government. Well, even the President eventually agreed with us. Now we have an across-the-board spending cut.

We have stopped the raid on Social Security. We have balanced the budget for the second time in 50 years without raising a dime of taxes to do it. We are paying down the debt, \$99 billion last year. We will, next year, pay \$130 billion down on our children's debt.

Mr. Speaker, this bill is the last step in a very successful budget season. We have worked hard to balance the budget and pay down the debt without raising taxes or raiding Social Security. The hard work has paid off. Vote for this bill.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Mississippi (Mr. TAYLOR).

Mr. TAYLOR of Mississippi. Mr. Speaker, I would like to encourage my colleagues to vote against this. It is not necessarily that it is an entirely bad bill. But a year ago right now, all of us went around our respective districts and asked for the opportunity to spend the people's money wisely.

The problem that I have with this bill is that, for the next 3 weeks, The Washington Post, the Washington Times, the New York Times are going to be running a series of articles every day of what was in this bill, and one is not going to know it was there. But one is going to have to tell one's constituents, well, gosh, I did not know that money for a fleet buyout in Alaska was there or for a wood lot in North Carolina was there or for all the other silly things.

I encourage my Republican colleagues to vote against it because many of them ran against Goals 2000. Yet, there is \$491 million for Goals 2000 in here. Many of them said they were against the Department of Commerce. Well, it has got a \$3.6 billion increase, but they call it emergency because it has got money for the census that apparently no one knew was coming even though the Constitution says we are going to do it every 10 years.

But more than everything else, I think my colleagues are playing a shell game with the men and women of the

United States military. Everyone was real proud a couple weeks ago when they said we increased the defense budget. Well, today, my colleagues are cutting it back by \$1 billion, \$1 billion.

To make matters worse, those troops who are already underpaid, who got a minuscule pay raise just a few weeks ago, my colleagues are now telling them we are going to delay the time they are paid. Now, for a Congressman, we make pretty good money. Getting paid a day or two later really should not affect us. But when one is an E-1, E-5, O-1, O-2, and one is just barely getting by, to move payday back, in many instances, is the difference between them being able to buy diapers for their kids or one can put food on the table.

It is not right. We should not do it. If it takes us waiting a couple more days to do it right, then I encourage us to do so.

Mr. YOUNG of Florida. Mr. Speaker, I yield 2¼ minutes to the distinguished gentleman from Ohio (Mr. REGULA), chairman of the Subcommittee on the Interior.

Mr. REGULA. Mr. Speaker, Webster defines "perfect" as being without fault or flawless. He defines "good" as being praiseworthy, useful, or beneficial.

Well, the document before us is not perfect under Webster's definition. It abundantly does fit Webster's definition of good. It is praiseworthy. It is useful. It is beneficial.

In the conference report, we have modified a number of the riders. I believe many of my colleagues will be pleased with our changes. Most importantly, they are fair. I am especially pleased with this report as it continues

our commitment to the American people in protecting the environment, in providing for our national parks, forests, wildlife refuges, and public lands, as well as our cultural resources.

As the gentleman from Michigan (Mr. BONIOR) said, this bill is a victory for the environment. It is a bill that will provide pride in America's heritage, not only now, but far into the future. I think it is something we all could take pride in.

I urge each of my colleagues to support the bill.

Mr. Speaker, I yield to the gentlewoman from Idaho (Mrs. CHENOWETH-HAGE) for a colloquy.

Mrs. CHENOWETH-HAGE. Mr. Speaker, I would like to ask the gentleman from Ohio (Mr. REGULA), chairman of the Subcommittee on Interior, to clarify some matters concerning the President's so-called American Heritage Rivers initiative that concerns the Interior and related agencies portion of the appropriations act.

Is it the understanding of the gentleman from Ohio (Mr. REGULA) that there is nothing in his bill that authorizes the American Heritage Rivers initiative?

Mr. REGULA. Yes, Mr. Speaker, I would like to clarify that matter. There is no language whatsoever in the Interior portion that provides an authorization for the American Heritage Rivers initiative.

Mrs. CHENOWETH-HAGE. Mr. Speaker, in addition, is it true that there is no separate appropriation for the American Heritage Rivers initiative in the Interior portion of the bill?

Mr. REGULA. Yes, Mr. Speaker, it is true there is no appropriation for the American Heritage Rivers initiative in the appropriations act.

Mrs. CHENOWETH-HAGE. Mr. Speaker, it is clear that there is no appropriations, nor authorization, but on their insistence on spending money on this unauthorized and unappropriated initiative, how have you instructed the Forest Service managers in this?

□ 1615

Mr. REGULA. There is no such authorization or appropriation, Mr. Speaker. The statement of the managers provides a limitation on spending for the Forest Service for purposes related to designated American Heritage Rivers.

This is not an appropriation, but provides the maximum that may be spent. It is language of limitation on what can be spent from existing funds.

Mr. Speaker, Webster defines "perfect" as being without fault, or flawless. He defines "good" as praiseworthy, useful or beneficial. While the document before you is not perfect under Webster's definition, it abundantly does fit Webster's definition of good.

In this new conference report we have modified a number of the riders and I believe that many of you will be pleased with our changes. Most importantly they are fair.

I am especially pleased with this conference report, as it continues our commitment to the American people in protecting the environment and in providing for our national parks, forests, wildlife refuges and public lands, as well as our cultural resources. As the gentleman from Michigan said, "This bill is a victory for the environment to the State of Florida." I urge you to support this new bill.

At this point Mr. Speaker, I would like to insert into the RECORD a table detailing the various accounts in the bill. It is a bill that will provide pride in America's heritage not only now but far into the future.

(Amounts in thousands)

	FY 1999 Enacted	FY 2000 Request	House	Senate	Conference	Conference vs. enacted
TITLE VI						
Priority land acquisitions and exchanges					197,500	+ 197,500
Grand total	14,297,803	15,266,137	13,934,609	14,055,710	14,928,411	+ 630,608

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York (Mrs. LOWEY), a member of the committee.

Mrs. LOWEY. Mr. Speaker, I thank the gentleman for yielding me this time.

Yes, my colleagues, there is good news in this bill; but there is a strong commitment to the education of our young people, there is a significant increase to Title X, America's family planning program, and there is desperately needed relief for hospitals, which have been struggling with budget cuts.

The bill demonstrates our ongoing support for a secure and lasting peace in the Middle East. The Wye River package will help bolster Israel's security and provide the momentum needed to carry both parties through this delicate period in the peace process.

The bill also fulfills our obligation to pay our U.N. arrears. I have fought hard with my colleagues to make this a reality, but my enthusiasm has been dampened by the dangerous family planning restrictions that were forced upon us by the majority in return for these critical dues. The restrictions are unreasonable and irresponsible, and my colleagues can be sure I will fight to ensure that they are never again codified in U.S. law.

I am also very disturbed that Federal employees' access to contraceptive coverage has been damaged in this bill. The majority has modified the provisions which the President just signed into law only 2 months ago to dramatically expand the number of individuals who can opt out of providing contraceptives. My colleagues, this is sneaky politics, and it is bad policy.

I want to make it clear today that I will not rest in my efforts to ensure that Americans have true access to family planning services. We cannot continue to let a few extremists hold good public policy hostage to their narrow agenda.

Mr. YOUNG of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida (Mr. SHAW).

Mr. SHAW. Mr. Speaker, I rise in support of the bill.

Today, America's seniors will be able to breathe easier and worry less about their health care. Why? Because with the passage of the Medicare Balanced Budget Refinement Act of 1999, health care providers who have been struggling under the burden of money-saving regulations imposed in 1997 will now be getting some much-needed relief.

For several years Medicare Providers have been caring for Medicare patients day in and day out—often for Medicare payments that are not adequate to cover their costs. In my district, for example, the Sylvester Cancer Hospital was losing approximately \$700,000 a year caring for Medicare cancer patients. Until now. This bill will give cancer hospitals the opportunity to break even. Hospices, which care

for the most vulnerable Medicare patients will also benefit. They will get the help they need to provide the newest medications to comfort their patients.

In the last year I have worked with Chairman THOMAS, who I want to thank for his efforts in addressing the many concerns that have been brought to my attention by Medicare providers and beneficiaries in my district. The result of that work is this bill. While it doesn't provide all the Medicare fixes that are needed—it does address the most urgent needs immediately.

Mr. YOUNG of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. GOODLATTE).

Mr. GOODLATTE. Mr. Speaker, I rise to engage the majority leader in a colloquy regarding the satellite legislation which has been added to this omnibus bill.

As the majority leader is aware, I have been working for some time with my colleague, the gentleman from Virginia (Mr. BOUCHER), and many others, to pass legislation that will reauthorize the compulsory license for satellite broadcasts and encourage the development of technology that will deliver local network signals to satellite owners.

We passed the Satellite Home Viewer Act reauthorization earlier this year with overwhelming bipartisan support and engaged the other body in a lengthy and difficult conference. The conference report was filed and passed last week in the House by a vote of 411 to 8. Few bills of this magnitude have passed by such a wide margin. Included in this conference report was important language supported unanimously by the conferees to ensure that rural Americans are not left behind as this new local-into-local technology is rolled out by the satellite companies.

Mr. BOUCHER. Mr. Speaker, will the gentleman yield?

Mr. GOODLATTE. I yield to the gentleman from Virginia.

Mr. BOUCHER. Mr. Speaker, I thank the gentleman for yielding to me, and let me simply compliment my friend and colleague, the gentleman from Virginia (Mr. GOODLATTE), for the excellent work he has done in the face of very difficult circumstances in order to obtain a way that viewers in the cities, medium-sized and small, and throughout rural America will have the opportunity to have their local TV stations delivered to them by satellite.

We have had a range of problems. We are about to have those resolved in a manner that I think is satisfactory, and I want to thank my colleague and friend from Virginia for his very able assistance in reaching that satisfactory result.

Mr. GOODLATTE. Reclaiming my time, Mr. Speaker, I thank the gentleman for his kind words and for his critical support in this effort.

Yesterday, we delivered to the Speaker a letter that included over 245

signatures from Members who supported the rural provisions of this conference report. Similar letters were delivered to the Senate majority leader from rural Senators.

Mr. Speaker, Rural America should take note of the high level of support for this language in Congress and the hard work of members like Senator CONRAD BURNS of Montana, Senator TED STEVENS of Alaska, Senator JONN WARNER of Virginia, Senator PATRICK LEAHY of Virginia, Congresswoman BARBARA CUBIN of Wyoming, and Congresswoman JOANN EMERSON of Missouri.

Unfortunately, problems in the other body have doomed this language for the year. Because the other body did not wish to take the steps required to pass the bill over a threatened filibuster, they have reached an agreement with our leadership in the House to attach the Satellite Home Viewer Act to the D.C. appropriations bill next year.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. BOUCHER) so that the gentlemen might continue their colloquy.

Mr. GOODLATTE. Mr. Speaker, will the gentleman yield?

Mr. BOUCHER. I yield to the gentleman from Virginia.

Mr. GOODLATTE. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, the supporters of this legislation understand that along with this agreement comes a commitment from our leadership to work to pass similar legislation early next year, and if the gentleman will yield to him, the majority leader will clarify the details of this commitment.

Mr. ARMEY. Mr. Speaker, will the gentleman yield?

Mr. BOUCHER. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Speaker, I thank the gentleman for yielding, and I want to congratulate the gentleman from Virginia (Mr. GOODLATTE) on his hard work on this important issue. I share the gentleman's commitment to ensuring that rural Americans can receive their network signals over satellite.

The Satellite Home Viewer Act conference report, which included the loan guarantee language, was supported by myself and the majority of both parties in the House. I share the gentleman's concern that time constraints prevented the conference report from being enacted as it passed the House; however, I appreciate the gentleman's willingness to reach an agreement that will ensure passage of the rest of this satellite legislation that is so important to satellite subscribers.

To address my good friend's concern, I commit to the gentleman from Virginia that we will move rural satellite loan guarantee legislation through the House early next year. It is my hope that the relevant committees of jurisdiction will engage in a full debate and discussion of the merits of this loan

guarantee package and move appropriate legislation forward expeditiously.

However, if for whatever reason such legislation is not ready for floor consideration in the House under regular order by early spring, I further commit that I will allow the gentleman from Virginia an opportunity to have an up or down floor vote by March 31, 2000, on the rural loan guarantee program, similar to that which appeared in the Satellite Home Viewer Act conference report which passed in the House.

Mr. GOODLATTE. Mr. Speaker, will the gentleman continue to yield?

Mr. BOUCHER. I yield to the gentleman from Virginia.

Mr. GOODLATTE. Mr. Speaker, I thank the distinguished majority leader for his support and commitment to scheduling floor time for this important legislation by April of next year.

Am I to understand that the legislation to be scheduled for a vote will authorize a level of appropriations that is both sufficient to accomplish such a program and at least \$1.2 billion?

Mr. ARMEY. If the gentleman will continue to yield, it is my understanding that is consistent with the language in the Satellite Home Viewer Act conference report; that is correct.

Mr. GOODLATTE. It is also my understanding that the Senate leadership has made a similar commitment to floor consideration by a time certain next year.

Mr. ARMEY. That is also my understanding, yes.

In addition, I will commit to placing time limits on the referral of the legislation to committees in such a way that causes the legislation to be discharged by all relevant committees by the March 31 deadline, and I will work with the Speaker on committee referrals and understand that he shares my commitment to this timetable.

Mr. GOODLATTE. Mr. Speaker, I thank the gentleman for his courtesy.

Mr. YOUNG of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from Kentucky (Mr. ROGERS), the distinguished chairman of the Subcommittee on Commerce, Justice, State, and Judiciary of the Committee on Appropriations.

Mr. ROGERS. Mr. Speaker, this bill contains a victory for the American agenda. In my portion of the bill there is extra money for disasters through the disaster loan program in SBA. We fully fund the year 2000 census, every penny that is needed; we increase the drug and crime funding, FBI, DEA and local law enforcement block grants, as well as the COPS program of the President, which is fully funded at less than half of what he requested; and there is embassy security money here to beef up the security for our personnel serving overseas in our embassies.

But most importantly to me is a final vindication in this bill of an effort started by this subcommittee many years ago to reform the U.N.

Along with the monies in the bill to fully pay the U.N. arrears payments of the U.S., there are conditions which the U.N. must agree to. This subcommittee several years ago began what now has become a full-blown U.N. reform agenda which now requires the U.N. to consider our payments of arrearages to be payment in full, reduces the rate of U.S. contributions to the U.N. from 25 to 22 percent for the annual assessment, plus a reduction from 31 to 25 percent for the peacekeeping rate of contributions, requires the U.N. to live with a zero-growth budget, requires personnel reforms at the U.N., opens their books to GAO scrutiny, requires IGs, inspectors general, in the affiliated organizations of the U.N., like the ILO, the WHO, and the FAO, and gives the U.S. a voice on the budget committee of the U.N., among other reforms. This is an effort that now is vindicated.

This subcommittee led the way many years ago. It gained a head of steam, and it has been a rough and rocky road; but now we can say that with these payments of the arrearages to the U.N. comes the conditions of reform in the U.N. that will make the U.N. a better agency for all of us.

I would like, at this point, to insert into the RECORD a table detailing the funding for the Commerce, Justice, State, and Judiciary section of the bill.

1/ The Administration's request proposes to eliminate this account and distribute the funding to GLA, US Attorneys, US Marshals, FBI, DEA and INS.

2/ The Administration's June 8, 1999 budget amendment proposes to reinstate the 245(i) adjustment of status fee, which would increase receipts in the Breached Bond Fund by \$110 million.

3/ The President's request includes \$30 million for the Police Corps within the hiring program.

4/ As a result of the Foreign Affairs Reform and Restructuring Act of 1998 and other changes, the amounts requested and recommended in FY 2000 include amounts appropriated separately in previous fiscal years for State Department, USIA and ACDA salaries and expenses.

5/ The President's budget proposed \$5 million for State Justice Institute.

Mr. YOUNG of Florida. Mr. Speaker, will the Chair advise how much time is remaining on each side.

The SPEAKER pro tempore (Mr. HANSEN). The gentleman from Florida (Mr. YOUNG) has 15¼ minutes remaining, and the gentleman from Wisconsin (Mr. OBEY) has 15 minutes remaining.

Mr. YOUNG of Florida. Mr. Speaker, I yield 2½ minutes to the gentleman from Illinois (Mr. PORTER), the chairman of the Subcommittee on Labor, Health and Human Services, and Education of the Committee on Appropriations.

Mr. PORTER. Mr. Speaker, I thank the gentleman for yielding me this time and for his leadership in bringing this bill to final passage.

Mr. Speaker, compromise is the nature of our process under the Constitution, and the American people are the winners with this legislation.

In the Labor, Health and Human Services, and Education portion of the bill we have plussed up Job Corps, consolidated health centers, and Ryan White AIDS they are at the highest priority. I am particularly proud that we have funded biomedical research through the National Institutes of Health with a 15 percent increase, or \$2.3 billion. This is the second 15 percent increase in a row toward our goal of doubling funding for biomedical research over 5 years. This is the best spent money in all of government and lengthens and protects the lives of every American.

In education, we increased the overall account by \$2.2 billion over FY 1999 and included large increases for impact aid, for Pell Grants, for the TRIO program, and a very large increase for special education, allowing our local school districts a great deal more flexibility with their own money.

Now, Mr. Speaker, for the record, I want to ensure that our intent on section 210, the provision concerning the Secretary's organ transplantation rule, is totally clear. Section 210 delays for 42 days publication of the organ transplant rule to allow the Secretary to consult with the transplant community. The provision is the result of difficult negotiations between Members of both bodies and the administration.

□ 1630

Our provision originally provided for a 90-day delay with a required 60-day comment period. Based on the agreement between myself; the gentleman from Florida (Mr. YOUNG), the chairman of the committee; the gentleman from Wisconsin (Mr. OBEY), the ranking member of the subcommittee and the full committee; the chairman of the Senate subcommittee, Senator SPECTER; and the administration, we changed the comment period from 60 days to 21 days and provided 21 days for the Secretary to review the comments.

There has been a major study by the Institute of Medicine Study on this

issue and several periods of comment either have occurred or will occur under the proposed rule. The compromise assures that those with an interest in this issue will have one more chance to comment and have these comments reviewed. As a result, our agreement includes language in the Statement of the Managers that there will be no further delay following the 42-day period.

Mr. Speaker, this was a difficult negotiation. However, I believe that the provisions of this bill represent the true compromise between all parties, and not a provision placed in the worker incentive bill without the knowledge or any participation in the negotiations by those at our table, including the Secretary of Health and Human Services and the Director of OMB that were there in our negotiation.

Mr. OBEY. Mr. Speaker, I yield myself 30 seconds to engage in a colloquy with the gentleman from Illinois (Mr. PORTER).

Mr. Speaker, the conference agreement encourages the Secretary of Labor to spend up to \$2 million to answer several questions relating to the costs and benefits of safety and health programs. But am I correct in stating that the conferees do not intend in any way that the Secretary delay her rulemaking on safety and health programs while developing this information?

Mr. PORTER. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from Illinois.

Mr. PORTER. Mr. Speaker, the gentleman is correct. It was not our intent in funding this data collection to block or delay the issuance of the safety and health program standard.

Mr. OBEY. Mr. Speaker, I thank the gentleman for his comments; and I want to say it has been a pleasure to work with him, as usual.

Mr. OBEY. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, we have come a long way from where we started in this session.

Originally, the Republican budget resolution that was presented in this House maintained the fiction that we could afford a huge tax cut with 70 percent of the benefit going to persons earning over \$100,000 a year and still not do damage to the rest of our national priorities.

That tax cut would have used every single dollar that could have been used to extend the life of Social Security and Medicare. And the public understands that; and in the end they, I think, by their actions in the polls, convinced our friends on the Republican side to begin to walk away from that issue.

In September, we were given a different problem because the majority established a budget allocation for the bill containing Education and Health

and Labor programs which would have resulted in cutting education funding by almost one-third in real terms. We said no to that. The President said no to that. And the shape of these appropriations bills today is far different as a result.

I want to publicly thank the President. I want to publicly thank the Vice President. I want to thank the President's Chief of Staff, John Podesta; Jack Lew, his principal budget negotiator; and all the others who stood with us fighting for smaller class sizes, fighting for quality teachers, fighting for more cops on the beat, fighting against legislation that threatened environmental cleanup, fighting against short-sighted efforts to limit our international leadership responsibilities abroad.

I am also proud of the fact that we have in the area of education provided for additional support for comprehensive school reform, for additional support for teacher training, additional support for smaller class size, and additional support to assist local school districts to reduce high school size in order to get a better handle on student violence and juvenile adolescent behavior.

I am also proud of the fact that, under this bill, 10 States will be provided planning grants in order to develop plans for a Federal-State partnership to cover all of their citizens with health coverage. I think that is a major breakthrough; and I hope it leads to ending the abomination in this country, the moral abomination of having some 40 million people in this country without health insurance.

But I am still going to oppose this bill despite all of those features because someone, I believe, has to stand for the institutional need to present budgets in a forthright way.

Three years ago, when the executive and legislative branches of Government agreed on a budget deal, I called it a public lie. I said, if it was not a public lie, it was at least a giant public fib, because it was promising that Congress would live by spending levels that, in fact, it would never live by. And history has demonstrated that to be correct.

Last year, Congress spent \$35 billion more than that budget agreement provided; and this year it is spending much more than that before the limits. Some of that spending is outrageous, and some of it is perfectly defensible.

I do not so much object to some of that spending as I object to the fact that the Congress, in my view, is simply lying about it and pretending that it is not taking place. That, I think, is an even more fundamental problem.

It is clear to me that, in the end, after all of their initial efforts to cut all of the priorities that the President has been fighting for, it is clear that the Republican majority in this House,

in order to get out of town, was willing to give the President virtually everything he asked for in spending so long as we would adopt accounting fictions that would hide what, in fact, we were doing. And that is the honest truth.

So, Mr. Speaker, I will vote against this. I understand there are many good things in the bill, and I am proud to have helped negotiate some of them. But, in the end, I believe that next year we are going to come back here with the budget problem being fundamentally worse because of the fictions we have in this bill.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Virginia (Mr. BLILEY), the chairman of our Committee on Commerce.

Mr. BLILEY. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I rise in strong support of this bill. There are a few items in particular that I would like to highlight from the Medicare provisions of this bill.

First, it directs a significant amount of new monies toward hospitals. This includes more funds for small, rural hospitals and for patients who receive cancer treatments, those most in need of assistance. Congress cannot allow these hospitals, which serve an important role in our communities, to close their doors.

Additionally, we provide new monies for the Medicare+Choice program. This vital program gives seniors the option to choose a private health plan instead of remaining in the traditional Medicare program.

I am also proud to have strengthened this bill by including \$150 million to pay for immunosuppressive drugs for transplant patients. Medicare currently only covers these drugs for 36 months. Through our work in the Conference Committee, however, we have ensured that organ transplants will have greater access to these life-saving drugs for a longer period of time. Access of these drugs to patients could literally mean the difference between life and death.

Finally, this bill dedicates more funding for community health centers and rural health clinics, for S-CHIP, and also for State outreach efforts for former welfare recipients.

Mr. Speaker, I rise today in strong support of the "Medicare, Medicaid and S-CHIP Balance Budget Refinement Act of 1999." This bill restores needed funds to hospitals, nursing homes, managed care providers, and home health agencies most seriously impacted by changes made in the Balanced Budget Act of 1997.

The Conference Report, included in this omnibus bill, reflects many hours of hard work in the House and the Senate. I want to particularly commend the efforts of Members of the Commerce Committee, Ways and Means Committee and the Senate Finance Com-

mittee. I am pleased that we were able to come together and craft this bill—there is much to be proud of in the legislation.

Congress made some very important changes to the Medicare and Medicaid programs when it passed the Balanced Budget Act. The Medicare program was facing bankruptcy and seniors' choice of private health plans and providers was limited. The Balanced Budget Act changed that and helped ensure the vitality of this program for years into the future.

In that legislation, the Commerce Committee also helped create the State Children's Health Insurance Program—otherwise known as S-CHIP—to provide health coverage for millions of low-income uninsured children. It was historic legislation and I am very proud of it.

But in some areas we all went a little too far. Now we are doing the right thing by going back and refining some of the policies put into effect by the BBA to address some of the unintended consequences of that legislation.

Mr. Speaker, I'm proud of the work the Committees in both chambers put into this bill. I know it enjoys wide bipartisan support and deserves the support of all my colleagues.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I thank the gentleman for yielding the 1 minute.

Mr. Speaker, I am here to point to that portion of the deal that deals with seniors and the disabled in the Medicare section. This would not have happened without a bipartisan, cooperative effort.

I especially want to thank the staff: Ann Marie Lynch and the majority committee, Bill Vaughn, for his willingness to maintain confidentiality as we worked on this; the commerce staff, especially the members of the Subcommittee on both Ways and Means and Commerce; chairmen of the full committee, the gentleman from Texas (Mr. ARCHER) and the gentleman from Virginia (Mr. BLILEY), who just spoke; my friends and colleagues, the gentlewoman from Connecticut (Mrs. JOHNSON) and the gentleman from Louisiana (Mr. MCCRERY), without which the congressional portion would not have been put together.

I want to thank Chris Jennings from the White House, Nancy Ann MinDeParle at the Health Care Financing Administration and Bonnie Washington.

Details of the Medicare measure can be found at TND.house.gov. This lays the groundwork for next year.

Republicans brought prevention in Medicare in 1997. We brought refinement this year. And working in a cooperative way, as evidenced by my friend the gentleman from Maryland (Mr. CARDIN), the gentleman from Wisconsin (Mr. KLECZKA), and other Democrats, we can move forward in modernizing Medicare next year as well.

I want to thank them all. There is no reason in the world why my colleagues should not vote yes on this measure.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Wisconsin (Mr. RYAN).

Mr. RYAN of Wisconsin. Mr. Speaker, I thank my colleague from Wisconsin for yielding 1 minute to me.

The previous speaker said there should be no reason to vote against this bill. I will give my colleagues one darn good reason why we should not vote for this bill, because this bill contains within it anti-dairy provisions which go right to the bottom line of the dairy farmers in the upper Midwest.

I really do applaud this Medicare provision. I would like to thank the gentleman from California (Mr. THOMAS), the chairman of the Subcommittee on Health, for including very important Medicare language which helps southern Wisconsin Medicare beneficiaries.

But what this legislation includes is legislation that has not even passed through the House of Representatives or through the United States Senate which goes right to the bottom line of the dairy farmers in the upper Midwest.

Mr. Speaker, I implore my colleagues, let us bring this legislation down the pike on regular order, not tack it on this ugly Christmas tree as a big ugly ornament.

This legislation is not fair for our dairy farmers. This legislation takes them and puts them at a competitive disadvantage against all other farmers in the country. And it revokes the free market principles that we were elected to protect.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1½ minutes to the gentleman from New York (Mr. GILMAN), chairman of the Committee on Foreign Affairs.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I am pleased to rise in support of this omnibus bill. I commend the House leadership, the majority leader, the majority whip, in addition to the Committee on Appropriations chairman, the distinguished gentleman, for their untiring efforts to finalize the conference report on the H.R. 3194 and for their willingness to include it in certain important authorization measures. I also extend thanks to House staffers Bill Inglee, Brian Gunderson, and Susan Hirschman for their diligent efforts on our behalf.

In particular, this package includes the authorization for the important U.N. reform and arrears payment package as well as other significant programs, such as the 5-year authorization for a greatly enhanced embassy security program to protect American personnel and facilities abroad and a 10-year authorization for Radio Free Asia.

The legislative vehicle by which this is accomplished is the inclusion of H.R. 3427, introduced by the distinguished gentleman from New Jersey (Mr.

SMITH) of the Subcommittee on International Operations and Human Rights; the gentlewoman from Georgia (Ms. MCKINNEY), the ranking Democrat on that subcommittee; and the gentleman from Connecticut (Mr. GEJDENSON), the committee's ranking member; and myself.

H.R. 3427 reflects the House and Senate agreements that were reached on H.R. 2415 and S. 886, the Senate amendments to H.R. 2415. This compromise measure also accommodates numerous requests of the administration. The House Committee on International Relations worked diligently to produce a bipartisan bill in concert with our colleagues on the Senate Foreign Relations Committee.

I thank the leadership of the Committee on Appropriations, and I urge my colleagues to fully support this omnibus measure.

The SPEAKER pro tempore (Mr. HANSEN). The gentleman from Florida (Mr. YOUNG) has 9 minutes remaining, and the gentleman from Wisconsin (Mr. OBEY) has 8½ minutes remaining.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Wisconsin (Mr. GREEN).

Mr. GREEN of Wisconsin. Mr. Speaker, I thank the gentleman for yielding me the time and for his leadership on the issue that he and I are joined together on, and that is dairy.

I must reluctantly urge my colleagues to vote against this bill today because of the dairy provisions that it contains.

It is real important to understand what has not happened today with the inclusion of these provisions. We have not done one thing to help dairy farmers in this Nation. We have not addressed the fact that most of the dairy farmers that we are losing in this Nation we are losing in the upper Midwest. In my home State, we are losing five each and every single day.

We have not addressed the fact that many of the Nation's largest co-ops are gouging our dairy farmers, underpaying them. And we have not taken one step away from the Soviet style dairy system that has ruled this country since 1937.

Because of what this bill does not do in dairy, I must reluctantly urge a no vote.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from New York (Mr. WALSH), the very distinguished chairman of our Subcommittee on VA, HUD and Independent Agencies.

Mr. WALSH. Mr. Speaker, congratulations to the chairman. We did it. We balanced the budget, as we said we would. We cut the national debt by over \$100 billion with this budget, as we said we would. And we did it without touching the Social Security trust fund for the first time in this half century.

Remember back in his State of the Union address, the President promised

to spend 38 percent of the Social Security trust fund for the surplus for Social Security. We said, no, Mr. President, we want 100 percent of that surplus. And that is what we did. We gave our troops in the field a good solid pay raise, and they deserve it.

Let me say, Mr. Speaker, on dairy, it would be terribly wrong for us to harm 75 percent of the farmers, the dairy farmers in this country by supporting the Glickman-Clinton dairy proposal. It is wrong for the country. The Congress is on record opposing that legislation.

What is in this bill was supported by 380 Members of the Congress. This is good legislation. I urge my colleagues to support it.

□ 1645

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Pennsylvania (Mr. GOODLING), chairman of the Committee on Education and the Workforce.

Mr. GOODLING. Mr. Speaker, I thank the gentleman for yielding me this time. I rise to again indicate that the President did not win on education in this legislation, the chairman of the Committee on Education and the Workforce did not win in this legislation. The children in this country won in this legislation. Above all, the children who are most disadvantaged won, thanks to the gentleman from Illinois (Mr. PORTER) and the gentleman from Florida (Mr. YOUNG).

When we were able to show the administration that 50 percent of teachers in many of the cities including New York are not certified or qualified, agreed there is no reason to send not one more teacher into that area, we better improve the teachers that are there. This happens all over the country. Therefore, they decided that 100 percent of this money, they agreed with us, could go for teacher preparation and teacher training for those that are already existing.

We also indicated that overall, 25 percent of the money could be flexible for teacher preparation. We also indicated that to those schools, 7,000 of them in title I that are in schools improvement who have not improved even in 4 years' time, the parents have the opportunity to say, we go to another public school within that district where they are not a failing school.

I want to also include that we wipe out Goals 2000 in the year 2000. We wipe it out in the year 2000 and gave a lot of money for special ed, which is very important.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the distinguished gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. I thank the gentleman for yielding me this time.

Mr. Speaker, addressing the abortion compromise on Monday in Ankara,

Turkey, our distinguished Secretary of State, Madeleine Albright said, and I quote, "we do believe it will have a minimal effect on family planning." She went on to say "the compromise will allow the President to carry out U.S. family planning policy around the world."

I agree wholeheartedly with the Secretary of State. In fact, the pro-life side has always argued that the Mexico City Policy has no effect on those family planning organizations that divest themselves from the grisly business of abortion. The compromise provides that at least 96 percent of all the money used for population purposes—that is about \$370 million—will be subjected to the Mexico City safeguards that prohibit foreign nongovernmental organizations from performing abortions in foreign countries, from violating abortion laws of those countries, or from engaging in activities in efforts to change or alter those laws. If the President chooses, he can waive the restrictions for up to \$15 million in that account.

I am very pleased, Mr. Speaker, that H.R. 3427 is also enacted by this Act. It is the product of our Subcommittee on International Operations and Human Rights. It is in essence, a bill passed by both Houses.

Mr. Speaker, addressing the abortion compromise on Monday in Ankara, Turkey, our distinguished Secretary of State, Madeleine Albright, said, "We do believe" it will have a "minimal effect on family planning" and that it, the compromise, "will allow the president to carry out—U.S. family planning policy around the world."

I agree wholeheartedly with Secretary Albright. In fact, the pro-life side has always argued that the Mexico City policy has no effect on those family planning organizations who divest themselves from the grisly business of abortion. Abortion is violence against children. Abortion dismembers or chemically poisons innocent children. It is not family planning. The compromise language before us today narrowly focuses on those organizations that advertise themselves as family planning groups, but promote and/or perform abortions in other countries.

Let me reiterate in the strongest terms possible, this controversy has been, and is, all about the performance and promotion of abortion overseas, and not about family planning per se. The compromise provides that at least 96% of all the money used for population purpose—that's about \$370 million—will be subject to the Mexico City safeguards that prohibit foreign non-governmental organizations from performing abortions in foreign countries, from violating the abortion laws of these countries, or from engaging in activities or efforts to change these laws. If the President chooses, he can waive the restrictions on up to \$15 million in the account (4%). The abortion compromise language is far from perfect, it is a compromise but it is significant. The effect of the waiver is that up to \$15 million would then be able to go to foreign organizations that did

not make the Mexico City certifications with respect to performing abortions, violating abortion laws, and engaging in activities or efforts to change abortion laws. But this option comes with a consequence—\$12.5 million will be transferred from the population account to the Child Survival fund for activities that have measurable, direct, and high impact on saving the lives of children in the Third World.

On the negotiations with the White House, there was give and take—the compromise is the result of a good faith effort to resolve difficult and complex issues. Neither side got everything it wanted. On balance, however, this bill represents a major step forward for the protection of unborn children around the world—without endangering genuine family planning activities.

Mr. Speaker, I am also pleased that this bill enacts by reference the provisions of H.R. 3427, the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000–2001, which I introduced along with Representatives CYNTHIA MCKINNEY, BEN GILMAN, and SAM GEJDENSON. I insert at this point in the RECORD an agreed statement of the legislative history of H.R. 3427.

LEGISLATIVE HISTORY OF H.R. 3427, THE ADMIRAL JAMES W. NANCE AND MEG DONOVAN FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL YEARS 2000–2001

Mr. Smith of New Jersey: Mr. Speaker, the conference report on H.R. 3194, the District of Columbia Appropriations Act, Fiscal Year 2000, incorporates and enacts by reference H.R. 3427, the Admiral James W. Nance and Meg Donovan Foreign Relations Act, Fiscal Years 2000–2001, which I introduced yesterday, November 17, 1999, along with Representatives Cynthia McKinney, Ben Gilman, and Sam Gejdenson.

Let me state for the record that H.R. 3427 is a compromise between H.R. 2415, the American Embassy Security Act, as passed by the House, and the Senate amendment to H.R. 2415, which incorporates the provisions of S. 886, the James W. Nance Foreign Relations Authorization Act. H.R. 3427 is a substitute for a conference report or an amendment between the Houses to resolve the differences between the House and the Senate versions of the bill.

The text and the Statement of Managers of H.R. 3427 (which appears in the explanatory statement to the conference report on H.R. 3194) were agreed upon by Mr. Gilman and Mr. Gejdenson, as well as by myself and Ms. McKinney—the Chairman and Ranking Minority Members, respectively, of the committee and subcommittee with jurisdiction over the bill in the House. In the Senate, the Statement of Managers of H.R. 3427 has the concurrence of a majority of the conferees appointed by the Senate for H.R. 2415.

The original Senate version of H.R. 2415, S. 886, was reported by the Committee on Foreign Relations on April 28, 1999 (S. Rept. 106–43) and passed the Senate, amended, on June 22, 1999 by a vote of 97–2.

H.R. 2415 passed the House, amended, on July 21, 1999. It was not reported by our Committee but was sent directly to the floor by action of the House pursuant to the special Rule. H.R. 2415 was a successor to H.R. 1211. H.R. 1211 was reported by the Committee on International Relations on March 29, 1999 (H. Rept. 106–122).

The legislative history of H.R. 3427 in the House is the legislative history of H.R. 2415

and H.R. 1211 in the House as far as is applicable. Similarly, in the Senate the legislative history of H.R. 3427 is the legislative history of S. 886.

The Foreign Relations Authorizations Act contains important provisions relating to the security of United States embassies and overseas employees, to human rights, to refugees, and to the activities of the States Department. I am particularly proud that the bill provides \$12 million for the Bureau of Human Rights, Democracy, and Labor. It is scandalous that the State Department currently spends more on its public relations bureau than on the human rights bureau, and this legislation will put an end to that scandal. The bill also authorizes \$750 million for refugee protection—unfortunately, far more than the Administration requested or than has been appropriated for FY 2000—but we will work to get the request and appropriations for FY 2001 up to the mark in the Authorization Act.

Mr. Speaker, the Foreign Relations Authorization Act (H.R. 3427) also contains important United Nations reforms—standards to which the United Nations must live up in order to receive the amounts provided in the settlement of the dispute over arrearsages. It authorizes \$4.5 billion over five years for Embassy construction and improvement so as to reduce dramatically the vulnerability of our overseas facilities to terrorism, and provides strict conditions to make sure the State Department really spends the money on security instead of any other preferences it might have.

Mr. Speaker, H.R. 3427 ensures that as the United States Information Agency is folded into the State Department, the international information programs of USIA will not be converted into domestic press offices or propaganda organs. It requires that U.S. educational and cultural exchange programs provide safeguards against the inclusion of thugs and spies from dictatorial regimes and to increase the opportunities for human rights and democracy advocates to participate in these programs. (One of the requirements is that we conduct no further police training programs for members of the Royal Ulster Constabulary until we have in place vetting procedures to exclude participation by RUC officers who participated in or condoned serious human rights violations, such as the murders of defense attorneys Patrick Finucane and Rosemary Nelson.)

Mr. Speaker, this bill makes clear that Congress expects important reforms in our Vietnamese refugee programs for allied combat veterans, former U.S. government employees, and their families. It continues a requirement of current law that the programs the United Nations Development Program conducts in Burma be conducted in consultation with the legitimately elected pro-democracy authorities in that country, and that these programs must serve the interests of the brutal military dictatorship that currently holds power in Burma. The bill also provides funding for UNICEF, the United Nations Voluntary Fund for Victims of Torture, the World Food Program, for the Tibet, Burma, East Timor, and South Pacific Scholarships, and for other programs which will promote American interests and American values around the world.

Mr. YOUNG of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. BARTLETT).

Mr. BARTLETT of Maryland. Mr. Speaker, I thank the gentleman very much for yielding me this time.

The Government Accounting Office, the Congressional Research Service, and the Pentagon have all complied with requests from the Congress or complied with law to document the amount of money that we have spent on legitimate U.N. peacekeeping activities. The total amount of money is at least \$17.1 billion since 1992.

Now, the U.N. has legitimized that accounting because they have credited us with \$1.8 billion of that against past dues. But regrettably this legislation that is before us gives the United Nations nearly \$1 billion of taxpayers' money, in spite of the fact that the GAO, the CRS and the Pentagon itself have documented that the U.N. owes us at least \$15 billion. This is a travesty that I hope future legislation can correct.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself 30 seconds. I just wanted to point out that there has been talk about winners and losers and victories and defeats. I would like to just make this point. I was very impressed by one visit to President Reagan's Oval Office. He had a sign there, and I will paraphrase it because I do not remember it exactly, but it goes like this: It's amazing what can be accomplished if you don't care who gets the credit.

That is how we have tried to work through this entire appropriations process, without demanding or claiming credit for any one of our appropriators. We just get the job done. We believe that we have produced a good product here that would be acceptable to the American people and should be acceptable to the Representatives in the House.

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the distinguished gentleman from New York (Mr. FORBES), a member of the committee.

Mr. FORBES. Mr. Speaker, I thank the gentleman for yielding me this time. I come to the floor today severely grieved and sad because the old ways of Washington continue to prevail. The men and women we serve with here today are honorable people, but the process is dishonest. I think that those of us who came here in 1995 as part of the crowd that was going to end these megabills, these omnibus spending bills, catch-all bills that were thrown in with all kinds of pork, all kinds of spending, this is a dishonest process. I lament that. \$385 billion on this floor right now passed by agreement last night at 4 o'clock in the morning. We should be ashamed, because we are upholding the old ways of Washington, the Washington math, dishonest. We are going home, and we are

telling people that we did not spend the Social Security surplus. It is a bald-faced lie. Each one of us knows that. We should be ashamed.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Wisconsin (Mr. BARRETT).

Mr. BARRETT of Wisconsin. Mr. Speaker, I rise in opposition to this bill. I just have to comment on the dairy part of this bill. We have people in this chamber who sing the praises of free trade with countries all over this world. Yet this chamber refuses to allow free trade in our own country. There is only one product, milk, only one product in this entire economy where the price of the product is dependent upon where it is made. That is wrong; that is a Soviet-style economy and everyone here knows it. The President did the right thing. The President tried to reform this system. Yet the Republican leadership in this House refuses to allow those market reforms to go into place. It is an embarrassment, and it is causing consumers all over this country to pay more for their milk. This bill should be defeated.

Mr. OBEY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, first of all with respect to the dairy provisions, I would like to publicly thank President Clinton for his personal efforts to salvage dairy reform and keep nongermane dairy riders off this appropriation bill. I also want to thank Secretary Glickman for twice trying to bring some degree of modernization to the 1937 milk marketing practices which have long since outlived their usefulness. I understand that given all the other items in the bill, the President cannot veto the bill over that; but I do appreciate very much the fact that he and his staff went to the well to try to help us when we really needed their help.

Let me say, Mr. Speaker, that I think I should explain the motion to recommit. In large part due to the unrealistic budget caps established in the 1997 budget act, both parties agreed early on this year that the budget request for veterans medical care was inadequately funded. The Republican budget resolution this year called for an additional \$1.7 billion for veterans medical care, but that increase was for fiscal 2000 only.

The next 4 years of the Republican budget plan assumed that veterans health care would decline to a level below that of last year. The Democratic alternative budget provided not only for the additional \$1.7 billion in fiscal 2000, it continued that increase in future years. In total, the Democratic budget provided about \$8 billion more for veterans health expenses than the Republican resolution that passed.

When the VA-HUD subcommittee first marked up the fiscal 2000 bill, it ignored the guidance of the Republican budget resolution. It provided only the

1999 level with virtually no increase. After the hue and cry from veterans groups and the indication from the administration that it would be submitting a budget amendment for an additional \$1 billion for veterans health care, the majority added \$1.7 billion above the original request.

Both in full committee and on the House floor, the gentleman from Texas (Mr. EDWARDS) tried to add \$700 million more in veterans medical care by delaying for 1 year the effect of the Republicans' capital gains tax cut. We were rebuffed procedurally by the majority at every turn on that, with the argument that an appropriations bill could not be merged with tax measures. Let me point out today to my colleagues that this omnibus bill today contains several tax measures. So despite the availability of valid provisions that would have provided offsets negating the need for the across-the-board cut in this omnibus measure, the majority has once again decided to take an action which would provide veterans health care less than I believe they need.

Therefore, our recommittal motion will be very simple. It will simply recommit the bill to the committee on conference with instructions that House managers not agree to any provision whatsoever which would reduce or rescind appropriations for veterans medical care. In other words, it would eliminate the \$72 million reduction in the Republican budget for veterans health care. It would restore that \$72 million. I would urge Members to vote "yes" on the motion to recommit.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield the balance of my time to the hard-working, straight-talking, straight-shooting Speaker of the House, a great leader, the gentleman from Illinois (Mr. HASTER).

Mr. HASTER. Mr. Speaker, I thank the gentleman from Florida for yielding me this time.

I do not have to tell my colleagues that it has been a long and often challenging road to get us to this point. Today, we have before us a good bill, a fair bill, a bill that reflects our priorities as a Congress and reflects our priorities as a Nation.

When I took over this job a little less than a year ago, I said the appropriations process needed to be a process that we sent the 13 bills. After we moved through the process of the committee and we sent them to the White House and the President has the chance of signing those bills or vetoing those bills, and if he chooses to veto, give us the message and send the bill back and we will work it.

We have done that. Every one of these pieces of legislation have gone through the process. Now we are back. We are dealing with the five bills that

the President decided to veto. And over a long period of time, and working with the White House and working with our colleagues on the other side of the aisle, we have pieced together what we need in this Nation to make this Nation work on an appropriations process for the next fiscal year.

For the past 30 years, our government has taken money out of the pockets of seniors and spent it on more wasteful Washington spending. Last February, our majority pledged to stop this raid on Social Security Trust Funds, and in this bill we have. Stopping the raid on Social Security is not just good news for our seniors, it is good news for our children who unfairly have been burdened with the national debt and paying the interest on that debt year after year, not only now but way into the future.

□ 1700

With this bill's passage today, we will be on target to pay down \$131 billion of national debt in this fiscal year. When I arrived in Congress in 1987, the idea of passing a budget that would actually pay down \$130 billion worth of debt would have been laughable, and even 5 years ago the thought of debt reduction was just that, a thought, but now it is a reality.

This bill also represents a huge victory for those in this chamber who have spent many years fighting for local control of Federal education dollars. We had a long debate with the White House, and the White House wanted more teachers, and we put \$300 million more in for education than the White House asked for. But with that we asked, let us give our local school districts, let us give our parents, let us give teachers and let us give superintendents and those people we ask to take care of our local schools the flexibility to do the work that they have to do.

We did that in this bill. Working with the White House and the good work of the gentleman from Pennsylvania (Mr. GOODLING), we got the flexibility, even in the teacher bill, so teachers would be there, we would have the people to do the discipline and do the teaching and do the work, but if we did not need teachers, we could use that money to lift up the level and capability of the teachers we already have.

The debate over education has now changed. Instead of arguing about whether there should be local control of education dollars, we are now debating about how much local control there should be. There is money in this bill that can be used to hire more teachers and lower classroom size, but there is also flexibility in this bill. Parents and teachers will have more freedom to use this money as they see fit. Keeping more dollars and decisions in our classrooms is a victory for this Congress and a victory for our children.

This bill also takes a very important first step in eliminating government waste. Every year our government spends billions and billions of dollars, and we are saying in this bill, let us take 38 cents out of every \$100 that the Federal Government spends and find waste and abuse. I think that is doable, and I think next year we ought to do the same thing, over and over again, because that is what the American people expect us to do.

The across-the-board spending cut in this bill will force the agencies of government to take a close look at their budget and see what frivolous spending can be eliminated. Taxpayers deserve to have their money spent responsibly, and this bill will save the American taxpayers from over \$1 billion in excess spending.

I would like to take this opportunity certainly to thank the gentleman from Florida (Chairman YOUNG), and to thank the subcommittee chairmen on the various appropriations committees, and to thank the gentleman on the other side of the aisle who has led a gallant fight and an honest and straight fight for what he believes is right.

We do not put legislation like this together just at a whim. It takes a long time. It takes people standing up for their principles and their ideals. Sometimes we have different principles and we have different ideals; but at the end, we have a product that we can stand up for, that we can vote for, that we can be proud of.

It is amazing to think about what this bill actually does. It stops the raid on Social Security, it keeps the budget balanced, it pays down our national debt and it gives parents and teachers more control and better benefits to our children. It was not too long ago that these accomplishments were nothing more than broad goals.

So I encourage my colleagues to vote for this agreement, and let the American people know that this Congress is committed to fiscal discipline and sound policy, and as we open up the new millennium, the Year 2000, we can promise our seniors that their pension funds are secure, that their Social Security funds are secure, and our children are not going to have to pick up the interest on our debt that we have piled on their shoulders over the past years.

I ask for support on this bill.

Mr. STARK. Mr. Speaker, the DC Appropriations bill is the shell in which the Republican leadership has chosen to place the legislative kitchen sink, so the speak. This bill includes a myriad of provisions that have nothing to do with the District of Columbia—Interior Appropriations; Labor-HHS Appropriations; a Satellite Home Viewers Act; certain dairy provisions and, the bill about which I am here to speak today: The Medicare BBA Refinement Act.

The Medicare BBA Refinement Act is a sweet and sour bill—it has good features and bad features.

First, the good features. The move toward prospective payment systems is continued. The arbitrary \$1500 caps on rehabilitation services have been lifted for two years while we develop a better payment system. Medicare's coverage of immuno-suppressive drugs for transplant patients has been extended 8 months. Patients in hospital outpatient departments are protected against ever having to pay more than a single day's hospital deductible for the cost of the outpatient procedure. Today, patients face out-of-pockets costs \$2000 to \$3000 for certain outpatient procedures. Now, their costs will be limited to about \$776.

And, I want to commend Chairman THOMAS for a bill which did not give away the future of Medicare. The lobbying pressures have been enormous. It would have been easy to bring forth a \$30 or \$40 billion bill. The bill is limited and generally—with some exceptions—directs its spending to the areas where there is the most evidence that some adjustment is needed.

Nevertheless, I voted against the bill when it first passed the House, because it was not paid for and thus shortened the life of the Medicare Trust Fund about a year, and increased beneficiary Part B premiums by at least 50 cents a month.

It still is not paid for—and now reduces solvency by more than a year, and increases beneficiaries' costs by several billion dollars over the next five years, increasing premiums about a dollar a month. It spends about \$16 billion of the Social Security surplus over the next five years, and \$27 billion over ten years.

It didn't need to be this way. In the \$212 billion a year Medicare program, there is fraud, waste, and abuse, and we could have saved several billion a year to pay for the relief that some providers needed.

I am most disappointed about the budget games that were played on the 5.7 percent hospital outpatient department issue—which is a \$4 billion gift to hospitals. When the BBA passed, we meant to reduce payments to hospitals which had been shifting overhead costs to outpatient departments. It is the rankest Orwellian revisionist history to claim otherwise. But revisionist history is what has happened. So that neither the White House nor the Congress would be charged for the \$4 billion gift, there has been an exchange of letters in which no one is 'scored' for the cost of spending \$4 billion more. It is like manna from heaven, a miracle for which no one is responsible and no one has to pay.

Mr. Speaker, it is all phony, it is all a distortion of the budget process. The give-away to hospitals does cost money; \$1 billion will come from seniors. Therefore, we should have been honest and paid for it. It is money that will not be available to save Medicare. It is money that comes out of the Social Security surplus. And that is the truth.

Mr. Speaker, this kind of dishonest budget game destroys faith and trust in government. Its true cost is much more than the \$4 billion gift to hospitals.

There are other bad features. There is absolutely no hard proof that some of these pro-

viders need more money. In many cases, the Congress has just been rolled by lobbyists and major contributors.

Standards for Medicare managed care plans have been weakened. We continue to grossly overpay HMOs. The HMO industry that we beat in the Patient Bill of Rights has crept in the backdoor of this bill to weaken consumer protections and receive \$4 billion dollars in overpayments.

I would vote no if this were a free-standing bill based on its merits alone. That decision is made even easier by the process used here today which compiled all of these unrelated, important bills into one gaint package in order to try to force members of Congress to vote yes. Well, that theory doesn't work on everyone. I vote no.

Mr. CROWLEY. Mr. Speaker, I rise today to talk about the DC Appropriations/Omnibus budget Conference Report. This conference report is a vast improvement over previously vetoed appropriations bills, yet in some instances falls, in my opinion, short of where we should be. I will support this legislation as it is a true compromise and will bring many benefits to the citizens of this country, funding valuable programs while having the small 0.38 percent across the board budget cut. While I believe this bill to be fiscally responsible, it does nothing to extend the life of Social Security. I strongly encourage the Republican leadership to bring up legislation early next year to extend the life of Social Security by ensuring its solvency.

The Omnibus covers much ground and I would like to touch on several important issues to my constituents. In the areas of Health and Human Services and Education, I feel it is important to highlight the support this Omnibus gives to our nation's teachers and our education system; to AIDS funding and NIH research in general; to family planning services; and to Medicare payment relief for our hospitals.

Overall, the Omnibus provides \$39 billion for education programs. This is a 7 percent increase over Fiscal Year 1999. Importantly, the Class Size Reduction Initiative remained intact. The controversy about this program led to the President's veto of previous Labor/HHS appropriations bills. However, the \$1.3 billion appropriated for class size reduction will in large part remain designated for that purpose. School districts will be permitted to use up to 25 percent of the funds for professional development, an increase over last year. Nonetheless, the majority of funding will remain targeted for its intended purpose—reducing the sizes of our children's classes. This funding was imperative for schools in my district and in New York City. Last year, New York City used its funding under the class size reduction initiative to fund the full salaries of 808 new teachers and to partially fund the salaries of an additional 788 early grade teachers. Had there been no funding for class size reduction, the city would have been unable to retain more than 1500 teachers. This is important in my district, which contains the most overcrowded school district in the city, CSD 24, operating at 119 percent over capacity. Overall, the funding New York City receives will reduce the class sizes for approximately 90,000 students—27 percent of its K-3 enrollment.

While this is nowhere near enough—it is an important first step in improving the education for all K–3 children in New York City and across the country.

Another important program that this Omnibus funds is the 21st Century Community Learning Centers. This agreement appropriates \$453 million for after-school centers, \$253 million more than last year. After school centers are vital to keeping our children off the streets.

Our communities and schools are facing the fact that most families need to have two parents working full time to provide for their children. This leaves as many as 15 million school-aged children without supervision from the time school ends until the time their parents arrive home from work. After-school programs provide school-age children whose parents both work a supervised environment providing constructive activities. Such a structured setting makes these students less likely to use alcohol, drugs, and tobacco, commit crimes, receive poor grades, and drop out of school. No one in my district, or in the nation, wants to see children go home to empty houses or apartments, or worse yet, succumb to anti-social activities on the street.

The 21st Century Community Learning Centers program allows schools to address the educational needs of its community through after-school, weekend, and summer programs. After school programs enable schools to stay open longer, providing a safe place for homework centers, mentoring programs, drug and violence prevention programs, and recreational activities. Additionally, after school programs enhance learning, increase community responsibility, and decrease youth crime and drug use. I fully support the increase in Fiscal Year 2000 funding for the 21st Century Community Learning Centers program and only wish there was more funding to enable more schools to provide this much needed service to our communities.

The Omnibus also increases funding for Head Start programs by 13 percent, bringing funding for Fiscal Year 2000 to \$5.3 billion. As you know, Mr. Speaker, the Head Start Program was instituted in 1965 and has been reauthorized through 2003. Head Start funds are provided directly to local grantees and the programs are locally designed and administered by a network of 1600 public and private non-profit agencies. Head Start has been an unequivocal success. A 1995 report by the Packard Foundation presented evidence that high quality early childhood education for low-income children produces long-term educational, economic, and societal gains. I have one such program in my district, The Little Angels Program run by the Archdiocese of the Bronx, which exemplifies the mission of the head start program and success of the Head Start program. Little Angels provides comprehensive early childhood development, education, health, nutrition, social and other services to low income preschool children and their families. I applaud the leadership for continuing to support this essential early education and development program.

Under Health and Human Services programs, we once again expressed our support for the research being done by the National Institutes of Health, as well as AIDS programs

and family planning. Overall, the Omnibus provides a 15 percent increase over Fiscal Year 1999 for NIH, bringing its funding to \$17.9 billion. This majority of this money will be seen by NIH researchers this year, rather than being until September 29, 2000, as originally reposed by the Republican leadership. Imagine the impact of not funding research projects for almost an entire year. A year without cancer research, diabetes, lupus, this list goes on and on. Every day important break-throughs happen, and I am happy the Republican leadership did not sacrifice health research to balance the budget.

I am also heartened by the support for Ryan White AIDS program, which will receive \$1.6 billion in funding, a 13 percent increase from last year, and \$44 million more than the last Labor/HHS bill. We all know the battle we face against AIDS and HIV, the virus that causes AIDS. In 1998, the Center for Disease Control reported that 665,357 persons were living with the AIDS virus and CDC estimates that 650,000–900,000 American live with the HIV virus. Sadly, so far 401,028 individuals have not survived their battle with AIDS. However, we all know that due to lack of reporting or lack of knowledge on the part of individuals and states, that these numbers are low representations of the actual number of those living with HIV and AIDS.

In New York, the crisis is particularly acute. In 1998, there were 129,545 thousand reported AIDS cases and 80,408 reported AIDS deaths. New York City AIDS cases represent over 85 percent of the AIDS cases in New York State and 17 percent of the national total with 109,392 AIDS cases and 67,969 AIDS related deaths as reported in 1998.

My own Congressional District spans two Boroughs in New York City with rapidly growing AIDS cases. In the Bronx, the Pelham and Throgs Neck area covered by the 7th Congressional District has reported 3,045 AIDS cases and 1,957 deaths due to the AIDS virus in 1998. In Queens, a Borough with a rapidly growing population, there are 6,962 AIDS cases and 4,082 known dead from AIDS related causes as reported in 1998.

Sadly, this horrible disease has disproportionately affected minorities. The majority of individuals living with AIDS in New York City are people of color. African Americans are more than eight times as likely as whites to have HIV and AIDS, and Hispanics more than four times are likely. The most stunning fact I have read comes from the U.S. Department of Health and Human Services in October of 1998, when they reported that AIDS is the leading killer of black men age 25–44 and the second leading cause of death for black women aged 25–44. Together, Black and Hispanic women represent one fourth of all women in the United States but account for more than three quarters of the AIDS cases among women in the country.

I know we are making progress, Mr. Speaker. The number of AIDS cases reported each year in Queens and the Bronx is on the decline. This is in large part to the bipartisan commitment by the House of Representatives to funding research at NIH and programs through the department of Health and Human Services. Now that we have had breakthroughs in treatment of HIV and delaying the

onset of full blown AIDS, we must concentrate more of our effort on prevention and treatment programs. These programs are especially important for minorities, who are so disproportionately affected by this disease, and I fully support the inclusion of \$138 million for early intervention programs in this Omnibus bill.

In my District, there is an organization that is actively reaching out to the community, both in treatment and services for AIDS sufferers and preventative education for the community. Steinway Child and Family Services, Inc., serves many areas in Queens that are devastated by high incidences of AIDS. The majority of these people are low-income minorities who have historically received little, if any, assistance due to low levels of funding.

Steinway's CAPE program (Case Management, Advocacy, Prevention & Education) offers services to people who have contracted HIV, increases general public awareness of the methods of HIV transmission, and provides targeted outreach services to people considered "at risk." Steinway's Scattered Site Housing program located dwellings in Queens for homeless persons with AIDS and their families. It is currently the largest program of its type in the country. I am proud that this Omnibus includes \$50,000 in funding for Steinway's CAPE program.

Another area addressed by the Omnibus is family planning within Title X programs. On October 26, I sent a letter to President Clinton, signed by 53 of my colleagues, expressing our support for Title X of the Public Health Service Act, the only federal program devoted solely to the provision of high quality contraceptive care to almost five million low-income Americans. Title X has had a tremendous impact over the years on reducing rates on unintended pregnancy and abortion as well as improving maternal and child health. Primary care services provided by clinics receiving Title X funds range from contraceptive supplies and services to breast and cervical cancer screening, to anemia testing and STD/HIV screening.

I laud the Administration and the Republican leadership for appropriating \$239 million to the Title X Family Planning program. This is a \$24 million increase from last year. However, I must express my disappointment with the majority on adding a provision to the Commerce-Justice-State section of the Appropriations conference report, which allows physicians to refuse to "prescribe" contraceptives on the basis of moral or religious beliefs. This is in complete opposition to the provision passed by recorded vote in the FY 2000 Treasury Postal Appropriations that provides contraceptive coverage to federal employees covered by the Federal Employee Health benefits Plan.

Mr. Speaker, I also want to take a moment to address the measure which would give hospitals, nursing homes, home health care agencies and other health care providers relief from cuts in Medicare payments that were enacted in the 1997 Balanced Budget Act.

This agreement provides an estimated \$12.8 billion over five years in additional Medicare payments for hospitals, home health care agencies, managed care plans and other health care providers to help them restore the 5.7 percent cut in payments to hospital outpatient departments suffered as an unintended result of the Balanced Budget Agreement of

1997. Additionally, I am happy that the conference committee was able to remove the egregious provision in the House passed version that would have severely impacted New York City's teaching hospitals. Rather than take away much needed funds from teaching hospitals that are perceived as receiving a higher share of funds, the conference agreement reduces inflation adjustments for hospitals with high doctor training costs. This cut is less than the original Subcommittee bill, which in turn is less devastating to our hospitals. I urge Congress to revisit this issue in the next year.

Finally, this Omnibus bill will also fund a number of key environmental priorities while at the same time deleting several of the anti-environmental amendments that would have been detrimental to the health and quality of life of my constituents in Queens and the Bronx.

I salute the conferees for providing funding for the Land and Water Conservation Fund (LWCF). Although the Congress was unable to provide all of the resources requested by the White House, the approximately \$470 million allocated for land acquisition, preservation and conservation is a solid first step.

It is my hope that next year, we will be celebrating the passage of the Conservation and Reinvestment Act (CARA) which will provide even more badly needed funds for the Land and Water Conservation Fund, urban parks and historic and wildlife preservation. These additional resources will greatly assist the people of my district. As the only New York member of the House Committee on Resources, I will continue my responsibility to the people of my state in fighting for key environmental projects like the LWCF.

Further, I am pleased that the Urban and Community Forestry Program at the Department of Agriculture continues to receive stable funding under this measure. Over the last four years, the Urban and Community Forestry program (U&CF) has provided more than \$1 million to contain and prevent further tree loss associated with Asian Longhorned Beetle outbreak in New York City. That includes providing specially trained smoke jumpers to assist city foresters in checking the tops of trees for beetle infestation where they are more difficult to detect. U&CF has also provided technical assistance to help city officials plant and care for trees that are resistant to the beetle to prevent future outbreaks. We've lost over 1400 trees in Queens alone from the Asian Longhorned Beetle, with more trees being infested. This is why the Urban and Community Forestry program is so important. It aims to provide increased green space and shade for our urban residents.

Additionally, this bill does not include some of the more troublesome riders that were feared to be included in this Omnibus bill. Specifically, there are no restrictions on the ability of the State of New York or the Federal government to sue coal-fired power plants in the Midwest that fail to comply with major modifications provisions of the Clean Air Act.

Furthermore, I am pleased that an amendment I offered to the original Interior bill last summer pertaining to urban minorities and their ability to receive grants from the National Endowment for the Arts was included in this

final budget bill. My amendment would include urban minorities among the traditionally "underserved populations" who are given priority for services from the National Endowment for the Arts or awarding the NEA's financial assistance for projects and workshops that serve these communities.

My language specifies that "underserved populations" including African Americans, Latino Americans, Asian Americans, and other minority communities that are located in urban areas should have equal access to Federal arts funding.

This amendment will ensure that all Americans will have equal access to the arts and will fulfill the NEA's mission to guarantee that no person is left untouched by the arts. Projects targeted at urban youth will greatly help keep these young people off the streets, and away from the lure of drugs and crime. The arts also help to break down barriers, bring communities together, and offer hope.

In conclusion, Mr. Speaker, the positive funding increases outweigh the short amount of time and offsets of this Omnibus bill. Therefore, I support the measure and urge its passage by the House of Representatives.

Mr. CASTLE. Mr. Speaker, I rise today in support of the conference report to H.R. 3194, the FY2000 District of Columbia Appropriations Act. This legislation encompassing the five remaining appropriations bills for fiscal year 2000—the Commerce, Justice and State appropriations bill, the District of Columbia appropriations bill, the Foreign Operations appropriations bill, the Interior appropriations bill, and the Labor, Health and Human Services and education appropriations bill—is a good compromise that will address our Nation's domestic and foreign policy priorities while retaining fiscal discipline.

While I am concerned with the budget gimmicks that are being used to mask the size of the overall spending in this package, I will support the legislation because I believe that overall, this legislation will maintain a balanced budget and keep us on track toward budget surpluses in the future. This legislation represents an attempt to do something that other Congresses never attempted to do. By resisting the historic temptation to spend the Social Security surplus, we have changed the terms of debate in Washington. Future Congresses will now work to maintain a balanced budget and protect all of the Social Security trust fund surplus.

Following the 1994 election, Congress inherited a projected four-year budget deficit of \$906 billion. In response, Congress with a Republican majority, worked to limit the growth of Federal spending and the President joined us in the 1997 balanced budget agreement. Limits on the growth of Federal spending and the continued strong performance of our economy helped to produce a net surplus of \$63 billion in the Federal budget in fiscal years 1996 through 1999. In fiscal year 1999 the Federal Government enjoyed a \$123 billion surplus, and the surplus is growing as we begin fiscal year 2000. Congress has ended the discretionary spending frenzy of the late 1980's and early 1990's and Federal spending is more responsible today.

With the goal of protecting the Social Security trust fund surplus, Congress is holding the

line on expanding Government programs and is finally starting to pay down the national debt. We are accomplishing these goals while still meeting basic governmental responsibilities such as increasing Medicare payments to our hospitals and nursing homes by approximately \$12 billion over five years, increasing funding for education and health care programs, and paying the United States overdue commitments to the United Nations. This legislation meets the basic needs of our country in a responsible manner.

To help meet our goal of limiting the growth of Federal spending, his legislation includes a 0.38 percent across-the-board spending reduction which applies to all thirteen annual appropriations bill, saving taxpayers about \$1.3 billion. I support this type of "belt tightening." The Federal Government should find savings in every program to demonstrate to our constituents that the Federal Government can cut waste and operate more efficiently. I know from my days as Governor of Delaware that every government agency can and should be required to eliminate unneeded costs.

When Republicans became the majority party in Congress in January 1995, we promised to reform and improve our education programs to ensure that they help all children reach their full academic potential—regardless of their economic status or other personal challenges. According to the nonpartisan Congressional Research Service, in 1995 spending for elementary and secondary education programs totaled almost \$15 billion, with all Department of Education programs funded at \$32.3 billion (fiscal year 1995).

Since 1995, the House Education Committee, on which I serve, has worked to provide unprecedented accountability and flexibility in the operations of these programs. That effort paved the way for the bill the House of Representatives will consider today. I am pleased to report that this final appropriations bill provides \$21 billion for elementary and secondary education programs and \$39 billion for all Department of Education Programs—increases of 44 percent and 21 percent over fiscal year 1995 respectively.

Most important, this bill provides very generous funding for those programs that help all children receive a quality education. Specifically, it provides \$8.7 billion for Title 1, the program that helps educate our most disadvantaged students—an increase of \$265 million over fiscal year 1999. In addition, State grants for the education of children with disabilities are increased \$700 million over fiscal year 1999, bringing the total to \$5.8 billion. While this increase will not fully fund the Federal Government's share for the education of our disabled children, it will increase the per pupil contribution to 13 percent—the highest level in the history of the program.

In addition, this bill increases the maximum Pell Grant for low-income college students to \$3,300—\$175 over fiscal year 1999. Finally, it provides \$1.3 billion to help our local schools and school districts reduce class size but also provides the necessary flexibility to ensure that all teachers receive the training they need to impart a high quality education to our children.

This legislation also includes important funding for Health and Human Services programs,

such as Medicare, Medicaid, family support services and health research. As part of our ongoing commitment to double biomedical research in five years, the appropriations bill provides \$17.9 billion for the National Institutes of Health. This 15 percent increase over fiscal year 1999 will help ensure progress on all diseases, including diabetes and Alzheimer's. It also provides \$3 billion, nearly \$264 million more than fiscal year 1999, for disease prevention programs run by the Centers for Disease Control. This funding will help prevent those chronic illnesses that result in death and major disability.

Of particular importance to many of Delaware's hospitals, nursing facilities and other providers, this bill also incorporates the budget fixes of the Medicare Refinement Act. This language ensures that America's seniors will continue to receive high quality health care by correcting the funding concerns that inadvertently arose as the result of the Medicare reforms in the Balanced Budget Act of 1997.

I am particularly pleased to note that the annual Medicare rehabilitation therapy caps will be lifted entirely for the next two years. This will ensure that those with multiple ailments can get the treatment they need to fully recover while experts consider a better way to implement payment modifications that address the real needs of rehabilitation patients. I am also pleased to note that this bill increases access to cervical cancer screening through the use of pap smears. By increasing the Medicare reimbursement rate, we ensure that more women will get the screening they need to identify and treat problems before they become a threat to their health, their fertility or their lives.

I am disappointed that the compromise language in this bill does not reflect the Senate position on community health centers and the prospective payment system, as these organizations play an important role in the delivery of health care in Delaware. That said, I believe these changes are an improvement on current law and I hope that we can continue to move legislation to strengthen the delivery of services to our most at-risk populations.

This bill also goes a long way toward restoring protections for the environment that were absent when the Interior appropriations conference report passed the House without my support. Seven of the twenty-four anti-environmental riders added by the Senate were stripped and the remaining riders were significantly changed to reduce their threat to the environment. The congressional leadership was responsive to concerns I raised that Congress should not attempt to prevent EPA enforcement action against midwest electric utility companies whose emissions are polluting Delaware's air and water. The judicial system is fully equipped to give these companies their day in court to defend their actions. I am extremely pleased that this proposed rider was not included in the bill. Furthermore, the Interior appropriation bill increases funding for our national parks, our national wildlife refuges, and restoration efforts in the everglades. Finally, the Interior bill contains funding for a program of particular interest to Delaware—the stateside land and water conservation fund, which provides Delaware with funding for its state parks and environmental land acquisition programs.

One of the weaknesses of this package is in the Commerce, Justice, State appropriations bill. I opposed this bill when it passed the House because it designated \$4 billion in funding to conduct the 2000 census as "emergency" spending that is not subject to the annual spending limits. Although an accurate census is important, it is not a true unanticipated emergency like a hurricane. Congress should responsibly budget for this and all future censuses. This budget gimmick led to a 7.8 percent increase in spending on this bill—far too much for a single year increase. Despite this short coming, I am pleased that the bill provided increased spending on anti drug programs, legal aid programs for the poor, and programs to combat violence against women.

Another highlight of this bill was its attention to the needs of farmers in the northeast. The bill provides additional funds for farmers affected by natural disasters, such as flood damage from Hurricane Floyd and crop loss from this summer's drought.

Furthermore, the bill contains measures to ensure that Delaware's dairy farmers are adequately compensated for the fluid milk they supply to milk processors.

Finally, this legislative package contains the Satellite Home Viewer Act which benefit thousands of Delawareans. Legislation has been added to eliminating outdated restrictions on satellite TV companies that prohibit them from carrying local network television stations. Many Delawareans who rely on satellites to receive quality TV reception must watch out-of-State news shows due to their restrictions. This legislation will bring them needed relief and allow them to be better informed about local, state, and regional events.

I strongly urge the congressional leadership and the President to institute measures to allow Congress to finish its work on these spending bills earlier in the year to avoid last minute deals that inevitably lead to more spending. Strong budget enforcement mechanisms, such as biennial budgeting and my proposal for a "rainy day" account for emergency spending, should be considered in the next session.

Mr. Speaker, this is not a perfect piece of legislation. It contains compromises that were necessary to meet the President's demands and to reach agreement between Republicans and Democrats in Congress. Despite these compromises, this legislation maintains our hard-won commitment to fiscal responsibility and a balanced budget. This commitment will help protect the Social Security trust fund and enable the rest of our Government to meet the needs of all Americans in a fiscally responsible manner.

Mr. KILDEE. Mr. Speaker, I rise to express my concern over one particular provision in the FY 2000 Omnibus Appropriations Act providing funding under the Elementary and Secondary Education Act's Title I program for school improvement and public school choice activities.

Specifically, this provision would provide \$134 million in fiscal year 2000 to States, who in turn would distribute 100 percent of this funding to school districts, for (1) activities to provide assistance to schools which are failing academically, and (2) public school choice for

all children in schools which are identified as "schools in school improvement" under Title I of the Elementary and Secondary Education Act. While on its face, this provisions seem beneficial, I am concerned about its impact on Title I and our nation's schools.

The statutory language of this provision does not specify how funds are distributed from the State to school district level. Presently, 98.5 percent of Title I funds are distributed directly to the local level. In addition, Title I funds designated for the local, or school district level, have always been distributed via a targeted formula that provides the bulk of funding to the most disadvantaged areas. This provision's departure from the current statutory focus opens the door to the elimination of targeting funds to the local level—a dangerous step towards taking precious Federal funds away from those who instruct our children on a day to day basis. I expect the Department of Education to issue regulations or guidance which will target these funds to either the school districts with the highest numbers of schools in school improvement or through the existing Title I formula.

I also have concerns over the mandate in this provision to provide public school choice. I do want to make clear that I support public school choice as one of several tools which local school districts may implement in their efforts to improve student achievement. H.R. 2, legislation passed by the House earlier this year reauthorizing Title I, also recognized the need to include public school choice provisions in Title I, also recognized the need to include public choice provisions in Title I, but contained important provisions that would (1) tie the requirement to implement public school choice to local school board policy, and (2) ensure that school districts had adequate time to properly design public school choice plans by providing 18 months to implement such plans. In contrast, the provisions contained in this legislation would become effective immediately and are vague on whether local school board policy would be superseded. It is my expectation that the Department of Education will issue guidance or regulations which ensure that school districts can responsibly implement this mandate in adequate time.

It is my hope that we can continue to refine the policy that will be implemented through the enactment of this provision as we finish our work on ESEA.

Mrs. CAPPs. Mr. Speaker, I rise in support of this legislation.

The bill before us addresses a number of critical national and local priorities of which I will only highlight a few. It provides funding to continue putting 100,000 more teachers in our classrooms. It will also allow school districts to use some of that money to meet other critical educational needs like teacher training if those needs are more pressing. The bill also continues our commitment to put 50,000 more police officers on our streets to fight crime. I have been a strong supporter of the COPS program, seeing the benefits in numerous Central Coast cities like Santa Maria, Lompoc, Atascadero and Morro Bay.

This bill also provides more money to the hospitals, doctors, home health agencies and nursing homes that take care of seniors in the Medicare program. Cuts imposed by the 1997

Balanced Budget Act threaten the ability of critical Central Coast health care providers to serve our seniors and this bill restores some of that funding. The bill also contains some changes to the Medicare HMO program to encourage more coverage in underserved areas like the Central Coast. While I support these provisions, they don't go far enough and I will continue to push for legislation to raise reimbursement rates in rural counties like San Luis Obispo and Santa Barbara.

Mr. Speaker, there are three provisions of particular importance to my district that I would like to highlight. First, this legislation contains \$100,000 for Santa Barbara's Computers for Families organization. Run by the highly respected Santa Barbara Industry Education Council and the Santa Barbara Office of Education, DFF refurbishes old computers and gets them into the homes of low-income families. This valuable program helps open the doors of opportunities for all in our community and this expansion will enable CFF to bring this critical technology to more needy families.

The bill also provides \$50,000 for the San Luis Obispo County Medical Society which, in conjunction with the Volunteers in Health Care program and pharmaceutical companies, will provide prescription drugs for some underserved seniors. Ensuring seniors' access to prescription drugs has been a priority of mine and this small program will help many needy seniors obtain the drugs they need to live a quality life.

Finally, this legislation authorizes a study of the beautiful Gaviota Coast in Santa Barbara county. This will allow the National Park Service, working in conjunction with Central Coast ranchers and preservation groups, to determine how we can best protect one of the last undeveloped stretches of California's coast. This provision is based on the Gaviota Coast Act of 1999, which I introduced earlier this year.

I must note, however, that there are items in this legislation that I do not support. For example, the bill inappropriately restricts funding to international family planning organizations. This shortsighted provision will keep life saving family planning services from poor women around the world.

While the bill does increase funding at the National Institutes of Health and continues us on a track to double the agency's overall funding, it still delays some \$4 billion in NIH funding until the end of the fiscal year. This delay will actually have the effect of cutting the increase in NIH funding and could slow critically important medical research.

I am also deeply disappointed in the process that has brought us a bill that funds nearly half of the government programs at one time. This process does not allow Members to properly study the details of the legislation. I fear that over the next several days and weeks we will be appalled at special provisions that have been tacked into this bill for special interests. Taxpayers deserve more respect from Congress in the way it spends their money. This is not the way the House should do business. I urge the leadership of this House to begin work today on a bipartisan basis to ensure that we do not end up in this position again next year.

Mr. Speaker, this bill is far from perfect. I have serious reservations about the process

and I oppose certain provisions in the bill. But, on balance, it represents a good compromise and I urge its adoption.

Mr. BLUMENAUER. Mr. Speaker, I will vote against the Omnibus Budget Agreement because it continues a pattern of budgeting which I feel undermines the confidence and credibility of the American public in one of the most important congressional responsibilities we have—managing the people's money.

I opposed the 1997 Balanced Budget Agreement because it was clear there was no intention of implementing it. It was a ruse. Last year, there was \$35 billion in excess spending at the last minute omnibus bill. This year, there is no more time for analysis, and the amount of money that is being gimmicked, manipulated and spent in violation of the budget rules is up to \$45 billion.

While there is much in the bill that I support, and while it has been made better due to heroic efforts on the part of the Administration and the House Democratic leadership, it still falls far short of the mark to which Congress should be accountable. I continue to hope that the day will come when the budget process is transparent, not larded with unfortunate spending decisions and is done in a fashion that both Congress and the people we represent can follow what we're doing. Until that day, I feel it appropriate to vote no.

Mr. SERRANO. Mr. Speaker, I rise in support of the conference report, and, in particular, of the final agreements on the programs of the Commerce, Justice, and State Departments, the Judiciary, and the related agencies under our Subcommittee's jurisdiction.

This has been a difficult process, Mr. Speaker, with more perils than Pauline, but at each step of the way the Commerce-Justice bill has been improved, first under the capable leadership of our Chairman, the gentleman from Kentucky (Mr. ROGERS) and finally in negotiations with the Administration.

I must repeat what others have already said, that the Committee and Subcommittee chairmen and ranking Democrats, our staff, and the President's staff have worked long and hard, day and night, weekday and weekend, to get us to this point. And don't forget that the staffs often stay hours longer when members go home. We owe the staff an enormous debt of gratitude.

Mr. Speaker, Chairman ROGERS has explained our part of this package, but I will just note that there is more money for COPS, for SBA, for NOAA, for various civil and employment rights activities, and that most of the President's funding priorities have been addressed.

Of special importance, in my view, is that the resources and authority are provided to let the U.S. pay a substantial portion of the arrears due the UN. This avoids loss of our vote in the UN General Assembly and enhances our leverage over both UN policies and activities in the world and the management of the UN itself.

But the price for this victory may be the lives and health of women all over the world. This is very troubling.

We were not able to include a Hate Crimes provision, but I hope this issue can be taken up in the next session.

Mr. Speaker, the procedure used to create this wrap-up bill was most unusual, and while I know there are very positive provisions in the bigger package, there are also sins of both omission and commission that have been discovered. But I wonder what sins may still be hidden from view since few have had the chance to read it through.

For my part, however, I believe that our work has mostly been well done and I intend to support the conference report.

Mr. NADLER. Mr. Speaker, I rise today, as a member of the Judiciary Committee, to express my support for the American Inventors Protection Act of 1999, which is included as Title IV of the Intellectual Property and Communications Omnibus Reform Act. This act is included in the Omnibus spending package, H.R. 3194, that we are considering today.

This patent reform measure includes a series of initiatives intended to protect the rights of inventors, enhance patent protections and reduce patent litigation. Perhaps most importantly, subtitle C of title IV contains the so-called "First Inventor Defense." This defense provides a first inventor (or "prior user") with a defense in patent infringement lawsuits, whenever an inventor of a business method (i.e., a practice process or system) uses the invention but does not patent it. Currently, patent law does not provide original inventors with any protections when a subsequent user, who patents the method at a later date, files a lawsuit for infringement against the real creator of the invention.

The first inventor defense will provide the financial services industry with important, needed protections in the face of the uncertainty presented by the Federal Circuit's decision in the *State Street* case. *State Street Bank and Trust Company v. Signature Financial Group, Inc.* 149 F.3d 1368 (Fed. Cir., 1998). In *State Street*, the Court did away with the so-called "business methods" exception to statutory patentable subject matter. Consequently, this decision has raised questions about what types of business methods may now be eligible for patent protection. In the financial services sector, this has prompted serious legal and practical concerns. It has created doubt regarding whether or not particular business methods used by the industry—including processes, practices, and systems—might now suddenly become subject to new claims under the patent law. In terms of every day business practice, these types of activities were considered to be protected as trade secrets and were not viewed as patentable material.

Mr. Speaker, the first inventor defense strikes a fair balance between patent law and trade secret law. Specifically, this provision creates a defense for inventors who (1) acting in good faith have reduced the subject matter to practice in the United States at least one year prior to the patent filing date ("effective filing date") of another (typically later) inventor; and (2) commercially used the subject matter in the United States before the filing date of the patent. Commercial use does not require that the particular invention be made known to the public or be used in the public marketplace—it includes wholly internal commercial uses as well.

As used in this legislation, the term "method" is intended to be construed broadly. The

term "method" is defined as meaning "a method of doing or conducting business." Thus, "method" includes any internal method of doing business, a method used in the course of doing or conducting business, or a method for conducting business in the public marketplace. It includes a practice, process, activity, or system that is used in the design, formulation, testing, or manufacture of any product or service. The defense will be applicable against method claims, as well as the claims involving machines or articles the manufacturer used to practice such methods (i.e., apparatus claims). New technologies are being developed every day, which includes technology that employs both methods of doing business and physical apparatus design to carry out a method of doing business. The first inventor defense is intended to protect both method claims and apparatus claims.

When viewed specifically from the standpoint of the financial services industry, the term "method" includes financial instruments, financial products, financial transactions, the ordering of financial information, and any system or process that transmits or transforms information with respect to investments or other types of financial transactions. In this context, it is important to point out the beneficial effects that such methods have brought to our society. These include the encouragement of home ownership, the broadened availability of capital for small businesses, and the development of a variety of pension and investment opportunities for millions of Americans.

As the joint explanatory statement of the Conference Committee on H.R. 1554 notes, the provision "focuses on methods for doing and conducting business, including methods used in connection with internal commercial operations as well as those used in connection with the sale or transfer of useful end results—whether in the form of physical products, or in the form of services, or in the form of some other useful results; for example, results produced through the manipulation of data or other inputs to produce a useful result." H. Rept. 106-464, p. 122.

The language of the provision states that the defense is not available if the person has actually abandoned commercial use of the subject matter. As used in the legislation, abandonment refers to the cessation of use with no intent to resume. Intervals of non-use between such periodic or cyclical activities such as seasonal factors or reasonable intervals between contracts, however, should not be considered to be abandonment.

As noted earlier, in the wake of State Street, thousands of methods and processes that have been and are used internally are now subject to the possibility of being claimed as patented inventions. Previously, the businesses that developed and used such methods and processes thought that secrecy was the only protection available. As the conference report on H.R. 1554 states: "(U)nder established law, any of these inventions which have been in commercial use—public or secret—for more than one year cannot now be the subject of a valid U.S. patent." H. Rept. 106-464, p. 122.

Mr. Speaker, patent law should encourage innovation, not create barriers to the development of innovative financial products, credit

vehicles, and e-commerce generally. The patent law was never intended to prevent people from doing what they are already doing. While I am very pleased that the first inventor's defense is included in this legislation, it should be viewed as just the first step in defining the appropriate limits and boundaries of the State Street decision. This legal defense will provide important protections for companies against unfair and unjustified patent infringement actions. But, at the same time, I believe that it is time for Congress to take a closer look at the State Street decision. I hope that next year the Judiciary Committee will consider holding hearings on the State Street issue, so that Members can carefully evaluate its consequences.

Mr. CLAY. Mr. Speaker, I am pleased this Omnibus bill rejects the devastating cuts on seniors, children, and young adults proposed only last month by the Republican majority. The Labor/HHS portion of this bill, which adds \$7.3 billion over last year's bill, more appropriately reflects the overwhelming public support for increased investment in education and fairness in the workplace.

I am particularly pleased that the Conferees decided to continue funding the Clinton/Clay Class Size Reduction Program, which will hire 100,000 new, highly qualified teachers nationwide. I am particularly pleased that the Conferees rejected the Republican plan to divert class size funds into block grants, which could have been used for private school vouchers and purposes unrelated to class size reduction.

The Conference report provides an increase from \$1.2 billion to \$1.3 billion for class size reduction, it continues class size reduction as a separate program, and it ensures that such funds are targeted to the neediest public schools. The agreement also includes the Democratic plan to ensure that all teachers become fully certified, and it continues the program's flexibility to use funds for teacher recruitment and professional development in order to reduce class sizes.

It also provides new provisions, strongly advocated by President Clinton, that allows \$134 million in Title I funds to be used to improve low-performing schools.

The conference report also increases investment in critical education and labor initiatives above the last conference agreement. It provides \$454 million for After School Centers, an increase of \$154 million over the vetoed bill and \$254 million over 1999. It provides \$8.6 billion for Title I grants for the disadvantaged, an increase of \$144 million over the vetoed bill and \$265 million over 1999. It provides \$136 million for Historically Black Colleges and Universities, an increase of \$7.25 million over the vetoed bill and \$12.7 million over 1999. It also provides \$7.7 billion for Pell Grants to fund a maximum award of \$3,300—the same as the vetoed bill and a \$175 increase over 1999.

In the Labor area, the bill provides \$11.3 billion—\$54 million over the vetoed bill, and \$389 million over 1999.

I urge support for the bill.

Mr. PAUL. Mr. Speaker, I wish to take this opportunity to express my agreement with language contained in the report accompanying H.R. 3075, which was included in the Omnibus Appropriations bill, encouraging the Sec-

retary of Health and Human Services to allow home health agencies to use technology to supervise their branch offices. This language also calls on the government to allow home health agencies to determine the adequate level of on-site supervision of their branch offices based on quality outcomes. I need not remind my colleagues that Congress is expecting home health agencies to operate efficiently under greatly reduced Interim Payment System (IPS) and Prospective Payment System (PPS) reimbursement. It is therefore necessary that home health agencies be allowed the flexibility to establish and serve large service areas by utilizing cost efficient branch offices.

My district includes many rural areas which are experiencing access problems due to the Health Care Financing Administration's (HCFA's) home health branch office policies affecting time/distance limitations and on-site supervision requirements. In many cases, these requirements do not recognize technology advances. In order to ensure that senior citizens in rural areas have access to quality home care, it is vital that any regulations on home health care branch offices promulgated by the Health Care Financing Administration (HCFA) evaluate the offices by quality of outcome instead of arbitrary administration requirements and restrictions.

In conclusion, Mr. Speaker, I reiterate my support for the report language accompanying H.R. 3075 urging the use of outcome instead of arbitrary requirements and restrictions, to determine a home health care agency's ability to establish and supervise branch offices.

Mr. COSTELLO. Mr. Speaker, I rise today in opposition to H.R. 3194, the Omnibus Appropriations Bill of 1999. This bill is a travesty, a massive symbol of the failure of this Congress to accomplish its most basic goal—passage of the 13 appropriations bills by September 30, the end of the fiscal year—on time and in order. Instead, we have lumped together numerous pieces of legislation, as well as five appropriations bills, and slapped them together like a giant Thanksgiving turkey to present to the American people.

The process by which we come to this vote on this House. This bill—over a foot high, hundreds of pages thick and in its final form with only a few copies available to all 435 members—was filed at 3:00 a.m. this morning. Members of this Chamber have not had the opportunity to read or even review this legislation. No one knows what kind of special-interest boondoggles lie in the text of this bill, and no one will know for days to come.

The majority in this House even voted to suspend the rules that govern the budget process by forbidding the Congressional Budget Office to 'score' this bill, which would let members know just how much all of these provisions will cost the taxpayers. According to the last CBO estimate of this bill, the majority would pass a bill that breaks their promise to leave untouched the Social Security Trust Fund. CBO recently said this bill would use \$15 to \$17 billion of the Trust Fund—and who knows just how much this Congress will raid from the Trust Fund once this bill in its final form is enacted.

Finally, it exceeds all of the budget caps put into place in 1997 to balance the federal budget, stretching credibility and the imagination by

declaring things like the Head Start program—begun in 1964—as an ‘emergency,’ along with the census, operations of the Pentagon and other basic functions of government. If we intend to ‘bust the budget caps’ and declare them obsolete now that we have a budget surplus, we should do so in an honest way and be straight with the American people.

There are some good provisions in this legislation, along with the bad provisions. It provides the President with his priorities of 100,000 new teachers and tools to create smaller teacher/student classrooms; 50,000 more police on America’s streets; and a much-needed pay raise for military personnel.

However, there is no reason why this Congress could not have passed these initiatives in a deliberative manner with full debate in this House, instead of in this format. Instead, the majority has cobbled together a massive Thanksgiving turkey of a bill, to present to the American people in one whole form to avoid the scrutiny that would mean the death of some of the more controversial provisions in this legislation. These are the same leaders that told the American people that if they were in charge they would pass a budget on time, with 13 appropriations bills passed separately, without spending any of the Social Security Trust Fund. Their failure to keep their word has resulted in this bill, which I urge my colleagues to oppose.

Ms. STABENOW. Mr. Speaker, I rise today in opposition to this bill and the process that brought it to the floor. My primary concerns are that we have not received sufficient guarantees that the Social Security surplus is protected, and we have not extended the Social Security Trust Fund for even one day. Prior to consideration of this package, the Congressional Budget Office certified that Congress was on pace to spend \$17 billion from the Social Security Trust Fund in Fiscal Year 2000. Given that the offsets in this bill do not reach this level, and that this bill relies on numerous questionable budget gimmicks geared to mask the overall effect on Social Security, I cannot support it. At the same time, there are numerous examples of wasteful, unnecessary spending projects—money that would be better spent on Social Security and Medicare.

What makes the above problems all the more tragic is that there are many positive aspects to this measure. As a sponsor of the COPS 2000 legislation, which will authorize the placement of 50,000 additional police officers on our streets, I am especially pleased that a down payment on this funding is included in this bill. In addition, money to add 100,000 new teachers to our schools to reduce class size is also included, as well as an increased commitment to the Lands Legacy Initiative, which will protect our natural areas. I voted for funds to help implement the Wye River peace agreement when they were considered previously, and I would like to be able to vote for them today. This bill restores resources, at least modestly, to our hospitals, nursing homes, and home health facilities that have been negatively impacted by the Balanced Budget Act of 1997, but it does not do enough to solve the long term problems with Medicare reimbursement levels. I have been a leader of this effort, and I voted for similar provisions when they passed the House a few

weeks ago. But I said at that time that more needed to be done to adequately address unfair cuts in Medicare. This budget puts pork barrel projects before funding for home health care, hospitals and nursing homes, and this is wrong.

Mr. Speaker, this Congress opened with a bipartisan commitment to preserving the integrity of the Social Security system. This budget does not live up to that commitment. Protecting and strengthening Social Security and Medicare are top priorities for the families I represent and this budget does not pass the test. I urge my colleagues to oppose this legislation.

Mr. BENTSEN. Mr. Speaker, I rise today in support of the conference report on the omnibus Fiscal Year 2000 Appropriations Bill for the District of Columbia, the Departments of Labor, Health and Human Services, Education, Commerce, Justice, State, Interior, and Foreign Operations.

Unfortunately, Mr. Speaker, the process which brought about this omnibus bill makes a mockery of regular order in this House. Over seven weeks into the new fiscal year, and requiring an array of accounting gimmicks purporting to stay within the budget caps, my colleagues on the other side of the aisle should be ashamed of themselves for bringing such a monstrosity forward at this eleventh hour. Filing conference reports at three in the morning and then insisting that we pass legislation which no one has had the opportunity to comprehensively review serves no useful purpose other than to convey to the American people how incapable the majority is of effectively governing. Their display of ineptitude is, however, a perfect ending to a session of Congress that will long be remembered as one of missed opportunities to address the needs of Americans. Included in this graveyard of dead legislation are such important initiatives as a patients’ bill of rights, prescription drugs for the elderly, and substantive reform of Medicare and Social Security.

This bill caps this Congress’ departure from the 1997 Balanced Budget Act which I helped write and supported. Because of that bill and previous actions, the Nation today enjoys both a budget surplus and good economic times. Early in the year, however, the Republican Leadership determined to increase funding for defense, agriculture, education; much of it justified, but in excess of the 1997 caps. Rather than honestly explaining this to the American people, the Republican Leadership chose instead to engage in budget gimmicks and subterfuge as is evident today. Unfortunately, at this late hour, they have held hostage must-pass initiatives related to health care, general government, foreign policy and education. Because of that fact, and the fact that we continue to maintain a balanced budget and dedicate the vast majority of the projected surplus to debt reduction, I will support this conference report. Many of the items contained in the bill are too important to be allowed to lapse.

For instance, this bill includes clarifications and corrections to the Medicare changes contained in the 1997 Balanced Budget Act which exceeded spending reduction targets at the expense of our seniors and teaching hospitals. This bill provides \$12.8 billion over five years in new funding for Medicare reforms which are

necessary and vital to the health of our nation’s senior citizens.

Specifically, these provisions include a section based upon legislation, H.R. 1224, which I have sponsored, along with Representative CARDIN, to ensure fair and equitable Medicare funding for residents being trained to be physicians. Section 541 of Title V of this bill would, for the first time, ensure that teaching hospitals, such as those at the Texas Medical Center, will receive higher Medicare reimbursements for their physician residents. Under current law, these graduate medical education resident payments are based upon hospital-specific costs. As a result, teaching hospitals in Texas currently receive as much as six times less than those paid to hospitals in New York. This provision would fix this equity by establishing three new tiers of payments for residencies. For those teaching hospitals whose payments are more than 40 percent above the national average, their GME payments would be frozen for Fiscal Year 2001 and 2002. From Fiscal Year 2003 to 2005, their payments would be reduced by a factor of market basket minus 2 percent. For those hospitals whose payments are less than 40 percent of the national average, their payments would be increased to at least 70 percent of the national average.

This bill also includes a modified version of legislation, H.R. 1483, which I have sponsored, along with Representative CRANE, to provide graduate medical education funding for nursing and paramedical education programs. Under existing law, Medicare payments for nursing and paramedical graduate medical educational programs are based upon the number of traditional Medicare patients seen at these teaching hospitals. As more Medicare patients enroll in Medicare managed care plans, many of these patients are no longer seen at these facilities. As a result, teaching hospitals receive less funding for these nursing and paramedical programs. H.R. 1483 would carve out a portion of the payment paid to Medicare managed care plans and transfer these funds to those hospitals with these teaching programs similar to the manner in which physicians training programs are paid. Under this conference report, teaching hospitals with nursing and paramedical teaching programs will receive \$60 million in new funding. Regrettably, this funding will not come from Medicare managed care plans. Rather, this funding would be transferred from physicians training programs. As a result, teaching hospitals with both physician and nursing training programs will receive no new net funding. I will continue working to restore to original funding stream so that Medicare managed care plans contribute toward the cost of these training programs.

Other important Medicare provisions include adjustments to ensure the higher costs of training our nation’s physicians. This provision would increase Medicare reimbursements for Indirect Medical Education (IME) costs. The conference report provides an IME reimbursement of 6.5 percent in Fiscal Year 2000, 6.25 percent in Fiscal Year 2001, and 5.5 percent thereafter. Under existing law, these IME payments would be reduced to 5.5 percent. These provisions are estimated to save hospitals \$700 million over five years.

I am also pleased that this conference report includes language to provide higher reimbursements for pap smears. Under existing law, Medicare reimbursements for pap smears are \$7.15 each. This bill would increase this reimbursement level to \$14.60 per pap smear. This reimbursement level has not been increased for many years and will help to ensure that senior citizens receive this important preventive health test. This provision also covers the new pap smear technology so women would be eligible to receive these state-of-the-art tests which have a better record of finding and diagnosing ovarian cancers. The Congressional Budget Office estimates that this provision will cost \$100 million over five years and \$300 million over ten years. I am pleased that Congress has decided to provide the investment for many women whose lives will be saved by this test.

This conference report also includes a provision to ensure that the State of Texas can keep \$27 million to help states conduct outreach identifying Medicaid eligible children. The State of Texas has the highest uninsured rate of 24.5 percent of its population. The Texas Department of Health has determined that 800,000 of the 1.4 million uninsured children are eligible for, but not enrolled in, Medicaid. Under existing law, the State of Texas and other states would lose up to \$500 million on December 31, 1999 because of a sunset provision in the Welfare Reform Act of 1995. This measure eliminates this deadline while ensuring that the State of Texas get the resources it needs to identify and enroll Medicaid-eligible children.

The conference report further includes \$150 million in Medicare reimbursements for immunosuppressive drugs. Under existing law, Medicare beneficiaries can only receive three years of immunosuppressive drugs following a lifesaving transplant operation. However, all of these patients must take these drugs indefinitely. I have cosponsored legislation, H.R. 1115, to eliminate this 3-year restriction. The conference report would provide eight months of additional coverage for these life-sustaining drugs in Fiscal Year 2001 and 2002. In addition, this funding permits the Secretary of Health and Human Services to extend this coverage up to \$150 million over five years. Although the 3-year restriction was not eliminated, I believe that this extension is important because it means that Medicare beneficiaries can receive the prescription drugs they need. For many Medicare beneficiaries, these immunosuppressive drugs are extremely expensive and a financial burden. Many of these transplant operations are conducted at the teaching hospitals in my district at the Texas Medical Center. I will continue to work to extend this coverage indefinitely for those who need it.

As a Co-Chair of the Congressional Biomedical Caucus, I am pleased that this bill will provide a total of \$17.9 billion, or \$2.3 billion more for biomedical research at the National Institutes of Health (NIH). This fifteen percent increase is the second down payment on our efforts to double the NIH's budget over five years. This increase is necessary to ensure adequate funding for cutting-edge research such as the Human Genome Project being conducted at Baylor College for Medicine in

my district. Currently, NIH funds only one in three of peer-reviewed medical research grants and many potential cures and treatments go undiscovered.

While I am grateful for the increase, I am concerned that the Republican majority continues to insist on a budget gimmick to delay up to \$3 billion in NIH's budget until the final day of the next fiscal year. As a result, some medical research grants will be delayed. This is better than an earlier proposal to delay \$7.5 billion, but it is still counterproductive to speed up research for cures to diseases like juvenile diabetes and AIDS.

I am also pleased that this conference report includes funding for a project which I have been working on to provide \$500,000 for the Center of Excellence for Research on Mental Health (CMRH) to the University of Texas MD Anderson Cancer Center in my district. This Center would build upon the Institute of Medicine report issued earlier this year indicating that there is a disproportionate share of minority and medically under-served patients who suffer from cancer and other health related diseases. The CRMH would establish a multi-disciplinary center for excellence in basic, applied, and clinical research to help meet the unique health-related challenges of minority and under-served populations. The goal of this Center would be to improve the low mortality rate among minority and medically under-served populations, and to translate these methods to other minority and under-served areas nationwide.

This omnibus measure also contains language which I requested to help ensure that the National Institutes of Health (NIH) is conducting sufficient research on breast and ovarian cancer among women of Ashkenazi descent who carry the BRCA1 gene. There is an abnormally high incidence of breast and cervical cancer among Ashkenazi Jewish women. This research will help to identify and isolate some of the reasons for this high incidence of cancer. This conference report urges the NIH to provide funding for a binational program between the United States and Israel establishing a computerized data and specimen sharing system, subject recruitment and retention programs, and a collaborative pilot research program.

I am also pleased that this budget agreement makes education a top priority by providing \$1.3 billion to hire and train 100,000 new teachers to help lower class size in the early grades. This is truly good news for our children and for their future. We know that school enrollments are exploding and that record numbers of teachers are retiring. Every parent and teacher in America knows that a child in a second-grade class with 25 students will not get as much attention as he or she needs and deserves. Overall, this plan means more teachers with higher educational credentials—and for students, more individual attention and a better foundation in the basics. I am also pleased that this budget doubles funds for after school and summer school programs while supporting greater accountability for results by helping communities turn around or close failing schools.

This omnibus measure also strengthens America's role of leadership in the world by paying our dues and arrears to the United Na-

tions, by meeting our commitments to the Middle East peace process, and by making critical investments in debt relief for the poorest countries of the world. Of critical importance is the \$1.8 billion to fund the United States' commitment to the Wye River Agreement. For decades, the U.S. has worked with Israel—our most consistent Middle East ally—to provide the aid and military equipment necessary to defend itself against hostile neighbors. The funds appropriated in this year's budget send the message that the United States is a full partner in securing a lasting peace in the Middle East.

This budget continues the Administration's COPS program by including funding to help local communities hire up to 50,000 police nationwide. This program has been tremendously successful in Harris County helping the County, and some of its cities including virtually all those in my district, more than 1,000 police positions to fight crime.

This bill also includes important funding for the Immigration and Naturalization Service (INS) to combat illegal immigration and administer legal immigration both functions of government terribly important to the people of the 25th District. The bill also funds the upcoming census, which is important to government and commerce.

Mr. Speaker, this is by no means a perfect bill and the process has been deplorable. However, this bill does meet important priorities in health care, education, crime control, immigration, general government and foreign affairs. Furthermore, this bill ensures that we maintain a balanced budget, dedicating the surplus to debt retirement and preserving its use for strengthening Social Security and Medicare in the future. On that basis, I urge my colleagues to support its passage.

Mr. BLILEY. Mr. Speaker, I also want to take this opportunity to explain to my colleagues an important change made to the Satellite Home Viewer Improvement Act of 1999 since the Conference Report was considered on the floor last week. As my colleagues know, I had been concerned that sections 1005(e) and 1011(c) of the Conference Report could unfairly discriminate against Internet and broadband service providers and, in doing so, would stifle the development of electronic commerce. I was particularly concerned that these provisions could be interpreted to expressly and permanently exclude any "online digital communication service" from retransmitting a transmission of a television program or other audiovisual work pursuant to a compulsory or statutory license.

Under the agreement embodied in the bill before us, these provisions were deleted, and rightly so. They were essentially added after agreement had been reached on the fundamental parameters of the Satellite Home Viewer Improvement Act, without any consultation with the Committee on Commerce and, equally important, without any record evidence submitted about their necessity. The committees of jurisdiction will now have an opportunity to give deliberate and careful consideration to the application of the Copyright Act to the Internet and broadband service providers. The importance of the Internet and other online communications technologies for enhancing consumer access to information and programming cannot be overstated. Online technology

has transformed the way consumers receive information, including audiovisual works. Because rapid technological changes are having an ever more positive impact on our economy, it is thus essential that we give full attention to this issue early next year.

Mr. STENHOLM. Mr. Speaker, as with any compromise legislation, the final budget agreement has both very positive aspects and very troubling features. The agreement provides funding for several high priority spending items, particularly rural health care and education. In addition, the agreement preserves increases in programs affecting agriculture, veterans, defense and other priority areas. However, it falls far short of the standards of fiscal responsibility that were set forth in the Blue Dog budget and will create serious problems for the budget process that will begin next year.

This package provides much-needed relief for rural hospitals, nursing homes, community health centers, rural health clinics, home health agencies, and other health care providers who have struggled to cope with the impact of the Medicare payment reductions included in the Balanced Budget Act of 1997. Along with my colleagues in the House Rural Health Care Coalition, I introduced the Triple A Rural Health Improvement Act, legislation intended to help rural health care providers continue to provide vital services to rural seniors. I am pleased that this package includes a number of the important rural health provisions that we included in our legislation.

Specifically, this bill includes protection for low-volume, rural hospitals from the disproportionate impact of the hospital outpatient prospective payment system, an alternative payment system for community health centers and rural health clinics, reforms of the Medicare Rural Hospital Flexibility/Critical Access Hospital program, expansion of Graduate Medical Education opportunities in rural settings, Rebasing for Sole Community Hospitals, Extension of the Medicare Dependent Hospital program, and permitting certain rural hospitals in urban-defined counties to be recognized as rural for purposes of Medicare reimbursement.

The most significant accomplishment of the budget process this year is the success of fiscally responsible Members to block efforts to spend the projected surpluses over the next ten years on tax cuts or new entitlement spending. The bulk of the projected surpluses over the next ten years are preserved for debt reduction. I intend to join with my fellow Blue Dogs next year to renew our efforts to lock up half of these projected surpluses for debt reduction. In spite of all of the budget gimmicks and other fiscal shortcomings of this budget agreement, our successful vigilance in other efforts will result in a reduction of at least \$130 billion in debt held by the public, following on the \$123 billion in debt reduction achieved in fiscal year 1999.

Sadly, this particular budget agreement is a product of a terribly flawed process. Instead of spending the first eight months of the year debating a fiscally irresponsible tax cut that was destined to be vetoed, Congress should have been working with the administration to develop a responsible budget plan for the next five years. We should have set realistic spending caps and establish a framework for pro-

tecting the Social Security surplus and paying down the debt over the next five years.

The negotiating process did establish a very valuable precedent as a result of the administration's commitment to offset all increased spending they requested. Since the administration proposed offsets for all of their increased spending requests, any spending above the discretionary spending caps and any spending out of the Social Security surplus was a result of the legislation passed by the Majority in Congress prior to the budget negotiations.

The failure to put together a long-term budget framework has produced a bill that will cause real problems for the budget process next year and beyond. The cumulative effect of the budget legislation passed by Congress this year in the absence of a long-term plan will make it virtually impossible to comply with the discretionary caps in the next two fiscal years or balance the budget without counting Social Security. The discretionary spending caps in statute have lost much of their credibility as a tool to restrain spending.

As a result of all of the budget gimmicks placed in the spending bills passed by the Majority before the budget negotiations began, the final agreement will result in spending at least \$17 billion of the Social Security surplus in 2000 and will put us on a course to spend a similar or greater amount of the Social Security surplus in 2001 and consume more than 75% of the projected on budget surplus in 2002.

When the timing shifts, emergency designations, and delays in the starting point for spending are taken into consideration, these bills put us on a path for an on-budget deficit of at least \$20 billion in fiscal year 2001 and will reduce the fiscal year 2002 projected surplus from approximately \$82 billion to approximately \$13 billion in fiscal year 2002.

My fellow Blue Dogs and I have advocated locking up a portion of the projected on-budget surpluses to reduce debt held by the public to effectively pay back the money borrowed from the Social Security trust fund. The impact the final budget agreement will have on the on-budget surplus in the next two years would have been mitigated if it was accompanied by a solid commitment to repay any monies borrowed from the trust fund to meet operating expenses through additional debt reduction. Unfortunately, the Majority leadership never seriously considered this approach.

The outcome of the budget process this year underscores the critical importance of developing a responsible budget plan that addresses the long-term problems of Social Security and Medicare and provides for a reduction in the national debt in addition to providing room for tax cuts and priority programs. I am committed beginning work early next year with the administration and Congressional leadership on a bipartisan budget framework.

Mr. UDALL of Colorado. Mr. Speaker, I want to explain why I voted the way I did on this bill.

First, I had very serious concerns about the way in which this bill came before the House. It was a far-reaching measure, rolling into one oversize pile not just five appropriations bills but also several important authorization bills. It

was filed in the early hours of this morning. I am confident that very few if any Members were able to read it all. Yet that is how it was, and we had to vote it up or down, with only limited time for debate and no chance to change it.

This is not the way we should do our work. While we are already more than two weeks late, today we passed yet another continuing resolution to keep the agencies covered by this bill operating. So we had some time—and we should have taken the time to do things the right way.

However, the majority's leadership decided to reject that more orderly way of proceeding. We had to choose a simple yes or no. And, after careful consideration, I decided to vote against this bill.

This was not an easy decision. In reaching it, I was conscious of many good things that were in the five appropriations bills and the other measures that were rolled into this one large, indigestible lump.

The bill has many provisions that are good for the country—and, in fact, some of particular benefit for Colorado as a whole and my own district in particular. Many of them were things that I have sought to have included.

For example, under the bill the National Oceanographic and Atmospheric Administration (NOAA) will receive an appropriation of \$2.3 billion, up 8% from last year and nearly 20% more than in the House-passed bill. This is something that I worked to achieve, and something I strongly support.

Further, the National Institute of Standards and Technology is funded at \$639 million, which is about 1.3% less than in fiscal 1999 but an increase of 46% above the amount in the House-passed bill. This includes funding for the Advanced Technology Program (ATP), which has been zeroed out in the House-passed bill. These appropriations are very important. Their inclusion is something I worked to achieve and I would have liked to have been able to support them.

I also would have liked to have been able to support the amounts the bill provides for the Department of the Interior and the Forest Service. Again, I have been working to provide these agencies the resources they need to properly manage our federal lands and to help in the crucial job of protecting our open spaces against growth and sprawl.

And I very much would have liked to have been able to vote for the bill's funding for education and its provisions to improve health care for seniors and other Americans. Nothing is more important for our society, and nothing is more important for me. And the bill includes other good things as well.

However, on balance, I decided that the bill's virtues were outweighed by its faults.

They were outweighed by the fact that the bill includes an arbitrary reduction across many departments and agencies which is not only totally unnecessary but also very unbalanced—even unfair—in the way it's structured. It isn't really across-the-board: for example, in the defense department it will not apply to protected pork-barrel items and thus will fall on operations and maintenance that are really the key to our national security. And, apparently just to make it even worse, it does not apply to Congressional pay, so that come the first of

the year we will get a cost-of-living increase—something that I voted against—without any reduction. That was something I could not support.

The bill's virtues were also outweighed by the way it offends against fiscal candor and public accountability. It is loaded with accounting gimmicks and transparent fictions—things like calling the constitutionally-required census an "emergency," delaying some payments so they will technically fall into the next fiscal year, and directions to use the most convenient estimates of costs. The effect of these gimmicks and ruses is to pretend that more than \$30 billion that's in the bill isn't really there.

"Peekaboo" is something that's fun to play with toddlers, but I don't think we should be trying to pull it on the taxpayers.

So, as I said, Mr. Speaker, my decision was not an easy one. But I think it was the right one. I hope that next year the choice will be different. I hope that the House will do its work the way it should be done, on time and in keeping with the best principles of fiscal responsibility and public accountability. Let us learn, and let us change.

Mr. MCINTYRE. Mr. Speaker, for the record, this is to clarify that the "no" vote I cast today against H.R. 3194, the District of Columbia Appropriations Conference Report for FY 2000, is by no means an indication that I am opposed to the Medicare Balanced Budget Act (BBA) refinement provisions included in this legislation. Indeed, I voted for the Medicare relief package when it came before the U.S. House of Representatives on November 5, 1999, and passed overwhelmingly by a vote of 388 to 25. As Co-Chairman of the Rural Health Care Coalition, I supported this legislation because it clearly represents a step in the right direction toward allaying the current health care crisis facing our nation and mitigating the impact of Medicare cuts mandated by the BBA on health care providers. Unfortunately, my colleagues and I in the House were not given the opportunity to vote on the revised language as free-standing legislation. Rather, it was attached to the D.C. Appropriations Conference Report with various other unrelated measures, including hurricane relief funding. The reason I voted against H.R. 3194 is because we, as a nation, have an obligation to provide the citizens of eastern North Carolina with the necessary emergency aid to recover from three major hurricanes. However, this measure does not go far enough in providing adequate relief to those individuals who need it the most.

Mr. VENTO. Mr. Speaker, I rise in reluctant support of this bill. Approaching almost two months into the Fiscal Year 2000, we are forced to vote on this massive catchall spending bill which covers programs that would normally be funded by five separate appropriations bills. I am not sure if my Colleagues are privy to the substance of this Omnibus Appropriation and it may take months to honestly sort through the ramifications of these provisions included in this careless budget process.

While H.R. 3194 contains important programs to hire additional teachers and police officers, finally fulfill our responsibilities in paying the United Nations (UN) back dues, underwrite and implement the Wye River peace ac-

cords, provide critical debt relief for the world's poorest nations, increase payments to Medicare health care providers and secure land acquisition for the purposes of environmental protection and conservation, this measure extends the Northeast Dairy Compact which adversely affects Minnesota's dairy farmers, and relies upon budget gimmicks in order to mask the perception of spending any of the Social Security Insurance Trust Fund.

Through across-the-board cuts, gimmicks and scorekeeping adjustments, the Republicans claim to keep their promise to balance the budget excluding Social Security. However, the CBO recently scored the Republican budget plan and verified that they have broken their promise by spending the Social Security surplus long before this measure was even considered.

According to CBO, the appropriations bill turns a \$14.4 billion on-budget surplus into a \$17.1 billion on-budget deficit. No cooking the books or scorekeeping gimmicks can deny the facts of the bottom line. This clearly shows that the Republicans are spending the Social Security surplus rather than saving it. It is indeed ironic that the Republicans are publicly attacking Democrats for "raiding Social Security" when their own Republican appointed budget scorekeeper, CBO, tells us that it is their appropriations that have already created an off-budget incursion into Social Security funds. Unfortunately the overall process of combining five appropriations bills, with numerous policy matters and attaching dozens of authorization bills which should be considered separately is an admission by the GOP leaders that they cannot deal with policy fairly and give Members of the House a vote on each. Rather the Leadership has stuffed this Omnibus Bill to the point of making it resemble a Thanksgiving turkey! What a sad way to do our work and serve the people.

The American public time and again has rated education as a top priority . . . above tax cuts, above foreign affairs, above Pentagon spending, even above gun safety and protecting social security. While I am not discrediting the need for Congress to address all of these issues, it is important that we listen to what constituents are saying. Republican rhetoric boasts a strong commitment to education, claiming funding levels exceeding last year's appropriations and above the president's requests. However, I have concerns about the methods used; this legislation resembles a pea and shell game, shifting funding responsibility and using advance FY2001 appropriations. The bottom line is that in terms of actual FY2000 funding the agreement actually provides less than last year's appropriations and bodes problems for FY2001 education budgeting.

However, I will concede that this final compromise is certainly a bit more palatable than the original legislation. I am pleased that additional funds have been designated for President Clinton's class size reduction program which just last year was agreed to, but denied funding by the GOP up and to the Administration's insistence, the increased flexibility for the use of these funds, for teacher qualification and certification is a plus. Important programs such as Goals 2000, School-to-Work, Education Technology, and 21st Century

Community Learning Centers have been sufficiently funded. Additionally, I am supportive of increased funding for student financial aid. These investments in education are the smartest spending that our national government can make.

Although I would have preferred to see more funds dedicated to the President's initiative to hire new community police officers in FY 2000, I was pleased to see increased funding for a program to address violence against women.

This bill provides necessary relief to alleviate some of the Balanced Budget Act of 1997 (BBA) cuts on health care providers in my district and throughout the nation. I am particularly pleased that a clerical error which would have severely underfunded Minnesota hospitals that care for a disproportionate share of low-income individuals has been corrected. Also, this measure recognizes the importance of National Institutes of Health (NIH) research in addressing public health issues such as cardiovascular diseases, Alzheimers and diabetes. Regrettably, overall Medicare reform, prescription drug coverage and the imbalance in Medicare payment levels which adversely impacts seniors in Minnesota have not been addressed this session. I am also disappointed that the bill will continue a pattern of cuts to the Social Services Block Grant program which provides important social services to the elderly, poor and developmentally disabled.

I am pleased that I can, in good conscience, look favorably upon the provisions contained in the Interior funding portion of this legislation. Although it does not satisfy all of my concerns regarding many of the anti-environmental riders, the Democratic conferees and the Administration were successful in thwarting the most egregious of the riders to preserve the quality of our lands. Specifically, I commend the conferees for choosing to keep the authority of the Clean Water Act intact regarding mountaintop mining, allowing the Bureau of Land Management to cancel, modify or suspend grazing permits after their environmental review is complete and delaying the new formula for oil royalty valuation only until March 15, thus permitting implementation after nearly three years of GOP stalling to the benefit of the oil companies. In addition, I am also pleased to see that additional funds have been added to the Land and Water Conservation Fund (LWCF) for high priority land acquisitions. Both the federal and stateside portion of this program have been woefully underfunded for years. Hopefully this signals the end of that era and a renewed commitment to this vital LWCF law.

I would like to express my displeasure with Congress' inability to fund important clean air programs for fear that somehow the Administration will secretly implement the clean air agreement reached under the Kyoto Protocol. It is vitally important that this nation put the health and welfare of its citizens before the profit of utilities and big business. The costs associated with protecting the public will save this nation money and lives.

After three years of holding up UN arrears by linking restrictive language to family planning organizations, the President was forced to capitulate and prohibit funding for preventive family planning. The choice: lose the U.S.

vote in the UN or pay the dues with restrictive, unworkable conditions. Unfortunately, this policy will lead to an increase in unintended pregnancies, maternal deaths, and in abortions abroad. I will point out, however, that the President can waive these "Mexico City" provisions on the condition that overall family planning assistance would then be cut by \$12.5 million. No doubt the President will find it necessary to do so to the predictable howls of protest by the proponents of these limits. Some it would seem want a political issue, not a workable policy.

I am pleased that the President's request of \$1.8 billion to help implement the Wye River peace accords between Israel, the Palestinian Authority and Jordan was included. With this important funding, Israel and Palestine can move head with the Wye agreement and final status negotiations. This financial assistance is vital for the future of the peace process and all more critical for the United States to do its part in meeting its commitments and obligations. The United States has a deep commitment to Israel and its Arab partners in the peace process to facilitate the ongoing negotiations. Our continuing support now is both the right thing to do and serves to promote stability in the Middle East.

Moreover, I especially applaud the inclusion of debt relief for the world's poorest countries. Debt relief is one of the most humanitarian and moral challenges of our time. The agreement is very similar to the final product of H.R. 1095, which passed out of the Banking Committee earlier this month. Albeit the agreement deleted regrettably several amendments to the bill, including my amendment which requires the President to take into account a nation's record on child labor and worker's rights before granting debt relief.

Specifically, the agreement would authorize U.S. support for an IMF proposal to sell some of its gold reserves to finance debt forgiveness and participate in the HIPC initiative. The reevaluation of the IMF's gold reserves and the profits from these sales, roughly \$3.1 billion, could only be used for debt relief. In addition, H.R. 3194 includes \$123 million for bilateral debt relief, which is about equal to the President's original request. Unfortunately, the first of four \$250 million in payments for multilateral debt relief was not included, thus delaying action on the President's pledge with other industrial nations to forgive \$27 billion in foreign debt owed by HIPC countries.

In regards to the Satellite Home Viewer Act provisions included in this agreement, I am pleased that this measure has finally dropped language which would have authorized \$1.25 billion in loan guarantees for satellite companies to provide local-into-local service in rural areas. I had jurisdictional, policy and cost concerns due to the fact that this loan provision was not cleared through the Banking Committee, which led me to vote against the original conference agreement of the Satellite bill last week.

In conclusion, this bill provides essential increases in education, law enforcement, and public health initiatives; reaffirms our commitment to the UN, Israel and Palestine, authorizes debt relief for the world's poorest, and seeks to protect the environment. At the same time, this measure is a budgetary bag of tricks

which offsets requires across the board cuts that will do mischief into necessary and fundamental federal commitments and consists of clever gimmicks to paper over the promise of breaking the Republicans majority to protect surpluses in the Social Security Trust Fund. But, considering the Republican control of Congress and the state of denial for the past 10 months more work and time would not likely cure the objections I harbor to this funding policy. The Clinton Administration and Democrats in Congress have balanced most of the adverse impacts of this Omnibus budget bill and I shall reluctantly cast a "yes" vote and urge its passage.

Mr. LEVIN. Mr. Speaker, well here we go again. Another year and another last minute, take-it-or-leave-it, catch-all budget that funds most of the government. The Republican Leadership didn't do its homework all year and now they expect a gold star because they got a C on the final exam.

Most Americans will probably find little fault with many of the major provisions of the legislation we are considering today. Although the Republican Majority fought it every step of the way, most Americans support our initiative to hire 100,000 new teachers to reduce class size in our schools. They support the President's program to put more police on the streets in our communities. They support our efforts to strip the harmful anti-environmental riders that threatened the ecological health of our land, water and air. The American people support our efforts to preserve access to health care for older Americans by correcting the excesses of the 1997 Balanced Budget Agreement. On all of these issues and countless others, President Clinton prevailed over the extreme opposition of the Republican Leadership.

The major shortcoming of this agreement is not what's in it; the problem with this bill is what's not in it. As just one example, the vast majority of Americans support managed care reform; indeed, the House passed a strong Patients' Bill of Rights earlier this year. There is one reason, and one reason alone why HMO reform is not included in the package we are debating today: the Republican Leadership does not support meaningful managed care reform.

The Congress also should have acted this year to extend prescription drug benefits to the elderly, too many of whom are being forced to choose between food and medicine. Most Americans support this, I support this, the President supports this. A major reason prescription drug coverage is not included in this budget is because the Republican Leadership does not support it. It's ironic that the Majority spent most of this year trying to push through a massive and irresponsible tax cut that chiefly benefited the very richest people in America, but was unwilling to even discuss a Medicare prescription drug benefit for seniors.

I remain dismayed that the Majority has also blocked campaign finance reform, a much needed raise in the minimum wage and sensible gun safety measures. In addition, this Congress should have done more to help low-income working families. Despite the good economy, the number of people with health insurance has declined and the number of children going hungry has actually increased. We

should have taken action on all these fronts this year.

Finally, despite the repeated claims of the Majority that they are not spending even one dime of the Social Security surplus, the fact is that this agreement falls short of their rhetoric. As with the previously adopted appropriations bills, the budget package before us contains numerous accounting gimmicks whose only purpose is to disguise the real cost of this legislation. I don't think anybody is fooled by all the smoke and mirrors. What is the point of having a budget process when the Leadership of this body consistently refuses to follow it?

I will vote for this agreement, but I do so reluctantly. At the end of the day, the lasting legacy of this session of Congress will be shaped more by what we failed to accomplish this year than what we're doing in this legislation today.

Mr. DINGELL. Mr. Speaker, once again a more curious process has produced an omnivorous end-of-session spending bill. It is fair—and accurate—to say that most Members of this body would fail a pop quiz on the contents of this legislation, given that it only became available for review late this morning, replete with handwritten additions, deletions and elisions.

Almost in spite of itself, this Congress has written legislation that does some good.

For instance, one of the many extraneous provisions included in this package is the Satellite Home Viewer Act. Consumers will greatly benefit from this bill. They will finally be legally entitled to receive their local broadcast stations when they subscribe to satellite television service. No longer will consumers be required to fool with rabbit ears, or erect a huge antenna on their rooftop, to receive their local network television stations. The satellite dish many consumers buy this holiday season finally will be able to provide them with a one-stop source for all their television programming.

The bill also will allow satellite companies to compete more effectively with cable systems, and provide a real-market check on the rates they charge their consumers. If cable rates continue to climb, as they have done for the past several years, consumers will be able to fight back: they will have a real choice for their video programming service.

I am also pleased that this legislation rectifies some of the consequences of the 1997 Balanced Budget Act for Medicare beneficiaries and providers.

Nonetheless, the fact remains that we are voting on a matter of great importance to the 38 million Americans covered by Medicare, yet most members have had only hours to examine all of the provisions in this bill. Doubtless, there are secret little provisions in this bill that help special interests and are known only to Republicans.

Our Republican friends have also made a great fuss about the need to protect the Social Security surplus, but the bill they are offering is not paid for. Preliminary estimates show that the Medicare provisions of this bill cost almost \$16 billion. Unpaid for, the bill will shorten the life of the Medicare Trust Fund and increase premiums to seniors. Apparently, fiscal responsibility only suits the Republican Party when it is convenient.

I am also concerned that in some areas, we may not have done enough. In the area of quality, this bill moves backward rather than forward. The bill further removes Medicare managed care plans from oversight and some quality requirements. They have even exempted some plans from the requirements entirely. Who knows what other nefarious provisions lurk within the dark corners of this bill?

The compromise on Community Health Centers is a good beginning, but a permanent solution is needed. I applaud the willingness of the Republican leadership to work with us to find a middle ground on assistance for these providers who serve a large number of America's uninsured and lower-income families.

For women with breast or cervical cancer, however, this bill is inadequate. We had the opportunity to include a bill by my colleague Ms. ESHOO that would have provided great assistance in treating breast and cervical cancer, but this evidently was not a priority for the Republican leadership.

The Republican leadership is at least consistent in its coddling of managed care companies. While the conferees on the Patients' Bill of Rights have yet to hold their first meeting, this legislation gives nearly \$5 billion to managed care plans, despite considerable evidence from the General Accounting Office that these plans are already overpaid. At the same time, this bill omits what is perhaps the most important relief that Congress could offer to Medicare beneficiaries: relief from the high cost of prescription drugs. Seniors should not be forced to choose between food and needed medicines.

Mr. Speaker, my modest experience as a legislator teaches me that even the best legislation inevitably contains flaws and compromises. But the entire process by which the Republican leadership produced this massive package and brought it to the floor today is a travesty, and I hope to never again see it repeated.

In addition, Mr. Speaker, the BBA contains a study by GAO of the Community Health Centers payments under which the conferees intend that the GAO should look at all State programs including those with 1115 waivers.

Mr. STEARNS. Mr. Speaker, is this a perfect bill? The answer is no. There are several provisions contained in this measure that I do not and did not support in the past. However, there are also many provisions contained in this funding bill that I do support. They are as follows.

The give-backs to Medicare that are included in H.R. 3624 are tremendously important to the people in my district. I want to compliment the conferees of the Committees on Commerce, Ways and Means and the Senate Finance Committee who worked so diligently to reach an agreement to ensure that Medicare beneficiaries have access to health care services. This measure will be of assistance to those who rely on Medicare for their health care needs.

I have worked closely with Chairmen BILIRAKIS and BLILEY to ensure that Medicare+Choice receives an increase in funding because we need to make sure that seniors have the same choices available to them as other Americans.

H.R. 3624 restores funding to the Medicare+Choice program. It also makes

some positive changes that will offer Medicare beneficiaries more flexibility in a number of ways. First and foremost, it authorizes incentives for health care providers to enter counties that do not currently offer managed care plans. This is a key provision because I represent a rural area with very few HMOs.

It also allows Medicare+Choice beneficiaries an open enrollment period when they learn their plan is ending its contract. In addition, it would slow down the implementation of Medicare+Choice payment rates to reflect the differences in enrollees' costs. Lastly, it would provide beneficiaries more time to enroll in Medicare+Choice or Medigap plans when health plans withdraw from the market.

The bill is also endorsed by many organizations including the National Rural Health Association and the American Hospital Association. The bill contains specific provisions to correct many of the unintended consequences of the BBA that have adversely affected the rural communities.

It also strengthens the Medicare rural hospital critical access hospital program and expands Graduate Medical Education opportunities in rural settings.

Another important provision provides payments for orphan and cancer therapy drugs and new medical devices. I have focused on the issues my constituents said they wanted fixed, but there are certainly other improvements that I have not listed here today.

The Medicare Balanced Budget Refinement Act will provide much needed relief to Medicare beneficiaries and providers alike. It may not provide everything that has been requested, but it does address the issues with which my constituents have greatest concern.

This appropriation package also provides for a study to be conducted on the role of Ft. King in the Second Seminole war. This is something I have tried to accomplish for several years and I am pleased that it is moving forward. Ft. King is an important historical site located in Ocala, Marion County, Florida. I also want to thank Chairman REGULA for his help in getting this language included in the Interior bill.

I also was successful in securing funding for an aircraft training at an Aviation/Aerospace Center of Excellence project operated by the Florida Community College at Jacksonville utilizing resources at Cecil Field. This is an important instructional program that will prepare students to take the appropriate certification exams which are required by the Federal Aviation Administration for employment in aircraft maintenance. This is tremendously valuable since there is no such training program currently available in Northeast Florida.

Another important provision that I was able to help get included is the prohibition on the Public Broadcast Stations from sharing their donor lists with political parties or outside parties without the donors consent. We must ensure that taxpayer dollars are not misused for political purposes.

This measure also contains language allowing consumers choices when it comes to getting their television signals. As a member of the Telecommunications Subcommittee I worked to ensure that consumers can receive local television stations and further worked to ensure that they will not lose their distance signals.

Notwithstanding all these things that are good within the bill, I am concerned about the process. This bill forward funds much too much money. Also, I am concerned with the whole process of not being able to read the five (5) bills. Putting all five bills together in one omnibus spending bill is not good and does not serve this House well.

Mr. KLECZKA. Mr. Speaker, we have apparently not learned from history. The Omnibus Appropriations bill the House is considering today is very similar to the budget-busting, catch-all bill that Congress passed last year. This time the bill, which was filed at 3:00 a.m. this morning in the cloak of darkness, measures one foot tall. It is impossible for Members to know all the details included in this massive measure, including the type and amounts of pet projects inserted without debate. Sadly, this omnibus bill comes to us after we heard the Republican Leadership maintain their commitment to make the trains run on time and send the President 13 separate appropriations bills.

Although this bill contains many favorable provisions, such as increased nursing home funding for the most vulnerable seniors in the Medicare program and an agreement to permit satellite TV carriers to transmit the signals of local broadcast stations back to subscribers in the same local market, the negative aspects outweigh the good and therefore I must oppose this legislation.

The Republican Leadership made a handshake agreement that they would not include dairy legislation on any appropriations bill. They have gone back on their word by attaching language that will maintain the depression-era milk pricing system and stop the Department of Agriculture's modest milk market dairy reforms. This provision will hurt Wisconsin dairy farmers and consumers nationwide.

I am also concerned that this bill does not go far enough to prevent the implementation of the Department of Health and Human Services organ allocation rule. The HHS proposal will take much-needed organs away from Wisconsin and threatens the very existence of our nation's smaller transplant centers. While I welcome any delay of this ill-conceived policy, I am extremely disappointed that Congress was unwilling to postpone the restructuring of the organ allocation system until we can address this issue in a more comprehensive manner.

Perhaps the most egregious parts of this bill are the accounting gimmicks used to "pay for" the programs within the bill. The .38% across-the-board spending cut allows the individual agencies and departments to determine which programs and accounts shall be subject to the spending reduction. However, no project can be cut by more than 15%. This means that wasteful and inappropriate pork-barrel spending projects, such as Naval ships not even requested by the Navy, cannot be targeted for elimination.

Another troubling gimmick is the bill's use of forward funding. Delaying payments for defense contractors, delaying veterans medical care obligations, and rescinding Section 8 housing program funds are just a few of these accounting gimmicks which add up to over \$4 billion. Further so-called "savings" are achieved by delaying the paychecks of our

military personnel and payments made to recipients of social services block grants.

Furthermore, roughly one-third of all education funding being spent this fiscal year is counted against next year's spending caps. This will spend nearly \$12.4 billion that will not be counted until next year, subverting the budget caps. Even though this spending is within the Budget Caps, it still results in a Fiscal Year 2000 outlay that taps into Social Security funds. To top it off, \$4.5 billion of the Census funding is classified as emergency spending and thus does not count against the spending caps. This too, spends funds from the Social Security Trust Fund—for an activity the government has performed like clockwork for every ten years for over 200 years! Not only is the Census called an "emergency," but also included in the long list of surprise spending by the government are funds for the Head Start program and the Low-Income Home Energy Assistance program.

Finally, even though this bill contains everything but the kitchen sink, it does nothing to extend the life of Social Security or to modernize the Medicare Program. This budget bill also does not offer a plan to allow seniors to buy prescription drugs at an affordable cost, nor does it contain legislation to allow patients and doctors to make medical decisions instead of HOMO bureaucrats.

For these reasons Mr. Speaker, I must oppose this bill.

Mr. POMEROY. Mr. Speaker, I rise in opposition to H.R. 3194, a \$385 billion omnibus appropriations bill for fiscal year 2000. Although the bill includes many beneficial provisions that I have worked hard to advance, I regret that they have been tied to a package that is deeply flawed in both procedure and substance.

This bill violates a rather simple rule of good legislating—members ought have the opportunity to review legislation before they are asked to cast their vote. They clearly have not had that opportunity here. This mammoth bill, more than a foot thick and thousands of pages long, was filed after 3 a.m. this morning. It became available to view only a few short hours ago. In reality there is not one member of the House who knows all of what is in this bill. All we know for certain is that there are a multitude of provisions here that would never have survived the normal legislative process.

Second despite all the rhetoric of the majority party, this bill spends at least \$17 billion of the Social Security surplus. The Congressional budget Office, like all of us, has not had the opportunity to review this legislation, and, as a result, we are voting without the benefit of an official cost estimate. The previous CBO report, however, that did not include the additional spending added in negotiations with the White House, estimated that the surplus generated by Social Security will be tapped for \$17 billion.

This bill is stuffed full of accounting gimmicks to create that illusion that it does not spend Social Security surplus. The gimmick of choice was to artificially postpone spending just beyond fiscal year 2000 into 2001. Unfortunately, this gimmick results in even more money from the Social Security surplus being spent. If you add all the spending that has been pushed into the next fiscal year and sub-

tract the total from the expected budget surplus in 2001, you'll find that not only does this bill spend Social Security surplus in 2000, but it spends more than \$20 billion from Social Security in 2001.

As I said earlier, Mr. Speaker, I regret that this bill is so flawed in certain important respects, because in many other areas it deserves strong support. For instance, I strongly support the increases in funding for federal education programs in this legislation, including the class size reduction initiative. Last year, the class size reduction initiative provided North Dakota schools with over \$5 million in additional resources, and I am pleased that this legislation increases funding for that program by 10 percent. This legislation fulfills the promise to our children made last year by ensuring that schools in North Dakota and across the country can continue to pay the dedicated teachers recruited last year.

Second, I am pleased that Congress has addressed the unintended financial consequences of the Balanced Budget Act of 1997 (BBA) on health care providers. As a member of the Congressional Rural Health Care Coalition, I have worked long and hard to address these problems on behalf of the hospitals, home health agencies and nursing homes in North Dakota. These health care providers have done their best to maintain a high standard of care, even under the constraints of the BBA. I believe it is time that Congress provide them with the relief they desperately need.

I was pleased to have voted for H.R. 3075, the Medicare Balanced Budget Refinement Act, in the House of Representatives. This measure, which passed by an overwhelming, bipartisan majority, was an important first step toward addressing the problems of the BBA. I look forward to working with health care providers in my state to come to an agreement on further relief in the coming year.

Finally, this measure also fulfills the promise we made to America's communities, by continuing funding for the COPS program. The dedicated community police officers funded through this program, many of whom serve my constituents in North Dakota, have helped keep our families safe, and they deserve our support.

In summary, Mr. Speaker, this bill contains many laudable provisions that have, unfortunately, been attached to legislation I simply cannot support. For this reason, I urge my colleague to vote "no" so that we can advance the positive features of this bill in legislation that is fiscally sound and protects Social Security.

Ms. WOOLSEY. Mr. Speaker, I rise today to express my disappointment with this omnibus appropriations bill.

While this appropriations bill is good for education and does make good on our commitment to the United Nations, this bill also contains a provision that compromises women's rights around the world.

Republican extremists, in their zeal to limit women's rights, left the President no choice but to accept a budget compromise that links the payment of the United Nations dues with restrictions on international family planning. That is wrong.

This compromise is a bad deal for women around the world.

Family planning shouldn't be linked to United Nations dues. It has nothing to do with family planning. This is about our fundamental responsibility as the remaining superpower to support the United Nations. This is not a trade-off.

Mr. Speaker, women are not negotiable.

The Republicans need to stop attacking women's rights and they need to start living up to our international obligations—no strings attached.

By adopting this appropriations language linking the payment of our United Nations dues to restrictions on family planning, we set a dangerous precedent.

Once legislative language is adopted, it will be hard to remove. Further, the waiver provision will be meaningless in the future if there's an anti-choice President in the Oval Office. The waiver is only as strong as the President who would sign it.

For every step backward that we are forced to take on family planning, we will have to take two steps forward to maintain progress.

We are disappointed by the political posturing that created this budget deal that hurts women. But make no mistake about it, the women of this House are as committed as ever to protecting the rights of women around the world.

Mr. DAVIS of Virginia. Mr. Speaker, this is the 6th time the D.C. Budget has been on the floor in the last 6 months. Let's hope our collective "sixth sense" will carry the day.

Way back in July the D.C. Appropriations Act was heralded with virtual unanimity. It was one of the first appropriation bills to hit the floor, and I joined many others on both sides of the aisle in showering Chairman ISTOOK with well-deserved praise.

That was two vetoes and three conference reports ago. Ironically, the D.C. Budget became a necessary vehicle for other matters.

The D.C. Budget incorporates all appropriations for the District of Columbia. This includes not only federal funds, but all locally generated revenue as well, which accounts for most all of the Budget. This local part of the D.C. Budget was passed in consensus form by the city's elected leaders and the Control Board.

When Congress did its constitutional duty and passed the D.C. Budget, not once but twice, I joined others in urging the president to approve it. I compliment the appropriators and conferees for their patience and persistence in continuing to refine the bill following the vetoes. I am particularly pleased by the addition of needed resources to address the environmental necessity of cleaning up the old Lorton Correctional Complex.

The resources in this budget will help the Nation's Capital continue its reform efforts.

While much progress has been made in the District, there are still enormous problems which must be addressed. The D.C. Subcommittee I chair will hold a hearing on December 14 to gather information on many of these questions.

A substantial number of city functions remain in receivership, including foster care and offender supervision. A recent audit and the Annual Report submitted by the Control Board to Congress highlights the crisis we are facing in this area. Our Congressional review can be particularly helpful in working through these concerns.

The D.C. Budget funds the local court system. These courts are going through an important process right now that demands our continuing interest. The GAO, at our request, has been supplying very helpful background material.

The House passed this month legislation I sponsored with ELEANOR HOLMES NORTON and others to enhance college access opportunities for D.C. students. I commend the president for signing that bill. Just this week it was officially designated as Public Law 106–98. I'm very proud of that. I thank the appropriators for working with me to make the money for that landmark new law subject to the authorizing enactment.

There is additional much-needed money in this budget for public education, including charter schools.

This budget contains the largest tax cut in the city's history, which is central to our goal of retaining and attracting economic development.

There is money in this budget to clean up the Anacostia River, open more drug treatment programs, and study widening of the 14th Street Bridge.

We've worked long and hard together to turn this city around. The D.C. Budget before us is another step in helping to keep us moving in the right direction.

Mr. COBLE. Mr. Speaker, today represents the culmination of a multi-year-long process to update the copyright licensing regimes covering the retransmission of broadcast signals. When the Satellite Home Viewer Act was first passed in 1988, satellite dishes were a rare sight in communities across America, and the dishes that did exist were almost all large, "C-band" dishes. Today, the satellite dish has become ubiquitous, and the dishes that most people use are now much smaller—only 18 inches across. The small dish industry alone has more than 10 million subscribers, with nearly two million other households still relying on large dishes. With this massive change in the marketplace, we are overdue for a fresh look at the laws governing retransmissions of television station programming.

The existing provisions of the Satellite Home Viewer Act allow satellite carriers to retransmit copyrighted programming for a set fee to a narrowly defined category of customers. The Act thus represents an exception to the general principles of copyright—that those who create works of authorship enjoy exclusive rights in them, and are entitled to bargain in the marketplace to sell those rights. In almost all other areas of the television industry, those bedrock principles work well. Indeed, virtually all of the programming that we enjoy on both broadcast and nonbroadcast stations is produced under that free market regime. Because exclusive rights and marketplace bargaining are so fundamental to copyright law, we should depart from those principles only when necessary and only to the most limited possible degree. Statutory licenses represent a departure from these bedrock principles, and should be construed as narrowly as possible.

Reflecting the need to keep such departures narrow, the existing Satellite Home Viewer Act permits network station signals to be retransmitted only to a narrowly defined group of

"unserved households," i.e., those located in places, almost always remote rural areas, in which over-the-air signals are simply too weak to be picked up with a correctly oriented, properly functioning conventional rooftop antenna. The definition of an "unserved household" continues to be the same as it is in the current statute, i.e., a household that cannot receive, through the use of a properly working, stationary outdoor rooftop antenna that is pointed toward the transmitter, a signal of at least Grade B intensity as defined in Section 73.683(a) of the FCC's rules. The courts have already interpreted this provision and nothing in the Act changes that definition. The "Grade B intensity" standard is and has always been an "objective" signal strength standard—not, as some satellite carriers claimed, a subjective picture quality standard. (In fact, as the courts have discussed, Congress expressly rejected a subjective standard in first enacting the statute in 1988.) The objective Grade B intensity standard has long been used by the FCC and the television engineering community to determine the level of signal strength needed to provide an acceptable television picture to median, unbiased observers. Few, if any, subscribers in urban and suburban areas qualify as "unserved" under this objective, easy-to-administer definition.

The existing compulsory license for "unserved households," was not, however, designed to enable local TV stations to be retransmitted to their own local viewers. Congress has never before been asked to create such a license, because technological limitations made the local-to-local business unthinkable in 1988 and even in 1994, when Congress passed the first extension of the Satellite Home Viewer Act. Today, however, local-to-local service is no longer unthinkable. In fact, two satellite companies, DirecTV and EchoStar, stand ready to offer that service, at least in a limited number of markets, immediately.

To help local viewers in North Carolina and across the country, and to assist satellite companies in competing with cable, I have worked with my colleagues to help craft a new copyright statutory license that will enable local-to-local retransmissions. Today, we can finally celebrate the fruits of our efforts over many months of hard work and negotiation. The bill before the House reflects a carefully calibrated set of provisions that will, for the first time, authorize TV stations to be retransmitted by satellite to the viewers in their own local markets.

The bill will also extend, essentially unchanged, the current distant signal compulsory license in Section 119 of the Copyright Act. The only significant changes to that provision are that (1) the mandatory 90 day waiting period for cable subscribers will no longer be part of the law; (2) royalty rates for distant signals will be reduced from the marketplace rates currently in effect; (3) a limited, specifically defined category of subscribers subject to recent court orders will have delayed termination dates under the bill; (4) the bill will limit the number of distant signals that a satellite carrier may deliver even to "unserved households"; and (5) the bill will require satellite carriers to purchase rooftop antennas for certain subscribers whose service has been turned off by court order. Except for these specific

changes in Section 119, nothing in the law we are passing today will take away any of the rights and remedies available to the plaintiffs in copyright infringement litigation against satellite carriers. Nor will anything in the bill (other than the specific provisions I have just mentioned) require any change whatsoever in the manner in which the courts have enforced Section 119.

I trust that the courts will continue to vigorously enforce the Copyright Act against those who seek to pretend it does not apply to them, including any satellite companies that have not yet been subject to injunctive relief for infringements they have committed. Indeed, the very premise on which Congress creates statutory licenses is that the limitations on those licenses will be strictly respected; when satellite carriers go beyond those limitations, they not only infringe copyrights, but destroy the premise on which Congress agreed to create the statutory license in the first place.

I want to say a word about the "white area" problem and about the delayed terminations of certain categories of subscribers. In particular, I want to express my extreme displeasure with the conduct by the satellite industry over the past few years. It is apparent, and at least two courts have found in final judgments (one affirmed on appeal), that satellite companies have purposely and deliberately violated the Copyright Act in selling these distant network signal packages to customers who are obviously unqualified. Those decisions have correctly and properly applied the Copyright Act. Whether or not satellite companies like the law, they have no right to merely disregard it. The "turnoff" crisis was caused by the satellite industry, not the Congress, and I do not appreciate having an industry take innocent consumers as hostages, which is what has happened here.

Now we as members of Congress, have been asked to fix this problem created by satellite industry lawbreaking. The bill reflects the conferees' best effort to find a solution to a problem that the satellite industry has created by signing up millions of ineligible customers. Unfortunately, the solution the conferees have devised—temporary grandfathering of certain categories of ineligible subscribers—may seem to amount to rewarding the satellite industry for its own wrongdoing. I find this very troubling, even though I understand the impetus to protect consumers who have been misled by satellite companies into believing that essentially everyone is eligible for distant network signals. In any event, let me be very clear: with the exception of delayed termination dates for certain subscribers, nothing in this bill in any way relieves any satellite company from any remedy whatsoever for any lawbreaking, past or future, in which they may engage. To list just a few, nothing in the bill will relieve any satellite carrier from any court order (a) requiring immediate termination of ineligible small-dish subscribers predicted to receive Grade A intensity signals from any station of the relevant network, (b) requiring strict compliance with the Grade B intensity standard for all signups after the date of the court order, (c) requiring the payment of attorney's fees pursuant to Section 5.5 of the Copyright Act or payment for testing costs pursuant to

Section 119(a)(9), or (d) imposing any statutorily mandated remedy for any willful or repeated pattern or practice of violations committed by a particular satellite carrier. Congress has determined the outer limits of permissible grandfathering in this bill, and courts need not entertain an arguments for additional grandfathering. And I should emphasize that the only subscribers that may have service restored pursuant to the grandfathering provisions of this Act are those that have had their service terminated as a result of court orders, and not for any other reason.

As Chairman of the Subcommittee on Courts and Intellectual Property of the House Judiciary Committee, I also want to make clear that Congress is not in any way finding fault with the manner in which the federal courts have enforced the Satellite Home Viewer Act. To the contrary, the courts (including the United States District Court for the Middle District of North Carolina, the Fourth Circuit, and the United States District Court for the Southern District of Florida) have done an admirable job in correctly carrying out the intent of Congress which established a strictly objective eligibility standard that applied to only a tiny fraction of American television households. Although the conferees have reluctantly decided to deal with the unlawful signups by postponing cutoffs of certain specified categories of consumers, that prospective legislative decision—to which Congress is resorting because of the no-win situation created by past satellite industry lawbreaking—does not reflect any criticism whatsoever of the federal courts. And I should emphasize that we have re-enacted, intact, the procedural and remedial provisions of Section 119, including, for example, the “burden of proof” and “pattern or practice” provisions that have been important in litigation under the Act.

The bill will require satellite carriers that have turned off ineligible subscribers pursuant to court decisions under section 119 to provide those subscribers with a free rooftop antenna enabling them to receive local stations over the air. This provision may redress, to some degree, the unfairness of appearing to reward satellite carriers for their own lawbreaking. The free-antenna provision is a pure matter of fairness to consumers, who were told, falsely, that they could receive distant network signals based on saying “I don’t like my TV picture” over the telephone. I trust that many North Carolinians will benefit from the satellite carriers’ compliance with this important remedial provision.

I should briefly discuss the addition of the word “stationary” to the phrase “conventional outdoor rooftop receiving antenna” in Section 119(d)(10) of the Copyright Act. As the Chairman of the Subcommittee on Courts and Intellectual Property of the House Judiciary Committee, which has jurisdiction over copyright matters, and as the original sponsor of this legislation, I want to stress that this one-word change to the Copyright Act does not require (or even permit) any change in the methods used by the courts to enforce the “unserved household” limitation of Section 119. The new language says only that the test is whether a “stationary” antenna can pick up a Grade B intensity signal; although some may have wished otherwise, it does not say that the an-

tenna is to be improperly oriented (i.e., pointed away from the TV transmitter in question). To read the Act in that way would be extraordinarily hypocritical, since “stationary” satellite antennas themselves must be perfectly oriented to get any reception at all. In any event, the Act provides controlling guidance about antenna orientation in Section 119(a)(2)(B)(ii)(II) of the bill, which specifies that the FCC’s existing procedures (requiring correct orientation) be followed. See 47 C.F.R. § 73.686(d), Appendix B, at ¶(2)(iv); see also FCC Report & Order, Dkt. No. 98–201, at ¶59 (describing many precedents calling for correct orientation). A contrary reading would leave the Copyright Act with no fixed meaning at all, since while there is a single correct way to orient an antenna to receive a particular station (which is what the Act assumes), there are at least 359 wrong ways to do so as one moves in a circle away from the correct orientation.

A contrary reading would also fly in the face of the text of the Act, which makes eligibility depend on whether a household “cannot” receive the signal of particular stations. The Act is clear: if a household could receive a signal of Grade B intensity with a properly oriented stationary rooftop antenna of a particular network affiliate station, the household is not “unserved” with respect to that network.

The Copyright Act amendments also direct courts to continue to use the accurate consumer-friendly prediction and measurement tools developed by the FCC for determining whether particular households are served or unserved. I understand that the parties to court proceedings under Section 119 have already developed detailed protocols for applying those procedures, and nothing in today’s legislation requires any change in those protocols. If the Commission is able to refine its already very accurate “ILLR” predictive model to make it even more accurate, the courts should apply those further refinements as well. But in the meantime, the courts should use the accurate, FCC-approved tools that are already available, in the same way in which they are doing now. As I mentioned, nothing in the Act requires any change whatsoever in the manner in which the courts are using those FCC-endorsed scientific tools.

The Act does authorize the Commission to make nonbinding suggestions about changes to the definition of Grade B intensity. (The definition of Grade B intensity is, of course, separate from FCC decisions concerning particular methods of measuring or predicting eligibility to receive network programming by satellite, as the FCC’s February 1999 SHVA Report and order discusses in detail.) Any suggestions from the FCC about the definition of Grade B intensity will have no legal effect whatsoever until and unless Congress acts on them and incorporates them into the Copyright Act.

The conferees and many other members of this body have worked hard to achieve the carefully balanced bill now before the House. We have spent the better part of four years working with representatives of the broadcast, copyright, satellite, and cable industries fashioning legislation that is ultimately best for our constituents. The legislation before us today is not perfect, but it is a carefully balanced compromise. The real winners are our constitu-

ents, who can expect to enjoy local-to-local satellite delivery of their own hometown TV stations in more and more markets over the next few years.

I want to thank the chairman of the committee on the Judiciary, the gentleman from Illinois (Mr. HYDE), the ranking member, the gentleman from Michigan (Mr. CONYERS), as well as the subcommittee ranking member, the gentleman from California (Mr. BERMAN) for their support and leadership throughout this process. I also want to recognize the contributions of the leadership of the gentleman from Virginia (Chairman BLILEY); the ranking member, the gentleman from Michigan (Mr. DINGELL); the subcommittee chairman, the gentleman from Louisiana (Mr. TAUZIN); the gentleman from Ohio (Mr. OXLEY); and the ranking member, the gentleman from Massachusetts (Mr. MARKEY), who worked with us tirelessly to bring this to the Floor. Finally, I want to thank my fellow Subcommittee members, the gentleman from Virginia (Mr. GOODLATTE and Mr. BOUCHER) for their service on the committee of conference. I urge all Members to support this constituent-friendly legislation.

Mr. MOORE. Mr. Speaker, I intend to vote against the omnibus appropriations bill that is before us today. No respectable business would operate this way—and neither should our government.

I did not come to Congress to engage in business as usual. The people of Kansas’ Third District expect more of us. As Congress has done for too many years, today it will be voting on a bill estimated at 2,000 pages, which no one in this chamber has read, or even had the opportunity to give a cursory review. We are asked to vote based upon sketchy summaries of a huge piece of legislation that was filed as a conference report at 3:00 a.m. this morning. Is it too much to ask that we have 24 hours to review and consider a \$395 billion appropriations bill before voting? This bill has not even been printed or placed on-line for our review or for the public’s examination. This is wrong and none of us should be a party to it.

But, more bothersome is that while the bill contains many programs which I have fought for and for which I would vote under normal circumstances, the bill is a lie and a cruel hoax on the American people. The majority claims they have not spent Social Security funds. Just the opposite is true.

There are many things in this bill which I support: increased funding to reduce public school class sizes by hiring qualified teachers and funding teacher training; funding for the National Institutes of Health; payment of the United States’ outstanding debt to the United Nations; increased funding for the hiring of new community police officers; additional funds to preserve and acquire open spaces and ecologically important lands; funds to help implement the Wye River Accord between Israel, the Palestinian Authority and Jordan; and funds for development in the world’s poorest nations and supports an IMF proposal to revalue some of its gold reserves to finance debt forgiveness.

There also, however, are a number of provisions in this bill which I oppose: a cut of \$100 million in veterans’ benefits; payment of the

United Nations arrears is linked to unwarranted restrictions on international family planning funding; funding for the Army's School of the Americas, which has a dismal record of training personnel supporting past military dictatorships in Latin America, who have been engaged in gross human rights violations; and most importantly, this package has not been scored by the Congressional Budget Office; despite the majority's unsupported claims to the contrary, we really do not know what the ultimate impact will be upon Social Security funds. Indeed, of the three major offsets provided in this conference report, only one actually reduces expenditures. The other two—expediting transfers from the Treasury to the Federal Reserve and delaying payments to our military personnel—are accounting gimmicks which start us in a hole in next year's budget process. This is not fiscally responsible and it does not protect Social Security.

Additionally, other non-appropriations measures have been added to this omnibus package at the last possible minute. I would gladly support several of these bills if I had the opportunity to vote on them individually, under regular order. These bills include measures to: increase Medicare payments to hospitals, nursing homes, home health care agencies and other health care providers, providing some financial relief from the Medicare cuts imposed by the Balanced Budget Act of 1997; allow satellite carriers to transmit the signals of local broadcast stations back to subscribers in the same local market and allows satellite subscribers scheduled to lose their distant signals at the end of the year to continue receiving them for five years; and preserve local, low power television stations when the broadcast industry upgrades to digital service.

Under the rules of the House, Congress is supposed to consider thirteen appropriations bills for each fiscal year. Under normal procedures, those bills should come before the House individually, with opportunities for amendment and debate. After a conference report is negotiated, the House should then have the opportunity to vote on each bill, standing alone. Unfortunately, Congress has refused to follow its own rules.

I have only been a member of this body for eleven months, but I understand that the rules and procedures of the House were put in place to protect the rights of all Members to represent fully the interests and concerns of our constituents. We cannot do so when we are confronted with an omnibus conference report which I am told is estimated at 2,000 pages, carries an overall price tag of \$395 billion in fiscal year 2000 appropriations, and countless other provisions, whose consequences we cannot possibly know at this time.

I will vote against this package today and I urge my colleagues to do likewise.

Mr. SENSENBRENNER. Mr. Speaker, I rise reluctantly against H.R. 3194, the District of Columbia Appropriations Conference report. While I support many of the provisions of this legislation, I cannot support any legislation which perpetuates the Northeast Interstate Dairy Compact and does not allow for the modest federal milk marketing order reforms to go into effect. While this legislation maintains a balanced budget and protects Social

Security, which I strongly support, I simply cannot condone its treatment of Wisconsin farmers. I understand the plight of farmers in other regions of the country; however, passing this legislation in an effort to help them directly punishes the farmers in my district, in my state, and throughout the Midwest. This is completely unacceptable and therefore, I must vote against it.

Mr. CROWLEY. Mr. Speaker, I rise today to express my disappointment in the so-called compromise worked out between the White House and the Republican leadership on the payment of U.S. arrears to the United Nations.

Do not be fooled by this slight of hand, there is no compromise. All this does is codify the Smith Mexico City policy in legislation for the first time and include a Presidential waiver that will result in a funding reduction. A funding reduction which will affect the healthcare of women and children around the world.

Mr. Speaker, let me be clear. I support payment of our financial obligation to the United Nations one hundred and ten percent. In fact, I am ashamed that the United States has lost so much prestige in an institution we helped create, in an organization instilled with many of the values we in this country hold so dear.

I am ashamed, Mr. Speaker, because the United States, which should be a respected leader in that world body has squandered its authority by not living up to its commitments. My Republican colleagues, as they've said so often, believe in moral leadership. Well, I ask them, where is the United States' moral leadership when we do not pay our fair share?

Mr. Speaker, paying our U.N. dues is an important national security concern; almost no one disputes this. Former Secretaries of States, former Presidents and former Senate Majority Leaders have all expressed the critical need to pay our arrears. Sensing this urgency, some in this House have placed partisan political considerations above the very real security needs of our country by linking the issue of our payment to the U.N. to the global gag rule on international family planning. For several years now, this linkage has held up the payment of our dues. I would submit an editorial from the November 17, 1999 New York Times which eloquently addresses this issue.

Now, some of my colleagues may question the harm in limiting the activities of international family planning organizations. Still others have deeply felt convictions on the issue of abortion and do not want to see U.S. taxpayer's funds pay for abortions. Not only do I sympathize with these sentiments, I agree with them. And that is exactly why I oppose the codification of the Smith Mexico City policy.

First, U.S. law rightly prohibits, in no uncertain terms, the use of U.S. funds to pay for an abortion, lobby for abortions, and coerce someone into having an abortion or purchase supplies or equipment to perform an abortion. And, no one has ever been able to show any U.S. funds used for this cause. Placing restrictions on the ability of foreign groups to use their own funds to participate in the democratic process and make their voices heard by their own governments is a violation of the sacred American right of free speech. This is just one way which this gag rule will prevent these

organizations from doing their work to protect the health of families.

Second, the best means of preventing the instances of abortions overseas is to promote access to family planning services. Families that are in control and informed about their options are less likely to need or seek abortions. International family planning agencies around the world are committed to providing accurate information to families about their healthcare needs, from stopping the abhorrent practice of female genital mutilation to proper spacing of children to protect the health and well-being of mothers and children. Any reduction in these already under funded organizations, as this deal will ultimately result in, means that real women around the world will not have access to the basic medical information needed to raise their families in a healthy manner.

Mr. Speaker, while I am disappointed in this agreement, I am outraged that the will of a majority of the House was pushed aside to placate a few obstructionists who oppose providing access to family planning programs. In a historic compromise, the House included an amendment to the FY 2000 Foreign Operations Appropriations bill, offered by Congressman JIM GREENWOOD and Congresswoman NITA LOWEY, which provides an acceptable bipartisan and majority supported alternative set of restrictions on U.S. funds for international family planning. The Greenwood/LoweY compromise includes: a requirement that international family planning organizations use U.S. funds to reduce the incidences of abortions; it allows only foreign organizations which are in compliance with its own countries abortion laws to receive U.S. funds; and, it bars family planning aid from organizations which are in violation of their country's laws on lobbying or advocacy activities.

As I stated, a majority in the House supported this compromise, but the Republican leadership chose to ignore it. By ignoring the will of the House and codifying the Smith Mexico City policy, we set a dangerous precedent that will only serve to hurt women and families around the world.

Mr. Speaker, it is a shame that this provision was included in the Omnibus package which has so many other worthwhile programs. Funding for 100,000 teachers to help reduce class size, money for the COPS program, which keeps police on the beat and crime down, as well as other critical priorities supported by myself, my colleagues and a majority of Americans. Because of the inclusion of these key priorities, which will benefit the lives of every American, I will support this Omnibus package. However, I plan to work with my colleagues next year to restore the funding cuts that will result from this so-called compromise.

[From The New York Times, Nov. 17, 1999]

A COSTLY DEAL ON U.N. DUES

President Clinton paid a regrettably high price to win the House Republican leadership's assent to give almost \$1 billion in back American dues to the United Nations. Last weekend, White House bargainers agreed to new statutory language restricting international family planning assistance that the administration had firmly and rightly resisted in the past. Understandably, advocates for women's health and reproductive choice,

even including Vice President Gore, be-moaned that damaging concession and questioned its necessity.

Nevertheless, House approval of the U.N. arrears payments, assuming that final details of the agreement can be worked out and sold to the Republican rank and file, will be a significant achievement. Failure to pay these assessments had undermined the finances of the U.N., weakened American influence there and put Washington's voting rights in the General Assembly at risk. The United States cannot exercise global leadership unless it honors its financial obligations. Nor can Washington reasonably expect other countries to consider Congressional demands for lower American dues assessments in the future until it pays off most of the dues it already owes.

To get the U.N. money approved, the White House compromised on an important issue of principle, and may have encouraged radical anti-abortion crusaders to expand their assault on abortion rights. Under the newly agreed language, foreign family planning organizations that spend their own money to provide abortions or lobby for less harsh abortion laws will now be legally ineligible for American assistance.

As part of the compromise, the administration won the right to waive this restriction if it chooses. But even with the waiver, no more than \$15 million in American assistance can be given to organizations engaged in abortion services or lobbying. That is about the amount such groups got last year. Another part of the deal stipulates that if the administration exercises the waiver the \$385 million budgeted for aid to women's health groups will be reduced by \$12.5 million.

The practical effect of these restrictions is likely to be small, at least for as long as the Clinton administration is in office and invokes the waiver provision. But there is no disguising the political victory it hands the anti-abortion crusaders in the House who were willing to hold American foreign policy to their ideological agenda. Although part of only a one-year spending bill, the language is likely to reappear in future years unless a majority of House members vote to exclude it.

Senate Republicans, including committed abortion foes like Senator Jesse Helms, behaved more responsibly than their House colleagues on this issue. But the House obstructionists held firm, faced down the White House and walked away with a disturbingly large share of what they wanted.

Mr. DAVIS of Illinois. Mr. Speaker, I rise in support of the Foreign Operations Conference Report and I applaud the Foreign Operations Subcommittee for joining together and bringing to the floor a bill to make the world a better place.

This is a good resolution, however I believe it fails to provide an adequate amount of funds for Sub-Saharan African nations, the most needy nations of the world. U.S. leadership and support are critical to the growth of Africa. In the past, our diplomatic efforts and bilateral aid programs have given significant stimulus to democracy-building and economic development. Our contributions leveraged with those of other donations to the programs of the World Bank and in Sub-Saharan Africa have reinforced economic policy reforms and infrastructure development across the continent.

The increase aid and debt relief for Sub-Saharan Africa has significant implications for U.S. interests. First, the progress realized to

date, has stimulated growing interest and opportunities for U.S. business. Second, the emergence of more stable, more democratic governments has given us responsible partners with whom we can address the full range of regional and international issues: settling or preventing conflicts; combating crime, narcotics, terrorism, and weapons proliferation; protecting and managing the global environment; and expanding the global economy.

We must maximize our current efforts to protect and develop the vital human and physical resources that are necessary to drive economic prosperity in Sub-Saharan Africa. By increasing Sub-Saharan Africa aid and debt relief, we will ensure that the United States continues to be constructively engaged with the people of Africa. It's my hope as we approach the time to deliberate over a new Foreign Operations Conference Report we sincerely increase aid and debt relief to these needy nations. Again, I strongly support the Foreign Operations Conference Report and urge all members to vote yes.

Mr. LAFALCE. Mr. Speaker, the victory we have achieved on debt relief is arguably the most important legislative action the Congress has taken this year, and brings real hope to the world's poorest people and countries. It marks an important victory for all of those committed to reducing poverty and improving the standards of living in the world's highly indebted poor countries.

It is a victory for Pope John Paul II, who has said:

"Christians will have to raise their voice on behalf of all the poor of the world, proposing the jubilee as an appropriate time to give thought, among other things, to reducing substantially, if not cancelling outright, the international debt which seriously threatens the future of many nations."

It is a victory for Bread for the World and Oxfam who have pressed consistently and effectively for "using U.S. leadership internationally to provide deeper and faster debt relief to more countries, and directing the proceeds of debt relief to poverty reduction."

It is a victory for the United Church of Christ, which has termed debt relief "one of the foremost economic, humanitarian and moral challenges of our time" (John H. Thomas, President).

It is a victory for the Episcopal Church, which has emphasized that "closely linked with this notion of Jubilee is our heritage of caring for the poor and needy. . . . We must seize this historic opportunity to take moral action, grounded in Scripture and our compassion for those in need (Bishop Francis Campbell Gray)."

It is a victory for the U.S. Catholic Conference which has stated "we cannot let the new millennium begin without offering hope to millions of poor people in some of the world's most impoverished countries that the crushing burden of external debt will soon be relieved."

Had it not been for the concerted effort of the Jubilee 2000 Movement, including the nongovernmental private and voluntary organizations (NGOs) and the ecumenical array of church and faith-based organizations that have been pushing so hard for debt relief, we would never have gotten to this point. The following organizations and many others fully

share in this victory and I am truly grateful for their efforts: the U.S. Catholic Conference, Bread for the World, Church World Service, The Episcopal Church, Evangelical Lutheran Church in America, Lutheran World Relief, National Council of Churches, Oxfam America, Presbyterian Church (USA), United Church of Christ, United Methodist Church, American Jewish World Service, and the Catholic Relief Service.

In enacting this legislation, we have responded to a moral and a practical imperative. The increasingly wide gap between the world's richest and poorest is both unjust and unsustainable. The economic prosperity the developed world now enjoys certainly imposes a concomitant obligation to help the less fortunate. But this debt relief agreement is also sound and prudent economic policy. The severe economic and social dislocation, and resulting political instability in the world's poorest countries will inevitably impact the developed world if it is not addressed.

Ever since the LDC debt crisis of the early 1980s, I have authored and pressed for passage of debt relief legislation. As part of those efforts, I have repeatedly urged and authored bills to mobilize the resources inherent in IMF gold holdings. Today I am particularly pleased because the debt relief provisions of the omnibus bill substantially reflect the Banking Committee reported version of H.R. 1095, the debt relief bill I introduced in March of this year. The agreement represents major victories for us in the following areas:

All bilateral debt of highly indebted poor countries will be totally cancelled;

Fundamental reforms have been made to the IMF and World Bank programs, and the relationship between those programs, to ensure a primary emphasis on poverty reduction rather than structural adjustment;

Mobilization of IMF gold using a revaluation rather than a sale, and using the resulting monies only for debt relief rather than structural adjustment, has been specifically authorized;

Greater transparency has been assured in regard to Paris Club deliberations on multilateral debt reduction (an informal forum where mainly industrial creditor countries discuss the settlement of official loans to countries unable to meet their debt service obligations);

Senate efforts to impose unreasonable trade policies on recipient countries, which would have severely restricted debt relief efforts, have been defeated.

All of these achievements reflect priorities and emphases of the bill reported by the Banking Committee.

While we should enjoy this victory, we must not lose sight of the fact that much more remains to be done. The agreement does not contain money for the HIPC Trust Fund, nor are such funds authorized. While the agreement provides for \$123 million for bilateral debt relief for FY 2000, the Administration had requested \$370 million, and is seeking \$970 million over the next four years. We need to fully meet that standard. Finally, the agreement provides for use of a large portion of the resources coming from revaluation of the IMF gold for debt reduction, but still only a portion.

I am fully committed to pressing the Congress to begin early next year to meet these

needs and finish the good work we have started.

Mr. CASTLE. Mr. Speaker, I am pleased to support H.R. 1095, the "Debt Relief for Poverty Reduction Act of 1999." This legislation has strong bipartisan support with over 130 cosponsors. Providing debt relief for Heavily Indebted Poor Countries (HIPC) (ie. countries with debt 220% higher than their annual exports or debt greater than 80% of their GNP), is a crucial form of foreign aid desperately needed by the citizens of these countries.

The United States won the Cold War not only through military expenditures, but also through foreign aid to countries that were targeted by pro-communist forces. Many of these countries were, at best, only beginning to evolve toward democracy and some were governed by autocrats who wasted these U.S. funds. Now future generations in these countries are saddled by these overwhelming debts making it difficult to provide for their basic human needs—food, clothing, medicine, and shelter. There is a consensus in the global community and among creditors from all sectors that some relief must be provided if these countries are to be able to meet the basic human needs to their citizens and grow their economies in their future.

Whenever debt relief is debated, there is always cause for concern that creditors create a "moral hazard" when they forgive the debts of others. The forgiveness of debt can encourage debtors not to pay back interest on loans in the future. However, in this circumstance, it is important to distinguish that the debt burden these countries face is so great that it would be impossible for them to repay. This is a form of international bankruptcy for these countries. The international community has recognized that conditions are so bad in these countries that future loans are not likely. Rather, grants are and will continue to be the form of assistance these countries receive.

As a strong fiscal conservative, I am cautious of programs that simply throw money at a problem. I believe government programs must be carefully structured to maximize efficiency and minimize waste in solving a problem. As originally drafted, H.R. 1095 contained measures conditioning debt relief on economic reforms in these countries. History has proven time and gain that free market capitalism maximizes efficiency and economic growth better than any other market system. Helping these countries move to a free market capitalism system is its own form of foreign aid in addition to foreign aid grants or debt relief. In fact, teaching foreign countries that the market is the most efficient way to allocate scarce resources is the only form of foreign aid that is truly lasting. Transitioning to a new market system is never easy. Change is always resisted by those empowered by the status quo. If the "carrot" of debt relief can be used to overcome the status quo in these countries in order to guide them to lasting relief, then Congress should structure this debt relief program to accomplish this goal. Unfortunately, these economic reform conditions were amended out of the original text during the House Banking Committee Markup.

Mr. Speaker, although I continue to support H.R. 1095, it is my intention to support efforts to restore the economic reform conditions before its final passage in the House.

Mr. COBLE. Mr. Speaker, I am pleased to rise in support of S. 1948, which will be enacted by reference upon the enactment of H.R. 3194. S. 1948, the "Intellectual Property and Communications Omnibus Reform Act of 1999," concludes years of hard work and compromise. We spent considerable time balancing the interests of our constituents, intellectual property owners, satellite carriers, local broadcasters, and independent inventors in formulating this legislation. We have spent the past five years working on this legislation, and I can say without hesitation that this is a very good bill. This legislation will have a tremendously beneficial affect on the citizens of this country, whether they are subscribers to satellite television, inventors, brand owners, or Internet users. Title I of S. 1948, the "Satellite Home Viewer Improvements Act," creates a new copyright license for local signals over satellite and makes necessary changes to the other television copyright licenses.

We have all been concerned about a lack of competition in the multi-channel television industry and what that means in terms of prices and services to our constituents. This bill gives the satellite industry a new copyright license with the ability to compete on a more even playing field, thereby giving consumers a choice.

With this competition in mind, the legislation before us makes the following changes to the Satellite Home Viewers Act.

1. It reauthorizes the satellite copyright compulsory license for five years.

2. It allows new satellite customers who have received a network signal from a cable system within the past three months to sign up immediately for satellite service for those signals. This is not allowed today.

3. It provides a discount for the copyright fees paid by the satellite carriers.

4. It allows satellite carriers to retransmit a local television station to households within that station's local market, just like cable does.

5. Protects existing subscribers from having their distant network service shut off at the end of the year and protects all C-band customers from having their network service shut off entirely.

6. It allows satellite carriers to rebroadcast a national signal of the Public Broadcasting Service.

7. It empowers the FCC to conduct a rule-making to determine appropriate standards for satellite carriers concerning which customers should be allowed to receive distant network signals.

The satellite legislation before us today is a balanced approach. It is not perfect, like most pieces of legislation, but is a carefully balanced compromise. For instance, I am extremely disappointed the rural loan guarantee program was deleted from this legislation. We included those provisions in our original Conference Report to accompany H.R. 1554 to ensure all citizens, particularly those who live in small or rural communities, will receive the benefit of the new local-to-local service. I pledge I will do everything I can to ensure those provisions are acted upon early in the next session of Congress.

Additionally, language clarifying the application and eligibility of these compulsory licenses has also been deleted from this

version of the legislation. This is not to be interpreted to indicate any change in the application of the cable or satellite compulsory licenses as they applied before the enactment of this legislation. The copyright compulsory licenses were created by Congress to address specific needs of a specific industry. Any further application of a compulsory license will be decided by Congress, not by an industry or a court. I am incorporating in this statement letters from the Register of Copyrights, Marybeth Peters, and from the Chairman and Ranking Members of the Judiciary Committee and the Subcommittee on Courts and Intellectual Property and from Professor Arthur R. Miller of the Harvard Law School which accurately restate the eligibility and interpretation of the copyright compulsory licenses. I am also enclosing extended remarks which express my views concerning the legislative history for the "Intellectual Property and Communications Omnibus Reform Act of 1999."

On balance, this is a very good piece of legislation and I urge all Members to support this constituent-friendly legislation.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES, COM-
MITTEE ON THE JUDICIARY,

Washington, DC, November 15, 1999.

Hon. TOM BLILEY,

Chairman, Committee on Commerce,

U.S. House of Representatives, Washington, DC.

DEAR CHAIRMAN BLILEY. Thank you for your letter concerning sections 1005(e) and 1011(c) of the conference report on the Intellectual Property and Communications Omnibus Reform Act ("IPCORA").

We do not believe there is any question about the current state of the law: Internet and similar digital online communications services are not, and have never been, eligible to claim the cable copyright compulsory license or satellite copyright compulsory license created by sections 111 and 119 of the Copyright Act, respectively. The cable copyright license was created in 1976 specifically to apply to the nature of the cable industry. The satellite license was created in 1988 specifically to apply to the nature of the satellite industry. It should be noted that the satellite industry could not avail itself of the cable license, because that license was created specifically for cable. It had to seek its own government license. The Internet services industry is not cable, nor is it satellite. It provides a new type of service which has not been considered by the Congress for purposes of a copyright compulsory license. Consequently, the Internet services industry may not avail itself of the cable copyright license or the satellite copyright license. If such a government imposed license is to apply to such services, it must be created by Congress specifically for those services.

To my knowledge, no court, administrative agency, or authoritative commentator has ever held or even intimated to the contrary. The Copyright Office, which administers these compulsory licenses, studied this issue exhaustively in 1997 and came to the same conclusion, which it reaffirmed in a letter this week. The conference provisions to which you object simply codify this well-established principle, nothing more.

Compulsory licenses constitute government regulation of private ownership, and therefore, like any other restriction on property, must be extended only with specific congressional action after considered deliberation. They are not flexible, nor are they to be interpreted to evolve to accommodate

new situations. Government regulation of property is not to be decided by a court, but rather by Congress itself. Placing restrictions on property or preserving an "opportunity" for someone to make a case to an agency or court to take property without authorization is not proper under the law, or is it proper in the context of this conference.

A compulsory license is not an entitlement, but a specific public policy determination by Congress in response to a specific demonstrated need. Whether online services *should* have the benefit of a compulsory license to retransmit certain copyrighted materials without the permission of the copyright owner must be considered on its own merits after a need is demonstrated to the Congress. If Congress is to examine such a request, it must do so on the basis of a complete record, not in the haste of the closing hours of a session. Of course, nothing that is included in or omitted from the IPCORA conference report (or any other pending legislation) could possibly foreclose Congress from undertaking that examination in the future. Thus, any implication that approval of the conference report would "permanently" rule out any compulsory license for online services is unfounded. We are sure you did not intend to suggest otherwise.

Any resolution that we may adopt in the future does not change the current law which requires that issues concerning the dissemination of copyright materials over digital online communications services must be addressed and resolved in the marketplace, as no compulsory license currently exists for such services. Nothing prevents Internet services from negotiating directly with owners of copyrights regarding any of the exclusive rights guaranteed under section 106 of the Copyright Act pursuant to Article I, section 8, clause 8 of the Constitution.

We are currently prepared to consider other means of expressing the same conclusion in statutory language, but one way or the other it is essential that we spell out unambiguously what the law now is. To do otherwise would sow confusion and risk encouraging defiance of the law, and would undermine the well-settled property rights of a key sector of the U.S. economy, the copyright industries. Most significantly, it would also be a disservice to our common goal of encouraging the widespread dissemination of copyrighted material through all available technologies. We stand ready to work with you to avoid that outcome.

Sincerely,

HENRY J. HYDE,
Chairman.

JOHN CONYERS, JR.,
Ranking Democratic
Member.

HOWARD COBLE,
Chairman, Sub-
committee on Courts
and Intellectual
Property.

HOWARD BERMAN,
Ranking Democratic
Member, Sub-
committee on Courts
and Intellectual
Property.

LIBRARY OF CONGRESS,

DEPARTMENT 17,

Washington, DC, November 10, 1999.

Hon. HOWARD COBLE,

Chairman, Subcommittee on Courts and Intellectual Property, Committee on the Judiciary, U.S. House of Representatives, Washington, DC.

DEAR CONGRESSMAN COBLE: I am writing to you today concerning pending proposals regarding the Satellite Home Viewer Act, and particularly the compulsory copyright licenses addressed by that Act. As the director of the Copyright Office, the agency responsible for implementing the compulsory licenses, I have followed the actions of the Congress with great interest.

Let me begin by thanking you for all your hard work and dedication on these issues, and by congratulating you on your success in achieving a balanced compromise. Taken as a whole, the Conference Report on H.R. 1554, the Intellectual Property and Communications Omnibus Reform Act of 1999, represents a clear step forward for the protection of intellectual property. I particularly appreciate your support for provisions that improve the ability of the Copyright Office to administer its duties and protect copyrights and related rights.

I was greatly concerned when I heard the statements of Members on the floor of the House suggesting that in the final few legislative days of this session, subsection 1011(c) of the Conference Report should be amended or removed. Section 1011(c) makes unmistakable what is already true, that the compulsory license for secondary transmissions of television broadcast signals by cable systems does not apply to digital on-line communication services.

It is my understanding that some services that wish to retransmit television programming over the Internet have asserted that they are entitled to do so pursuant to the compulsory license of section 111 of Title 17. I find this assertion to be without merit. The section 111 license, created 23 years ago in the Copyright Act of 1976, was tailored to a heavily-regulated industry subject to requirements such as must-carry, programming exclusivity, and signal quota rules—issues that have also arisen in the context of the satellite compulsory license. Congress has properly concluded that the Internet should be largely free of regulation, but the lack of such regulation makes the Internet a poor candidate for a compulsory license that depends so heavily on such restrictions. I believe that the section 111 license does not and should not apply to Internet transmissions.

I also question the desirability of permitting any existing or future compulsory license for Internet retransmissions of primary television broadcast signals. In my comprehensive August 1, 1997 report to Congress, *A Review of the Copyright Licensing Regimes Covering Retransmission of Broadcast Signals*, Internet transmissions were addressed in chapter VIII, entitled "Should the Cable Compulsory License Be Extended to the Internet?" The report concluded that it was inappropriate to "bestow the benefits of compulsory licensing on an industry so vastly different from the other retransmission industries now eligible for compulsory licensing under the Copyright Act."

The report observed that "Copyright owners, broadcasters, and cable interests alike strongly oppose . . . arguments for the Internet retransmitters' eligibility for any compulsory license. These commenters uniformly decry that the instantaneous world-

wide dissemination of broadcast signals via the Internet poses major issues regarding the United States and international licensing of the signals, and that it would be premature for Congress to legislate a copyright compulsory license to benefit Internet retransmitters at this time." The Copyright Office believes that there would be serious international implications if the United States were to permit statutory licensing of Internet transmission of television broadcasts.

Therefore I urge that no action be taken to remove or alter section 1011(c) of the Conference Report. At this point, to do so could be construed as a statement that digital online communication services *are* eligible for the section 111 license. Such a conclusion would be reinforced in light of section 1011(a)(1), which replaces the term "cable system" in section 111 of Title 17 with the term "terrestrial system." In the absence of section 1011(c), section 1011(a)(1) might incorrectly be construed as implying a broadening of the section 111 license to include Internet transmissions.

The Internet is unlike any other medium of communication the world has ever known. The application of copyright law to that medium is of utmost importance, and I know that you have personally invested a great deal of time and energy in recent years to assure that a balance of interests is reached. Permitting Internet retransmission of television broadcasts pursuant to the section 111 compulsory license would pose a serious threat to that balance.

Please feel free to contact me if I can be of any assistance on this matter. Thank you.

Sincerely,

MARYBETH PETERS,
Register of Copyrights.

HARVARD LAW SCHOOL,
Cambridge, MA, November 15, 1999.

Hon. ORRIN G. HATCH,
Chairman, Judiciary Committee, U.S. Senate,
Washington, DC.

Hon. HENRY J. HYDE,
Chairman, Judiciary Committee, House of Representatives, Washington, DC.

DEAR CHAIRMEN HATCH AND HYDE: I am writing to you to express my views on a proposal to amend the cable and satellite compulsory licenses in Sections 111 and 119 of the Copyright Act. I have taught Copyright Law at Harvard Law School, as well as Michigan and Minnesota, for over thirty-five years and have written extensively and lectured throughout the world on this area of the law. In addition, I was very active in the legislative process that led to the Copyright Act of 1976 and appointed by President Ford and served as a Commissioner on the Commission for New Technological Uses of Copyright Works (CONTU).

The Conference Report on H.R. 1554, the Intellectual Property and Communications Omnibus Reform Act of 1999, included amendments to Sections 111 and 119 to state explicitly that digital online communication services do not fall within the definitions of "satellite carrier" and "terrestrial system" (currently "cable system") and, therefore, are not eligible for either compulsory license. I understand that Congress is currently considering deleting these amendments or enacting legislation that would not include them. I believe that the amendments were wholly unnecessary and that the deletion or exclusion of them will have no effect on the law, which is absolutely clear digital online communication services are not entitled to the statutory license under either Section 111 or Section 119 of the Copyright Act.

A compulsory license is an extraordinary departure from the basic principles underlying copyright law and a substantial and significant encroachment on a copyright owners' rights. Therefore, any ambiguity in the applicability of a compulsory license should be resolved against those seeking to take advantage of what was intended to be a very narrow extension to the copyright proprietor's exclusive rights. As the Fifth Circuit Court of Appeals has noted in a case involving another compulsory license: the compulsory license provision is a limited exception to the copyright holder's exclusive right to decide who shall make use of his [work]. As such, it must be construed narrowly, lest the exception destroy, rather than prove, the rule.

Fame Publishing Co. v. Alabama Custom Tape, Inc., 507 F.2d 667, 670 (5th Cir. 1975).

In this situation, however, there is absolutely no ambiguity as to the correct construction of the cable and satellite compulsory licenses. Neither the language of the Copyright Act, nor any statement of Congressional intent at the time of their enactment, nor any judicial interpretation of Section III or Section 119 in any way suggests that these compulsory licenses could apply to digital online communication services. And, as far as I know, the representative of these services have not offered any substantive argument to the contrary—with good reason. No reasonable person—or court—could interpret these statutory licenses to embrace these services.

And if there was any doubt left in anyone's mind, the federal agency charged with interpreting and implementing these statutory licenses, the United States Copyright Office, has addressed this issue directly: retransmitting broadcast signals by way of the Internet is clearly outside the scope of the current compulsory licenses. In fact, the Copyright Office recommended in 1997 that Congress not even create a new compulsory license, concluding that it would be "inappropriate for Congress to grant Internet retransmitters the benefits of compulsory licensing." See U.S. Copyright Office. A Review of the Copyright Licensing Regimes Covering Retransmission of Broadcast Signals (August 1, 1997), at 99 and Executive Summary at xiii.

My work in the field of copyright over the past decades, especially my extensive activities in connection with the development of the legislation that became the Copyright Act of 1976, leads me to agree with the Office's conclusions that it would be far too premature to extend a compulsory license to the Internet. That conclusion seems sound given the enormous differences between the Internet and the industries embraced by the existing licensing provisions and the need to engage in extensive research and analysis regarding the potentially enormous implications of digital communications. We simply do not know enough to legislate effectively at this point. Doing so at this time—especially without hearing from numerous affected interests—would create a risk of upsetting the delicate balance between the rights of copyright proprietors and the interests of others.

Thus, in any judicial action, that might materialize by against the providers of digital online communications services, the court would be bound by the Copyright Office's interpretation of the statutory licenses. See *Cablevision Systems Development Co. v. Motion Picture Association of America, Inc.*, 836 F.2d 599, 609–610 (D.C. Cir. 1988) (deferring to the Copyright Office's interpretation of Section 111, noting Congress grant of

statutory authority to the Copyright Office to interpret the Copyright Act, and the Supreme Court's indication that it also would defer to the Copyright Office's interpretation of the Copyright Act), *Satellite Broadcasting and Communications Assoc. v. Owens*, 17 F.3d 344, 345 (11th Cir. 1994) (holding that valid exercises of the Copyright Office's statutory authority to interpret the provisions of the compulsory licensing scheme are binding on the court).

In summary, based on the unmistakable fact that digital online communication services are ineligible for the cable and satellite compulsory licenses and the identical, unequivocal interpretation by the Copyright Office, amendments to the existing statute reiterating this legal truth are unnecessary. Consequently, the status quo with respect to who is eligible for the statutory licenses will remain undisturbed whether Congress deletes these amendments from the pending legislation or excludes them from subsequent legislation.

Respectfully yours,

ARTHUR R. MILLER,
Bruce Bromley Professor of Law.

The SPEAKER pro tempore (Mr. PEASE). All time has expired.

Pursuant to House Resolution 386, the previous question is ordered.

MOTION TO RECOMMIT OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the conference report?

Mr. OBEY. I think it is safe to say that I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Obey moves to recommit the conference report on H.R. 3194 to the Committee of Conference with instructions that the House Managers not agree to any provisions which would reduce or rescind appropriations for Veterans Medical Care.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The SPEAKER pro tempore.

Pursuant to clause 9 of rule XX, the Chair will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device, if ordered, will be taken on the question of agreeing to the conference report.

The vote was taken by electronic device, and there were—yeas 212, nays 219, not voting 4, as follows:

NOT VOTING—4

Brady (TX)	Conyers
Capps	Wexler

□ 1725

Messrs. GARY MILLER of California, MANZULLO, DREIER, CUNNINGHAM, and Mrs. MYRICK changed their vote from "yea" to "nay."

Mr. LUTHER, Ms. RIVERS, Mr. McINTYRE, Mr. HILL of Indiana, Mr. HILLIARD, Mr. CARSON, Messrs. DOGGETT, LAFALCE, and GREEN of Wisconsin, and Ms. MCKINNEY changed their vote from "nay" to "yea."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. PEASE). The question is on the conference report.

Pursuant to clause 10 of rule XX, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 296, nays 135, not voting 4, as follows:

NOT VOTING—4

Brady (TX)	Conyers
Capps	Wexler

□ 1736

Mr. GORDON changed his vote from "yea" to "nay."

Mrs. PRYCE of Ohio and Mr. HILLIARD changed their vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore (Mr. PEASE). Pursuant to Section 2 of House Resolution 386, House Concurrent Resolution 234 is considered as adopted.

REMOVAL OF NAME OF MEMBER
AS COSPONSOR OF H. CON. RES.
173

Mrs. TAUSCHER. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H. Con. Res. 173.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000

Mr. YOUNG of Florida. Mr. Speaker, pursuant to House Resolution 385, I call up the joint resolution (H.J. Res. 83) making further continuing appropriations for the fiscal year 2000, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the joint resolution.

The text of House Joint Resolution 83 is as follows:

H.J. RES. 83

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Public Law 106-62 is further amended by striking "November 23, 1999" in section 106(c) and inserting in lieu thereof "December 2, 1999", and by striking "\$346,483,754" in section 119 and inserting in lieu thereof "\$755,719,054". Public Law 106-46 is amended by striking "November 23, 1999" and inserting in lieu thereof "December 2, 1999".

The SPEAKER pro tempore. Pursuant to House Resolution 385, the gentleman from Florida (Mr. YOUNG) and the gentleman from Wisconsin (Mr. OBEY) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. YOUNG).

GENERAL LEAVE

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.J. Res. 83 and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

AMENDMENT OFFERED BY MR. YOUNG OF FLORIDA

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that the amendment at the desk be agreed to.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. YOUNG of Florida:

Strike "November 23" where it appears twice in the resolution and insert in lieu thereof "November 18".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. THOMAS. Mr. Speaker, reserving the right to object, and I shall not object, I rise to allow the House to recognize a public servant who for 21 years served this House, went into retirement 11 years ago and when the House asked would Bob Berry please come back and help us attend to the business of the House, Bob Berry came out of retirement in a very difficult time and allowed this House to function as we would like to function.

Bob Berry, the House owes to you our gratitude.

Mr. Speaker, I withdraw my reservation of objection.

Mr. OBEY. Mr. Speaker, reserving the right to object, I would ask the gentleman from Florida (Mr. YOUNG) to explain both the amendment that he is proposing and the resolution.

Mr. YOUNG of Florida. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. The purpose of the amendment will address the issue of the previous continuing resolution. The CR that we passed earlier today would have authorized continuing appropriations from today until November 23. Because of the concern in the Senate that they may need a little extra time in dealing with this proposal and to give the President sufficient time to adequately review the appropriations agreement, this amendment would change the date from November 23 to December 2 to today until December 2.

Mr. OBEY. Further reserving the right to object, would the gentleman explain the amendment that strikes November 23 and inserts November 18?

Mr. YOUNG of Florida. November 18 is today, and we are amending this resolution so that it begins today and runs until December 2.

Mr. OBEY. So it is purely technical?

Mr. YOUNG of Florida. Purely technical. However, it does give additional time to the Senate and provides additional time for the President to use his full 10 days, if he so desires, to review this legislation.

Mr. OBEY. Mr. Speaker, further reserving the right to object, let me simply take 10 seconds to thank the staff on both sides of the aisle for all of the work that they have done. Even when that work sometimes produces turkeys as a result, it is not the fault of the staff; it is at the direction of the politicians themselves.

Mr. YOUNG of Florida. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. Mr. Speaker, I would like to join the gentleman in that commendation of the appropriators and their staff, with our clerk Jim Dyer and your clerk Scott Lilly, with the front office staff, John Mikel and Chuck Parkinson and all of the members of the Committee on Appropriations staff. When we finished at 2:00 or 3:00 in the morning, they worked until 5:00 or 6:00 in the morning and they have worked almost every weekend for the last 2 months. They have done a really dynamic job, and I appreciate the gentleman raising that issue.

There are many more staff on the Committee on Appropriations that I would like to now recognize for the excellent work that they do.

Mr. OBEY. Merry Christmas.

Mr. YOUNG of Florida. Happy Thanksgiving.

Mr. OBEY. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the amendment offered by the gentleman from Florida?

There was no objection.

The SPEAKER pro tempore. The amendment is agreed to.

□ 1745

Mr. YOUNG of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). All time for debate has expired.

The joint resolution, as amended, is considered as having been read for amendment.

Pursuant to House Resolution 385, the previous question is ordered.

The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, and as read the third time.

The SPEAKER pro tempore. The question is on the passage of the joint resolution, as amended.

The joint resolution, as amended, was agreed to.

A motion reconsider was laid on the table.

REPORT ON NATION'S ACHIEVEMENTS IN AERONAUTICS AND SPACE DURING FISCAL YEAR 1998—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Science:

To the Congress of the United States:

I am pleased to transmit this report on the Nation's achievements in aeronautics and space during Fiscal Year (FY) 1998, as required under section 206 of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2476). Aeronautics and space activities involved 14 contributing departments and agencies of the Federal Government, and the results of their ongoing research and development affect the Nation in many ways.

A wide variety of aeronautics and space developments took place during FY 1998. The National Aeronautics and Space Administration (NASA) successfully completed five Space Shuttle flights. There were 29 successful Expendable Launch Vehicle (ELV) launches in FY 1998. Of those, 3 were NASA-managed missions, 2 were NASA-funded/Federal Aviation Administration (FAA)-licensed missions, 8 were Department of Defense (DOD)-managed missions, and 16 were FAA-licensed commercial launches. Scientists also made some dramatic new discoveries in various space-related fields such as space science, Earth science, and remote sensing, and life and microgravity science. In aeronautics, activities included work on high-speed research, advanced subsonic technology, and technologies designed to improve the safety and efficiency of our commercial airlines and air traffic control system.

Close international cooperation with Russia occurred on the Shuttle-Mir docking missions and on the ISS program. The United States also entered into new forms of cooperation with its partners in Europe, South America, and Asia.

Thus, FY 1998 was a very successful one for U.S. aeronautics and space programs. Efforts in these areas have contributed significantly to the Nation's scientific and technical knowledge, international cooperation, a healthier environment, and a more competitive economy.

WILLIAM J. CLINTON.

THE WHITE HOUSE, November 18, 1999.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2699

Mr. CHAMBLISS. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2699.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 1180, TICKET TO WORK AND WORK INCENTIVES IMPROVEMENT ACT OF 1999

Mr. HASTINGS of Washington. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 387 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 387

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 1180) to amend the Social Security Act to expand the availability of health care coverage for working individuals with disabilities, to establish a Ticket to Work and Self-Sufficiency Program in the Social Security Administration to provide such individuals with meaningful opportunities to work, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. The gentleman from Washington (Mr. HASTINGS) is recognized for 1 hour.

Mr. HASTINGS of Washington. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the distinguished gentlewoman from New York (Ms. SLAUGHTER), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, H. Res. 387 would grant a rule waiving all points of order against the conference report to accompany H.R. 1180, the Ticket to Work Incentives Improvement Act of 1999, and against its consideration. The rule further provides that the conference report shall be considered as read.

Mr. Speaker, the conference report to accompany H.R. 1180 establishes a ticket to work program for recipients of Social Security disability benefits to seek vocational rehabilitation and employment services as well as enabling those individuals to work while keeping their health insurance. This legislation also creates new options for States to allow disabled individuals to purchase Medicaid insurance.

The conference agreement also provides approximately \$15.8 billion in tax relief over 5 years, \$18.4 billion over 10 years, by extending certain tax credits. This tax extenders package includes renewal of several expiring tax credit provisions, including the R&D tax credit, the Work Opportunity Tax Credit,

and the Welfare-to-Work Tax Credit as well as providing tax relief for individuals and families by protecting at least 1 million families from higher taxes over the next 3 years due to the AMT tax. Finally, the measure includes approximately \$2.6 billion in revenue offsets over the next 5 years and \$2.9 billion over the next 10 years.

Mr. Speaker, I applaud the gentleman from Texas (Chairman ARCHER) and the gentleman from New York (Mr. RANGEL), ranking member, for their leadership in resolving the many complex issues contained in this legislation and urge my colleagues to support both the rule and the conference report itself.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I yield myself such time as I may consume, and I want to thank the gentleman from Washington (Mr. HASTINGS) for yielding me the time.

Mr. Speaker, I have heard it said that human beings exhibit their most creative potential when they are kindergarten age. Well, whoever said that probably needs to spend a little time around here at the end of a session. There is some very creative work being done.

Vexing problems which have been around for months and may be even years are suddenly solved when the sand starts running out of the Congressional hour glass, or they are suddenly turned into bargaining chips. Witness what is happening with reproductive rights and the payment of our UN debts.

Major issues which have languished unattended are addressed and then tossed abroad whenever the legislative vehicle is leaving the station. Meanwhile, many others, such as the bill of rights protecting people from their HMOs or efforts to fight gun violence never get their tickets punched.

But rest assured, Mr. Speaker, the American people want a Patients' Bill of Rights, they want us to do better on gun violence, and they will be watching when we return in the year 2000.

As for the rule which is currently before us, H. Res. 387, it provides for the consideration of several disparate issues which have been corralled under a single bill title.

Part A of the bill is the Work Incentives Improvement Act, a bill to modernize our woefully outdated national disability policies.

When policies on Medicaid and other programs for the disabled were first developed decades ago, having a disability often meant that an individual is confined to home or an institution. Today, however, with advances in technology, training, and rehabilitation, many individuals with disabilities are allowed to hold good jobs and live very full lives in the mainstream of society.

The Work Incentives Improvement Act will allow persons with disabilities

to continue receiving certain benefits, particularly health coverage, while returning to work. The proposal also provides for more State flexibility and serving individuals with disabilities through health programs, associated services like transportation assistance, and training.

This legislation does not benefit only persons with disabilities, it also has major benefits for the Federal Government and the taxpayer. If an additional one-half of 1 percent of the current Social Security Disability and Supplemental Security Income recipients were to cease receiving benefits as a result of employment, the savings and cash assistance would total \$3.5 billion over the worklife of the individuals.

This worthy legislation was passed by the House overwhelmingly earlier this year, and I expect it will enjoy similar support today.

Part B of the underlying bill is a collection of tax extenders. I am pleased that this agreement includes a 5-year extension for research and development tax credit. Science and technology are critical for our future development, our knowledge about the world around us, and our understanding of ourselves.

I have long been a strong supporter of incentives to encourage businesses to invest in the development of new technologies and products. Through its existence, the R&D tax credit has served as a fundamental component of our Nation's competitiveness strategy by increasing the amount of research undertaken by the private sector.

One key provision which I would have strongly supported had it been allowed to remain in the bill would have entitled workers to better pension benefits through what is known as section 415 of the tax code. But, regrettably, this provision was left at the station.

In addition, the bill includes a delay in the implementation of rules proposed by the Department of Health and Human Services to restructure organ allocation in our Nation. While this delay is not likely to please people on either side of this emotional issue, it should at least allow the Congress to debate this matter more fully when we return in January.

Mr. Speaker, my main regret on the legislation is that we are dealing with what should have been several bills and are, instead, forced to consider them as a single package. This approach limits debate and prohibits many Members from exercising their right to discuss the legislation. It is unfair and it is unnecessary. There is no reason why these bills should not have been brought up earlier under open rules with full debate. This is to say nothing of the many, many worthwhile bills that are being pushed aside altogether in the majority's rush to adjourn.

But we are coming back with renewed energy and commitment to passing the Patients' Bill of Rights, in-

creasing the minimum wage for working families, and halting the violence and gunfire which threatens our homes and our communities.

Mr. Speaker, by all accounts, this will be the final rule to be considered this century. This is also the final rule of this millennium. Those of us who serve on this important committee are keenly aware of its historical and institutional role in this Congress on behalf of the American people. Grounded by that tradition and honored by the opportunity, we are thankful to the Members who have gone before us, and we look forward to the new millennium and meeting the challenges facing the American people in the 21st Century. I am grateful for my colleagues on the Committee on Rules.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentlewoman from New York (Ms. SLAUGHTER) for noting that this is the last rule of this millennium. From my perspective, I had forgotten about that, and I thank the gentlewoman for bringing it up.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

ELECTION OF MEMBER TO CERTAIN STANDING COMMITTEES OF THE HOUSE

Mr. FROST. Mr. Speaker, I offer a resolution (H. Res. 391), and I ask unanimous consent for its consideration in the House.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

H. RES. 391

Resolved, That the following named Member be, and is hereby, elected to the following standing Committees of the House of Representatives:

Committee on Agriculture and Committee on Science: Mr. Baca of California.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1800

CONFERENCE REPORT ON H.R. 1180,
TICKET TO WORK AND WORK INCENTIVES
IMPROVEMENT ACT
OF 1999

Mr. ARCHER. Mr. Speaker, pursuant to House Resolution 387, I call up the conference report on the bill (H.R. 1180) to amend the Social Security Act to expand the availability of health care coverage for working individuals with disabilities, to establish a Ticket to Work and Self-Sufficiency Program in the Social Security Administration to provide such individuals with meaningful opportunities to work, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. PEASE). Pursuant to House Resolution 387, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of November 17, 1999, at page H12174.)

The SPEAKER pro tempore. The gentleman from Texas (Mr. ARCHER) and the gentleman from New York (Mr. RANGEL) each will control 30 minutes.

The Chair recognizes the gentleman from Texas (Mr. ARCHER).

GENERAL LEAVE

Mr. ARCHER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative within which to revise and extend their remarks and include extraneous material on the conference report H.R. 1180.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in strong support of H.R. 1180, the Ticket to Work and Work Incentives Act, which also contains an important package of tax relief for American workers and families.

First, let me discuss the Ticket to Work and Work Incentives Act. Most of those receiving disability benefits today, due to the severity of their impairments, cannot attempt to work. Today, however, the Americans with Disabilities Act, along with advances in technology, medicine and rehabilitation, are opening doors of opportunity never thought possible to individuals with disabilities. Now people can telecommute to work. There are voice-activated computers. And, as technology provides new ways to clear hurdles presented by a disability, government must also keep pace by providing opportunity and not just dependency. Government should be helping people to work, not building barriers to independence and freedom.

This is one more victory in a string of health care achievements that the Republican Congress has guided into law. We strengthened Medicare, we

made health insurance more portable, we passed tax breaks for long-term health care and to cut health insurance costs for people who buy their own health insurance, unfortunately, only to see all those vetoed by the President. And now we have modernized a key program for people with disabilities so that the Government is a help and not a hindrance. Mr. Speaker, that is truly a record of achievement and progress.

Another significant victory is the tax relief package in this bill. Because of our action, millions of families can now breathe easier knowing they will not get hit with a surprise tax hike for the next 3 years because we fixed the alternative minimum tax. The AMT is a perfect example of an out-of-control Tax Code. Under the AMT, taxpayers are not allowed to claim the full child tax credit, the dependent care tax credit, the Hope Scholarship tax credit, and other tax credits which Congress passed to help Americans make ends meet. So the Tax Code was giving on one hand while quickly taking away with the other. This bill, today, fixes that for middle-income families, hundreds of thousands of them, for the next 3 years.

This bill also helps American companies maintain their cutting edge of research and development which will lead to new products, better medicines and a higher standard of living for consumers because it extends the most important R&D tax credit. For the first time in a long while, we have extended the tax credit for 5 years instead of hand-to-mouth year after year, on which no one can fully depend. Now businesses can plan for the future.

Another significant achievement of this bill is that Congress convinced the President that American taxpayers are paying too much and deserve some of their money back. Yes, it is only a small portion, but any amount of taxpayer funds that can be gotten out of Washington is money that cannot be spent on making government bigger. And that is exactly what this bill does.

This is one more achievement for a Congress that keeps delivering for the American people. We have made historic progress in paying down the debt, \$140 billion alone in the last 2 years. We are locking away the Social Security surplus so it cannot be spent on other things, and we are working on a long-term plan to save Social Security for all time. And now we have agreed to start returning a portion of the non-Social Security surplus to the taxpayers who send it here, and that is real progress.

Mr. Speaker, I reserve the balance of my time.

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I was hoping that on this last bill, that the gentleman from Texas (Mr. ARCHER) and I have worked

on together, that we might have found a more bipartisan tone than the one which the gentleman has just expressed today.

The gentleman talks about the accomplishments and what has been done for those people that are disabled as though his Democratic colleagues did not join with him to make this bill all that it is. The President presented this to the Congress and we worked together, and I agree that we do have a good bill.

There are some things that the gentleman does not talk about, and I expect that there is good reason for it. The gentleman has a delay here for the President's program dealing with transportation network for organ procurements, and the gentleman delays this from going into effect. It is controversial; it has nothing to do with taxes, but somehow the gentleman got that in there.

The gentleman has some other bill that came from the other side, a contractor that deals with NOAA. It has nothing to do with taxes or the disabled.

And then, when we get involved with taxes, the gentleman talked about a Congress that produces. Well, I had hoped that we would not end on this note; but the last I heard from the majority, they were pulling up the Tax Code by the roots. True, that was 6 years ago, 5 years ago, 4, 3, 2, 1, and continuously counting down. The closest the other side came to even dealing with the Tax Code, as I recall, was a \$792 billion tax cut that never even got off the ground. And if we were to just weigh that bill, I hardly believe that even the staunchest conservative Republican would say that it simplified the Tax Code.

Now, I would have to agree with the gentleman that on the expiring provisions, the extensions of legislation that is existing law, that the gentleman and I worked together not as a Democrat or a Republican, but we worked together as tax writers, and with the help of the administration we were able to get these provisions paid for. We were able to put it in in a responsible way.

We could not stop all of the irresponsible things the other side wanted to do, so some people might want to focus on how the Republicans intend to make electricity out of chicken waste. But the gentleman insisted on the provision, we have it here, and God bless. The gentleman can join the wind and the closed-loop biomass, and if that is the way the other side wants to spend the credits, they are the majority and they can do it. But that is one of the things that we did not want to be associated with.

But I agree with the gentleman on the other good provisions. What are they? The extensions of existing law; to say that this Congress will not be irresponsible and allow these provisions

to expire without doing the right thing.

So what I would like to say to the gentleman from Texas (Mr. ARCHER) is that he has no idea the pleasure it has been working with him on these positive things. And the only reason I stand up to point out some differences with the gentleman is that I would appreciate the gentleman not calling them Republican initiatives. The good ones are the bipartisan initiatives; the bad ones belong to the other side.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume simply to say that I think that it is unfortunate that the gentleman from New York has sought to try to, through his rhetoric, create some degree of partisanship. I would have liked to have given him far more credit on this bill. Much of what is in here are things that he wanted, but he would not sign the conference report. And, frankly, that does take away from bipartisanship.

Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. RAMSTAD), a member of the committee.

Mr. RAMSTAD. Mr. Speaker, I thank the chairman for yielding me this time, and I also thank him for his strong leadership on this legislation.

Mr. Speaker, I rise in strong support of this important bill. Helping people with disabilities live up to their full potential has been a top priority of mine ever since being elected to Congress, in fact, 10 years before as a State senator as well. I also strongly support the tax extender provisions in this bill.

I must say that I was disappointed, however, that the administration insisted that an important revenue-raising provision be dropped from the final agreement. This provision was based on legislation I sponsored, H.R. 3082, which was cosponsored by a strong bipartisan majority on the Committee on Ways and Means. This legislation would have protected employees' stock ownership plans, ESOPs for S-corporation workers by preventing the abuse of tax rules that help them build retirement savings and equity in their company. But unfortunately, the administration wanted to impose a draconian scheme that would have effectively killed ESOPs; would have killed this savings opportunity for thousands of American workers.

Thanks to the leadership of the gentleman from Texas (Mr. ARCHER) and the bipartisan support for S-corporation ESOPs in Congress on the Committee on Ways and Means and in the full body, the administration's misguided proposal was soundly rejected in negotiations over this extenders package, and for that I am grateful. This was a victory for American workers and a victory for boosting America's dangerously low savings rate.

Although these ESOPs S-Corporation legislation was not enacted in this bill this session, I am pleased that Congress resisted the administration's plan to dismantle ESOPs, because they are highly effective retirement savings programs.

We are going to be back with this next year, and again I thank the chairman for his leadership.

Mr. Speaker, I rise in strong support of the bill before us. Helping people with disabilities live up to their full potential has been one of my top priorities even since I was first elected to public office.

I also strongly support the important tax extender provisions which will save families from being unfairly penalized by the Alternative Minimum Tax and will keep U.S. businesses competitive, innovative and job-creating.

I was disappointed the Administration insisted that an important revenue-raising provision be dropped from the final agreement. This provision was based on legislation I introduced (H.R. 3082) which is cosponsored by a strong bipartisan majority of the Ways and Means Committee.

H.R. 3082 would protect employee stock ownership plans (ESOPs) for S corporation workers by preventing the abuse of tax rules that help them build retirement savings and equity in their company. But unfortunately, the Administration wanted to impose a draconian scheme that would have effectively killed this savings opportunity for thousands of American workers.

Thanks to the leadership of Chairman ARCHER and the bipartisan support for S corporation ESOPs in Congress, the Administration's misguided proposal was soundly rejected in negotiations over this extenders package. That was a victory for American workers, and a victory for boosting America's dangerously low savings rate.

Although H.R. 3082 was not enacted in this session, I am pleased Congress resisted the Administration's plan to dismantle these ESOPs, which are a highly effective retirement savings program. Thank you, Mr. Speaker.

Mr. Speaker, I can't tell you how long I have waited, along with many of my friends with disabilities in Minnesota, for this day. As many of my colleagues know, I have been working hard to help people with disabilities live up to their full potential since my election to this body in 1990, and as a Minnesota State Senator ten years prior. In fact, in 1993, Rep. Pete Stark and I introduced legislation to achieve the same goal we seek today.

As I have reminded my colleagues before, it was nine years ago that many of us enacted the ADA. It was nine long years ago that president Bush signed it into law and said, "Many of our fellow citizens with disabilities are unemployed. They want to work and they can work . . . this is a tremendous pool of people who will bring to jobs diversity, loyalty, low turnover rate, and only one request: the chance to prove themselves."

Mr. Speaker, despite the remarkably low unemployment rate in this country today, many of those with disabilities are still asking for this change to prove themselves in the workplace.

Despite all the good that the ADA has done to date, there is still room for improvement.

The ADA did not remove all the barriers within current federal programs that prohibit people with disabilities from working. It's time to eliminate work disincentives for people with disabilities!

Eliminating work disincentives for people with disabilities is not just humane public policy, it is sound fiscal policy. It's not only the right thing to do; it's the cost-effective thing to do!

Discouraging people with disabilities from working, earning a regular paycheck, paying taxes and moving off public assistance actually results in reduced federal revenues.

People with disabilities have to make decisions based on financial reality. Should they consider returning to work or even making it through vocational rehabilitation, the risk of losing vital federal health benefits often becomes too threatening to future financial stability. As a result, they are compelled not to work. Given the sorry state of present law, that's generally a reasonable and rational decision.

We must transform these federal programs into spring-boards to the workforce for people with disabilities. This important bill does just that.

As I have said many times, preventing people from working runs counter to the American spirit, one that thrives on individual achievements and the larger contributions to society that result.

I implore my colleagues to vote for this important legislation before us today!

Mr. RANGEL. Mr. Speaker, I yield myself such time as I may consume, and would just like to say to the chairman that I understand that my signature was expected at midnight last night, and I am sorry I could not be with him, because then the gentleman might have treated me more gently this evening.

Mr. Speaker, I yield 2 minutes to the gentleman from Maryland (Mr. CARDIN).

Mr. CARDIN. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, this is a very important bill. It contains some very important provisions. I want to applaud the Clinton administration for the initiative and bringing forward the Ticket to Work legislation. It removes impediments from disabled individuals being able to return to work. It will save us money. If we get people off of disability to work, as they want to work, this legislation is very important.

Secondly, the tax extenders are very important. We all want to extend the tax provisions that would otherwise expire, whether it be for research and development or some of the other provisions that are in the bill.

But, Mr. Speaker, I must express my concern about a provision that was added that deals with the fair allocation of organs that would block HHS's regulation in this area. I believe that that provision will jeopardize the health of critically ill patients, and it is also inconsistent with our last vote on the budget omnibus bill.

The HHS regulation went through a process. It listened to the public; it listened to the Institute of Medicine and came forward with recommendations that tries to take geographical politics out of organ distribution and do it to people who are the most critically in need.

□ 1815

I hope we can follow the compromise that was in the last bill because that was a fair compromise that was reached that requires HHS to go out and listen and explain the regulations to the public. It is inconsistent with the provisions that are in this bill.

I hope that HHS will not have to follow the language because it is inconsistent with the last bill because, otherwise, I think we are going to jeopardize the health of the critically-ill individuals.

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from New York (Mr. LAZIO).

Mr. LAZIO. Mr. Speaker, let me begin by thanking the distinguished gentleman from Texas (Mr. ARCHER), the chairman of the Committee on Ways and Means, for his fine work and for his leadership in getting this to the floor. Let me thank the gentleman from Virginia (Mr. BLILEY), the chairman of my committee, for holding hearings immediately and being the first to actually move the Work Incentives Improvement Act.

This has been a remarkable achievement. I think there are many who believe that we would never get to this day. But, in fact, we are here.

I want to thank people on both sides of the aisle, the gentlewoman from Connecticut (Mrs. JOHNSON), the gentleman from Minnesota (Mr. RAMSTAD), the gentleman from California (Mr. MATSUI), and the gentleman from California (Mr. WAXMAN) for working in a bipartisan fashion on the Work Incentives Improvement Act.

Today, Mr. Speaker, we have the privilege of taking the most significant stride forward for rights of disabled people since the Americans with Disabilities Act. We are addressing the next great frontier when it comes to fully integrating disabled Americans into society, giving them the same economic opportunities that the rest of us enjoy.

Mr. Speaker, many Americans with disabilities rely on Federal health care and social services, assistance that makes it possible for them to lead independent and productive lives. But, unbelievably, we condition this assistance on their destitution. People with disabilities must get poor and stay poor if they are going to retain their health care benefits. They have got to choose between working and surviving.

That is why I introduced the Work Incentives Improvement Act, and that is why we have over 250 cosponsors

from both sides of the aisle to end this perverse system of allowing Americans with disabilities to enter the workforce without endangering their health care coverage.

Mr. Speaker, a 1998 Harris survey found that 72 percent of Americans with disabilities want to work, but the fact remains that only one-half of one percent of dependent disabled Americans successfully move to work. Each percentage point of Americans moving to work represents 80,000 Americans who want to pay all or part of their own way but cannot; 80,000 Americans who are forced by a poorly designed system to sit on the sidelines while American businesses clamor for qualified workers.

This bill, in the end, Mr. Speaker, is about empowering people, people like a 39-year-old Navy veteran from my district who used to work on Wall Street and hoped to become a stockbroker but an accident in 1983 left him a quadriplegic. And even though he requires assistance for even the most basic daily activities, he never gave up on his dream. And 10 years after his accident, he passed the grueling stockbroker licensing exam. But, like most disabled Americans, he cannot afford to lose his health care benefits. If it were not for the current Federal rules, he would be a practicing, taxpaying stock broker today.

The Work Incentives Improvement Act ends this injustice. It rips down bureaucratic walls that stand between people with disabilities and a paycheck. It is important to remember that a paycheck means a lot more than just money. For a disabled American or any American, it means self-sufficiency. It means pride in a job well done. It means dignity.

Mr. Speaker, we have come a long, long way since the time when Americans with disabilities were shunted off to the farthest corners of our communities. Many Americans have been waiting for us to give them a chance to pursue the American dream. Today let us tell them that the wait is over. Let us get the Work Incentives Improvement Act passed today.

Mr. RANGEL. Mr. Speaker, I yield 1½ minutes to the gentlewoman from California (Ms. LOFGREN).

Ms. LOFGREN. Mr. Speaker, the disability provisions of this act are really important and are going to make a difference in the lives of many. But I want to talk about two other provisions that will make our country more prosperous, and that is the R&D tax credit and Section 127 of the Tax Code.

Our party's position, the Democratic position, as stated by our leader is that the R&D tax credit should be permanent. This 5-year extension is really in the right direction. I am happy to support it. But next year we are going to go for permanent.

On 127, I was so pleased that the gentleman from New York (Mr. RANGEL),

the ranking member, has taken so much time to work on this. It is important that we support employer-supported tuition reimbursement plans. In this day and age, when the best educated workforce means they will be competitive, encouraging employers to help employees to continue their education is essential.

Again, I am happy to support this extension, and I look forward to extending this to graduate education. I thank the gentleman from New York (Mr. RANGEL) whose understanding and support of high-tech issues in this bill comes through loud and clear. He really followed through on the commitments he made when he came and visited Silicon Valley and really understood the issue of competitiveness and technology and education.

So kudos to the gentleman from New York (Mr. RANGEL) for his wonderful work. I look forward to taking both of these provisions just a little bit farther in the next Congress.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. FOLEY), a member of the Committee on Ways and Means.

Mr. FOLEY. Mr. Speaker, I do want to just correct a statement made by the prior speaker when she described their efforts to extend permanently the R&D tax credit.

We can tell our colleagues from negotiations that Mr. Summers, the Treasury Secretary, vehemently opposed that permanent extension. So that, if that is the position of the party, we would like the Secretary of the Treasury to be informed of that position so that it would be much easier for the chairman of the Committee on Ways and Means to accomplish something he tried to do at the very outset of deliberations.

I want to also suggest to my colleagues how proud I am to stand up and support this bill. Credits to Puerto Rico and U.S. possessions, minimum tax relief for individuals, permitting full use of personal nonrefundable credits, welfare-to-work tax credits, work opportunity tax credits, a number of initiatives that I think will stimulate the economy, continue us on our road to prosperity, continue to see additional revenues to the Treasury so we can continue to reduce the debt of the American taxpayers to increase and enhance investment in America.

I commend the gentleman from Texas (Mr. ARCHER), the chairman of the Committee on Ways and Means, for seeing this bill to the successful conclusion. Especially, I would like to note the ticket-to-work and Work Incentives Improvement Act of 1999.

So oftentimes some of our vulnerable citizens in society who have been stricken by illnesses and ailments have been unable to make the required choice of whether to stay employed and then forgo, if you will, the Social Security, the Medicare-Medicaid provisions.

This bill now makes an attempt, to allow those capable and able individuals to be in the workforce, continue those vital health insurance needs provided by Medicaid and Medicare, and allow them to be productive, taxpaying citizens.

So I applaud the bill and I urge Members to vote for passage of this bill as it comes to the floor.

Mr. RANGEL. Mr. Speaker, it is with great pleasure that I yield 3 minutes to the gentleman from Michigan (Mr. DINGELL), the former chairman and now ranking member of the Committee on Commerce, my friend and distinguished colleague.

Mr. DINGELL. Mr. Speaker, I thank my good friend, the gentleman from New York (Mr. RANGEL) for his kindness to me.

We take one step forward and one back. The bipartisan agreement on organ allocations was reached during negotiations between Labor, HHS and on that appropriations bill.

The revised regulation would not become final until 42 days after enactment, sufficient time to enable the comments on the revisions and, if necessary, to make further modifications. Now we are witnessing an end run by opponents to this proposal with regard to organ allocation policy.

The legislation before us contains a moratorium of 90 days on any allocation regulation. This delay has a huge cost. The regulation calls for broader organ sharing. This is consistent with the conclusion of the National Academy of Sciences, which studied the allocation system.

HHS has stated that approximately 300 lives per year could be saved through broader sharing. The math is simple. There is a difference between a 42-day delay and a delay of almost 90 days.

Two more points to be made. First, blocking HHS oversight amounts to privatization of Medicare and Medicaid expenditures attributable to organ transplants. If my colleagues want to privatize Medicare, let them do it in the open and proper fashion.

Second, blocking HHS oversight continues the proliferation of State organ allocation statutes, at least 12 by last count. That is directly in conflict with the current allocation criteria and with good sense.

The same Members who decry political or bureaucratic involvement in organ allocation policy when they have HHS in mind are stunningly silent when politicians and bureaucrats involved in this are State officials.

A lack of leadership on the issue is creating immense fragmentation of organ allocation policies, just the opposite direction of where IOM said the allocation policies should go.

In like fashion, the Work Incentives Act of 1999 is a large step in the correct fashion. It will ensure that the disabled

no longer have to choose between health care and their jobs. The bill also includes a demonstration project to provide health coverage to people who have serious conditions but are not fully disabled, these people who have multiple sclerosis or cerebral palsy. This would enable them to remain as working members of society.

Thanks to hard work and dedication on the part of the administration and the disability community, additional funding has been secured for a very important project here.

During the past few weeks, controversy has swirled around proposed offsets in the bill. Parties from both sides have agreed to remove some of the most contentious payfors. However, I have heard objections from many of my constituents about two offsets that remain, a provision to change the way that students loans are financed and a tax on payments to attorneys who represent Social Security claimants.

Although I am going to vote for this bill, I have substantial concerns for these offsets. And, very truthfully, the things that are done here are wrong.

The Work Incentives Act has overcome many obstacles in its legislative history. The bill is on the floor today because it is based on good policy and because it will make a difference of lives of people with disabilities. For that reason, I support it.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. SHAW), the respected chairman of the Subcommittee on Social Security of the Committee on Ways and Means.

Mr. SHAW. Mr. Speaker, I thank the chairman for yielding me this time.

Mr. Speaker, this legislation is about work. Its goal is to help individuals with disabilities work and support themselves and support their families.

Today only three in ten adults with disabilities work, compared with eight in ten adults without disabilities. A big reason is Government programs take away cash and medical benefits if disabled individuals find and keep jobs. That must change. And it will change under this bill that is before us today.

No one should be afraid of losing benefits if they do the right thing and try to work. We should reward and help especially those who struggle to overcome their disabilities. That is why we are offering the new tickets disability individuals can use to obtain whatever services they need in order to work.

But we do not stop there. We extend health care coverage for a total of 8½ years so that no one has to fear losing their medical coverage if they go to work.

Some may still not risk going to work for fear of having to wait months or even years to get back on the benefits if their health begins to once again decline. So we ensure disabled individuals can quickly get back onto the

rolls if they try to work but their health deteriorates.

That is the right kind of safety net, one that encourages work and protects those who need help along the way. From providing more help, finding and keeping a job, ensuring health care coverage, to strengthening the safety net to those who cannot stay on the job, this legislation does the right thing. This is another historic step to ensure that everyone can know the dignity that comes with work.

I urge all Members to support this bill.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. BROWN), the ranking member of the Subcommittee on Health and Environment of the Committee on Commerce.

Mr. BROWN of Ohio. Mr. Speaker, I thank the gentleman from New York (Mr. RANGEL) for yielding me the time.

Mr. Speaker, this Congress owes a debt of gratitude to the gentleman from New York (Mr. LAZIO) and to the gentleman from California (Mr. WAXMAN). Thanks largely to their efforts, we have an opportunity to do something right. I wish I could say that more often.

We owe a debt of gratitude especially to the gentleman from Michigan (Mr. DINGELL) and the gentleman from New York (Mr. RANGEL) under whose leadership proponents of this legislation managed to defend repeated attempts to emasculate it.

Finally, we owe a debt of gratitude to President Clinton. The President and his exceptional health team have demonstrated their commitment to the goals of this bill in a number of ways, lending their assistance again and again as this arduous process moved forward.

The idea behind the bill is simple. If individuals want to work, let us help them work. For many disabled individuals, the ability to work hinges on reliable health care. Yet, under current law, work means losing access to that care. By providing continued access to Medicare and Medicaid, the Work Incentives Improvement Act enables individuals to leave the disability roles and go back to work.

H.R. 1180 taps into the tremendous human potential that all of us have and takes us closer to a time where equal opportunity for disabled people is no longer an objective, it is a fact.

Nothing is perfect. This bill could have been much closer to that ideal if the Republican leadership had not co-opted it with a self-serving moratorium on the organ allocation bill. And there is a user fee provision that may reduce the number of attorneys willing to represent disabled clients. It is not a particularly well thought out provision. But overall, Mr. Speaker, the bill is a victory for the disabled and a much needed reminder that American values are, in fact, intact.

I ask for support of the bill.

□ 1830

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut (Mrs. JOHNSON), the respected chairman of the Subcommittee on Human Resources of the Committee on Ways and Means.

Mrs. JOHNSON of Connecticut. Mr. Speaker, I thank the gentleman for yielding me this time. I want to comment briefly on two parts of this bill. First of all, it is really a joy to know that people in my district who suffer from physical or mental disabilities and who want to work and are capable of work but cannot work because of fear of losing their health coverage are going to be able to work. And as the Christmas holidays approach and they are offered longer hours, I know that they are going to be able to realize their dream of being a real part of the work team at their place of business. It is really a wonderful thing that we have done in this bill, to enable Americans simply to realize the opportunity of self-fulfillment that work offers.

But I also want to mention one other thing. How do we foster invention? Lots of times, we ask ourselves, how do we assure that there will be a strong economy for our children? In this bill is one of the keys. For the first time ever, we make the research and development tax credit in place and law for 5 years. Our goal is permanence, but we have never had 5 years. This will enable companies to plan and enable them to invest at a pace and at dimensions of dollars that we have never seen before. That drives new products. That drives state-of-the-art inventions. That drives economic leadership. And that drives good jobs, high-paying jobs, and a successful America.

I want to personally congratulate the gentleman from Texas for his dedication to the R&D tax credit that would be longstanding enough to foster the kind of growth and invention, support for an entrepreneurial economy that this R&D tax credit will achieve. I know that he would have preferred permanence as many of us would have. But this is a tremendous breakthrough. It is a real tribute to the gentleman from Texas and his dedication and to this Congress that we have extended the R&D tax credit for 5 years.

Mr. RANGEL. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentleman for yielding me this time. I guess I would like to focus on the dignity that this bill gives to many Americans who simply want a chance. I thank the ranking member. I thank the chairman of this committee. I could quarrel with the process in some of the extenders that we will also be including, but I want to respond with a focus on one of my con-

stituents who saw me in the Heights, an area of my district in Houston, and spoke about her son. We were at a memorial giving tribute to those who had served in the military who lived in the Heights area. After the program, she came up and said, "What is the progress, when will you pass the Work Incentives Improvement Act? My son wants to be independent. My son wants to get on his feet. My son who is disabled simply wants to have his day in the sun."

And so this particular bill is of great relief to her and her family. It is a ticket to work and self-sufficiency program. And in fact over the years that I have been in Congress, I have enjoyed meeting with some of the physically and mentally disabled or challenged who have come to my office and have asked simply to be allowed to work and then not to lose their health benefits. That is their greatest crisis. In order for them not to be dependent, they need to have this kind of support system. I support this effort that would expand beneficiaries' access to public and private vocational rehabilitation providers and to employment service providers acting as employment networks under the program, and I support particularly the aspect of this bill that allows the disabled to go off and work and then, for example, if there is a problem, they still have the ability to come back within a 60-month period and get the benefits that they need without filing a new application. This is long overdue.

Mr. Speaker, I rise to support this important measure that both allows disabled persons to retain their federal health benefits after they return to work along and authorizes extensions for several tax provisions.

The conference report on H.R. 1180, Work Incentives Improvement Act is a true measure of bipartisan efforts and includes a compromise version of the original House and Senate bills. This bill would establish the "Ticket to Work and Self-sufficiency Program" that would expand beneficiaries' access to public and private vocational rehabilitation providers and to employment service providers acting as employment networks under the Program.

This bill will allow disabled individuals to receive an expedited reinstatement of benefits if they lose their benefits due to work activity. Disabled individuals would have 60 months after their benefits were terminated during which to request a reinstatement of benefits without having to file a new application. It is imperative that we protect these disabled individuals, and this bill would provide provisional benefits for up to six months while the Social Security Administration determines these requests for reinstatement.

In addition to allowing disabled persons to retain their federal health benefits after they return to work, this bill also includes extensions of various tax provisions, many of which are scheduled to expire at the end of this year. The conference agreement provides approximately \$15.8 billion in tax relief over five

years (\$18.4 billion over 10 years) by extending certain tax credits.

More specifically, this measure extends the Research and Development tax credit for five years (this credit would be expanded to include Puerto Rico and possessions of the United States), the Welfare-to-Work and Work Opportunity tax credits for 30 months, and the Generalized System of Preferences through September 30, 2001. Finally, the measure includes approximately \$2.6 billion in revenue offsets over five years (\$2.9 billion over 10 years).

This bill also delays the effective date of the organ procurement and transplantation network final rule. This rider provides people with more time to comment on the rule and for the Secretary to consider these comments. Our organ distribution system requires changes to create a more national system, to diminish the enormous waiting times, and to ensure that those people who are suffering the most receive help in time. The late, great Walter Payton's sorrowful death is just another sad reminder that far too many people in need of organs are trapped on waiting lists.

Finally, the bill requires the National Oceanic and Atmospheric Administration to continue existing contracts for its multi-year program for climate database modernization and utilization.

This measure clearly is important to the American people on many fronts. It is imperative that we pass this important piece of legislation. It is a sign that we are unified on both sides of the aisle, and it proves to the American public that we have put their needs above political posturing.

Mr. ARCHER. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. OSE).

Mr. OSE. Mr. Speaker, I rise today in strong support of H.R. 1180, the Work Incentives Improvement Act. I want to express my sincere appreciation to the gentleman from Texas (Mr. ARCHER) and to the gentleman from New York (Mr. RANGEL). We have heard much talk this evening about tax credits for R&D and the like and those are very important. But when I read this bill and I listen to the conversations, I hear freedom. I hear freedom for 5 million people who right now are confined or constrained because the law does not allow them to maintain their health benefits.

Mr. Speaker, if I could say one thing that just sends me home here soon with a light heart, it is that at the end of the 20th century as we did at the end of the 18th century, for over 5 million Americans this bill lets freedom ring. It lets them compete and participate. I applaud my colleagues.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Oklahoma (Mr. WATKINS), another respected member of the Committee on Ways and Means.

Mr. WATKINS. Mr. Speaker, I rise in support of the Work Incentives Improvement Act of 1999. First and foremost I say to my committee chairman and ranking minority member that the

provisions here on the extenders is one that is going to be of great assistance and help to be able to continue moving the economy forward. The R&D for 5 years is a great need for business and industries that do a lot of research.

I would like to bring out a couple of things that are not highlighted, but I have had a chance of working personally with a number of individuals concerning this. One, the conference agreement would provide a 2-year open season beginning January 1 for clergy to revoke their exemption from Social Security coverage. This is something that a lot of ministers, and I have been associated with a lot of them through the fact that my former father-in-law was a minister, he is deceased now, but it is something I know he was concerned about back years ago.

The other provision is even a little closer. My wife and I have had our home available, licensed for foster children over the years; and I have worked with a lot of foster children. In this bill we have had a simplification of the definition of foster child under the earned income credit program. It provides for the simplification. Under this particular provision, a foster child would be defined as a child who is cared for by the taxpayer as if he or she were the taxpayer's own child; two, has the same principal place of abode as the taxpayer for the taxpayer's entire taxable year; and, three, either is the taxpayer's brother, sister, stepbrother, stepsister or descendant, including an adopted child, of any such relative.

This is something that has been focused. I do not know if any of you have ever tried to work with a lot of the situation dealing with foster children, but it is a very cumbersome problem. This will help eliminate that.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. WELLER), another respected member of the Committee on Ways and Means.

Mr. WELLER. Mr. Speaker, let me begin my comments by just again praising the leadership of our committee's chairman for his efforts in putting together this good package that we are voting on today, a package that deserves bipartisan support, as well as the good ranking member for his efforts in making this a bipartisan effort today.

Mr. Speaker, this is a big victory for a lot of folks back home. The disabled are big winners with the ticket to work provisions in this bill, legislation that helps the disabled enter the workforce and keep their health care benefits. I really want to commend the gentleman from Missouri (Mr. HULSHOF) for his hard work and efforts on this.

It is also a victory for the taxpayers. This Congress said no to the President's \$238 billion in tax increases. This Congress said no to the President's plan to raid the Social Security Trust

Fund by \$340 billion. I do want to express my biggest disappointment for this year and that is when the President vetoed our efforts to help 28 million married working couples when the President vetoed our efforts to eliminate the marriage tax penalty.

This legislation is good legislation. It helps folks back home in Illinois. There are three provisions I would like to highlight. Of course, the 5-year extension of the research and development tax credit. That is so important in Illinois, a multiyear commitment to providing this incentive for research into cancer, research into biotechnology, to increase food productivity, to increase the opportunity to grow our new economy, particularly in high technology since Illinois ranks fourth in technology. I also would note that Puerto Rico is included with this extension of the R&D tax credit, extension of the work opportunity tax credit.

We want welfare reform to work. If we want welfare reform to work, of course we want to ensure that there is a job for those on welfare. The work opportunity tax credits help contribute to a 50 percent reduction in the welfare rolls in Illinois. We extend it for 2½ years.

Third and last, I want to note the brownfields tax incentive, a provision that many of us worked on to include in the 1997 budget act. This is successfully working. Of course we extend it. I would point out that the district I represent on the South Side of Chicago, that the former Republic Steel property, the largest brownfield in Illinois, the largest new industrial park in Illinois benefited from this brownfields tax incentive. This is good legislation, and it deserves bipartisan support.

Mr. RANGEL. Mr. Speaker, I yield myself the balance of my time. I would like to take this time to thank the gentleman from Texas for the courtesies he has extended to me. While we have had major policy differences, he has always been a gentleman, he has been fair, he has been honest, and above all he has been sincere. I want to thank Mr. Singleton and the entire majority staff as well as Janice Mays. We have probably one of the best staffs in the House and they have worked hard and they have worked with us.

While it is my opinion that we did not accomplish too much in this first year, I look forward to working with the gentleman side by side, hand in hand to see what we can do to restore confidence in the Social Security system, the Medicare system, and see what we can do about prescription drugs.

Mr. ARCHER. Mr. Speaker, I yield myself the balance of my time. I thank the gentleman for his comments. We have much work to do next year, where we can work hopefully together on a strong bipartisan basis on Social Secu-

rity, trade issues, and many other issues before our committee.

Mr. RANGEL. Mr. Speaker, I would like to clarify a provision relating to the rum cover over provision for Puerto Rico. The House-Senate conference agreement calls for an increase in the rum cover over for Puerto Rico from the current level of \$10.50 to \$13.25. It is my understanding that by an agreement between the Administration and the Governor of Puerto Rico, the Honorable Pedro Rossello, one-sixth of the \$2.75 increase in the rum cover over to Puerto Rico will be dedicated to the Puerto Rico Conservation Trust, a private, nonprofit section 501(c)(3) organization operating in Puerto Rico. The Puerto Rico Conservation Trust was created for the protection of natural resources and environmental beauty of Puerto Rico and was established pursuant to a Memorandum of Understanding between the Department of the Interior and Commonwealth of Puerto Rico dated December 24, 1968."

Mr. NEAL of Massachusetts. Mr. Speaker, I am going to vote for this legislation even though it is not paid for because added to the Ticket To Work program are important "must pass" tax provisions vital to all our constituents.

The most important provision in this bill is the extension of the current waiver of the alternative minimum tax rules affecting non-refundable personal credits. Without enactment of this provision, next April approximately 1 million taxpayers will find they owe more money to the federal government than they thought, for an average "stealth" tax increase of about \$900 each. Millions more will have to though the alternative minimum tax calculations, which can take 5 or 6 hours, just to find out they don't owe any more money.

In 1997 Congress approved new credits for children, and for education. We promised our constituents that the federal government would help them with these responsibilities. However, we subjected these credits to the alternative minimum tax. The result is that more and more middle income Americans will be forced into the AMA by our actions—and we will rightly get the blame.

So now we have to fix it. This bill does that for 3 years. But what we really need to do is to fix this problem permanently, because no middle income American should ever be subject to the alternative minimum tax calculation simply because they decided to send their kids to college.

Mr. Speaker, other members may focus their remarks regarding taxes on the research and development tax credit, or the Subpart F extension, or employer provided educational assistance. All important items. But not items that drive this bill—what is of paramount importance is the AMA fix, and I am pleased that we are finally taking steps to fix this for the immediate future.

Mr. STARK. Mr. Speaker, I rise with regret to oppose what is being called the "Ticket to Work and Work Incentives Improvement Act Conference Report." This title would never pass the "Truth in Labeling" test if it were on a box of food, but you can get still away with such falsehoods here in Congress—especially in the waning hours of the session.

The reason for my regret is that I have worked much of the year to encourage passage of the Work Incentives Improvement Act here in the House. This legislation is vitally important for disabled individuals. Our current system—which actively discourages disabled people from returning to the workforce—simply makes no sense. Allowing disabled people to maintain their health insurance through Medicare when they return to work is something that should have always been law, not something we are finally doing today.

I support that component of this bill which we are here considering today. I am unhappy that it has been weakened from the version that originally passed the House. In that bill, we would have given disabled individuals the ability to keep their Medicare health insurance for 10 years, while the bill before us today only extends that coverage for 8½ years. But, there is no question that this would be a significant improvement from the status quo.

However, there is much more to this bill than the title would suggest. Through late night negotiations, this bill changed. In addition to the provisions relating to the Work Incentives Improvement Act, the bill includes two completely unrelated provisions. The first of these is a 90-day moratorium preventing the Secretary of Health and Human Services from implementing a regulation to improve our organ allocation program in the U.S. Also included is a package of tax extenders that is not fully paid for.

The moratorium on the organ allocation regulation is especially egregious. The regulation is a product of negotiations with the transplant community, patients, and the general public and ensures the sickest patients get organs first—instead of basing life and death decisions on geography.

Republicans included this same 90-day delay of the HHS organ allocation regulations in legislation earlier this year. The President vetoed that bill and cited the organ allocation moratorium as “a highly objectionable provision.” After that veto, Congressional budget negotiators and the White House agreed to permit the HHS organ allocation rule to go into effect after a 42-day consultation period. Yet only a few days later, they have decided to renege on that agreement.

Congress has already delayed the HHS rules for over a year—permitting the Institute of Medicine (IoM) to study the current system. The IoM report strongly validates the HHS regulations by calling for broader sharing of organs and for HHS to exercise its “legitimate oversight responsibilities.” Twelve patients die every day while awaiting an organ transplant under the current system. The fact of the matter is this moratorium is a pork barrel project for members of Congress who either represent the federal contractor, or small transplant centers with poorer outcomes who stand to lose under the new regulations. The Secretary’s regulation will save lives. This moratorium will cause people to die. Which side do you think is right?

Just like every other bill the Republicans have tried to push through this Congress, the tax extender provisions in the bill give big tax breaks to big business. It includes tens of millions of rifle-shot give-aways to GE—certainly not one of the neediest taxpayers in this coun-

try. It also spends \$13 billion to give corporations money for research. Most companies would conduct research on their own regardless of whether or not taxpayers foot the bill. Do you really think that corporations like Schering-Plough would have halted research for their highly profitable drug Claritin if Congress had denied a research tax credit? Companies must conduct research in order to create profits. They don’t need tax incentives from Congress to make a profit.

In addition, this bill throws money to the wind through the highly unsuccessful windmill tax credit. There are windmills up and down the highways of California in hopes that they might produce effective forms of electricity. Once again, we’re extending \$3 billion in tax breaks to energy companies so that they can continue pouring money into a lofty goal. Coupled with this tax break is one that will provide tax incentives to energy companies who can produce energy from poultry droppings. Why stop at energy? We should give them tax incentives to produce gold from chicken droppings!

Because of these unrelated provisions that were snuck into an otherwise very worthy bill, I am forced to vote against this bill today.

Mr. SENSENBRENNER. Mr. Speaker, I rise in support of H.R. 1180, the Work Incentives Improvement Act of 1999. As Chairman of the Committee on Science, I would like to highlight a provision of the bill that is particularly important to our nation’s research base: the Research and Development Tax Credit (R&D tax credit).

H.R. 1180 includes the longest ever extension of the R&D tax credit. While I support a permanent extension of the R&D credit, this five-year extension is a step in the right direction. As federal discretionary spending for R&D is squeezed, incentives must be used to maximize private sector innovation and maintain our global leadership in high-tech, high-growth industries that help keep our economy the strongest in the world.

A long-term extension of the credit will aid the research community by creating incentives for private industry to fund research projects. Congress has extended the R&D Tax Credit repeatedly over a period of 18 years. The credit again lapsed on June 30th of this year. This five-year extension will put an end to the start-and-stop approach that has characterized this extension process.

A 1998 Coopers & Lybrand study found that U.S. companies would spend \$41 billion more (in 1998 dollars) on R&D as a result of extending the credit. This in turn would lead to greater innovation from additional R&D investment and would begin to improve productivity almost immediately, adding more than \$13 billion a year to the economy’s productive capacity by the year 2010. The Coopers & Lybrand report went on to note that the R&D tax credit would ultimately pay for itself. “In the long run,” the report states, “\$1.75 of additional tax revenue (on a present value basis) would be generated for each dollar the government spends on the credit, creating a win-win situation for both taxpayers and the government.”

Last year, the Science Committee released a National Science Policy Study entitled *Unlocking Our Future: Toward A New National Science Policy*. The *Unlocking Our Future* is

the most comprehensive study of federal science policies ever conducted by Congress. And the full House passed a resolution adopting its recommendations. One of the study’s primary recommendations was the permanent extension of the R&D tax credit. I am pleased that the House today is taking a concrete step toward enacting the study’s recommendations.

Mr. FRELINGHUYSEN. Mr. Speaker, I rise today in support of H.R. 1180, the conference report on the Ticket to Work and Work Incentives Improvement Act.

This bill will provide a true “Ticket-to-Work” for disabled individuals by bringing them back into the workforce while still providing them with a safety net of government services that are needed to help make the transition. It is an important first step toward addressing the disincentives which exist in current law that discourage disabled individuals from working.

According to a Washington Post article published earlier this year, 6.6 million working-age Americans receive disability checks from the Federal Government every month. All too often, these individuals are unable to return to the workforce. Among the barriers they face upon returning to work is they risk the loss of important federal benefits such as Medicare health care coverage. Under this legislation, individuals would be eligible for up to four and a half additional years of Medicare benefits. While I would have preferred to have individuals eligible for Medicare for an additional six years, I believe this is a positive step forward and that further steps should be taken in the future.

In addition, this bill provides a voucher that individuals can exchange for rehabilitation, employment or other necessary services with their provider of choice.

The Ticket to Work bill will change the Social Security Administration’s disability programs for the better. As Tony Young of the United Cerebral Palsy Association said in his testimony before the Ways and Means Committee in March, these programs, “are transformed from a safety net into a trampoline; not only catching people with disabilities as they fall out of work, but also giving them a boost back into work as they are ready.”

I urge my colleagues to support this legislation, which is an important step toward helping individuals with disabilities be independent, and to become a vital part of the workforce.

Mr. BILIRAKIS. Mr. Speaker, I rise today in support of H.R. 1180, the Work Incentives Improvement Act of 1999. I am a cosponsor of this important legislation and was proud to expeditiously move this proposal through my Subcommittee and support its passage through the House Commerce Committee.

My Subcommittee held a hearing at which we heard from federal, state and local officials, as well as individuals living with disabilities. All of the witnesses emphasized the need for this legislation. They noted that the current system unfairly forces people to choose between work and health care.

H.R. 1180 was introduced in March by our colleagues RICK LAZIO and HENRY WAXMAN, and this bill underscores the positive power of bipartisanship.

The bill removes barriers for individuals who want to work. By encouraging work over welfare, it also promotes personal dignity and self-sufficiency.

Two federal programs—Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI)—provide cash benefits to people with disabilities. By qualifying for these benefits, individuals are also eligible for health coverage through Medicare and Medicaid. These programs provide comprehensive services that people with disabilities value and need.

Ironically, individuals with disabilities risk losing these health protections if they enter the work force. Under current law, earnings above a minimal amount trigger the loss of both cash benefits and health coverage under Medicare and Medicaid.

H.R. 1180 would allow states to expand the Medicaid buy-in option to persons with disabilities through two optional programs. The bill also creates a trial program to extend Medicare Part A benefits to SSDI recipients. Further, it provides infrastructure and demonstration grants to assist the states in developing their capacity to run these expanded programs.

Finally, the bill creates a new payment system for vocational rehabilitation programs that serve individuals with disabilities. Similar provisions were passed by the House of Representatives last year.

As I have emphasized before, H.R. 1180 will help people help themselves. Approval of this bill by the House of Representatives today is an important step in improving the quality of life for millions of Americans who live with disabilities.

Mr. BENTSEN. Mr. Speaker, I rise today in strong support of the conference report of H.R. 1180, the Work Incentives Improvement Act. This bill includes three separate bills, including the conference report for H.R. 1180, the tax extenders legislation, and a provision related to organ transplantation regulations. I strongly support all three of these proposals and urge my colleagues to support this bill.

I am pleased that the conference report for H.R. 1180 does not include certain provisions related to school-based health services. An earlier version of this bill, as approved by the House, included Section 407 to help offset the costs associated with this bill. Section 407 would be detrimental to our local schools districts who have worked to screen children for Medicaid eligibility. According to the U.S. Census Bureau there are 4.4 million children who are eligible for, but not enrolled in, Medicaid. Under existing laws, public schools can receive reimbursements through the Medicaid Administrative Claiming (MAC) program to help screen for these Medicaid eligible children. I learned about these provisions through the efforts of a local school district, the La Porte Independent School District (PISD). PISD is the lead district for a consortium of 200 small and rural Texas school districts participating in the MAC program. After learning about this provision, I also organized a letter to Speaker HASTERT in opposition to these off-set provisions. I am pleased that the conference committee has removed all provisions related to school-based health programs that would have been harmful.

I support passage of this measure because it ensures that disabled persons can keep their health insurance when they return to work. Under current law, disabled persons

who are eligible for Social Security disability benefits are precluded from earning significant income without losing their Medicare or Medicaid health insurance. This bill would permit disabled persons to work while maintaining their health insurance coverage. For many disabled persons, this health insurance is critically important since they can neither afford nor purchase health insurance in the open market. This bill would provide SSDI beneficiaries with Medicare coverage for eight and ½ years, instead of the current 4-year term. This legislation also provides vocational rehabilitative services to disabled persons, ensuring their access to the training they need to become more self-sufficient. As an original cosponsor of the underlying bill, I support all of these provisions.

This bill also includes a critically important provision related to organ transplantation policy. This bill would impose a 90-day moratorium on the proposed Department of Health and Human Services (HHS) regulations related to organ transplantation policy that would change the current allocation system from a regionally-based system to a national medical-need system. This provision also includes a requirement that HHS must reopen this proposal for public comment about this issue. I am very concerned about the impact of this proposed regulation on organ transplants done at the Texas Medical Center. The Texas Medical Center and the local organ procurement organization, LifeGift, have done an excellent job of encouraging organ donations in our area. The impact of this regulation would be to override the current system which was developed in consultation with our nation's premier transplantation physicians and practitioners. If this new regulation were implemented, many of these organs could possibly be transferred away from the local patients who need them. I am pleased that Congress has acted to provide itself with sufficient time to reauthorize the National Organ Transplant Act (NOTA). The House has already approved this bill, giving the Senate sufficient time to consider and approve a NOTA measure.

This is an important bill which we should approve and I would urge my colleagues to vote for this bill.

Mr. WAXMAN. Mr. Speaker, I rise in strong support of the basic provisions of H.R. 1180, the Work Incentive Improvement Act. The core program contained in this bill is designed to provide support and health care assistance to severely disabled people who want to work despite the obstacles their disabilities present, indeed who are determined to work and become productive and contributing members of society.

These are people who need to keep their health care coverage through Medicaid and Medicare to enable them to stay in the work force. We owe them nothing less.

It is a testament to the compelling nature of their case that this bill has had such broad and bipartisan support in both the House and the Senate. The President has also been strongly committed to seeing it enacted, from his call to the Congress to enact this program in his State of the Union message last January to the final negotiations to bring this bill here today. And I want to particularly note the contributions of RICK LAZIO, who I was pleased

to join as the original sponsor of the bill, NANCY JOHNSON and BOB MATSUI from the Ways and Means Committee, and JOHN DINGELL and CHARLIE RANGEL who served on the conference committee.

We can all be proud of its enactment. I am especially pleased that the conference report increased the funds available to support demonstrations by States to provide health services to persons with potentially severe disabilities in order to keep their health from deteriorating and to allow them to continue to work. Surely, this is one of the most sensible and cost-effective things we can do.

But it is unfortunate that this exemplary piece of legislation has been used in the closing days of this session to pursue other agendas. The conference report includes a rider added to H.R. 1180 through stealth and political extortion which delays vital reforms of our national organ allocation system.

The one-year moratorium on the Department of Health and Human Services' Final Rule expired last month. Last week, the Administration and the appropriators, including Chairman YOUNG and Mr. OBEY, agreed to a final compromise 42-day comment period on the Final Rule's implementation.

But the defenders of UNOS and the status quo weren't satisfied. They twisted arms behind closed doors. They blocked passage of the Health Research and Quality Act of 1999 and the reauthorization of the Substance Abuse and Mental Health Administration. They blocked enactment of critical medical education payments for children's hospitals. And they subverted the authority of the committees of jurisdiction.

Now, the compromise is being abandoned by the Republican leadership. The commitments made to the Administration and to Members have been broken in bad faith.

And what's the result? The 42 days becomes 90 days.

Mr. Speaker, enough is enough.

There is no excuse for this action. The Final Rule is the result of years of deliberation. It embodies the consensus that organs should be shared more broadly to end unjust racial and geographical disparities.

Every day of delay is another day of unconscionable 200 to 300 percent disparities in transplant and survival rates across the country—disparities which the Final Rule addresses.

Every day delays action on the Institute of Medicine's recommendation "that the Final Rule be implemented" because broader sharing "will result in more opportunities to transplant sicker patients without adversely affecting less sick patients."

And every day condones a status quo of gross racial injustice and unjust, parochial self-interest.

Mr. Speaker, the status quo is slowly killing patients who deserve to live, but are deprived of that right by a system that stacks the odds against them. But in spite of this rider, in spite of the delay and the back-room politics, reforms will come. Therefore, I urge my colleagues to support the Final Rule and to oppose the organ allocation rider.

Mr. CRANE. Mr. Speaker, I rise in strong support of the tax relief provisions which have been attached to H.R. 1180.

This tax relief package renews several temporary tax relief provisions and addresses other time sensitive tax items.

For example, we give at least one million American families relief from an increase in their alternative minimum tax that would occur when they take advantage of the child tax credit, the dependent care tax credit, or other tax credits. In addition, we renew and extend the exclusion from income for employer-provided educational assistance.

For businesses, we are extending the very valuable research and experimentation (R&E) tax credit for five years while we extend the creditor to Puerto Rico and the other U.S. territories for the first time. The R&E credit will allow U.S. companies to continue to lead the world in innovative, cutting-edge technology.

In an effort to help get Americans off government assistance and into the workplace, we are extending the Work Opportunity Tax Credit and the Welfare-to-Work Tax Credit through the end of 2001.

One item that I was particularly grateful to have included in this package is an increase in the rum excise tax cover-over to Puerto Rico and the Virgin Islands from the current \$10.50 per proof gallon to \$13.25 per proof gallon. I was, however, disappointed that the provision did not include language to specifically state that a portion of Puerto Rico's increase is designated for the Conservation Trust Fund of Puerto Rico.

Instead, I understand that an agreement has been reached with the Governor of Puerto Rico to provide one-sixth of the increase to the Trust Fund during the time of the increase of the cover-over (July 1, 1999 through December 31, 2001). I appreciate the support of the Governor in this endeavor. The Conservation Trust Fund, which enjoys tremendous support from the people of Puerto Rico, plays an important role in the preservation of the natural resources of the island for the benefit of her future generations.

Mr. Speaker, I applaud the efforts of our Chairman, BILL ARCHER, in putting together this tax relief package and I urge my colleagues to support it.

Mr. PORTMAN. Mr. Speaker, I rise in support of the tax extender and Ticket to Work package. I commend the Chairman and my colleagues RICK LAZIO of New York and KENNY HULSHOF of Missouri for their leadership on this issue.

So many people with disabilities want to work, and technological as well as medical advances now make it possible for many of them to do so. Unfortunately, the current Social Security Disability program has an inherent number of obstacles and disincentives for people to leave the rolls and seek gainful employment because they will lose cash and critical Medicare benefits.

This proposal before us today is designed to eliminate those obstacles and allow beneficiaries to select from a wider choice of rehabilitation and support services. It also extends health benefits for disabled people returning to work, which has been one of the single biggest challenges for helping people to make this transition.

Specifically, it expands state options under the Medicaid program for workers with disabilities, and it extends Medicare coverage for SSDI beneficiaries.

Importantly, this bill not only will well serve the disabled, and also will save millions of Social Security dollars in the coming years. The key to this bill is that it will provide people with the opportunities and means they have asked us for to become productive members of society. This is a good and fiscally responsible bill.

I'd also like to express my support for the important package of tax extenders contained in this legislation. These extenders—like the R&D tax credit and others—are essential elements in our effort to maintain our strong economy.

I urge my colleagues to support this responsible package.

Mr. KLINK. Mr. Speaker, I rise today in opposition to the inclusion of the provision that stops the Department of Health and Human Services from improving the system of organ allocation in this country. The organ provision was only thrown into this bill at the last minute, and it has no place in this bill.

The current system for organ sharing is not fair and needs to be improved. Organ sharing is a matter of life and death. The problem is that every year people die unnecessarily because the current organ allocation system is broken. We can do better and I urge my colleagues not to let parochial interests get in the way of fixing the problem.

Whether or not you get the organ that will save your life should not depend on where you live. Organs do not and should not belong to any geographical or political entity. But, under the current system, depending on where the organ was harvested, it could be given to someone with years to live—while someone in the next town across the wrong border may die waiting for a transplant.

The most difficult organ to transplant is the liver. Pioneered at the University of Pittsburgh, upwards of 90% of all the liver transplant surgeries today were either trained at Pittsburgh or by doctors who were trained there. Yet facilities like Pittsburgh, Mt. Sinai, Cedars-Sinai, Stanford and other highly regarded transplant centers which take on the most difficult and riskiest transplant patients are struggling with the longest waiting times in the country.

While these centers are highly regarded, many of their patients do not come to them because of their reputations. The fact is that many of their patients only seek them out after having been turned down by their local transplant centers. There is strong evidence to suggest that many smaller transplant centers avoid the riskier transplants on the sicker patients because they are more difficult and would adversely impact their reputations should they not be successful.

This isn't right. Whether you live or die should not depend on where you live.

This debate is not about pitting big transplant centers against small ones, or about pitting one region against another. It is about making sure that the gift of life goes to the person who needs it the most rather than someone who happens to have the good fortune to live in the right state, county or city. Its about helping at least 300 people each year to continue to live.

The fact is that the current system discriminates against people who live near the highly regarded centers with the longer waiting lists. It's not their fault that their local center is will-

ing to take the harder and sicker patients when other centers avoid the sicker patients in favor of patients who may be still able to work, go to school, or even play golf while patients elsewhere are near death without any opportunity to receive that organ because they have the misfortune of being on the wrong side of the Pennsylvania—Ohio line.

All HHS wants to do is: (1) require UNOS to develop policies that would standardize its criteria for listing patients and for determining their medical status, and (2) ensure that medical urgency, not geography, is the main determinant for allocating organs.

HHS should be allowed to proceed. The longer we delay the more lives are at risk. In this day of modern air travel and communications there is no good reason for an organ to stop at the border. There is no good reason why if I passed away while attending the Superbowl in New Orleans that my liver should go to a golfer in Louisiana when I may have a loved one who is in desperate need of a transplant at home.

People are dying because they happen to live in the wrong zip code and because states do not want to share their organs. Nowhere else in society would we allow a monopoly like this to continue. We must put an end to this craziness. There is no room in this country for politics to affect who lives and dies. The patients who need the organs the most should get them. Period.

The SPEAKER pro tempore (Mr. PEASE). Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. ARCHER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 418, nays 2, not voting 15, as follows:

□ 1903

Mr. BERRY changed his vote from "yea" to "nay."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. CAPPS. Mr. Speaker, due to a family illness I was unable to attend votes today. Had I been here I would have made the following votes:

Rollcall No. 598—"no"; 599—"yes"; 600—"yes"; 601—"yes"; 602—"yes"; 603—"no"; 604—"no"; 605—"no"; 606—"no"; 607—"yes"; 608—"no"; 609—"yes"; 610—"yes"; 611—"yes".

PRIVILEGES OF THE HOUSE—RETURNING TO THE SENATE S. 4, SOLDIERS', SAILORS', AIRMEN'S, AND MARINES' BILL OF RIGHTS ACT OF 1999

Mr. WELLER. Mr. Speaker, I rise to a question of the privileges of the House, and I offer a privileged resolution (H. Res. 393) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 393

Resolved, That the bill of the Senate (S. 4) entitled the "Soldiers', Sailors', Airmen's, and Marines' Bill of Rights Act of 1999", in the opinion of this House, contravenes the first clause of the seventh section of the first article of the Constitution of the United States and is an infringement of the privileges of this House and that such bill be respectfully returned to the Senate with a message communicating this resolution.

The SPEAKER pro tempore (Mr. PEASE). In the opinion of the Chair, the

resolution constitutes a question of the privileges of the House under rule IX.

The gentleman from Illinois (Mr. WELLER) is recognized for 30 minutes.

Mr. WELLER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this resolution is necessary to return to the Senate the bill, S. 4, which contravenes the constitutional requirement that revenue measures shall originate in the House of Representatives.

Section 202 of the bill authorizes members of the Armed Forces to participate in the Federal Thrift Savings Plan and permits them to contribute any part of a special or incentive pay that they might receive. However, it also effectively provides that the limitations of Internal Revenue Code section 415 will not apply to those extra contributions. Thus, the provision allows certain members of the uniformed services to avoid the negative tax consequences that would otherwise result in their extra contributions to the TSP. Accordingly, the provision is revenue affecting in a constitutional sense.

There are numerous precedents for this action I am requesting.

I want to emphasize that this action speaks solely to the constitutional prerogative of the House and not to the merits of the Senate bill. Proposed action today is procedural in nature, and it is necessary to preserve the prerogatives of the House to originate revenue measures, makes clear to the Senate that the appropriate procedure for dealing with revenue measures is for the House to act first on a revenue bill and for the Senate to accept it or amend it as it sees fit.

This resolution is necessary to return to the Senate the bill S. 4, the "Soldiers', Sailors', Airmen's, and Marines' Bill of Rights Act of 1999." S. 4 contravenes the constitutional requirement that revenue measures shall originate in the House of Representatives.

S. 4 would provide a variety of benefits to members of the Armed Forces. I strongly support our Armed Forces and agree that we need to modernize our military and compensate our officers and enlisted personnel fairly. However, S. 4, as passed by the Senate, would not only increase the compensation of members of the Armed Forces. It would also modify the tax treatment of some of their compensation. This change in tax treatment causes S. 4 to violate the Origination Clause of the United States Constitution.

Section 202 of the bill generally authorizes members of the Armed Forces to participate in the Federal Thrift Savings Plan. In particular, section 202 of the bill adds a new section 8440e to Title 5 of the United States Code. New section 8440e generally permits members of the uniformed services or Ready Reserve who are authorized to participate in the Thrift Savings Plan to contribute up to 5 percent of their basic pay to the Thrift Savings Plan. In addition, subsection (d) of new section 8440e permits members of the uniformed services to contribute to the Thrift Savings

Plan any part of their special or incentive pay they receive under section 308, 308a through 308h, or 318 of title 37. The subsection further provides in effect that the limitations of Internal Revenue Code section 415 will not apply to such contribution. Code section 415 generally provides limitations on benefits and contributions under qualified employee benefit plans.

Thus, the effect of subsection (d) of new section 8440e is to override the limits on the Thrift Savings Plan contribution imposed by Internal Revenue Code section 415. By overriding Code section 415, the provision allows certain members of the uniformed services to avoid the negative tax consequences that would result from such contributions. Accordingly, the provision is revenue-affecting in a constitutional sense.

Plainly, allowing members of the Armed Forces to participate in the Thrift Savings Plan causes a reduction in revenues as a budget scorekeeping matter, since contributions to the Thrift Savings Plan reduce the taxable incomes of participants by operation of the existing tax laws, and therefore their tax liabilities. However, the reduction in Federal revenues is viewed as an indirect effect of the provision since the provision does not attempt to specify or modify the tax rules that would otherwise apply to the provision, and therefore does not offend the constitutional requirement. Rather, new subsection (d) offends the Origination Clause because it directly amends the internal revenue laws. Subsection (d) overrides the limitations imposed by Code section 415, thereby directly modifying the tax liability of individuals who would otherwise be subject to its limits. Such a provision is plainly revenue-affecting and therefore constitutes a revenue measure in the constitutional sense. Accordingly, I am asking that the House insist on its constitutional prerogatives.

There are numerous precedents for the action I am requesting. For example, on July 21, 1994, the House returned to the Senate S. 1030, containing a provision exempting certain veteran payments from taxation. On October 7, 1994, the House returned to the Senate S. 1216, containing provisions exempting certain settlement income from taxation. On September 27, 1996, the House returned to the Senate S. 1311, containing a provision that overrode the Federal income tax rules governing recognition of tax-exempt status.

I want to emphasize that this action speaks solely to the constitutional prerogative of the House and not to the merits of the Senate bill. The proposed action today is procedural in nature and is necessary to preserve the prerogatives of the House to originate revenue measures. It makes clear to the Senate that the appropriate procedure for dealing with revenue measures is for the House to act first on a revenue bill and for the Senate to accept it or amend it as it sees fit.

Mr. SKELTON. Mr. Speaker, will the gentleman yield?

Mr. WELLER. I yield to the gentleman from Missouri.

Mr. SKELTON. Mr. Speaker, the bill of which the gentleman speaks, has that been previously passed here in the House?

Mr. WELLER. Yes, Mr. Speaker.

Mr. SKELTON. And the purpose of this is to comply with the Constitution

to state that it originates in the House; is that correct?

Mr. WELLER. Yes. This resolution does not address the merits of the legislation, which many Members on both sides of the aisle support. What it does is preserve the prerogatives of the House revenue-affecting measures originating in the House under the Constitution.

Mr. SKELTON. Mr. Speaker, I thank the gentleman.

Mr. WELLER. Mr. Speaker, I have no other speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2000

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent to consider and pass House Joint Resolution 84, making further continuing appropriations for fiscal year 2000.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. OBEY. Mr. Speaker, reserving the right to object, I think the House needs to understand exactly what it is we are doing, and I yield to the gentleman for the purpose of explaining what is happening again.

Mr. YOUNG of Florida. Mr. Speaker, I thank my friend for yielding.

Earlier this afternoon, we passed a continuing resolution taking us to December 2, 1999. Our colleagues in the Senate have asked that we extend that by one day, mainly because they need a clean vehicle over there, and that is exactly what this is, it extends continuing spending authority from December 2 to December 3, and it gives our colleagues in the Senate a clean vehicle that they need to conduct their business.

Mr. OBEY. Mr. Speaker, continuing under my reservation, I would simply note two things and then ask a question.

When we were debating how dairy would be handled, we were told that it had to be on the budget because we did not have any other vehicles. Now, in the space of about 15 minutes, the House has created two additional vehicles. I am beginning to think that we are making the keystone cops look like Barishnikov.

Mr. Speaker, I do not understand what the magic difference is between December 2 and December 3. Perhaps we could reach a compromise on December 2½. I do not know what is going on.

I mean, I have heard of continuing resolutions for a year, an hour, but not

10 minutes, which is what it has been since we passed the last one. How many more are we going to have to pass before we get our act together tonight?

Mr. YOUNG of Florida. Mr. Speaker, if the gentleman will yield further, my response to his question is rather simple. I have been advised that if we do not provide an extra vehicle for the Senate, it may be necessary for the House to either stay in session or reconvene tomorrow or the next day in order to complete legislative business. I am also advised that if they have a clean vehicle, it is very likely that we would not have to be back here sitting as the House.

Mr. OBEY. Mr. Speaker, continuing under my reservation, I would say I thought that is what we were told a few minutes ago, that we needed to pass the last one so we would not be in session.

I hope that sooner or later, we get things right.

Mr. YOUNG of Florida. Mr. Speaker, if the gentleman will yield further, I would like to say to my friend and my colleague with whom we have worked so well together throughout this year that in my opinion, we have done things right here; and I cannot answer for any other venue.

Mr. OBEY. Mr. Speaker, continuing under my reservation, I do not quarrel with that statement with respect to the committee, but I do think that this process, I have to say, has been the most chaotic that I have seen in the 31 years that I have been privileged to be a Member of this body. I do not think what is happening is the fault of the gentleman from Florida, it certainly is not mine, but I would hope that when we return in the first of the year in the next millennium, we will have a different set of arrangements that will enable us to do things in a quite different fashion.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 84

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Public Law 106-62 is further amended by striking "November 18, 1999" in section 106(c) and inserting in lieu thereof "December 3, 1999", and by striking "\$346,483,754" in section 119 and inserting in lieu thereof "\$755,719,054". Public Law 106-46 is amended by striking "November 18, 1999" and inserting in lieu thereof "December 3, 1999".

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PRIVILEGES OF THE HOUSE—RETURNING TO THE SENATE S. 1232, FEDERAL ERRONEOUS RETIREMENT COVERAGE CORRECTIONS ACT

Mr. WELLER. Mr. Speaker, I rise to a question of privileges of the House, and I offer a privileged resolution (H. Res. 394) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 394

Resolved, That the bill of the Senate (S. 1232) entitled the "Federal Erroneous Retirement Coverage Corrections Act", in the opinion of this House, contravenes the first clause of the seventh section of the first article of the Constitution of the United States and is an infringement of the privileges of this House and that such bill be respectfully returned to the Senate with a message communicating this resolution.

The SPEAKER pro tempore. In the opinion of the Chair, the resolution constitutes a question of the privileges of the House under rule IX.

The gentleman from Illinois (Mr. WELLER) is recognized for 30 minutes.

Mr. WELLER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this resolution is necessary to return to the Senate the bill S. 1232 which contravenes the constitutional requirement that revenue measures shall originate in the House of Representatives. Section 401 of the bill provides that no Federal retirement plan involved in the corrections under the bill shall fail to be treated as a tax-qualified retirement plan by reason of the correction.

□ 1915

The bill also provides that no amount shall be includable in the income of any individual for Federal tax purposes because of fund transfers or government contributions made pursuant to the bill.

Accordingly, section 401 is revenue affecting in a constitutional sense and the bill therefore violates the origination requirement.

There are numerous precedents for the action I am requesting. I want to emphasize this action speaks solely to the constitutional prerogative of the House and not to the merits of the Senate bill.

The proposed action today is procedural in nature and is necessary to preserve the prerogatives of the House to originate revenue measures. It makes clear to the Senate that the appropriate procedure for dealing with revenue measures is for the House to act first on a revenue bill, for the Senate to accept it or amend it as it sees fit.

This resolution is necessary to return to the Senate the bill S. 1232, which contravenes the constitutional requirement that revenue measures shall originate in the House of Representatives. The bill provides that no Federal retirement plan involved in the corrections under

the bill shall fail to be treated as a tax-qualified retirement plan by reason of the correction. The bill also provides that no amounts shall be includable in the income of any individual for Federal tax purposes because of fund transfers or government contributions made pursuant to the bill. Therefore, the bill violates the origination requirement.

Section 401 of the bill provides generally that no government retirement plan shall fail to be treated as a tax-qualified plan under the Internal Revenue Code for any failure to follow plan terms, or any actions taken under the bill to correct errors in misclassification of Federal employees into the wrong Federal retirement system. In general, Federal retirement plans are subject to the same rules that apply to tax-qualified retirement plans maintained by private sector employers. For example, tax-qualified retirement plans are afforded special tax treatment under the Code. These advantages include the fact that plan participants pay no current income tax on amounts contributed on their behalf, and the fact that earnings of the plan are tax-exempt.

Because of Section 401 of the bill, Federal retirement plans and participants in those plans would retain these advantages even if actions are taken pursuant to the bill that would otherwise jeopardize this favorable tax treatment.

The Federal retirement plans are also subject to the rules applicable to tax-qualified plans that limit the amount of contributions and benefits that may be provided to a participant under a tax-qualified plan. For example, section 415 of the Code limits that amount of annual contributions that may be made to a defined contribution plan, and the amount of annual benefits that are payable from a defined benefit plan. If amounts are contributed or benefits are paid that exceed these limits, plan participants could be subject to unfavorable tax consequences. Section 401 of the bill would permit the Federal government to make-up contributions on behalf of an employee without violating applicable limits on contributions and benefits for the year in which the make-up contribution was made.

Section 401 also provides that no amounts shall be includable in the taxable income of participants in Federal retirement plans because of fund transfers or government contributions made pursuant to the bill. Without this provision, amounts transferred from fund to fund or otherwise contributed by the government could be subject to income tax under the Internal Revenue Code.

Accordingly, Section 401 is revenue-affecting in a constitutional sense.

There are numerous precedents for the action I am requesting. For example, on July 21, 1994, the House returned to the Senate S. 1030, containing a provision exempting certain veteran payments from taxation. On October 7, 1994, the House returned to the Senate S. 1216, containing provisions exempting certain settlement income from taxation.

I want to emphasize that this action speaks solely to the constitutional prerogative of the House and not to the merits of the Senate bill. The proposed action today is procedural in nature and is necessary to preserve the prerogatives of the House to originate revenue measures. It makes clear to the Senate that the ap-

propriate procedure for dealing with revenue measures is for the House to act first on a revenue bill and for the Senate to accept it or amend it as it sees fit.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). Without objection, the previous question is ordered on the resolution.

There was no objection.

The SPEAKER pro tempore. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

(Mr. ARMEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ARMEY. Mr. Speaker, let me begin by just saying to the Members it is my privilege to say we have had the last vote of the day, the last vote of the week, the last vote of the year, the last vote of the century.

PROVIDING FOR ADJOURNMENT SINE DIE AFTER COMPLETION OF BUSINESS OF FIRST SESSION OF 106TH CONGRESS AND SETTING FORTH SCHEDULE FOR CERTAIN DATES DURING JANUARY 2000 OF SECOND SESSION

Mr. ARMEY. Mr. Speaker, I offer a privileged concurrent resolution (H.Con Res. 235), and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the concurrent resolution.

The Clerk read as follows:

That when the House adjourns on any legislative day from Thursday, November 18, 1999, through Monday, November 22, 1999, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand adjourned until noon on Thursday, December 2, 1999 (unless it sooner has received a message from the Senate transmitting its concurrence in the conference report to accompany H.R. 3194, in which case the House shall stand adjourned sine die), or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution; and that when the Senate adjourns on any day from Thursday, November 18, 1999, through Thursday, December 2, 1999, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand adjourned sine die, or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution.

SEC. 2. When the House convenes for the second session of the One Hundred Sixth Congress, it shall conduct no organizational or legislative business on that day and, when the House adjourns on that day, it shall stand adjourned until noon on January 27, 2000, or until noon on the second day after Members are notified to reassemble pursuant to section 3 of this concurrent resolution.

SEC. 3. The Speaker of the House and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and Senate, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

SEC. 4. The Congress declares that clause 2(h) of rule II of the Rules of the House of Representatives and the order of the Senate of January 6, 1999, authorize for the duration of the One Hundred Sixth Congress the Clerk of the House of Representatives and the Secretary of the Senate, respectively, to receive messages from the President during periods when the House and Senate are not in session, and thereby preserve until adjournment sine die of the final regular session of the One Hundred Sixth Congress the constitutional prerogative of the House and Senate to reconsider vetoed measures in light of the objections of the President, since the availability of the Clerk and the Secretary during any earlier adjournment of either House during the current Congress does not prevent the return by the President of any bill presented to him for approval.

SEC. 5. The Clerk of the House of Representatives shall inform the President of the United States of the adoption of this concurrent resolution.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

APPOINTING DAY FOR THE CONVENING OF THE SECOND SESSION OF THE 106TH CONGRESS

Mr. ARMEY. Mr. Speaker, I offer a joint resolution (H.J. Res. 85), and ask unanimous consent for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the joint resolution.

The Clerk read as follows:

H.J. RES. 85

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DAY FOR CONVENING OF SECOND SESSION OF ONE HUNDRED SIXTH CONGRESS.

The second regular session of the One Hundred Sixth Congress shall begin on Monday, January 24, 2000.

SEC. 2. ADDITIONAL SESSION PRIOR TO CONVENING.

If the Speaker of the House of Representatives and the Majority Leader of the Senate, acting jointly after consultation with the Minority Leader of the House of Representatives and the Minority Leader of the Senate, determine that it is in the public interest for the Members of the House of Representatives and the Senate to reassemble prior to the convening of the second regular session of the One Hundred Sixth Congress as provided in section 1—

(1) the Speaker and Majority Leader shall so notify their respective Members; and

(2) Congress shall reassemble at noon on the second day after the Members are so notified.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

APPOINTMENT OF COMMITTEE OF TWO MEMBERS TO INFORM THE PRESIDENT THAT THE TWO HOUSES HAVE COMPLETED THEIR BUSINESS OF THE SESSION

Mr. ARMEY. Mr. Speaker, I offer a privileged resolution (H. Res. 395), and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 395

Resolved, That a committee of two Members be appointed by the House to join a similar committee appointed by the Senate, to wait upon the President of the United States and inform him that the two Houses have completed their business of the session and are ready to adjourn, unless the President has some other communication to make to them.

The resolution was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Pursuant to House Resolution 395, the Chair appoints the following Members of the House to the committee to notify the President, the gentleman from Texas (Mr. ARMEY), and the gentleman from Missouri (Mr. GEPHARDT).

PERSONAL EXPLANATION

Mr. LAMPSON. Mr. Speaker, on November 17, 1999, on rollcall votes 596 and 597, I am recorded as not voting. I am happy to announce that I was present at the birth of my first grandchild, Nicholas William Shanning. Had I been present for votes, I would have voted "aye" on rollcall 596 and "no" on rollcall vote 597.

GRANTING MEMBERS OF THE HOUSE PRIVILEGE TO EXTEND AND REVISE REMARKS IN CONGRESSIONAL RECORD UNTIL LAST EDITION IS PUBLISHED

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent that Members may have until publication of the last edition of the CONGRESSIONAL RECORD authorized for the first session by the Joint Committee on Printing to revise and extend their remarks and to include brief, related extraneous material on any matter occurring before the adjournment of the first session sine die.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

AUTHORIZING SPEAKER TO ACCEPT RESIGNATIONS, APPOINT COMMISSIONS, BOARDS AND COMMITTEES NOTWITHSTANDING SINE DIE ADJOURNMENT

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent that until the day the House convenes for the second

session of the 106th Congress, and notwithstanding any adjournment of the House, the Speaker, the majority leader, and the minority leader be authorized to accept resignations and to make appointments authorized by law or by the House.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

CHIPPEWA CREE TRIBE OF THE ROCKY BOY'S RESERVATION INDIAN RESERVED WATER RIGHTS SETTLEMENT AND WATER SUPPLY ENHANCEMENT ACT OF 1999

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 438) to provide for the settlement of the water rights claims of the Chippewa Cree Tribe of the Rocky Boy's Reservation, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, if the gentleman would take a moment to explain the bill.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. GEORGE MILLER of California. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, last month the House passed H.R. 795, the Rocky Boy's Water Rights Settlement Act. Today we have before us S. 438, a companion bill to H.R. 795. The only difference between these bills is a small change regarding the treatment of tribal water rights off reservation. This change has been agreed upon by all parties involved in the legislation. The Rocky Boy's Water Rights Settlement Act process has been important for a number of reasons. I congratulate the gentleman from Montana (Mr. Hill). In the State of Montana, the tribe has spent a good deal of time working on the issues in a constructive fashion, taking steps to minimize the impact on other affected water users.

Furthermore, there has been minimal emphasis on some of the outmoded basis that calculate in Federal reserve Indian water right claims. This process has allowed the parties to look to newer, more flexible negotiations that find the solutions which provide tribes with real opportunities without making demands that may destroy the economic livelihood of existing water users.

In addition, this process has brought new solutions, introduced private sector expertise into the tribe's efforts to utilize the water supplies once the settlement is authorized.

By approaching these water rights settlements in more creative ways, Congress and the Federal Government can narrow the divergent expectations of the parties as they enter negotiations and attempt to correct problems that have existed for decades. It is important for Congress to modernize the process and basis for settling these claims. It is taking far too long to arrive at a settlement. Often tribes receive water and money under circumstances that do not ultimately help them realize the benefits of a broader economy.

It is the intention of this settlement to help the tribe reach this goal of self-determination, and I urge my colleagues to support the legislation.

Mr. SAXTON. Mr. Speaker, last month, the House passed H.R. 795, the Rocky Boys Water Rights Settlement Act. Today we have before us S. 438, a companion bill to H.R. 795. The only difference between these two bills is a small change regarding the treatment of tribal water rights off reservation. This change has been agreed upon by all the parties involved in the legislation.

The Rocky Boys water right settlement process has been important for a number of reasons. Congressman HILL, the State of Montana and the Tribe have spent a good deal of time working through the issues in a constructive fashion, taking steps to minimize the impact on other affected water users.

Furthermore, there has been minimal emphasis on some of the outmoded bases for calculating Federal reserved Indian water right claims. This process has allowed the parties to look to newer, more flexible negotiations that find solutions which provide tribes with real opportunities without making demands that may destroy the economic livelihood of existing water users. Additionally, this process has brought new solutions and introduced private sector expertise into the tribes efforts to utilize these water supplies once the settlement is authorized.

By approaching these Indian water right settlements in more creative ways, Congress and the Federal Government can narrow the divergent expectations of the parties as they enter negotiations and attempt to correct problems that have existed for decades. It is important for Congress to modernize the process and bases for settling these claims. It is taking far too long to arrive at a settlement. Often tribes receive water and money under circumstances that do not ultimately help them realize the benefits of the broader economy. It is the intention that this settlement will help the tribe reach their goal of self-determination.

I urge my colleagues to support the legislation.

Mr. HILL of Montana. Mr. Speaker, I rise in strong support of S. 438, the Chippewa Cree Tribe Water Rights Settlement Act, introduced by Senator CONRAD BURNS.

I am the sponsor of the House companion to this bill which passed the House on October 18th. I thank Subcommittee Chairman JOHN DOOLITTLE and his staff Bob Faber and Josh Johnson for their tireless efforts to work with all parties involved to move this important piece of legislation.

This is truly a historic day. This bill is the culmination of many years of technical and legal work and many years of negotiations involving the Chippewa Cree Tribe, the State of Montana, and representatives of the United States Departments of the Interior and Justice.

The bill will ratify a settlement quantifying the water rights of the Tribe and providing for their development in a manner that will help the Chippewa Cree Nation while helping their neighbors, local communities, farmers and ranchers.

It provides Federal funds construction of water supply facilities and for Tribal economic development, and defines the Federal Government's role in implementing the settlement.

This Settlement bill has the full support of the Tribe, the State of Montana, the Department of Justice and the Department of the Interior, the Administration, and the water users who farm and ranch on streams shared with the Reservation.

The bill will effectuate a settlement that is a textbook example of how State, Tribal, and Federal governments can work together to resolve differences in a way that meets the concerns of all.

It is also a settlement that reflects the effectiveness of Tribal and non-Tribal water users in working together in good will and good faith with respect for each other's needs and concerns.

It is not an overstatement to say that the Chippewa Cree Tribe of the Rocky Boys Reservation Indian Reserved Water Rights Settlement Act is a historic agreement. This is truly a great occasion for all of those who have worked so hard to get us to this point.

I again want to thank Chairman DOOLITTLE, Chairman YOUNG, and the House leadership for scheduling this bill today. I also want to thank Congressman KILDEE for his cosponsorship and help in moving this bill forward.

I urge the adoption of S. 438.

Mr. KILDEE. Mr. Speaker, I am pleased that the House will today consider S. 438, a bill that would implement the settlement of the water rights of the Chippewa Cree Tribe of Montana. I am a cosponsor of a similar bill passed by the House earlier this year. This bill marks the 16th Indian water settlement presented to Congress in 10 years. I recall a time when in the late 1980s and early 1990s Congress regularly sanctioned and implemented state/tribal water agreements. I am encouraged by the resolution (No. 98-029) from the National Governors' Association endorsing the policy of negotiating Indian water rights settlements.

During a recent hearing before the Water and Power Subcommittee, Representative RICK HILL, sponsor of the bill, described this settlement as a textbook example of how state and tribal governments can work together with off-reservation local ranchers and farmers to resolve their differences. I concur with that characterization of this bill. I want to commend the state of Montana and the Tribe for working almost 15 years to reach an agreement. It is my understanding that the parties went sub-basin by sub-basin and even farm by farm until they had resolved the concerns of all affected parties. I also want to commend the Interior and Justice Departments—particularly Interior's Acting Deputy Secretary, David

Hayes—for the role he and his colleagues played in reaching this accord.

One of the things I have learned over the years is that we must defer to the wishes of the states and tribes that bring these settlements to us. We all will have a tendency to want to micro-manage legislation of this nature and contend that it is precedential one way or another way, but history has proved that that is really not the case. A settlement in Montana may have little to do with the status of negotiations in New Mexico. While instream flows for fishery habitat may be vital to a tribe in the Pacific Northwest, it may have little application in Arizona. I say this because I have heard that certain members of the Senate who are not from Montana are examining this bill to determine if it is consistent with the laws of their state. Mr. Speaker, if a negotiated settlement in a given state had to be consistent with the laws and policies of every one of the other 49 states, or even just the western states, we would never have another Indian water rights settlement. So again, I hope we can agree that the individual States, Tribes and the Federal government must be given great deference in negotiating settlements that are consistent with the laws and policies of the given State and Tribe and which do not violate federal law.

Finally, I say to my colleagues that we and the Administration must follow up and ensure that funds are made available to implement the Chippewa Cree/Montana settlement. We must do so in a manner that does not take funds away from basic ongoing tribal programs. We must reexamine the idea of creating a permanent settlement fund for these types of State/Tribal agreements that is comparable to the Justice Department's settlement fund and which is not scored against the BIA's allocations. Again, my congratulations to the Chippewa Cree Tribe of the Rocky Boy's Reservation, to the state of Montana and to the members of the Federal Negotiating Team that helped bring this to fruition.

Mr. GEORGE MILLER of California. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 438

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION. 1. SHORT TITLE.

This Act may be cited as the "Chippewa Cree Tribe of The Rocky Boy's Reservation Indian Reserved Water Rights Settlement and Water Supply Enhancement Act of 1999".

SEC. 2. FINDINGS.

Congress finds that—

(1) in fulfillment of its trust responsibility to Indian tribes and to promote tribal sovereignty and economic self-sufficiency, it is the policy of the United States to settle the water rights claims of the tribes without lengthy and costly litigation;

(2) the Rocky Boy's Reservation was established as a homeland for the Chippewa Cree Tribe;

(3) adequate water for the Chippewa Cree Tribe of the Rocky Boy's Reservation is important to a permanent, sustainable, and

sovereign homeland for the Tribe and its members;

(4) the sovereignty of the Chippewa Cree Tribe and the economy of the Reservation depend on the development of the water resources of the Reservation;

(5) the planning, design, and construction of the facilities needed to utilize water supplies effectively are necessary to the development of a viable Reservation economy and to implementation of the Chippewa Cree-Montana Water Rights Compact;

(6) the Rocky Boy's Reservation is located in a water-short area of Montana and it is appropriate that the Act provide funding for the development of additional water supplies, including domestic water, to meet the needs of the Chippewa Cree Tribe;

(7) proceedings to determine the full extent of the water rights of the Chippewa Cree Tribe are currently pending before the Montana Water Court as a part of In the Matter of the Adjudication of All Rights to the Use of Water, Both Surface and Underground, within the State of Montana;

(8) recognizing that final resolution of the general stream adjudication will take many years and entail great expense to all parties, prolong uncertainty as to the availability of water supplies, and seriously impair the long-term economic planning and development of all parties, the Chippewa Cree Tribe and the State of Montana entered into the Compact on April 14, 1997; and

(9) the allocation of water resources from the Tiber Reservoir to the Chippewa Cree Tribe under this Act is uniquely suited to the geographic, social, and economic characteristics of the area and situation involved.

SEC. 3. PURPOSES.

The purposes of this Act are as follows:

(1) To achieve a fair, equitable, and final settlement of all claims to water rights in the State of Montana for—

(A) the Chippewa Cree Tribe; and

(B) the United States for the benefit of the Chippewa Cree Tribe.

(2) To approve, ratify, and confirm, as modified in this Act, the Chippewa Cree-Montana Water Rights Compact entered into by the Chippewa Cree Tribe of the Rocky Boy's Reservation and the State of Montana on April 14, 1997, and to provide funding and other authorization necessary for the implementation of the Compact.

(3) To authorize the Secretary of the Interior to execute and implement the Compact referred to in paragraph (2) and to take such other actions as are necessary to implement the Compact in a manner consistent with this Act.

(4) To authorize Federal feasibility studies designed to identify and analyze potential mechanisms to enhance, through conservation or otherwise, water supplies in North Central Montana, including mechanisms to import domestic water supplies for the future growth of the Rocky Boy's Indian Reservation.

(5) To authorize certain projects on the Rocky Boy's Indian Reservation, Montana, in order to implement the Compact.

(6) To authorize certain modifications to the purposes and operation of the Bureau of Reclamation's Tiber Dam and Lake Elwell on the Marias River in Montana in order to provide the Tribe with an allocation of water from Tiber Reservoir.

(7) To authorize the appropriation of funds necessary for the implementation of the Compact.

SEC. 4. DEFINITIONS.

In this Act:

(1) **ACT.**—The term “Act” means the “Chippewa Cree Tribe of The Rocky Boy's Reservation Indian Reserved Water Rights Settlement and Water Supply Enhancement Act of 1999”.

(2) **COMPACT.**—The term “Compact” means the water rights compact between the Chippewa Cree Tribe of the Rocky Boy's Reservation and the State of Montana contained in section 85-20-601 of the Montana Code Annotated (1997).

(3) **FINAL.**—The term “final” with reference to approval of the decree in section 101(b) means completion of any direct appeal to the Montana Supreme Court of a final decree by the Water Court pursuant to section 85-2-235 of the Montana Code Annotated (1997), or to the Federal Court of Appeals, including the expiration of the time in which a petition for certiorari may be filed in the United States Supreme Court, denial of such a petition, or the issuance of the Supreme Court's mandate, whichever occurs last.

(4) **FUND.**—The term “Fund” means the Chippewa Cree Indian Reserved Water Rights Settlement Fund established under section 104.

(5) **INDIAN TRIBE.**—The term “Indian tribe” has the meaning given that term in section 101(2) of the Federally Recognized Indian Tribe List Act of 1994 (25 U.S.C. 479a(2)).

(6) **MR&I FEASIBILITY STUDY.**—The term “MR&I feasibility study” means a municipal, rural, and industrial, domestic, and incidental drought relief feasibility study described in section 202.

(7) **MISSOURI RIVER SYSTEM.**—The term “Missouri River System” means the mainstem of the Missouri River and its tributaries, including the Marias River.

(8) **RECLAMATION LAW.**—The term “Reclamation Law” has the meaning given the term “reclamation law” in section 4 of the Act of December 5, 1924 (43 Stat. 701, chapter 4; 43 U.S.C. 371).

(9) **ROCKY BOY'S RESERVATION; RESERVATION.**—The term “Rocky Boy's Reservation” or “Reservation” means the Rocky Boy's Reservation of the Chippewa Cree Tribe in Montana.

(10) **SECRETARY.**—The term “Secretary” means the Secretary of the Interior, or his or her duly authorized representative.

(11) **TOWE PONDS.**—The term “Towe Ponds” means the reservoir or reservoirs referred to as “Stoneman Reservoir” in the Compact.

(12) **TRIBAL COMPACT ADMINISTRATION.**—The term “Tribal Compact Administration” means the activities assumed by the Tribe for implementation of the Compact as set forth in Article IV of the Compact.

(13) **TRIBAL WATER CODE.**—The term “tribal water code” means a water code adopted by the Tribe, as provided in the Compact.

(14) **TRIBAL WATER RIGHT.**—

(A) **IN GENERAL.**—The term “Tribal Water Right” means the water right set forth in section 85-20-601 of the Montana Code Annotated (1997) and includes the water allocation set forth in Title II of this Act.

(B) **RULE OF CONSTRUCTION.**—The definition of the term “Tribal Water Right” under this paragraph and the treatment of that right under this Act shall not be construed or interpreted as a precedent for the litigation of reserved water rights or the interpretation or administration of future compacts between the United States and the State of Montana or any other State.

(15) **TRIBE.**—The term “Tribe” means the Chippewa Cree Tribe of the Rocky Boy's Reservation and all officers, agents, and departments thereof.

(16) **WATER DEVELOPMENT.**—The term “water development” includes all activities

that involve the use of water or modification of water courses or water bodies in any way.

SEC. 5. MISCELLANEOUS PROVISIONS.

(a) **NONEXERCISE OF TRIBE'S RIGHTS.**—Pursuant to Tribal Resolution No. 40-98, and in exchange for benefits under this Act, the Tribe shall not exercise the rights set forth in Article VII.A.3 of the Compact, except that in the event that the approval, ratification, and confirmation of the Compact by the United States becomes null and void under section 101(b), the Tribe shall have the right to exercise the rights set forth in Article VII.A.3 of the Compact.

(b) **WAIVER OF SOVEREIGN IMMUNITY.**—Except to the extent provided in subsections (a), (b), and (c) of section 208 of the Department of Justice Appropriation Act, 1953 (43 U.S.C. 666), nothing in this Act may be construed to waive the sovereign immunity of the United States.

(c) **TRIBAL RELEASE OF CLAIMS AGAINST THE UNITED STATES.**—

(1) **IN GENERAL.**—Pursuant to Tribal Resolution No. 40-98, and in exchange for benefits under this Act, the Tribe shall, on the date of enactment of this Act, execute a waiver and release of the claims described in paragraph (2) against the United States, the validity of which are not recognized by the United States, except that—

(A) the waiver and release of claims shall not become effective until the appropriation of the funds authorized in section 105, the water allocation in section 201, and the appropriation of funds for the MR&I feasibility study authorized in section 204 have been completed and the decree has become final in accordance with the requirements of section 101(b); and

(B) in the event that the approval, ratification, and confirmation of the Compact by the United States becomes null and void under section 101(b), the waiver and release of claims shall become null and void.

(2) **CLAIMS DESCRIBED.**—The claims referred to in paragraph (1) are as follows:

(A) Any and all claims to water rights (including water rights in surface water, ground water, and effluent), claims for injuries to water rights, claims for loss or deprivation of use of water rights, and claims for failure to acquire or develop water rights for lands of the Tribe from time immemorial to the date of ratification of the Compact by Congress.

(B) Any and all claims arising out of the negotiation of the Compact and the settlement authorized by this Act.

(3) **SETOFFS.**—In the event the waiver and release do not become effective as set forth in paragraph (1)—

(A) the United States shall be entitled to setoff against any claim for damages asserted by the Tribe against the United States, any funds transferred to the Tribe pursuant to section 104, and any interest accrued thereon up to the date of setoff; and

(B) the United States shall retain any other claims or defenses not waived in this Act or in the Compact as modified by this Act.

(d) **OTHER TRIBES NOT ADVERSELY AFFECTED.**—Nothing in this Act shall be construed to quantify or otherwise adversely affect the land and water rights, or claims or entitlements to land or water of an Indian tribe other than the Chippewa Cree Tribe.

(e) **ENVIRONMENTAL COMPLIANCE.**—In implementing the Compact, the Secretary shall comply with all aspects of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and all other applicable environmental Acts and regulations.

(f) EXECUTION OF COMPACT.—The execution of the Compact by the Secretary as provided for in this Act shall not constitute a major Federal action under the National Environmental Policy Act (42 U.S.C. 4321 et seq.). The Secretary is directed to carry out all necessary environmental compliance required by Federal law in implementing the Compact.

(g) CONGRESSIONAL INTENT.—Nothing in this Act shall be construed to prohibit the Tribe from seeking additional authorization or appropriation of funds for tribal programs or purposes.

(h) ACT NOT PRECEDENTIAL.—Nothing in this Act shall be construed or interpreted as a precedent for the litigation of reserved water rights or the interpretation or administration of future water settlement Acts.

TITLE I—CHIPPEWA CREE TRIBE OF THE ROCKY BOYS RESERVATION INDIAN RESERVED WATER RIGHTS SETTLEMENT

SEC. 101. RATIFICATION OF COMPACT AND ENTRY OF DECREE.

(a) WATER RIGHTS COMPACT APPROVED.—Except as modified by this Act, and to the extent the Compact does not conflict with this Act—

(1) the Compact, entered into by the Chippewa Cree Tribe of the Rocky Boy's Reservation and the State of Montana on April 14, 1997, is hereby approved, ratified, and confirmed; and

(2) the Secretary shall—

(A) execute and implement the Compact together with any amendments agreed to by the parties or necessary to bring the Compact into conformity with this Act; and

(B) take such other actions as are necessary to implement the Compact.

(b) APPROVAL OF DECREE.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the United States, the Tribe, or the State of Montana shall petition the Montana Water Court, individually or jointly, to enter and approve the decree agreed to by the United States, the Tribe, and the State of Montana attached as Appendix 1 to the Compact, or any amended version thereof agreed to by the United States, the Tribe, and the State of Montana.

(2) RESORT TO THE FEDERAL DISTRICT COURT.—Under the circumstances set forth in Article VII.B.4 of the Compact, 1 or more parties may file an appropriate motion (as provided in that article) in the United States district court of appropriate jurisdiction.

(3) EFFECT OF FAILURE OF APPROVAL TO BECOME FINAL.—In the event the approval by the appropriate court, including any direct appeal, does not become final within 3 years after the filing of the decree, or the decree is approved but is subsequently set aside by the appropriate court—

(A) the approval, ratification, and confirmation of the Compact by the United States shall be null and void; and

(B) except as provided in subsections (a) and (c)(3) of section 5 and section 105(e)(1), this Act shall be of no further force and effect.

SEC. 102. USE AND TRANSFER OF THE TRIBAL WATER RIGHT.

(a) ADMINISTRATION AND ENFORCEMENT.—As provided in the Compact, until the adoption and approval of a tribal water code by the Tribe, the Secretary shall administer and enforce the Tribal Water Right.

(b) TRIBAL MEMBER ENTITLEMENT.—

(1) IN GENERAL.—Any entitlement to Federal Indian reserved water of any tribal member shall be satisfied solely from the water secured to the Tribe by the Compact

and shall be governed by the terms and conditions of the Compact.

(2) ADMINISTRATION.—An entitlement described in paragraph (1) shall be administered by the Tribe pursuant to a tribal water code developed and adopted pursuant to Article IV.A.2 of the Compact, or by the Secretary pending the adoption and approval of the tribal water code.

(c) TEMPORARY TRANSFER OF TRIBAL WATER RIGHT.—The Tribe may, with the approval of the Secretary and the approval of the State of Montana pursuant to Article IV.A.4 of the Compact, transfer any portion of the Tribal water right for use off the Reservation by service contract, lease, exchange, or other agreement. No service contract, lease, exchange, or other agreement entered into under this subsection may permanently alienate any portion of the Tribal water right. The enactment of this subsection shall constitute a plenary exercise of the powers set forth in Article I, section 8(3) of the United States Constitution and is statutory law of the United States within the meaning of Article IV.A.4.b.(3) of the Compact.

SEC. 103. ON-RESERVATION WATER RESOURCES DEVELOPMENT.

(a) WATER DEVELOPMENT PROJECTS.—The Secretary, acting through the Bureau of Reclamation, is authorized and directed to plan, design, and construct, or to provide, pursuant to subsection (b), for the planning, design, and construction of the following water development projects on the Rocky Boy's Reservation:

(1) Bonneau Dam and Reservoir Enlargement.

(2) East Fork of Beaver Creek Dam Repair and Enlargement.

(3) Brown's Dam Enlargement.

(4) Towe Ponds' Enlargement.

(5) Such other water development projects as the Tribe shall from time to time consider appropriate.

(b) IMPLEMENTATION AGREEMENT.—The Secretary, at the request of the Tribe, shall enter into an agreement, or, if appropriate, renegotiate an existing agreement, with the Tribe to implement the provisions of this Act through the Tribe's annual funding agreement entered into under the self-governance program under title IV of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 458aa et seq.) by which the Tribe shall plan, design, and construct any or all of the projects authorized by this section.

(c) BUREAU OF RECLAMATION PROJECT ADMINISTRATION.—

(1) IN GENERAL.—Congress finds that the Secretary, through the Bureau of Reclamation, has entered into an agreement with the Tribe, pursuant to title IV of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 458aa et seq.)—

(A) defining and limiting the role of the Bureau of Reclamation in its administration of the projects authorized in subsection (a);

(B) establishing the standards upon which the projects will be constructed; and

(C) for other purposes necessary to implement this section.

(2) AGREEMENT.—The agreement referred to in paragraph (1) shall become effective when the Tribe exercises its right under subsection (b).

SEC. 104. CHIPPEWA CREE INDIAN RESERVED WATER RIGHTS SETTLEMENT TRUST FUND.

(a) ESTABLISHMENT OF TRUST FUND.—

(1) IN GENERAL.—

(A) ESTABLISHMENT.—There is hereby established in the Treasury of the United

States a trust fund for the Chippewa Cree Tribe of the Rocky Boy's Reservation to be known as the "Chippewa Cree Indian Reserved Water Rights Settlement Trust Fund".

(B) AVAILABILITY OF AMOUNTS IN FUND.—

(i) IN GENERAL.—Amounts in the Fund shall be available to the Secretary for management and investment on behalf of the Tribe and distribution to the Tribe in accordance with this Act.

(ii) AVAILABILITY.—Funds made available from the Fund under this section shall be available without fiscal year limitation.

(2) MANAGEMENT OF FUND.—The Secretary shall deposit and manage the principal and interest in the Fund in a manner consistent with subsection (b) and other applicable provisions of this Act.

(3) CONTENTS OF FUND.—The Fund shall consist of the amounts authorized to be appropriated to the Fund under section 105(a) and such other amounts as may be transferred or credited to the Fund.

(4) WITHDRAWAL.—The Tribe, with the approval of the Secretary, may withdraw the Fund and deposit it in a mutually agreed upon private financial institution. That withdrawal shall be made pursuant to the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.).

(5) ACCOUNTS.—The Secretary of the Interior shall establish the following accounts in the Fund and shall allocate appropriations to the various accounts as required in this Act:

(A) The Tribal Compact Administration Account.

(B) The Economic Development Account.

(C) The Future Water Supply Facilities Account.

(b) FUND MANAGEMENT.—

(1) IN GENERAL.—

(A) AMOUNTS IN FUND.—The Fund shall consist of such amounts as are appropriated to the Fund and allocated to the accounts of the Fund by the Secretary as provided for in this Act and in accordance with the authorizations for appropriations in paragraphs (1), (2), and (3) of section 105(a), together with all interest that accrues in the Fund.

(B) MANAGEMENT BY SECRETARY.—The Secretary shall manage the Fund, make investments from the Fund, and make available funds from the Fund for distribution to the Tribe in a manner consistent with the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.).

(2) TRIBAL MANAGEMENT.—

(A) IN GENERAL.—If the Tribe exercises its right pursuant to subsection (a)(4) to withdraw the Fund and deposit it in a private financial institution, except as provided in the withdrawal plan, neither the Secretary nor the Secretary of the Treasury shall retain any oversight over or liability for the accounting, disbursement, or investment of the funds.

(B) WITHDRAWAL PLAN.—The withdrawal plan referred to in subparagraph (A) shall provide for—

(i) the creation of accounts and allocation to accounts in a fund established under the plan in a manner consistent with subsection (a); and

(ii) the appropriate terms and conditions, if any, on expenditures from the fund (in addition to the requirements of the plans set forth in paragraphs (2) and (3) of subsection (c)).

(c) USE OF FUND.—The Tribe shall use the Fund to fulfill the purposes of this Act, subject to the following restrictions on expenditures:

(1) Except for \$400,000 necessary for capital expenditures in connection with Tribal Compact Administration, only interest accrued on the Tribal Compact Administration Account referred to in subsection (a)(5)(A) shall be available to satisfy the Tribe's obligations for Tribal Compact Administration under the provisions of the Compact.

(2) Both principal and accrued interest on the Economic Development Account referred to in subsection (a)(5)(B) shall be available to the Tribe for expenditure pursuant to an economic development plan approved by the Secretary.

(3) Both principal and accrued interest on the Future Water Supply Facilities Account referred to in subsection (a)(5)(C) shall be available to the Tribe for expenditure pursuant to a water supply plan approved by the Secretary.

(d) INVESTMENT OF FUND.—

(1) IN GENERAL.—

(A) APPLICABLE LAWS.—The Secretary shall invest amounts in the Fund in accordance with—

(i) the Act of April 1, 1880 (21 Stat. 70, chapter 41; 25 U.S.C. 161);

(ii) the first section of the Act entitled "An Act to authorize the payment of interest of certain funds held in trust by the United States for Indian tribes", approved February 12, 1929 (25 U.S.C. 161a); and

(iii) the first section of the Act entitled "An Act to authorize the deposit and investment of Indian funds", approved June 24, 1938 (25 U.S.C. 162a).

(B) CREDITING OF AMOUNTS TO THE FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations of the United States held in the Fund shall be credited to and form part of the Fund. The Secretary of the Treasury shall credit to each of the accounts contained in the Fund a proportionate amount of that interest and proceeds.

(2) CERTAIN WITHDRAWN FUNDS.—

(A) IN GENERAL.—Amounts withdrawn from the Fund and deposited in a private financial institution pursuant to a withdrawal plan approved by the Secretary under the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.) shall be invested by an appropriate official under that plan.

(B) DEPOSIT OF INTEREST AND PROCEEDS.—The interest on, and the proceeds from the sale or redemption of, any obligations held under this paragraph shall be deposited in the private financial institution referred to in subparagraph (A) in the fund established pursuant to the withdrawal plan referred to in that subparagraph. The appropriate official shall credit to each of the accounts contained in that fund a proportionate amount of that interest and proceeds.

(e) AGREEMENT REGARDING FUND EXPENDITURES.—If the Tribe does not exercise its right under subsection (a)(4) to withdraw the funds in the Fund and transfer those funds to a private financial institution, the Secretary shall enter into an agreement with the Tribe providing for appropriate terms and conditions, if any, on expenditures from the Fund in addition to the plans set forth in paragraphs (2) and (3) of subsection (c).

(f) PER CAPITA DISTRIBUTIONS PROHIBITED.—No part of the Fund shall be distributed on a per capita basis to members of the Tribe.

SEC. 105. AUTHORIZATION OF APPROPRIATIONS.

(a) CHIPPEWA CREE FUND.—There is authorized to be appropriated for the Fund, \$21,000,000 to be allocated by the Secretary as follows:

(1) TRIBAL COMPACT ADMINISTRATION ACCOUNT.—For Tribal Compact Administration assumed by the Tribe under the Compact and this Act, \$3,000,000 is authorized to be appropriated for fiscal year 2000.

(2) ECONOMIC DEVELOPMENT ACCOUNT.—For tribal economic development, \$3,000,000 is authorized to be appropriated for fiscal year 2000.

(3) FUTURE WATER SUPPLY FACILITIES ACCOUNT.—For the total Federal contribution to the planning, design, construction, operation, maintenance, and rehabilitation of a future water supply system for the Reservation, there are authorized to be appropriated—

- (A) \$2,000,000 for fiscal year 2000;
- (B) \$8,000,000 for fiscal year 2001; and
- (C) \$5,000,000 for fiscal year 2002.

(b) ON-RESERVATION WATER DEVELOPMENT.—

(1) IN GENERAL.—There are authorized to be appropriated to the Department of the Interior, for the Bureau of Reclamation, for the construction of the on-Reservation water development projects authorized by section 103—

(A) \$13,000,000 for fiscal year 2000, for the planning, design, and construction of the Bonneau Dam Enlargement, for the development of additional capacity in Bonneau Reservoir for storage of water secured to the Tribe under the Compact;

(B) \$8,000,000 for fiscal year 2001, for the planning, design, and construction of the East Fork Dam and Reservoir enlargement, of the Brown's Dam and Reservoir enlargement, and of the Towe Ponds enlargement of which—

- (i) \$4,000,000 shall be used for the East Fork Dam and Reservoir enlargement;
- (ii) \$2,000,000 shall be used for the Brown's Dam and Reservoir enlargement; and
- (iii) \$2,000,000 shall be used for the Towe Ponds enlargement; and

(C) \$3,000,000 for fiscal year 2002, for the planning, design, and construction of such other water resource developments as the Tribe, with the approval of the Secretary, from time to time may consider appropriate or for the completion of the 4 projects enumerated in subparagraphs (A) and (B) of paragraph (1).

(2) UNEXPENDED BALANCES.—Any unexpended balance in the funds authorized to be appropriated under subparagraph (A) or (B) of paragraph (1), after substantial completion of all of the projects enumerated in paragraphs (1) through (4) of section 103(a)—

- (A) shall be available to the Tribe first for completion of the enumerated projects; and
- (B) then for other water resource development projects on the Reservation.

(c) ADMINISTRATION COSTS.—There is authorized to be appropriated to the Department of the Interior, for the Bureau of Reclamation, \$1,000,000 for fiscal year 2000, for the costs of administration of the Bureau of Reclamation under this Act, except that—

- (1) if those costs exceed \$1,000,000, the Bureau of Reclamation may use funds authorized for appropriation under subsection (b) for costs; and

(2) the Bureau of Reclamation shall exercise its best efforts to minimize those costs to avoid expenditures for the costs of administration under this Act that exceed a total of \$1,000,000.

(d) AVAILABILITY OF FUNDS.—

(1) IN GENERAL.—The amounts authorized to be appropriated to the Fund and allocated to its accounts pursuant to subsection (a) shall be deposited into the Fund and allocated immediately on appropriation.

(2) INVESTMENTS.—Investments may be made from the Fund pursuant to section 104(d).

(3) AVAILABILITY OF CERTAIN MONEYS.—The amounts authorized to be appropriated in subsection (a)(1) shall be available for use immediately upon appropriation in accordance with subsection 104(c)(1).

(4) LIMITATION.—Those moneys allocated by the Secretary to accounts in the Fund or in a fund established under section 104(a)(4) shall draw interest consistent with section 104(d), but the moneys authorized to be appropriated under subsection (b) and paragraphs (2) and (3) of subsection (a) shall not be available for expenditure until the requirements of section 101(b) have been met so that the decree has become final and the Tribe has executed the waiver and release required under section 5(c).

(e) RETURN OF FUNDS TO THE TREASURY.—

(1) IN GENERAL.—In the event that the approval, ratification, and confirmation of the Compact by the United States becomes null and void under section 101(b), all unexpended funds appropriated under the authority of this Act together with all interest earned on such funds, notwithstanding whether the funds are held by the Tribe, a private institution, or the Secretary, shall revert to the general fund of the Treasury 12 months after the expiration of the deadline established in section 101(b).

(2) INCLUSION IN AGREEMENTS AND PLAN.—The requirements in paragraph (1) shall be included in all annual funding agreements entered into under the self-governance program under title IV of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 458aa et seq.), withdrawal plans, withdrawal agreements, or any other agreements for withdrawal or transfer of the funds to the Tribe or a private financial institution under this Act.

(f) WITHOUT FISCAL YEAR LIMITATION.—All money appropriated pursuant to authorizations under this title shall be available without fiscal year limitation.

SEC. 106. STATE CONTRIBUTIONS TO SETTLEMENT.

Consistent with Articles VI.C.2 and C.3 of the Compact, the State contribution to settlement shall be as follows:

(1) The contribution of \$150,000 appropriated by Montana House Bill 6 of the 55th Legislative Session (1997) shall be used for the following purposes:

(A) Water quality discharge monitoring wells and monitoring program.

(B) A diversion structure on Big Sandy Creek.

(C) A conveyance structure on Box Elder Creek.

(D) The purchase of contract water from Lower Beaver Creek Reservoir.

(2) Subject to the availability of funds, the State shall provide services valued at \$400,000 for administration required by the Compact and for water quality sampling required by the Compact.

TITLE II—TIBER RESERVOIR ALLOCATION AND FEASIBILITY STUDIES AUTHORIZATION.

SEC. 201. TIBER RESERVOIR.

(a) ALLOCATION OF WATER TO THE TRIBE.—

(1) IN GENERAL.—The Secretary shall permanently allocate to the Tribe, without cost to the Tribe, 10,000 acre-feet per year of stored water from the water right of the Bureau of Reclamation in Lake Elwell, Lower Marias Unit, Upper Missouri Division, Pick-Sloan Missouri Basin Program, Montana, measured at the outlet works of the dam or at the diversion point from the reservoir.

The allocation shall become effective when the decree referred to in section 101(b) has become final in accordance with that section. The allocation shall be part of the Tribal Water Right and subject to the terms of this Act.

(2) **AGREEMENT.**—The Secretary shall enter into an agreement with the Tribe setting forth the terms of the allocation and providing for the Tribe's use or temporary transfer of water stored in Lake Elwell, subject to the terms and conditions of the Compact and this Act.

(3) **PRIOR RESERVED WATER RIGHTS.**—The allocation provided in this section shall be subject to the prior reserved water rights, if any, of any Indian tribe, or person claiming water through any Indian tribe.

(b) **USE AND TEMPORARY TRANSFER OF ALLOCATION.**—

(1) **IN GENERAL.**—Subject to the limitations and conditions set forth in the Compact and this Act, the Tribe shall have the right to devote the water allocated by this section to any use, including agricultural, municipal, commercial, industrial, mining, or recreational uses, within or outside the Rocky Boy's Reservation.

(2) **CONTRACTS AND AGREEMENTS.**—Notwithstanding any other provision of statutory or common law, the Tribe may, with the approval of the Secretary and subject to the limitations and conditions set forth in the Compact, enter into a service contract, lease, exchange, or other agreement providing for the temporary delivery, use, or transfer of the water allocated by this section, except that no such service contract, lease, exchange, or other agreement may permanently alienate any portion of the tribal allocation.

(c) **REMAINING STORAGE.**—The United States shall retain the right to use for any authorized purpose, any and all storage remaining in Lake Elwell after the allocation made to the Tribe in subsection (a).

(d) **WATER TRANSPORT OBLIGATION; DEVELOPMENT AND DELIVERY COSTS.**—The United States shall have no responsibility or obligation to provide any facility for the transport of the water allocated by this section to the Rocky Boy's Reservation or to any other location. Except for the contribution set forth in section 105(a)(3), the cost of developing and delivering the water allocated by this title or any other supplemental water to the Rocky Boy's Reservation shall not be borne by the United States.

(e) **SECTION NOT PRECEDENTIAL.**—The provisions of this section regarding the allocation of water resources from the Tiber Reservoir to the Tribe shall not be construed as precedent in the litigation or settlement of any other Indian water right claims.

SEC. 202. MUNICIPAL, RURAL, AND INDUSTRIAL FEASIBILITY STUDY.

(a) **AUTHORIZATION.**—

(1) **IN GENERAL.**—

(A) **STUDY.**—The Secretary, acting through the Bureau of Reclamation, shall perform an MR&I feasibility study of water and related resources in North Central Montana to evaluate alternatives for a municipal, rural, and industrial supply for the Rocky Boy's Reservation.

(B) **USE OF FUNDS MADE AVAILABLE FOR FISCAL YEAR 1999.**—The authority under subparagraph (A) shall be deemed to apply to MR&I feasibility study activities for which funds were made available by appropriations for fiscal year 1999.

(2) **CONTENTS OF STUDY.**—The MR&I feasibility study shall include the feasibility of releasing the Tribe's Tiber allocation as pro-

vided for in section 201 into the Missouri River System for later diversion to a treatment and delivery system for the Rocky Boy's Reservation.

(3) **UTILIZATION OF EXISTING STUDIES.**—The MR&I feasibility study shall include utilization of existing Federal and non-Federal studies and shall be planned and conducted in consultation with other Federal agencies, the State of Montana, and the Chippewa Cree Tribe.

(b) **ACCEPTANCE OR PARTICIPATION IN IDENTIFIED OFF-RESERVATION SYSTEM.**—The United States, the Chippewa Cree Tribe of the Rocky Boy's Reservation, and the State of Montana shall not be obligated to accept or participate in any potential off-Reservation water supply system identified in the MR&I feasibility study authorized in subsection (a).

SEC. 203. REGIONAL FEASIBILITY STUDY—

(a) **IN GENERAL.**—

(1) **STUDY.**—The Secretary, acting through the Bureau of Reclamation, shall conduct, pursuant to Reclamation Law, a regional feasibility study (referred to in this subsection as the "regional feasibility study") to evaluate water and related resources in North-Central Montana in order to determine the limitations of those resources and how those resources can best be managed and developed to serve the needs of the citizens of Montana.

(2) **USE OF FUNDS MADE AVAILABLE FOR FISCAL YEAR 1999.**—The authority under paragraph (1) shall be deemed to apply to regional feasibility study activities for which funds were made available by appropriations for fiscal year 1999.

(b) **CONTENTS OF STUDY.**—The regional feasibility study shall—

(1) evaluate existing and potential water supplies, uses, and management;

(2) identify major water-related issues, including environmental, water supply, and economic issues;

(3) evaluate opportunities to resolve the issues referred to in paragraph (2); and

(4) evaluate options for implementation of resolutions to the issues.

(c) **REQUIREMENTS.**—Because of the regional and international impact of the regional feasibility study, the study may not be segmented. The regional study shall—

(1) utilize, to the maximum extent possible, existing information; and

(2) be planned and conducted in consultation with all affected interests, including interests in Canada.

SEC. 204. AUTHORIZATION OF APPROPRIATIONS FOR FEASIBILITY STUDIES.

(a) **FISCAL YEAR 1999 APPROPRIATIONS.**—Of the amounts made available by appropriations for fiscal year 1999 for the Bureau of Reclamation, \$1,000,000 shall be used for the purpose of commencing the MR&I feasibility study under section 202 and the regional study under section 203, of which—

(1) \$500,000 shall be used for the MR&I study under section 202; and

(2) \$500,000 shall be used for the regional study under section 203.

(b) **FEASIBILITY STUDIES.**—There is authorized to be appropriated to the Department of the Interior, for the Bureau of Reclamation, for the purpose of conducting the MR&I feasibility study under section 202 and the regional study under section 203, \$3,000,000 for fiscal year 2000, of which—

(1) \$500,000 shall be used for the MR&I feasibility study under section 202; and

(2) \$2,500,000 shall be used for the regional study under section 203.

(c) **WITHOUT FISCAL YEAR LIMITATION.**—All money appropriated pursuant to authoriza-

tions under this title shall be available without fiscal year limitation.

(d) **AVAILABILITY OF CERTAIN MONEYS.**—The amounts made available for use under subsection (a) shall be deemed to have been available for use as of the date on which those funds were appropriated. The amounts authorized to be appropriated in subsection (b) shall be available for use immediately upon appropriation.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON GOVERNMENT REFORM TO FILE REPORT AFTER SINE DIE ADJOURNMENT

Mr. BURTON of Indiana. Mr. Speaker, I ask unanimous consent to file a report after adjournment. I ask unanimous consent that the Committee on Government Reform be permitted to file an investigative report by December 10, 1999.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

FOUR CORNERS INTERPRETIVE CENTER ACT

Mr. CANNON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 28) to authorize an interpretive center and related visitor facilities within the Four Corners Monument Tribal Park, and for other purpose, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, I do so to yield to the gentleman to quickly explain the bill.

Mr. CANNON. Mr. Speaker, will the gentleman yield?

Mr. GEORGE MILLER of California. I yield to the gentleman from Utah.

Mr. CANNON. Mr. Speaker, I rise in support of S. 28, the Four Corners Interpretive Center Act. Having introduced companion legislation, H.R. 1384, S. 28 simply establishes the Four Corners Interpretive Center to provide a unique collection of cultural, historical and archeological specimens for the millions of people who visit the only geographic location in the nation where the boundaries of four States, Arizona, Colorado, New Mexico and Utah come together.

The Four Corners Monument Tribal Park is located on lands that fall within the Navajo Reservation and the Ute Mountain Reservation. In 1996, these tribes entered into a memorandum of understanding governing the future development of the park.

S. 28 and H.R. 1384 reflect that agreement, providing the initial facility of base communities to lead to full development of the park. This bill represents the cooperation of Federal, State and local and tribal governments in an effort to reaffirm the ties of our past while extending those ties to the future. I urge support for this bill.

Mr. GEORGE MILLER of California. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 28

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Four Corners Interpretive Center Act".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the Four Corners Monument is nationally significant as the only geographic location in the United States where 4 State boundaries meet;

(2) the States with boundaries that meet at the Four Corners are Arizona, Colorado, New Mexico, and Utah;

(3) between 1868 and 1875 the boundary lines that created the Four Corners were drawn, and in 1899 a monument was erected at the site;

(4) a United States postal stamp will be issued in 1999 to commemorate the centennial of the original boundary marker;

(5) the Four Corners area is distinct in character and possesses important historical, cultural, and prehistoric values and resources within the surrounding cultural landscape;

(6) although there are no permanent facilities or utilities at the Four Corners Monument Tribal Park, each year the park attracts approximately 250,000 visitors;

(7) the area of the Four Corners Monument Tribal Park falls entirely within the Navajo Nation or Ute Mountain Ute Tribe reservations;

(8) the Navajo Nation and the Ute Mountain Ute Tribe have entered into a memorandum of understanding governing the planning and future development of the Four Corners Monument Tribal Park;

(9) in 1992, through agreements executed by the Governors of Arizona, Colorado, New Mexico, and Utah, the Four Corners Heritage Council was established as a coalition of State, Federal, tribal, and private interests;

(10) the State of Arizona has obligated \$45,000 for planning efforts and \$250,000 for construction of an interpretive center at the Four Corners Monument Tribal Park;

(11) numerous studies and extensive consultation with American Indians have demonstrated that development at the Four Corners Monument Tribal Park would greatly benefit the people of the Navajo Nation and the Ute Mountain Ute Tribe;

(12) the Arizona Department of Transportation has completed preliminary cost estimates that are based on field experience with rest-area development for the construction of a Four Corners Interpretive Center and surrounding infrastructure, including restrooms, roadways, parking areas, and water, electrical, telephone, and sewage facilities;

(13) an interpretive center would provide important educational and enrichment opportunities for all Americans; and

(14) Federal financial assistance and technical expertise are needed for the construction of an interpretive center.

(b) PURPOSES.—The purposes of this Act are—

(1) to recognize the importance of the Four Corners Monument and surrounding landscape as a distinct area in the heritage of the United States that is worthy of interpretation and preservation;

(2) to assist the Navajo Nation and the Ute Mountain Ute Tribe in establishing the Four Corners Interpretive Center and related facilities to meet the needs of the general public;

(3) to highlight and showcase the collaborative resource stewardship of private individuals, Indian tribes, universities, Federal agencies, and the governments of States and political subdivisions thereof (including counties); and

(4) to promote knowledge of the life, art, culture, politics, and history of the culturally diverse groups of the Four Corners region.

SEC. 3. DEFINITIONS.

As used in this Act:

(1) CENTER.—The term "Center" means the Four Corners Interpretive Center established under section 4, including restrooms, parking areas, vendor facilities, sidewalks, utilities, exhibits, and other visitor facilities.

(2) ELIGIBLE ENTITY.—The term "eligible entity" means the State of Arizona, Colorado, New Mexico, or Utah, or any consortium of 2 or more of those States.

(3) FOUR CORNERS HERITAGE COUNCIL.—The term "Four Corners Heritage Council" means the nonprofit coalition of Federal, State, tribal, and private entities established in 1992 by agreements of the Governors of the States of Arizona, Colorado, New Mexico, and Utah.

(4) FOUR CORNERS MONUMENT.—The term "Four Corners Monument" means the physical monument where the boundaries of the States of Arizona, Colorado, New Mexico, and Utah meet.

(5) FOUR CORNERS MONUMENT TRIBAL PARK.—The term "Four Corners Monument Tribal Park" means lands within the legally defined boundaries of the Four Corners Monument Tribal Park.

(6) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

SEC. 4. FOUR CORNERS INTERPRETIVE CENTER.

(a) ESTABLISHMENT.—Subject to the availability of appropriations, the Secretary is authorized to establish within the boundaries of the Four Corners Monument Tribal Park a center for the interpretation and commemoration of the Four Corners Monument, to be known as the "Four Corners Interpretive Center".

(b) LAND DESIGNATED AND MADE AVAILABLE.—Land for the Center shall be designated and made available by the Navajo Nation or the Ute Mountain Ute Tribe within the boundaries of the Four Corners Monument Tribal Park in consultation with the Four Corners Heritage Council and in accordance with—

(1) the memorandum of understanding between the Navajo Nation and the Ute Mountain Ute Tribe that was entered into on October 22, 1996; and

(2) applicable supplemental agreements with the Bureau of Land Management, the National Park Service, and the United States Forest Service.

(c) CONCURRENCE.—Notwithstanding any other provision of this Act, no such center

shall be established without the consent of the Navajo Nation and the Ute Mountain Ute Tribe.

(d) COMPONENTS OF CENTER.—The Center shall include—

(1) a location for permanent and temporary exhibits depicting the archaeological, cultural, and natural heritage of the Four Corners region;

(2) a venue for public education programs;

(3) a location to highlight the importance of efforts to preserve southwestern archaeological sites and museum collections;

(4) a location to provide information to the general public about cultural and natural resources, parks, museums, and travel in the Four Corners region; and

(5) visitor amenities including restrooms, public telephones, and other basic facilities.

SEC. 5. CONSTRUCTION GRANT.

(a) GRANT.—

(1) IN GENERAL.—The Secretary is authorized to award a grant to an eligible entity for the construction of the Center in an amount not to exceed 50 percent of the cost of construction of the Center.

(2) ASSURANCES.—To be eligible for the grant, the eligible entity that is selected to receive the grant shall provide assurances that—

(A) the non-Federal share of the costs of construction is paid from non-Federal sources (which may include contributions made by States, private sources, the Navajo Nation, and the Ute Mountain Ute Tribe for planning, design, construction, furnishing, startup, and operational expenses); and

(B) the aggregate amount of non-Federal funds contributed by the States used to carry out the activities specified in subparagraph (A) will not be less than \$2,000,000, of which each of the States that is party to the grant will contribute equally in cash or in kind.

(3) FUNDS FROM PRIVATE SOURCES.—A State may use funds from private sources to meet the requirements of paragraph (2)(B).

(4) FUNDS OF STATE OF ARIZONA.—The State of Arizona may apply \$45,000 authorized by the State of Arizona during fiscal year 1998 for planning and \$250,000 that is held in reserve by the State for construction toward the Arizona share.

(b) GRANT REQUIREMENTS.—In order to receive a grant under this Act, the eligible entity selected to receive the grant shall—

(1) submit to the Secretary a proposal that—

(A) meets all applicable—

(i) laws, including building codes and regulations; and

(ii) requirements under the memorandum of understanding described in paragraph (2); and

(B) provides such information and assurances as the Secretary may require; and

(2) enter into a memorandum of understanding with the Secretary providing—

(A) a timetable for completion of construction and opening of the Center;

(B) assurances that design, architectural, and construction contracts will be competitively awarded;

(C) specifications meeting all applicable Federal, State, and local building codes and laws;

(D) arrangements for operations and maintenance upon completion of construction;

(E) a description of the Center collections and educational programming;

(F) a plan for design of exhibits including, but not limited to, the selection of collections to be exhibited, and the providing of security, preservation, protection, environmental controls, and presentations in accordance with professional museum standards;

(G) an agreement with the Navajo Nation and the Ute Mountain Ute Tribe relative to site selection and public access to the facilities; and

(H) a financing plan developed jointly by the Navajo Nation and the Ute Mountain Ute Tribe outlining the long-term management of the Center, including—

(i) the acceptance and use of funds derived from public and private sources to minimize the use of appropriated or borrowed funds;

(ii) the payment of the operating costs of the Center through the assessment of fees or other income generated by the Center;

(iii) a strategy for achieving financial self-sufficiency with respect to the Center by not later than 5 years after the date of enactment of this Act; and

(iv) appropriate vendor standards and business activities at the Four Corners Monument Tribal Park.

SEC. 6. SELECTION OF GRANT RECIPIENT.

The Four Corners Heritage Council may make recommendations to the Secretary on grant proposals regarding the design of facilities at the Four Corners Monument Tribal Park.

SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

(a) **AUTHORIZATIONS.**—There are authorized to be appropriated to the Department of the Interior to carry out this Act—

(1) \$2,000,000 for fiscal year 2000; and

(2) \$50,000 for each of fiscal years 2001 through 2005 for maintenance and operation of the Center, program development, or staffing in a manner consistent with the requirements of section 5(b).

(b) **CARRYOVER.**—Funds made available under subsection (a)(1) that are unexpended at the end of the fiscal year for which those funds are appropriated, may be used by the Secretary through fiscal year 2002 for the purposes for which those funds are made available.

(c) **RESERVATION OF FUNDS.**—The Secretary may reserve funds appropriated pursuant to this Act until a grant proposal meeting the requirements of this Act is submitted, but no later than September 30, 2001.

SEC. 8. DONATIONS.

Notwithstanding any other provision of law, for purposes of the planning, construction, and operation of the Center, the Secretary may accept, retain, and expend donations of funds, and use property or services donated, from private persons and entities or from public entities.

SEC. 9. STATUTORY CONSTRUCTION.

Nothing in this Act is intended to abrogate, modify, or impair any right or claim of the Navajo Nation or the Ute Mountain Ute Tribe, that is based on any law (including any treaty, Executive order, agreement, or Act of Congress).

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

FALLEN TIMBERS BATTLEFIELD AND FORT MIAMIS NATIONAL HISTORIC SITE ACT OF 1999

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that the Com-

mittee on Resources be discharged from further consideration of the Senate bill (S. 548) to establish the Fallen Timbers Battlefield and Fort Miamis National Historical Site in the State of Ohio, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, I do so for the purposes of yielding to the gentleman so he may explain the bill.

Mr. HANSEN. Mr. Speaker, will the gentleman yield?

Mr. GEORGE MILLER of California. I yield to the gentleman from Utah.

Mr. HANSEN. Mr. Speaker, I appreciate the gentleman yielding. Mr. Speaker, S. 548 introduced by Senator MIKE DEWINE from Ohio and the gentlewoman from Ohio (Ms. KAPTUR), who have worked so diligently on this bill, authorizes the establishment of the Fallen Timbers Battlefield and Fort Miamis National Historical Site in Ohio.

The historical site shall be established as an affiliated area of the national park system and shall be administered in a manner consistent with the National Park Service.

The Metropolitan Park District of the Toledo area would be established as the management entity and is responsible for developing a management plan for the site. The Secretary of the Interior will provide both financial and technical assistance to implement the management plan and develop programs to preserve and interpret the historical, cultural, natural, recreational and scenic resources of the site.

The National Park Service completed a special resource study in October of 1998 of the site, which is already designated as a national historic landmark, and recommended affiliate status.

The bill has support from the National Park Service and the minority, and I urge my colleagues to support this bill.

Ms. KAPTUR. Mr. Speaker, will the gentleman yield?

Mr. GEORGE MILLER of California. I yield to the gentlewoman from Ohio, who has worked so very, very hard on this legislation.

Ms. KAPTUR. Mr. Speaker, I just wanted to, as we close out this first session of the 106th Congress, and we close out this century, extend my deepest appreciation on behalf of the people of Ohio and, by affiliation, the people of Michigan, Indiana and Illinois to the chairman, the gentleman from Utah (Mr. HANSEN), who could not have been more diligent in working with us, and the ranking member, the gentleman

from California (Mr. GEORGE MILLER), to permit the people of our region of the United States to tell the full story of our history, the battle that occurred on this site and the assumption of the northwest territory and the opening of our entire region of the Nation to settlement.

I cannot thank the gentlemen enough on behalf of the people of the Buckeye State and our adjoining sister States for making this possible, before this century ends.

Mr. Speaker, the bill before us today is a matter of great significance to the American Midwest and to the 9th District of Ohio in particular. The bill under consideration today, Senator DEWINE's S. 548, is the companion to legislation I have introduced in the House, H.R. 868. I wish to thank Senator DEWINE for taking the lead on this measure in the Senate.

Some authorities place the Battle of Fallen Timbers among the three most important battles in the formation of the United States, alongside the battles of Yorktown and Gettysburg. We should note that the Battle of Fallen Timbers did secure and open a large territory—now embracing parts of Ohio, Michigan, Indiana, and Illinois—for new settlements in our fledgling nation.

Another, contemporary battle should also be recognized here today. That is the struggle for national recognition of the Battle of Fallen Timbers as a keystone in the Maumee Valley and the Midwest.

In 1991, I was able to secure authorization in the Interior Appropriations bill for the National Park Service to assess the Maumee River Heritage Corridor for historically significant sites. The first site assessed was the Fallen Timbers battlefield.

We will hear later this morning from two people who have served in that more recent battle, Dr. G. Michael Pratt from Heidelberg College and Jean Ward, Director of Metroparks of the Toledo Area. Dr. Pratt heads the Center for Historic and Military Archeology. He led the archaeological study that definitively located the Fallen Timbers Battlefield site. Jean Ward has served the Toledo area as director of its park system for more than 30 years. Toledo Metroparks manages over 7,000 acres of parkland and historic sites in Lucas County.

THE BATTLE OF FALLEN TIMBERS

In 1794, the line of control between British forces and their Native American allies and the forces of the United States lay across the "Foot of the Rapids" on the Maumee River. On August 20, 1794, General Anthony Wayne led his legion down the Maumee River valley from near what is now Waterville, Ohio. Coming to an area where a recent storm had toppled much of the forest, Wayne's leading elements were engaged by about 1,100 warriors from a confederacy of Ohio and Great Lakes tribes. The U.S. soldiers fell back to their main lines and a pitched battle surged back and forth over the "fallen timbers." Finally, a concerted charge by the entire legion drove the Native Americans back to within sight of Fort Miamis to the northeast, and their resistance dissipated.

The Native American coalition included members of the Wyandot, Miami, Ottawa,

Delaware, Mingo, Shawnee, Potawatomi, and Chippewa tribes as well as a few Canadian militia.

The battle was a clear victory for the United States, a policy failure for the British, and a disaster for the Native American Confederacy. The resultant Treaty of Greenville in 1795 gained the City of Detroit, then the largest city on the Great Lakes and secured much of the Northwest Territory for the growing United States.

I am holding here a typical U.S. Department of Defense sketch of the Battle of Fallen Timbers that has been widely displayed in Army installations across our nation for decades.

In addition to the battlefield, the Historic Site would include the nearby site of Fort Miamis, which played a role not only in the Wayne campaign but also in the War of 1812. In the spring of 1813, British forces landed troops and artillery on the site of the deteriorated Fort Miamis on the lower Maumee River. Together with Shawnee Chief Tecumseh, the British twice attacked the American garrison at Fort Meigs—another military outpost along the Maumee River—and twice were repulsed. These U.S. victories at Fort Meigs frustrated British attempts to regain the Northwest Territory and were a prelude to the victory of Commodore Perry's Battle of Lake Erie victory later in 1813, a large mural of which hangs just outside the House chamber.

THE BATTLE FOR FALLEN TIMBERS

The people of northwest Ohio have long held a strong interest in the history of our region and, in particular, in the battle that won the territory for the United States. In the mid-1930's, a 9-acre site on the banks of the Maumee River then thought to be the location of the Battle of Fallen Timbers was dedicated and a statue commemorating the battle erected. As interest in preserving both our local history and natural areas grew earlier this decade, I was able to secure the authorization for a resource study of the Fallen Timbers area by the National Park Service as part of a possible Maumee River Valley Heritage Corridor that lies between Toledo, Ohio, and Fort Wayne, Indiana. It remains one of the most scenic and bucolic stretches in the Midwest.

Beginning in 1995, an archaeological investigation led by Dr. Pratt set out to identify the exact location of the battle. Dr. Pratt's excellent work has proven conclusively that the battle actually took place some distance from the existing Fallen Timbers Monument. Development is beginning to encroach on the battlefield site, but a significant portion of the core battlefield is still in agricultural use and owned by the City of Toledo.

It is that site, along with the Monument site and the Fort Miamis site, that this legislation would establish as a National Historic Site and an interpretive locus for the entire heritage corridor.

Most impressive, however, has been the outpouring of grassroots interest in the Battle of Fallen Timbers and the preservation of its sites. Our office has received hundreds of letters supporting preservation of these sites including this batch of drawings of Fort Miamis sent by the students at the Fort Miami School in Maumee, Ohio. Local press coverage has been extensive.

We should particularly note the efforts of Marianne Duvendack and the Fallen Timbers

Battlefield Commission. The Commission has produced a flyer describing the battle and its historic significance. It has also produced an excellent video presentation in support of preservation.

Another person whose efforts must not be forgotten is the former Mayor of the City of Maumee, Steve Pauken. His tireless efforts contributed as much as anyone's to saving Fallen Timbers.

Others that have contributed financial, individual, and organizational resources to the effort include the Ohio Historical Society, the City of Maumee, the City of Toledo, the Maumee Valley Heritage Corridor, Heidelberg College, Toledo Metroparks, and the Toledo Blade and its editorial staff, particularly Ralph Johnson.

The Fallen Timbers Battlefield was listed as number two on the 1996 list of the ten most endangered National Historic Landmarks in a report by the National Park Service. It was included in the 1959 National Survey of Historic Sites and Buildings as one of 22 sites representing the national historic theme "The Advance of the Frontier, 1763–1830." It was designated a National Historic Landmark in 1960 as "the culminating event which demonstrated the tenacity of the American people in their efforts of western expansion through the struggle for dominance in the Old Northwest Territory."

The National Park Service Resource Study concluded that the Fallen Timbers Battlefield site would be "eligible, suitable, and feasible for recognition as an affiliated area of the National Park System if the 185-acre core battlefield can be acquired for preservation purposes." The House should know that we have the commitments of the State of Ohio, the City of Toledo, and the City of Maumee to see this project through to completion.

Mr. Speaker, I urge all of our colleagues to support this bill which helps complete the appreciation of our nation's early history.

Mr. GEORGE MILLER of California. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 548

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Fallen Timbers Battlefield and Fort Miamis National Historic Site Act of 1999".

SEC. 2. DEFINITIONS.

As used in this Act:

(a) DEFINITIONS.—

(1) The term "historic site" means the Fallen Timbers Battlefield and Monument and Fort Miamis National Historic Site established by section 4 of this Act.

(2) The term "management plan" means the general management plan developed pursuant to section 5(d).

(3) The term "Secretary" means the Secretary of the Interior.

(4) The term "management entity" means the Metropolitan Park District of the Toledo Area.

(5) The term "technical assistance" means any guidance, advice, or other aid, other than financial assistance, provided by the Secretary.

SEC. 3. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) The 185-acre Fallen Timbers Battlefield is the site of the 1794 battle between General Anthony Wayne and a confederation of Native American tribes led by Little Turtle and Blue Jacket.

(2) Fort Miamis was occupied by General Wayne's legion from 1796 to 1798.

(3) In the spring of 1813, British troops, led by General Henry Proctor, landed at Fort Miamis and attacked the fort twice, without success.

(4) Fort Miamis and Fallen Timbers Battlefield are in Lucas County, Ohio, in the city of Maumee.

(5) The 9-acre Fallen Timbers Battlefield Monument is listed as a National Historic Landmark.

(6) Fort Miamis is listed in the National Register of Historic Places as a historic site.

(7) In 1959, the Fallen Timbers Battlefield was included in the National Survey of Historic Sites and Buildings as 1 of 22 sites representing the "Advance of the Frontier, 1763–1830".

(8) In 1960, the Fallen Timbers Battlefield was designated as a National Historic Landmark.

(b) PURPOSES.—The purposes of this Act are—

(1) to recognize and preserve the 185-acre Fallen Timbers Battlefield site;

(2) to recognize and preserve the Fort Miamis site;

(3) to formalize the linkage of the Fallen Timbers Battlefield and Monument to Fort Miamis;

(4) to preserve and interpret United States military history and Native American culture during the period from 1794 through 1813;

(5) to provide assistance to the State of Ohio, political subdivisions of the State, and nonprofit organizations in the State to implement the management plan and develop programs that will preserve and interpret the historical, cultural, natural, recreational and scenic resources of the historic site; and

(6) to authorize the Secretary to provide technical assistance to the State of Ohio, political subdivisions of the State, and nonprofit organizations in the State, including the Ohio Historical Society, the city of Maumee, the Maumee Valley Heritage Corridor, the Fallen Timbers Battlefield Commission, Heidelberg College, the city of Toledo, and the Metropark District of the Toledo Area, to implement the management plan.

SEC. 4. ESTABLISHMENT OF THE FALLEN TIMBERS BATTLEFIELD AND FORT MIAMIS NATIONAL HISTORIC SITE.

(a) IN GENERAL.—There is established, as an affiliated area of the National Park System, the Fallen Timbers Battlefield and Fort Miamis National Historic Site in the State of Ohio.

(b) DESCRIPTION.—The historic site is comprised of the following as generally depicted on the map entitled Fallen Timbers Battlefield and Fort Miamis National Historic Site-proposed, number NHS-FTFM, and dated May 1999:

(1) The Fallen Timbers site, comprised generally of the following:

(A) The Fallen Timbers Battlefield site, consisting of an approximately 185-acre parcel located north of U.S. 24, west of U.S. 23/

I-475, south of the Norfolk and Western Railroad line, and east of Jerome Road.

(B) The approximately 9-acre Fallen Timbers Battlefield Monument, located south of U.S. 24; and

(2) The Fort Miamis Park site.

(c) MAP.—The map shall be on file and available for public inspection in the appropriate offices of the National Park Service.

SEC. 5. ADMINISTRATION OF HISTORIC SITES.

(a) APPLICABILITY OF NATIONAL PARK SYSTEM LAWS.—The historic site shall be administered in a manner consistent with this Act and all laws generally applicable to units of the National Park System, including the Act of August 25, 1916 (16 U.S.C. 1, 2-4; commonly known as the National Park Service Organic Act), and the Act of August 21, 1935 (16 U.S.C. 461 et seq.; commonly known as the Historic Sites, Buildings, and Antiquities Act).

(b) COOPERATIVE AGREEMENT.—The Secretary may enter into a cooperative agreement with the management entity to provide technical assistance to ensure the marking, research, interpretation, education and preservation of the Fallen Timbers Battlefield and Fort Miamis National Historic Site.

(c) REIMBURSEMENT.—Any payment made by the Secretary pursuant to this section shall be subject to an agreement that conversion, use, or disposal of the project so assisted for purposes contrary to the purposes of this section as determined by the Secretary, shall result in a right of the United States to reimbursement of all funds made available to such project or the proportion of the increased value of the project attributable to such funds as determined at the time of such conversion, use, or disposal, whichever is greater.

(d) GENERAL MANAGEMENT PLAN.—

(1) IN GENERAL.—The Secretary, in consultation with the management entity and Native American tribes whose ancestors were involved in events at these sites, shall develop a general management plan for the historic site. The plan shall be prepared in accordance with section 12(b) of Public Law 91-383 (16 U.S.C. 1a-1 et seq.; commonly known as the National Park System General Authorities Act).

(2) COMPLETION.—The plan shall be completed not later than 2 years after the date funds are made available.

(3) TRANSMITTAL.—Not later than 30 days after completion of the plan, the Secretary shall provide a copy of the plan to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS

There is authorized to be appropriated such funds as are necessary to carry out this Act.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

DIRECTING SECRETARY OF INTERIOR TO MAKE TECHNICAL CORRECTIONS TO MAP RELATING TO COASTAL BARRIER RESOURCES SYSTEM

Mr. SAXTON. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the bill (H.R. 34) to direct the Secretary of the Interior to make technical corrections

to a map relating to the Coastal Barrier Resources System, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

□ 1930

The SPEAKER pro tempore (Mr. PEASE). Is there objection to the request of the gentleman from New Jersey?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, I do so for the purpose of asking the gentleman from New Jersey to explain his unanimous consent request.

Mr. Speaker, I yield to the gentleman from New Jersey (Mr. SAXTON).

Mr. SAXTON. Mr. Speaker, coastal barriers are dynamic ecosystems and are prone to frequent moving and shifting as the result of storms and other natural processes. Despite their vulnerability, these areas are attractive locations to live in and are popular for vacation destinations.

Congress approved the Coastal Barriers Resources Act of 1982 to protect these areas by establishing a system of barrier units that are precluded from receiving Federal development assistance, including Federal flood insurance. The System is administered by the Fish and Wildlife Service.

Maps depicting the various units are adopted by Congress, and any changes to the boundaries of System units require legislative action. The System includes 274 otherwise protected areas. Otherwise protected areas include lands that are held for conservation purposes by the Federal, State, and local governments or private conservation groups.

Mr. Speaker, H.R. 34 adopts maps drawn by the Fish and Wildlife Service that correctly portray the boundaries of the Cayo Costa State Park in Florida, and this is supported by the Fish and Wildlife Service and the Committee on Resources majority and minority.

H.R. 34 passed the House of Representatives as part of H.R. 1431 on September 21, 1999.

Mr. Speaker, I believe H.R. 34 corrects a true mapping error, and I strongly urge the passage of this legislation.

Mr. GEORGE MILLER of California. Mr. Speaker, further reserving my right to object, this bill would authorize a minor map correction to change the boundaries of an otherwise protected area (OPA) to make these boundaries coterminous with the boundaries of a State park. This correction would exclude 14 acres of private land from the OPA.

The Committee on Resources has thoroughly reviewed the underlying justification for this map correction and has worked closely with the Fish and Wildlife Service throughout. The Committee has found nothing to prove conclusively that Congress intended to include private lands abutting the boundaries of the State park when it created this OPA in 1990. Also, there is reasonable doubt that these pri-

vate lands would have qualified for inclusion under the Fish and Wildlife Service's designation criteria for otherwise protected areas or undeveloped coastal barriers.

This bill will rectify a previous mapping error by the Fish and Wildlife Service and bring this OPA into conformance with congressional intent to use existing park boundaries as the basis for OPA boundaries. The Administration supports this legislation and I urge that the House pass the bill.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The Clerk read the bill, as follows:

H.R. 34

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CORRECTIONS TO MAPS.

(a) IN GENERAL.—The Secretary of the Interior shall, before the end of the 30-day period beginning on the date of the enactment of this Act, make such corrections to the map described in subsection (b) as are necessary to ensure that depictions of areas on that map are consistent with the depictions of areas appearing on the map entitled "Amendments to the Coastal Barrier Resources System", dated _____, and on file with the Committee on Resources of the House of Representatives.

(b) MAP DESCRIBED.—The map described in this subsection is the map that—

(1) is included in a set of maps entitled "Coastal Barrier Resources System", dated November 2, 1994; and

(2) relates to unit P19-P of the Coastal Barrier Resources System.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed without amendment a joint resolution of the House of the following title:

H.J. Res. 83. Joint resolution making further continuing appropriations for the fiscal year 2000, and for other purposes.

DIRECTING SECRETARY OF THE INTERIOR TO MAKE CORRECTIONS TO MAP RELATING TO COASTAL BARRIER RESOURCES SYSTEM

Mr. SAXTON. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the Senate bill (S. 574) to direct the Secretary of the Interior to make corrections to a map relating to the Coastal Barrier Resources System, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, I do so for the purpose of asking the gentleman from New Jersey to explain his unanimous consent request.

Mr. Speaker, I yield to the gentleman from New Jersey (Mr. SAXTON).

Mr. SAXTON. Mr. Speaker, S. 574 is a second correction to the Coastal Barrier Resources System. In this case, the proposed change is to a unit affecting the Cape Henlopen State Park in Delaware.

This modification will remove approximately 32 acres of this privately owned land that lies outside of the State park. This property was incorrectly incorporated within the unit, and it is appropriate to properly adjust the boundaries of DE-03P. Furthermore, this legislation adds approximately 245 acres of State park land that was inadvertently left out of the otherwise protected area in 1990. Therefore, the net effect of these boundary adjustments is to add some 213 acres to the Coastal Barrier Resources System.

Mr. Speaker, the House version of this legislation was the subject of a subcommittee hearing. It was carefully considered by the full Committee on Resources. It was adopted by the House of Representatives with the passage of H.R. 1431.

In addition, the other body unanimously adopted S. 574 as introduced by Senator BIDEN of Delaware on April 22. During our hearing, the administrative witnesses testified that the "modification of the boundary constitutes a valid technical correction that conforms to the boundaries of the OPA to the boundaries of the State park, which the U.S. Fish and Wildlife Service and the Department supports."

Mr. Speaker, I urge an aye vote.

Mr. GEORGE MILLER of California. Mr. Speaker, further reserving my right to object, this bill has been thoroughly reviewed by the Committee on Resources. The technical corrections contained in this bill are legitimate, non-controversial, and supported by the Administration.

I am especially pleased that this legislation would add an additional 213 acres of land within Cape Henlopen State Park to the Coastal Barrier Resource System. I support this bill and I urge an "aye" vote.

Mr. CASTLE. Mr. Speaker, I rise in strong support of S. 574, a bill to correct the boundary of the Coastal Barrier Resources System Map in Lewes, Delaware.

Back in 1990, when the U.S. Fish and Wildlife Service was drawing the boundary for this map, the service inadvertently included the Cape Shores Development and the Barcroft Corporation in the system. The Fish and Wildlife Service had intended to follow the boundary of Cape Henlopen State Park, but followed the wrong line on the map. As a result, this has made it difficult for Barcroft and the homeowners in Cape Shores to obtain affordable flood insurance.

This summer, the House passed an identical bill introduced to correct this problem as

a subtitle to H.R. 1431, a comprehensive bill to reauthorize the Coast Barrier Resources Act. Due to time constraints, the Senate was not able to pass its own comprehensive reauthorization bill.

Therefore, in order to expedite the legislative process and make sure Barcroft Corporation and the residents of Cape Shores can obtain affordable flood insurance before winter storms strike Delaware, it is essential that we pass this legislation before the session ends.

I want to thank the Resources Committee Chairman, DON YOUNG; the Resources Fisheries Subcommittee Chairman, JIM SAXTON; and their staff for their tremendous efforts on this bill. The citizens of Delaware truly appreciate your assistance not just because it provides relief for Barcroft and Cape Shores, but also because it extends the protection of the Coastal Barrier Resources System to 245 additional acres in Cape Henlopen State Park.

I commend your work and urge my colleagues to support this bill.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 574

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CORRECTIONS TO MAP.

(a) IN GENERAL.—Not later than 30 days after the date of enactment of this Act, the Secretary of the Interior shall make such corrections to the map described in subsection (b) as are necessary to move on that map the boundary of the otherwise protected area (as defined in section 12 of the Coastal Barrier Improvement Act of 1990 (16 U.S.C. 3503 note; Public Law 101-591)) to the Cape Henlopen State Park boundary to the extent necessary—

(1) to exclude from the otherwise protected area the adjacent property leased, as of the date of enactment of this Act, by the Barcroft Company and Cape Shores Associates (which are privately held corporations under the law of the State of Delaware); and

(2) to include in the otherwise protected area the northwestern corner of Cape Henlopen State Park seaward of the Lewes and Rehoboth Canal.

(b) MAP DESCRIBED.—The map described in this subsection is the map that is included in a set of maps entitled "Coastal Barrier Resources System", dated October 24, 1990, as revised October 15, 1992, and that relates to the unit of the Coastal Barrier Resources System entitled "Cape Henlopen Unit DE-03P".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM ACT

Mr. SAXTON. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the Senate bill (S. 1866) to redesignate the

Coastal Barrier Resources System as the "John H. Chafee Coastal Barrier Resources System," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. GEORGE MILLER of California. Mr. Speaker, reserving the right to object, I take this time for the purpose of asking the gentleman from New Jersey for an explanation of his unanimous consent request.

Mr. Speaker, I yield to the gentleman from New Jersey (Mr. SAXTON).

Mr. SAXTON. Mr. Speaker, finally, we are considering S. 1866, the John H. Chafee Coastal Barrier Resources System Act. The late Senator John Chafee was instrumental in the creation of this program in 1982, and he remained one of the program's biggest supporters up until his untimely death earlier this year.

The late Senator Chafee, in his role as ranking member and later chairman of the Senate Environment and Public Works Committee, was a guardian of this System's integrity, and worked tirelessly to prevent any unnecessary encroachment into the System.

Senator Chafee served the people of Rhode Island with great distinction for over 20 years. It is a fitting tribute to his name to name the Coastal Barrier Resources System in his honor. I urge my colleagues to vote aye on this measure.

Mr. GEORGE MILLER of California. Mr. Speaker, further reserving my right to object, with the recent passing of Senator John H. Chafee, Congress has lost a compassionate and persuasive advocate for the protection and conservation of our Nation's natural heritage. Senator Chafee's many legislative contributions, including his leadership in authorizing and improving keystone environmental legislation such as the Clean Water Act, the Clean Air Act, and the Endangered Species Act to only name a few, leave a legacy of accomplishment that is both daunting and admirable. As many people know, Senator Chafee deeply loved the coastal barrier beaches and islands of his beloved Ocean State. Perhaps this lifelong affection explains why Senator Chafee worked so tirelessly to create the Coastal Barrier Resource System in 1982, and why he fought so strenuously to protect it in the intervening years.

If there really is a way to pay tribute to this modest and self-effacing man, I can think of no better testimonial than to re-name the Coastal Barrier Resources System in his honor. It will serve as a lasting tribute to the man, and a reminder to us all of the important work that still remains unfinished in order to protect our Nation's environment. I support this bill and urge all Members to vote for it.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The Clerk read the Senate bill, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "John H. Chafee Coastal Barrier Resources System Act".

SEC. 2. FINDINGS.

Congress finds that—

(1) during the past 2 decades, Senator John H. Chafee was a leading voice for the protection of the environment and the conservation of the natural resources of the United States;

(2) Senator Chafee served on the Environment and Public Works Committee of the Senate for 22 years, influencing every major piece of environmental legislation enacted during that time;

(3) Senator Chafee led the fight for clean air, clean water, safe drinking water, and cleanup of toxic wastes, and for strengthening of the National Wildlife Refuge System and protections for endangered species and their habitats;

(4) millions of people of the United States breathe cleaner air, drink cleaner water, and enjoy more plentiful outdoor recreation opportunities because of the work of Senator Chafee;

(5) in 1982, Senator Chafee authored and succeeded in enacting into law the Coastal Barrier Resources Act (16 U.S.C. 3501 et seq.) to minimize loss of human life, wasteful expenditure of Federal revenues, and damage to fish, wildlife, and other natural resources associated with the coastal barriers along the Atlantic and Gulf Coasts; and

(6) to reflect the invaluable national contributions made by Senator Chafee during his service in the Senate, the Coastal Barrier Resources System should be named in his honor.

SEC. 3. REDESIGNATION OF COASTAL BARRIER RESOURCES SYSTEM IN HONOR OF JOHN H. CHAFEE.

(a) IN GENERAL.—The Coastal Barrier Resources System established by section 4(a) of the Coastal Barrier Resources Act (16 U.S.C. 3503(a)) is redesignated as the "John H. Chafee Coastal Barrier Resources System".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Coastal Barrier Resources System shall be deemed to be a reference to the John H. Chafee Coastal Barrier Resources System.

(c) CONFORMING AMENDMENTS.—

(1) Section 2(b) of the Coastal Barrier Resources Act (16 U.S.C. 3501(b)) is amended by striking "a Coastal Barrier Resources System" and inserting "the John H. Chafee Coastal Barrier Resources System".

(2) Section 3 of the Coastal Barrier Resources Act (16 U.S.C. 3502) is amended by striking "Coastal Barrier Resources System" each place it appears and inserting "John H. Chafee Coastal Barrier Resources System".

(3) Section 4 of the Coastal Barrier Resources Act (16 U.S.C. 3503) is amended—

(A) in the section heading, by striking "COASTAL BARRIER RESOURCES SYSTEM" and inserting "JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM"; and

(B) in subsection (a), by striking "the Coastal Barrier Resources System" and inserting "the John H. Chafee Coastal Barrier Resources System".

(4) Section 10(c)(2) of the Coastal Barrier Resources Act (16 U.S.C. 3509(c)(2)) is amend-

ed by striking "Coastal Barrier Resources System" and inserting "System".

(5) Section 10(c)(2)(B)(i) of the Coastal Barrier Improvement Act of 1990 (12 U.S.C. 1441a-3(c)(2)(B)(i)) is amended by striking "Coastal Barrier Resources System" and inserting "John H. Chafee Coastal Barrier Resources System".

(6) Section 12(5) of the Coastal Barrier Improvement Act of 1990 (16 U.S.C. 3503 note; Public Law 101-591) is amended by striking "Coastal Barrier Resources System" and inserting "John H. Chafee Coastal Barrier Resources System".

(7) Section 1321 of the National Flood Insurance Act of 1968 (42 U.S.C. 4028) is amended—

(A) by striking the section heading and inserting the following:

"JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM";

and

(B) by striking "Coastal Barrier Resources System" each place it appears and inserting "John H. Chafee Coastal Barrier Resources System".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

FOSTER CARE INDEPENDENCE ACT OF 1999

Mrs. JOHNSON of Connecticut. Mr. Speaker, I ask unanimous consent that the Committee on Ways and Means and the Committee on Commerce be discharged from further consideration of the bill (H.R. 3443) to amend part E of title IV of the Social Security Act to provide States with more funding and greater flexibility in carrying out programs designed to help children make the transition from foster care to self-sufficiency, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

Mr. CARDIN. Mr. Speaker, reserving the right to object, I ask the gentleman from Connecticut (Mrs. JOHNSON) to explain her request.

Mr. Speaker, I yield to the gentleman from Connecticut (Mrs. JOHNSON).

Mrs. JOHNSON of Connecticut. Mr. Speaker, I thank the gentleman for yielding to me under his reservation.

Mr. Speaker, my colleagues may recall that the House acted on the Independent Living bill, H.R. 1802, in June and approved it overwhelmingly by a vote of 380 to 6. Every provision of this bill has been developed and written on a bipartisan basis. In this regard, I want to once again thank the gentleman from Maryland (Mr. CARDIN) for his exceptionally capable work on this legislation.

I also want to thank the administration, especially Secretary Shalala, for their timely help with this legislation. In addition, I thank the gentleman from Texas (Mr. DELAY), the Majority Whip, who testified in the House and

Senate as a foster parent and who has been instrumental in securing passage of this legislation. Indeed, we would not be here today without his help.

We have been working with our colleagues in the other body over the last several days to resolve differences and have agreed upon the version of the bill before us. H.R. 3443 represents that consensus text. I want to especially acknowledge the work of Senators LOTT, ROTH, GRASSLEY, NICKLES, MOYNIHAN, and ROCKEFELLER on this bill.

Since the House is expected to conclude its business shortly, we are taking this action in order to expedite consideration in the other body and move the bill to the President's desk.

This bill will provide, for the first time, realistic support for our most unfortunate children, those who have been in foster care for many years and who reach adulthood essentially alone. Unfortunately, research shows that these children have terribly high levels of unemployment, mental illness, school failure, teen pregnancy, and homelessness, and are frequently the victims or predators of crime. These young Americans need our help to have the opportunity in life that all Americans dream of.

This bill contains only nine changes from the original legislation, all of them minor.

I close by commending the other body for commemorating the life of the great Senator, the life and work of the great Senator from Rhode Island, the incomparable John Chafee. Senator Chafee was a wonderful friend to many of us here in this House and a diligent worker for children. He was full of enthusiasm for this legislation and worked tirelessly to secure its progress through his committee, looking toward its passage in the Senate. In fact, we have been told that his last actions as a United States Senator were to lobby for this bill. Thus, it is highly fitting that we should rename this program the "John H. Chafee Foster Care Independence Program."

Mr. CARDIN. Mr. Speaker, further reserving my right to object, let me quickly point out how pleased I am that we were able to reach a bipartisan agreement and get this legislation moving, the Foster Care Independence Act. This represents a real victory for the 20,000 children who age out of foster care every year.

I want to especially congratulate the gentleman from Connecticut (Mrs. JOHNSON), chair of the Subcommittee on Human Resources, for the steadfast dedication to helping children and her incredible work with the other body so that we, in fact, could accomplish this legislation before we adjourn sine die.

I would also like to express my appreciation to the Clinton administration for their help in drafting this legislation.

Mr. Speaker, although we are acting on this bill, H.R. 3443, it started as H.R.

671 back in February of this year and became H.R. 1802 in the work of our subcommittee.

I finally want to also acknowledge the fine work of our staff Ron Haskins and Nick Wynn in the Committee on Ways and Means, the work that they have done.

I also want to join in recognizing Senator John Chafee for the work that he did in regards to this bill along with Senator ROCKEFELLER. He and Senator Chafee were incredible in seeing this legislation pass.

Senator Chafee's untimely death is a loss to all of us. Senator Chafee's unyielding commitment to improving the well being of all children and his willingness to reach beyond party and ideology will sorely be missed.

Mr. Speaker, this legislation is very important. As I indicated earlier, it is commitment by this body and by the Congress to say to children aging out of foster care that they are not going to be lost at the age of 18.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3443

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the "Foster Care Independence Act of 1999".

(b) **TABLE OF CONTENTS.**—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—IMPROVED INDEPENDENT LIVING PROGRAM

Subtitle A—Improved Independent Living Program

Sec. 101. Improved independent living program.

Subtitle B—Related Foster Care Provision

Sec. 111. Increase in amount of assets allowable for children in foster care.

Sec. 112. Preparation of foster parents to provide for the needs of children in State care.

Subtitle C—Medicaid Amendments

Sec. 121. State option of Medicaid coverage for adolescents leaving foster care.

Subtitle D—Adoption Incentive Payments

Sec. 131. Increased funding for adoption incentive payments.

TITLE II—SSI FRAUD PREVENTION

Subtitle A—Fraud Prevention and Related Provisions

Sec. 201. Liability of representative payees for overpayments to deceased recipients.

Sec. 202. Recovery of overpayments of SSI benefits from lump sum SSI benefit payments.

Sec. 203. Additional debt collection practices.

Sec. 204. Requirement to provide State prisoner information to Federal and federally assisted benefit programs.

Sec. 205. Treatment of assets held in trust under the SSI program.

Sec. 206. Disposal of resources for less than fair market value under the SSI program.

Sec. 207. Administrative procedure for imposing penalties for false or misleading statements.

Sec. 208. Exclusion of representatives and health care providers convicted of violations from participation in social security programs.

Sec. 209. State data exchanges.

Sec. 210. Study on possible measures to improve fraud prevention and administrative processing.

Sec. 211. Annual report on amounts necessary to combat fraud.

Sec. 212. Computer matches with Medicare and Medicaid institutionalization data.

Sec. 213. Access to information held by financial institutions.

Subtitle B—Benefits For Certain World War II Veterans

Sec. 251. Establishment of program of special benefits for certain World War II veterans.

Subtitle C—Study

Sec. 261. Study of denial of SSI benefits for family farmers.

TITLE III—CHILD SUPPORT

Sec. 301. Narrowing of hold harmless provision for State share of distribution of collected child support.

TITLE IV—TECHNICAL CORRECTIONS

Sec. 401. Technical corrections relating to amendments made by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

TITLE I—IMPROVED INDEPENDENT LIVING PROGRAM

Subtitle A—Improved Independent Living Program

SEC. 101. IMPROVED INDEPENDENT LIVING PROGRAM.

(a) **FINDINGS.**—The Congress finds the following:

(1) States are required to make reasonable efforts to find adoptive families for all children, including older children, for whom reunification with their biological family is not in the best interests of the child. However, some older children will continue to live in foster care. These children should be enrolled in an Independent Living program designed and conducted by State and local government to help prepare them for employment, postsecondary education, and successful management of adult responsibilities.

(2) Older children who continue to be in foster care as adolescents may become eligible for Independent Living programs. These Independent Living programs are not an alternative to adoption for these children. Enrollment in Independent Living programs can occur concurrent with continued efforts to locate and achieve placement in adoptive families for older children in foster care.

(3) About 20,000 adolescents leave the Nation's foster care system each year because they have reached 18 years of age and are expected to support themselves.

(4) Congress has received extensive information that adolescents leaving foster care have significant difficulty making a successful transition to adulthood; this information shows that children aging out of foster care show high rates of homelessness, non-marital childbearing, poverty, and delinquent or criminal behavior; they are also frequently the target of crime and physical assaults.

(5) The Nation's State and local governments, with financial support from the Federal Government, should offer an extensive program of education, training, employment, and financial support for young adults leaving foster care, with participation in such program beginning several years before high school graduation and continuing, as needed, until the young adults emancipated from foster care establish independence or reach 21 years of age.

(b) **IMPROVED INDEPENDENT LIVING PROGRAM.**—Section 477 of the Social Security Act (42 U.S.C. 677) is amended to read as follows:

"SEC. 477. JOHN H. CHAFEE FOSTER CARE INDEPENDENCE PROGRAM.

"(a) **PURPOSE.**—The purpose of this section is to provide States with flexible funding that will enable programs to be designed and conducted—

"(1) to identify children who are likely to remain in foster care until 18 years of age and to help these children make the transition to self-sufficiency by providing services such as assistance in obtaining a high school diploma, career exploration, vocational training, job placement and retention, training in daily living skills, training in budgeting and financial management skills, substance abuse prevention, and preventive health activities (including smoking avoidance, nutrition education, and pregnancy prevention);

"(2) to help children who are likely to remain in foster care until 18 years of age receive the education, training, and services necessary to obtain employment;

"(3) to help children who are likely to remain in foster care until 18 years of age prepare for and enter postsecondary training and education institutions;

"(4) to provide personal and emotional support to children aging out of foster care, through mentors and the promotion of interactions with dedicated adults; and

"(5) to provide financial, housing, counseling, employment, education, and other appropriate support and services to former foster care recipients between 18 and 21 years of age to complement their own efforts to achieve self-sufficiency and to assure that program participants recognize and accept their personal responsibility for preparing for and then making the transition from adolescence to adulthood.

"(b) APPLICATIONS.

"(1) **IN GENERAL.**—A State may apply for funds from its allotment under subsection (c) for a period of five consecutive fiscal years by submitting to the Secretary, in writing, a plan that meets the requirements of paragraph (2) and the certifications required by paragraph (3) with respect to the plan.

"(2) **STATE PLAN.**—A plan meets the requirements of this paragraph if the plan specifies which State agency or agencies will administer, supervise, or oversee the programs carried out under the plan, and describes how the State intends to do the following:

"(A) Design and deliver programs to achieve the purposes of this section.

"(B) Ensure that all political subdivisions in the State are served by the program, though not necessarily in a uniform manner.

"(C) Ensure that the programs serve children of various ages and at various stages of achieving independence.

"(D) Involve the public and private sectors in helping adolescents in foster care achieve independence.

"(E) Use objective criteria for determining eligibility for benefits and services under the

programs, and for ensuring fair and equitable treatment of benefit recipients.

“(F) Cooperate in national evaluations of the effects of the programs in achieving the purposes of this section.

“(3) CERTIFICATIONS.—The certifications required by this paragraph with respect to a plan are the following:

“(A) A certification by the chief executive officer of the State that the State will provide assistance and services to children who have left foster care because they have attained 18 years of age, and who have not attained 21 years of age.

“(B) A certification by the chief executive officer of the State that not more than 30 percent of the amounts paid to the State from its allotment under subsection (c) for a fiscal year will be expended for room or board for children who have left foster care because they have attained 18 years of age, and who have not attained 21 years of age.

“(C) A certification by the chief executive officer of the State that none of the amounts paid to the State from its allotment under subsection (c) will be expended for room or board for any child who has not attained 18 years of age.

“(D) A certification by the chief executive officer of the State that the State will use training funds provided under the program of Federal payments for foster care and adoption assistance to provide training to help foster parents, adoptive parents, workers in group homes, and case managers understand and address the issues confronting adolescents preparing for independent living, and will, to the extent possible, coordinate such training with the independent living program conducted for adolescents.

“(E) A certification by the chief executive officer of the State that the State has consulted widely with public and private organizations in developing the plan and that the State has given all interested members of the public at least 30 days to submit comments on the plan.

“(F) A certification by the chief executive officer of the State that the State will make every effort to coordinate the State programs receiving funds provided from an allotment made to the State under subsection (c) with other Federal and State programs for youth (especially transitional living youth projects funded under part B of title III of the Juvenile Justice and Delinquency Prevention Act of 1974), abstinence education programs, local housing programs, programs for disabled youth (especially sheltered workshops), and school-to-work programs offered by high schools or local workforce agencies.

“(G) A certification by the chief executive officer of the State that each Indian tribe in the State has been consulted about the programs to be carried out under the plan; that there have been efforts to coordinate the programs with such tribes; and that benefits and services under the programs will be made available to Indian children in the State on the same basis as to other children in the State.

“(H) A certification by the chief executive officer of the State that the State will ensure that adolescents participating in the program under this section participate directly in designing their own program activities that prepare them for independent living and that the adolescents accept personal responsibility for living up to their part of the program.

“(I) A certification by the chief executive officer of the State that the State has established and will enforce standards and proce-

dures to prevent fraud and abuse in the programs carried out under the plan.

“(4) APPROVAL.—The Secretary shall approve an application submitted by a State pursuant to paragraph (1) for a period if—

“(A) the application is submitted on or before June 30 of the calendar year in which such period begins; and

“(B) the Secretary finds that the application contains the material required by paragraph (1).

“(5) AUTHORITY TO IMPLEMENT CERTAIN AMENDMENTS; NOTIFICATION.—A State with an application approved under paragraph (4) may implement any amendment to the plan contained in the application if the application, incorporating the amendment, would be approvable under paragraph (4). Within 30 days after a State implements any such amendment, the State shall notify the Secretary of the amendment.

“(6) AVAILABILITY.—The State shall make available to the public any application submitted by the State pursuant to paragraph (1), and a brief summary of the plan contained in the application.

“(c) ALLOTMENTS TO STATES.—

“(1) IN GENERAL.—From the amount specified in subsection (h) that remains after applying subsection (g)(2) for a fiscal year, the Secretary shall allot to each State with an application approved under subsection (b) for the fiscal year the amount which bears the same ratio to such remaining amount as the number of children in foster care under a program of the State in the most recent fiscal year for which such information is available bears to the total number of children in foster care in all States for such most recent fiscal year, as adjusted in accordance with paragraph (2).

“(2) HOLD HARMLESS PROVISION.—

“(A) IN GENERAL.—The Secretary shall allot to each State whose allotment for a fiscal year under paragraph (1) is less than the greater of \$500,000 or the amount payable to the State under this section for fiscal year 1998, an additional amount equal to the difference between such allotment and such greater amount.

“(B) RATABLE REDUCTION OF CERTAIN ALLOTMENTS.—In the case of a State not described in subparagraph (A) of this paragraph for a fiscal year, the Secretary shall reduce the amount allotted to the State for the fiscal year under paragraph (1) by the amount that bears the same ratio to the sum of the differences determined under subparagraph (A) of this paragraph for the fiscal year as the excess of the amount so allotted over the greater of \$500,000 or the amount payable to the State under this section for fiscal year 1998 bears to the sum of such excess amounts determined for all such States.

“(d) USE OF FUNDS.—

“(1) IN GENERAL.—A State to which an amount is paid from its allotment under subsection (c) may use the amount in any manner that is reasonably calculated to accomplish the purposes of this section.

“(2) NO SUPPLANTATION OF OTHER FUNDS AVAILABLE FOR SAME GENERAL PURPOSES.—The amounts paid to a State from its allotment under subsection (c) shall be used to supplement and not supplant any other funds which are available for the same general purposes in the State.

“(3) TWO-YEAR AVAILABILITY OF FUNDS.—Payments made to a State under this section for a fiscal year shall be expended by the State in the fiscal year or in the succeeding fiscal year.

“(e) PENALTIES.—

“(1) USE OF GRANT IN VIOLATION OF THIS PART.—If the Secretary is made aware, by an

audit conducted under chapter 75 of title 31, United States Code, or by any other means, that a program receiving funds from an allotment made to a State under subsection (c) has been operated in a manner that is inconsistent with, or not disclosed in the State application approved under subsection (b), the Secretary shall assess a penalty against the State in an amount equal to not less than 1 percent and not more than 5 percent of the amount of the allotment.

“(2) FAILURE TO COMPLY WITH DATA REPORTING REQUIREMENT.—The Secretary shall assess a penalty against a State that fails during a fiscal year to comply with an information collection plan implemented under subsection (f) in an amount equal to not less than 1 percent and not more than 5 percent of the amount allotted to the State for the fiscal year.

“(3) PENALTIES BASED ON DEGREE OF NON-COMPLIANCE.—The Secretary shall assess penalties under this subsection based on the degree of noncompliance.

“(f) DATA COLLECTION AND PERFORMANCE MEASUREMENT.—

“(1) IN GENERAL.—The Secretary, in consultation with State and local public officials responsible for administering independent living and other child welfare programs, child welfare advocates, members of Congress, youth service providers, and researchers, shall—

“(A) develop outcome measures (including measures of educational attainment, high school diploma, employment, avoidance of dependency, homelessness, nonmarital childbirth, incarceration, and high-risk behaviors) that can be used to assess the performance of States in operating independent living programs;

“(B) identify data elements needed to track—

“(i) the number and characteristics of children receiving services under this section;

“(ii) the type and quantity of services being provided; and

“(iii) State performance on the outcome measures; and

“(C) develop and implement a plan to collect the needed information beginning with the second fiscal year beginning after the date of the enactment of this section.

“(2) REPORT TO THE CONGRESS.—Within 12 months after the date of the enactment of this section, the Secretary shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report detailing the plans and timetable for collecting from the States the information described in paragraph (1) and a proposal to impose penalties consistent with paragraph (e)(2) on States that do not report data.

“(g) EVALUATIONS.—

“(1) IN GENERAL.—The Secretary shall conduct evaluations of such State programs funded under this section as the Secretary deems to be innovative or of potential national significance. The evaluation of any such program shall include information on the effects of the program on education, employment, and personal development. To the maximum extent practicable, the evaluations shall be based on rigorous scientific standards including random assignment to treatment and control groups. The Secretary is encouraged to work directly with State and local governments to design methods for conducting the evaluations, directly or by grant, contract, or cooperative agreement.

“(2) FUNDING OF EVALUATIONS.—The Secretary shall reserve 1.5 percent of the amount specified in subsection (h) for a fiscal year to carry out, during the fiscal year,

evaluation, technical assistance, performance measurement, and data collection activities related to this section, directly or through grants, contracts, or cooperative agreements with appropriate entities.

“(h) LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.—To carry out this section and for payments to States under section 474(a)(4), there are authorized to be appropriated to the Secretary \$140,000,000 for each fiscal year.”.

(c) PAYMENTS TO STATES.—Section 474(a)(4) of such Act (42 U.S.C. 674(a)(4)) is amended to read as follows:

“(4) the lesser of—

“(A) 80 percent of the amount (if any) by which—

“(i) the total amount expended by the State during the fiscal year in which the quarter occurs to carry out programs in accordance with the State application approved under section 477(b) for the period in which the quarter occurs (including any amendment that meets the requirements of section 477(b)(5)); exceeds

“(ii) the total amount of any penalties assessed against the State under section 477(e) during the fiscal year in which the quarter occurs; or

“(B) the amount allotted to the State under section 477 for the fiscal year in which the quarter occurs, reduced by the total of the amounts payable to the State under this paragraph for all prior quarters in the fiscal year.”.

(d) REGULATIONS.—Not later than 12 months after the date of the enactment of this Act, the Secretary of Health and Human Services shall issue such regulations as may be necessary to carry out the amendments made by this section.

(e) SENSE OF THE CONGRESS.—It is the sense of the Congress that States should provide medical assistance under the State plan approved under title XIX of the Social Security Act to 18-, 19-, and 20-year-olds who have been emancipated from foster care.

Subtitle B—Related Foster Care Provision

SEC. 111. INCREASE IN AMOUNT OF ASSETS ALLOWABLE FOR CHILDREN IN FOSTER CARE.

Section 472(a) of the Social Security Act (42 U.S.C. 672(a)) is amended by adding at the end the following: “In determining whether a child would have received aid under a State plan approved under section 402 (as in effect on July 16, 1996), a child whose resources (determined pursuant to section 402(a)(7)(B), as so in effect) have a combined value of not more than \$10,000 shall be considered to be a child whose resources have a combined value of not more than \$1,000 (or such lower amount as the State may determine for purposes of such section 402(a)(7)(B)).”.

SEC. 112. PREPARATION OF FOSTER PARENTS TO PROVIDE FOR THE NEEDS OF CHILDREN IN STATE CARE.

(a) STATE PLAN REQUIREMENT.—Section 471(a) of the Social Security Act (42 U.S.C. 671(a)) is amended—

(1) by striking “and” at the end of paragraph (22);

(2) by striking the period at the end of paragraph (23) and inserting “; and”; and

(3) by adding at the end the following:

“(24) include a certification that, before a child in foster care under the responsibility of the State is placed with prospective foster parents, the prospective foster parents will be prepared adequately with the appropriate knowledge and skills to provide for the needs of the child, and that such preparation will be continued, as necessary, after the placement of the child.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1999.

Subtitle C—Medicaid Amendments

SEC. 121. STATE OPTION OF MEDICAID COVERAGE FOR ADOLESCENTS LEAVING FOSTER CARE.

(a) IN GENERAL.—Subject to subsection (c), title XIX of the Social Security Act is amended—

(1) in section 1902(a)(10)(A)(ii) (42 U.S.C. 1396a(a)(10)(A)(ii))—

(A) by striking “or” at the end of subclause (XIII);

(B) by adding “or” at the end of subclause (XIV); and

(C) by adding at the end the following new subclause:

“(XV) who are independent foster care adolescents (as defined in (section 1905(v)(1)), or who are within any reasonable categories of such adolescents specified by the State;”;

(2) by adding at the end of section 1905 (42 U.S.C. 1396d) the following new subsection:

“(v)(1) For purposes of this title, the term ‘independent foster care adolescent’ means an individual—

“(A) who is under 21 years of age;

“(B) who, on the individual’s 18th birthday, was in foster care under the responsibility of a State; and

“(C) whose assets, resources, and income do not exceed such levels (if any) as the State may establish consistent with paragraph (2).

“(2) The levels established by a State under paragraph (1)(C) may not be less than the corresponding levels applied by the State under section 1931(b).

“(3) A State may limit the eligibility of independent foster care adolescents under section 1902(a)(10)(A)(ii)(XV) to those individuals with respect to whom foster care maintenance payments or independent living services were furnished under a program funded under part E of title IV before the date the individuals attained 18 years of age.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) apply to medical assistance for items and services furnished on or after October 1, 1999.

(c) CONTINGENCY IN ENACTMENT.—If the Ticket to Work and Work Incentives Improvement Act of 1999 is enacted (whether before, on, or after the date of the enactment of this Act)—

(1) the amendments made by that Act shall be executed as if this Act had been enacted after the enactment of such other Act;

(2) with respect to subsection (a)(1)(A) of this section, any reference to subclause (XIII) is deemed a reference to subclause (XV);

(3) with respect to subsection (a)(1)(B) of this section, any reference to subclause (XIV) is deemed a reference to subclause (XV);

(4) the subclause (XV) added by subsection (a)(1)(C) of this section—

(A) is redesignated as subclause (XVII); and

(B) is amended by striking “section 1905(v)(1)” and inserting “section 1905(w)(1)”;

(5) the subsection (v) added by subsection (a)(2) of this section—

(A) is redesignated as subsection (w); and

(B) is amended by striking “1902(a)(10)(A)(ii)(XV)” and inserting “1902(a)(10)(A)(ii)(XVII)”.

Subtitle D—Adoption Incentive Payments

SEC. 131. INCREASED FUNDING FOR ADOPTION INCENTIVE PAYMENTS.

(a) SUPPLEMENTAL GRANTS.—Section 473A of the Social Security Act (42 U.S.C. 673b) is amended by adding at the end the following:

“(j) SUPPLEMENTAL GRANTS.—

“(1) IN GENERAL.—Subject to the availability of such amounts as may be provided in advance in appropriations Acts, in addition to any amount otherwise payable under this section to any State that is an incentive-eligible State for fiscal year 1998, the Secretary shall make a grant to the State in an amount equal to the lesser of—

“(A) the amount by which—

“(i) the amount that would have been payable to the State under this section during fiscal year 1999 (on the basis of adoptions in fiscal year 1998) in the absence of subsection (d)(2) if sufficient funds had been available for the payment; exceeds

“(ii) the amount that, before the enactment of this subsection, was payable to the State under this section during fiscal year 1999 (on such basis); or

“(B) the amount that bears the same ratio to the dollar amount specified in paragraph (2) as the amount described by subparagraph (A) for the State bears to the aggregate of the amounts described by subparagraph (A) for all States that are incentive-eligible States for fiscal year 1998.

“(2) FUNDING.—\$23,000,000 of the amounts appropriated under subsection (h)(1) for fiscal year 2000 may be used for grants under paragraph (1) of this subsection.”.

(b) LIMITATION ON AUTHORIZATION OF APPROPRIATIONS.—Section 473A(h)(1) of the Social Security Act (42 U.S.C. 673b(h)(1)) is amended to read as follows:

“(1) IN GENERAL.—For grants under subsection (a), there are authorized to be appropriated to the Secretary—

“(A) \$20,000,000 for fiscal year 1999;

“(B) \$43,000,000 for fiscal year 2000; and

“(C) \$20,000,000 for each of fiscal years 2001 through 2003.”.

TITLE II—SSI FRAUD PREVENTION

Subtitle A—Fraud Prevention and Related Provisions

SEC. 201. LIABILITY OF REPRESENTATIVE PAYEEES FOR OVERPAYMENTS TO DECEASED RECIPIENTS.

(a) AMENDMENT TO TITLE II.—Section 204(a)(2) of the Social Security Act (42 U.S.C. 404(a)(2)) is amended by adding at the end the following new sentence: “If any payment of more than the correct amount is made to a representative payee on behalf of an individual after the individual’s death, the representative payee shall be liable for the repayment of the overpayment, and the Commissioner of Social Security shall establish an overpayment control record under the social security account number of the representative payee.”.

(b) AMENDMENT TO TITLE XVI.—Section 1631(b)(2) of such Act (42 U.S.C. 1383(b)(2)) is amended by adding at the end the following new sentence: “If any payment of more than the correct amount is made to a representative payee on behalf of an individual after the individual’s death, the representative payee shall be liable for the repayment of the overpayment, and the Commissioner of Social Security shall establish an overpayment control record under the social security account number of the representative payee.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to overpayments made 12 months or more after the date of the enactment of this Act.

SEC. 202. RECOVERY OF OVERPAYMENTS OF SSI BENEFITS FROM LUMP SUM SSI BENEFIT PAYMENTS.

(a) IN GENERAL.—Section 1631(b)(1)(B)(ii) of the Social Security Act (42 U.S.C. 1383(b)(1)(B)(ii)) is amended—

(1) by inserting “monthly” before “benefit payments”; and

(2) by inserting “and in the case of an individual or eligible spouse to whom a lump sum is payable under this title (including under section 1616(a) of this Act or under an agreement entered into under section 212(a) of Public Law 93–66) shall, as at least one means of recovering such overpayment, make the adjustment or recovery from the lump sum payment in an amount equal to not less than the lesser of the amount of the overpayment or 50 percent of the lump sum payment,” before “unless fraud”.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect 12 months after the date of the enactment of this Act and shall apply to amounts incorrectly paid which remain outstanding on or after such date.

SEC. 203. ADDITIONAL DEBT COLLECTION PRACTICES.

(a) IN GENERAL.—Section 1631(b) of the Social Security Act (42 U.S.C. 1383(b)) is amended—

(1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (3) the following:

“(4)(A) With respect to any delinquent amount, the Commissioner of Social Security may use the collection practices described in sections 3711(f), 3716, 3717, and 3718 of title 31, United States Code, and in section 5514 of title 5, United States Code, all as in effect immediately after the enactment of the Debt Collection Improvement Act of 1996.

“(B) For purposes of subparagraph (A), the term ‘delinquent amount’ means an amount—

“(i) in excess of the correct amount of payment under this title;

“(ii) paid to a person after such person has attained 18 years of age; and

“(iii) determined by the Commissioner of Social Security, under regulations, to be otherwise unrecoverable under this section after such person ceases to be a beneficiary under this title.”.

(b) CONFORMING AMENDMENTS.—Section 3701(d)(2) of title 31, United States Code, is amended by striking “section 204(f)” and inserting “sections 204(f) and 1631(b)(4)”.

(c) TECHNICAL AMENDMENTS.—Section 204(f) of the Social Security Act (42 U.S.C. 404(f)) is amended—

(1) by striking “3711(e)” and inserting “3711(f)”; and

(2) by inserting “all” before “as in effect”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to debt outstanding on or after the date of the enactment of this Act.

SEC. 204. REQUIREMENT TO PROVIDE STATE PRISONER INFORMATION TO FEDERAL AND FEDERALLY ASSISTED BENEFIT PROGRAMS.

Section 1611(e)(1)(I)(ii)(II) of the Social Security Act (42 U.S.C. 1382(e)(1)(I)(ii)(II)) is amended by striking “is authorized to” and inserting “shall”.

SEC. 205. TREATMENT OF ASSETS HELD IN TRUST UNDER THE SSI PROGRAM.

(a) TREATMENT AS RESOURCE.—Section 1613 of the Social Security Act (42 U.S.C. 1382b) is amended by adding at the end the following:

“Trusts

“(e)(1) In determining the resources of an individual, paragraph (3) shall apply to a

trust (other than a trust described in paragraph (5)) established by the individual.

“(2)(A) For purposes of this subsection, an individual shall be considered to have established a trust if any assets of the individual (or of the individual’s spouse) are transferred to the trust other than by will.

“(B) In the case of an irrevocable trust to which are transferred the assets of an individual (or of the individual’s spouse) and the assets of any other person, this subsection shall apply to the portion of the trust attributable to the assets of the individual (or of the individual’s spouse).

“(C) This subsection shall apply to a trust without regard to—

“(i) the purposes for which the trust is established;

“(ii) whether the trustees have or exercise any discretion under the trust;

“(iii) any restrictions on when or whether distributions may be made from the trust; or

“(iv) any restrictions on the use of distributions from the trust.

“(3)(A) In the case of a revocable trust established by an individual, the corpus of the trust shall be considered a resource available to the individual.

“(B) In the case of an irrevocable trust established by an individual, if there are any circumstances under which payment from the trust could be made to or for the benefit of the individual or the individual’s spouse, the portion of the corpus from which payment to or for the benefit of the individual or the individual’s spouse could be made shall be considered a resource available to the individual.

“(4) The Commissioner of Social Security may waive the application of this subsection with respect to an individual if the Commissioner determines that such application would work an undue hardship (as determined on the basis of criteria established by the Commissioner) on the individual.

“(5) This subsection shall not apply to a trust described in subparagraph (A) or (C) of section 1917(d)(4).

“(6) For purposes of this subsection—

“(A) the term ‘trust’ includes any legal instrument or device that is similar to a trust;

“(B) the term ‘corpus’ means, with respect to a trust, all property and other interests held by the trust, including accumulated earnings and any other addition to the trust after its establishment (except that such term does not include any such earnings or addition in the month in which the earnings or addition is credited or otherwise transferred to the trust); and

“(C) the term ‘asset’ includes any income or resource of the individual or of the individual’s spouse, including—

“(i) any income excluded by section 1612(b);

“(ii) any resource otherwise excluded by this section; and

“(iii) any other payment or property to which the individual or the individual’s spouse is entitled but does not receive or have access to because of action by—

“(I) the individual or spouse;

“(II) a person or entity (including a court) with legal authority to act in place of, or on behalf of, the individual or spouse; or

“(III) a person or entity (including a court) acting at the direction of, or on the request of, the individual or spouse.”.

(b) TREATMENT AS INCOME.—Section 1612(a)(2) of such Act (42 U.S.C. 1382a(a)(2)) is amended—

(1) by striking “and” at the end of subparagraph (E);

(2) by striking the period at the end of subparagraph (F) and inserting “; and”; and

(3) by adding at the end the following:

“(G) any earnings of, and additions to, the corpus of a trust established by an individual (within the meaning of section 1613(e)), of which the individual is a beneficiary, to which section 1613(e) applies, and, in the case of an irrevocable trust, with respect to which circumstances exist under which a payment from the earnings or additions could be made to or for the benefit of the individual.”.

(c) CONFORMING AMENDMENTS.—Section 1902(a)(10) of the Social Security Act (42 U.S.C. 1396a(a)(10)) is amended—

(1) by striking “and” at the end of subparagraph (E);

(2) by adding “and” at the end of subparagraph (F); and

(3) by inserting after subparagraph (F) the following:

“(G) that, in applying eligibility criteria of the supplemental security income program under title XVI for purposes of determining eligibility for medical assistance under the State plan of an individual who is not receiving supplemental security income, the State will disregard the provisions of section 1613(e).”.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2000, and shall apply to trusts established on or after such date.

SEC. 206. DISPOSAL OF RESOURCES FOR LESS THAN FAIR MARKET VALUE UNDER THE SSI PROGRAM.

(a) IN GENERAL.—Section 1613(c) of the Social Security Act (42 U.S.C. 1382b(c)) is amended—

(1) in the caption, by striking “Notification of Medicaid Policy Restricting Eligibility of Institutionalized Individuals for Benefits Based on”; and

(2) in paragraph (1)—

(A) in subparagraph (A)—

(i) by inserting “paragraph (1) and” after “provisions of”; and

(ii) by striking “title XIX” the first place it appears and inserting “this title and title XIX, respectively.”;

(iii) by striking “subparagraph (B)” and inserting “clause (ii)”; and

(iv) by striking “paragraph (2)” and inserting “subparagraph (B)”; and

(B) in subparagraph (B)—

(i) by striking “by the State agency”; and

(ii) by striking “section 1917(c)” and all that follows and inserting “paragraph (1) or section 1917(c).”; and

(C) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(3) in paragraph (2)—

(A) by striking “(2)” and inserting “(B)”; and

(B) by striking “paragraph (1)(B)” and inserting “subparagraph (A)(ii)”; and

(4) by striking “(c)(1)” and inserting “(2)(A)”; and

(5) by inserting before paragraph (2) (as so redesignated by paragraph (4) of this subsection) the following:

“(c)(1)(A)(i) If an individual or the spouse of an individual disposes of resources for less than fair market value on or after the look-back date described in clause (ii)(I), the individual is ineligible for benefits under this title for months during the period beginning on the date described in clause (iii) and equal to the number of months calculated as provided in clause (iv).

“(ii)(I) The look-back date described in this subclause is a date that is 36 months before the date described in subclause (II).

“(II) The date described in this subclause is the date on which the individual applies for benefits under this title or, if later, the date

on which the individual (or the spouse of the individual) disposes of resources for less than fair market value.

“(iii) The date described in this clause is the first day of the first month in or after which resources were disposed of for less than fair market value and which does not occur in any other period of ineligibility under this paragraph.

“(iv) The number of months calculated under this clause shall be equal to—

“(I) the total, cumulative uncompensated value of all resources so disposed of by the individual (or the spouse of the individual) on or after the look-back date described in clause (ii)(I); divided by

“(II) the amount of the maximum monthly benefit payable under section 1611(b), plus the amount (if any) of the maximum State supplementary payment corresponding to the State's payment level applicable to the individual's living arrangement and eligibility category that would otherwise be payable to the individual by the Commissioner pursuant to an agreement under section 1616(a) of this Act or section 212(b) of Public Law 93-66, for the month in which occurs the date described in clause (ii)(II), rounded, in the case of any fraction, to the nearest whole number, but shall not in any case exceed 36 months.

“(B)(i) Notwithstanding subparagraph (A), this subsection shall not apply to a transfer of a resource to a trust if the portion of the trust attributable to the resource is considered a resource available to the individual pursuant to subsection (e)(3) (or would be so considered but for the application of subsection (e)(4)).

“(ii) In the case of a trust established by an individual or an individual's spouse (within the meaning of subsection (e)), if from such portion of the trust, if any, that is considered a resource available to the individual pursuant to subsection (e)(3) (or would be so considered but for the application of subsection (e)(4)) or the residue of the portion on the termination of the trust—

“(I) there is made a payment other than to or for the benefit of the individual; or

“(II) no payment could under any circumstance be made to the individual,

then, for purposes of this subsection, the payment described in clause (I) or the foreclosure of payment described in clause (II) shall be considered a transfer of resources by the individual or the individual's spouse as of the date of the payment or foreclosure, as the case may be.

“(C) An individual shall not be ineligible for benefits under this title by reason of the application of this paragraph to a disposal of resources by the individual or the spouse of the individual, to the extent that—

“(i) the resources are a home and title to the home was transferred to—

“(I) the spouse of the transferor;

“(II) a child of the transferor who has not attained 21 years of age, or is blind or disabled;

“(III) a sibling of the transferor who has an equity interest in such home and who was residing in the transferor's home for a period of at least 1 year immediately before the date the transferor becomes an institutionalized individual; or

“(IV) a son or daughter of the transferor (other than a child described in subclause (II)) who was residing in the transferor's home for a period of at least 2 years immediately before the date the transferor becomes an institutionalized individual, and who provided care to the transferor which permitted the transferor to reside at home

rather than in such an institution or facility;

“(ii) the resources—

“(I) were transferred to the transferor's spouse or to another for the sole benefit of the transferor's spouse;

“(II) were transferred from the transferor's spouse to another for the sole benefit of the transferor's spouse;

“(III) were transferred to, or to a trust (including a trust described in section 1917(d)(4)) established solely for the benefit of, the transferor's child who is blind or disabled; or

“(IV) were transferred to a trust (including a trust described in section 1917(d)(4)) established solely for the benefit of an individual who has not attained 65 years of age and who is disabled;

“(iii) a satisfactory showing is made to the Commissioner of Social Security (in accordance with regulations promulgated by the Commissioner) that—

“(I) the individual who disposed of the resources intended to dispose of the resources either at fair market value, or for other valuable consideration;

“(II) the resources were transferred exclusively for a purpose other than to qualify for benefits under this title; or

“(III) all resources transferred for less than fair market value have been returned to the transferor; or

“(iv) the Commissioner determines, under procedures established by the Commissioner, that the denial of eligibility would work an undue hardship as determined on the basis of criteria established by the Commissioner.

“(D) For purposes of this subsection, in the case of a resource held by an individual in common with another person or persons in a joint tenancy, tenancy in common, or similar arrangement, the resource (or the affected portion of such resource) shall be considered to be disposed of by the individual when any action is taken, either by the individual or by any other person, that reduces or eliminates the individual's ownership or control of such resource.

“(E) In the case of a transfer by the spouse of an individual that results in a period of ineligibility for the individual under this subsection, the Commissioner shall apportion the period (or any portion of the period) among the individual and the individual's spouse if the spouse becomes eligible for benefits under this title.

“(F) For purposes of this paragraph—

“(i) the term ‘benefits under this title’ includes payments of the type described in section 1616(a) of this Act and of the type described in section 212(b) of Public Law 93-66;

“(ii) the term ‘institutionalized individual’ has the meaning given such term in section 1917(e)(3); and

“(iii) the term ‘trust’ has the meaning given such term in subsection (e)(6)(A) of this section.”

(b) CONFORMING AMENDMENT.—Section 1902(a)(10) of the Social Security Act (42 U.S.C. 1396a(a)(10)), as amended by section 205(c) of this Act, is amended by striking “section 1613(e)” and inserting “subsections (c) and (e) of section 1613”.

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to disposals made on or after the date of the enactment of this Act.

SEC. 207. ADMINISTRATIVE PROCEDURE FOR IMPOSING PENALTIES FOR FALSE OR MISLEADING STATEMENTS.

(a) IN GENERAL.—Part A of title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by inserting after section 1129 the following:

“SEC. 1129A. ADMINISTRATIVE PROCEDURE FOR IMPOSING PENALTIES FOR FALSE OR MISLEADING STATEMENTS.

“(a) IN GENERAL.—Any person who makes, or causes to be made, a statement or representation of a material fact for use in determining any initial or continuing right to or the amount of—

“(1) monthly insurance benefits under title II; or

“(2) benefits or payments under title XVI, that the person knows or should know is false or misleading or knows or should know omits a material fact or who makes such a statement with knowing disregard for the truth shall be subject to, in addition to any other penalties that may be prescribed by law, a penalty described in subsection (b) to be imposed by the Commissioner of Social Security.

“(b) PENALTY.—The penalty described in this subsection is—

“(1) nonpayment of benefits under title II that would otherwise be payable to the person; and

“(2) ineligibility for cash benefits under title XVI, for each month that begins during the applicable period described in subsection (c).

“(c) DURATION OF PENALTY.—The duration of the applicable period, with respect to a determination by the Commissioner under subsection (a) that a person has engaged in conduct described in subsection (a), shall be—

“(1) six consecutive months, in the case of the first such determination with respect to the person;

“(2) twelve consecutive months, in the case of the second such determination with respect to the person; and

“(3) twenty-four consecutive months, in the case of the third or subsequent such determination with respect to the person.

“(d) EFFECT ON OTHER ASSISTANCE.—A person subject to a period of nonpayment of benefits under title II or ineligibility for title XVI benefits by reason of this section nevertheless shall be considered to be eligible for and receiving such benefits, to the extent that the person would be receiving or eligible for such benefits but for the imposition of the penalty, for purposes of—

“(1) determination of the eligibility of the person for benefits under titles XVIII and XIX; and

“(2) determination of the eligibility or amount of benefits payable under title II or XVI to another person.

“(e) DEFINITION.—In this section, the term ‘benefits under title XVI’ includes State supplementary payments made by the Commissioner pursuant to an agreement under section 1616(a) of this Act or section 212(b) of Public Law 93-66.

“(f) CONSULTATIONS.—The Commissioner of Social Security shall consult with the Inspector General of the Social Security Administration regarding initiating actions under this section.”

(b) CONFORMING AMENDMENT PRECLUDING DELAYED RETIREMENT CREDIT FOR ANY MONTH TO WHICH A NONPAYMENT OF BENEFITS PENALTY APPLIES.—Section 202(w)(2)(B) of such Act (42 U.S.C. 402(w)(2)(B)) is amended—

(1) by striking “and” at the end of clause (i);

(2) by striking the period at the end of clause (ii) and inserting “, and”; and

(3) by adding at the end the following:

“(iii) such individual was not subject to a penalty imposed under section 1129A.”

(c) ELIMINATION OF REDUNDANT PROVISION.—Section 1611(e) of such Act (42 U.S.C. 1382(e)) is amended—

(1) by striking paragraph (4);
 (2) in paragraph (6)(A)(i), by striking “(5)” and inserting “(4)”; and

(3) by redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

(d) REGULATIONS.—Within 6 months after the date of the enactment of this Act, the Commissioner of Social Security shall develop regulations that prescribe the administrative process for making determinations under section 1129A of the Social Security Act (including when the applicable period in subsection (c) of such section shall commence), and shall provide guidance on the exercise of discretion as to whether the penalty should be imposed in particular cases.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to statements and representations made on or after the date of the enactment of this Act.

SEC. 208. EXCLUSION OF REPRESENTATIVES AND HEALTH CARE PROVIDERS CONVICTED OF VIOLATIONS FROM PARTICIPATION IN SOCIAL SECURITY PROGRAMS.

(a) IN GENERAL.—Part A of title XI of the Social Security Act is amended by inserting before section 1137 (42 U.S.C. 1320b-7) the following:

“EXCLUSION OF REPRESENTATIVES AND HEALTH CARE PROVIDERS CONVICTED OF VIOLATIONS FROM PARTICIPATION IN SOCIAL SECURITY PROGRAMS

“SEC. 1136. (a) IN GENERAL.—The Commissioner of Social Security shall exclude from participation in the social security programs any representative or health care provider—

“(1) who is convicted of a violation of section 208 or 1632 of this Act;

“(2) who is convicted of any violation under title 18, United States Code, relating to an initial application for or continuing entitlement to, or amount of, benefits under title II of this Act, or an initial application for or continuing eligibility for, or amount of, benefits under title XVI of this Act; or

“(3) who the Commissioner determines has committed an offense described in section 1129(a)(1) of this Act.

“(b) NOTICE, EFFECTIVE DATE, AND PERIOD OF EXCLUSION.—(1) An exclusion under this section shall be effective at such time, for such period, and upon such reasonable notice to the public and to the individual excluded as may be specified in regulations consistent with paragraph (2).

“(2) Such an exclusion shall be effective with respect to services furnished to any individual on or after the effective date of the exclusion. Nothing in this section may be construed to preclude, in determining disability under title II or title XVI, consideration of any medical evidence derived from services provided by a health care provider before the effective date of the exclusion of the health care provider under this section.

“(3)(A) The Commissioner shall specify, in the notice of exclusion under paragraph (1), the period of the exclusion.

“(B) Subject to subparagraph (C), in the case of an exclusion under subsection (a), the minimum period of exclusion shall be five years, except that the Commissioner may waive the exclusion in the case of an individual who is the sole source of essential services in a community. The Commissioner’s decision whether to waive the exclusion shall not be reviewable.

“(C) In the case of an exclusion of an individual under subsection (a) based on a conviction or a determination described in subsection (a)(3) occurring on or after the date of the enactment of this section, if the individual has (before, on, or after such date of

the enactment) been convicted, or if such a determination has been made with respect to the individual—

“(i) on one previous occasion of one or more offenses for which an exclusion may be effected under such subsection, the period of the exclusion shall be not less than 10 years; or

“(ii) on two or more previous occasions of one or more offenses for which an exclusion may be effected under such subsection, the period of the exclusion shall be permanent.

“(c) NOTICE TO STATE AGENCIES.—The Commissioner shall promptly notify each appropriate State agency employed for the purpose of making disability determinations under section 221 or 1633(a)—

“(1) of the fact and circumstances of each exclusion effected against an individual under this section; and

“(2) of the period (described in subsection (b)(3)) for which the State agency is directed to exclude the individual from participation in the activities of the State agency in the course of its employment.

“(d) NOTICE TO STATE LICENSING AGENCIES.—The Commissioner shall—

“(1) promptly notify the appropriate State or local agency or authority having responsibility for the licensing or certification of an individual excluded from participation under this section of the fact and circumstances of the exclusion;

“(2) request that appropriate investigations be made and sanctions invoked in accordance with applicable State law and policy; and

“(3) request that the State or local agency or authority keep the Commissioner and the Inspector General of the Social Security Administration fully and currently informed with respect to any actions taken in response to the request.

“(e) NOTICE, HEARING, AND JUDICIAL REVIEW.—(1) Any individual who is excluded (or directed to be excluded) from participation under this section is entitled to reasonable notice and opportunity for a hearing thereon by the Commissioner to the same extent as is provided in section 205(b), and to judicial review of the Commissioner’s final decision after such hearing as is provided in section 205(g).

“(2) The provisions of section 205(h) shall apply with respect to this section to the same extent as it is applicable with respect to title II.

“(f) APPLICATION FOR TERMINATION OF EXCLUSION.—(1) An individual excluded from participation under this section may apply to the Commissioner, in the manner specified by the Commissioner in regulations and at the end of the minimum period of exclusion provided under subsection (b)(3) and at such other times as the Commissioner may provide, for termination of the exclusion effected under this section.

“(2) The Commissioner may terminate the exclusion if the Commissioner determines, on the basis of the conduct of the applicant which occurred after the date of the notice of exclusion or which was unknown to the Commissioner at the time of the exclusion, that—

“(A) there is no basis under subsection (a) for a continuation of the exclusion; and

“(B) there are reasonable assurances that the types of actions which formed the basis for the original exclusion have not recurred and will not recur.

“(3) The Commissioner shall promptly notify each State agency employed for the purpose of making disability determinations under section 221 or 1633(a) of the fact and

circumstances of each termination of exclusion made under this subsection.

“(g) AVAILABILITY OF RECORDS OF EXCLUDED REPRESENTATIVES AND HEALTH CARE PROVIDERS.—Nothing in this section shall be construed to have the effect of limiting access by any applicant or beneficiary under title II or XVI, any State agency acting under section 221 or 1633(a), or the Commissioner to records maintained by any representative or health care provider in connection with services provided to the applicant or beneficiary prior to the exclusion of such representative or health care provider under this section.

“(h) REPORTING REQUIREMENT.—Any representative or health care provider participating in, or seeking to participate in, a social security program shall inform the Commissioner, in such form and manner as the Commissioner shall prescribe by regulation, whether such representative or health care provider has been convicted of a violation described in subsection (a).

“(i) DELEGATION OF AUTHORITY.—The Commissioner may delegate authority granted by this section to the Inspector General.

“(j) DEFINITIONS.—For purposes of this section:

“(1) EXCLUDE.—The term ‘exclude’ from participation means—

“(A) in connection with a representative, to prohibit from engaging in representation of an applicant for, or recipient of, benefits, as a representative payee under section 205(j) or section 1631(a)(2)(A)(ii), or otherwise as a representative, in any hearing or other proceeding relating to entitlement to benefits; and

“(B) in connection with a health care provider, to prohibit from providing items or services to an applicant for, or recipient of, benefits for the purpose of assisting such applicant or recipient in demonstrating disability.

“(2) SOCIAL SECURITY PROGRAM.—The term ‘social security programs’ means the program providing for monthly insurance benefits under title II, and the program providing for monthly supplemental security income benefits to individuals under title XVI (including State supplementary payments made by the Commissioner pursuant to an agreement under section 1616(a) of this Act or section 212(b) of Public Law 93-66).

“(3) CONVICTED.—An individual is considered to have been ‘convicted’ of a violation—

“(A) when a judgment of conviction has been entered against the individual by a Federal, State, or local court, except if the judgment of conviction has been set aside or expunged;

“(B) when there has been a finding of guilt against the individual by a Federal, State, or local court;

“(C) when a plea of guilty or nolo contendere by the individual has been accepted by a Federal, State, or local court; or

“(D) when the individual has entered into participation in a first offender, deferred adjudication, or other arrangement or program where judgment of conviction has been withheld.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to convictions of violations described in paragraphs (1) and (2) of section 1136(a) of the Social Security Act and determinations described in paragraph (3) of such section occurring on or after the date of the enactment of this Act.

SEC. 209. STATE DATA EXCHANGES.

Whenever the Commissioner of Social Security requests information from a State for

the purpose of ascertaining an individual's eligibility for benefits (or the correct amount of such benefits) under title II or XVI of the Social Security Act, the standards of the Commissioner promulgated pursuant to section 1106 of such Act or any other Federal law for the use, safeguarding, and disclosure of information are deemed to meet any standards of the State that would otherwise apply to the disclosure of information by the State to the Commissioner.

SEC. 210. STUDY ON POSSIBLE MEASURES TO IMPROVE FRAUD PREVENTION AND ADMINISTRATIVE PROCESSING.

(a) **STUDY.**—As soon as practicable after the date of the enactment of this Act, the Commissioner of Social Security, in consultation with the Inspector General of the Social Security Administration and the Attorney General, shall conduct a study of possible measures to improve—

(1) prevention of fraud on the part of individuals entitled to disability benefits under section 223 of the Social Security Act or benefits under section 202 of such Act based on the beneficiary's disability, individuals eligible for supplemental security income benefits under title XVI of such Act, and applicants for any such benefits; and

(2) timely processing of reported income changes by individuals receiving such benefits.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Commissioner shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a written report that contains the results of the Commissioner's study under subsection (a). The report shall contain such recommendations for legislative and administrative changes as the Commissioner considers appropriate.

SEC. 211. ANNUAL REPORT ON AMOUNTS NECESSARY TO COMBAT FRAUD.

(a) **IN GENERAL.**—Section 704(b)(1) of the Social Security Act (42 U.S.C. 904(b)(1)) is amended—

(1) by inserting “(A)” after “(b)(1)”; and

(2) by adding at the end the following new subparagraph:

“(B) The Commissioner shall include in the annual budget prepared pursuant to subparagraph (A) an itemization of the amount of funds required by the Social Security Administration for the fiscal year covered by the budget to support efforts to combat fraud committed by applicants and beneficiaries.”

(b) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to annual budgets prepared for fiscal years after fiscal year 1999.

SEC. 212. COMPUTER MATCHES WITH MEDICARE AND MEDICAID INSTITUTIONALIZATION DATA.

(a) **IN GENERAL.**—Section 1611(e)(1) of the Social Security Act (42 U.S.C. 1382(e)(1)) is amended by adding at the end the following:

“(J) For the purpose of carrying out this paragraph, the Commissioner of Social Security shall conduct periodic computer matches with data maintained by the Secretary of Health and Human Services under title XVIII or XIX. The Secretary shall furnish to the Commissioner, in such form and manner and under such terms as the Commissioner and the Secretary shall mutually agree, such information as the Commissioner may request for this purpose. Information obtained pursuant to such a match may be substituted for the physician's certification otherwise required under subparagraph (G)(i).”

(b) **CONFORMING AMENDMENT.**—Section 1611(e)(1)(G) of such Act (42 U.S.C. 1382(e)(1)(G)) is amended by striking “subparagraph (H)” and inserting “subparagraph (H) or (J)”.

SEC. 213. ACCESS TO INFORMATION HELD BY FINANCIAL INSTITUTIONS.

Section 1631(e)(1)(B) of the Social Security Act (42 U.S.C. 1383(e)(1)(B)) is amended—

(1) by striking “(B) The” and inserting “(B)(i) The”; and

(2) by adding at the end the following new clause:

“(ii)(I) The Commissioner of Social Security may require each applicant for, or recipient of, benefits under this title to provide authorization by the applicant or recipient (or by any other person whose income or resources are material to the determination of the eligibility of the applicant or recipient for such benefits) for the Commissioner to obtain (subject to the cost reimbursement requirements of section 1115(a) of the Right to Financial Privacy Act) from any financial institution (within the meaning of section 1101(1) of such Act) any financial record (within the meaning of section 1101(2) of such Act) held by the institution with respect to the applicant or recipient (or any such other person) whenever the Commissioner determines the record is needed in connection with a determination with respect to such eligibility or the amount of such benefits.

“(II) Notwithstanding section 1104(a)(1) of the Right to Financial Privacy Act, an authorization provided by an applicant or recipient (or any other person whose income or resources are material to the determination of the eligibility of the applicant or recipient) pursuant to subclause (I) of this clause shall remain effective until the earliest of—

“(aa) the rendering of a final adverse decision on the applicant's application for eligibility for benefits under this title;

“(bb) the cessation of the recipient's eligibility for benefits under this title; or

“(cc) the express revocation by the applicant or recipient (or such other person referred to in subclause (I) of the authorization, in a written notification to the Commissioner.

“(III)(aa) An authorization obtained by the Commissioner of Social Security pursuant to this clause shall be considered to meet the requirements of the Right to Financial Privacy Act for purposes of section 1103(a) of such Act, and need not be furnished to the financial institution, notwithstanding section 1104(a) of such Act.

“(bb) The certification requirements of section 1103(b) of the Right to Financial Privacy Act shall not apply to requests by the Commissioner of Social Security pursuant to an authorization provided under this clause.

“(cc) A request by the Commissioner pursuant to an authorization provided under this clause is deemed to meet the requirements of section 1104(a)(3) of the Right to Financial Privacy Act and the flush language of section 1102 of such Act.

“(IV) The Commissioner shall inform any person who provides authorization pursuant to this clause of the duration and scope of the authorization.

“(V) If an applicant for, or recipient of, benefits under this title (or any such other person referred to in subclause (I)) refuses to provide, or revokes, any authorization made by the applicant or recipient for the Commissioner of Social Security to obtain from any financial institution any financial record, the Commissioner may, on that basis, determine that the applicant or recipient is ineligible for benefits under this title.”

Subtitle B—Benefits For Certain World War II Veterans

SEC. 251. ESTABLISHMENT OF PROGRAM OF SPECIAL BENEFITS FOR CERTAIN WORLD WAR II VETERANS.

(a) **IN GENERAL.**—The Social Security Act is amended by inserting after title VII the following new title:

“TITLE VIII—SPECIAL BENEFITS FOR CERTAIN WORLD WAR II VETERANS

“TABLE OF CONTENTS

“Sec. 801. Basic entitlement to benefits.

“Sec. 802. Qualified individuals.

“Sec. 803. Residence outside the United States.

“Sec. 804. Disqualifications.

“Sec. 805. Benefit amount.

“Sec. 806. Applications and furnishing of information.

“Sec. 807. Representative payees.

“Sec. 808. Overpayments and underpayments.

“Sec. 809. Hearings and review.

“Sec. 810. Other administrative provisions.

“Sec. 811. Penalties for fraud.

“Sec. 812. Definitions.

“Sec. 813. Appropriations.

“SEC. 801. BASIC ENTITLEMENT TO BENEFITS.

“Every individual who is a qualified individual under section 802 shall, in accordance with and subject to the provisions of this title, be entitled to a monthly benefit paid by the Commissioner of Social Security for each month after September 2000 (or such earlier month, if the Commissioner determines is administratively feasible) the individual resides outside the United States.

“SEC. 802. QUALIFIED INDIVIDUALS.

“Except as otherwise provided in this title, an individual—

“(1) who has attained the age of 65 on or before the date of the enactment of this title;

“(2) who is a World War II veteran;

“(3) who is eligible for a supplemental security income benefit under title XVI for—

“(A) the month in which this title is enacted; and

“(B) the month in which the individual files an application for benefits under this title;

“(4) whose total benefit income is less than 75 percent of the Federal benefit rate under title XVI;

“(5) who has filed an application for benefits under this title; and

“(6) who is in compliance with all requirements imposed by the Commissioner of Social Security under this title, shall be a qualified individual for purposes of this title.

“SEC. 803. RESIDENCE OUTSIDE THE UNITED STATES.

“For purposes of section 801, with respect to any month, an individual shall be regarded as residing outside the United States if, on the first day of the month, the individual so resides outside the United States.

“SEC. 804. DISQUALIFICATIONS.

“(a) **IN GENERAL.**—Notwithstanding section 802, an individual may not be a qualified individual for any month—

“(1) that begins after the month in which the Commissioner of Social Security is notified by the Attorney General that the individual has been removed from the United States pursuant to section 237(a) or 212(a)(6)(A) of the Immigration and Nationality Act and before the month in which the individual is lawfully admitted to the United States for permanent residence;

“(2) during any part of which the individual is fleeing to avoid prosecution, or custody or confinement after conviction, under

the laws of the United States or the jurisdiction within the United States from which the person has fled, for a crime, or an attempt to commit a crime, that is a felony under the laws of the place from which the individual has fled, or which, in the case of the State of New Jersey, is a high misdemeanor under the laws of such State;

“(3) during any part of which the individual violates a condition of probation or parole imposed under Federal or State law; or

“(4) during which the individual resides in a foreign country and is not a citizen or national of the United States if payments for such month to individuals residing in such country are withheld by the Treasury Department under section 3329 of title 31, United States Code.

“(b) REQUIREMENT FOR ATTORNEY GENERAL.—For the purpose of carrying out subsection (a)(1), the Attorney General shall notify the Commissioner of Social Security as soon as practicable after the removal of any individual under section 237(a) or 212(a)(6)(A) of the Immigration and Nationality Act.

“SEC. 805. BENEFIT AMOUNT.

“The benefit under this title payable to a qualified individual for any month shall be in an amount equal to 75 percent of the Federal benefit rate under title XVI for the month, reduced by the amount of the qualified individual's benefit income for the month.

“SEC. 806. APPLICATIONS AND FURNISHING OF INFORMATION.

“(a) IN GENERAL.—The Commissioner of Social Security shall, subject to subsection (b), prescribe such requirements with respect to the filing of applications, the furnishing of information and other material, and the reporting of events and changes in circumstances, as may be necessary for the effective and efficient administration of this title.

“(b) VERIFICATION REQUIREMENT.—The requirements prescribed by the Commissioner of Social Security under subsection (a) shall preclude any determination of entitlement to benefits under this title solely on the basis of declarations by the individual concerning qualifications or other material facts, and shall provide for verification of material information from independent or collateral sources, and the procurement of additional information as necessary in order to ensure that the benefits are provided only to qualified individuals (or their representative payees) in correct amounts.

“SEC. 807. REPRESENTATIVE PAYEE.

“(a) IN GENERAL.—If the Commissioner of Social Security determines that the interest of any qualified individual under this title would be served thereby, payment of the qualified individual's benefit under this title may be made, regardless of the legal competency or incompetency of the qualified individual, either directly to the qualified individual, or for his or her benefit, to another person (the meaning of which term, for purposes of this section, includes an organization) with respect to whom the requirements of subsection (b) have been met (in this section referred to as the qualified individual's ‘representative payee’). If the Commissioner of Social Security determines that a representative payee has misused any benefit paid to the representative payee pursuant to this section, section 205(j), or section 1631(a)(2), the Commissioner of Social Security shall promptly revoke the person's designation as the qualified individual's representative payee under this subsection, and shall make payment to an alternative rep-

resentative payee or, if the interest of the qualified individual under this title would be served thereby, to the qualified individual.

“(b) EXAMINATION OF FITNESS OF PROSPECTIVE REPRESENTATIVE PAYEE.—

“(1) Any determination under subsection (a) to pay the benefits of a qualified individual to a representative payee shall be made on the basis of—

“(A) an investigation by the Commissioner of Social Security of the person to serve as representative payee, which shall be conducted in advance of the determination and shall, to the extent practicable, include a face-to-face interview with the person (or, in the case of an organization, a representative of the organization); and

“(B) adequate evidence that the arrangement is in the interest of the qualified individual.

“(2) As part of the investigation referred to in paragraph (1), the Commissioner of Social Security shall—

“(A) require the person being investigated to submit documented proof of the identity of the person;

“(B) in the case of a person who has a social security account number issued for purposes of the program under title II or an employer identification number issued for purposes of the Internal Revenue Code of 1986, verify the number;

“(C) determine whether the person has been convicted of a violation of section 208, 811, or 1632; and

“(D) determine whether payment of benefits to the person in the capacity as representative payee has been revoked or terminated pursuant to this section, section 205(j), or section 1631(a)(2)(A)(iii) by reason of misuse of funds paid as benefits under this title, title II, or XVI, respectively.

“(c) REQUIREMENT FOR MAINTAINING LISTS OF UNDESIRABLE PAYEES.—The Commissioner of Social Security shall establish and maintain lists which shall be updated periodically and which shall be in a form that renders such lists available to the servicing offices of the Social Security Administration. The lists shall consist of—

“(1) the names and (if issued) social security account numbers or employer identification numbers of all persons with respect to whom, in the capacity of representative payee, the payment of benefits has been revoked or terminated under this section, section 205(j), or section 1631(a)(2)(A)(iii) by reason of misuse of funds paid as benefits under this title, title II, or XVI, respectively; and

“(2) the names and (if issued) social security account numbers or employer identification numbers of all persons who have been convicted of a violation of section 208, 811, or 1632.

“(d) PERSONS INELIGIBLE TO SERVE AS REPRESENTATIVE PAYEES.—

“(1) IN GENERAL.—The benefits of a qualified individual may not be paid to any other person pursuant to this section if—

“(A) the person has been convicted of a violation of section 208, 811, or 1632;

“(B) except as provided in paragraph (2), payment of benefits to the person in the capacity of representative payee has been revoked or terminated under this section, section 205(j), or section 1631(a)(2)(A)(ii) by reason of misuse of funds paid as benefits under this title, title II, or title XVI, respectively; or

“(C) except as provided in paragraph (2)(B), the person is a creditor of the qualified individual and provides the qualified individual with goods or services for consideration.

“(2) EXEMPTIONS.—

“(A) The Commissioner of Social Security may prescribe circumstances under which the Commissioner of Social Security may grant an exemption from paragraph (1) to any person on a case-by-case basis if the exemption is in the best interest of the qualified individual whose benefits would be paid to the person pursuant to this section.

“(B) Paragraph (1)(C) shall not apply with respect to any person who is a creditor referred to in such paragraph if the creditor is—

“(i) a relative of the qualified individual and the relative resides in the same household as the qualified individual;

“(ii) a legal guardian or legal representative of the individual;

“(iii) a facility that is licensed or certified as a care facility under the law of the political jurisdiction in which the qualified individual resides;

“(iv) a person who is an administrator, owner, or employee of a facility referred to in clause (iii), if the qualified individual resides in the facility, and the payment to the facility or the person is made only after the Commissioner of Social Security has made a good faith effort to locate an alternative representative payee to whom payment would serve the best interests of the qualified individual; or

“(v) a person who is determined by the Commissioner of Social Security, on the basis of written findings and pursuant to procedures prescribed by the Commissioner of Social Security, to be acceptable to serve as a representative payee.

“(C) The procedures referred to in subparagraph (B)(v) shall require the person who will serve as representative payee to establish, to the satisfaction of the Commissioner of Social Security, that—

“(i) the person poses no risk to the qualified individual;

“(ii) the financial relationship of the person to the qualified individual poses no substantial conflict of interest; and

“(iii) no other more suitable representative payee can be found.

“(e) DEFERRAL OF PAYMENT PENDING APPOINTMENT OF REPRESENTATIVE PAYEE.—

“(1) IN GENERAL.—Subject to paragraph (2), if the Commissioner of Social Security makes a determination described in the first sentence of subsection (a) with respect to any qualified individual's benefit and determines that direct payment of the benefit to the qualified individual would cause substantial harm to the qualified individual, the Commissioner of Social Security may defer (in the case of initial entitlement) or suspend (in the case of existing entitlement) direct payment of the benefit to the qualified individual, until such time as the selection of a representative payee is made pursuant to this section.

“(2) TIME LIMITATION.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), any deferral or suspension of direct payment of a benefit pursuant to paragraph (1) shall be for a period of not more than 1 month.

“(B) EXCEPTION IN THE CASE OF INCOMPETENCY.—Subparagraph (A) shall not apply in any case in which the qualified individual is, as of the date of the Commissioner of Social Security's determination, legally incompetent under the laws of the jurisdiction in which the individual resides.

“(3) PAYMENT OF RETROACTIVE BENEFITS.—Payment of any benefits which are deferred or suspended pending the selection of a representative payee shall be made to the qualified individual or the representative payee as

a single sum or over such period of time as the Commissioner of Social Security determines is in the best interest of the qualified individual.

“(f) HEARING.—Any qualified individual who is dissatisfied with a determination by the Commissioner of Social Security to make payment of the qualified individual's benefit to a representative payee under subsection (a) of this section or with the designation of a particular person to serve as representative payee shall be entitled to a hearing by the Commissioner of Social Security to the same extent as is provided in section 809(a), and to judicial review of the Commissioner of Social Security's final decision as is provided in section 809(b).

“(g) NOTICE REQUIREMENTS.—

“(1) IN GENERAL.—In advance, to the extent practicable, of the payment of a qualified individual's benefit to a representative payee under subsection (a), the Commissioner of Social Security shall provide written notice of the Commissioner's initial determination to so make the payment. The notice shall be provided to the qualified individual, except that, if the qualified individual is legally incompetent, then the notice shall be provided solely to the legal guardian or legal representative of the qualified individual.

“(2) SPECIFIC REQUIREMENTS.—Any notice required by paragraph (1) shall be clearly written in language that is easily understandable to the reader, shall identify the person to be designated as the qualified individual's representative payee, and shall explain to the reader the right under subsection (f) of the qualified individual or of the qualified individual's legal guardian or legal representative—

“(A) to appeal a determination that a representative payee is necessary for the qualified individual;

“(B) to appeal the designation of a particular person to serve as the representative payee of the qualified individual; and

“(C) to review the evidence upon which the designation is based and to submit additional evidence.

“(h) ACCOUNTABILITY MONITORING.—

“(1) IN GENERAL.—In any case where payment under this title is made to a person other than the qualified individual entitled to the payment, the Commissioner of Social Security shall establish a system of accountability monitoring under which the person shall report not less often than annually with respect to the use of the payments. The Commissioner of Social Security shall establish and implement statistically valid procedures for reviewing the reports in order to identify instances in which persons are not properly using the payments.

“(2) SPECIAL REPORTS.—Notwithstanding paragraph (1), the Commissioner of Social Security may require a report at any time from any person receiving payments on behalf of a qualified individual, if the Commissioner of Social Security has reason to believe that the person receiving the payments is misusing the payments.

“(3) MAINTAINING LISTS OF PAYEES.—The Commissioner of Social Security shall maintain lists which shall be updated periodically of—

“(A) the name, address, and (if issued) the social security account number or employer identification number of each representative payee who is receiving benefit payments pursuant to this section, section 205(j), or section 1631(a)(2); and

“(B) the name, address, and social security account number of each individual for whom each representative payee is reported to be

providing services as representative payee pursuant to this section, section 205(j), or section 1631(a)(2).

“(4) MAINTAINING LISTS OF AGENCIES.—The Commissioner of Social Security shall maintain lists, which shall be updated periodically, of public agencies and community-based nonprofit social service agencies which are qualified to serve as representative payees pursuant to this section and which are located in the jurisdiction in which any qualified individual resides.

“(i) RESTITUTION.—In any case where the negligent failure of the Commissioner of Social Security to investigate or monitor a representative payee results in misuse of benefits by the representative payee, the Commissioner of Social Security shall make payment to the qualified individual or the individual's alternative representative payee of an amount equal to the misused benefits. The Commissioner of Social Security shall make a good faith effort to obtain restitution from the terminated representative payee.

“SEC. 808. OVERPAYMENTS AND UNDERPAYMENTS.

“(a) IN GENERAL.—Whenever the Commissioner of Social Security finds that more or less than the correct amount of payment has been made to any person under this title, proper adjustment or recovery shall be made, as follows:

“(1) With respect to payment to a person of more than the correct amount, the Commissioner of Social Security shall decrease any payment—

“(A) under this title to which the overpaid person (if a qualified individual) is entitled, or shall require the overpaid person or his or her estate to refund the amount in excess of the correct amount, or, if recovery is not obtained under these 2 methods, shall seek or pursue recovery by means of reduction in tax refunds based on notice to the Secretary of the Treasury, as authorized under section 3720A of title 31, United States Code; or

“(B) under title II to recover the amount in excess of the correct amount, if the person is not currently eligible for payment under this title.

“(2) With respect to payment of less than the correct amount to a qualified individual who, at the time the Commissioner of Social Security is prepared to take action with respect to the underpayment—

“(A) is living, the Commissioner of Social Security shall make payment to the qualified individual (or the qualified individual's representative payee designated under section 807) of the balance of the amount due the underpaid qualified individual; or

“(B) is deceased, the balance of the amount due shall revert to the general fund of the Treasury.

“(b) NO EFFECT ON TITLE VIII ELIGIBILITY OR BENEFIT AMOUNT.—In any case in which the Commissioner of Social Security takes action in accordance with subsection (a)(1)(B) to recover an amount incorrectly paid to an individual, that individual shall not, as a result of such action—

“(1) become qualified for benefits under this title; or

“(2) if such individual is otherwise so qualified, become qualified for increased benefits under this title.

“(c) WAIVER OF RECOVERY OF OVERPAYMENT.—In any case in which more than the correct amount of payment has been made, there shall be no adjustment of payments to, or recovery by the United States from, any person who is without fault if the Commissioner of Social Security determines that the

adjustment or recovery would defeat the purpose of this title or would be against equity and good conscience.

“(d) LIMITED IMMUNITY FOR DISBURSING OFFICERS.—A disbursing officer may not be held liable for any amount paid by the officer if the adjustment or recovery of the amount is waived under subsection (b), or adjustment under subsection (a) is not completed before the death of the qualified individual against whose benefits deductions are authorized.

“(e) AUTHORIZED COLLECTION PRACTICES.—

“(1) IN GENERAL.—With respect to any delinquent amount, the Commissioner of Social Security may use the collection practices described in sections 3711(e), 3716, and 3718 of title 31, United States Code, as in effect on October 1, 1994.

“(2) DEFINITION.—For purposes of paragraph (1), the term ‘delinquent amount’ means an amount—

“(A) in excess of the correct amount of the payment under this title; and

“(B) determined by the Commissioner of Social Security to be otherwise unrecoverable under this section from a person who is not a qualified individual under this title.

“SEC. 809. HEARINGS AND REVIEW.

“(a) HEARINGS.—

“(1) IN GENERAL.—The Commissioner of Social Security shall make findings of fact and decisions as to the rights of any individual applying for payment under this title. The Commissioner of Social Security shall provide reasonable notice and opportunity for a hearing to any individual who is or claims to be a qualified individual and is in disagreement with any determination under this title with respect to entitlement to, or the amount of, benefits under this title, if the individual requests a hearing on the matter in disagreement within 60 days after notice of the determination is received, and, if a hearing is held, shall, on the basis of evidence adduced at the hearing affirm, modify, or reverse the Commissioner of Social Security's findings of fact and the decision. The Commissioner of Social Security may, on the Commissioner of Social Security's own motion, hold such hearings and conduct such investigations and other proceedings as the Commissioner of Social Security deems necessary or proper for the administration of this title. In the course of any hearing, investigation, or other proceeding, the Commissioner may administer oaths and affirmations, examine witnesses, and receive evidence. Evidence may be received at any hearing before the Commissioner of Social Security even though inadmissible under the rules of evidence applicable to court procedure. The Commissioner of Social Security shall specifically take into account any physical, mental, educational, or linguistic limitation of the individual (including any lack of facility with the English language) in determining, with respect to the entitlement of the individual for benefits under this title, whether the individual acted in good faith or was at fault, and in determining fraud, deception, or intent.

“(2) EFFECT OF FAILURE TO TIMELY REQUEST REVIEW.—A failure to timely request review of an initial adverse determination with respect to an application for any payment under this title or an adverse determination on reconsideration of such an initial determination shall not serve as a basis for denial of a subsequent application for any payment under this title if the applicant demonstrates that the applicant failed to so request such a review acting in good faith reliance upon incorrect, incomplete, or misleading information, relating to the consequences of reapplying for payments in lieu

of seeking review of an adverse determination, provided by any officer or employee of the Social Security Administration.

“(3) NOTICE REQUIREMENTS.—In any notice of an adverse determination with respect to which a review may be requested under paragraph (1), the Commissioner of Social Security shall describe in clear and specific language the effect on possible entitlement to benefits under this title of choosing to re-apply in lieu of requesting review of the determination.

“(b) JUDICIAL REVIEW.—The final determination of the Commissioner of Social Security after a hearing under subsection (a)(1) shall be subject to judicial review as provided in section 205(g) to the same extent as the Commissioner of Social Security’s final determinations under section 205.

“SEC. 810. OTHER ADMINISTRATIVE PROVISIONS.

“(a) REGULATIONS AND ADMINISTRATIVE ARRANGEMENTS.—The Commissioner of Social Security may prescribe such regulations, and make such administrative and other arrangements, as may be necessary or appropriate to carry out this title.

“(b) PAYMENT OF BENEFITS.—Benefits under this title shall be paid at such time or times and in such installments as the Commissioner of Social Security determines are in the interests of economy and efficiency.

“(c) ENTITLEMENT REDETERMINATIONS.—An individual’s entitlement to benefits under this title, and the amount of the benefits, may be redetermined at such time or times as the Commissioner of Social Security determines to be appropriate.

“(d) SUSPENSION AND TERMINATION OF BENEFITS.—Regulations prescribed by the Commissioner of Social Security under subsection (a) may provide for the suspension and termination of entitlement to benefits under this title as the Commissioner determines is appropriate.

“SEC. 811. PENALTIES FOR FRAUD.

“(a) IN GENERAL.—Whoever—

“(1) knowingly and willfully makes or causes to be made any false statement or representation of a material fact in an application for benefits under this title;

“(2) at any time knowingly and willfully makes or causes to be made any false statement or representation of a material fact for use in determining any right to the benefits;

“(3) having knowledge of the occurrence of any event affecting—

“(A) his or her initial or continued right to the benefits; or

“(B) the initial or continued right to the benefits of any other individual in whose behalf he or she has applied for or is receiving the benefit,

conceals or fails to disclose the event with an intent fraudulently to secure the benefit either in a greater amount or quantity than is due or when no such benefit is authorized; or

“(4) having made application to receive any such benefit for the use and benefit of another and having received it, knowingly and willfully converts the benefit or any part thereof to a use other than for the use and benefit of the other individual, shall be fined under title 18, United States Code, imprisoned not more than 5 years, or both.

“(b) RESTITUTION BY REPRESENTATIVE PAYEE.—If a person or organization violates subsection (a) in the person’s or organization’s role as, or in applying to become, a representative payee under section 807 on behalf of a qualified individual, and the violation includes a willful misuse of funds by the person or entity, the court may also require

that full or partial restitution of funds be made to the qualified individual.

“SEC. 812. DEFINITIONS.

“In this title:

“(1) WORLD WAR II VETERAN.—The term ‘World War II veteran’ means a person who—

“(A) served during World War II—

“(i) in the active military, naval, or air service of the United States during World War II; or

“(ii) in the organized military forces of the Government of the Commonwealth of the Philippines, while the forces were in the service of the Armed Forces of the United States pursuant to the military order of the President dated July 26, 1941, including among the military forces organized guerrilla forces under commanders appointed, designated, or subsequently recognized by the Commander in Chief, Southwest Pacific Area, or other competent authority in the Army of the United States, in any case in which the service was rendered before December 31, 1946; and

“(B) was discharged or released therefrom under conditions other than dishonorable—

“(i) after service of 90 days or more; or

“(ii) because of a disability or injury incurred or aggravated in the line of active duty.

“(2) WORLD WAR II.—The term ‘World War II’ means the period beginning on September 16, 1940, and ending on July 24, 1947.

“(3) SUPPLEMENTAL SECURITY INCOME BENEFIT UNDER TITLE XVI.—The term ‘supplemental security income benefit under title XVI’, except as otherwise provided, includes State supplementary payments which are paid by the Commissioner of Social Security pursuant to an agreement under section 1616(a) of this Act or section 212(b) of Public Law 93-66.

“(4) FEDERAL BENEFIT RATE UNDER TITLE XVI.—The term ‘Federal benefit rate under title XVI’ means, with respect to any month, the amount of the supplemental security income cash benefit (not including any State supplementary payment which is paid by the Commissioner of Social Security pursuant to an agreement under section 1616(a) of this Act or section 212(b) of Public Law 93-66) payable under title XVI for the month to an eligible individual with no income.

“(5) UNITED STATES.—The term ‘United States’ means, notwithstanding section 1101(a)(1), only the 50 States, the District of Columbia, and the Commonwealth of the Northern Mariana Islands.

“(6) BENEFIT INCOME.—The term ‘benefit income’ means any recurring payment received by a qualified individual as an annuity, pension, retirement, or disability benefit (including any veterans’ compensation or pension, workmen’s compensation payment, old-age, survivors, or disability insurance benefit, railroad retirement annuity or pension, and unemployment insurance benefit), but only if a similar payment was received by the individual from the same (or a related) source during the 12-month period preceding the month in which the individual files an application for benefits under this title.

“SEC. 813. APPROPRIATIONS.

“There are hereby appropriated for fiscal year 2000 and subsequent fiscal years, out of any funds in the Treasury not otherwise appropriated, such sums as may be necessary to carry out this title.”

(b) CONFORMING AMENDMENTS.—

(1) SOCIAL SECURITY TRUST FUNDS LAE ACCOUNT.—Section 201(g) of such Act (42 U.S.C. 401(g)) is amended—

(A) in the fourth sentence of paragraph (1)(A), by inserting after “this title,” the following: “title VIII.”;

(B) in paragraph (1)(B)(i)(I), by inserting after “this title,” the following: “title VIII.”; and

(C) in paragraph (1)(C)(i), by inserting after “this title,” the following: “title VIII.”.

(2) REPRESENTATIVE PAYEE PROVISIONS OF TITLE II.—Section 205(j) of such Act (42 U.S.C. 405(j)) is amended—

(A) in paragraph (1)(A), by inserting “807 or” before “1631(a)(2)”;

(B) in paragraph (2)(B)(i)(I), by inserting “, title VIII,” before “or title XVI”;

(C) in paragraph (2)(B)(i)(III), by inserting “, 811,” before “or 1632”;

(D) in paragraph (2)(B)(i)(IV)—

(i) by inserting “, the designation of such person as a representative payee has been revoked pursuant to section 807(a),” before “or payment of benefits”; and

(ii) by inserting “, title VIII,” before “or title XVI”;

(E) in paragraph (2)(B)(ii)(I)—

(i) by inserting “whose designation as a representative payee has been revoked pursuant to section 807(a),” before “or with respect to whom”; and

(ii) by inserting “, title VIII,” before “or title XVI”;

(F) in paragraph (2)(B)(ii)(II), by inserting “, 811,” before “or 1632”;

(G) in paragraph (2)(C)(i)(II), by inserting “, the designation of such person as a representative payee has been revoked pursuant to section 807(a),” before “or payment of benefits”;

(H) in each of clauses (i) and (ii) of paragraph (3)(E), by inserting “, section 807,” before “or section 1631(a)(2)”;

(I) in paragraph (3)(F), by inserting “807 or” before “1631(a)(2)”;

(J) in paragraph (4)(B)(i), by inserting “807 or” before “1631(a)(2)”.

(3) WITHHOLDING FOR CHILD SUPPORT AND ALIMONY OBLIGATIONS.—Section 459(h)(1)(A) of such Act (42 U.S.C. 659(h)(1)(A)) is amended—

(A) at the end of clause (iii), by striking “and”;

(B) at the end of clause (iv), by striking “but” and inserting “and”; and

(C) by adding at the end a new clause as follows:

“(v) special benefits for certain World War II veterans payable under title VIII; but”.

(4) SOCIAL SECURITY ADVISORY BOARD.—Section 703(b) of such Act (42 U.S.C. 903(b)) is amended by striking “title II” and inserting “title II, the program of special benefits for certain World War II veterans under title VIII.”.

(5) DELIVERY OF CHECKS.—Section 708 of such Act (42 U.S.C. 908) is amended—

(A) in subsection (a), by striking “title II” and inserting “title II, title VIII.”; and

(B) in subsection (b), by striking “title II” and inserting “title II, title VIII.”.

(6) CIVIL MONETARY PENALTIES.—Section 1129 of such Act (42 U.S.C. 1320a-8) is amended—

(A) in the title, by striking “II” and inserting “II, VIII”;

(B) in subsection (a)(1)—

(i) by striking “or” at the end of subparagraph (A);

(ii) by redesignating subparagraph (B) as subparagraph (C); and

(iii) by inserting after subparagraph (A) the following new subparagraph:

“(B) benefits or payments under title VIII, or”;

(C) in subsection (a)(2), by inserting “or title VIII,” after “title II”;

(D) in subsection (e)(1)(C)—
 (i) by striking “or” at the end of clause (i);
 (ii) by redesignating clause (ii) as clause (iii); and

(iii) by inserting after clause (i) the following new clause:

“(ii) by decrease of any payment under title VIII to which the person is entitled, or”;

(E) in subsection (e)(2)(B), by striking “title XVI” and inserting “title VIII or XVI”; and

(F) in subsection (I), by striking “title XVI” and inserting “title VIII or XVI”.

(7) **RECOVERY OF SSI OVERPAYMENTS.**—Section 1147 of such Act (42 U.S.C. 1320b-17) is amended—

(A) in subsection (a)(1)—

(i) by inserting “or VIII” after “title II” the first place it appears; and

(ii) by striking “title II” the second place it appears and inserting “such title”; and

(B) in the heading, by striking “SOCIAL SECURITY” and inserting “OTHER”.

(8) **RECOVERY OF SOCIAL SECURITY OVERPAYMENTS.**—Part A of title XI of the Social Security Act is amended by inserting after section 1147 (42 U.S.C. 1320b-17) the following new section:

“RECOVERY OF SOCIAL SECURITY BENEFIT OVERPAYMENTS FROM TITLE VIII BENEFITS

“SEC. 1147A. Whenever the Commissioner of Social Security determines that more than the correct amount of any payment has been made under title II to an individual who is not currently receiving benefits under that title but who is receiving benefits under title VIII, the Commissioner may recover the amount incorrectly paid under title II by decreasing any amount which is payable to the individual under title VIII.”.

(9) **REPRESENTATIVE PAYEE PROVISIONS OF TITLE XVI.**—Section 1631(a)(2) of such Act (42 U.S.C. 1383(a)(2)) is amended—

(A) in subparagraph (A)(iii), by inserting “or 807” after “205(j)(1)”;

(B) in subparagraph (B)(ii)(I), by inserting “, title VIII,” before “or this title”;

(C) in subparagraph (B)(ii)(III), by inserting “, 811,” before “or 1632”;

(D) in subparagraph (B)(ii)(IV)—

(i) by inserting “whether the designation of such person as a representative payee has been revoked pursuant to section 807(a),” before “and whether certification”; and

(ii) by inserting “, title VIII,” before “or this title”;

(E) in subparagraph (B)(iii)(II), by inserting “the designation of such person as a representative payee has been revoked pursuant to section 807(a),” before “or certification”; and

(F) in subparagraph (D)(ii)(II)(aa), by inserting “or 807” after “205(j)(4)”.

(10) **ADMINISTRATIVE OFFSET.**—Section 3716(c)(3)(C) of title 31, United States Code, is amended—

(A) by striking “sections 205(b)(1)” and inserting “sections 205(b)(1), 809(a)(1),”; and

(B) by striking “either title II” and inserting “title II, VIII.”.

Subtitle C—Study

SEC. 261. STUDY OF DENIAL OF SSI BENEFITS FOR FAMILY FARMERS.

(a) **IN GENERAL.**—The Commissioner of Social Security shall conduct a study of the reasons why family farmers with resources of less than \$100,000 are denied supplemental security income benefits under title XVI of the Social Security Act, including whether the deeming process unduly burdens and discriminates against family farmers who do not institutionalize a disabled dependent,

and shall determine the number of such farmers who have been denied such benefits during each of the preceding 10 years.

(b) **REPORT TO THE CONGRESS.**—Within 1 year after the date of the enactment of this Act, the Commissioner of Social Security shall prepare and submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report that contains the results of the study, and the determination, required by subsection (a).

TITLE III—CHILD SUPPORT

SEC. 301. NARROWING OF HOLD-HARMLESS PROVISION FOR STATE SHARE OF DISTRIBUTION OF COLLECTED CHILD SUPPORT.

(a) **IN GENERAL.**—Section 457(d) of the Social Security Act (42 U.S.C. 657(d)) is amended to read as follows:

“(d) **HOLD HARMLESS PROVISION.**—If—

“(1) the State share of amounts collected in the fiscal year which could be retained to reimburse the State for amounts paid to families as assistance by the State is less than the State share of such amounts collected in fiscal year 1995 (determined in accordance with section 457 as in effect on August 21, 1996); and

“(2)(A) the State has distributed to families that include an adult receiving assistance under the program under part A at least 80 percent of the current support payments collected during the preceding fiscal year on behalf of such families, and the amounts distributed were disregarded in determining the amount or type of assistance provided under the program under part A; or

“(B) the State has distributed to families that formerly received assistance under the program under part A the State share of the amounts collected pursuant to section 464 that could have been retained as reimbursement for assistance paid to such families,

then the State share otherwise determined for the fiscal year shall be increased by an amount equal to ½ of the amount (if any) by which the State share for fiscal year 1995 exceeds the State share for the fiscal year (determined without regard to this subsection).”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall be effective with respect to calendar quarters occurring during the period that begins on October 1, 1998, and ends on September 30, 2001.

(c) **REPEAL.**—Effective October 1, 2001, section 457 of the Social Security Act (42 U.S.C. 657) is amended—

(1) in subsection (a), by striking “subsections (e) and (f)” and inserting “subsections (d) and (e)”;

(2) by striking subsection (d);

(3) in subsection (e), by striking the second sentence; and

(4) by redesignating subsections (e) and (f) as subsections (d) and (e), respectively.

TITLE IV—TECHNICAL CORRECTIONS

SEC. 401. TECHNICAL CORRECTIONS RELATING TO AMENDMENTS MADE BY THE PERSONAL RESPONSIBILITY AND WORK OPPORTUNITY RECONCILIATION ACT OF 1996.

(a) Section 402(a)(1)(B)(iv) of the Social Security Act (42 U.S.C. 602(a)(1)(B)(iv)) is amended by striking “Act” and inserting “section”.

(b) Section 409(a)(7)(B)(i)(II) of the Social Security Act (42 U.S.C. 609(a)(7)(B)(i)(II)) is amended by striking “part” and inserting “section”.

(c) Section 413(g)(1) of the Social Security Act (42 U.S.C. 613(g)(1)) is amended by striking “Act” and inserting “section”.

(d) Section 416 of the Social Security Act (42 U.S.C. 616) is amended by striking “Opportunity Act” and inserting “Opportunity Reconciliation Act” each place such term appears.

(e) Section 431(a)(6) of the Social Security Act (42 U.S.C. 629a(a)(6)) is amended—

(1) by inserting “, as in effect before August 22, 1986” after “482(i)(5)”;

(2) by inserting “, as so in effect” after “482(i)(7)(A)”.

(f) Sections 452(a)(7) and 466(c)(2)(A)(i) of the Social Security Act (42 U.S.C. 652(a)(7) and 666(c)(2)(A)(i)) are each amended by striking “Social Security” and inserting “social security”.

(g) Section 454 of the Social Security Act (42 U.S.C. 654) is amended—

(1) by striking “, or” at the end of each of paragraphs (6)(E)(i) and (19)(B)(i) and inserting “; or”;

(2) in paragraph (9), by striking the comma at the end of each of subparagraphs (A), (B), and (C) and inserting a semicolon; and

(3) by striking “, and” at the end of each of paragraphs (19)(A) and (24)(A) and inserting “; and”.

(h) Section 454(24)(B) of the Social Security Act (42 U.S.C. 654(24)(B)) is amended by striking “Opportunity Act” and inserting “Opportunity Reconciliation Act”.

(i) Section 344(b)(1)(A) of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193; 110 Stat. 2236) is amended to read as follows:

“(A) in paragraph (1), by striking subparagraph (B) and inserting the following:

“(B) equal to the percent specified in paragraph (3) of the sums expended during such quarter that are attributable to the planning, design, development, installation or enhancement of an automatic data processing and information retrieval system (including in such sums the full cost of the hardware components of such system); and”.

(j) Section 457(a)(2)(B)(i)(I) of the Social Security Act (42 U.S.C. 657(a)(2)(B)(i)(I)) is amended by striking “Act Reconciliation” and inserting “Reconciliation Act”.

(k) Section 457 of the Social Security Act (42 U.S.C. 657) is amended by striking “Opportunity Act” each place it appears and inserting “Opportunity Reconciliation Act”.

(l) Effective on the date of the enactment of this Act, section 404(e) of the Social Security Act (42 U.S.C. 604(e)) is amended by inserting “or tribe” after “State” the first and second places it appears, and by inserting “or tribal” after “State” the third place it appears.

(m) Section 466(a)(7)(A) of the Social Security Act (42 U.S.C. 666(a)(7)(A)) is amended by striking “1681a(f)” and inserting “1681a(f))”.

(n) Section 466(b)(6)(A) of the Social Security Act (42 U.S.C. 666(b)(6)(A)) is amended by striking “state” and inserting “State”.

(o) Section 471(a)(8) of the Social Security Act (42 U.S.C. 671(a)(8)) is amended by striking “(including activities under part F)”.

(p) Section 1137(a)(3) of the Social Security Act (42 U.S.C. 1320b-7(a)(3)) is amended by striking “453A(a)(2)(B)(iii)” and inserting “453A(a)(2)(B)(ii))”.

(q) Except as provided in subsection (l), the amendments made by this section shall take effect as if included in the enactment of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193; 110 Stat. 2105).

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

HEALTHCARE RESEARCH AND QUALITY ACT OF 1999

Mr. BLILEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 580) to amend title IX of the Public Health Service Act to revise and extend the Agency for Healthcare Policy and Research, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

Mr. BROWN of Ohio. Mr. Speaker, reserving the right to object, I yield to the gentleman from Virginia (Mr. BLILEY) for an explanation of his unanimous consent request.

Mr. BLILEY. Mr. Speaker, I thank the gentleman from Ohio for yielding to me.

Mr. Speaker, S. 580 reauthorizes and renames the Agency for Healthcare Policy and Research as the agency for Health Research and Quality, AHRQ. It also refocuses the Agency's mission, which is to conduct and support research on the quality, outcomes, cost, and utilization of healthcare services, and access to those services.

The agency will promote quality by sharing information, build public-private partnerships to advance and share quality measures, report annually to Congress on the state of quality in the Nation, support the evaluation of state-of-the-art information systems for healthcare quality, support primary care and access in underserved areas, facilitate innovation in patient care with streamlined assessment of new technologies, coordinate quality improvement efforts to avoid duplication, and facilitate utilization of preventative health services.

The bill also authorizes appropriations for pediatric graduate medical education in children's hospitals. These represent important reforms.

Mr. Speaker, I urge my colleagues to support this request.

Mr. BROWN of Ohio. Mr. Speaker, further reserving my right to object, with that explanation, I want to associate myself with the remarks of the gentleman from Virginia (Mr. BLILEY) to let my colleagues know that I support the adoption of S. 580.

I am particularly pleased because one of the key provisions in this bill is the Graduate Medical Education Funding for children's hospitals. They will receive actual dollars in fiscal year 2000 if this authorization is enacted. We have worked in a bipartisan manner in this bill, and I am glad to see its inclusion.

HCPR is needed to study key health care issues as we go into the next century. These issues include access, cost, quality, and equity in virtually all aspects of the health care system.

The true bipartisanship exhibited by the gentleman from Virginia (Mr. BLI-

LEY), the gentleman from Florida (Mr. BILIRAKIS), his staff, the Senate, particularly the efforts of Senators JEFFORDS, FRIST, KENNEDY, and their staff, especially the efforts of Ellie Dehoney in my office.

Mr. Speaker, I recommend that this bill be adopted by unanimous consent in the House of Representatives.

Mr. BILIRAKIS. Mr. Speaker, I am pleased to support consideration of S. 580, the Healthcare Research and Quality Act of 1999 by the House today. I introduced H.R. 2506 in the House on September 14, 1999. Following approval by my Subcommittee and the full Commerce Committee, the House voted overwhelmingly to pass H.R. 2506 on September 28, 1999.

Late last week, the Senate passed S. 580 by unanimous consent. The bill before us today represents a bipartisan agreement between the House and Senate authorizing committees on a compromise version of the bills previously approved by each body. This widely supported, bipartisan measure is critical to improving the quality of health care in this country. The "Healthcare Research and Quality Act of 1999" will significantly increase health care research and science-based evidence to improve the quality of patient care.

S. 580 reauthorizes the Agency for Health Care Policy and Research (AHCPR) for fiscal years 2000–2005, renames it as the "Agency for Healthcare Research and Quality," and refocuses the agency's mission to become a focal point, and partner to the private sector, in supporting of health care research and quality improvement activities.

Equally important, the bill authorizes critical funding for our nation's children's hospitals. I was pleased to support the adoption of these provisions when this bill was previously considered by the House. Passage of this legislation today is an important step in ensuring that America's children's hospitals receive the resources that they need.

Mr. BROWN of Ohio. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 580

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Healthcare Research and Quality Act of 1999".

SEC. 2. AMENDMENT TO THE PUBLIC HEALTH SERVICE ACT.

(a) IN GENERAL.—Title IX of the Public Health Service Act (42 U.S.C. 299 et seq.) is amended to read as follows:

"TITLE IX—AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

"PART A—ESTABLISHMENT AND GENERAL DUTIES

"SEC. 901. MISSION AND DUTIES.

"(a) IN GENERAL.—There is established within the Public Health Service an agency to be known as the Agency for Healthcare Research and Quality, which shall be headed by a director appointed by the Secretary.

The Secretary shall carry out this title acting through the Director.

"(b) MISSION.—The purpose of the Agency is to enhance the quality, appropriateness, and effectiveness of health services, and access to such services, through the establishment of a broad base of scientific research and through the promotion of improvements in clinical and health system practices, including the prevention of diseases and other health conditions. The Agency shall promote health care quality improvement by conducting and supporting—

"(1) research that develops and presents scientific evidence regarding all aspects of health care, including—

"(A) the development and assessment of methods for enhancing patient participation in their own care and for facilitating shared patient-physician decision-making;

"(B) the outcomes, effectiveness, and cost-effectiveness of health care practices, including preventive measures and long-term care;

"(C) existing and innovative technologies;

"(D) the costs and utilization of, and access to health care;

"(E) the ways in which health care services are organized, delivered, and financed and the interaction and impact of these factors on the quality of patient care;

"(F) methods for measuring quality and strategies for improving quality; and

"(G) ways in which patients, consumers, purchasers, and practitioners acquire new information about best practices and health benefits, the determinants and impact of their use of this information;

"(2) the synthesis and dissemination of available scientific evidence for use by patients, consumers, practitioners, providers, purchasers, policy makers, and educators; and

"(3) initiatives to advance private and public efforts to improve health care quality.

"(c) REQUIREMENTS WITH RESPECT TO RURAL AND INNER-CITY AREAS AND PRIORITY POPULATIONS.—

"(1) RESEARCH, EVALUATIONS AND DEMONSTRATION PROJECTS.—In carrying out this title, the Director shall conduct and support research and evaluations, and support demonstration projects, with respect to—

"(A) the delivery of health care in inner-city areas, and in rural areas (including frontier areas); and

"(B) health care for priority populations, which shall include—

"(i) low-income groups;

"(ii) minority groups;

"(iii) women;

"(iv) children;

"(v) the elderly; and

"(vi) individuals with special health care needs, including individuals with disabilities and individuals who need chronic care or end-of-life health care.

"(2) PROCESS TO ENSURE APPROPRIATE RESEARCH.—The Director shall establish a process to ensure that the requirements of paragraph (1) are reflected in the overall portfolio of research conducted and supported by the Agency.

"(3) OFFICE OF PRIORITY POPULATIONS.—The Director shall establish an Office of Priority Populations to assist in carrying out the requirements of paragraph (1).

"SEC. 902. GENERAL AUTHORITIES.

"(a) IN GENERAL.—In carrying out section 901(b), the Director shall conduct and support research, evaluations, and training, support demonstration projects, research networks, and multi-disciplinary centers, provide technical assistance, and disseminate information on health care and on systems

for the delivery of such care, including activities with respect to—

“(1) the quality, effectiveness, efficiency, appropriateness and value of health care services;

“(2) quality measurement and improvement;

“(3) the outcomes, cost, cost-effectiveness, and use of health care services and access to such services;

“(4) clinical practice, including primary care and practice-oriented research;

“(5) health care technologies, facilities, and equipment;

“(6) health care costs, productivity, organization, and market forces;

“(7) health promotion and disease prevention, including clinical preventive services;

“(8) health statistics, surveys, database development, and epidemiology; and

“(9) medical liability.

“(b) HEALTH SERVICES TRAINING GRANTS.—

“(1) IN GENERAL.—The Director may provide training grants in the field of health services research related to activities authorized under subsection (a), to include pre- and post-doctoral fellowships and training programs, young investigator awards, and other programs and activities as appropriate. In carrying out this subsection, the Director shall make use of funds made available under section 487(d)(3) as well as other appropriated funds.

“(2) REQUIREMENTS.—In developing priorities for the allocation of training funds under this subsection, the Director shall take into consideration shortages in the number of trained researchers who are addressing health care issues for the priority populations identified in section 901(c)(1)(B) and in addition, shall take into consideration indications of long-term commitment, amongst applicants for training funds, to addressing health care needs of the priority populations.

“(c) MULTIDISCIPLINARY CENTERS.—The Director may provide financial assistance to assist in meeting the costs of planning and establishing new centers, and operating existing and new centers, for multidisciplinary health services research, demonstration projects, evaluations, training, and policy analysis with respect to the matters referred to in subsection (a).

“(d) RELATION TO CERTAIN AUTHORITIES REGARDING SOCIAL SECURITY.—Activities authorized in this section shall be appropriately coordinated with experiments, demonstration projects, and other related activities authorized by the Social Security Act and the Social Security Amendments of 1967. Activities under subsection (a)(2) of this section that affect the programs under titles XVIII, XIX and XXI of the Social Security Act shall be carried out consistent with section 1142 of such Act.

“(e) DISCLAIMER.—The Agency shall not mandate national standards of clinical practice or quality health care standards. Recommendations resulting from projects funded and published by the Agency shall include a corresponding disclaimer.

“(f) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to imply that the Agency's role is to mandate a national standard or specific approach to quality measurement and reporting. In research and quality improvement activities, the Agency shall consider a wide range of choices, providers, health care delivery systems, and individual preferences.

“(g) ANNUAL REPORT.—Beginning with fiscal year 2003, the Director shall annually submit to the Congress a report regarding

prevailing disparities in health care delivery as it relates to racial factors and socioeconomic factors in priority populations.

“PART B—HEALTH CARE IMPROVEMENT RESEARCH

“SEC. 911. HEALTH CARE OUTCOME IMPROVEMENT RESEARCH.

“(a) EVIDENCE RATING SYSTEMS.—In collaboration with experts from the public and private sector, the Agency shall identify and disseminate methods or systems to assess health care research results, particularly methods or systems to rate the strength of the scientific evidence underlying health care practice, recommendations in the research literature, and technology assessments. The Agency shall make methods or systems for evidence rating widely available. Agency publications containing health care recommendations shall indicate the level of substantiating evidence using such methods or systems.

“(b) HEALTH CARE IMPROVEMENT RESEARCH CENTERS AND PROVIDER-BASED RESEARCH NETWORKS.—

“(1) IN GENERAL.—In order to address the full continuum of care and outcomes research, to link research to practice improvement, and to speed the dissemination of research findings to community practice settings, the Agency shall employ research strategies and mechanisms that will link research directly with clinical practice in geographically diverse locations throughout the United States, including—

“(A) health care improvement research centers that combine demonstrated multidisciplinary expertise in outcomes or quality improvement research with linkages to relevant sites of care;

“(B) provider-based research networks, including plan, facility, or delivery system sites of care (especially primary care), that can evaluate outcomes and evaluate and promote quality improvement; and

“(C) other innovative mechanisms or strategies to link research with clinical practice.

“(2) REQUIREMENTS.—The Director is authorized to establish the requirements for entities applying for grants under this subsection.

“SEC. 912. PRIVATE-PUBLIC PARTNERSHIPS TO IMPROVE ORGANIZATION AND DELIVERY.

“(a) SUPPORT FOR EFFORTS TO DEVELOP INFORMATION ON QUALITY.—

“(1) SCIENTIFIC AND TECHNICAL SUPPORT.—In its role as the principal agency for health care research and quality, the Agency may provide scientific and technical support for private and public efforts to improve health care quality, including the activities of accrediting organizations.

“(2) ROLE OF THE AGENCY.—With respect to paragraph (1), the role of the Agency shall include—

“(A) the identification and assessment of methods for the evaluation of the health of—

“(i) enrollees in health plans by type of plan, provider, and provider arrangements; and

“(ii) other populations, including those receiving long-term care services;

“(B) the ongoing development, testing, and dissemination of quality measures, including measures of health and functional outcomes;

“(C) the compilation and dissemination of health care quality measures developed in the private and public sector;

“(D) assistance in the development of improved health care information systems;

“(E) the development of survey tools for the purpose of measuring participant and beneficiary assessments of their health care; and

“(F) identifying and disseminating information on mechanisms for the integration of information on quality into purchaser and consumer decision-making processes.

“(b) CENTERS FOR EDUCATION AND RESEARCH ON THERAPEUTICS.—

“(1) IN GENERAL.—The Secretary, acting through the Director and in consultation with the Commissioner of Food and Drugs, shall establish a program for the purpose of making one or more grants for the establishment and operation of one or more centers to carry out the activities specified in paragraph (2).

“(2) REQUIRED ACTIVITIES.—The activities referred to in this paragraph are the following:

“(A) The conduct of state-of-the-art research for the following purposes:

“(i) To increase awareness of—

“(I) new uses of drugs, biological products, and devices;

“(II) ways to improve the effective use of drugs, biological products, and devices; and

“(III) risks of new uses and risks of combinations of drugs and biological products.

“(ii) To provide objective clinical information to the following individuals and entities:

“(I) Health care practitioners and other providers of health care goods or services.

“(II) Pharmacists, pharmacy benefit managers and purchasers.

“(III) Health maintenance organizations and other managed health care organizations.

“(IV) Health care insurers and governmental agencies.

“(V) Patients and consumers.

“(iii) To improve the quality of health care while reducing the cost of health care through—

“(I) an increase in the appropriate use of drugs, biological products, or devices; and

“(II) the prevention of adverse effects of drugs, biological products, and devices and the consequences of such effects, such as unnecessary hospitalizations.

“(B) The conduct of research on the comparative effectiveness, cost-effectiveness, and safety of drugs, biological products, and devices.

“(C) Such other activities as the Secretary determines to be appropriate, except that a grant may not be expended to assist the Secretary in the review of new drugs, biological products, and devices.

“(c) REDUCING ERRORS IN MEDICINE.—The Director shall conduct and support research and build private-public partnerships to—

“(1) identify the causes of preventable health care errors and patient injury in health care delivery;

“(2) develop, demonstrate, and evaluate strategies for reducing errors and improving patient safety; and

“(3) disseminate such effective strategies throughout the health care industry.

“SEC. 913. INFORMATION ON QUALITY AND COST OF CARE.

“(a) IN GENERAL.—The Director shall—

“(1) conduct a survey to collect data on a nationally representative sample of the population on the cost, use and, for fiscal year 2001 and subsequent fiscal years, quality of health care, including the types of health care services Americans use, their access to health care services, frequency of use, how much is paid for the services used, the source of those payments, the types and costs of private health insurance, access, satisfaction, and quality of care for the general population including rural residents and also for populations identified in section 901(c); and

“(2) develop databases and tools that provide information to States on the quality, access, and use of health care services provided to their residents.

“(b) **QUALITY AND OUTCOMES INFORMATION.**—

“(1) **IN GENERAL.**—Beginning in fiscal year 2001, the Director shall ensure that the survey conducted under subsection (a)(1) will—

“(A) identify determinants of health outcomes and functional status, including the health care needs of populations identified in section 901(c), provide data to study the relationships between health care quality, outcomes, access, use, and cost, measure changes over time, and monitor the overall national impact of Federal and State policy changes on health care;

“(B) provide information on the quality of care and patient outcomes for frequently occurring clinical conditions for a nationally representative sample of the population including rural residents; and

“(C) provide reliable national estimates for children and persons with special health care needs through the use of supplements or periodic expansions of the survey.

In expanding the Medical Expenditure Panel Survey, as in existence on the date of the enactment of this title in fiscal year 2001 to collect information on the quality of care, the Director shall take into account any outcomes measurements generally collected by private sector accreditation organizations.

“(2) **ANNUAL REPORT.**—Beginning in fiscal year 2003, the Secretary, acting through the Director, shall submit to Congress an annual report on national trends in the quality of health care provided to the American people.

“**SEC. 914. INFORMATION SYSTEMS FOR HEALTH CARE IMPROVEMENT.**

“(a) **IN GENERAL.**—In order to foster a range of innovative approaches to the management and communication of health information, the Agency shall conduct and support research, evaluations, and initiatives to advance—

“(1) the use of information systems for the study of health care quality and outcomes, including the generation of both individual provider and plan-level comparative performance data;

“(2) training for health care practitioners and researchers in the use of information systems;

“(3) the creation of effective linkages between various sources of health information, including the development of information networks;

“(4) the delivery and coordination of evidence-based health care services, including the use of real-time health care decision-support programs;

“(5) the utility and comparability of health information data and medical vocabularies by addressing issues related to the content, structure, definitions and coding of such information and data in consultation with appropriate Federal, State and private entities;

“(6) the use of computer-based health records in all settings for the development of personal health records for individual health assessment and maintenance, and for monitoring public health and outcomes of care within populations; and

“(7) the protection of individually identifiable information in health services research and health care quality improvement.

“(b) **DEMONSTRATION.**—The Agency shall support demonstrations into the use of new information tools aimed at improving shared decision-making between patients and their care-givers.

“(c) **FACILITATING PUBLIC ACCESS TO INFORMATION.**—The Director shall work with ap-

propriate public and private sector entities to facilitate public access to information regarding the quality of and consumer satisfaction with health care.

“**SEC. 915. RESEARCH SUPPORTING PRIMARY CARE AND ACCESS IN UNDERSERVED AREAS.**

“(a) **PREVENTIVE SERVICES TASK FORCE.**—

“(1) **ESTABLISHMENT AND PURPOSE.**—The Director may periodically convene a Preventive Services Task Force to be composed of individuals with appropriate expertise. Such a task force shall review the scientific evidence related to the effectiveness, appropriateness, and cost-effectiveness of clinical preventive services for the purpose of developing recommendations for the health care community, and updating previous clinical preventive recommendations.

“(2) **ROLE OF AGENCY.**—The Agency shall provide ongoing administrative, research, and technical support for the operations of the Preventive Services Task Force, including coordinating and supporting the dissemination of the recommendations of the Task Force.

“(3) **OPERATION.**—In carrying out its responsibilities under paragraph (1), the Task Force is not subject to the provisions of Appendix 2 of title 5, United States Code.

“(b) **PRIMARY CARE RESEARCH.**—

“(1) **IN GENERAL.**—There is established within the Agency a Center for Primary Care Research (referred to in this subsection as the “Center”) that shall serve as the principal source of funding for primary care practice research in the Department of Health and Human Services. For purposes of this paragraph, primary care research focuses on the first contact when illness or health concerns arise, the diagnosis, treatment or referral to specialty care, preventive care, and the relationship between the clinician and the patient in the context of the family and community.

“(2) **RESEARCH.**—In carrying out this section, the Center shall conduct and support research concerning—

“(A) the nature and characteristics of primary care practice;

“(B) the management of commonly occurring clinical problems;

“(C) the management of undifferentiated clinical problems; and

“(D) the continuity and coordination of health services.

“**SEC. 916. HEALTH CARE PRACTICE AND TECHNOLOGY INNOVATION.**

“(a) **IN GENERAL.**—The Director shall promote innovation in evidence-based health care practices and technologies by—

“(1) conducting and supporting research on the development, diffusion, and use of health care technology;

“(2) developing, evaluating, and disseminating methodologies for assessments of health care practices and technologies;

“(3) conducting intramural and supporting extramural assessments of existing and new health care practices and technologies;

“(4) promoting education and training and providing technical assistance in the use of health care practice and technology assessment methodologies and results; and

“(5) working with the National Library of Medicine and the public and private sector to develop an electronic clearinghouse of currently available assessments and those in progress.

“(b) **SPECIFICATION OF PROCESS.**—

“(1) **IN GENERAL.**—Not later than December 31, 2000, the Director shall develop and publish a description of the methods used by the Agency and its contractors for health care practice and technology assessment.

“(2) **CONSULTATIONS.**—In carrying out this subsection, the Director shall cooperate and consult with the Assistant Secretary for Health, the Administrator of the Health Care Financing Administration, the Director of the National Institutes of Health, the Commissioner of Food and Drugs, and the heads of any other interested Federal department or agency, and shall seek input, where appropriate, from professional societies and other private and public entities.

“(3) **METHODOLOGY.**—The Director shall, in developing the methods used under paragraph (1), consider—

“(A) safety, efficacy, and effectiveness;

“(B) legal, social, and ethical implications;

“(C) costs, benefits, and cost-effectiveness;

“(D) comparisons to alternate health care practices and technologies; and

“(E) requirements of Food and Drug Administration approval to avoid duplication.

“(c) **SPECIFIC ASSESSMENTS.**—

“(1) **IN GENERAL.**—The Director shall conduct or support specific assessments of health care technologies and practices.

“(2) **REQUESTS FOR ASSESSMENTS.**—The Director is authorized to conduct or support assessments, on a reimbursable basis, for the Health Care Financing Administration, the Department of Defense, the Department of Veterans Affairs, the Office of Personnel Management, and other public or private entities.

“(3) **GRANTS AND CONTRACTS.**—In addition to conducting assessments, the Director may make grants to, or enter into cooperative agreements or contracts with, entities described in paragraph (4) for the purpose of conducting assessments of experimental, emerging, existing, or potentially outmoded health care technologies, and for related activities.

“(4) **ELIGIBLE ENTITIES.**—An entity described in this paragraph is an entity that is determined to be appropriate by the Director, including academic medical centers, research institutions and organizations, professional organizations, third party payers, governmental agencies, minority institutions of higher education (such as Historically Black Colleges and Universities, and Hispanic institutions), and consortia of appropriate research entities established for the purpose of conducting technology assessments.

“(d) **MEDICAL EXAMINATION OF CERTAIN VICTIMS.**—

“(1) **IN GENERAL.**—The Director shall develop and disseminate a report on evidence-based clinical practices for—

“(A) the examination and treatment by health professionals of individuals who are victims of sexual assault (including child molestation) or attempted sexual assault; and

“(B) the training of health professionals, in consultation with the Health Resources and Services Administration, on performing medical evidentiary examinations of individuals who are victims of child abuse or neglect, sexual assault, elder abuse, or domestic violence.

“(2) **CERTAIN CONSIDERATIONS.**—In identifying the issues to be addressed by the report, the Director shall, to the extent practicable, take into consideration the expertise and experience of Federal and State law enforcement officials regarding the victims referred to in paragraph (1), and of other appropriate public and private entities (including medical societies, victim services organizations, sexual assault prevention organizations, and social services organizations).

"SEC. 917. COORDINATION OF FEDERAL GOVERNMENT QUALITY IMPROVEMENT EFFORTS.

"(a) REQUIREMENT.—

"(1) IN GENERAL.—To avoid duplication and ensure that Federal resources are used efficiently and effectively, the Secretary, acting through the Director, shall coordinate all research, evaluations, and demonstrations related to health services research, quality measurement and quality improvement activities undertaken and supported by the Federal Government.

"(2) SPECIFIC ACTIVITIES.—The Director, in collaboration with the appropriate Federal officials representing all concerned executive agencies and departments, shall develop and manage a process to—

"(A) improve interagency coordination, priority setting, and the use and sharing of research findings and data pertaining to Federal quality improvement programs, technology assessment, and health services research;

"(B) strengthen the research information infrastructure, including databases, pertaining to Federal health services research and health care quality improvement initiatives;

"(C) set specific goals for participating agencies and departments to further health services research and health care quality improvement; and

"(D) strengthen the management of Federal health care quality improvement programs.

"(b) STUDY BY THE INSTITUTE OF MEDICINE.—

"(1) IN GENERAL.—To provide Congress, the Department of Health and Human Services, and other relevant departments with an independent, external review of their quality oversight, quality improvement and quality research programs, the Secretary shall enter into a contract with the Institute of Medicine—

"(A) to describe and evaluate current quality improvement, quality research and quality monitoring processes through—

"(i) an overview of pertinent health services research activities and quality improvement efforts conducted by all Federal programs, with particular attention paid to those under titles XVIII, XIX, and XXI of the Social Security Act; and

"(ii) a summary of the partnerships that the Department of Health and Human Services has pursued with private accreditation, quality measurement and improvement organizations; and

"(B) to identify options and make recommendations to improve the efficiency and effectiveness of quality improvement programs through—

"(i) the improved coordination of activities across the medicare, medicaid and child health insurance programs under titles XVIII, XIX and XXI of the Social Security Act and health services research programs;

"(ii) the strengthening of patient choice and participation by incorporating state-of-the-art quality monitoring tools and making information on quality available; and

"(iii) the enhancement of the most effective programs, consolidation as appropriate, and elimination of duplicative activities within various federal agencies.

"(2) REQUIREMENTS.—

"(A) IN GENERAL.—The Secretary shall enter into a contract with the Institute of Medicine for the preparation—

"(i) not later than 12 months after the date of the enactment of this title, of a report providing an overview of the quality improvement programs of the Department of

Health and Human Services for the medicare, medicaid, and CHIP programs under titles XVIII, XIX, and XXI of the Social Security Act; and

"(ii) not later than 24 months after the date of the enactment of this title, of a final report containing recommendations.

"(B) REPORTS.—The Secretary shall submit the reports described in subparagraph (A) to the Committee on Finance and the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee on Ways and Means and the Committee on Commerce of the House of Representatives.

"PART C—GENERAL PROVISIONS

"SEC. 921. ADVISORY COUNCIL FOR HEALTHCARE RESEARCH AND QUALITY.

"(a) ESTABLISHMENT.—There is established an advisory council to be known as the National Advisory Council for Healthcare Research and Quality.

"(b) DUTIES.—

"(1) IN GENERAL.—The Advisory Council shall advise the Secretary and the Director with respect to activities proposed or undertaken to carry out the mission of the Agency under section 901(b).

"(2) CERTAIN RECOMMENDATIONS.—Activities of the Advisory Council under paragraph (1) shall include making recommendations to the Director regarding—

"(A) priorities regarding health care research, especially studies related to quality, outcomes, cost and the utilization of, and access to, health care services;

"(B) the field of health care research and related disciplines, especially issues related to training needs, and dissemination of information pertaining to health care quality; and

"(C) the appropriate role of the Agency in each of these areas in light of private sector activity and identification of opportunities for public-private sector partnerships.

"(c) MEMBERSHIP.—

"(1) IN GENERAL.—The Advisory Council shall, in accordance with this subsection, be composed of appointed members and ex officio members. All members of the Advisory Council shall be voting members other than the individuals designated under paragraph (3)(B) as ex officio members.

"(2) APPOINTED MEMBERS.—The Secretary shall appoint to the Advisory Council 21 appropriately qualified individuals. At least 17 members of the Advisory Council shall be representatives of the public who are not officers or employees of the United States and at least 1 member who shall be a specialist in the rural aspects of 1 or more of the professions or fields described in subparagraphs (A) through (G). The Secretary shall ensure that the appointed members of the Council, as a group, are representative of professions and entities concerned with, or affected by, activities under this title and under section 1142 of the Social Security Act. Of such members—

"(A) three shall be individuals distinguished in the conduct of research, demonstration projects, and evaluations with respect to health care;

"(B) three shall be individuals distinguished in the fields of health care quality research or health care improvement;

"(C) three shall be individuals distinguished in the practice of medicine of which at least one shall be a primary care practitioner;

"(D) three shall be individuals distinguished in the other health professions;

"(E) three shall be individuals either representing the private health care sector, including health plans, providers, and pur-

chasers or individuals distinguished as administrators of health care delivery systems;

"(F) three shall be individuals distinguished in the fields of health care economics, information systems, law, ethics, business, or public policy; and

"(G) three shall be individuals representing the interests of patients and consumers of health care.

"(3) EX OFFICIO MEMBERS.—The Secretary shall designate as ex officio members of the Advisory Council—

"(A) the Assistant Secretary for Health, the Director of the National Institutes of Health, the Director of the Centers for Disease Control and Prevention, the Administrator of the Health Care Financing Administration, the Commissioner of the Food and Drug Administration, the Director of the Office of Personnel Management, the Assistant Secretary of Defense (Health Affairs), and the Under Secretary for Health of the Department of Veterans Affairs; and

"(B) such other Federal officials as the Secretary may consider appropriate.

"(d) TERMS.—

"(1) IN GENERAL.—Members of the Advisory Council appointed under subsection (c)(2) shall serve for a term of 3 years.

"(2) STAGGERED TERMS.—To ensure the staggered rotation of one-third of the members of the Advisory Council each year, the Secretary is authorized to appoint the initial members of the Advisory Council for terms of 1, 2, or 3 years.

"(3) SERVICE BEYOND TERM.—A member of the Council appointed under subsection (c)(2) may continue to serve after the expiration of the term of the members until a successor is appointed.

"(e) VACANCIES.—If a member of the Advisory Council appointed under subsection (c)(2) does not serve the full term applicable under subsection (d), the individual appointed to fill the resulting vacancy shall be appointed for the remainder of the term of the predecessor of the individual.

"(f) CHAIR.—The Director shall, from among the members of the Advisory Council appointed under subsection (c)(2), designate an individual to serve as the chair of the Advisory Council.

"(g) MEETINGS.—The Advisory Council shall meet not less than once during each discrete 4-month period and shall otherwise meet at the call of the Director or the chair.

"(h) COMPENSATION AND REIMBURSEMENT OF EXPENSES.—

"(1) APPOINTED MEMBERS.—Members of the Advisory Council appointed under subsection (c)(2) shall receive compensation for each day (including travel time) engaged in carrying out the duties of the Advisory Council unless declined by the member. Such compensation may not be in an amount in excess of the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day during which such member is engaged in the performance of the duties of the Advisory Council.

"(2) EX OFFICIO MEMBERS.—Officials designated under subsection (c)(3) as ex officio members of the Advisory Council may not receive compensation for service on the Advisory Council in addition to the compensation otherwise received for duties carried out as officers of the United States.

"(i) STAFF.—The Director shall provide to the Advisory Council such staff, information, and other assistance as may be necessary to carry out the duties of the Council.

"(j) DURATION.—Notwithstanding section 14(a) of the Federal Advisory Committee Act,

the Advisory Council shall continue in existence until otherwise provided by law.

"SEC. 922. PEER REVIEW WITH RESPECT TO GRANTS AND CONTRACTS.

"(a) REQUIREMENT OF REVIEW.—

"(1) IN GENERAL.—Appropriate technical and scientific peer review shall be conducted with respect to each application for a grant, cooperative agreement, or contract under this title.

"(2) REPORTS TO DIRECTOR.—Each peer review group to which an application is submitted pursuant to paragraph (1) shall report its finding and recommendations respecting the application to the Director in such form and in such manner as the Director shall require.

"(b) APPROVAL AS PRECONDITION OF AWARDS.—The Director may not approve an application described in subsection (a)(1) unless the application is recommended for approval by a peer review group established under subsection (c).

"(c) ESTABLISHMENT OF PEER REVIEW GROUPS.—

"(1) IN GENERAL.—The Director shall establish such technical and scientific peer review groups as may be necessary to carry out this section. Such groups shall be established without regard to the provisions of title 5, United States Code, that govern appointments in the competitive service, and without regard to the provisions of chapter 51, and subchapter III of chapter 53, of such title that relate to classification and pay rates under the General Schedule.

"(2) MEMBERSHIP.—The members of any peer review group established under this section shall be appointed from among individuals who by virtue of their training or experience are eminently qualified to carry out the duties of such peer review group. Officers and employees of the United States may not constitute more than 25 percent of the membership of any such group. Such officers and employees may not receive compensation for service on such groups in addition to the compensation otherwise received for these duties carried out as such officers and employees.

"(3) DURATION.—Notwithstanding section 14(a) of the Federal Advisory Committee Act, peer review groups established under this section may continue in existence until otherwise provided by law.

"(4) QUALIFICATIONS.—Members of any peer-review group shall, at a minimum, meet the following requirements:

"(A) Such members shall agree in writing to treat information received, pursuant to their work for the group, as confidential information, except that this subparagraph shall not apply to public records and public information.

"(B) Such members shall agree in writing to recuse themselves from participation in the peer-review of specific applications which present a potential personal conflict of interest or appearance of such conflict, including employment in a directly affected organization, stock ownership, or any financial or other arrangement that might introduce bias in the process of peer-review.

"(d) AUTHORITY FOR PROCEDURAL ADJUSTMENTS IN CERTAIN CASES.—In the case of applications for financial assistance whose direct costs will not exceed \$100,000, the Director may make appropriate adjustments in the procedures otherwise established by the Director for the conduct of peer review under this section. Such adjustments may be made for the purpose of encouraging the entry of individuals into the field of research, for the purpose of encouraging clinical practice-or-

ented or provider-based research, and for such other purposes as the Director may determine to be appropriate.

"(e) REGULATIONS.—The Director shall issue regulations for the conduct of peer review under this section.

"SEC. 923. CERTAIN PROVISIONS WITH RESPECT TO DEVELOPMENT, COLLECTION, AND DISSEMINATION OF DATA.

"(a) STANDARDS WITH RESPECT TO UTILITY OF DATA.—

"(1) IN GENERAL.—To ensure the utility, accuracy, and sufficiency of data collected by or for the Agency for the purpose described in section 901(b), the Director shall establish standard methods for developing and collecting such data, taking into consideration—

"(A) other Federal health data collection standards; and

"(B) the differences between types of health care plans, delivery systems, health care providers, and provider arrangements.

"(2) RELATIONSHIP WITH OTHER DEPARTMENT PROGRAMS.—In any case where standards under paragraph (1) may affect the administration of other programs carried out by the Department of Health and Human Services, including the programs under title XVIII, XIX or XXI of the Social Security Act, or may affect health information that is subject to a standard developed under part C of title XI of the Social Security Act, they shall be in the form of recommendations to the Secretary for such program.

"(b) STATISTICS AND ANALYSES.—The Director shall—

"(1) take appropriate action to ensure that statistics and analyses developed under this title are of high quality, timely, and duly comprehensive, and that the statistics are specific, standardized, and adequately analyzed and indexed; and

"(2) publish, make available, and disseminate such statistics and analyses on as wide a basis as is practicable.

"(c) AUTHORITY REGARDING CERTAIN REQUESTS.—Upon request of a public or private entity, the Director may conduct or support research or analyses otherwise authorized by this title pursuant to arrangements under which such entity will pay the cost of the services provided. Amounts received by the Director under such arrangements shall be available to the Director for obligation until expended.

"SEC. 924. DISSEMINATION OF INFORMATION.

"(a) IN GENERAL.—The Director shall—

"(1) without regard to section 501 of title 44, United States Code, promptly publish, make available, and otherwise disseminate, in a form understandable and on as broad a basis as practicable so as to maximize its use, the results of research, demonstration projects, and evaluations conducted or supported under this title;

"(2) ensure that information disseminated by the Agency is science-based and objective and undertakes consultation as necessary to assess the appropriateness and usefulness of the presentation of information that is targeted to specific audiences;

"(3) promptly make available to the public data developed in such research, demonstration projects, and evaluations;

"(4) provide, in collaboration with the National Library of Medicine where appropriate, indexing, abstracting, translating, publishing, and other services leading to a more effective and timely dissemination of information on research, demonstration projects, and evaluations with respect to health care to public and private entities and individuals engaged in the improvement of

health care delivery and the general public, and undertake programs to develop new or improved methods for making such information available; and

"(5) as appropriate, provide technical assistance to State and local government and health agencies and conduct liaison activities to such agencies to foster dissemination.

"(b) PROHIBITION AGAINST RESTRICTIONS.—Except as provided in subsection (c), the Director may not restrict the publication or dissemination of data from, or the results of, projects conducted or supported under this title.

"(c) LIMITATION ON USE OF CERTAIN INFORMATION.—No information, if an establishment or person supplying the information or described in it is identifiable, obtained in the course of activities undertaken or supported under this title may be used for any purpose other than the purpose for which it was supplied unless such establishment or person has consented (as determined under regulations of the Director) to its use for such other purpose. Such information may not be published or released in other form if the person who supplied the information or who is described in it is identifiable unless such person has consented (as determined under regulations of the Director) to its publication or release in other form.

"(d) PENALTY.—Any person who violates subsection (c) shall be subject to a civil monetary penalty of not more than \$10,000 for each such violation involved. Such penalty shall be imposed and collected in the same manner as civil money penalties under subsection (a) of section 1128A of the Social Security Act are imposed and collected.

"SEC. 925. ADDITIONAL PROVISIONS WITH RESPECT TO GRANTS AND CONTRACTS.

"(a) FINANCIAL CONFLICTS OF INTEREST.—With respect to projects for which awards of grants, cooperative agreements, or contracts are authorized to be made under this title, the Director shall by regulation define—

"(1) the specific circumstances that constitute financial interests in such projects that will, or may be reasonably expected to, create a bias in favor of obtaining results in the projects that are consistent with such interests; and

"(2) the actions that will be taken by the Director in response to any such interests identified by the Director.

"(b) REQUIREMENT OF APPLICATION.—The Director may not, with respect to any program under this title authorizing the provision of grants, cooperative agreements, or contracts, provide any such financial assistance unless an application for the assistance is submitted to the Secretary and the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Director determines to be necessary to carry out the program involved.

"(c) PROVISION OF SUPPLIES AND SERVICES IN LIEU OF FUNDS.—

"(1) IN GENERAL.—Upon the request of an entity receiving a grant, cooperative agreement, or contract under this title, the Secretary may, subject to paragraph (2), provide supplies, equipment, and services for the purpose of aiding the entity in carrying out the project involved and, for such purpose, may detail to the entity any officer or employee of the Department of Health and Human Services.

"(2) CORRESPONDING REDUCTION IN FUNDS.—With respect to a request described in paragraph (1), the Secretary shall reduce the amount of the financial assistance involved by an amount equal to the costs of detailing

personnel and the fair market value of any supplies, equipment, or services provided by the Director. The Secretary shall, for the payment of expenses incurred in complying with such request, expend the amounts withheld.

“(d) **APPLICABILITY OF CERTAIN PROVISIONS WITH RESPECT TO CONTRACTS.**—Contracts may be entered into under this part without regard to sections 3648 and 3709 of the Revised Statutes (31 U.S.C. 529 and 41 U.S.C. 5).

“SEC. 926. CERTAIN ADMINISTRATIVE AUTHORITIES.

“(a) **DEPUTY DIRECTOR AND OTHER OFFICERS AND EMPLOYEES.**—

“(1) **DEPUTY DIRECTOR.**—The Director may appoint a deputy director for the Agency.

“(2) **OTHER OFFICERS AND EMPLOYEES.**—The Director may appoint and fix the compensation of such officers and employees as may be necessary to carry out this title. Except as otherwise provided by law, such officers and employees shall be appointed in accordance with the civil service laws and their compensation fixed in accordance with title 5, United States Code.

“(b) **FACILITIES.**—The Secretary, in carrying out this title—

“(1) may acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of General Services, buildings or portions of buildings in the District of Columbia or communities located adjacent to the District of Columbia for use for a period not to exceed 10 years; and

“(2) may acquire, construct, improve, repair, operate, and maintain laboratory, research, and other necessary facilities and equipment, and such other real or personal property (including patents) as the Secretary deems necessary.

“(c) **PROVISION OF FINANCIAL ASSISTANCE.**—The Director, in carrying out this title, may make grants to public and nonprofit entities and individuals, and may enter into cooperative agreements or contracts with public and private entities and individuals.

“(d) **UTILIZATION OF CERTAIN PERSONNEL AND RESOURCES.**—

“(1) **DEPARTMENT OF HEALTH AND HUMAN SERVICES.**—The Director, in carrying out this title, may utilize personnel and equipment, facilities, and other physical resources of the Department of Health and Human Services, permit appropriate (as determined by the Secretary) entities and individuals to utilize the physical resources of such Department, and provide technical assistance and advice.

“(2) **OTHER AGENCIES.**—The Director, in carrying out this title, may use, with their consent, the services, equipment, personnel, information, and facilities of other Federal, State, or local public agencies, or of any foreign government, with or without reimbursement of such agencies.

“(e) **CONSULTANTS.**—The Secretary, in carrying out this title, may secure, from time to time and for such periods as the Director deems advisable but in accordance with section 3109 of title 5, United States Code, the assistance and advice of consultants from the United States or abroad.

“(f) **EXPERTS.**—

“(1) **IN GENERAL.**—The Secretary may, in carrying out this title, obtain the services of not more than 50 experts or consultants who have appropriate scientific or professional qualifications. Such experts or consultants shall be obtained in accordance with section 3109 of title 5, United States Code, except that the limitation in such section on the duration of service shall not apply.

“(2) **TRAVEL EXPENSES.**—

“(A) **IN GENERAL.**—Experts and consultants whose services are obtained under paragraph (1) shall be paid or reimbursed for their expenses associated with traveling to and from their assignment location in accordance with sections 5724, 5724a(a), 5724a(c), and 5726(c) of title 5, United States Code.

“(B) **LIMITATION.**—Expenses specified in subparagraph (A) may not be allowed in connection with the assignment of an expert or consultant whose services are obtained under paragraph (1) unless and until the expert agrees in writing to complete the entire period of assignment, or 1 year, whichever is shorter, unless separated or reassigned for reasons that are beyond the control of the expert or consultant and that are acceptable to the Secretary. If the expert or consultant violates the agreement, the money spent by the United States for the expenses specified in subparagraph (A) is recoverable from the expert or consultant as a statutory obligation owed to the United States. The Secretary may waive in whole or in part a right of recovery under this subparagraph.

“(g) **VOLUNTARY AND UNCOMPENSATED SERVICES.**—The Director, in carrying out this title, may accept voluntary and uncompensated services.

“SEC. 927. FUNDING.

“(a) **INTENT.**—To ensure that the United States investment in biomedical research is rapidly translated into improvements in the quality of patient care, there must be a corresponding investment in research on the most effective clinical and organizational strategies for use of these findings in daily practice. The authorization levels in subsections (b) and (c) provide for a proportionate increase in health care research as the United States investment in biomedical research increases.

“(b) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of carrying out this title, there are authorized to be appropriated \$250,000,000 for fiscal year 2000, and such sums as may be necessary for each of the fiscal years 2001 through 2005.

“(c) **EVALUATIONS.**—In addition to amounts available pursuant to subsection (b) for carrying out this title, there shall be made available for such purpose, from the amounts made available pursuant to section 241 (relating to evaluations), an amount equal to 40 percent of the maximum amount authorized in such section 241 to be made available for a fiscal year.

“SEC. 928. DEFINITIONS.

“In this title:

“(1) **ADVISORY COUNCIL.**—The term ‘Advisory Council’ means the National Advisory Council on Healthcare Research and Quality established under section 921.

“(2) **AGENCY.**—The term ‘Agency’ means the Agency for Healthcare Research and Quality.

“(3) **DIRECTOR.**—The term ‘Director’ means the Director of the Agency for Healthcare Research and Quality.”

(b) **RULES OF CONSTRUCTION.**—

(1) **IN GENERAL.**—Section 901(a) of the Public Health Service Act (as added by subsection (a) of this section) applies as a redesignation of the agency that carried out title IX of such Act on the day before the date of the enactment of this Act, and not as the termination of such agency and the establishment of a different agency. The amendment made by subsection (a) of this section does not affect appointments of the personnel of such agency who were employed at the agency on the day before such date, including the appointments of members of advisory councils or study sections of the agency

who were serving on the day before such date of enactment.

(2) **REFERENCES.**—Any reference in law to the Agency for Health Care Policy and Research is deemed to be a reference to the Agency for Healthcare Research and Quality, and any reference in law to the Administrator for Health Care Policy and Research is deemed to be a reference to the Director of the Agency for Healthcare Research and Quality.

SEC. 3. GRANTS REGARDING UTILIZATION OF PREVENTIVE HEALTH SERVICES.

Subpart I of part D of title III of the Public Health Service Act (42 U.S.C. 254b et seq.) is amended by adding at the end the following section:

“SEC. 330D. CENTERS FOR STRATEGIES ON FACILITATING UTILIZATION OF PREVENTIVE HEALTH SERVICES AMONG VARIOUS POPULATIONS.

“(a) **IN GENERAL.**—The Secretary, acting through the appropriate agencies of the Public Health Service, shall make grants to public or nonprofit private entities for the establishment and operation of regional centers whose purpose is to develop, evaluate, and disseminate effective strategies, which utilize quality management measures, to assist public and private health care programs and providers in the appropriate utilization of preventive health care services by specific populations.

“(b) **RESEARCH AND TRAINING.**—The activities carried out by a center under subsection (a) may include establishing programs of research and training with respect to the purpose described in such subsection, including the development of curricula for training individuals in implementing the strategies developed under such subsection.

“(c) **PRIORITY REGARDING INFANTS AND CHILDREN.**—In carrying out the purpose described in subsection (a), the Secretary shall give priority to various populations of infants, young children, and their mothers.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2000 through 2004.”

SEC. 4. PROGRAM OF PAYMENTS TO CHILDREN'S HOSPITALS THAT OPERATE GRADUATE MEDICAL EDUCATION PROGRAMS.

Part D of title III of the Public Health Service Act (42 U.S.C. 254b et seq.) is amended by adding at the end the following subpart:

“Subpart IX—Support of Graduate Medical Education Programs in Children's Hospitals

“SEC. 340E. PROGRAM OF PAYMENTS TO CHILDREN'S HOSPITALS THAT OPERATE GRADUATE MEDICAL EDUCATION PROGRAMS.

“(a) **PAYMENTS.**—The Secretary shall make two payments under this section to each children's hospital for each of fiscal years 2000 and 2001, one for the direct expenses and the other for indirect expenses associated with operating approved graduate medical residency training programs.

“(b) **AMOUNT OF PAYMENTS.**—

“(1) **IN GENERAL.**—Subject to paragraph (2), the amounts payable under this section to a children's hospital for an approved graduate medical residency training program for a fiscal year are each of the following amounts:

“(A) **DIRECT EXPENSE AMOUNT.**—The amount determined under subsection (c) for direct expenses associated with operating approved graduate medical residency training programs.

“(B) **INDIRECT EXPENSE AMOUNT.**—The amount determined under subsection (d) for

indirect expenses associated with the treatment of more severely ill patients and the additional costs relating to teaching residents in such programs.

“(2) CAPPED AMOUNT.—

“(A) IN GENERAL.—The total of the payments made to children’s hospitals under paragraph (1)(A) or paragraph (1)(B) in a fiscal year shall not exceed the funds appropriated under paragraph (1) or (2), respectively, of subsection (f) for such payments for that fiscal year.

“(B) PRO RATA REDUCTIONS OF PAYMENTS FOR DIRECT EXPENSES.—If the Secretary determines that the amount of funds appropriated under subsection (f)(1) for a fiscal year is insufficient to provide the total amount of payments otherwise due for such periods under paragraph (1)(A), the Secretary shall reduce the amounts so payable on a pro rata basis to reflect such shortfall.

“(C) AMOUNT OF PAYMENT FOR DIRECT GRADUATE MEDICAL EDUCATION.—

“(1) IN GENERAL.—The amount determined under this subsection for payments to a children’s hospital for direct graduate expenses relating to approved graduate medical residency training programs for a fiscal year is equal to the product of—

“(A) the updated per resident amount for direct graduate medical education, as determined under paragraph (2); and

“(B) the average number of full-time equivalent residents in the hospital’s graduate approved medical residency training programs (as determined under section 1886(h)(4) of the Social Security Act during the fiscal year.

“(2) UPDATED PER RESIDENT AMOUNT FOR DIRECT GRADUATE MEDICAL EDUCATION.—The updated per resident amount for direct graduate medical education for a hospital for a fiscal year is an amount determined as follows:

“(A) DETERMINATION OF HOSPITAL SINGLE PER RESIDENT AMOUNT.—The Secretary shall compute for each hospital operating an approved graduate medical education program (regardless of whether or not it is a children’s hospital) a single per resident amount equal to the average (weighted by number of full-time equivalent residents) of the primary care per resident amount and the non-primary care per resident amount computed under section 1886(h)(2) of the Social Security Act for cost reporting periods ending during fiscal year 1997.

“(B) DETERMINATION OF WAGE AND NON-WAGE-RELATED PROPORTION OF THE SINGLE PER RESIDENT AMOUNT.—The Secretary shall estimate the average proportion of the single per resident amounts computed under subparagraph (A) that is attributable to wages and wage-related costs.

“(C) STANDARDIZING PER RESIDENT AMOUNTS.—The Secretary shall establish a standardized per resident amount for each such hospital—

“(i) by dividing the single per resident amount computed under subparagraph (A) into a wage-related portion and a non-wage-related portion by applying the proportion determined under subparagraph (B);

“(ii) by dividing the wage-related portion by the factor applied under section 1886(d)(3)(E) of the Social Security Act for discharges occurring during fiscal year 1999 for the hospital’s area; and

“(iii) by adding the non-wage-related portion to the amount computed under clause (ii).

“(D) DETERMINATION OF NATIONAL AVERAGE.—The Secretary shall compute a national average per resident amount equal to

the average of the standardized per resident amounts computed under subparagraph (C) for such hospitals, with the amount for each hospital weighted by the average number of full-time equivalent residents at such hospital.

“(E) APPLICATION TO INDIVIDUAL HOSPITALS.—The Secretary shall compute for each such hospital that is a children’s hospital a per resident amount—

“(i) by dividing the national average per resident amount computed under subparagraph (D) into a wage-related portion and a non-wage-related portion by applying the proportion determined under subparagraph (B);

“(ii) by multiplying the wage-related portion by the factor described in subparagraph (C)(ii) for the hospital’s area; and

“(iii) by adding the non-wage-related portion to the amount computed under clause (ii).

“(F) UPDATING RATE.—The Secretary shall update such per resident amount for each such children’s hospital by the estimated percentage increase in the consumer price index for all urban consumers during the period beginning October 1997 and ending with the midpoint of the hospital’s cost reporting period that begins during fiscal year 2000.

“(d) AMOUNT OF PAYMENT FOR INDIRECT MEDICAL EDUCATION.—

“(1) IN GENERAL.—The amount determined under this subsection for payments to a children’s hospital for indirect expenses associated with the treatment of more severely ill patients and the additional costs related to the teaching of residents for a fiscal year is equal to an amount determined appropriate by the Secretary.

“(2) FACTORS.—In determining the amount under paragraph (1), the Secretary shall—

“(A) take into account variations in case mix among children’s hospitals and the number of full-time equivalent residents in the hospitals’ approved graduate medical residency training programs; and

“(B) assure that the aggregate of the payments for indirect expenses associated with the treatment of more severely ill patients and the additional costs related to the teaching of residents under this section in a fiscal year are equal to the amount appropriated for such expenses for the fiscal year involved under subsection (f)(2).

“(e) MAKING OF PAYMENTS.—

“(1) INTERIM PAYMENTS.—The Secretary shall determine, before the beginning of each fiscal year involved for which payments may be made for a hospital under this section, the amounts of the payments for direct graduate medical education and indirect medical education for such fiscal year and shall (subject to paragraph (2)) make the payments of such amounts in 26 equal interim installments during such period.

“(2) WITHHOLDING.—The Secretary shall withhold up to 25 percent from each interim installment for direct graduate medical education paid under paragraph (1).

“(3) RECONCILIATION.—At the end of each fiscal year for which payments may be made under this section, the hospital shall submit to the Secretary such information as the Secretary determines to be necessary to determine the percent (if any) of the total amount withheld under paragraph (2) that is due under this section for the hospital for the fiscal year. Based on such determination, the Secretary shall recoup any overpayments made, or pay any balance due. The amount so determined shall be considered a final intermediary determination for purposes of applying section 1878 of the Social

Security Act and shall be subject to review under that section in the same manner as the amount of payment under section 1886(d) of such Act is subject to review under such section.

“(f) AUTHORIZATION OF APPROPRIATIONS.—

“(1) DIRECT GRADUATE MEDICAL EDUCATION.—

“(A) IN GENERAL.—There are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, for payments under subsection (b)(1)(A)—

“(i) for fiscal year 2000, \$90,000,000; and

“(ii) for fiscal year 2001, \$95,000,000.

“(B) CARRYOVER OF EXCESS.—The amounts appropriated under subparagraph (A) for fiscal year 2000 shall remain available for obligation through the end of fiscal year 2001.

“(2) INDIRECT MEDICAL EDUCATION.—There are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, for payments under subsection (b)(1)(A)—

“(A) for fiscal year 2000, \$190,000,000; and

“(B) for fiscal year 2001, \$190,000,000.

“(g) DEFINITIONS.—In this section:

“(1) APPROVED GRADUATE MEDICAL RESIDENCY TRAINING PROGRAM.—The term ‘approved graduate medical residency training program’ has the meaning given the term ‘approved medical residency training program’ in section 1886(h)(5)(A) of the Social Security Act.

“(2) CHILDREN’S HOSPITAL.—The term ‘children’s hospital’ means a hospital described in section 1886(d)(1)(B)(iii) of the Social Security Act.

“(3) DIRECT GRADUATE MEDICAL EDUCATION COSTS.—The term ‘direct graduate medical education costs’ has the meaning given such term in section 1886(h)(5)(C) of the Social Security Act.”

SEC. 5. STUDY REGARDING SHORTAGES OF LICENSED PHARMACISTS.

(a) IN GENERAL.—The Secretary of Health and Human Services (in this section referred to as the “Secretary”), acting through the appropriate agencies of the Public Health Service, shall conduct a study to determine whether and to what extent there is a shortage of licensed pharmacists. In carrying out the study, the Secretary shall seek the comments of appropriate public and private entities regarding any such shortage.

(b) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall complete the study under subsection (a) and submit to the Congress a report that describes the findings made through the study and that contains a summary of the comments received by the Secretary pursuant to such subsection.

SEC. 6. REPORT ON TELEMEDICINE.

Not later than January 10, 2001, the Secretary of Health and Human Services shall submit to the Congress a report that—

(1) identifies any factors that inhibit the expansion and accessibility of telemedicine services, including factors relating to telemedicine networks;

(2) identifies any factors that, in addition to geographical isolation, should be used to determine which patients need or require access to telemedicine care;

(3) determines the extent to which—

(A) patients receiving telemedicine service have benefited from the services, and are satisfied with the treatment received pursuant to the services; and

(B) the medical outcomes for such patients would have differed if telemedicine services had not been available to the patients;

(4) determines the extent to which physicians involved with telemedicine services

have been satisfied with the medical aspects of the services;

(5) determines the extent to which primary care physicians are enhancing their medical knowledge and experience through the interaction with specialists provided by telemedicine consultations; and

(6) identifies legal and medical issues relating to State licensing of health professionals that are presented by telemedicine services, and provides any recommendations of the Secretary for responding to such issues.

SEC. 7. CERTAIN TECHNOLOGIES AND PRACTICES REGARDING SURVIVAL RATES FOR CARDIAC ARREST.

The Secretary of Health and Human Services shall, in consultation with the Administrator of the General Services Administration and other appropriate public and private entities, develop recommendations regarding the placement of automatic external defibrillators in Federal buildings as a means of improving the survival rates of individuals who experience cardiac arrest in such buildings, including recommendations on training, maintenance, and medical oversight, and on coordinating with the system for emergency medical services.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BLILEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the Senate bill, S. 580, and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

WOMEN'S BUSINESS CENTERS SUSTAINABILITY ACT OF 1999

Mrs. KELLY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 791) to amend the Small Business Act with respect to the women's business center program, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

Mr. UDALL of New Mexico. Mr. Speaker, reserving the right to object, I do not intend to object, but I rise in strong support of Senate bill S. 791, the Women's Business Centers Sustainability Act of 1999. This is the Senate version of H.R. 491, which the House recently passed under suspension. With the passage of this bill, we will ensure that the women's business centers keep their doors open, and that the program will continue to grow with new centers in previously underserved areas.

Mr. Speaker, I would also like to thank the gentlewoman from New York (Mrs. KELLY) for all her hard work and leadership on this bill.

Mr. Speaker, under my reservation, I yield to the gentlewoman from New York (Mrs. KELLY) to explain her unanimous consent request.

□ 1945

Mrs. KELLY. Mr. Speaker, the purpose of S. 791 is to allow for currently funded Women's Business Centers and graduated Business Women's Centers to re compete for Federal funding. S. 791 addresses the funding constraints that make it increasingly difficult for Women's Business Centers to sustain the level of services they provide and, in some instances, to remain open after they graduate from the Women's Business Centers Program and no longer receive Federal matching funds.

Mr. TALENT. Mr. Speaker, I rise today in support of Senate Bill 791, "The Women's Business Centers Sustainability Act of 1999."

Women-owned businesses are the fastest growing sector of small business in America today. In fact, women entrepreneurs are starting new firms at twice the rate of all other business and own nearly 40 percent of all firms in the U.S.

These strong numbers show the success that women entrepreneurs enjoy, but anyone who has ever started a new business, knows that the road is not always smooth. Women's Business Centers play a major role in making that road to success a little less bumpy. Women's Business Centers, like the public-private partnership of the St. Louis Women's Business Center in my District, play a major role in assisting women entrepreneurs establish strong business plans through courses, workshops, mentor services and provide access to financing for building businesses.

H.R. 1497 builds upon the legislation we passed earlier this year to help grow the number of Women's Business Centers across the nation. But as with anything, we must continue to take a well-balanced approach that allows successful centers to continue to compete for funding as they make the transition to the private sector. The Women's Business Center Sustainability Act makes it possible for Centers like the St. Louis Women's Business Center to have a sort of safety net as they make that transition at the end of their 5-year grant cycle.

Mr. Speaker, Women's Business Centers contribute to the success of thousands of women entrepreneurs by offering the critical community support necessary for them to succeed in today's business world. As more and more women decide to be their own boss, Women's Business Centers will provide them with the resources and training they need. I commend the spirit and innovation of all those whose entrepreneurial spirit has made America great and I urge my colleagues to support passage of the Women's Business Center Sustainability Act.

Mr. DAVIS of Illinois. Mr. Speaker, I rise in support of S. 791 the Women's Business Centers Sustainability Act. Women entrepreneurs are an increasingly significant part of the U.S. economy. Women own more than 8 million businesses and account for approximately one-third of all U.S. businesses and are starting businesses at twice the rate of men.

Shrouded by these stirring statistics, is the fact that women encounter numerous obstacles trying to start, maintain or expand a business—obstacles which must be eliminated if we are ever to realize the full potential of this dynamic sector of our economy.

In my particular District, there exists several entities that help women's small businesses expand, in some instances, get started. I am very proud of these organizations for their dedication and hard work. In a very orderly and organized way, without a lot of overhead, women's business centers, by various names, are helping women who have an idea about a small business, providing them with technical assistance, in some instances to provide micro loans, and in all instances to provide the knowledge and wherewithal and planning that is necessary so that they start off on the right foot. Therefore, Mr. Speaker, I urge all members to vote for this mindfall, well thought out bill and support our Nation's women's businesses.

Mr. UDALL of New Mexico. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. PEASE). Is there objection to the request of the gentlewoman from New York?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 791

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Women's Business Centers Sustainability Act of 1999".

SEC. 2. PRIVATE NONPROFIT ORGANIZATIONS.

Section 29 of the Small Business Act (15 U.S.C. 656) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following:

"(2) the term 'private nonprofit organization' means an entity that is described in section 501(c) of the Internal Revenue Code of 1986 and exempt from taxation under section 501(a) of such Code;"; and

(2) in subsection (b), by inserting "non-profit" after "private".

SEC. 3. INCREASED MANAGEMENT OVERSIGHT AND REVIEW OF WOMEN'S BUSINESS CENTERS.

Section 29 of the Small Business Act (15 U.S.C. 656) is amended—

(1) by striking subsection (h) and inserting the following:

"(h) PROGRAM EXAMINATION.—

"(1) IN GENERAL.—The Administration shall—

"(A) develop and implement an annual programmatic and financial examination of each women's business center established pursuant to this section, pursuant to which each such center shall provide to the Administration—

"(i) an itemized cost breakdown of actual expenditures for costs incurred during the preceding year; and

"(ii) documentation regarding the amount of matching assistance from non-Federal sources obtained and expended by the center during the preceding year in order to meet the requirements of subsection (c) and, with

respect to any in-kind contributions described in subsection (c)(2) that were used to satisfy the requirements of subsection (c), verification of the existence and valuation of those contributions; and

“(B) analyze the results of each such examination and, based on that analysis, make a determination regarding the programmatic and financial viability of each women’s business center.

“(2) CONDITIONS FOR CONTINUED FUNDING.—In determining whether to award a contract (as a sustainability grant) under subsection (I) or to renew a contract (either as a grant or cooperative agreement) under this section with a women’s business center, the Administration—

“(A) shall consider the results of the most recent examination of the center under paragraph (1); and

“(B) may withhold such award or renewal, if the Administration determines that—

“(i) the center has failed to provide any information required to be provided under clause (i) or (ii) of paragraph (1)(A), or the information provided by the center is inadequate; or

“(ii) the center has failed to provide any information required to be provided by the center for purposes of the report of the Administration under subsection (j), or the information provided by the center is inadequate.”; and

(2) by striking subsection (j) and inserting the following:

“(j) MANAGEMENT REPORT.—

“(1) IN GENERAL.—The Administration shall prepare and submit to the Committees on Small Business of the House of Representatives and the Senate a report on the effectiveness of all projects conducted under this section.

“(2) CONTENTS.—Each report submitted under paragraph (1) shall include information concerning, with respect to each women’s business center established pursuant to this section—

“(A) the number of individuals receiving assistance;

“(B) the number of startup business concerns formed;

“(C) the gross receipts of assisted concerns;

“(D) the employment increases or decreases of assisted concerns;

“(E) to the maximum extent practicable, increases or decreases in profits of assisted concerns; and

“(F) the most recent analysis, as required under subsection (h)(1)(B), and the subsequent determination made by the Administration under that subsection.”.

SEC. 4. WOMEN’S BUSINESS CENTERS SUSTAINABILITY PILOT PROGRAM.

(a) IN GENERAL.—Section 29 of the Small Business Act (15 U.S.C. 656) is amended by adding at the end the following:

“(1) SUSTAINABILITY PILOT PROGRAM.—

“(1) IN GENERAL.—There is established a 4-year pilot program under which the Administration is authorized to award grants (referred to in this section as ‘sustainability grants’) on a competitive basis for an additional 5-year project under this section to any private nonprofit organization (or a division thereof)—

“(A) that has received financial assistance under this section pursuant to a grant, contract, or cooperative agreement; and

“(B) that—

“(i) is in the final year of a 5-year project; or

“(ii) has completed a project financed under this section (or any predecessor to this section) and continues to provide assistance to women entrepreneurs.

“(2) CONDITIONS FOR PARTICIPATION.—In order to receive a sustainability grant, an organization described in paragraph (1) shall submit to the Administration an application, which shall include—

“(A) a certification that the applicant—

“(i) is a private nonprofit organization;

“(ii) employs a full-time executive director or program manager to manage the center; and

“(iii) as a condition of receiving a sustainability grant, agrees—

“(I) to a site visit as part of the final selection process and to an annual programmatic and financial examination; and

“(II) to the maximum extent practicable, to remedy any problems identified pursuant to that site visit or examination;

“(B) information demonstrating that the applicant has the ability and resources to meet the needs of the market to be served by the women’s business center site for which a sustainability grant is sought, including the ability to fundraise;

“(C) information relating to assistance provided by the women’s business center site for which a sustainability grant is sought in the area in which the site is located, including—

“(i) the number of individuals assisted;

“(ii) the number of hours of counseling, training, and workshops provided; and

“(iii) the number of startup business concerns formed;

“(D) information demonstrating the effective experience of the applicant in—

“(i) conducting financial, management, and marketing assistance programs, as described in paragraphs (1), (2), and (3) of subsection (b), designed to impart or upgrade the business skills of women business owners or potential owners;

“(ii) providing training and services to a representative number of women who are both socially and economically disadvantaged;

“(iii) using resource partners of the Administration and other entities, such as universities;

“(iv) complying with the cooperative agreement of the applicant; and

“(v) the prudent management of finances and staffing, including the manner in which the performance of the applicant compared to the business plan of the applicant and the manner in which grant funds awarded under subsection (b) were used by the applicant; and

“(E) a 5-year plan that projects the ability of the women’s business center site for which a sustainability grant is sought—

“(i) to serve women business owners or potential owners in the future by improving fundraising and training activities; and

“(ii) to provide training and services to a representative number of women who are both socially and economically disadvantaged.

“(3) REVIEW OF APPLICATIONS.—

“(A) IN GENERAL.—The Administration shall—

“(i) review each application submitted under paragraph (2) based on the information provided under in subparagraphs (D) and (E) of that paragraph, and the criteria set forth in subsection (f);

“(ii) as part of the final selection process, conduct a site visit at each women’s business center for which a sustainability grant is sought; and

“(iii) approve or disapprove applications for sustainability grants simultaneously with applications for grants under subsection (b).

“(B) DATA COLLECTION.—Consistent with the annual report to Congress under subsection (j), each women’s business center site that is awarded a sustainability grant shall, to the maximum extent practicable, collect information relating to—

“(i) the number of individuals assisted;

“(ii) the number of hours of counseling and training provided and workshops conducted;

“(iii) the number of startup business concerns formed;

“(iv) any available gross receipts of assisted concerns; and

“(v) the number of jobs created, maintained, or lost at assisted concerns.

“(C) RECORD RETENTION.—The Administration shall maintain a copy of each application submitted under this subsection for not less than 10 years.

“(4) NON-FEDERAL CONTRIBUTION.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, as a condition of receiving a sustainability grant, an organization described in paragraph (1) shall agree to obtain, after its application has been approved under paragraph (3) and notice of award has been issued, cash and in-kind contributions from non-Federal sources for each year of additional program participation in an amount equal to 1 non-Federal dollar for each Federal dollar.

“(B) FORM OF NON-FEDERAL CONTRIBUTIONS.—Not more than 50 percent of the non-Federal assistance obtained for purposes of subparagraph (A) may be in the form of in-kind contributions that are budget line items only, including office equipment and office space.

“(5) TIMING OF REQUESTS FOR PROPOSALS.—In carrying out this subsection, the Administration shall issue requests for proposals for women’s business centers applying for the pilot program under this subsection simultaneously with requests for proposals for grants under subsection (b).”.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 29(k) of the Small Business Act (15 U.S.C. 656(k)) is amended—

(1) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—There is authorized to be appropriated, to remain available until the expiration of the pilot program under subsection (1)—

“(A) \$12,000,000 for fiscal year 2000;

“(B) \$12,800,000 for fiscal year 2001;

“(C) \$13,700,000 for fiscal year 2002; and

“(D) \$14,500,000 for fiscal year 2003.”;

(2) in paragraph (2)—

(A) by striking “Amounts made” and inserting the following:

“(A) IN GENERAL.—Except as provided in subparagraph (B), amounts made”; and

(B) by adding at the end the following:

“(B) EXCEPTIONS.—Of the amount made available under this subsection for a fiscal year, the following amounts shall be available for selection panel costs, post-award conference costs, and costs related to monitoring and oversight:

“(i) For fiscal year 2000, 2 percent.

“(ii) For fiscal year 2001, 1.9 percent.

“(iii) For fiscal year 2002, 1.9 percent.

“(iv) For fiscal year 2003, 1.6 percent.”; and

(3) by adding at the end the following:

“(4) RESERVATION OF FUNDS FOR SUSTAINABILITY PILOT PROGRAM.—

“(A) IN GENERAL.—Subject to subparagraph (B), of the total amount made available under this subsection for a fiscal year, the following amounts shall be reserved for sustainability grants under subsection (1):

“(i) For fiscal year 2000, 17 percent.

“(ii) For fiscal year 2001, 18.8 percent.

“(iii) For fiscal year 2002, 30.2 percent.

“(iv) For fiscal year 2003, 30.2 percent.

“(B) USE OF UNAWARDED FUNDS FOR SUSTAINABILITY PILOT PROGRAM GRANTS.—If the amount reserved under subparagraph (A) for any fiscal year is not fully awarded to private nonprofit organizations described in subsection (1)(1)(B), the Administration is authorized to use the unawarded amount to fund additional women’s business center sites or to increase funding of existing women’s business center sites under subsection (b).”.

(c) GUIDELINES.—Not later than 30 days after the date of enactment of this Act, the Administrator of the Small Business Administration shall issue guidelines to implement the amendments made by this section.

SEC. 5. SENSE OF THE SENATE REGARDING GOVERNMENT PROCUREMENT ACCESS FOR WOMEN-OWNED SMALL BUSINESSES.

(a) FINDINGS.—The Senate finds that—

(1) women-owned small businesses are a powerful force in the economy;

(2) between 1987 and 1996—

(A) the number of women-owned small businesses in the United States increased by 78 percent, almost twice the rate of increase of all businesses in the United States;

(B) the number of women-owned small businesses increased in every State;

(C) total sales by women-owned small businesses in the United States increased by 236 percent;

(D) employment provided by women-owned small businesses in the United States increased by 183 percent; and

(E) the rates of growth for women-owned small businesses in the United States for the fastest growing industries were—

(i) 171 percent in construction;

(ii) 157 percent in wholesale trade;

(iii) 140 percent in transportation and communications;

(iv) 130 percent in agriculture; and

(v) 112 percent in manufacturing;

(3) approximately 8,000,000 women-owned small businesses in the United States provide jobs for 15,500,000 individuals and generate almost \$1,400,000,000,000 in sales each year;

(4) the participation of women-owned small businesses in the United States in the procurement market of the Federal Government is limited;

(5) the Federal Government is the largest purchaser of goods and services in the United States, spending more than \$200,000,000,000 each year;

(6) the majority of Federal Government purchases are for items that cost \$25,000 or less; and

(7) the rate of Federal procurement for women-owned small businesses is 2.2 percent.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that, not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States should—

(1) conduct an audit of the Federal procurement system regarding Federal contracting involving women-owned small businesses for the 3 preceding fiscal years;

(2) solicit from Federal employees involved in the Federal procurement system any suggestions regarding how to increase the number of Federal contracts awarded to women-owned small businesses; and

(3) submit to Congress a report on the results of that audit, which report shall include—

(A) an analysis of any identified trends in Federal contracting with respect to women-owned small businesses;

(B) any recommended means to increase the number of Federal contracts awarded to women-owned small businesses that the Comptroller General considers to be appropriate, after taking into consideration any suggestions received pursuant to a solicitation described in paragraph (2), including any such means that incorporate the concepts of teaming or partnering; and

(C) a discussion of any barriers to the receipt of Federal contracts by women-owned small businesses and other small businesses that are created by legal or regulatory procurement requirements or practices.

SEC. 6. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect on October 1, 1999.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CORRECTING ENROLLMENT OF H.R. 1180, TICKET TO WORK AND WORK INCENTIVES IMPROVEMENT ACT OF 1999

Mr. ROGERS. Mr. Speaker, I ask unanimous consent to take from the Speaker’s table the concurrent resolution (H. Con. Res. 236) to correct the enrollment of the bill H.R. 1180, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 236

Resolved by the House of Representatives (the Senate concurring), That, in the enrollment of the bill (H.R. 1180), to amend the Social Security Act to expand the availability of health care coverage for working individuals with disabilities, to establish a Ticket to Work and Self-Sufficiency Program in the Social Security Administration to provide such individuals with meaningful opportunities to work, and for other purposes, the Clerk of the House of Representatives shall make the following correction: Strike section 408 and insert in lieu thereof the following:

“CLIMATE DATABASE MODERNIZATION

“SEC. 408. Notwithstanding any other provision of law, the National Oceanic and Atmospheric Administration shall initiate a new competitive contract procurement for its multi-year program for key entry of valuable climate records, archive services, and database development in accordance with existing federal procurement laws and regulations.”

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

SANDRA DAY O’CONNOR UNITED STATES COURTHOUSE

Mr. COOKSEY. Mr. Speaker, I ask unanimous consent that the Committee on Transportation and Infra-

structure be discharged from further consideration of the Senate bill (S. 1595) to designate the United States courthouse at 401 West Washington Street in Phoenix, Arizona, as the “Sandra Day O’Connor United States Courthouse”, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

Mr. OBERSTAR. Mr. Speaker, reserving the right to object, and I shall not object, but I will ask the gentleman from Louisiana for an explanation of the bill.

Mr. COOKSEY. Mr. Speaker, will the gentleman yield?

Mr. OBERSTAR. I yield to the gentleman from Louisiana.

Mr. COOKSEY. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, S. 1595 designates the United States courthouse in Phoenix, Arizona, as the Sandra Day O’Connor United States Courthouse. This legislation was introduced by Senator KYL and passed the Senate on October 8.

Sandra Day O’Connor grew up on a ranch founded by her grandfather in southeastern Arizona. The ranch house was a simple four bedroom adobe that did not have running water or electricity until she was 7. Justice O’Connor stayed with her grandmother and attended school in El Paso, Texas, until she graduated at the age of 16. She then entered Stanford University and in 1950 earned a degree in economics, graduating magna cum laude. Upon graduation, she entered Stanford Law School and graduated third in her class in 1952.

Justice O’Connor accepted a position as deputy county attorney in San Mateo, California. On her experience in San Mateo, Justice O’Connor was quoted as saying the job “influenced the balance of my life because it demonstrated how much I did enjoy public service.” She then spent 3 years in Frankfurt, Germany, as a civilian lawyer for the Quartermaster Corps while her husband was serving in the United States Army Judge Advocate General Corps.

In 1957, Sandra Day O’Connor and her husband returned to the United States and settled in Maricopa County, Arizona. While maintaining a partnership in her law firm and raising her three children, O’Connor wrote questions for the Arizona bar exam, helped start the State’s lawyer referral service, sat on the zoning commission, served on the County Board of Adjustments and Appeals, served on the Governor’s Committee on Marriage and Family, worked as an administrative assistant on the Arizona State Hospital, was an adviser to the Salvation Army, and volunteered in schools for African American and Hispanic children.

In 1965, Justice O'Connor became an assistant State attorney general and continued her volunteer work. In 1969, she was appointed to fill a vacated seat in the State senate. She won reelection in two successive terms and served as majority leader in 1972. In 1974, O'Connor was elected to a State judgeship on the Maricopa County Superior Court before being appointed to the Arizona Court of Appeals.

In 1981, while serving in the Court of Appeals, Ronald Reagan fulfilled his campaign pledge of nominating a female justice to sit on the Supreme Court and nominated Sandra Day O'Connor. Justice O'Connor was confirmed 99 to 0 by the Senate as the Supreme Court's first female justice.

Justice O'Connor has had a major impact on the court and has distinguished herself as a justice, a public servant, volunteer and mother. This naming is a fitting honor to a person who has dedicated her life in so many ways to public service. I support the bill and urge my colleagues to support it as well.

Mr. OBERSTAR. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Arizona (Mr. SHADEGG).

Mr. SHADEGG. Mr. Speaker, I thank the gentleman for yielding, and I simply want to add a few remarks for the record.

I want to thank the chairman of the committee, the ranking member of the committee, and all those involved in this effort. S. 1595 is a fitting tribute to Justice Sandra Day O'Connor, a native of Arizona and a woman who has distinguished herself.

As my colleagues know, we have constructed a new United States courthouse in Phoenix, Arizona, and many of us active on this issue have been most anxious to designate this courthouse and to name it after Justice Sandra Day O'Connor. As my colleague, the gentleman from Louisiana (Mr. COOKSEY), has just recited, her career has been a distinguished one.

For a moment I would like to brag about the fact that Arizona has many women leaders. Five of the top elected officials in Arizona today are women, including our governor, our secretary of State, our attorney general, our superintendent of public instruction, and our State treasurer. But before they were elected as distinguished women leaders of Arizona, Justice O'Connor was a distinguished member of the Arizona bar, and my colleague, the gentleman from Louisiana (Mr. COOKSEY), has read off a litany of her accomplishments.

I simply want to say that as a young man growing up in Phoenix and taking the Arizona bar and some of the questions that Justice O'Connor wrote, she went on to distinguish herself and to set an example which I believe all people should follow, and to distinguish herself in the legal field. I am thrilled

that Ronald Reagan appointed her to the United States Supreme Court as the first woman Justice on that court, I am thrilled that she continues to do Arizona well and to demonstrate the leadership of the women of Arizona and the women of this Nation, and I simply wanted to express my sincere appreciation and thanks to both the chairman and the ranking member of the committee for allowing this legislation to proceed through this evening.

Mr. OBERSTAR. Mr. Speaker, further reserving the right to object, I join with delight in supporting this legislation to honor the first woman to serve on the Supreme Court, Justice O'Connor, who has indeed distinguished herself. I have had the delight and privilege of meeting and visiting with her on several occasions.

Mr. Speaker, I rise in strong support of this bill, which designates the courthouse at 401 West Washington Street in Phoenix, Arizona, as the Sandra Day O'Connor United States Courthouse.

Justice O'Connor is the first woman to serve on the Supreme Court. She was nominated by President Reagan and was confirmed by a unanimous vote of the U.S. Senate in September of 1981. Ever since, she has served as a distinguished jurist on our Nation's highest court.

In addition to her outstanding legal career and dedication to judicial excellence, Justice O'Connor also devotes many hours as a volunteer for various charitable organizations, and she has a long history of participation in numerous civic and legal organizations.

Justice O'Connor has spent her career serving the public trust. She began her public career in legislative positions, including serving in the Arizona State Senate from 1969 until 1975, during which time she served as majority leader and a member of the Arizona Advisory Council on Intergovernmental Relations. Earlier in her career, from 1952 to 1953, Justice O'Connor served the public in California as the Deputy County Attorney in San Mateo County, and as Assistant Attorney General in Arizona from 1965 until 1969.

Her civic activities are numerous and reflect her broad interests and public services. She is a member of the National Board of the Smithsonian; she is President of the Board of Trustees of the Heard Museum; and she serves on the Advisory Board of the Salvation Army. Justice O'Connor has been Vice President of the National Conference of Christians and Jews, and a member of the Board of Trustees of her alma mater, Stanford. She has worked with the Arizona Academy, Arizona Junior Achievement, and Phoenix Historical Society.

Justice O'Connor has been active in the training and education committees for the judicial conference, and holds memberships in the America Bar Association and several state associations.

Amid all these accomplishments, Justice O'Connor has also been a devoted wife and mother. She and her husband, John, have been married almost 50 years and have three sons.

Her life has been filled with challenge, hard work, and promise. It is with great pleasure

that I support S. 1595 in honor of Justice O'Connor, and urge my colleagues to join me.

Mr. Speaker, I would like to further add to the comments of the gentleman from Arizona who listed a number of women who serve in public office. The State of Arizona is very privileged to have my cousin, Rose Oberstar, serve as its governor.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 1595

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF SANDRA DAY O'CONNOR UNITED STATES COURTHOUSE.

The United States courthouse at 401 West Washington Street in Phoenix, Arizona, shall be known and designated as the "Sandra Day O'Connor United States Courthouse".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the United States courthouse referred to in section 1 shall be deemed to be a reference to the "Sandra Day O'Connor United States Courthouse".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ROBERT C. WEAVER FEDERAL BUILDING

Mr. COOKSEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 67) to designate the headquarters building of the Department of Housing and Urban Development in Washington, District of Columbia, as the "Robert C. Weaver Federal Building", and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

Mr. OBERSTAR. Mr. Speaker, reserving the right to object, and I shall not object, but take this reservation for the purpose of an explanation of the bill.

Mr. COOKSEY. Mr. Speaker, will the gentleman yield?

Mr. OBERSTAR. I yield to the gentleman from Louisiana.

Mr. COOKSEY. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, S. 67 designates the headquarters building of the Department of Housing and Urban Development in Washington, D.C. as the Robert C. Weaver Federal Building.

Robert C. Weaver was born on December 23, 1907 in Washington, D.C. He

attended Harvard University and earned three degrees, including a doctorate in economics. In the 1930s and 1940s, Dr. Weaver was involved in many government agencies, where he advocated racial equality.

In the early 1960s, President KENNEDY appointed Dr. Weaver administrator of the Housing and Home Financing Agency, the predecessor to the Department of Housing and Urban Development. President JOHNSON designated HUD a Cabinet-level agency. Following service in the Federal Government, Mr. Weaver became a professor of numerous colleges.

Dr. Weaver passed away in July of 1997. This is a fitting designation. I support the bill and urge my colleagues to support it.

Mr. OBERSTAR. Mr. Speaker, further reserving the right to object, I too rise in support of S. 67 to designate the HUD headquarters as the Robert C. Weaver Federal Building.

I have had the privilege, as a member of the staff of my predecessor, to meet Bob Weaver; and I have only the highest respect for his professional accomplishments and for Dr. Weaver as a very decent, warm, caring, energetic, hard working, and visionary human being.

Dr. Robert Clifton Weaver has been one of the most instrumental and influential Americans in directing and administering federal housing policies. Dr. Weaver was a native Washingtonian, a graduate of Dunbar High School, and Harvard University in 1929. In 1931 he received his Masters degree, and in 1934 his Ph.D. in economics from Harvard.

He entered government in 1933, as one of the young professionals who were drawn to Washington because of the "New Deal" programs of President Roosevelt.

He quickly became a leader in promoting opportunities and efforts to increase minority participation in government projects and policy development. During the 1940's and 1950's, Dr. Weaver held a variety of prestigious positions, including Director of the Opportunity Fellowship Program of the John Hay Whitney Foundation, consultant to the Ford Foundation, State of New York Rent Administrator, and in 1960 he became the Vice Chairman of the New York City Housing and Redevelopment Board.

In 1961, President Kennedy named Dr. Weaver as the Administrator of the Housing and Home Finance Agency, then a loose collection of agencies including the mortgage-insuring Federal Housing Administration.

Dr. Weaver worked tirelessly to mold the agency into a single organization with a unified goal. In 1966, when the Department of Housing and Urban Development (HUD) was formed by President Johnson, Dr. Weaver was designated its first Secretary, the first African-American to hold a cabinet-level position.

After his service at HUD, Dr. Weaver returned to academic life and served as the President of Baruch College in New York City.

Dr. Weaver was the recipient of numerous awards and honors, including the NAACP's Springarn Medal, the Albert Einstein Com-

memorative Award, the New York City Urban League Frederick Douglass Award, and New York University's Robert F. Wagner Public Service Award.

Dr. Weaver led a rich, full life marked by professional accomplishments and excellence. His legacy in public service is a model for all of us. It is fitting and proper to honor Dr. Weaver with this designation and I join with the Gentleman from New York, Mr. RANGEL, the sponsor of the House's companion bill, in supporting S. 67.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 67

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF ROBERT C. WEAVER FEDERAL BUILDING.

In honor of the first Secretary of Housing and Urban Development, the headquarters building of the Department of Housing and Urban Development located at 451 Seventh Street, SW., in Washington, District of Columbia, shall be known and designated as the "Robert C. Weaver Federal Building".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the building referred to in section 1 shall be deemed to be a reference to the "Robert C. Weaver Federal Building".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. COOKSEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on S. 1595 and S. 67, the measures just considered by the House.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

MOTOR CARRIER SAFETY IMPROVEMENT ACT OF 1999

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that the Committee on Transportation and Infrastructure be discharged from further consideration of the bill (H.R. 3419) to amend title 49, United States Code, to establish the Federal Motor Carrier Safety Administration, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

Mr. OBERSTAR. Mr. Speaker, reserving the right to object, I would ask the

chairman of the committee for an explanation of the bill.

Mr. SHUSTER. Mr. Speaker, will the gentleman yield?

Mr. OBERSTAR. I yield to the gentleman from Pennsylvania.

Mr. SHUSTER. Mr. Speaker, I thank the gentleman for yielding to me.

This bill creates a new Federal Motor Carrier Safety Administration within the Department of Transportation and makes significant safety improvements. It is a good bipartisan bill that will improve safety on our Nation's highways.

Mr. Speaker, this bill will make our roads safer for everyone. We owe it to the driving public to ensure that the trucks with which they share the road are safe.

Without hampering honest operators, this bill will ensure that the authorities will have the resources they need to keep unsafe buses and trucks off the road. It closes loopholes and imposes tough penalties on repeat offenders.

This bill doubles the number of State truck inspectors and puts more inspectors on the Mexican border to ensure that income Mexican trucks meet all U.S. safety standards.

This is a time-sensitive bill because trucking safety currently does not have an organizational home at the Department of Transportation.

It is temporarily housed in the Office of the Secretary.

This bill will create a new Federal Motor Carrier Safety Administration effective January 1, 2000.

If Congress does not enact this bill, truck safety will remain in limbo at the Department.

This is truly a comprehensive bill that reforms Federal motor carrier safety efforts.

This new agency will be dedicated to truck and bus safety. In the past, motor carrier safety oversight was housed in the Federal Highway Administration, where it had to compete with large Federal infrastructure programs for attention.

The complexity and growth of the trucking industry justifies the creation of an agency with a clear, preeminent safety mission focused on truck and bus safety. Truck safety will now have the same status within the Department as aviation safety, automobile safety, pipeline safety, and maritime safety.

When this bill passed last month, some in the media said the bill would overturn NAFTA. Amazingly enough, they were wrong. This bill gives the Secretary the power to shut down unsafe Mexican trucks coming into the U.S.—that is it. To ensure this bill has no effect on NAFTA, we have included language that states that nothing in today's bill will over-ride NAFTA.

This is the most significant motor carrier safety legislation since 1986.

This bill was developed between the House and the Senate.

It is very similar to the truck safety bill passed earlier this year by the House of Representatives by the overwhelming margin of 415 to 5.

It is my hope that if the House passes this bill today that the Senate will pass it before the Congress adjourns.

This bill is a pro-safety bill that will improve highway safety for all Americans.

I urge passage of the bill.

Mr. OBERSTAR. Mr. Speaker, further reserving the right to object, I am very pleased with this bill. The Motor Carrier Safety Improvement Act of 1999 is a good bill. It preserves all the strong provisions of the bill that passed the House and adds provisions from the Senate bill that will further enhance safety. A strong House bill has been made even stronger.

I just want to express my great appreciation to my chairman, my partner, and the chairman of the subcommittee, the gentleman from Wisconsin (Mr. PETRI), and the ranking member, the gentleman from West Virginia (Mr. RAHALL), but especially to our chairman for championing this legislation. This is good legislation. It will only add to the gentleman's distinguished record of achievement in this House, especially one in the safety arena where he has been so strong an advocate.

Mr. SHUSTER. Mr. Speaker, if the gentleman would further yield, I am also submitting an explanatory statement of the bill to be printed in the RECORD. This document has been worked out by the Members on the House and Senate sides, by myself, the gentleman from Wisconsin (Mr. PETRI), the gentleman from Minnesota (Mr. OBERSTAR), the gentleman from West Virginia (Mr. RAHALL), as well as Senators McCAIN and HOLLINGS.

I would particularly like to emphasize that the gentleman from Virginia (Mr. WOLF) certainly played a key role in serving as a catalyst to bring this legislation to our attention, and I certainly want to commend him for that.

I also would like to report to the House, as we close this session of the Congress, that of the 104 bills signed into law by the President thus far, 19 came from our committee. So approximately 20 percent of the bills which made their way through to law have come from the Committee on Transportation and Infrastructure. Additionally, another 50 bills, in fact this one will be 51 bills, will make their way through the House, and we look forward to many of them becoming law in the next session.

Mr. OBERSTAR. Reclaiming my time, under my reservation, Mr. Speaker, I thank the gentleman and concur in that observation.

Mr. SHUSTER. Mr. Speaker, if the gentleman will yield once again, I would be derelict in not noting the tremendous contribution of our staff, Jack Schenendorf, Mike Strachn, Roger Nober, Chris Bertram, Patti Doersch, Jess Sharp; and on the gentleman's side, Clyde Woodle, Rosalyn Millman, who is now acting administrator of NHTSA.

Everyone worked so hard to bring this bill to where it is today, and I

want to commend the gentleman and thank him once again for the tremendous bipartisan support which we have had on our committee.

Mr. OBERSTAR. Mr. Speaker, reclaiming my time under my reservation of objection, I thank the gentleman and am certainly glad he cited the staff, because they certainly have worked hard and cooperatively all the way through this legislation.

The gentleman's statement underscores the success of the Committee on Transportation and Infrastructure. In a Congress that has been getting a bad rap for gridlock, this committee has worked together and achieved an extraordinary record of accomplishment. Just before the August break, it was 26 percent of all the bills that have passed the House enacted into law were bills from this committee.

□ 2000

Our percentage has dropped only because other committees have awakened and have risen to the challenge and the examples set by the Committee on Transportation and Infrastructure. But again, it is due to the partnership and the cooperation we have achieved, I think, at the level of the chairman and ranking member.

Mr. Speaker, I rise in strong support of the Motor Carrier Safety Improvement Act of 1999. We originally passed this bill on October 14, but the Other Body has not completed work on its version of the bill. In order to make it possible to send a bill to the President before we adjourn, we have worked with the Senate Commerce Committee on a bipartisan basis to develop a bill that combines the best features of our bill and the companion motor carrier safety bill introduced in the Other Body. Our aim is to pass this compromise legislation in both Houses prior to adjournment and to send it to the President for his signature.

I am very pleased with the Motor Carrier Safety Improvement Act of 1999. This is a good bill. It preserves all the strong safety provisions in the House bill, and adds provisions from the Senate bill that will further enhance safety. A strong House bill has been made even stronger.

I want to commend our Committee Chairman, Mr. SHUSTER, Chairman PETRI of the Ground Transportation Subcommittee, and Subcommittee Ranking Member RAHALL for their diligent efforts in developing this bill. This important legislation will give federal government the direction, the incentives, and the resources needed to improve the safety of large trucks on our highways. Every year, crashes involving large trucks kill more than 5,300 people and injure about 130,000 people. On average, there are 14 deaths and 350 injuries every day of the year. Unless the federal safety program is significantly improved, there will be more deaths and injuries as the number of miles traveled by large trucks increases. This is not acceptable.

The Inspector General of the Department of Transportation, the General Accounting Office, and Norm Mineta, a former Chairman of our Surface Transportation Subcommittee and Full

Committee, have concluded that the federal government's program to ensure the safety of motor carriers has major deficiencies. Their studies found that DOT has not been conducting enough commercial vehicle and driver inspections; and that the penalties imposed for violations are too low to deter future violations.

The studies also found that DOT rarely completes needed safety regulations on time. More than 20 motor carrier safety rulemakings have been in process for between three and nine years. These rulemakings involve important safety issues such as hours-of-service limits, motor carrier permits for carrying hazardous materials, and training standards for entry-level drivers.

DOT's databases are incomplete and unreliable; DOT lacks adequate personnel and facilities at our borders; and perceived conflicts of interest have undermined the credibility of DOT's research program.

Since these troubling reports by the IG and others were issued, the Secretary of Transportation, to his credit, has taken important steps to enhance the effectiveness of the motor carrier safety program. We support the Secretary's efforts. The legislation we have written will enhance these efforts and give DOT the resources needed to carry out the job.

There are four principles, I believe, that any good motor carrier safety bill should include—safety as the primary mission; sound credible research as the foundation for policy; vigorous oversight and enforcement; and adequate resources. This bill addresses each of these principles.

The bill creates a new Administration, the Federal Motor Carrier Safety Administration, without DOT. The bill gives the new Administration the direction, the incentives, and the resources it will need to improve motor carrier safety. The new Administration will also include a regulatory ombudsman, with authority to expedite rulemaking by assigning the necessary staff and resolving disagreements within the new agency.

The bill follows the model of the Federal Aviation Act of 1958, which established the Federal Aviation Administration to improve aviation safety. The bill directs the new Federal Motor Carrier Safety Administration to consider the assignment and maintenance of safety as the highest priority, recognizing the clear intent, encouragement, and dedication of Congress to the furtherance of the highest degree of safety in motor carrier transportation.

The bill requires the Secretary to develop a long-term strategy for improving motor carrier safety. Specific, measurable goals must be established to carry out the strategy, and estimates of funds and staff resources needed to accomplish the goals must be submitted to Congress annually.

The three top officials of the new Administration (the Administrator, Deputy Administrator, Chief Safety Officer) and the Administration's regulatory ombudsman are each required to sign a performance agreement with specific measurable goals to carry out this strategy, including increasing the number of inspections and compliance reviews, eliminating the backlog in rulemaking and enforcement cases, improving the quality and effectiveness of databases, and increasing inspection resources at the border. An official's

progress toward meeting the goals is to be given substantial weight when bonuses and other achievement awards are dispersed within the Department.

The bill will give the Administration the resources it will need to do a better job. The bill provides a significant increase in guaranteed and authorized funding for motor carrier safety programs. Funding for personnel and resources of the new Administration will be 70 percent higher (an average of \$38 million per year) than current staffing for the Office of Motor Carrier Safety. The additional funding will enable the Motor Carrier Administration to hire more federal inspectors, and more attorneys to complete rulemakings. The bill also provides an additional \$55 million per year of guaranteed funding for motor carrier safety grants. In addition, the bill authorizes \$75 million per year, subject to appropriation, for motor carrier safety grants above the guaranteed level.

The bill makes numerous programmatic changes to improve safety by keeping dangerous drivers off the roads and enhancing oversight. The bill improves the consistency of Commercial Driver's Licenses by closing loopholes in record keeping, establishing tougher penalties for crashes that cause fatalities, and authorizing DOT to decertify the CDL programs of States that do not comply with national requirements.

Trucks entering the United States will face more comprehensive oversight when DOT implements new staffing standards for inspectors at our international borders. Violators of safety laws and regulations will face penalties high enough to promote future compliance. Maximum fines will be assessed for repeat offenders as well as a pattern of violations of our safety laws and regulations.

A comprehensive study of crash causation along with an enhanced data collection effort will help DOT and the States target their education, oversight, and enforcement activities to address the most serious contributors to crashes.

I want to again commend Chairmen SHUSTER and PETRI, and Ranking Democratic Member RAHALL, for their efforts to develop this strong motor carrier safety bill. I urge my colleagues to support the bill.

Mr. Speaker, I include for the RECORD the following statement from Secretary Slater supporting the committee's action and supporting this bill:

STATEMENT OF U.S. TRANSPORTATION SECRETARY SLATER SUPPORTING THE MOTOR CARRIER SAFETY IMPROVEMENT BILL

I am gratified that the Congress is moving swiftly to pass the "Motor Carrier Safety Improvement Act of 1999" (H.R. 3419). This bill would give the U.S. Department of Transportation and states additional tools to significantly improve commercial motor carrier safety across the country and at our borders. President Clinton has made clear that safety is the highest priority for the Department of Transportation. The Administration strongly supports passage of H.R. 3419.

The leadership of House Transportation and Infrastructure Committee Chairman Bud Shuster and Ranking Member Jim Oberstar, and Senate Commerce Committee Chairman John McCain and Ranking Member Ernest Hollings was critical to this agreement.

This legislation is truly a broad-based, bipartisan effort and, if enacted, will reduce motor carrier crashes and save lives. It incorporates initiatives from Senate and House proposals; the Administration's proposal; a safety audit by the Department's Inspector General, Kenneth M. Mead; a review conducted for the Department by former House Public Works and Transportation Committee Chairman Norman Y. Mineta; and recommendations from labor, safety groups, industry, and state and local governments.

The bill would create a new Federal Motor Carrier Safety Administration focused on safety as its highest priority. I support that safety emphasis wholeheartedly and applaud other provisions to increase resources and regulatory and enforcement tools. Among the significant provisions are:

Commercial Driver's License Program. Comprehensive improvements would be made to the Commercial Driver's License (CDL) program. These would allow the Department and its state partners to more effectively identify problem drivers, take appropriate remedial action, and get high-risk drivers off the road.

New Entrants. A "new entrants" program would permit the Department and states to ensure the safety fitness of newly-formed motor carrier companies. New applicants for authority would demonstrate their knowledge of safety regulations, and the Department would be challenged to review the safety of new carriers within the first 18 months of operation.

Foreign Carriers. The Department would gain strong new sanctions to prevent foreign carriers from operating illegally in the United States. The Department would deny entry to carriers that are not properly registered and impose stiff fines on violators. If carriers operate outside the scope of their registration authority, their trucks would be placed out-of-service at the roadside.

Data Collection to Target Problems. New data and analysis tools would help the Department determine why truck and bus crashes happen and identify the best prevention measures. H.R. 3419 would fund a major crash causation study and put into place a new system for collecting crash data nationally. The bill would also require motor carriers to update their records with the Department, helping us to focus enforcement resources on carriers that present the greatest safety risk.

Increased Resources. With passage of this bill, states would receive a major boost in resources to conduct more inspections of vehicles, drivers, and carriers. They would be able to implement innovative new safety countermeasures, keep more complete records on driver violations, and greatly strengthen enforcement programs.

I urge the Congress to act expeditiously to approve the "Motor Carrier Safety Improvement Act of 1999." I believe we have a singular opportunity now to make major strides toward improving motor carrier safety and achieving the Administration's 50 percent fatality reduction goal. We at the Department look forward to working with all our partners in continuing these critical efforts to save lives and make our nation's highways safer.

Mr. Speaker, I concur with the statement of the chairman of the committee on the remarks and the document that he will include in the RECORD that serve as a joint statement of managers for this legislation.

Mr. SHUSTER. Mr. Speaker, if the gentleman will continue to yield, I am

submitting for the RECORD the joint explanatory materials I referred to above:

INTRODUCTORY NOTE TO JOINT EXPLANATORY MATERIALS

We are pleased to submit the accompanying Joint Explanatory Statement of the Motor Carrier Safety Improvement Act. These materials explain the provisions of the bill in detail. On September 24, the Committee on Transportation and Infrastructure filed its report (H. Rept. 106-333) on H.R. 2679, its Motor Carrier Safety Act, to establish a separate motor carrier administration at the Department of Transportation and to make reforms to the commercial driver's license program and related motor carrier safety programs. The House overwhelmingly passed H.R. 2679 on October 14. The Senate introduced S. 1501, the Motor Carrier Safety Improvement Act, in August but took no further action on the bill.

To expedite enactment of the significant motor carrier safety reforms included in this bill, the leadership of the House Transportation and Infrastructure Committee has worked with the Senate Commerce, Science, and Transportation Committee in developing the bill. This Joint Explanatory Statement therefore represents the views of the Chairmen and Ranking members of the Transportation and Infrastructure Committee and the Ground Transportation Subcommittee, along with the Chairman and Ranking Member of the Senate Commerce Committee.

This Joint Explanatory Statement will provide legislative history for interpreting this important safety legislation.

JOINT EXPLANATORY STATEMENT OF THE HONORABLE BUD SHUSTER, THE HONORABLE JAMES OBERSTAR, THE HONORABLE THOMAS PETRI, THE HONORABLE NICK RAHALL, THE HONORABLE JOHN MCCAIN AND THE HONORABLE ERNEST HOLLINGS ON H.R. 3419: MOTOR CARRIER SAFETY IMPROVEMENT ACT OF 1999

Section 1. Short Title; Table of contents

The provision provides that this Act may be cited as the "Motor Carrier Safety improvement Act of 1999." The section also includes a table of contents for the bill.

Sec. 2. Secretary defined

The provision defines the term "Secretary" to mean the Secretary of Transportation.

Sec. 3. Findings

The provision makes eight findings on motor carrier safety. Among other findings, Congress finds that the current rate, number, and severity of crashes involving motor carriers are unacceptable; the number of Federal and State motor carrier compliance reviews and commercial motor vehicle and operator inspections is insufficient; civil penalties for violators must be utilized to deter future violations; and meaningful measures to improve safety must be implemented expeditiously to prevent increases in motor carrier crashes, injuries, and fatalities. Congress further finds that proper use of Federal resources is essential to the Department of Transportation's ability to improve its research, rulemaking, oversight, and enforcement activities.

Sec. 4. Purposes

The provision lists the purposes of this Act as improving the administration of the Federal motor carrier safety program by establishing a Federal Motor Carrier Safety Administration in the Department of Transportation and by enacting measures to reduce the number and severity of large truck-involved crashes through increased inspections

and compliance reviews, stronger enforcement measures, expedited rulemakings, scientifically sound research, and improvements to the commercial driver's license program.

TITLE I—FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

Sec. 101. Establishment of Federal Motor Carrier Safety Administration

Subsection 101(a) adds a new section 113 to title 49, United States Code, to establish, as a separate administration within the Department of transportation, the Federal Motor Carrier Safety Administration (FMCSA). The managers note that Section 101 provides that "in carrying out its duties, the Administrator shall consider the assignment and maintenance of safety as the highest priority." This subsection is modeled on provisions which govern the activities of the Federal Aviation Administration and the Secretary of Transportation's responsibilities for the regulation of air transportation. See 49 U.S.C. 40101(a)(1) & (d) and 49 U.S.C. 47101(a)(1). The Managers intend that new section 101 be interpreted and implemented in the same manner as the above-listed provisions in the laws governing aviation.

The Administration is headed by a Presidentially appointed, Senate-confirmed Administrator with professional experience in motor carrier safety; a Deputy Administrator appointed by the Secretary with the approval of the President, and a Chief Safety Officer appointed in the competitive service. In addition to any duties and powers prescribed by the Secretary, the Administrator shall carry out the duties and powers related to motor carriers and motor carrier safety set forth in chapters 5, 51, 55, 57, 59, 133 through 149, 311, 313, 315, and 317 of title 49, United States Code, and 42 U.S.C. 4917.

Subsection (b) provides dedicated funding for the administrative and research expenses of the FMCSA. This subsection increases funding 70 percent (an average of \$38 million per year) above the level currently provided within the Federal Highway Administration, to improve the motor carrier safety research, rulemaking, oversight, and enforcement activities transferred to the FMCSA.

Subsections (c) and (d) make conforming amendments to titles 5 and 49, United States Code.

Subsection (e) caps the employment level currently at the Office of Motor Carrier Safety at its headquarters location in fiscal year 2000, except for staff transferred to the Office from the Federal Highway Administration, for fiscal year 2000. The cap includes Office of Motor Carrier Safety staff and FHWA transferred employees (FTEs) who were already dedicated to motor carrier safety matters when the Office of Motor Carrier Safety was established in October 1999. It does not preclude further transfers from the FHWA to the FMCSA during fiscal year 2000.

The Congress has provided additional motor carrier safety funding and expects those resources to be dedicated toward increased motor carrier safety enforcement and inspection activities and to expedite rulemakings. The cost of unnecessary headquarters administrative or overhead positions, including public affairs officers, congressional liaison representatives and other nonsafety-related positions, is not a proper use of the additional authorized funding. These headquarters' officials are not involved in carrying out safety responsibilities such as developing policies and regulations to enforce motor carrier safety laws.

Subsection (e) requires the Secretary to report to the Senate Committee on Commerce,

Science, and Transportation and the House Committee on Transportation and Infrastructure on the specific FMCSA personnel requested for each of fiscal years 2001, 2002, and 2003. The Secretary's justifications for any additional FMCSA headquarters' administrative or overhead positions shall include detailed descriptions of the specific needs to be addressed by the additional personnel. Such justifications must be submitted to allow sufficient time for the Committees to review the Secretary's request.

Subsection (f) provides that the authority to promulgate safety standards for commercial motor vehicles and equipment subsequent to initial manufacture is vested in the Secretary of Transportation and may be delegated.

Subsection (g) requires the Secretary to comply with the requirements of a discretionary departmental regulation, at 48 C.F.R. 1252.209-70, concerning the disclosure of conflicts of interest in research contracts, and to include the text of such regulation in each such contract. This requirement is Department wide. This subsection also calls for a study to determine the effectiveness of this requirement. Eliminating or mitigating conflicts of interest will increase the likelihood that the research results will be more widely accepted and therefore be a more acceptable basis for policy decisions.

The managers note the bill does not establish any specific offices of the FMCSA because the Secretary is best positioned to determine the specific organizational structure of the Administration. The Congress intends for the Secretary to organize the new agency in a manner and structure that adequately reflects the unique demands of passenger vehicle safety, international affairs, and consumer affairs.

Sec. 102. Revenue aligned budget authority

Subsection 102(a) amends section 110 of title 23, United States Code, concerning revenue aligned budget authority, to include the motor carrier safety assistance program (MCSAP) in the group of programs for which funding is annually adjusted to correspond to Highway Trust Fund receipts.

Subsection (b) makes a number of technical and conforming amendments, including the relocation of a second section 110, concerning uniform transferability of Federal-aid highway funds, to a section 126 of title 23, United States Code.

Sec. 103. Additional funding for Motor Carrier Safety Grant Program

Subsection 103(a) authorizes an additional \$75 million from the Highway Trust Fund for each of fiscal years 2001 through 2003 for the motor carrier safety assistance program.

Subsection (b) amends section 4003 of the Transportation Equity Act for the 21st Century (TEA 21) to increase the amount of guaranteed funding provided in TEA 21 for the motor carrier safety assistance program by the following amounts: \$65 million for each of fiscal years 2001 through 2003. This subsection also amends section 1102 of TEA 21 to reduce the obligation ceiling for federal-aid highways and highway safety construction programs by \$65 million for each of fiscal years 2001 through 2003.

Subsection (c) establishes a maintenance of effort requirement for States receiving MCSAP funds under this section. Each State must maintain its spending for MCSAP-eligible activities at a level equal to the average annual level of expenditures for MCSAP activities for fiscal years 1997, 1998, and 1999.

Subsection (d) permits the Secretary to provide emergency grants of up to \$1 million

to a State that is having difficulties in meeting the requirements associated with the commercial driver's license program and is in danger of having its program suspended due to noncompliance.

Subsection (e) provides that if a State is not in substantial compliance with each requirement of 49 U.S.C. 31311, concerning commercial driver's licensing, the Secretary shall withhold any allocation of MCSAP funds authorized under this section. This subsection also provides that it, before June 30 of the fiscal year in which it was found in noncompliance, a State is found by the Secretary to be in substantial compliance with each requirement of section 31311 of such title, the Secretary shall allocate to the State the funds withheld under this subsection.

Sec. 104. Motor carrier safety strategy

Subsection 104(a) requires the Secretary of Transportation, as part of the Department's existing federally required strategic planning efforts required under GPRA, to develop and implement a long-term strategy, including an annual plan and schedule for improving commercial motor vehicle, operator, and carrier safety, and sets forth four goals to be included in the strategy. The goals are: (1) reducing the number and rates of crashes, injuries, and fatalities involving commercial motor vehicles, (2) improving enforcement and compliance programs, (3) identifying and targeting enforcement at a high-risk carriers, vehicles, and drivers, and (4) improving research.

Subsection (b) requires that goals be established that are designed to accomplish the safety strategy and that estimates be developed concerning the funding and staffing resources needed to accomplish the goals. By working toward the measurable goals, the Administration will also be progressing toward the strategic goals.

Subsection (c) requires the submission of the strategy and annual plan with the President's annual budget submission, starting with fiscal year 2001.

Subsection (d) establishes that for each of the fiscal years 2001 through 2003, the following officials shall enter into annual performance agreements between: (1) the Secretary and the Federal Motor Carrier Safety Administrator; (2) the Administrator and the Deputy Federal Motor Carrier Safety Administrator; (3) the Administrator and the Chief Safety Officer of the Federal Motor Carrier Safety Administration; and (4) the Administrator and the regulatory ombudsman designated by the Administrator. Each of these officials shall enter into a performance agreement that contains the appropriate numeric or measurable goals of the Administration's motor carrier safety strategy.

The provision requires that the Secretary assess the progress of the officials toward achieving their respective goals, and that the Secretary convey the assessments to the officials, identifying possible future performance improvements. An official's progress toward meeting the goals of a performance agreement is to be given substantial weight by the Secretary when bonuses or other achievement awards are dispersed consistent with the Department's established performance appraisal system.

Subsection (e) requires that the Secretary and the Administrator of the FMCSA assess the progress of the Administration toward achieving the goals set out in subsection (a) no less frequently than semiannually. The assessment should be conveyed to the employees of the FMCSA, and deficiencies identified. The Secretary is required to report to

the Congress the results of the individual and Administration progress assessment annually.

Subsection (f) requires the Administrator of the FMCSA to designate a regulatory ombudsman to expedite rulemakings in order to meet statutory and internal departmental deadlines.

Sec. 105. Commercial motor vehicle safety advisory committee

The provision permits the establishment of a commercial motor vehicle safety advisory committee to provide advice and recommendations on a range of commercial motor vehicle safety issues. Members are appointed by the Secretary and include representatives of industry, drivers, safety advocates, manufacturers, safety enforcement officials, representatives of law enforcement agencies from border States, and other individuals affected by rulemakings. No one interest may constitute a majority. If the Secretary establishes the advisory committee, it should provide advice to the Secretary on commercial motor vehicle safety regulations and other matters relating to activities and functions of the Federal Motor Carrier Safety Administration. The committee will remain in effect until September 30, 2003.

Sec. 106. Savings provision

The savings provision is intended to provide for the orderly transfer of personnel and property from the Office of Motor Carrier Safety to the FMCSA. The provision is also intended to ensure that legal documents and requirements that had been in effect on the date of the transfer, and proceedings in effect, will continue as if the Act had not been enacted. The savings provision also provides that lawsuits commenced against the Office of Motor Carrier Safety or its employees, in their official function, continue as if this Act had not been enacted. Further the provision assures the authority of officials of the FMCSA to continue the functions and performances that had been previously performed by officials of the Office of Motor Carrier Safety, and deems any reference to the Office of Motor Carrier Safety, or its predecessors, to apply to the FMCSA.

Sec. 107. Effective date

Subsection 107(a) provides that this Act shall take effect on the date of its enactment; except that the amendments made by section 101 which establish the Federal Motor Carrier Safety Administration, shall take effect on January 1, 2000.

Subsection (b) requires that the President's budget submission for fiscal year 2001 and each fiscal year thereafter reflect the establishment of the Federal Motor Carrier Safety Administration in accordance with this Act.

TITLE II—COMMERCIAL MOTOR VEHICLE AND DRIVER SAFETY

Sec. 201. Disqualifications

Subsection 201(a) amends section 31310 of title 49, United States Code, to make a single violation of driving a commercial motor vehicle with a revoked, suspended, or canceled commercial driver's license, or driving while disqualified, a one-year disqualifying offense, and to make a conviction for causing a fatality through the negligent or criminal operation of a commercial motor vehicle a one-year disqualifying offense. This subsection also makes the commission of more than one violation of driving a commercial motor vehicle with a revoked, suspended, or canceled commercial driver's license, or driving while disqualified, a lifetime disqualifying offense, and to make a conviction of more than one

offense of causing a fatality through the negligent or criminal operation of a commercial motor vehicle a lifetime disqualifying offense.

Subsection (b) amends section 31310 to give the Secretary emergency disqualification authority to revoke the commercial driving privileges of an individual upon a determination by the Secretary that allowing the individual to continue to operate a commercial motor vehicle would create an imminent hazard. The Secretary can disqualify an individual under this provision for no more than 30 days without providing notice and an opportunity for a hearing.

Subsection (b) also amends section 31310 to require the Secretary to issue regulations establishing criteria for disqualifying from operating a commercial motor vehicle an individual who holds a commercial driver's license and who has been convicted of a serious offense involving a vehicle other than a commercial motor vehicle (CMV) resulting in the revocation, cancellation, or suspension of the individual's license, or has been convicted of a drug or alcohol-related offense involving a motor vehicle other than a commercial motor vehicle. The behavior of a CDL holder in operating vehicles other than CMV's is relevant to the CDL holder's fitness to operate a commercial motor vehicle; therefore the Secretary is directed to conduct a rulemaking to determine the appropriate minimum time periods for which a CDL holder should be disqualified, but in no case shall the time periods for which CDL holders are disqualified for such offenses be more stringent than the disqualification periods for offenses involving a commercial motor vehicle.

Subsection (c) amends section 31301 of title 49, United States Code, to add three offenses to the list of serious traffic violations for which a CDL holder can be disqualified under subsection 31310(e). The new offenses are: driving a CMV without obtaining a CDL; driving a CMV without a CDL in your possession; and driving without a required endorsement. But it shall not be a serious traffic violation if a driver cited for operating a CMV without a license in his or her possession can produce proof, before the time to appear or pay the fine for such citation, that he or she did have a valid CDL at the time of the citation.

Subsection (d) makes clarifying amendments to section 31305(b)(1) of title 49, United States Code.

Sec. 202. Requirements for State participation

Subsection 202(a) amends section 31311(a)(6) of title 49, United States Code, to require a State to request, before renewing an individual's CDL, all information about the driving record of such individual from any other State that has issued a driver's license to the individual.

Subsection (b) amends section 31311(a)(8) of such title to require a State, when notifying the Secretary, the operator of CDLIS, and the issuing State of the disqualification, revocation, suspension, or cancellation of a CDL holder's commercial driver's license, to also notify such entities of the underlying violation that resulted in such disqualification, revocation, suspension, or cancellation.

Subsection (c) revises 31311(a)(9) of such title to require a State to notify a CDL holder's home State of any violation of traffic laws committed by the CDL holder, not just violations involving a commercial motor vehicle. The subsection also requires a State to notify any State that has issued a driver's license (non-CDL) to an individual of any violation committed while the individual is operating a CMV.

Subsection (d) amends section 31311(a)(10) of such title to provide that a State may not issue any form of special license or permit, including a provisional or temporary license, to a CDL holder that would permit the CDL holder to drive a CMV during a period in which the CDL holder's license is revoked, suspended, or canceled, or the CDL holder is disqualified from operating a CMV.

Subsection (e) revises 31311(a)(13) of title 49 to provide that a State may establish penalties, with the Secretary's approval, that are consistent with chapter 313, for violations committed by an individual operating a commercial motor vehicle.

Subsection (f) adds a new paragraph 31311(a)(18) to title 49 to require the State to maintain, as part of its driver information system, a record of each violation of motor vehicle traffic control laws committed by a CDL holder, and to make to such record available upon request to the individual driver, the Secretary, employers, prospective employers, State licensing and law enforcement agencies, and their authorized agents.

Subsection (g) adds a new paragraph 31311(a)(19) to title 49 to prohibit both conviction masking and deferral programs by requiring every State to keep a complete driving record of all violations of traffic control laws (including CMV and non-CMV violations) by any individual to whom it has issued a CDL, and to make each such complete driving record available to all authorized persons and governmental entities having access to such record. This provision provides that a State may not allow information regarding such violations to be masked or withheld in any way from the record of a CDL holder.

Subsection (g) also adds a new paragraph 31311(a)(20) to title 49 to require each State to comply with the requirements of the regulation issued under 31310(g) of such title.

Sec. 203. State noncompliance

Section 203 clarifies the Secretary's authority to shut down a State's CDL program if a State is not substantially complying with Federal CDL requirements. The section permits a CDL holder or applicant to go to another State for licensing or renewal if his/her home state program has been shut down for noncompliance. This provision does not invalidate or otherwise affect commercial driver's licenses issued by a State before the State's CDL program was found to be non-compliant and shut down.

Sec. 204. Checks before issuance of driver's licenses

Section 204 amends section 30304 of title 49, United States Code, to require a State, before issuing or renewing any motor vehicle operator's license to an individual, to query both the National Driver Register (NDR) and the commercial driver's license information system (CDLIS). The intent of this provision is to close a loophole in the CDL program identified in the Department of Transportation's CDL Effectiveness Study, whereby a driver currently holding a valid CDL applies for a non-CDL without revealing or surrendering the CDL. Without a check of both NDR and CDLIS, the fact that the driver already holds a CDL at the time of application for a non-CDL can go undetected, thus defeating the fundamental "one driver, one license" principle behind the CDL program that prevents drivers from spreading multiple convictions over multiple licenses. The provision also amends section 31311(a)(6) to require that before issuing or renewing a commercial driver's license, the State shall request from any other State that has issued

a driver's license to the individual all information about the driving record of the individual.

Sec. 205. Registration enforcement

The provision adds new subsection 13902(e) to authorize the Secretary to put a carrier out of service upon finding that the carrier is operating without authority or beyond the scope of its authority. Foreign motor carriers who operate vehicles in the U.S. are not permitted to operate in interstate commerce without evidence of registration in each motor vehicle.

SEC. 206. Delinquent payment of penalties

Subsection (a) amends section 13905(c) of title 49, United States Code, to provide that registration of a carrier, broker, or freight forwarder may be suspended, amended, or revoked for failure to pay civil penalty, or arrange and abide by a payment plan, within 90 days of the time specified by order of the Secretary for the payment of such penalty. This provision does not apply to a person unable to pay assessed penalties because a person is a debtor in a case under chapter 11 of title 11, United States Code.

Subsection (b) amends section 521(b) of title 49, United States Code, to provide that an owner or operator of a commercial motor vehicle who fails to pay an assessed civil penalty or fails to arrange and abide by an acceptable payment plan for such civil penalty, within 90 days of the time specified by order of the Secretary for the payment of such penalty, may not operate in interstate commerce. This provision does not apply to a person unable to pay assessed penalties because the person is a debtor in a case under chapter 11 of title 11, United States Code.

Sec. 207. State cooperation in registration enforcement

The provision amends section 31102(b) of title 49, United States Code, to clarify that State motor carrier plans shall ensure State cooperation in enforcement of registration and financial responsibility requirements in sections 13902, 13906, 31138 and 31139 of such title.

Sec. 208. Imminent hazard

The provision revises the definition of imminent hazard in section 521(b)(5)(B) of title 49, United States Code, to refer to a condition that "substantially increases the likelihood of" serious injury or death.

Sec. 209. Household goods amendments

Subsection 209(a) is a technical amendment to the definition of household goods in section 13102(10)(A) of title 49, United States Code, regarding certain property moving from a store or factory.

Subsection (b) increases the limit for mandatory arbitration under section 14708(b)(6) of such title from \$1,000 to \$5,000.

Subsection (c) requires a General Accounting Office study on the effectiveness of DOT enforcement of household goods consumer protection rules and other potential methods of enforcement, including State enforcement.

Sec. 210. New motor carrier entrant requirements

This provision requires the Secretary to initiate a rulemaking to establish minimum requirements for new motor carriers to ensure applicant carriers are knowledgeable about applicable Federal motor carrier safety standards. It requires motor carrier owners and operators who were granted new operating authority to be reviewed by a safety inspector within eighteen months of commencing operations. The provision requires the Secretary, in establishing the elements

of the safety review, to consider the impact on small businesses and to consider establishing alternative locations for conducting such reviews. It also allows the new entrant review requirements to be phased in over time to take into account the availability of certified motor carrier safety auditors and provides for designating new motor carriers as "new entrants" until the required review is completed.

Sec. 211. Certification of safety auditors

The provision requires the Secretary to complete a rulemaking within one year of enactment to improve training and provide for the certification of motor carrier safety auditors, including private contractors, to conduct safety inspection audits. The provision prohibits private contractors from issuing safety ratings or operating authority, and authorizes the Secretary to decertify any motor carrier safety auditors.

Sec. 212. Commercial van rulemaking

This provision requires the Secretary to complete in one year an on-going rulemaking, Docket No. FHWA-99-5710, to determine which small passenger vans should be covered by Federal motor carrier safety regulations. At a minimum, the rulemaking shall apply safety regulations to commercial vans referred to as "camionetas"—carriers providing international transportation between points in Mexico and points in the United States—and to commercial vans operating in interstate commerce outside commercial zones that have been determined to pose serious safety risks. In no case should the rulemaking be concluded to exempt all small commercial passenger carrying vans.

The managers note there have been a number of fatal accidents involving small passenger vans known as camionetas particularly in the Southern border States. In an effort to address this safety problem, the Congress has acted on two separate occasions directing the Secretary to apply Federal motor carrier safety regulations to these passenger vans. First, the definition of passenger vans was amended as part of the ICC Termination Act of 1995 with the intent of applying safety regulations to these carriers. However, the Department took no action based on this statutory requirement. Due to the lack of action by the Department to regulate these vehicles, the Congress again directed the Department to apply certain motor carrier safety regulations to those vans in the Transportation Equity Act for the 21st Century (TEA 21). The TEA 21 provision required that all commercial vans carrying more than 8 passengers to be covered by most Federal motor carrier safety rules by June 1999, except to the extent DOT exempted operations as it determined appropriate through rulemaking. The Department took no action to even initiate the statutory rulemaking by the June deadline. On September 3, 1999, the Department finally issued a rule but it actually exempted the entire class of vehicles from regulation until further notice. The managers find the Department's blatant misinterpretation of the statute unacceptable. Therefore, a provision has been included in this bill directing the Secretary to finally address this identified safety problems.

Sec. 213. 24-hour staffing of telephone hotline

The provision amends section 4017 of TEA 21 to require that the Department's toll-free telephone hotline for reporting safety violations be staffed 24 hours a day, 7 days a week, by individuals knowledgeable about Federal motor carrier safety regulations and procedures. This section also increases the funding authorization for the hotline to the

level of the Department of Transportation's estimate of the cost of 24-hour coverage.

Sec. 214. CDL school bus endorsement

The provision requires the Secretary to conduct a rulemaking to establish a special CDL endorsement for drivers of school buses. The section requires, at a minimum, that the endorsement (1) include a driving skills test in a school bus, and (2) address proper safety procedures for loading and unloading children, using emergency exits, and traversing highway grade crossings.

Sec. 215. Medical certificate

The provision requires the Secretary to initiate a rulemaking to provide for the Federal medical qualification certificate to be made part of the commercial drivers' license.

Sec. 216. Implementation of inspector general recommendations

The provision requires the Secretary to implement all the DOT Inspector General's motor carrier safety improvement recommendations contained in the IG's April 1999 report assessing the effectiveness of DOT's motor carrier safety program, except to the extent to which such recommendations are specifically addressed in sections 206, 208, 217, and 222 of this Act. These recommendations, found on pages 17, 18, 26, and 27 of the IG report, are as follows:

Recommendations to Improve the Effectiveness of Motor Carrier Safety Enforcement:

1. Strengthen its enforcement policy by establishing written policy and operating procedures to take strong action against motor carriers with repeat violations of the same acute or critical regulation. Strong enforcement actions would include assessing fines at the statutory maximum amount, the issuance of compliance orders, not negotiating reduced assessments, and when necessary, placing motor carriers out of service.

2. Remove all administrative restrictions on fines placed in the Uniform Fine Assessment program and increase the maximum fines to the level authorized by TEA-21.

3. Establish stiffer fines that cannot be considered a cost of doing business and, if necessary, seek appropriate legislation raising statutory penalty ceilings.

4. Implement a procedure that removes the operating authority from motor carriers that fail to pay civil penalties within 90 days after final orders are issued or settlement agreements are completed.

5. Establish criteria for determining when a motor carrier poses an imminent hazard.

6. Require follow-up visit and monitoring of those motor carriers with a less-than-satisfactory safety rating, at varying intervals, to ensure that safety improvements are sustained, or if safety has deteriorated that appropriate sanctions are invoked.

7. Establish a control mechanism that requires written justification by the OMC State Director when compliance reviews of high-risk carriers are not performed.

8. Establish a written policy and operating procedures that identify criteria and time frames for closing enforcement cases, including the current backlog.

Recommendations for Data Enhancement:

1. Require applicants requesting operating authority to provide the number of commercial vehicles they operate and the number of drivers they employ and require all motor carriers to periodically update this information.

2. Revise the grant formula and provide incentives through MSCAP grants for states to provide accurate, complete and timely commercial vehicle crash reports, vehicle and

driver inspection reports and traffic violation data.

3. Withhold funds from MCSAP grants for those States that continue to report inaccurate incomplete and untimely commercial vehicle crash data, vehicle and driver inspection data and traffic violation data within a reasonable notification period such as one year.

4. Initiate a program to train local enforcement agencies for reporting of crash, roadside inspection data including associated traffic violations.

5. Standardize OMC and NHTSA crash data requirements, crash data collection procedures, and reports.

6. Obtain and analyze crash causes and fault data as a result of comprehensive crash evaluations to identify safety improvements.

The provision requires that every 90 days, beginning 90 days after enactment, the Secretary provide status reports on the implementation of recommendations. The IG would also be directed to provide the Committees with assessments of the Secretary's progress. The IG report shall include an analysis of the number of violations cited by safety inspectors, the level of fines assessed and collected for such violations, the number of cases in which there are findings of extraordinary circumstances under section 222(c) of this Act, and the circumstances in which such findings are made.

Sec. 217. Periodic refilling of motor carrier, identification reports

The provision requires periodic updating, but not more frequently than once every two years, of the Motor Carrier Identification Report, Form MCS-150, filed by each motor carrier conducting operations in interstate or foreign commerce. An initial updating of the information is required within 12 months from enactment of the Act.

Sec. 218. Border staffing standards

Subsection 218(a) requires the Secretary to develop and implement appropriate staffing standards for Federal and State motor carrier safety inspectors in international border areas.

Subsection (b) lists the factors to be considered in developing the staffing standards. These include the volume of traffic, hours of operation of the border facilities, types of commercial motor vehicles (including passenger vehicles) and cargo in the border areas, and the responsibilities of Federal and State inspectors.

Subsection (c) prohibits the United States and any State from reducing its respective level of motor carrier safety inspectors in an international border area below the level of such inspectors in fiscal year 2000.

Subsection (d) provides that if, by October 1, 2001, and each fiscal year thereafter, the Secretary has not ensured that appropriate levels of staffing consistent with the staffing standards are deployed in international border areas, the Secretary should allocate five percent of motor carrier safety assistance program funds for border commercial motor vehicle and safety enforcement programs.

Sec. 219. Foreign motor carrier penalties and disqualifications

Subsection 219(a) provides for civil penalties and disqualifications for foreign motor carriers that operate, before implementation of the land transportation provisions of NAFTA, without authority outside of a commercial zone.

Subsection (b) provides that the civil penalty for an intentional violation shall not be more than \$10,000 and may include disqualification from operating in U.S. for not more than 6 months.

Subsection (c) provides that the civil penalty for a pattern of intentional violations shall not be more than \$25,000; the carrier shall be disqualified from operating in the U.S., and that such disqualification may be permanent.

Subsection (d) prohibits any foreign motor carrier from leasing its motor vehicles to any other carrier to transport property in the U.S. during any period in which a suspension, condition, restriction, or limitation imposed under 49 U.S.C. 13902(c) applies to the foreign carrier.

Subsection (e) provides that no provision may be enforced if inconsistent with international agreements.

Subsection (f) provides that acts committed without knowledge of the carrier or committed unintentionally are not grounds for penalty or disqualification.

Sec. 220. Traffic law initiative

The provision permits the Secretary to carry out a program with one or more States to develop innovative methods of improving motor carrier traffic law compliance, including the use of photography and other imaging technologies.

Sec. 221. State-to-State notification of violations data

The provision requires the Secretary to develop a uniform system to support the electronic transmission of data State-to-State on violations of all motor vehicle traffic control laws by individuals possessing a commercial driver's license.

Sec. 222. Minimum and maximum assessments

Subsection 222(a) directs the Secretary to ensure that motor carriers operate safely by imposing civil penalties at a level calculated to ensure prompt and sustained compliance with Federal motor carrier safety and commercial driver's license (CDL) laws.

Subsection (b) recommends the Secretary establish and assess minimum civil penalties for Federal motor carrier safety and CDL violations and requires the Secretary to assess the maximum civil penalty for repeat offenders or a pattern of violations.

Subsection (c) recognizes that extraordinary circumstances do arise that merit the assessment of civil penalties at a level lower than any level established under subsection (b) of this section. If the Secretary assesses such lower penalties, the Secretary must document the justification for them.

Subsection (d) requires the Secretary to conduct and submit to Congress a study of the effectiveness of revised civil penalties established in TEA 21 and this Act in ensuring compliance with Federal motor carrier safety and commercial driver's license laws.

Sec. 223. Motor carrier safety progress report

The provision directs the Secretary to submit a status report on the Department's progress in achieving its goal of reducing motor carrier fatalities by 50 percent by 2009.

Sec. 224. Study of commercial motor vehicle crash causation

Subsection (a) requires the Secretary to conduct a comprehensive study to determine the causes of, and contributing factors to, crashes involving commercial motor vehicles, including vehicles defined in section 31132(1)(B) of title 49, United States Code, and to identify the data requirements needed to improve the Department's and the States' ability to evaluate crashes and crash trends, identify crash causes and contributing factors, and develop safety measures to reduce such crashes.

Subsection (b) addresses the design of the study, requiring that it yield information to

help the Department and the States identify activities likely to lead to significant reductions in commercial motor vehicle-involved crashes including crashes by commercial vans.

Subsection (c) lists the areas of expertise of the people with whom the Secretary is required to consult in conducting the study.

Subsection (d) requires the Secretary to provide for public comment on various aspects of the study.

Subsection (e) requires the Secretary to submit the results of the study to Congress, review the study at least once every five years, and update the study and report as necessary.

Subsection (f) provides \$5 million in contract authority to carry out this section.

Sec. 225. Data collection and analysis

This provision directs the Secretary to carry out a program to improve the collection and analysis of data on commercial motor vehicle crashes, including crash causation. NHTSA, in cooperation with the new Federal Motor Carrier Safety Administration, is required to administer the program. It requires NHTSA to integrate driver citation and conviction information and provides \$5 million from the FMCSA's administrative takdown to fund this program. This section also provides \$5 million in contract authority for information systems under 49 U.S.C. 31106.

Sec. 226. Drug test results study

Subsection 226(a) directs the Secretary to conduct a study on the feasibility and merits of having medical review officers or employers report positive drug tests of CDL holders to the State that issued the CDL and requiring all prospective employers, before hiring any driver, to query the State that issued the driver's CDL on whether the State has on record any verified positive controlled substances test on such driver.

Subsection (b) lists factor to be considered in the study. They are: safeguarding confidentiality of test results; costs, benefits and safety impacts; and whether a process should be established to allow drivers to correct errors and expunge information from their records after a reasonable time.

Subsection (c) requires the Secretary to issue a report to Congress on the study within two years.

Sec. 227. Approval of agreements

Section 227 amends section 13703 of title 49, United States Code, by adding a new requirement to require the Surface Transportation Board to review every five years any agreement for any activities approved under section 13703. The provision also provides for the continuation of any pending cases before the Board, but prohibits certain nationwide agreements.

Sec. 228. DOT authority

This section clarifies Congressional intent with respect to the criminal investigative authority of the Department of Transportation Inspector General (IG).

When the Office of Motor Carrier Safety finds evidence of egregious criminal violations of motor carrier safety regulations through their regulatory compliance efforts, it refers these cases to the IG's Office of Investigations. Recently, a U.S. District Court concluded that an investigation undertaken by the IG exceeded its jurisdiction, see *In the Matter of the Search of Northland Trucking Inc.* (D.C. Arizona), finding that the motor carrier involved was not a grantee or contractor of the Department, nor was there evidence of collusion with DOT employees.

This narrow construction of the IG's authority is not well grounded in law, and the managers are concerned about the adverse impacts the Order could have on IG operations. This provision, therefore, clarifies Congressional intent with respect to the authority of the IG, reaffirming the IG's ability and authority to continue to conduct criminal investigations of parties subject to DOT laws or regulations, whether or not such parties receive Federal funds from the Department.

Mr. COSTELLO. Mr. Speaker, I rise today in support of H.R. 3419, which incorporates H.R. 2679, the Motor Carrier Safety Act. I am specially pleased to see that this bill includes provisions for Foreign Motor Carrier penalties and disqualifications.

Mexican-domiciled trucks are operating improperly in the United States and violate U.S. statutes by either not obtaining operating authority or operating beyond the scope of their authority. About 98% of these trucks are limited to operating within the commercial zones along the four southern border states, but Mexican trucks have been found as far away as Washington, New York and my home state of Illinois.

Mr. Speaker, in FY98, there were almost 24,000 safety inspections performed on drivers and/or vehicles of Mexico domiciled trucks. Forty one percent of these trucks failed to meet U.S. safety requirements, and were placed out of service for safety violations. Clearly, it is imperative that we keep these unsafe trucks off our highways.

Current law provides for only a \$500 fine for those trucks operating where they are not suppose to. This bill will increase penalties for those trucks that operate without authority, raising the fines to a \$10,000 fine and six month suspension maximum for the first offense and a \$25,000 fine and possibly permanent suspension for subsequent offenses, a measure I strongly support.

I believe that this will minimize the number of unsafe trucks on our highways, ensuring safer roads for everybody. By moving the Office of Motor Carriers from the Federal Highway Administration, it is my hope that the Office will have the power to enforce compliance to this legislation.

I urge my colleague to join me in supporting this bill.

Mr. WOLF. Mr. Speaker, I rise in support of the bill offered by the gentleman from Pennsylvania. The Motor Carrier Safety Improvement Act of 1999 forms a new motor carrier safety administration that is charged with improving motor carrier safety from its current deplorable state. This bill also includes a number of needed changes to the commercial drivers license program and motor carrier operations along our southern border. This is a good beginning.

For the past year, the House Appropriations Committee, and the Transportation and Infrastructure Committee, have been reviewing a variety of truck safety issues. What we found was appalling. The Office of Motor Carriers, which until recently has been housed within the Federal Highway Administration, has allowed motor carrier safety to decline dramatically. Last year 5,374 people died in truck related accidents. The year before that, 5,398 people died—a decade high. During this same period, safety reviews on trucking companies

dropped from 5 per month to one per month, and civil penalties declined to \$1,600. Because of this, and other problems, the Department of Transportation Inspector General, the chairman of the National Transportation Safety Board, trucking representatives, the law enforcement community, and safety advocates all agree that the Office of Motor Carriers has been ineffective in reducing trucking accidents and fatalities.

The bill before you will address many of the problems found by Congress and these groups. It will strengthen truck safety activities both at the federal and at the state levels. As noted, it creates a new safety administration, which as its name implies, will be focused on safety. It is critical Mr. Speaker, that the Secretary appoint a good and decent person to the position of administrator, who will focus on safety first, making it their daily goal to reduce the number of truck related fatalities on our nation's highways. This person should not only be knowledgeable in the area of truck safety but be free of any conflicts of interest.

Finally, Mr. Speaker, I'd like to express my appreciation, and that of the nation, to the gentleman from Pennsylvania for moving this bill. Because of his efforts, along with those of the gentlemen from Wisconsin, Minnesota and West Virginia, thousands of families across the country will be spared that terrible phone call informing them that a relative has been involved in an accident. I want the world to know Mr. Speaker, that because of Mr. SHUSTER's leadership on this issue, America's highways will be safer. He deserves our thanks.

Mr. MENENDEZ. Mr. Speaker, this bill makes our roads for drivers, passengers, and pedestrians. For too long, the Department of Transportation has neglected commercial passenger van safety. When the Transportation Equity Act for the 21st Century passed, I thought the DOT would address this issue because that was the intent of Section 4008 in the bill. Unfortunately, the DOT did not meet this intent since they chose to delay the application of Federal Motor Carrier Safety regulations to for-profit commercial passenger vans.

I am pleased that this bill forces the Department of Transportation to complete its rule-making and not exempt all for-profit commercial passenger van operators from the final rule when it is issued.

Another problem we have and that the bill addresses is the lack of data and information on the causes of and contributing factors to crashes involving commercial motor vehicles, specifically for-profit commercial passenger vans, regardless of where they originate. We have provided the DOT with the resources and guidance to complete a comprehensive study on this issue. It is my hope that this national study will give special attention to metropolitan areas like northern New Jersey.

I want to thank the Chairman, Mr. SHUSTER, and the Ranking Member, Mr. OBERSTAR, on these two important provisions which will lead to safer travel for all those who use our roads.

Mr. PETRI. Mr. Speaker, H.R. 3419—the Motor Carrier Safety Improvement Act of 1999—is a comprehensive bill that will improve truck and bus safety by strengthening Federal and State safety programs.

The bill creates a new Federal Motor Carrier Safety Administration within the U.S. Depart-

ment of Transportation (DOT) on January 1, 2000; increases funding from the Highway Trust Fund for Federal and State safety efforts; and, closes loopholes in the Commercial Driver's License (CDL) program.

For example, the bill gives the Secretary emergency authority to revoke the license of a truck or bus driver found to constitute an imminent hazard.

The Federal Motor Carrier Safety Administration is given increased funding for safety to allow for growth in the number of safety inspectors and in safety research.

The bill guarantees \$195 million over the next three years from the Highway Trust Fund for motor carrier safety grants. These grants fund State safety enforcement efforts. The bill also contains a number of programmatic reforms, including the closing of loopholes in the Commercial Driver's License, setting standards for fines, and improving border safety efforts.

I am submitting a Joint Explanatory Statement on the bill that explains the provisions of the bill in more detail.

It is critical that Congress enact this legislation before the end of the session since trucking safety functions of the Department are temporarily housed in the Office of the Secretary.

If we don't pass this legislation, I am afraid that this organizational limbo will continue.

The bill is very similar to the bill that passed the House earlier this year by a vote of 415 to 5, which had bipartisan support in Committee.

This is an important bill, that truly will improve highway safety. I urge passage of this legislation.

Mr. OBERSTAR. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The Clerk read the House bill, as follows:

H.R. 3419

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Motor Carrier Safety Improvement Act of 1999".

(b) TABLE OF CONTENTS.—

- Sec. 1. Short title; table of contents.
- Sec. 2. Secretary defined.
- Sec. 3. Findings.
- Sec. 4. Purposes.

TITLE I—FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

- Sec. 101. Establishment of Federal Motor Carrier Safety Administration.
- Sec. 102. Revenue aligned budget authority.
- Sec. 103. Additional funding for motor carrier safety grant program.
- Sec. 104. Motor carrier safety strategy.
- Sec. 105. Commercial motor vehicle safety advisory committee.
- Sec. 106. Saving provisions.
- Sec. 107. Effective date.

TITLE II—COMMERCIAL MOTOR VEHICLE AND DRIVER SAFETY

- Sec. 201. Disqualifications.
- Sec. 202. Requirements for State participation.

Sec. 203. State noncompliance.
 Sec. 204. Checks before issuance of driver's licenses.
 Sec. 205. Registration enforcement.
 Sec. 206. Delinquent payment of penalties.
 Sec. 207. State cooperation in registration enforcement.
 Sec. 208. Imminent hazard.
 Sec. 209. Household goods amendments.
 Sec. 210. New motor carrier entrant requirements.
 Sec. 211. Certification of safety auditors.
 Sec. 212. Commercial van rulemaking.
 Sec. 213. 24-hour staffing of telephone hotline.
 Sec. 214. CDL school bus endorsement.
 Sec. 215. Medical certificate.
 Sec. 216. Implementation of Inspector General recommendations.
 Sec. 217. Periodic refiling of motor carrier identification reports.
 Sec. 218. Border staffing standards.
 Sec. 219. Foreign motor carrier penalties and disqualifications.
 Sec. 220. Traffic law initiative.
 Sec. 221. State-to-State notification of violations data.
 Sec. 222. Minimum and maximum assessments.
 Sec. 223. Motor carrier safety progress report.
 Sec. 224. Study of commercial motor vehicle crash causation.
 Sec. 225. Data collection and analysis.
 Sec. 226. Drug test results study.
 Sec. 227. Approval of agreements.
 Sec. 228. DOT authority.

SEC. 2. SECRETARY DEFINED.

In this Act, the term "Secretary" means the Secretary of Transportation.

SEC. 3. FINDINGS.

Congress makes the following findings:

(1) The current rate, number, and severity of crashes involving motor carriers in the United States are unacceptable.

(2) The number of Federal and State commercial motor vehicle and operator inspections is insufficient and civil penalties for violators must be utilized to deter future violations.

(3) The Department of Transportation is failing to meet statutorily mandated deadlines for completing rulemaking proceedings on motor carrier safety and, in some significant safety rulemaking proceedings, including driver hours-of-service regulations, extensive periods have elapsed without progress toward resolution or implementation.

(4) Too few motor carriers undergo compliance reviews and the Department's data bases and information systems require substantial improvement to enhance the Department's ability to target inspection and enforcement resources toward the most serious safety problems and to improve States' ability to keep dangerous drivers off the roads.

(5) Additional safety inspectors and inspection facilities are needed in international border areas to ensure that commercial motor vehicles, drivers, and carriers comply with United States safety standards.

(6) The Department should rigorously avoid conflicts of interest in Federally funded research.

(7) Meaningful measures to improve safety must be implemented expeditiously to prevent increases in motor carrier crashes, injuries, and fatalities.

(8) Proper use of Federal resources is essential to the Department's ability to improve its research, rulemaking, oversight, and enforcement activities related to commercial motor vehicles, operators, and carriers.

SEC. 4. PURPOSES.

The purposes of this Act are—

(1) to improve the administration of the Federal motor carrier safety program and to establish a Federal Motor Carrier Safety Administration in the Department of Transportation; and

(2) to reduce the number and severity of large-truck involved crashes through more commercial motor vehicle and operator inspections and motor carrier compliance reviews, stronger enforcement measures against violators, expedited completion of rulemaking proceedings, scientifically sound research, and effective commercial driver's license testing, recordkeeping and sanctions.

TITLE I—FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

SEC. 101. ESTABLISHMENT OF FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION.

(a) IN GENERAL.—Chapter 1 of title 49, United States Code, is amended by adding at the end the following:

"§ 113. Federal Motor Carrier Safety Administration

"(a) IN GENERAL.—The Federal Motor Carrier Safety Administration shall be an administration of the Department of Transportation.

"(b) SAFETY AS HIGHEST PRIORITY.—In carrying out its duties, the Administration shall consider the assignment and maintenance of safety as the highest priority, recognizing the clear intent, encouragement, and dedication of Congress to the furtherance of the highest degree of safety in motor carrier transportation.

"(c) ADMINISTRATOR.—The head of the Administration shall be the Administrator who shall be appointed by the President, by and with the advice and consent of the Senate, and shall be an individual with professional experience in motor carrier safety. The Administrator shall report directly to the Secretary of Transportation.

"(d) DEPUTY ADMINISTRATOR.—The Administration shall have a Deputy Administrator appointed by the Secretary, with the approval of the President. The Deputy Administrator shall carry out duties and powers prescribed by the Administrator.

"(e) CHIEF SAFETY OFFICER.—The Administration shall have an Assistant Federal Motor Carrier Safety Administrator appointed in the competitive service by the Secretary, with the approval of the President. The Assistant Administrator shall be the Chief Safety Officer of the Administration. The Assistant Administrator shall carry out the duties and powers prescribed by the Administrator.

"(f) POWERS AND DUTIES.—The Administrator shall carry out—

"(1) duties and powers related to motor carriers or motor carrier safety vested in the Secretary by chapters 5, 51, 55, 57, 59, 133 through 149, 311, 313, 315, and 317 and by section 18 of the Noise Control Act of 1972 (42 U.S.C. 4917; 86 Stat. 1249–1250); except as otherwise delegated by the Secretary to any agency of the Department of Transportation other than the Federal Highway Administration, as of October 8, 1999; and

"(2) additional duties and powers prescribed by the Secretary.

"(g) LIMITATION ON TRANSFER OF POWERS AND DUTIES.—A duty or power specified in subsection (f)(1) may only be transferred to another part of the Department when specifically provided by law.

"(h) EFFECT OF CERTAIN DECISIONS.—A decision of the Administrator involving a duty or power specified in subsection (f)(1) and in-

volving notice and hearing required by law is administratively final.

"(i) CONSULTATION.—The Administrator shall consult with the Federal Highway Administrator and with the National Highway Traffic Safety Administrator on matters related to highway and motor carrier safety."

(b) ADMINISTRATIVE EXPENSES.—Section 104(a)(1) of title 23, United States Code, is amended—

(1) in paragraph (1) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively, and by moving the text of such clauses 2 ems to the right;

(2) in paragraph (1) by striking "exceed 1½ percent of all sums so made available, as the Secretary determines necessary—" and inserting "exceed—

"(A) 1½ percent of all sums so made available, as the Secretary determines necessary—";

(3) by striking the period at the end of paragraph (1)(A)(ii) (as redesignated by paragraphs (1) and (2) of this subsection) and inserting "; and" and the following:

"(B) ½ of 1 percent of all sums so made available, as the Secretary determines necessary, to administer the provisions of law to be financed from appropriations for motor carrier safety programs and motor carrier safety research."; and—

(4) by adding at the end the following:

"(4) LIMITATION ON TRANSFERABILITY.—Unless expressly authorized by law, the Secretary may not transfer any sums deducted under paragraph (1) to a Federal agency or entity other than the Federal Highway Administration and the Federal Motor Carrier Safety Administration."

(c) CONFORMING AMENDMENTS.—

(1) CHAPTER ANALYSIS.—The analysis for chapter 1 of title 49, United States Code, is amended by adding at the end the following: "113. Federal Motor Carrier Safety Administration."

(2) FEDERAL HIGHWAY ADMINISTRATION.—Section 104 of title 49, United States Code, is amended—

(A) in subsection (c)—

(i) by striking the semicolon at the end of paragraph (1) and inserting "; and";

(ii) by striking paragraph (2); and

(iii) by redesignating paragraph (3) as paragraph (2);

(B) by striking subsection (d); and

(C) by redesignating subsection (e) as subsection (d).

(d) POSITIONS IN EXECUTIVE SERVICE.—

(1) ADMINISTRATOR.—Section 5314 of title 5, United States Code, is amended by inserting after

"Administrator of the National Highway Traffic Safety Administration."

the following:

"Administrator of the Federal Motor Carrier Safety Administration."

(2) DEPUTY AND ASSISTANT ADMINISTRATORS.—Section 5316 of title 5, United States Code, is amended by inserting after

"Deputy Administrator of the National Highway Traffic Safety Administration."

the following:

"Deputy Administrator of the Federal Motor Carrier Safety Administration."

"Assistant Federal Motor Carrier Safety Administrator."

(e) PERSONNEL LEVELS.—The number of personnel positions at the Office of Motor Carrier Safety (and, beginning on January 1, 2000, the Federal Motor Carrier Safety Administration) at its headquarters location in fiscal year 2000 shall not be increased above the level transferred from the Federal Highway Administration to the Office of Motor

Carrier Safety. The Secretary shall provide detailed justifications to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives for the personnel requested for fiscal years 2001, 2002, and 2003 for the Federal Motor Carrier Safety Administration when the President submits his budget, including a justification for increasing personnel at headquarters above the levels so transferred.

(f) **AUTHORITY TO PROMULGATE SAFETY STANDARDS FOR RETROFITTING.**—The authority under title 49, United States Code, to promulgate safety standards for commercial motor vehicles and equipment subsequent to initial manufacture is vested in the Secretary and may be delegated.

(g) **CONFLICTS OF INTEREST.**—

(1) **COMPLIANCE WITH REGULATION.**—In awarding any contract for research, the Secretary shall comply with section 1252.209–70 of title 48, Code of Federal Regulations, as in effect on the date of enactment of this section. The Secretary shall require that the text of such section be included in any request for proposal and contract for research made by the Secretary.

(2) **STUDY.**—

(A) **IN GENERAL.**—The Secretary shall conduct a study to determine whether or not compliance with the section referred to in paragraph (1) is sufficient to avoid conflicts of interest in contracts for research awarded by the Secretary and to evaluate whether or not compliance with such section unreasonably delays or burdens the awarding of such contracts.

(B) **CONSULTATION.**—In conducting the study under this paragraph, the Secretary shall consult, as appropriate, with the Inspector General of the Department of Transportation, the Comptroller General, the heads of other Federal agencies, research organizations, industry representatives, employee organizations, safety organizations, and other entities.

(C) **REPORT.**—Not later than 18 months after the date of the enactment of this Act, the Secretary shall transmit the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of the study conducted under this paragraph.

SEC. 102. REVENUE ALIGNED BUDGET AUTHORITY.

(a) **IN GENERAL.**—Chapter 1 of title 23, United States Code, is amended—

(1) by redesignating the first section 110, relating to uniform transferability of Federal-aid highway funds, as section 126 and moving and inserting such section after section 125 of such chapter; and

(2) in the remaining section 110, relating to revenue aligned budget authority—

(A) in subsection (a)(2) by inserting “and the motor carrier safety grant program” after “relief”; and

(B) in subsection (b)(1)(A)—

(i) by inserting “and the motor carrier safety grant program” after “program”; and

(ii) by striking “title and” and inserting “title.”; and

(iii) by inserting “, and subchapter I of chapter 311 of title 49” after “21st Century”.

(b) **CONFORMING AMENDMENT.**—The analysis for such chapter is amended—

(1) by striking

“110. Uniform transferability of Federal-aid highway funds.”;

(2) by inserting after the item relating to section 125 the following:

“126. Uniform transferability of Federal-aid highway funds.”;

and

(3) in the item relating to section 163 by striking “Sec.”.

SEC. 103. ADDITIONAL FUNDING FOR MOTOR CARRIER SAFETY GRANT PROGRAM.

(a) **IN GENERAL.**—There are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account) for the Secretary of Transportation to carry out section 31102 of title 49, United States Code, \$75,000,000 for each of fiscal years 2001 through 2003.

(b) **INCREASED AUTHORIZATIONS FOR MOTOR CARRIER SAFETY GRANTS.**—

(1) **IN GENERAL.**—Section 4003 of the Transportation Equity Act for the 21st Century (112 Stat. 395–398) is amended by adding at the end the following:

“(i) **INCREASED AUTHORIZATIONS FOR MOTOR CARRIER SAFETY GRANTS.**—The amount made available to incur obligations to carry out section 31102 of title 49, United States Code, by section 31104(a) of such title for each of fiscal years 2001 through 2003 shall be increased by \$65,000,000.”.

(2) **CORRESPONDING REDUCTION TO OBLIGATION CEILING.**—Section 1102 of such Act (23 U.S.C. 104 note; 112 Stat. 1115–1118) is amended by adding at the end the following:

“(j) **REDUCTION IN OBLIGATION CEILING.**—The limitation on obligations imposed by subsection (a) for each of fiscal years 2001 through 2003 shall be reduced by \$65,000,000.”.

(c) **MAINTENANCE OF EFFORT.**—The Secretary may not make, from funds made available by or under this section (including any amendment made by this section), a grant to a State unless the State first enters into a binding agreement with the Secretary that provides that the total expenditures of amounts of the State and its political subdivisions (not including amounts of the United States) for the development or implementation of programs for improving motor carrier safety and enforcement of regulations, standards, and orders of the United States on commercial motor vehicle safety, hazardous materials transportation safety, and compatible State regulations, standards, and orders will be maintained at a level at least equal to the average level of such expenditures for fiscal years 1997, 1998, and 1999.

(d) **EMERGENCY CDL GRANTS.**—Section 31107 of title 49, United States Code, is amended by adding at the end the following:

“(e) **EMERGENCY CDL GRANTS.**—From amounts made available by subsection (a) for a fiscal year, the Secretary of Transportation may make a grant of up to \$1,000,000 to a State whose commercial driver's license program may fail to meet the compliance requirements of section 31311(a).”.

(e) **STATE COMPLIANCE WITH CDL REQUIREMENTS.**—

(1) **WITHHOLDING OF ALLOCATION FOR NON-COMPLIANCE.**—If a State is not in substantial compliance with each requirement of section 31311 of title 49, United States Code, the Secretary shall withhold all amounts that would be allocated, but for this paragraph, to the State from funds made available by or under this section (including any amendment made by this section).

(2) **PERIOD OF AVAILABILITY OF WITHHELD FUNDS.**—Any funds withheld under paragraph (1) from any State shall remain available until June 30 of the fiscal year for which the funds are authorized to be appropriated.

(3) **ALLOCATION OF WITHHELD FUNDS AFTER COMPLIANCE.**—If, before the last day of the period for which funds are withheld under paragraph (1) from allocation are to remain

available for allocation to a State under paragraph (2), the Secretary determines that the State is in substantial compliance with each requirement of section 31311 of title 49, United States Code, the Secretary shall allocate to the State the withheld funds.

(4) **PERIOD OF AVAILABILITY OF SUBSEQUENTLY ALLOCATED FUNDS.**—Any funds allocated pursuant to paragraph (3) shall remain available for expenditure until the last day of the first fiscal year following the fiscal year in which the funds are so allocated. Sums not expended at the end of such period are released to the Secretary for reallocation.

(5) **EFFECT OF NONCOMPLIANCE.**—If, on June 30 of the fiscal year in which funds are withheld from allocation under paragraph (1), the State is not substantially complying with each requirement of section 31311 of title 49, United States Code, the funds are released to the Secretary for reallocation.

SEC. 104. MOTOR CARRIER SAFETY STRATEGY.

(a) **SAFETY GOALS.**—In conjunction with existing federally required strategic planning efforts, the Secretary shall develop a long-term strategy for improving commercial motor vehicle, operator, and carrier safety. The strategy shall include an annual plan and schedule for achieving, at a minimum, the following goals:

(1) Reducing the number and rates of crashes, injuries, and fatalities involving commercial motor vehicles.

(2) Improving the consistency and effectiveness of commercial motor vehicle, operator, and carrier enforcement and compliance programs.

(3) Identifying and targeting enforcement efforts at high-risk commercial motor vehicles, operators, and carriers.

(4) Improving research efforts to enhance and promote commercial motor vehicle, operator, and carrier safety and performance.

(b) **CONTENTS OF STRATEGY.**—

(1) **MEASURABLE GOALS.**—The strategy and annual plans under subsection (a) shall include, at a minimum, specific numeric or measurable goals designed to achieve the strategic goals of subsection (a). The purposes of the numeric or measurable goals are as follows:

(A) To increase the number of inspections and compliance reviews to ensure that all high-risk commercial motor vehicles, operators, and carriers are examined.

(B) To eliminate, with meaningful safety measures, the backlog of rulemakings.

(C) To improve the quality and effectiveness of data bases by ensuring that all States and inspectors accurately and promptly report complete safety information.

(D) To eliminate, with meaningful civil and criminal penalties for violations, the backlog of enforcement cases.

(E) To provide for a sufficient number of Federal and State safety inspectors, and provide adequate facilities and equipment, at international border areas.

(2) **RESOURCE NEEDS.**—In addition, the strategy and annual plans shall include estimates of the funds and staff resources needed to accomplish each activity. Such estimates shall also include the staff skills and training needed for timely and effective accomplishment of each goal.

(3) **SAVINGS CLAUSE.**—In developing and assessing progress toward meeting the measurable goals set forth in this subsection, the Secretary and the Federal Motor Carrier Safety Administrator shall not take any action that would impinge on the due process rights of motor carriers and drivers.

(c) **SUBMISSION WITH THE PRESIDENT'S BUDGET.**—Beginning with fiscal year 2001 and

each fiscal year thereafter, the Secretary shall submit to Congress the strategy and annual plan at the same time as the President's budget submission.

(d) ANNUAL PERFORMANCE.—

(1) ANNUAL PERFORMANCE AGREEMENT.—For each of fiscal years 2001 through 2003, the following officials shall enter into annual performance agreements:

(A) The Secretary and the Federal Motor Carrier Safety Administrator.

(B) The Administrator and the Deputy Federal Motor Carrier Safety Administrator.

(C) The Administrator and the Chief Safety Officer of the Federal Motor Carrier Safety Administration.

(D) The Administrator and the regulatory ombudsman of the Administration designated by the Administrator under subsection (f).

(2) GOALS.—Each annual performance agreement entered into under paragraph (1) shall include the appropriate numeric or measurable goals of subsection (b).

(3) PROGRESS ASSESSMENT.—Consistent with the current performance appraisal system of the Department of Transportation, the Secretary shall assess the progress of each official (other than the Secretary) referred to in paragraph (1) toward achieving the goals in his or her performance agreement. The Secretary shall convey the assessment to such official, including identification of any deficiencies that should be remediated before the next progress assessment.

(4) ADMINISTRATION.—In deciding whether or not to award a bonus or other achievement award to an official of the Administration who is a party to a performance agreement required by this subsection, the Secretary shall give substantial weight to whether the official has made satisfactory progress toward meeting the goals of his or her performance agreement.

(e) ACHIEVEMENT OF GOALS.—

(1) PROGRESS ASSESSMENT.—No less frequently than semiannually, the Secretary and the Administrator shall assess the progress of the Administration toward achieving the strategic goals of subsection (a). The Secretary and the Administrator shall convey their assessment to the employees of the Administration and shall identify any deficiencies that should be remediated before the next progress assessment.

(2) REPORT TO CONGRESS.—The Secretary shall report annually to Congress the contents of each performance agreement entered into under subsection (d) and the official's performance relative to the goals of the performance agreement. In addition, the Secretary shall report to Congress on the performance of the Administration relative to the goals of the motor carrier safety strategy and annual plan under subsection (a).

(f) EXPEDITING REGULATORY PROCEEDINGS.—The Administrator shall designate a regulatory ombudsman to expedite rulemaking proceedings. The Secretary and the Administrator shall each delegate to the ombudsman such authority as may be necessary for the ombudsman to expedite rulemaking proceedings of the Administration to comply with statutory and internal departmental deadlines, including authority to—

(1) make decisions to resolve disagreements between officials in the Administration who are participating in a rulemaking process; and

(2) ensure that sufficient staff are assigned to rulemaking projects to meet all deadlines.

SEC. 105. COMMERCIAL MOTOR VEHICLE SAFETY ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—The Secretary may establish a commercial motor vehicle safety

advisory committee to provide advice and recommendations on a range of motor carrier safety issues.

(b) COMPOSITION.—The members of the advisory committee shall be appointed by the Secretary and shall include representatives of the motor carrier industry, drivers, safety advocates, manufacturers, safety enforcement officials, law enforcement agencies of border States, and other individuals affected by rulemakings under consideration by the Department of Transportation. Representatives of a single interest group may not constitute a majority of the members of the advisory committee.

(c) FUNCTION.—The advisory committee shall provide advice to the Secretary on commercial motor vehicle safety regulations and other matters relating to activities and functions of the Federal Motor Carrier Safety Administration.

(d) TERMINATION DATE.—The advisory committee shall remain in effect until September 30, 2003.

SEC. 106. SAVINGS PROVISION.

(a) TRANSFER OF ASSETS AND PERSONNEL.—Except as otherwise provided in this Act and the amendments made by this Act, those personnel, property, and records employed, used, held, available, or to be made available in connection with a function transferred to the Federal Motor Carrier Safety Administration by this Act shall be transferred to the Administration for use in connection with the functions transferred, and unexpended balances of appropriations, allocations, and other funds of the Office of Motor Carrier Safety (including any predecessor entity) shall also be transferred to the Administration.

(b) LEGAL DOCUMENTS.—All orders, determinations, rules, regulations, permits, grants, loans, contracts, settlements, agreements, certificates, licenses, and privileges—

(1) that have been issued, made, granted, or allowed to become effective by the Office, any officer or employee of the Office, or any other Government official, or by a court of competent jurisdiction, in the performance of any function that is transferred by this Act or the amendments made by this Act; and

(2) that are in effect on the effective date of such transfer (or become effective after such date pursuant to their terms as in effect on such effective date), shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked in accordance with law by the Administration, any other authorized official, a court of competent jurisdiction, or operation of law.

(c) PROCEEDINGS.—

(1) IN GENERAL.—The provisions of this Act shall not affect any proceedings or any application for any license pending before the Office at the time this Act takes effect, insofar as those functions are transferred by this Act; but such proceedings and applications, to the extent that they relate to functions so transferred, shall be continued. Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this Act had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, or revoked by a duly authorized official, by a court of competent jurisdiction, or by operation of law.

(2) STATUTORY CONSTRUCTION.—Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any proceeding described in paragraph (1) under

the same terms and conditions and to the same extent that such proceeding could have been discontinued or modified if this Act had not been enacted.

(3) ORDERLY TRANSFER.—The Secretary is authorized to provide for the orderly transfer of pending proceedings from the Office.

(d) SUITS.—

(1) IN GENERAL.—This Act shall not affect suits commenced before the date of the enactment of this Act, except as provided in paragraphs (2) and (3). In all such suits, proceeding shall be had, appeals taken, and judgments rendered in the same manner and with the same effect as if this Act had not been enacted.

(2) SUITS BY OR AGAINST OMCS.—Any suit by or against the Office begun before January 1, 2000, shall be continued, insofar as it involves a function retained and transferred under this Act, with the Administration (to the extent the suit involves functions transferred to the Administration under this Act) substituted for the Office.

(3) REMANDED CASES.—If the court in a suit described in paragraph (1) remands a case to the Administration, subsequent proceedings related to such case shall proceed in accordance with applicable law and regulations as in effect at the time of such subsequent proceedings.

(e) CONTINUANCE OF ACTIONS AGAINST OFFICERS.—No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of the Office shall abate by reason of the enactment of this Act. No cause of action by or against the Office, or by or against any officer thereof in his official capacity, shall abate by reason of enactment of this Act.

(f) EXERCISE OF AUTHORITIES.—Except as otherwise provided by law, an officer or employee of the Administration may, for purposes of performing a function transferred by this Act or the amendments made by this Act, exercise all authorities under any other provision of law that were available with respect to the performance of that function to the official responsible for the performance of the function immediately before the effective date of the transfer of the function under this Act or the amendments made by this Act.

(g) REFERENCES.—Any reference to the Office in any Federal law, Executive order, rule, regulation, or delegation of authority, or any document of or pertaining to the Office or an officer or employee of the Office is deemed to refer to the Administration or a member or employee of the Administration, as appropriate.

SEC. 107. EFFECTIVE DATE.

(a) IN GENERAL.—This Act shall take effect on the date of enactment of this Act; except that the amendments made by section 101 shall take effect on January 1, 2000.

(b) BUDGET SUBMISSIONS.—The President's budget submission for fiscal year 2001 and each fiscal year thereafter shall reflect the establishment of the Federal Motor Carrier Safety Administration in accordance with this Act.

TITLE II—COMMERCIAL MOTOR VEHICLE AND DRIVER SAFETY

SEC. 201. DISQUALIFICATIONS.

(a) DRIVING WHILE DISQUALIFIED AND CAUSING A FATALITY.—

(1) FIRST VIOLATION.—Section 31310(b)(1) of title 49, United States Code, is amended—

(A) by striking "or" at the end of subparagraph (B);

(B) by striking the period at the end of subparagraph (C) and inserting a semicolon; and

(C) by adding at the end the following:

“(D) committing a first violation of driving a commercial motor vehicle when the individual’s commercial driver’s license is revoked, suspended, or canceled based on the individual’s operation of a commercial motor vehicle or when the individual is disqualified from operating a commercial motor vehicle based on the individual’s operation of a commercial motor vehicle; or

“(E) convicted of causing a fatality through negligent or criminal operation of a commercial motor vehicle.”.

(2) SECOND AND MULTIPLE VIOLATIONS.—Section 31310(c)(1) of such title is amended—

(A) by striking “or” at the end of subparagraph (C);

(B) by redesignating subparagraph (D) as subparagraph (F);

(C) by inserting after subparagraph (C) the following:

“(D) committing more than one violation of driving a commercial motor vehicle when the individual’s commercial driver’s license is revoked, suspended, or canceled based on the individual’s operation of a commercial motor vehicle or when the individual is disqualified from operating a commercial motor vehicle based on the individual’s operation of a commercial motor vehicle;

“(E) convicted of more than one offense of causing a fatality through negligent or criminal operation of a commercial motor vehicle; or”; and

(D) in subparagraph (F) (as redesignated by subparagraph (B) of this paragraph) by striking “clauses (A)–(C) of this paragraph” and inserting “subparagraphs (A) through (E)”.

(3) CONFORMING AMENDMENT.—Section 31301(12)(C) of such title is amended by inserting “, other than a violation to which section 31310(b)(1)(E) or 31310(c)(1)(E) applies” after “a fatality”.

(b) EMERGENCY DISQUALIFICATION; NONCOMMERCIAL MOTOR VEHICLE CONVICTIONS.—Section 31310 of such title is amended—

(1) by redesignating subsections (f), (g), and (h) as subsections (h), (i), and (j), respectively;

(2) by inserting after subsection (e) the following:

“(f) EMERGENCY DISQUALIFICATION.—

“(1) LIMITED DURATION.—The Secretary shall disqualify an individual from operating a commercial motor vehicle for not to exceed 30 days if the Secretary determines that allowing the individual to continue to operate a commercial motor vehicle would create an imminent hazard (as such term is defined in section 5102).

“(2) AFTER NOTICE AND HEARING.—The Secretary shall disqualify an individual from operating a commercial motor vehicle for more than 30 days if the Secretary determines, after notice and an opportunity for a hearing, that allowing the individual to continue to operate a commercial motor vehicle would create an imminent hazard (as such term is defined in section 5102).

“(g) NONCOMMERCIAL MOTOR VEHICLE CONVICTIONS.—

“(1) ISSUANCE OF REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue regulations providing for the disqualification by the Secretary from operating a commercial motor vehicle of an individual who holds a commercial driver’s license and who has been convicted of—

“(A) a serious offense involving a motor vehicle (other than a commercial motor vehicle) that has resulted in the revocation, cancellation, or suspension of the individual’s license; or

“(B) a drug or alcohol related offense involving a motor vehicle (other than a commercial motor vehicle).

“(2) REQUIREMENTS FOR REGULATIONS.—Regulations issued under paragraph (1) shall establish the minimum periods for which the disqualifications shall be in effect, but in no case shall the time periods for disqualification for noncommercial motor vehicle violations be more stringent than those for offenses or violations involving a commercial motor vehicle. The Secretary shall determine such periods based on the seriousness of the offenses on which the convictions are based.”; and

(3) in subsection (h) (as redesignated by paragraph (1) of this subsection) by striking “(b)–(e)” each place it appears and inserting “(b) through (g)”.

(c) SERIOUS TRAFFIC VIOLATIONS.—Section 31301(12) of such title is amended—

(1) by striking “and” at the end of subparagraph (C);

(2) by redesignating subparagraph (D) as subparagraph (G); and

(3) by inserting after subparagraph (C) the following:

“(D) driving a commercial motor vehicle when the individual has not obtained a commercial driver’s license;

“(E) driving a commercial motor vehicle when the individual does not have in his or her possession a commercial driver’s license unless the individual provides, by the date that the individual must appear in court or pay any fine with respect to the citation, to the enforcement authority that issued the citation proof that the individual held a valid commercial driver’s license on the date of the citation;

“(F) driving a commercial motor vehicle when the individual has not met the minimum testing standards—

“(i) under section 31305(a)(3) for the specific class of vehicle the individual is operating; or

“(ii) under section 31305(a)(5) for the type of cargo the vehicle is carrying; and”.

(d) CONFORMING AMENDMENTS.—Section 31305(b)(1) of such title is amended—

(1) by striking “to operate the vehicle”; and

(2) by inserting before the period at the end “to operate the vehicle and has a commercial driver’s license to operate the vehicle”.

SEC. 202. REQUIREMENTS FOR STATE PARTICIPATION.

(a) REQUESTS FOR DRIVING RECORD INFORMATION.—Section 31311(a)(6) of title 49, United States Code, is amended—

(1) by inserting “or renewing such a license” before the comma; and

(2) by striking “commercial” the second place it appears.

(b) RECORDING OF VIOLATIONS.—Section 31311(a)(8) of such title is amended by inserting before the period at the end the following: “, and the violation that resulted in the disqualification, revocation, suspension, or cancellation shall be recorded”.

(c) NOTIFICATION OF STATE OFFICIALS.—Section 31311(a)(9) of such title is amended to read as follows:

“(9) If an individual violates a State or local law on motor vehicle traffic control (except a parking violation) and the individual—

“(A) has a commercial driver’s license issued by another State; or

“(B) is operating a commercial vehicle without a commercial driver’s license and has a driver’s license issued by another State;

the State in which the violation occurred shall notify a State official designated by

the issuing State of the violations not later than 10 days after the date the individual is found to have committed the violation.”.

(d) PROVISIONAL LICENSES.—Section 31311(a)(10) of such title is amended—

(1) by striking “(10)” and inserting “(10)(A); and

(2) by adding at the end the following:

“(B) The State may not issue a special license or permit (including a provisional or temporary license) to an individual who holds a commercial driver’s license that permits the individual to drive a commercial motor vehicle during a period in which—

“(i) the individual is disqualified from operating a commercial motor vehicle; or

“(ii) the individual’s driver’s license is revoked, suspended, or canceled.”.

(e) PENALTIES.—Section 31311(a)(13) of such title is amended—

(1) by inserting “consistent with this chapter that” after “penalties”; and

(2) by striking “vehicle” the first place it appears and all that follows through the period at the end and inserting “vehicle.”.

(f) RECORDS OF VIOLATIONS.—Section 31311(a) of such title is amended by adding at the end the following:

“(18) The State shall maintain, as part of its driver information system, a record of each violation of a State or local motor vehicle traffic control law while operating a motor vehicle (except a parking violation) for each individual who holds a commercial driver’s license. The record shall be available upon request to the individual, the Secretary, employers, prospective employers, State licensing and law enforcement agencies, and their authorized agents.”.

(g) MASKING.—Section 31311(a) of such title is further amended by adding at the end the following:

“(19) The State shall—

“(A) record in the driving record of an individual who has a commercial driver’s license issued by the State; and

“(B) make available to all authorized persons and governmental entities having access to such record,

all information the State receives under paragraph (9) with respect to the individual and every violation by the individual involving a motor vehicle (including a commercial motor vehicle) of a State or local law on traffic control (except a parking violation), not later than 10 days after the date of receipt of such information or the date of such violation, as the case may be. The State may not allow information regarding such violations to be withheld or masked in any way from the record of an individual possessing a commercial driver’s license.”.

(h) NONCOMMERCIAL MOTOR VEHICLE CONVICTIONS.—Section 31311(a) of such title is further amended by adding at the end the following:

“(20) The State shall revoke, suspend, or cancel the commercial driver’s license of an individual in accordance with regulations issued by the Secretary to carry out section 31310(g).”.

SEC. 203. STATE NONCOMPLIANCE.

(a) IN GENERAL.—Chapter 313 of title 49, United States Code, is amended by inserting after section 31311 the following:

“§ 31312. Decertification authority

“(a) IN GENERAL.—If the Secretary of Transportation determines that a State is in substantial noncompliance with this chapter, the Secretary shall issue an order to—

“(1) prohibit that State from carrying out licensing procedures under this chapter; and

“(2) prohibit that State from issuing any commercial driver’s licenses until such time

the Secretary determines such State is in substantial compliance with this chapter.

“(b) EFFECT ON OTHER STATES.—A State (other than a State subject to an order under subsection (a)) may issue a non-resident commercial driver's license to an individual domiciled in a State that is prohibited from such activities under subsection (a) if that individual meets all requirements of this chapter and the nonresident licensing requirements of the issuing State.

“(c) PREVIOUSLY ISSUED LICENSES.—Nothing in this section shall be construed as invalidating or otherwise affecting commercial driver's licenses issued by a State before the date of issuance of an order under subsection (a) with respect to the State.”.

(b) CONFORMING AMENDMENT.—The chapter analysis for chapter 313 of such title is amended by inserting after the item relating to section 31311 the following:

“31312. Decertification authority.”.

SEC. 204. CHECKS BEFORE ISSUANCE OF DRIVER'S LICENSES.

Section 30304 of title 49, United States Code, is amended by adding at the end the following:

“(e) DRIVER RECORD INQUIRY.—Before issuing a motor vehicle operator's license to an individual or renewing such a license, a State shall request from the Secretary information from the National Driver Register under section 30302 and the commercial driver's license information system under section 31309 on the individual's driving record.”.

SEC. 205. REGISTRATION ENFORCEMENT.

Section 13902 of title 49, United States Code, is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following:

“(e) PENALTIES FOR FAILURE TO COMPLY WITH REGISTRATION REQUIREMENTS.—In addition to other penalties available under law, motor carriers that fail to register their operations as required by this section or that operate beyond the scope of their registrations may be subject to the following penalties:

“(1) OUT-OF-SERVICE ORDERS.—If, upon inspection or investigation, the Secretary determines that a motor vehicle providing transportation requiring registration under this section is operating without a registration or beyond the scope of its registration, the Secretary may order the vehicle out-of-service. Subsequent to the issuance of the out-of-service order, the Secretary shall provide an opportunity for review in accordance with section 554 of title 5; except that such review shall occur not later than 10 days after issuance of such order.

“(2) PERMISSION FOR OPERATIONS.—A person domiciled in a country contiguous to the United States with respect to which an action under subsection (c)(1)(A) or (c)(1)(B) is in effect and providing transportation for which registration is required under this section shall maintain evidence of such registration in the motor vehicle when the person is providing the transportation. The Secretary shall not permit the operation in interstate commerce in the United States of any motor vehicle in which there is not a copy of the registration issued pursuant to this section.”.

SEC. 206. DELINQUENT PAYMENT OF PENALTIES. (a) REVOCATION OF REGISTRATION.—Section 13905(c) of title 49, United States Code is amended—

(1) by inserting “(1) IN GENERAL.—” before “On application”;

(2) by inserting “(A)” before “suspend”;

(3) by striking the period at the end of the second sentence and inserting “; and (B) suspend, amend, or revoke any part of the registration of a motor carrier, broker, or freight forwarder (i) for failure to pay a civil penalty imposed under chapter 5, 51, 149, or 311 of this title, or (ii) for failure to arrange and abide by an acceptable payment plan for such civil penalty, within 90 days of the time specified by order of the Secretary for the payment of such penalty. Subparagraph (B) shall not apply to any person who is unable to pay a civil penalty because such person is a debtor in a case under chapter 11 of title 11.

“(2) REGULATIONS.—Not later than 12 months after the date of the enactment of this paragraph, the Secretary, after notice and opportunity for public comment, shall issue regulations to provide for the suspension, amendment, or revocation of a registration under this part for failure to pay a civil penalty as provided in paragraph (1)(B).”; and

(4) by indenting paragraph (1) (as designated by paragraph (1) of this section) and aligning such paragraph with paragraph (2) of such section (as added by paragraph (3) of this section).

(b) PROHIBITED TRANSPORTATION BY COMMERCIAL MOTOR VEHICLE OPERATORS.—Section 521(b) of such title is amended—

(1) by redesignating paragraphs (8) through (13) as paragraphs (9) through (14), respectively; and

(2) by inserting after paragraph (7) the following:

“(8) PROHIBITION ON OPERATION IN INTERSTATE COMMERCE AFTER NONPAYMENT OF PENALTIES.—

“(A) IN GENERAL.—An owner or operator of a commercial motor vehicle against whom a civil penalty is assessed under this chapter or chapter 51, 149, or 311 of this title and who does not pay such penalty or fails to arrange and abide by an acceptable payment plan for such civil penalty may not operate in interstate commerce beginning on the 91st day after the date specified by order of the Secretary for payment of such penalty. This paragraph shall not apply to any person who is unable to pay a civil penalty because such person is a debtor in a case under chapter 11 of title 11.

“(B) REGULATIONS.—Not later than 12 months after the date of enactment of this paragraph, the Secretary, after notice and an opportunity for public comment, shall issue regulations setting forth procedures for ordering commercial motor vehicle owners and operators delinquent in paying civil penalties to cease operations until payment has been made.”.

SEC. 207. STATE COOPERATION IN REGISTRATION ENFORCEMENT.

Section 31102(b)(1) of title 49, United States Code, is amended—

(1) by aligning subparagraph (A) with subparagraph (B) of such section; and

(2) by striking subparagraph (R) and inserting the following:

“(R) ensures that the State will cooperate in the enforcement of registration requirements under section 13902 and financial responsibility requirements under sections 13906, 31138, and 31139 and regulations issued thereunder;”.

SEC. 208. IMMINENT HAZARD.

Section 521(b)(5)(B) of title 49, United States Code, is amended by striking “is likely to result in” and inserting “substantially increases the likelihood of”.

SEC. 209. HOUSEHOLD GOODS AMENDMENTS.

(a) DEFINITION OF HOUSEHOLD GOODS.—Section 13102(10)(A) of title 49, United States

Code, is amended by striking “, including” and all that follows through “dwelling,” and inserting “, except such term does not include property moving from a factory or store, other than property that the householder has purchased with the intent to use in his or her dwelling and is transported at the request of, and the transportation charges are paid to the carrier by, the householder;”.

(b) ARBITRATION REQUIREMENTS.—Section 14708(b)(6) of such title is amended by striking “\$1,000” each place it appears and inserting “\$5,000”.

(c) STUDY OF ENFORCEMENT OF CONSUMER PROTECTION RULES IN THE HOUSEHOLD GOODS MOVING INDUSTRY.—The Comptroller General shall conduct a study of the effectiveness of the Department of Transportation's enforcement of household goods consumer protection rules under title 49, United States Code. The study shall also include a review of other potential methods of enforcing such rules, including allowing States to enforce such rules.

SEC. 210. NEW MOTOR CARRIER ENTRANT REQUIREMENTS.

(a) SAFETY REVIEWS.—Section 31144 of title 49, United States Code, is amended by adding at the end the following:

“(c) SAFETY REVIEWS OF NEW OPERATORS.—

“(1) IN GENERAL.—The Secretary shall require, by regulation, each owner and each operator granted new operating authority, after the date on which section 31148(b) is first implemented, to undergo a safety review within the first 18 months after the owner or operator, as the case may be, begins operations under such authority.

“(2) ELEMENTS.—In the regulations issued pursuant to paragraph (1), the Secretary shall establish the elements of the safety review, including basic safety management controls. In establishing such elements, the Secretary shall consider their effects on small businesses and shall consider establishing alternate locations where such reviews may be conducted for the convenience of small businesses.

“(3) PHASE-IN OF REQUIREMENT.—The Secretary shall phase in the requirements of paragraph (1) in a manner that takes into account the availability of certified motor carrier safety auditors.

“(4) NEW ENTRANT AUTHORITY.—Notwithstanding any other provision of this title, any new operating authority granted after the date on which section 31148(b) is first implemented shall be designated as new entrant authority until the safety review required by paragraph (1) is completed.”.

(b) MINIMUM REQUIREMENTS.—The Secretary shall initiate a rulemaking to establish minimum requirements for applicant motor carriers, including foreign motor carriers, seeking Federal interstate operating authority to ensure applicant carriers are knowledgeable about applicable Federal motor carrier safety standards. As part of that rulemaking, the Secretary shall consider the establishment of a proficiency examination for applicant motor carriers as well as other requirements to ensure such applicants understand applicable safety regulations before being granted operating authority.

SEC. 211. CERTIFICATION OF SAFETY AUDITORS.

(a) IN GENERAL.—Chapter 311 of title 49, United States Code, is amended by adding at the end the following:

“§ 31148. Certified motor carrier safety auditors

“(a) IN GENERAL.—Not later than 1 year after the date of enactment of this section,

the Secretary of Transportation shall complete a rulemaking to improve training and provide for the certification of motor carrier safety auditors, including private contractors, to conduct safety inspection audits and reviews described in subsection (b).

“(b) **CERTIFIED INSPECTION AUDIT REQUIREMENT.**—Not later than 1 year after completion of the rulemaking required by subsection (a), any safety inspection audit or review required by, or based on the authority of, this chapter or chapter 5, 313, or 315 of this title and performed after December 31, 2002, shall be conducted by—

“(1) a motor carrier safety auditor certified under subsection (a); or

“(2) a Federal or State employee who, on the date of enactment of this section, was qualified to perform such an audit or review.

“(c) **EXTENSION.**—If the Secretary determines that subsection (b) cannot be implemented within the 1-year period established by that subsection and notifies the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives of the determination and the reasons therefor, the Secretary may extend the deadline for compliance with subsection (b) by not more than 12 months.

“(d) **APPLICATION WITH OTHER AUTHORITY.**—The Secretary may not delegate the Secretary's authority to private contractors to issue ratings or operating authority, and nothing in this section authorizes any private contractor to issue ratings or operating authority.

“(e) **OVERSIGHT RESPONSIBILITY.**—The Secretary shall have authority over any motor carrier safety auditor certified under subsection (a), including the authority to decertify a motor carrier safety auditor.”

(b) **CONFORMING AMENDMENT.**—The analysis for such chapter 311 is amended by adding at the end the following:

“31148. Certified motor carrier safety auditors.”

SEC. 212. COMMERCIAL VAN RULEMAKING.

Not later than 1 year after the date of enactment of this Act, the Secretary shall complete Department of Transportation's rulemaking, Docket No. FHWA-99-5710, to amend Federal motor carrier safety regulations to determine which motor carriers operating commercial motor vehicles designed or used to transport between 9 and 15 passengers (including the driver) for compensation shall be covered. At a minimum, the rulemaking shall apply such regulations to—

(1) commercial vans commonly referred to as “camionetas”; and

(2) those commercial vans operating in interstate commerce outside commercial zones that have been determined to pose serious safety risks.

In no case should the rulemaking exempt from such regulations all motor carriers operating commercial vehicles designed or used to transport between 9 and 15 passengers (including the driver) for compensation.

SEC. 213. 24-HOUR STAFFING OF TELEPHONE HOTLINE.

Section 4017 of the Transportation Equity Act for the 21st Century (49 U.S.C. 31143 note; 112 Stat. 413) is amended—

(1) by redesignating subsections (c) and (d) as subsections (d) and (e), respectively;

(2) by inserting after subsection (b) the following:

“(c) **STAFFING.**—The toll-free telephone system shall be staffed 24 hours a day 7 days a week by individuals knowledgeable about Federal motor carrier safety regulations and procedures.”; and

(3) in subsection (e) (as redesignated by paragraph (1) of this section)—

(A) by striking “104(a)” and inserting “104(a)(1)(B)”; and

(B) by striking “for each of fiscal years 1999” and inserting “for fiscal year 1999 and \$375,000 for each of fiscal years 2000”.

SEC. 214. CDL SCHOOL BUS ENDORSEMENT.

The Secretary shall conduct a rulemaking to establish a special commercial driver's license endorsement for drivers of school buses. The endorsement shall, at a minimum—

(1) include a driving skills test in a school bus; and

(2) address proper safety procedures for—

(A) loading and unloading children;

(B) using emergency exits; and

(C) traversing highway rail grade crossings.

SEC. 215. MEDICAL CERTIFICATE.

The Secretary shall initiate a rulemaking to provide for a Federal medical qualification certificate to be made a part of commercial driver's licenses.

SEC. 216. IMPLEMENTATION OF INSPECTOR GENERAL RECOMMENDATIONS.

(a) **IN GENERAL.**—The Secretary shall implement the safety improvement recommendations provided for in the Department of Transportation Inspector General's Report TR-1999-091, except to the extent that such recommendations are specifically addressed in sections 206, 208, 217, and 222 of this Act, including any amendments made by such sections.

(b) **REPORTS TO CONGRESS.**—

(1) **REPORTS BY THE SECRETARY.**—Not later than 90 days after the date of enactment of this Act, and every 90 days thereafter until each of the recommendations referred to in subsection (a) has been implemented, the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the specific actions taken to implement such recommendations.

(2) **REPORTS BY THE INSPECTOR GENERAL.**—The Inspector General shall periodically transmit to the Committees referred to in paragraph (1) a report assessing the Secretary's progress in implementing the recommendations referred to in subsection (a) and analyzing the number of violations cited by safety inspectors and the level of fines assessed and collected for such violations, and of the number of cases in which there are findings of extraordinary circumstances under section 222(c) of this Act and the circumstances in which these findings are made.

SEC. 217. PERIODIC REFLILING OF MOTOR CARRIER IDENTIFICATION REPORTS.

The Secretary shall amend section 385.21 of the Department of Transportation's regulations (49 C.F.R. 385.21) to require periodic updating, not more frequently than once every 2 years, of the motor carrier identification report, form MCS-150, filed by each motor carrier conducting operations in interstate or foreign commerce. The initial update shall occur not later than 1 year after the date of enactment of this Act.

SEC. 218. BORDER STAFFING STANDARDS.

(a) **DEVELOPMENT AND IMPLEMENTATION.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop and implement appropriate staffing standards for Federal and State motor carrier safety inspectors in international border areas.

(b) **FACTORS TO BE CONSIDERED.**—In developing standards under subsection (a), the Secretary shall consider volume of traffic, hours of operation of the border facility, types of commercial motor vehicles, types of cargo, delineation of responsibility between Federal and State inspectors, and such other factors as the Secretary determines appropriate.

(c) **MAINTENANCE OF EFFORT.**—The standards developed and implemented under subsection (a) shall ensure that the United States and each State will not reduce its respective level of staffing of motor carrier safety inspectors in international border areas from its average level staffing for fiscal year 2000.

(d) BORDER COMMERCIAL MOTOR VEHICLE AND SAFETY ENFORCEMENT PROGRAMS.

(1) **ENFORCEMENT.**—If, on October 1, 2001, and October 1 of each fiscal year thereafter, the Secretary has not ensured that the levels of staffing required by the standards developed under subsection (a) are deployed, the Secretary should designate the amount made available for allocation under section 31104(f)(2)(B) of title 49, United States Code, for such fiscal year for States, local governments, and other persons for carrying out border commercial motor vehicle safety programs and enforcement activities and projects.

(2) **ALLOCATION.**—If the Secretary makes a designation of an amount under paragraph (1), such amount shall be allocated by the Secretary to State agencies, local governments, and other persons that use and train qualified officers and employees in coordination with State motor vehicle safety agencies.

(3) **LIMITATION.**—If the Secretary makes a designation pursuant to paragraph (1) for a fiscal year, the Secretary may not make a designation under section 31104(f)(2)(B) of title 49, United States Code, for such fiscal year.

SEC. 219. FOREIGN MOTOR CARRIER PENALTIES AND DISQUALIFICATIONS.

(a) **GENERAL RULE.**—Subject to subsections (b) and (c), a foreign motor carrier or foreign motor private carrier (as such terms are defined under section 13102 of title 49, United States Code) that operates without authority, before the implementation of the land transportation provisions of the North American Free Trade Agreement, outside the boundaries of a commercial zone along the United States-Mexico border shall be liable to the United States for a civil penalty and shall be disqualified from operating a commercial motor vehicle anywhere within the United States as provided in subsections (b) and (c).

(b) **PENALTY FOR INTENTIONAL VIOLATION.**—The civil penalty for an intentional violation of subsection (a) by a carrier shall not be more than \$10,000 and may include a disqualification from operating a commercial motor vehicle anywhere within the United States for a period of not more than 6 months.

(c) **PENALTY FOR PATTERN OF INTENTIONAL VIOLATIONS.**—The civil penalty for a pattern of intentional violations of subsection (a) by a carrier shall not be more than \$25,000 and the carrier shall be disqualified from operating a commercial motor vehicle anywhere within the United States and the disqualification may be permanent.

(d) **LEASING.**—Before the implementation of the land transportation provisions of the North American Free Trade Agreement, during any period in which a suspension, condition, restriction, or limitation imposed

under section 13902(c) of title 49, United States Code, applies to a motor carrier (as defined in section 13902(e) of such title), that motor carrier may not lease a commercial motor vehicle to another motor carrier or a motor private carrier to transport property in the United States.

(e) SAVINGS CLAUSE.—No provision of this section may be enforced if it is inconsistent with any international agreement of the United States.

(f) ACTS OF EMPLOYEES.—The actions of any employee driver of a foreign motor carrier or foreign motor private carrier committed without the knowledge of the carrier or committed unintentionally shall not be grounds for penalty or disqualification under this section.

SEC. 220. TRAFFIC LAW INITIATIVE.

(a) IN GENERAL.—In cooperation with one or more States, the Secretary may carry out a program to develop innovative methods of improving motor carrier compliance with traffic laws. Such methods may include the use of photography and other imaging technologies.

(b) REPORT.—The Secretary shall transmit to Congress a report on the results of any program conducted under this section, together with any recommendations as the Secretary determines appropriate.

SEC. 221. STATE-TO-STATE NOTIFICATION OF VIOLATIONS DATA.

(a) DEVELOPMENT.—In cooperation with the States, the Secretary shall develop a uniform system to support the electronic transmission of data State-to-State on convictions for all motor vehicle traffic control law violations by individuals possessing a commercial drivers' licenses as required by paragraphs (9) and (19) of section 31311(a) of title 49, United States Code.

(b) STATUS REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the status of the implementation of this section.

SEC. 222. MINIMUM AND MAXIMUM ASSESSMENTS.

(a) IN GENERAL.—The Secretary of Transportation should ensure that motor carriers operate safely by imposing civil penalties at a level calculated to ensure prompt and sustained compliance with Federal motor carrier safety and commercial driver's license laws.

(b) ESTABLISHMENT.—The Secretary—

(1) should establish and assess minimum civil penalties for each violation of a law referred to in subsection (a); and

(2) shall assess the maximum civil penalty for each violation of a law referred to in subsection (a) by any person who is found to have committed a pattern of violations of critical or acute regulations issued to carry out such a law or to have previously committed the same or a related violation of critical or acute regulations issued to carry out such a law.

(c) EXTRAORDINARY CIRCUMSTANCES.—If the Secretary determines and documents that extraordinary circumstances exist which merit the assessment of any civil penalty lower than any level established under subsection (b), the Secretary may assess such lower penalty. In cases where a person has been found to have previously committed the same or a related violation of critical or acute regulations issued to carry out a law referred to in subsection (a), extraordinary circumstances may be found to exist when

the Secretary determines that repetition of such violation does not demonstrate a failure to take appropriate remedial action.

(d) REPORT TO CONGRESS.—

(1) IN GENERAL.—The Secretary shall conduct a study of the effectiveness of the revised civil penalties established in the Transportation Equity Act for the 21st Century and this Act in ensuring prompt and sustained compliance with Federal motor carrier safety and commercial driver's license laws.

(2) SUBMISSION TO CONGRESS.—The Secretary shall transmit the results of such study and any recommendations to Congress by September 30, 2002.

SEC. 223. MOTOR CARRIER SAFETY PROGRESS REPORT.

Not later than May 25, 2000, the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a status report on the Department of Transportation's quantitative progress toward reducing motor carrier fatalities by 50 percent by the year 2009.

SEC. 224. STUDY OF COMMERCIAL MOTOR VEHICLE CRASH CAUSATION.

(a) OBJECTIVES.—The Secretary shall conduct a comprehensive study to determine the causes of, and contributing factors to, crashes that involve commercial motor vehicles. The study shall also identify data requirements and collection procedures, reports, and other measures that will improve the Department of Transportation's and States' ability to—

(1) evaluate future crashes involving commercial motor vehicles;

(2) monitor crash trends and identify causes and contributing factors; and

(3) develop effective safety improvement policies and programs.

(b) DESIGN.—The study shall be designed to yield information that will help the Department and the States identify activities and other measures likely to lead to significant reductions in the frequency, severity, and rate per mile traveled of crashes involving commercial motor vehicles, including vehicles described in section 31132(1)(B) of title 49, United States Code. As practicable, the study shall rank such activities and measures by the reductions each would likely achieve, if implemented.

(c) CONSULTATION.—In designing and conducting the study, the Secretary shall consult with persons with expertise on—

(1) crash causation and prevention;

(2) commercial motor vehicles, drivers, and carriers, including passenger carriers;

(3) highways and noncommercial motor vehicles and drivers;

(4) Federal and State highway and motor carrier safety programs;

(5) research methods and statistical analysis; and

(6) other relevant topics.

(d) PUBLIC COMMENT.—The Secretary shall make available for public comment information about the objectives, methodology, implementation, findings, and other aspects of the study.

(e) REPORTS.—

(1) IN GENERAL.—The Secretary shall promptly transmit to Congress the results of the study, together with any legislative recommendations.

(2) REVIEW AND UPDATE.—The Secretary shall review the study at least once every 5 years and update the study and report as necessary.

(f) FUNDING.—Of the amounts made available for each of fiscal years 2001, 2002, and

2003 under section 4003(i) of the Transportation Equity Act for the 21st Century (112 Stat. 395-398), as added by section 103(b)(1) of this Act, \$5,000,000 per fiscal year shall be available only to carry out this section.

SEC. 225. DATA COLLECTION AND ANALYSIS.

(a) IN GENERAL.—In cooperation with the States, the Secretary shall carry out a program to improve the collection and analysis of data on crashes, including crash causation, involving commercial motor vehicles.

(b) PROGRAM ADMINISTRATION.—The Secretary shall administer the program through the National Highway Traffic Safety Administration in cooperation with the Federal Motor Carrier Safety Administration. The National Highway Traffic Safety Administration shall—

(1) enter into agreements with the States to collect data and report the data by electronic means to a central data repository; and

(2) train State employees and motor carrier safety enforcement officials to assure the quality and uniformity of the data.

(c) USE OF DATA.—The National Highway Traffic Safety Administration shall—

(1) integrate the data, including driver citation and conviction information; and

(2) make the data base available electronically to the Federal Motor Carrier Safety Administration, the States, motor carriers, and other interested parties for problem identification, program evaluation, planning, and other safety-related activities.

(d) REPORT.—Not later than 3 years after the date on which the improved data program begins, the Secretary shall transmit a report to Congress on the program, together with any recommendations the Secretary finds appropriate.

(e) FUNDING.—Of the amounts deducted under section 104(a)(1)(B) of title 23, United States Code, for each of fiscal years 2001, 2002, and 2003 \$5,000,000 per fiscal year shall be available only to carry out this section.

(f) ADDITIONAL FUNDING FOR INFORMATION SYSTEMS.—

(1) IN GENERAL.—Of the amounts made available for each of fiscal years 2001, 2002, and 2003 under section 4003(i) of the Transportation Equity Act for the 21st Century (112 Stat. 395-398), as added by section 103(b)(1) of this Act, \$5,000,000 per fiscal year shall be available only to carry out section 31106 of title 49, United States Code.

(2) AMOUNTS AS ADDITIONAL.—The amounts made available by paragraph (1) shall be in addition to amounts made available under section 31107 of title 49, United States Code.

SEC. 226. DRUG TEST RESULTS STUDY.

(a) IN GENERAL.—The Secretary shall conduct a study of the feasibility and merits of—

(1) requiring medical review officers or employers to report all verified positive controlled substances test results on any driver subject to controlled substances testing under part 382 of title 49, Code of Federal Regulations, including the identity of each person tested and each controlled substance found, to the State that issued the driver's commercial driver's license; and

(2) requiring all prospective employers, before hiring any driver, to query the State that issued the driver's commercial driver's license on whether the State has on record any verified positive controlled substances test on such driver.

(b) STUDY FACTORS.—In carrying out the study under this section, the Secretary shall assess—

(1) methods for safeguarding the confidentiality of verified positive controlled substances test results;

(2) the costs, benefits, and safety impacts of requiring States to maintain records of verified positive controlled substances test results; and

(3) whether a process should be established to allow drivers—

(A) to correct errors in their records; and

(B) to expunge information from their records after a reasonable period of time.

(c) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress a report on the study carried out under this section, together with such recommendations as the Secretary determines appropriate.

SEC. 227. APPROVAL OF AGREEMENTS.

(a) **REVIEW.**—Section 13703(c) of title 49, United States Code, is amended—

(1) by redesignating paragraphs (1) through (4) as subparagraphs (A) through (D), respectively;

(2) by striking “The Board” and inserting the following:

“(1) **IN GENERAL.**—The Board”;

(3) by adding at the end the following:

“(2) **PERIODIC REVIEW OF APPROVALS.**—Subject to this section, in the 5-year period beginning on the date of enactment of this paragraph and in each 5-year period thereafter, the Board shall initiate a proceeding to review any agreement approved pursuant to this section. Any such agreement shall be continued unless the Board determines otherwise.”; and

(4) by moving the remainder of the text of paragraph (1) (as designated by paragraph (2) of this subsection), including subparagraphs (A) through (D) (as designated by paragraph (1) of this subsection), 2 ems to the right.

(b) **LIMITATION.**—Section 13703(d) of such title is amended to read as follows:

“(d) **LIMITATION.**—The Board shall not take any action that would permit the establishment of nationwide collective ratemaking authority.”.

(c) **EXISTING AGREEMENTS.**—Section 13703(e) of such title is amended—

(1) by striking “Agreements” and inserting the following:

“(1) **AGREEMENTS EXISTING AS OF DECEMBER 31, 1995.**—Agreements”;

(2) by adding at the end the following:

“(2) **CASES PENDING AS OF DATE OF ENACTMENT.**—Nothing in section 227 (other than subsection (b)) of the Motor Carrier Safety Improvement Act of 1999, including the amendments made by such section, shall be construed to affect any case brought under this section that is pending before the Board as of the date of enactment of this paragraph.”; and

(3) by aligning the left margin of paragraph (1) (as designated by paragraph (1) of this subsection) with paragraph (2) (as added by paragraph (2) of this subsection).

SEC. 228. DOT AUTHORITY.

(a) **IN GENERAL.**—The statutory authority of the Inspector General of the Department of Transportation includes authority to conduct, pursuant to Federal criminal statutes, investigations of allegations that a person or entity has engaged in fraudulent or other criminal activity relating to the programs and operations of the Department or its operating administrations.

(b) **REGULATED ENTITIES.**—The authority to conduct investigations referred to in subsection (a) extends to any person or entity subject to the laws and regulations of the Department or its operating administrations, whether or not they are recipients of funds from the Department or its operating administrations.

The House bill was ordered to be read a third time, was read the third time,

and passed, and a motion to reconsider was laid on the table.

CONTINUING REPORTING REQUIREMENTS OF SECTION 2519 OF TITLE 18, U.S.C., BEYOND DECEMBER 21, 1999

Mr. COBLE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 1769) to continue the reporting requirements of section 2519 of title 18, United States Code, beyond December 21, 1999, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

Ms. LOFGREN. Mr. Speaker, reserving the right to object, I yield to the gentleman from North Carolina (Mr. COBLE), the chairman of the subcommittee, for a brief explanation of the bill.

Mr. COBLE. Mr. Speaker, I thank the gentlewoman from California (Ms. LOFGREN) for yielding.

Mr. Speaker, the Federal Reports Elimination and Sunset Act of 1995 provided that all periodic reports provided to Congress will sunset on December 21, 1999, unless reauthorized by the Congress. The intent of the Act was to spur Congress to reexamine all the periodic reports it receives and eliminate the obsolete ones.

After careful review, the Committee on the Judiciary determined that about 40 reports out of the thousands of reports subject to sunset are required for the committee to perform its legislative and oversight duties.

Examples include the United States Department of Justice's annual report on crime statistics and the Immigration and Naturalization Service's annual statistical report.

The bill passed the House on the suspension calendar. The companion Senate bill adds two more reports which the Senate has asked to be continued. The motion which I will make will continue all the reports contained in the House bill and the two additional reports contained in the Senate bill into one bill and send it back to the Senate for passage and presentment to the President.

Ms. LOFGREN. Mr. Speaker, continuing to reserve the right to object, I would like to note that the Sunset Act itself forces Congress to reexamine the usefulness of the reports. But, as the chairman has pointed out, there are some of these reports that are very important. And I am pleased to report that there has been a bipartisan effort to identify the very same reports the chairman has mentioned today.

We believe, on a bipartisan basis, that the reports identified and preserved under this Act will continue to

provide information important to legislative and to oversight processes and, in particular, that it will allow the Congress to make sure that privacy is protected. And for that reason, if no other, we do need to act today.

Mr. Speaker, I would like to add finally a note of thanks to the Committee on the Judiciary's staff that worked on this measure, my own special counsel John Flannery; Cassandra Butts in the office of the minority leader, the gentleman from Missouri (Mr. GEPHARDT); and finally, the gentleman from Missouri (Mr. GEPHARDT) himself, who really was very passionate in making sure that the privacy issues that will be protected by this bill were brought to the forefront so that we could be here today on this bipartisan basis to make sure that this is enacted.

Mr. COBLE. Mr. Speaker, if the gentlewoman will continue to yield, I think she commented about staff. I want to add the name of Jim Wilon. Jim did great work on this matter, as well.

Ms. LOFGREN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 1769

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Continued Reporting of Intercepted Wire, Oral, and Electronic Communications Act”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Section 2519(3) of title 18, United States Code, requires the Director of the Administrative Office of the United States Courts to transmit to Congress a full and complete annual report concerning the number of applications for orders authorizing or approving the interception of wire, oral, or electronic communications. This report is required to include information specified in section 2519(3).

(2) The Federal Reports Elimination and Sunset Act of 1995 provides for the termination of certain laws requiring submittal to Congress of annual, semiannual, and regular periodic reports as of December 21, 1999, 4 years from the effective date of that Act.

(3) Due to the Federal Reports Elimination Act and Sunset Act of 1995, the Administrative Office of United States Courts is not required to submit the annual report described in section 2519(3) of title 18, United States Code, as of December 21, 1999.

SEC. 3. CONTINUED REPORTING REQUIREMENTS.

(a) **CONTINUED REPORTING REQUIREMENTS.**—Section 2519 of title 18, United States Code, is amended by adding at the end the following:

“(4) The reports required to be filed by subsection (3) are exempted from the termination provisions of section 3003(a) of the Federal Reports Elimination and Sunset Act of 1995 (Public Law 104-66).”.

(b) **EXEMPTION.**—Section 3003(d) of the Federal Reports Elimination and Sunset Act of 1995 (Public Law 104-66) is amended—

(1) in paragraph (31), by striking "or" at the end;

(2) in paragraph (32), by striking the period and inserting "; or"; and

(3) by adding at the end the following:

"(33) section 2519(3) of title 18, United States Code."

SEC. 4. ENCRYPTION REPORTING REQUIREMENTS.

Section 2519(1)(b) of title 18, United States Code, is amended by striking "and (iv)" and inserting "(iv) the number of orders in which encryption was encountered and whether such encryption prevented law enforcement from obtaining the plain text of communications intercepted pursuant to such order, and (v)".

SEC. 5. REPORTS CONCERNING PEN REGISTERS AND TRAP AND TRACE DEVICES.

Section 3126 of title 18, United States Code, is amended by striking the period and inserting ";", which report shall include information concerning—

"(1) the period of interceptions authorized by the order, and the number and duration of any extensions of the order;

"(2) the offense specified in the order or application, or extension of an order;

"(3) the number of investigations involved;

"(4) the number and nature of the facilities affected; and

"(5) the identity, including district, of the applying investigative or law enforcement agency making the application and the person authorizing the order."

Amendment in the Nature of a Substitute Offered by Mr. Coble

Mr. COBLE. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. COBLE:

"Strike out all after the enacting clause of the Senate bill and insert:

SECTION 1. EXEMPTION OF CERTAIN REPORTS FROM AUTOMATIC ELIMINATION AND SUNSET.

Section 3003(a)(1) of the Federal Reports Elimination and Sunset Act of 1995 (31 U.S.C. 1113 note) does not apply to any report required to be submitted under any of the following provisions of law:

(1) The following sections of title 18, United States Code: sections 2519(3), 2709(e), 3126, and 3525(b).

(2) The following sections of title 28, United States Code: sections 522, 524(c)(6), 529, 589a(d), and 594.

(3) Section 3718(c) of title 31, United States Code.

(4) Section 9 of the Child Protection Act of 1984 (28 U.S.C. 522 note).

(5) Section 8 of the Civil Rights of Institutionalized Persons Act (42 U.S.C. 1997f).

(6) The following provisions of the Omnibus Crime Control and Safe Streets Act of 1968: sections 102(b) (42 U.S.C. 3712(b)), 520 (42 U.S.C. 3766), 522 (42 U.S.C. 3766b), and 810 (42 U.S.C. 3789e).

(7) The following provisions of the Immigration and Nationality Act: sections 103 (8 U.S.C. 1103), 207(c)(3) (8 U.S.C. 1157(c)(3)), 412(b) (8 U.S.C. 1522(b)), and 413 (8 U.S.C. 1523), and subsections (h), (i), (o), (q), and (r) of section 286 (8 U.S.C. 1356).

(8) Section 3 of the International Claims Settlement Act of 1949 (22 U.S.C. 1622).

(19) Section 1114 of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3414).

(20) Section 11 of the Foreign Agents Registration Act of 1938 (22 U.S.C. 621).

(21) The following provisions of the Foreign Intelligence Surveillance Act of 1978: sections 107 (50 U.S.C. 1807) and 108 (50 U.S.C. 1808).

(22) Section 102(b)(5) of the Department of Justice and Related Agencies Appropriations Act, 1993 (28 U.S.C. 533 note).

SEC. 2. ENCRYPTION REPORTING REQUIREMENTS.

(a) Section 2519(2)(b) of title 18, United States Code, is amended by striking "and (iv)" and inserting "(iv) the number of orders in which encryption was encountered and whether such encryption prevented law enforcement from obtaining the plain text of communications intercepted pursuant to such order, and (v)".

(b) The encryption reporting requirement in subsection (a) shall be effective for the report transmitted by the Director of the Administrative Office of the Courts for calendar year 2000 and in subsequent reports.

SEC. 3. REPORTS CONCERNING PEN REGISTERS AND TRAP AND TRACE DEVICES.

Section 3126 of title 18, United States Code, is amended by striking the period and inserting ";", which report shall include information concerning—

"(1) the period of interceptions authorized by the order, and the number and duration of any extensions of the order;

"(2) the offense specified in the order or application, or extension of an order;

"(3) the number of investigations involved;

"(4) the number and nature of the facilities affected; and

"(5) the identity, including district, of the applying investigative or law enforcement agency making the application and the person authorizing the order."

Mr. COBLE (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The amendment in the nature of a substitute was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

The title of the Senate bill was amended so as to read:

"A bill to exempt certain reports from automatic elimination and sunset pursuant to the Federal Reports Elimination and Sunset Act of 1995, and for other purposes."

A motion to reconsider was laid on the table.

DIGITAL THEFT DETERRENCE AND COPYRIGHT DAMAGES IMPROVEMENT ACT OF 1999

Mr. COBLE. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of the bill (H.R. 3456) to amend statutory damages provisions of title 17, U.S. Code, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

Mr. BERMAN. Mr. Speaker, reserving the right to object, I yield to the gentleman from North Carolina (Mr. COBLE), the chairman of the subcommittee, to just describe the legislation.

Mr. COBLE. Mr. Speaker, I thank the gentleman from California for yielding.

Mr. Speaker, H.R. 3456 is very similar to H.R. 1761, which was considered under suspension of the rules and agreed to by voice vote on August 2, 1999.

It makes significant improvements in the ability of the Copyright Act to deter copyright infringement by amending it to increase the statutory penalties for infringement. Copyright piracy, Mr. Speaker, is flourishing in the world. With the advanced technologies available and the fact that many computer users are either ignorant of the copyright laws or simply believe that they will not be caught or punished, the piracy trend will continue.

One way to combat this problem is to increase the statutory penalties for copyright infringement so that they will be an effective deterrent to this conduct.

Another significant aspect of H.R. 3456 addresses a problem on regarding the difficulty of prosecuting crimes against intellectual property. It instructs that within 120 days on enactment of this act or within 120 days after there is a sufficient number of voting members to constitute a quorum, the United States Sentencing Commission shall promulgate emergency guideline amendments to implement the sentencing mandate in the No Electronic Theft, popularly known as the NET Act, which became law in the 105th Congress.

It is vital that the United States recognizes intellectual property rights and provides strong protection and enforcement against violation of those rights.

This legislation, Mr. Speaker, makes significant and necessary improvements to the Copyright Act. The Subcommittee on Courts and Intellectual

Property and the Committee on the Judiciary support H.R. 3456 in a bipartisan manner, and I urge its adoption today.

If I may, Mr. Speaker, at this time I have one more bill and possibly two more bills that are very brief, but I would be remiss as we conclude the first session of the 106th Congress if I did not convey my personal expressions of thanks to the distinguished gentleman from California (Mr. BERMAN), the ranking member of the subcommittee; to each Democrat and Republican member of the subcommittee; to our very fine chairman, the gentleman from Illinois (Mr. HYDE); and to the staff on both the Democrat and Republican side for the accomplishments.

And pardon our immodesty, but I think we have realized accomplishments during this first session.

Mr. BERMAN. Mr. Speaker, continuing my reservation of objection, first let me just respond to the last comment of my friend.

As he knows, and I have discussed this privately, but it was a real pleasure to be his ranking member this past year. We did get a lot done. We did it, I think, on a bipartisan basis on almost every single issue we faced and accomplished quite a bit, probably not as much as the Transportation and Infrastructure committee, but a substantial work product, much of which was in the legislation that passed as part of the non-omnibus appropriations bill.

I also want to express my appreciation to the staff both of the subcommittees and the full committees and to the gentleman from Illinois (Mr. HYDE) and the gentleman from Michigan (Mr. CONYERS) as well for all their support.

On this particular legislation which is an important bill, it comes under our obligations under the intellectual property provisions of Article 1 of the Constitution to reassess the efficacy of our laws in protecting copyright. Toward that end, earlier this year the Committees on the Judiciary in both Houses resolved to address several concerns which have been brought to our attention regarding the deterrence of copyright infringement and penalties for such infringement in those instances when it, unfortunately, occurs.

While I support the bill that we previously passed, I concur in the passage of the bill before us tonight.

There are two key features in the legislation. First, it provides an inflation adjustment for copyright statutory damages. It has been well over a decade since we last adjusted statutory damages for inflation. Our purpose must be to provide meaningful disincentives for infringement, and to accomplish that, the cost of infringement must substantially exceed the cost of the compliance so that those who use or distribute intellectual property have incentive to comply with the law.

Secondly, passage of this bill is important to expedite the Sentencing Commission's adoption of a revised Intellectual Property sentencing guidelines. The newly confirmed Sentencing Commissioners will have 120 days to revise the Intellectual Property guideline to increase the deterrence.

In 1997, when we adopted the NET Act, we directed the Sentencing Commission to increase criminal penalties for Intellectual Property crimes. The current IP sentencing guidelines include perverse incentives that allow pirates to avoid significant prison terms. U.S. Attorneys refuse to bring copyright or trademark criminal cases because of the current weak guidelines. This bill will rectify that situation.

The new Commissioners will be required to focus on this important problem immediately. The increasing threat of intellectual property theft both in the on-line and off-line world will thus be fought with all available weapons.

Mr. Speaker, I continue my reservation of objection, and I yield to the gentleman from North Carolina (Mr. COBLE).

Mr. COBLE. Mr. Speaker, I thank the gentleman for yielding.

While I was praising all my colleagues on the Judiciary and on the subcommittee and, of course, intellectual property, inevitably omissions are committed and I inadvertently failed to mention the distinguished gentleman from Michigan (Mr. CONYERS), the ranking member of the full committee.

Mr. BERMAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3456

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Digital Theft Deterrence and Copyright Damages Improvement Act of 1999".

SEC. 2. STATUTORY DAMAGES ENHANCEMENT.

Section 504(c) of title 17, United States Code, is amended—

(1) in paragraph (1)—
(A) by striking "\$500" and inserting "\$750"; and

(B) by striking "\$20,000" and inserting "\$30,000"; and

(2) in paragraph (2), by striking "\$100,000" and inserting "\$150,000".

SEC. 3. SENTENCING COMMISSION GUIDELINES.

Within 120 days after the date of the enactment of this Act, or within 120 days after the first date on which there is a sufficient number of voting members of the Sentencing Commission to constitute a quorum, whichever is later, the Commission shall promulgate emergency guideline amendments to implement section 2(g) of the No Electronic Theft (NET) Act (28 U.S.C. 994 note) in accordance with the procedures set forth in

section 21(a) of the Sentencing Act of 1987, as though the authority under that Act had not expired.

SEC. 4. EFFECTIVE DATE.

The amendments made by section 2 shall apply to any action brought on or after the date of the enactment of this Act, regardless of the date on which the alleged activity that is the basis of the action occurred.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EXPRESSING SENSE OF HOUSE OF REPRESENTATIVES CONDEMNING RECENT HATE CRIMES IN ILLINOIS AND INDIANA

Mr. COBLE. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of the resolution (H. Res. 254) expressing the sense of the House of Representatives condemning recent hate crimes in Illinois and Indiana, and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The Clerk read the resolution, as follows:

H. RES. 254

Whereas diversity and tolerance are essential principles of an open and free society;

Whereas all people deserve to be safe within their communities, free to live, work and worship without fear of violence and bigotry;

Whereas crimes motivated by hatred against African-Americans, Jews, Asian-Americans, or other groups undermine the fundamental values of our Nation;

Whereas the communities of Skokie, the West Rogers Park neighborhood of Chicago, Northbrook, and Urbana, Illinois, and Bloomington, Indiana, were terrorized by hate crimes over the Fourth of July weekend, a time when our Nation celebrates its commitment to freedom and liberty;

Whereas hate crimes tear at the fabric of American society, leave scars on victims and their families, and weaken our sense of community and purpose;

Whereas Ricky Byrdsong, at age 43, was a loving husband and father, an inspiring community leader, and a former basketball coach at Northwestern University;

Whereas Ricky Byrdsong was a man of deep religious faith who touched the lives of countless people and whose death is mourned by his family, friends, and community, and by the Nation;

Whereas Won-Joon Yoon, at age 26, was the only son in a family of 6, and was soon to become a doctoral student in Economics at Indiana University;

Whereas Won-Joon Yoon was a man who, through his demeanor and firmly-held Christian beliefs, positively influenced those who knew him, and whose death is mourned by his family, friends, and community, and by the citizens of the United States and Korea; and

Whereas individuals who commit crimes based on hate and bigotry must be held responsible for their actions and must be

stopped from spreading violence: Now, therefore, be it

Resolved, That the House of Representatives—

(1) condemns the senseless violence that occurred in Illinois and Indiana over the Fourth of July weekend;

(2) conveys its deepest sympathy to the victims and their families;

(3) condemns the culture of hate and the hate groups that foster such violent acts;

(4) commends the communities of Illinois and Indiana for uniting to condemn these acts of hate in their neighborhoods;

(5) commends the efforts of Federal, State, and local law enforcement officials; and

(6) reaffirms its commitment to a society that fully respects and protects all people, regardless of race, religion, or ethnicity.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 2015

SENSE OF CONGRESS THAT CHINESE GOVERNMENT SHOULD STOP PERSECUTION OF FALUN GONG PRACTITIONERS

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that the Committee on International Relations be discharged from further consideration of the concurrent resolution (H. Con. Res. 218) expressing the sense of the Congress that the Government of the People's Republic of China should stop its persecution of Falun Gong practitioners, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from New York?

Mr. BROWN of Ohio. Mr. Speaker, reserving the right to object, I yield to the gentleman from New York to explain the bill.

Mr. GILMAN. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of H. Con. Res. 218, calling on the People's Republic of China to stop persecuting the Falun Gong practitioners which was introduced by the distinguished gentleman from New Jersey (Mr. SMITH), the chairman of the Subcommittee on International Operations and Human Rights. During the past few weeks, the leaders of the People's Republic of China have arrested, jailed, beaten and tortured thousands of peaceful followers of Falun Gong, a religious synthesis of traditional Chinese physical exercises and Buddhist and Taoist teachings. Adherents to this meditation movement have done nothing more than express their humble belief that people should be kind to one another and work on themselves to change their own lives. They are non-violent and have not adopted any so-called foreign beliefs. They do not promote nor do they use drugs. They are

not a cult. They only want to meditate, take their lives into their own hands and attempt to live productive and peaceful lives.

What in the world can be wrong with that? What sort of government finds that so threatening that it would have these good citizens arrested, tortured, dismissed from their job? What sort of government sends peaceful religious practitioners to labor camps and creates such circumstances whereby some of them felt that they had to take their own lives?

The answer to those questions is that the government of the People's Republic of China is doing just that. The same government that earlier this week threatened the State of Israel if its leaders had the audacity to meet with its holiness, the Dalai Lama. It is the same government that the Clinton administration so desperately wanted to be accepted as a member of the WTO. And it is the very same government that the State Department continues to promote military exchanges with.

Mr. Speaker, the government of China is led by those who do not share our beliefs in what is right and what is wrong. They have an agenda that is not moral. They have a purpose that is not peaceful. By their repression of Falun Gong, they demonstrate that they will use any means and methods to promote their effort to stay in power.

The repression of religion in China is a serious threat to all that civilized people hold dear. If our government and other democracies around the world continue business as usual with such a regime, we will have only ourselves to blame for the ultimate consequences.

Accordingly, I urge my colleagues to support H. Con. Res. 218.

Mr. BROWN of Ohio. Mr. Speaker, further reserving the right to object, I rise in strong support of this resolution which was introduced by my colleague on the Committee on International Relations and chairman of the Subcommittee on International Operations and Human Rights the gentleman from New Jersey (Mr. SMITH) and congratulate him on his good work.

Most Americans, and, for that matter, most Members of Congress probably had not heard of Falun Gong until last summer when the Chinese dictatorship banned and started throwing thousands of people in jail for practicing it. It is hardly surprising people that Chinese is systematically arresting, torturing and even killing its own citizens for wanting to practice their faith, which is what Falun Gong is. This is the same gang of dictators, after all, that persecutes Christians, Muslims and Buddhists and winks at forced abortions.

But even though this latest purge is completely in character, it is a perfect illustration why we need to radically

alter our relations with that dictatorship. Because when Beijing decided to make practicing Falun Gong a capital offense, which is exactly what the rubber-stamp Chinese congress did before the visit to Beijing of our trade representative Charlene Barshefsky, we are seeing that life in the People's Republic is not much different from 10 years ago when the People's Liberation Army turned its tanks and machine guns on the people in Tiananmen Square who wanted nothing less than the very same political liberty that lets us stand here tonight and debate this resolution.

As I speak there are thousands of men and women in China who are being beaten and killed for choosing to believe in ideals we take for granted in this country, whether it is our faith in God, our right to vote or simply wanting to belong to Falun Gong. As we consider, Mr. Speaker, permanent NTR next year to China, let us remember what the Communist Chinese are doing to the Falun Gong.

Mr. Speaker, further reserving the right to object. I yield to the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. I thank the gentleman for yielding.

Mr. Speaker, 2 weeks ago I introduced H. Con. Res. 218 which already has more than 70 bipartisan cosponsors, including the chairman of the full committee the gentleman from New York (Mr. GILMAN); the gentlewoman from California (Ms. PELOSI); the gentleman from Virginia (Mr. WOLF); the gentleman from California (Mr. LANTOS); the gentleman from Ohio (Mr. BROWN); the gentleman from Pennsylvania (Mr. PITTS) and many others, condemning the crackdown of the Falun Gong spiritual movement by the government of the People's Republic of China. As we all know by now, the Chinese dictatorship has long been brutal in its suppression of religious practice that is not state-controlled. Tibetan Buddhists, Catholics loyal to the Pope, Uighur Muslims in Xinjiang Province and Protestant House Church members have all borne the brunt of a systematic and brutal persecution by the Chinese government which often includes torture. In recent months, the Chinese government has embarked on a new campaign, an attempt, in its own words, to smash Falun Gong, a peaceful and nonviolent form of spiritual practice.

A meditative spirituality that blends elements of Buddhism and Taoism, Falun Gong has millions of adherents in China and elsewhere. Since the group was banned in July of this year, thousands of ordinary citizens from all over China have been jailed for refusing to give up their practice. There have been many credible reports of torture and inhumane treatment of detained practitioners, including a report that a 42-year-old woman was tortured

to death by Chinese thugs. Numerous practitioners, Mr. Speaker, have been sentenced to labor camps without trial and thousands have lost their jobs or have been expelled from schools.

The Chinese government has also enacted laws criminalizing Falun Gong. This past Friday after a single, 7-hour closed hearing, China handed down the first sentences against Falun Gong practitioners. Three men and one woman received sentences ranging from 2 to 12 years for "using an evil cult to obstruct the law." It is feared that those were only the first of what will become many trials aimed at stamping out the practice of Falun Gong. According to press reports, China will begin a new series of approximately 300 trials starting on Sunday with the trial of a 63-year-old retired schoolteacher kicking that off. This is an absolute outrage. Thankfully the House, I hope, will soon go on record condemning it.

The fact that this rash of trials follows so closely on the heels of the Beijing visit of U.N. Secretary-General Kofi Annan demonstrates the failure of his visit to advance the cause of human rights in China. I could not believe my eyes, Mr. Speaker, reading yesterday's press reports of the Secretary-General's remarks on Tuesday. Mr. Annan stated that the Chinese foreign minister had given him "a better understanding of some of the issues involved" in the Falun Gong crackdown. He also parroted the Chinese official line, stating that, and I quote, "In dealing with this issue, the fundamental rights of citizens will be respected, and some of the actions they are taking are for the protection of individuals."

Certainly Mr. Annan cannot be ignorant of the credible reports to the contrary that have been pouring out of China in recent weeks. I fear that the Secretary-General's failure to empathize with and to speak out on behalf of these oppressed people and his willingness to give the Chinese oppressors the benefit of an unjustified doubt has only emboldened them in their efforts to crush Falun Gong.

The suppression of Falun Gong in China has been brutal, it has been systematic, and it continues as we meet here tonight. Two days ago, during the Secretary-General's visit, the authorities arrested 20 more people who were practitioners of Falun Gong who were meditating in Tiananmen Square. The police used force against the group, reportedly kicking and jumping on the peaceful protesters before removing them from the square in a van.

In response to this further suppression of fundamental human rights by the Beijing dictatorship, H. Con. Res. 218 expresses the sense of the Congress that the government of the PRC should stop persecuting Falun Gong practitioners and other religious believers

and expresses our belief that the U.S. Government should use every appropriate forum to urge the PRC to release all detained Falun Gong practitioners; allow those practitioners to pursue their beliefs in accordance with the Chinese constitution; and to abide by the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights.

Given this Chamber's commitment to freedom of conscience and the undisguised severity of the persecution against Falun Gong, I strongly urge support of this resolution.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. BROWN of Ohio. Further reserving the right to object, I yield to the gentleman from Nebraska.

Mr. BEREUTER. I thank the gentleman for yielding.

Mr. Speaker, I wanted to report to my colleagues that this resolution introduced by the distinguished gentleman from New Jersey (Mr. SMITH) with many other cosponsors was reported to the Subcommittee on Asia and the Pacific only lately because it was introduced on November 2. We took a look at it, made very slight rhetorical changes, cleared it with the gentleman from California (Mr. LANTOS) and the gentleman from Connecticut (Mr. GEJDENSON) on the minority side who were also cosponsors along with the gentleman from New York (Mr. GILMAN) and other distinguished members of the Congress, including some on our committee, the Committee on International Relations, and we thought it was entirely appropriate that it was reported to the floor.

The gentleman from New Jersey has highlighted some of the concerns that obviously we have with the way the Falun Gong is being treated in China. It only hurts their credibility. I think it speaks unfortunately to their legitimacy. I would hope that this is a message that they will take to heart. I urge support of the resolution.

Mr. BROWN of Ohio. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 218

Whereas Falun Gong is a peaceful and non-violent form of religious belief and practice with millions of adherents in China and elsewhere;

Whereas the Government of the People's Republic of China has forbidden Falun Gong practitioners to practice their faith;

Whereas this prohibition violates China's own Constitution as well as the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights;

Whereas thousands of ordinary citizens from all over China have been jailed for refusing to give up their practice of Falun

Gong and for appealing to the government for protection of their constitutional rights;

Whereas there are many credible reports of torture and other cruel, degrading and inhuman treatment of detained Falun Gong practitioners, including a report that a 42-year-old woman, Zhao Jinhua, was tortured to death by Chinese government officials;

Whereas the People's Republic of China has enacted new criminal legislation that the government's official newspaper hailed as a "powerful new weapon to smash evil cultist organizations, especially Falun Gong";

Whereas some of the detained Falun Gong members have been charged with political offenses, such as violations of China's vague "official state secrets" law, and under the new legislation Falun Gong practitioners will be chargeable with such offenses as murder, fraud, and endangering national security;

Whereas other Falun Gong members have been sentenced to labor camps, apparently under administrative procedures allowing such sentences without trial;

Whereas Chinese authorities in recent months have reportedly confiscated, burned, or otherwise destroyed millions of Falun Gong books and tapes;

Whereas thousands of Falun Gong practitioners in China have lost their jobs and students have been expelled from schools for refusing to give up their beliefs; and

Whereas the brutal crackdown by the Chinese Government on Falun Gong is in direct violation of the fundamental human rights to freedom of religious belief and practice, expression, and assembly: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of the Congress that—

(1) the Government of the People's Republic of China should stop persecuting Falun Gong practitioners and other religious believers;

(2) the Government of the United States should use every appropriate public and private forum, including but not limited to the United Nations Human Rights Commission, to urge the Government of the People's Republic of China—

(A) to release from detention all Falun Gong practitioners and put an immediate end to the practices of torture and other cruel, inhuman and degrading treatment against them and other prisoners of conscience;

(B) to allow Falun Gong practitioners to pursue their religious beliefs in accordance with article 36 of the Constitution of the People's Republic of China; and

(C) to abide by the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights.

AMENDMENT IN THE NATURE OF A SUBSTITUTE
OFFERED BY MR. GILMAN

Mr. GILMAN. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. GILMAN:

Strike out all after the resolving clause and insert:

That it is the sense of the Congress that—

(1) the Government of the People's Republic of China should stop persecuting Falun Gong practitioners; and

(2) the Government of the United States should use every appropriate public and private forum, including but not limited to the United Nations Human Rights Commission,

to urge the Government of the People's Republic of China—

(A) to release from detention all Falun Gong practitioners and put an immediate end to the practices of torture and other cruel, inhuman and degrading treatment against them and other prisoners of conscience;

(B) to allow Falun Gong practitioners to pursue their personal beliefs in accordance with article 36 of the Constitution of the People's Republic of China; and

(C) to abide by the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights.

Mr. GILMAN (during the reading). Mr. Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from New York (Mr. GILMAN).

The amendment in the nature of a substitute was agreed to.

The SPEAKER pro tempore. The question is on the concurrent resolution, as amended.

The concurrent resolution, as amended, was agreed to.

AMENDMENT TO THE PREAMBLE OFFERED BY MR. GILMAN

Mr. GILMAN. Mr. Speaker, I offer an amendment to the preamble.

The Clerk read as follows:

Amendment to the preamble offered by Mr. Gilman:

Insert a complete new preamble as follows:

Whereas Falun Gong is a peaceful and non-violent form of personal belief and practice with millions of adherents in China and elsewhere;

Whereas the Government of the People's Republic of China has forbidden Falun Gong practitioners to practice their beliefs;

Whereas this prohibition violates China's own Constitution as well as the International Covenant on Civil and Political Rights and the Universal Declaration of Human Rights;

Whereas thousands of ordinary citizens from all over China have been jailed for refusing to give up their practice of Falun Gong and for appealing to the government for protection of their constitutional rights;

Whereas there are many credible reports of torture and other cruel, degrading and inhuman treatment of detained Falun Gong practitioners;

Whereas the People's Republic of China has enacted new criminal legislation that the government's official newspaper hailed as a "powerful new weapon to smash evil cultist organizations, especially Falun Gong";

Whereas some of the detained Falun Gong members have been charged with political offenses, such as violations of China's vague "official state secrets" law, and under the new legislation Falun Gong practitioners will be chargeable with such offenses as murder, fraud, and endangering national security;

Whereas other Falun Gong members have been sentenced to labor camps, apparently under administrative procedures allowing such sentences without trial;

Whereas Chinese authorities in recent months have reportedly confiscated, burned, or otherwise destroyed millions of Falun Gong books and tapes;

Whereas thousands of Falun Gong practitioners in China have lost their jobs and students have been expelled from schools for refusing to give up their beliefs; and

Whereas the brutal crackdown by the Chinese Government on Falun Gong is in direct violation of the fundamental human rights to freedom of personal belief and practice, expression, and assembly;

Mr. GILMAN (during the reading). Mr. Speaker, I ask unanimous consent that the amendment to the preamble be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment to the preamble offered by the gentleman from New York (Mr. GILMAN).

The amendment to the preamble was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the matter just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

MERVYN MALCOLM DYMALLY POST OFFICE BUILDING

Mr. OSE. Mr. Speaker, I ask unanimous consent that the Committee on Government Reform be discharged from further consideration of the bill (H.R. 642) to redesignate the Federal building located at 701 South Santa Fe Avenue in Compton, California, and known as the Compton Main Post Office, as the "Mervyn Malcolm Dymally Post Office Building", and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the bill, as follows:

H.R. 642

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REDESIGNATION.

The Federal building located at 701 South Santa Fe Avenue in Compton, California, and known as the Compton Main Post Office, shall be known and designated as the "Mervyn Malcolm Dymally Post Office Building".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the

United States to the Federal building referred to in section 1 shall be deemed to be a reference to the "Mervyn Malcolm Dymally Post Office Building".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 2030

NATIONAL CHILDREN'S MEMORIAL DAY

Mr. OSE. Mr. Speaker, I ask unanimous consent that the Committee on Government Reform be discharged from further consideration of the resolution (H. Res. 376) expressing the sense of the House of Representatives in support of "National Children's Memorial Day," and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the resolution, as follows:

H. RES. 376

Whereas approximately 80,000 infants, children, teenagers, and young adults of families living throughout the United States die each year from myriad causes;

Whereas the death of an infant, child, teenager, or young adult of a family is considered to be one of the greatest tragedies that a parent or family will ever endure during a lifetime;

Whereas a supportive environment and empathy and understanding are considered critical factors in the healing process of a family that is coping with and recovering from the loss of a loved one, and

Whereas Senate Resolution 118 would designate December 12, 1999, as "National Children's Memorial Day": Now, therefore, be it

Resolved,

That the House of Representatives supports the goals and ideas of "National Children's Memorial Day" in remembrance of the many infants, children, teenagers, and young adults of families in the United States who have died.

The resolution was agreed to.

AMENDMENT TO THE PREAMBLE OFFERED BY MR. OSE

Mr. OSE. Mr. Speaker, I offer an amendment to the preamble.

The clerk read as follows:

Amendment to the preamble offered by Mr. OSE:

Strike the final "whereas" clause.

The SPEAKER pro tempore. The question is on the amendment to the preamble offered by the gentleman from California (Mr. OSE).

The amendment to the preamble was agreed to.

A motion to reconsider was laid on the table.

HOOR OF MEETING ON TOMORROW

Mr. BARTON of Texas. Mr. Speaker, I ask unanimous consent that when the

House adjourns today, it adjourn to meet at noon tomorrow.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DESIGNATION OF THE HONORABLE CONSTANCE A. MORELLA OR THE HONORABLE FRANK R. WOLF TO ACT AS SPEAKER PRO TEMPORE AND TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS FOR REMAINDER OF FIRST SESSION OF 106TH CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 18, 1999.

I hereby appoint the Honorable CONSTANCE A. MORELLA or, if not available to perform this duty, the Honorable FRANK R. WOLF to act as Speaker pro tempore to sign enrolled bills and joint resolutions for the remainder of the First Session of the One Hundred Sixth Congress.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

The SPEAKER pro tempore. Without objection, the designations are agreed to.

There was no objection.

COMMUNICATION FROM CHAIRMAN OF COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE

The SPEAKER pro tempore laid before the House the following communication from the chairman of the Committee on Transportation and Infrastructure; which was read and, without objection, referred to the Committee on Appropriations:

COMMITTEE ON TRANSPORTATION
AND INFRASTRUCTURE,
Washington, DC, November 17, 1999.

Hon. J. DENNIS HASTERT,
*Speaker of the House, Capitol,
Washington, DC.*

DEAR MR. SPEAKER: I am transmitting herewith copies of the resolutions approved on November 10, 1999 by the Committee on Transportation and Infrastructure, as follows:

Committee survey resolutions authorizing the U.S. Army Corps of Engineers to study the following potential water resources projects: Brazoria County Shoreline, Texas; Dickinson Bayou, Texas; and for the City of Brownsville, Texas.

Committee resolution authorizing the natural Resources Conservation Service to undertake a small watershed project for the Middle Deep Red Run Creek Small Watershed, Oklahoma.

With kind regards, I am
Sincerely,

BUD SHUSTER,
Chairman.

There was no objection.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of Jan-

uary 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

DISTURBING PATTERN OF PAKISTANI ACTIONS DEMANDS SERIOUS SCRUTINY BY THE ADMINISTRATION AND CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. PALLONE) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, last Tuesday in this House we approved on a bipartisan basis a resolution congratulating the people of India and their government for the successful parliamentary elections recently concluded by that thriving democracy. I was pleased to support that resolution and to speak in favor of it.

Unfortunately, action on another resolution that has been approved by the Committee on International Relations and is ready for consideration on this floor has been delayed. That other resolution would express the strong opposition of Congress to the recent military coup in Pakistan that overthrew the civilian government. While individual members of Congress, including me, have spoken out against the Pakistani coup, it is important for the House of Representatives to go on record collectively stating that we do not tolerate the overthrow of an elected government.

I am very disappointed, Mr. Speaker, in the Republican leadership for the continued delay in bringing up this resolution. Since we are about to adjourn, it is likely the resolution is dead for this year.

Last month, Mr. Speaker, the military coup in Pakistan was one of a series of disturbing actions that deserve very close scrutiny and clear condemnation by the U.S. government, the Congress, as well as the administration. One of the most shocking of these was last week's rocket attacks against American and UN targets in the Pakistani capital of Islamabad. The rockets were aimed at buildings in the heart of the capital, including the U.S. Embassy, a library and cultural center known as the American Center, and an office tower housing several UN agencies. Thank God, no one was killed, although one person was injured, a Pakistani guard at the American Center.

Mr. Speaker, the attacks came 2 days before UN sanctions were scheduled to go into effect against the Taliban redream in neighboring Afghanistan unless that country turns over bin Laden, the international terrorist who has masterminded attacks against American and western targets in various countries. There has been solid evidence in the past linking bin Laden's operation with Pakistan, so this connection is extremely plausible.

As the New York Times reported last Saturday, November 13, the list of pos-

sible culprits is short. Apart from the Taliban itself, Pakistan is home to several well-armed paramilitary groups sympathetic to the Taliban and hostile to the United States, in addition to thousands of Pakistani militants, who, over the years have trained side-by-side, with Taliban Members in Islamic schools.

I should add, Mr. Speaker, that Pakistan has for years been identified with the violent separatist movement in India's state of Jammu and Kashmir, causing the deaths of thousands of civilians and the displacement of hundreds of thousands from their homes. Pakistan's role in selling death and destruction in Kashmir was exposed to the world earlier this year when Pakistani military leaders, many of the same elements who carried out last month's coup d'etat, precipitated a major crisis by unleashing an attack against Indian positions in the area of Kargil, along the line of control that separates India and Pakistani controlled areas of Kashmir.

Pakistan's actions were condemned by the U.S. and the international community, and Pakistan was forced to essentially withdraw. But the attacks by Pakistani forces on India army positions continued day-to-day, causing casualties on both sides and threatening the stability of the entire south Asia region.

You have to wonder, Mr. Speaker, why the U.S. continues to try to win the favor of the Pakistani regime, given the proven collaboration between Pakistan and the fundamentalist Taliban militia in Afghanistan, and with bin Laden. Bin Laden and the Taliban represent the height of violent anti-Americanism, and yet here is the Pakistani regime tolerating, if not directly supporting, the operations of these movements in their country.

We have recently seen another example of the lack of respect for democracy and the rule of law on the part of the new Pakistani military regime with the initiative to indict the deposed Prime Minister, Sharif, on trumped up charges of treason and hijacking, charges which carry the death penalty.

Mr. Speaker, I do not want to get carried away singing the praises of Mr. Sharif. He was deeply involved in the ill-fated military campaign in Kashmir earlier this year. But he was the recognized legitimate leader of the nation. He had apparently attempted to dismiss the army's Chief of Staff, General Musharraf, and, instead, the general turned the tables and dismissed the prime minister, indicating who is really in charge in Pakistan. The turn of events indicates that the notion of democratic civilian leadership and the rule of law are not well developed in Pakistan.

Reports in the last day out of Pakistan indicate that Prime Minister

Sharif, who has been in military custody since he was deposed in the October 12th coup, has been moved to the port city of Karachi in a military aircraft in preparation for a court appearance.

Mr. Speaker, in conclusion, there are some who seem to welcome the seizure of military power by the military in Pakistan as a recipe for stability. I believe this is misguided thinking. First, as the rocket attacks against American targets last week indicate, the military regime is no better at maintaining stability and security than the previous civilian government. Furthermore, this year's Pakistani attack on India in Kashmir demonstrates behavior that is highly destabilizing and could lead to a wider war that would devastate much of South Asia.

It was the military brass now in charge of the country who precipitated that conflict, and who continue to promote the ongoing border incidents. Finally, the fact that Pakistan has been under military dictatorship for approximately half of its 52 years of independence inevitably led General Musharraf to conclude that it was his right to dismiss the Prime Minister, not the other way around. Until that type of thinking changes, Pakistan's prospects for stability and democracy are dim. While we may not be able to change Pakistani behavior, the United States should not be playing the role of enabler, out of cynical expediency or in the misguided belief that the military regime will bring "stability." This body should go on record expressing our condemnation of this year's turn of events in Pakistan.

COMPREHENSIVE DEBT RELIEF ADOPTED BY OMNIBUS BUDGET RESOLUTION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Iowa (Mr. LEACH) is recognized for 5 minutes.

Mr. LEACH. Mr. Speaker, I rise today to emphasize to my colleagues and the public that as part of the omnibus spending resolution just adopted, the United States House of Representatives has endorsed the most seminal bill ever advanced for the developing countries of the world. Comprehensive debt relief has been adopted for the poorest of the poor, many, but not all of which, are in Africa.

Relieving the debt burdens of the world's poorest countries has become one of the foremost economic, humanitarian and moral challenges of our time. Indeed, seldom has there been such a compelling conjunction between abstract economics, ethics and public policy.

In an effort to address this problem, earlier this year I introduced H.R. 1095, an act which authorizes debt relief for certain countries and conditions that relief on those countries transferring the savings from debt service obligations into poverty reduction and sustainable development.

Although initially skeptical about the breadth of this legislative approach, the administration eventually embraced it, and I am particularly appreciative of the support of Secretary Summers in this cause. In Congress, a number of our colleagues have been instrumental in bringing this initiative to the floor, and I would like to thank the gentleman from Alabama (Mr. BACHUS), the gentleman from Alabama (Mr. CALLAHAN) and the gentleman from Texas (Mr. ARMEY) on this side of the aisle, and the gentleman from New York (Mr. LAFALCE), the gentleman from Massachusetts (Mr. FRANK), the gentlewoman from California (Ms. WATERS) and the gentlewoman from California (Ms. PELOSI) on the other.

That we are able to consider debt relief today is a result of extensive collaboration and dialogue with a coalition of non-traditional lobbyists. Such non-governmental organizations as OXFAM and Bread for the World have provided much needed impetus to the effort, and a group of some 200 religious groups embracing the entire spectrum of faiths and denominations have united under the banner of Jubilee 2000.

The term "jubilee" is particularly appropriate, as it invokes the Old Testament Biblical concept of restoration, providing a fresh start, in this case for the most abject poor, at the beginning of the new millennium.

A central text is Leviticus 25, which contains the injunction, "and ye shall hallow the fiftieth year, and proclaim liberty throughout all the land . . . In the year of this jubilee, you shall return every man unto his possession."

As the Book of Proverbs reminds, "If you refuse to listen to the cry of the poor, your own cry will not be heard."

The Jubilee movement is worldwide, but American leadership is critical. In recent years we have demonstrated to the world our capacity to lead in the use of force. Now we must show an equal commitment to leading in the delivery of compassion. In a world in which divisions between rich and poor daily become more accentuated, it is imperative that Jubilee relationships be righted, that the alternative to war and famine with their attendant social and capital costs be averted.

Just as the Marshall Plan symbolized practicality and generosity at the end of the greatest war in human history, debt relief under the Jubilee banner stands at the end of the second millennium after the birth of Christ as a critical moral response to social challenges in parts of the world where poverty is endemic and governments have proven unable or unwilling to serve well their people.

PROVIDING HOPE AND HELP TO FLOOD-RAVAGED NORTH CAROLINA

The SPEAKER pro tempore. Under a previous order of the House, the gentle-

woman from North Carolina (Mrs. CLAYTON) is recognized for 5 minutes.

Mrs. CLAYTON. Mr. Speaker, I want to thank the Members and the Congressional and administrative staff numbering more than 500 who boarded 12 buses on Saturday, November 6, to provide hope and help to flood-ravaged Eastern North Carolina. On that day we cleaned up and fixed up places that 6 weeks after the hurricane were still saturated with water.

□ 2045

As a result of the flooding, lives have been disrupted, disturbed, and disordered. Tens of thousands were forced from their homes. Mr. Speaker, 11,000 homes were destroyed, and hundreds are living in a state of virtual homelessness. One-third of our population continues to suffer from a disaster that is unprecedented in the entire history of the State of North Carolina.

Mr. Speaker, we faced record high floodwaters covering more than 20,000 square miles, a land area greater than the size of the whole State of Maryland. Many people lost everything, their homes, their farms, their business, and their loved ones. The full amount of damage is still yet unknown.

As we begin to move from the phase of immediate relief to the phase of recovery and then rebuilding and reconstruction, many in the private sector have been helping as well. Certainly, the Red Cross and Salvation Army have been at work. Business enterprises have stepped forward with their support. Individual citizens from across the Nation have helped. The church community is doing its part and will do more. In fact, on December 19, the church community across the country will hold a nationwide effort to gather support from various denominations to help with the housing needs, especially for those who are the working poor, disadvantaged and senior citizens.

Mr. Speaker, I believe those Members and staffers who joined us on the November 6 now have a clear view of the needs of the people of eastern North Carolina. I believe those Members and staff now understand why this Congress must indeed pass an emergency rebuilding and reconstruction package when we return in January.

When Congress returns, I and others will put before the Congress a comprehensive rebuilding and reconstruction bill. At that time, we will seek the support of our colleagues in the House and Senate, as well as the support of the administration.

One aspect of the legislation we will introduce will be the provision of grants rather than loans for those homeowners and businessowners who simply cannot be helped by loans alone. Unless we are able to provide grants, there are many, many who owned homes before the storm will not

be able to afford replacement houses after the storm. Unless we are able to provide grants, there are many businesses, especially small farmers who were in business before the storm, but will not be able to return or remain in business because of the storm.

Over the years, America has come to the aid of many in foreign countries, as we should and as we must continue to do. We have helped to rebuild Europe. We have helped to boost the recovery of Japan. We have come and will continue to come again and again to the aid of Kosovo. Surely, Mr. Speaker, we can come to the aid of our fellow citizens in eastern North Carolina.

Mr. Speaker, America is at its best when conditions of our fellow citizens are at their worst. America was at its best on November 6 when those Members and staffers gave of their hearts and time and hands to those storm-torn communities and to the flood victims.

In the budget agreement we just voted on, Congress did indeed provide some immediate relief, for which I am very appreciative, although I was forced to vote against the bill because it did not contain \$81 million promised by the Senate leadership for the agriculture cooperative that would have aided our tobacco farmers, our peanut and cotton farmers. There were indeed provisions in there that will provide a response to the Housing needs and additional resources for agriculture and loans and grants. I also want to thank the administration for its support.

With this budget, we have made a significant step, but only a step. Much, much more is needed before we can say that Congress has done its part. We must, indeed, do more.

TRAGEDY AT TEXAS A&M

The SPEAKER pro tempore (Mr. SIMPSON). Under a previous order of the House, the gentleman from Texas (Mr. BARTON) is recognized for 5 minutes.

Mr. BARTON of Texas. Mr. Speaker, as one of the last speakers to speak in this chamber in this century in terms of other than the purely procedural motion, it is with great sadness that I rise this evening to talk of a terrible tragedy that happened early this morning in College Station, Texas.

The university where I graduated from in 1972 and where my father graduated from in 1947, where my son graduated from in 1993, and my daughter in 1997, has a tradition called Bonfire. Students spend several months going out and first cutting down the logs and then transporting the logs to the campus, and then once on campus, sorting them out and stacking them together to create a bonfire which some years has been over 100 feet tall, and which this year was somewhere about 40 feet tall and was scheduled to be about 60 feet tall. Earlier this morning, some-

where between 2:30 and 3 a.m., the bonfire stack catastrophically collapsed, sending 50 to 60 students that were on the stack plummeting down. Unfortunately, at least six of them have been killed; over 20 have been injured. There are still five unaccounted for, and there is a possibility that the death toll could rise to over 10 students.

Mr. Speaker, this is a terrible tragedy for Texas A&M; it is a terrible tragedy for the families of the victims; it is a terrible tragedy for young people in our country. It is a sad, sad day in College Station, Texas.

Texas A&M truly is a family. There are over 250,000 living former students of Texas A&M, and the Aggie family, literally all over the world, is in shock and mourning for the students and their families, the students that were injured and killed and their families.

Mr. Speaker, there are a number of other Aggie traditions, one of which, unfortunately, will have to be utilized in the very near future. Silver Taps is a tradition at Texas A&M where any student that dies while an active student, there is a ceremony on campus where all of the lights are turned out in the evening, all the students gather at a common area in front of the academic building and Silver Taps are played. So sometime in December, there will be Silver Taps for the students that were killed earlier this morning and Aggies mourn their passing.

There is a memorial service that is going on as we speak. The gentleman from Texas (Mr. BRADY), whose district Texas A&M is located in, flew down to College Station earlier this afternoon to be with the students there as they have that memorial service this evening.

The bonfire has been held every year but one year since 1909. In 1963, after the assassination of President Kennedy, the bonfire was canceled. That is the only time that it has been canceled until next week. Because of the tragic accident, there will be no bonfire at Texas A&M next week before the football game between Texas University and Texas A&M.

Mr. Speaker, again, I rise in strongest sympathy this evening. I would ask all of my colleagues in the House of Representatives to pray for the families whose children have been killed or injured. I have one more daughter, Kristin, who is a senior in high school this year, and she hopes to attend Texas A&M. It is my hope that the A&M administration, President Bowen, who is an excellent academic leader and faculty leader at Texas A&M, will conduct a full investigation of this accident. If there is a way to find a cause and to prevent it from happening in the future, I know that he will do that, but I also hope that we do not cancel the bonfire in the future.

Again, hundreds of thousands of former students of Texas A&M have

participated in the bonfire. With almost no exceptions, those who have participated have nothing but the warmest, fondest memories. We need to grieve for our students who lost their lives early this morning; we need to support the investigation to find the cause of that catastrophic accident, and hopefully we can come up with safety procedures so that the bonfire can continue in the future.

Mr. Speaker, I ask that all of my colleagues pray for the families of those students who lost their lives early this morning at Texas A&M.

GIVE A KID A CHANCE LEGISLATION

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Texas (Ms. JACKSON-LEE) is recognized for 5 minutes.

Ms. JACKSON-LEE of Texas. Mr. Speaker, as a Member of the delegation from Texas, let me join my colleague, the gentleman from Texas (Mr. BARTON), to offer my sympathy to the families of the victims of the bonfire tragedy at Texas A&M University, those who lost their lives and those who were severely injured. My sympathy to my colleague, Congressman BRADY whose district the university is in, and my sympathy to my constituents, many of whom attend Texas A&M and whose family members have attended Texas A&M. My prayers are with them and their families, and I hope that they will know that they are in our thoughts and that the university will proceed with a review of the circumstances. But I offer to them my deepest sympathy.

Mr. Speaker, today I rise on behalf of the children of America, more than 13.7 million that suffer from severe mental health disorders. When we think of the tragedies that we have discussed over the past year, the hateful acts of students allegedly in Cleveland, Ohio; the tragedy of a killing of a middle school youngster in my own community; the enormous tragedy of Columbine; the killings in Fort Worth, Texas and Jonesboro, we do know that our children need help, need aid, need nurturing, and need intervention.

Mr. Speaker, more than 13.7 million children in America suffer from severe mental disorders. I have long been an advocate for children's mental health services because I believe that good mental health is indispensable to overall good health.

Mr. Speaker, today I introduced Give a Kid a Chance Omnibus Mental Health Services Act of 1999. H.R. 3455 was offered and filed with over 42 original cosponsors. I believe that all children need access to mental health services, whether these services are provided in a private therapy session or in a group setting, in our communities, or available as an intervention method in our

schools. My bill will provide mental health services to children, adolescents and their families in our schools and communities. By making these services more readily available, more accessible, more known, we can spot mental health issues in children early before we have escalated or they have escalated these incidences into violence.

Mr. Speaker, at least one in five children in adolescence has a diagnosable mental, emotional or behavioral problem that can lead to school failure, substance abuse, violence or suicide. However, 75 to 80 percent of these children do not receive any services in the form of specialty treatment or some form of mental health intervention.

Mr. Speaker, it is not always the kind of specialized treatment that is needed, but just to be able to give the family and parents access to some form of counseling that will be readily available that would not be distant, that would not be overly exorbitant in cost, that would not be beyond their reach. The lack of access to mental health services has resulted in an increase of children dropping out of school, becoming involved in delinquent or criminal activity and becoming involved in the juvenile justice or protective child systems.

In light of the Columbine tragedy and other violent events of the past 7 months, our children need us to pay close attention to the early signs of mental disorders. Clearly there are warning signs of trouble in young people that point to the possibility of emotional and behavioral disorders. These warning signs include isolation, depression, alienation and hostility. But if they have no access either through the community or school health services or their parents do not know where to go, these terrible warning signs can turn into actions of violence. Recognizing these signs is the first step to ensuring that the troubled youngsters get the attention they need early to address their mental health needs before it is too late.

Although the problem of youth violence cannot be traced to a single cause or source, unrecognized or unaddressed mental health disorders in children can be catastrophic. The current mental health system fails to provide a refuge for these children before they are dumped into the juvenile justice system. Two-thirds of the children who are in the juvenile justice system need mental health intervention. I believe that prevention and intervention from an early age are critical to stemming the tide of youth violence. We must put something in place to intervene in a child's life.

This bill provides for a comprehensive, community-based, culturally competent and developmentally appropriate prevention and early intervention program that provides for the

identification of early mental health problems and promotes the mental health and enhances the resiliency of children from birth to adolescence and their families.

□ 2100

It incorporates families, schools and communities in an integral role in the programs. It coordinates behavioral health care services, Mr. Speaker, interventions and support in traditional and nontraditional settings and, finally, it provides a continuum of care for children from birth through adolescence along with their families.

Let me close simply, Mr. Speaker, by saying that I hope that all of my colleagues, Republicans and Democrats, will join in a unified voice in support of pushing this legislation quickly, because we are in great need of providing the kind of comfort and support of our children, intervention, support, mental health services accessible to all.

I rise today on behalf of the children—the more than 13.7 million that suffer from severe mental health disorders. I have long been an advocate for children's mental health services because I believe that good mental health is indispensable to overall good health. Today I introduced a bill, "Give a Kid a Chance Omnibus Mental Health Services Act of 1999," H.R. 3455 with forty-two (42) Original Co-Sponsors.

I believe that all children need access to mental health services. Whether these services are provided in a private therapy session or in a group setting in the schools, we need to make these services available.

My bill will provide mental health services to children, adolescents and their families in the schools and communities. By making these services more readily available, we can spot mental health issues in children early before we have escalated incidents of violence.

At least one in five children and adolescents has a diagnosable mental, emotional, or behavioral problem that can lead to school failure, substance abuse, violence or suicide. However, 75 to 80 percent of these children do not receive any services in the form of specialty treatment or some form of mental health intervention.

The lack of access to mental health services has resulted in an increase of children dropping out of school, becoming involved in delinquent or criminal activity, and becoming involved in the juvenile justice or child protective systems.

In light of the Columbine tragedy and other violent events of the past seven months, our children need us to pay close attention to the early signs of mental disorders. Clearly, there are warning signs of trouble in young people that point to the possibility of emotional and behavioral disorders. These warning signs include isolation, depression, alienation and hostility.

Recognizing these signs is the first step to ensure that troubled youngsters get the attention they need early to address their mental health needs before it is too late. Although the problem of youth violence cannot be traced to a single cause or source, unrecognized or unaddressed mental health disorders in children can be catastrophic.

The current mental health system fails to provide a refuge for these children before they are dumped into the juvenile justice system. I believe that prevention and intervention from an early age are critical to stemming the tide of youth violence. We must put a system in place that can intervene in a child's life early on, long before the first act of violence is ever committed.

However, there is a greater need to address the mental health needs of all children, not just those who end up in the juvenile justice system. We need to address the mental health needs of all children before they become at-risk or troubled youth. Our children need to feel more comfortable about seeking help for their problems.

In preparing this legislation, I worked with a coalition of mental health professionals—psychologists, counselors, social workers and others to create comprehensive mental health legislation that will benefit all children and their families.

Mental health is indispensable to personal well-being, family and interpersonal relationships. Mental health is the basis for thinking and communication skills, learning, emotional growth, resilience and self-esteem.

There were several issues that we considered—access to services, the issue of stigma and the cultural and ethnic barriers to treatment. This bill addresses each of these concerns. Access to mental health services is key to saving this generation from self-destructive behavior.

In addition to access, there is the significant issue of stigma, particularly among the various cultural groups in this country. As we all know, there is already a significant stigma attached to mental health services for adults.

Adults need to realize that mental health is not separate from physical or bodily health. Good physical health is all encompassing, inclusive of the mind and body. As adults, we need to feel more comfortable about our own issues. We cannot continue to believe in the stigma of mental help.

We must also explore the cultural and ethnic barriers to making mental health services available to all children. In certain ethnic cultures, the issue of mental health is almost a non-issue. For example, in some cultures, a person may complain of physical discomfort when the real issue is of a psychological nature.

In addition to internal cultural barriers to mental health treatment, there are cross-cultural barriers that must be overcome. Mental health professionals must be culturally savvy and have an understanding of various cultural and ethnic backgrounds.

People from various cultural backgrounds are often mistrustful of seeking professional mental health services because of a lack of trust in the system, economic constraints, and limited awareness of the value of good mental health. The challenge to the mental health profession is to overcome these barriers to provide comprehensive treatment.

This silence ultimately harms our children. For example, in the African-American community mental health is rarely discussed and it often goes untreated in both adults and children. Depression is the most common mental health disorder affecting 10 percent of the

population, yet we still do not engage in a public dialogue about this issue.

The progress we make now in terms of mental health access and treatment, erasing the stigma and overcoming the cultural barriers will be long reaching.

I urge my colleagues to add their names to the list of cosponsors of this legislation. In the next session, I look forward to this bill passing.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mrs. CAPPS (at the request of Mr. GEPHARDT) for today and the balance of the week on account of family illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. PALLONE) to revise and extend their remarks and include extraneous material:)

Mr. PALLONE, for 5 minutes, today.

Mr. MALONEY of Connecticut, for 5 minutes, today.

Mr. UDALL of New Mexico, for 5 minutes, today.

Mr. UDALL of Colorado, for 5 minutes, today.

Ms. JACKSON-LEE of Texas, for 5 minutes, today.

Mrs. CLAYTON, for 5 minutes, today.

(The following Members (at the request of Mr. BARTON of Texas) to revise and extend their remarks and include extraneous material:)

Mr. LEACH, for 5 minutes, today.

Mr. BARTON of Texas, for 5 minutes, today.

Mrs. MYRICK, for 5 minutes, today.

SENATE ENROLLED BILLS SIGNED

The SPEAKER announced his signature to enrolled bills of the Senate of the following titles:

S. 278. An act to direct the Secretary of the Interior to convey certain lands to the county of Rio Arriba, New Mexico.

S. 382. An act to establish the Minuteman Missile National Historic Site in the State of South Dakota, and for other purposes.

S. 1235. An act to amend part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 to allow railroad police officers to attend the Federal Bureau of Investigation National Academy for law enforcement training.

S. 1398. An act to clarify certain boundaries on maps relating to the Coastal Barrier Resources System.

JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. THOMAS, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, a joint resolution of the House of the following title:

H.J. Res. 83. A joint resolution making further continuing appropriations for the fiscal year 2000, and for other purposes.

ADJOURNMENT

Ms. JACKSON-LEE of Texas. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 9 p.m.), under its previous order, the House adjourned until tomorrow, Friday, November 19, 1999, at noon.

OATH OF OFFICE OF MEMBERS, RESIDENT COMMISSIONER, AND DELEGATES

The oath of office required by the sixth article of the Constitution of the United States, and as provided by section 2 of the act of May 13, 1884 (23 Stat. 22), to be administered to Members, Resident Commissioner, and Delegates of the House of Representatives, the text of which is carried in 5 U.S.C. 3331:

"I AB, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God."

has been subscribed to in person and filed in duplicate with the Clerk of the House of Representatives by the following Member of the 106th Congress, pursuant to the provisions of 2 U.S.C. 25:

JOE BACA, Forty-second, California.

the Secretary of the Treasury to issue regulations covering the practice of enrolled agents before the Internal Revenue Service; to the Committee on Ways and Means.

By Mr. ROYCE (for himself, Mr. BENTSEN, Mr. JONES of North Carolina, and Mr. METCALF):

H.R. 3492. A bill to amend the Fair Debt Collection Practices Act to exempt mortgage servicers from certain requirements of the Act with respect to federally related mortgage loans secured by a first lien, and for other purposes; to the Committee on Banking and Financial Services.

By Mr. RYAN of Wisconsin:

H.R. 3493. A bill to promote international monetary stability and to share seigniorage with officially dollarized countries; to the Committee on Banking and Financial Services.

By Mr. SANDERS (for himself, Ms. PELOSI, Ms. WATERS, Mr. FILNER, Mr. KUCINICH, Mr. DEFazio, Mr. OWENS, and Mr. EVANS):

H.R. 3494. A bill to clarify that no provisions of title LXII of the Revised Statutes of the United States, the Home Owners' Loan Act, or any other Federal law have ever been intended, and may not be construed, to supersede nondiscriminatory State or local laws that regulate fees and surcharges imposed by operators of automated teller machines for use of such machines; to the Committee on Banking and Financial Services.

By Mr. STRICKLAND (for himself, Mr. GORDON, Mr. UDALL of Colorado, Mr. WHITFIELD, Mrs. TAUSCHER, Mr. BAIRD, Mr. BROWN of Ohio, Mr. PHELPS, Mr. FORBES, Mr. PALLONE, and Ms. KAPTUR):

H.R. 3495. A bill to establish a compensation program for Department of Energy employees injured in Federal nuclear activities; to the Committee on the Judiciary, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TANNER:

H.R. 3496. A bill to amend the Internal Revenue Code of 1986 to provide that certain uses of a facility owned by a tax-exempt organization shall not be treated as private business use for purposes of determining whether bonds issued to provide the facility are tax-exempt bonds; to the Committee on Ways and Means.

By Mr. THOMPSON of Mississippi (for himself, Mr. SHOWS, and Mr. TAYLOR of Mississippi):

H.R. 3497. A bill to authorize a study on the feasibility of preserving certain Civil War battlefields along the Vicksburg Campaign Trail and of establishing a Civil Rights Trail in the State of Mississippi; to the Committee on Resources.

By Mr. TOWNS (for himself, Mr. TAUZIN, Mr. DINGELL, Mr. MARKEY, and Mr. OXLEY):

H.R. 3498. A bill to amend the Communications Act of 1934 to improve the operations of the Telecommunications Development Fund; to the Committee on Commerce.

By Mr. TRAFICANT:

H.R. 3499. A bill to amend section 107 of the Housing and Community Development Act of 1974 to authorize the Secretary of Housing and Urban Development to make grants from community development block grant amounts to the Park and Recreation Commission, City of Youngstown, Ohio, for the construction of a community center and the renovation of a sports complex in such city;

to the Committee on Banking and Financial Services.

By Mr. UDALL of Colorado:

H.R. 3500. A bill to direct the Administrator of the Small Business Administration to conduct a pilot program to raise awareness about telecommuting among small business employers and to encourage such employers to offer telecommuting options to employees; to the Committee on Small Business.

By Mr. UDALL of Colorado (for himself and Mr. UDALL of New Mexico):

H.R. 3501. A bill to promote and appropriately recognize the role of volunteers and partnership organizations in the stewardship of the resources and values of Federal lands administered by the Secretary of Agriculture and the Secretary of the Interior, and for other purposes; to the Committee on Resources, and in addition to the Committee on Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. UDALL of New Mexico:

H.R. 3502. A bill to enhance the ability of the National Laboratories to meet Department of Energy missions, and for other purposes; to the Committee on Science, and in addition to the Committee on Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. WATERS:

H.R. 3503. A bill to provide for basic low-cost banking accounts, to eliminate certain automated teller machine surcharges, and to reauthorize a bank fee survey conducted by the Board of Governors of the Federal Reserve System, and for other purposes; to the Committee on Banking and Financial Services.

By Ms. WATERS (for herself, Mr. CLYBURN, Mr. TOWNS, Mr. MARKEY, Mr. CONYERS, Mrs. MEEK of Florida, Mr. FRANK of Massachusetts, Ms. BROWN of Florida, Ms. LEE, Mr. SANDERS, Mr. PAYNE, Mr. CAPUANO, Mrs. MALONEY of New York, Ms. MILLENDER-MCDONALD, Ms. JACKSON-LEE of Texas, Mr. MEEKS of New York, and Mrs. JONES of Ohio):

H.R. 3504. A bill to amend the Bank Holding Company Act of 1956, the Revised Statutes of the United States, the Community Reinvestment Act of 1977, and the Gramm-Leach-Bliley Act with regard to community reinvestment, and for other purposes; to the Committee on Banking and Financial Services.

By Mr. WATKINS:

H.R. 3505. A bill to amend the Internal Revenue Code of 1986 to provide for a medical research tax credit; to the Committee on Ways and Means.

By Mr. WELDON of Florida:

H.R. 3506. A bill to amend the Service Contract Act of 1965 to provide for the responsibility in certain cases of a parent corporation of a Federal contractor to provide health care benefits to retired employees of the contractor if the contractor fails to provide such benefits; to the Committee on Education and the Workforce.

By Mr. WISE (for himself, Mr. RAHALL, and Mr. MOLLOHAN):

H.R. 3507. A bill to establish a program of supplemental unemployment benefits for unemployed coal miners who have exhausted their rights to regular unemployment benefits, and whose separation from employment

is due to environmental laws or court orders directly related to the mining of coal; to the Committee on Ways and Means.

By Mr. WU (for himself, Mr. DAVIS of Virginia, and Mr. STARK):

H.R. 3508. A bill to amend the Immigration and Nationality Act to provide status in each of fiscal years 2000 through 2002 for 65,000 H-1B nonimmigrants who have a master's or Ph. D. degree and meet the requirements for such status and whose employers make scholarship payments to institutions of higher education for undergraduate and postgraduate education; to the Committee on the Judiciary.

By Mr. YOUNG of Florida:

H.J. Res. 84. A joint resolution making further continuing appropriations for the fiscal year 2000, and for other purposes; to the Committee on Appropriations.

By Mr. ARMEY:

H.J. Res. 85. A joint resolution appointing the day for the convening of the second session of the One Hundred Sixth Congress; considered and agreed to.

H. Con. Res. 234. Concurrent resolution tabling the bill (H.R. 2466) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2000, and for other purposes; considered and agreed to.

By Mr. ARMEY:

H. Con. Res. 235. Concurrent resolution providing for the sine die adjournment of the first session of the One Hundred Sixth Congress; considered and agreed to.

By Mr. ROGERS:

H. Con. Res. 236. Concurrent resolution correcting the enrollment of H.R. 1180; considered and agreed to.

By Mr. GEORGE MILLER of California (for himself, Mr. KILDEE, Mr. KENNEDY of Rhode Island, Mr. VENTO, Mr. PASTOR, Mr. INSLEE, Mr. UNDERWOOD, Mr. FALOMAVAEGA, Mr. MCDERMOTT, Mrs. CHRISTENSEN, Ms. ESHOO, and Ms. WATERS):

H. Con. Res. 237. Concurrent resolution expressing the sense of the Congress that a portion of the budget surplus should be used to fulfill moral and legal responsibilities of the United States by ensuring proper payment and management of all federally held tribal trust fund accounts and individual Indian money accounts; to the Committee on Resources.

By Ms. PELOSI (for herself, Mr. GEJDENSON, Mr. PORTER, Mr. LANTOS, Mr. DEFAZIO, Ms. KILPATRICK, Mr. MEEHAN, Mr. OBERSTAR, Mr. HOLT, Mr. DELAHUNT, Ms. ESHOO, Ms. SCHAKOWSKY, Mr. ENGEL, Ms. KAPTUR, Mr. BOUCHER, Mr. STARK, Mr. MOAKLEY, Ms. STABENOW, Mr. MALONEY of Connecticut, Mr. KIND, Mr. FROST, Mr. HINCHEY, Mr. LAFALCE, Ms. WOOLSEY, Mr. UDALL of Colorado, Ms. SLAUGHTER, Ms. WATERS, Mr. MCDERMOTT, Mr. PAYNE, Mr. BERMAN, Mr. CUMMINGS, Mr. MCGOVERN, Mr. SANDERS, and Mr. OLVER):

H. Con. Res. 238. Concurrent resolution expressing the sense of Congress regarding a peaceful resolution of the conflict in the state of Chiapas, Mexico, and for other purposes; to the Committee on International Relations.

By Mr. FROST:

By Mr. RADANOVICH (for himself and Mr. BONIOR):

H. Res. 398. A resolution calling upon the President to provide for appropriate training and materials to all Foreign Service officers, United States Department of State officials, and any other executive branch employee involved in responding to issues related to human rights, ethnic cleansing, and genocide, and for other purposes; to the Committee on International Relations.

By Mr. TANCREDO (for himself, Mr. COBURN, Mr. MCINTOSH, Mr. GRAHAM, Mrs. CHENOWETH-HAGE, Mr. PITTS, Mr. MCINNIS, Mr. LARGENT, Mr. HOEKSTRA, and Mr. DOOLITTLE):

H. Res. 399. A resolution expressing the sense of the House of Representatives with respect to violence within our schools and the initiatives within States and localities to address this epidemic; to the Committee on Education and the Workforce.

By Mr. UDALL of New Mexico:

H. Res. 400. A resolution expressing the sense of the House of Representatives regarding Earth Day; to the Committee on Commerce.

MEMORIALS

Under clause 3 of rule XII, memorials were presented and referred as follows:

285. The SPEAKER presented a memorial of the Senate of the State of Michigan, relative to Senate Resolution No. 68 to memorialize the Congress of the United States to end tobacco subsidies and to redirect this support to food-processing agricultural activities; to the Committee on Agriculture.

286. Also, a memorial of the Senate of the State of New Jersey, relative to Senate Resolution No. 113 memorializing the Congress of the United States to oppose the proposed transfer of the United States Navy ships and sailors from the Earle Naval Weapons Station, located in Monmouth County, New Jersey, to naval stations at Norfolk, Virginia and Mayport, Florida and requests the postponement of any final transfer decision so that the feasibility and practicality of the transfer can be properly studied; to the Committee on Armed Services.

287. Also, a memorial of the Senate of the State of New Jersey, relative to Senate Resolution No. 97 memorializing the Congress of the United States and the President to provide federal assistance to cover costs incurred by the State in providing health care at New Jersey hospitals to the Kosovo refugees; to the Committee on Commerce.

288. Also, a memorial of the House of Representatives of the Commonwealth of Massachusetts, relative to a resolution memorializing the President and the Congress to act boldly to secure that East Timor triumphantly transitions to independence by seeking the prompt ratification by the Indonesian National Assembly of the East Timorese's Referendum Vote, and for other purposes; to the Committee on International Relations.

289. Also, a memorial of the Senate of the State of New Jersey, relative to Senate Resolution No. 63 memorializing the Congress of the United States, the President of the United States, and the Secretary of the Interior to take whatever action is necessary to establish the Sandy Hook bay and peninsula, as a National Park Service entity separate and distinct from the Gateway National Recreation Area for administrative and funding purposes; to the Committee on Resources.

290. Also, a memorial of the Senate of the State of New Jersey, relative to Senate Resolution No. 79 memorializing the Federal Government to continue its financial support for the Port Newark-Elizabeth dredging project; to the Committee on Transportation and Infrastructure.

291. Also, a memorial of the Senate of the State of New Jersey, relative to Senate Resolution No. 1 memorializing the President and the Congress of the United States, and the Federal Emergency Management Agency to take all available steps to expeditiously provide relief to New Jersey's flood victims and not to deduct State monies provided for flood relief from the calculation of federal monies allocated to New Jersey for its recovery from the devastating effects of Hurricane Floyd and its aftermath; to the Committee on Transportation and Infrastructure.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII, private bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. BONIOR:

H.R. 3509. A bill for the relief of Elizabeth McKenney Padgett; to the Committee on the Judiciary.

By Mrs. LOWEY:

H.R. 3510. A bill to authorize the Secretary of Transportation to convey the National Defense Reserve Fleet vessel S.S. GUAM to American Trade Fair Ship, Inc.; to the Committee on Armed Services.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 73: Mr. GOODLATTE.

H.R. 133: Mr. BLUMENAUER.

H.R. 148: Mr. MASCARA.

H.R. 205: Mr. WISE.

H.R. 303: Mr. CRAMER.

H.R. 332: Mr. STEARNS.

H.R. 353: Mr. SMITH of Texas.

H.R. 355: Mr. WISE.

H.R. 357: Ms. STABENOW and Mr. BOSWELL.

H.R. 372: Mr. ROTHMAN.

H.R. 380: Mrs. CLAYTON and Ms. MCCARTHY of Missouri.

H.R. 407: Mr. HUNTER.

H.R. 443: Mr. BECERRA, Ms. STABENOW, Mr. LAZIO, Mr. WEYGAND, Mr. KLINK, Ms. BERKLEY, Mr. UDALL of New Mexico, Mr. THOMPSON of California, Mr. INSLEE, Mr. PRICE of North Carolina, and Mr. GREENWOOD.

H.R. 444: Mr. LATOURETTE and Mr. STUPAK.

H.R. 475: Mrs. CHRISTENSEN, Mr. HANSEN, and Mr. FROST.

H.R. 531: Mr. INSLEE.

H.R. 534: Mr. OXLEY, Mr. ALLEN, Mr. LAHOOD, and Mrs. WILSON.

H.R. 648: Mr. WISE.

H.R. 670: Mr. MARKEY, Mr. COX, Mr. CRAMER, Mr. GEPHARDT, Mr. GUTIERREZ, Mrs. MALONEY of New York, Mr. DIXON, Mr. CONDIT, Mr. PETERSON of Minnesota, Mr. BILBRAY, Mr. HASTINGS of Florida, Mr. LATOURETTE, Mr. MINGE, Mr. GEJDENSON, Mr. CALLAHAN, and Mr. BARR of Georgia.

H.R. 701: Mr. HANSEN, Mr. GEORGE Miller of California, Mr. SMITH of New Jersey, and Mr. SAXTON.

H.R. 721: Mr. EVERETT and Mr. BACHUS.

H.R. 732: Mr. CAMP.

H.R. 742: Ms. LEE.

H.R. 762: Mr. HINOJOSA, Mrs. ROUKEMA, Mr. JOHN, Mr. THOMPSON of California, Mr. DICKEY, Mr. GEORGE MILLER of California, Mr. KANJORSKI, Mr. BAIRD, and Mr. EWING.

H.R. 797: Mr. BERRY.

H.R. 815: Mr. FLETCHER.

H.R. 827: Mrs. CHRISTENSEN.

H.R. 846: Mr. PRICE of North Carolina, Mr. OWENS, and Mr. WU.

H.R. 847: Mr. MCGOVERN.

H.R. 852: Mr. LUCAS of Kentucky, Mr. JOHN, and Mr. BARRETT of Nebraska.

H.R. 864: Mr. CANNON.

H.R. 903: Ms. LEE.

H.R. 904: Mr. SMITH of Washington.

H.R. 937: Mr. MILLER of Florida.

H.R. 941: Mrs. LOWEY.

H.R. 957: Mr. WALDEN of Oregon.

H.R. 982: Mrs. CUBIN.

H.R. 997: Ms. DEGETTE and Ms. RIVERS.

H.R. 1044: Mr. BERREUTER.

H.R. 1060: Mr. SANDERS.

H.R. 1071: Mrs. CHRISTENSEN and Mr. WISE.

H.R. 1079: Mr. DICKS, Mr. BONIOR, and Mr. CALVERT.

H.R. 1095: Mr. TIERNEY.

H.R. 1102: Mr. MCINNIS.

H.R. 1115: Ms. BALDWIN.
 H.R. 1129: Ms. STABENOW.
 H.R. 1142: Mr. WATKINS.
 H.R. 1187: Mr. BILBRAY.
 H.R. 1195: Mrs. LOWEY.
 H.R. 1217: Mr. HOLDEN, Mr. RODRIGUEZ, Mr. BAKER, and Mr. GALLEGLY.
 H.R. 1228: Mrs. LOWEY and Mr. HORN.
 H.R. 1274: Mrs. MALONEY of New York.
 H.R. 1276: Mr. DEAL of Georgia.
 H.R. 1291: Ms. WOOLSEY and Mr. GALLEGLY.
 H.R. 1300: Ms. LEE and Mr. PACKARD.
 H.R. 1310: Mr. ENGEL and Mr. BURR of North Carolina.
 H.R. 1311: Mr. BURR of North Carolina.
 H.R. 1387: Mr. WISE.
 H.R. 1396: Mr. WYNN and Ms. CARSON.
 H.R. 1413: Mr. WISE.
 H.R. 1422: Mr. MURTHA, Mr. DOYLE, Mr. DEUTSCH, Mr. JEFFERSON, Mr. KUYKENDALL, Mr. DIAZ-BALART, and Mr. HOLT.
 H.R. 1445: Mr. TIERNEY.
 H.R. 1452: Mrs. JONES of Ohio and Mr. KUCINICH.
 H.R. 1472: Mr. PASCRELL.
 H.R. 1494: Mr. PACKARD.
 H.R. 1495: Ms. EDDIE BERNICE JOHNSON of Texas.
 H.R. 1545: Ms. STABENOW.
 H.R. 1591: Mr. GONZALEZ.
 H.R. 1592: Mr. MCCOLLUM.
 H.R. 1593: Mr. MANZULLO.
 H.R. 1625: Mr. ROMERO-BARCELO and Mr. SHERMAN.
 H.R. 1649: Mr. COOK.
 H.R. 1686: Mr. COLLINS and Mr. DELAY.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 329: Mr. FROST.
 H.R. 1598: Mr. COOK.
 H.R. 2420: Mr. BOEHLERT.
 H.R. 2699: Mr. CHAMBLISS.
 H.R. 3308: Mr. PHELPS.
 H. Con. Res. 173: Mrs. TAUSCHER.

PETITIONS, ETC.

Under clause 3 of rule XII, petitions and papers were laid on the clerk's desk and referred as follows:

70. The SPEAKER presented a petition of the Town Board of Southampton, relative to Resolution No. 1199 petitioning the Federal Government to permit the Suffolk County Department of Health to have access to and participate in monitoring health related activity at the Plum Island Disease Center; to the Committee on Agriculture.

71. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning support for funding efforts for the National Guard Youth Challenge Program; to the Committee on Armed Services.

72. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning support for the reauthorization of the Older Americans Act; to the Committee on Education and the Workforce.

73. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning the reauthorization of the Endangered Species Act; to the Committee on Resources.

74. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning support for Outer Continental Shelf Coastal Impact Assistance; to the Committee on Resources.

75. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning support for the reauthorization of the Airport Improvement Program; to the Committee on Transportation and Infrastructure.

76. Also, a petition of the Southern Governors' Association, relative to a resolution petitioning for the passage of "Fast-Track" authority for the President to Negotiate International Trade Agreements; to the Committee on Ways and Means.

77. Also, a petition of the Village of East Hazel Crest, relative to Resolution 99-4 petitioning Congressional Representatives to support the Firefighter Investment and Response Enhancement Act; jointly to the Committees on Science and Transportation and Infrastructure.

EXTENSIONS OF REMARKS

IN SUPPORT OF H.R. 2420

HON. RICHARD H. BAKER

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. BAKER. Mr. Speaker, we need to make sure that America's schools, libraries, and rural clinics are allowed to capitalize on the newest computer and data communications technology.

In 1996, Congress and the Clinton Administration joined together to establish a program to extend the Internet to all our schools. That effort is underway—at a cost of about \$2.45 billion a year, incidentally. But in this field, just like everywhere else, it is the weakest link in the chain that matters. And, the “weak link” here is the data communications network—or, more accurately, the lack of such a network.

Mr. Speaker, instead of trying to expand these networks by harnessing the power of competition, economic freedom, and individual choice, the Federal Communications Commission (FCC) seems to be relying on yesterday's tools—heavy handed and restrictive regulation.

That's not my estimate, it's the considered judgment of two of this country's experts—Congressman JOHN DINGELL and his colleague, the Chairman of the House Telecommunications Subcommittee, Congressman TAUZIN.

Their appraisal of the situation is that we need to modernize and reform FCC regulation—because, otherwise, the data links which this country needs, are just not going to be available. That is the philosophy reflected in their bill, H.R. 2420. And, it is a pro-growth, pro-progress view which I want to embrace.

Mr. Speaker, if we can accomplish reform in this field, all of the experts are predicting that there can be a rapid expansion of our communications networks. That expansion, in turn, will help connect our schools, libraries, and clinics faster. And that will yield substantial public policy dividends.

IN RECOGNITION OF THE TEXAS
REALTOR OF THE YEAR**HON. RALPH M. HALL**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HALL of Texas. Mr. Speaker, I rise today to offer my congratulations to Barbara Russell of Denton, Texas, who this year was named the 1998 Realtor of the Year by the Texas Association of Realtors.

Barbara has served on the Texas Association of Realtors Board of Directors and is a former regional vice president and chairman of the legislative and economic development

committees. She also served two three-year terms on the National Association of Realtors Board of Directors.

In Denton, Barbara has earned many honors, including the Greater Denton/Wise County Association of Realtors President's Award, Women's Council of Realtors Gold Rule Award, Realtor of the Year and Associate of the Year. In addition, she is active in various civic and charitable organizations, including serving as former chairman of the board of the Denton Chamber of Commerce and serving four years on the Denton Planning and Zoning Commission.

Barbara has nearly 30 years of experience in the real estate business, and this recent award is a testament to her professional accomplishments and her hard work. She is married to Benny Russell, and they have two daughters and four grandchildren.

And Mr. Speaker, I would be remiss if I also did not pay tribute to the late Mary Claude Gay, a prominent realtor in Denton and associate of Barbara's. Mary Claude's contributions to her profession also have been significant, and she, too, was very influential in Denton's community life.

Mr. Speaker, I am pleased to recognize Barbara Russell and Mary Claude Gay for their accomplishments in their profession and for their contributions to their community. The Texas Association of Realtors could not have selected a more giving and devoted Realtor of the Year. Barbara Russell is a class act and is the epitome of the type of leadership and professionalism that bring respect and admiration for her profession.

As we adjourn today, and as we leave the floor of the House of Representatives for the last time this century, let us do so in respect and appreciation for the “Texas Realtor of the Year”—Barbara Russell.

CONFERENCE REPORT ON H.R. 2116,
VETERANS MILLENNIUM HEALTH
CARE AND BENEFITS ACT

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in support of H.R. 2116. This bill makes a number of important changes to veteran's health care programs.

H.R. 2116—Veterans Millennium Health Care Act makes comprehensive reforms to improve access to, as well as the timeliness and quality of the Veterans Administration health care system. Reforms to improve veterans' access to care include requiring the VA to increase home and community based options for veterans needing extended care; requiring the VA to provide nursing home care to cer-

tain veterans through 2003; establishing means to enhance revenues for the VA; lifting the six-month limit on VA adult day health care; authorizing the VA to enhance mental health care services; and establishing a pilot program to make contract arrangements for assisted living services.

Although the calendar year indicates that we honor these men and women on Memorial Day and Veterans Day, I believe that we should pause everyday to thank them for their sacrifice. The collective experience of our 25 million living veterans encompasses the turbulence and progress America has experienced throughout the twentieth century. This nation's veterans have written much of the history of the last hundred years. They have served this nation without reservation or hesitation during its darker moments.

Their unwavering devotion to duty and country has brought this nation through two World Wars and numerous costly struggles against aggression. From World War I to the Gulf War, America's veterans have been leading this nation against those who have threatened the values and interests of our nation.

Only today are the accomplishments and sacrifices of our veterans being fully appreciated by historians and the public. These genuine heroes have often been ignored and denied their proper place in America's melting pot. We need to remember that America owes these men and women the best it can offer because they have given us the best they could when America was in need.

Mr. Speaker, I am fortunate to have The Houston Department of Veterans Affairs Medical Center located in my congressional district. Having just celebrated fifty years of service to the veterans in the Houston community. Some 1,646,700 veterans live in the State of Texas alone. The House VA Medical Center expects to receive and serve over 50,000 veterans in this year alone. I expect this measure to improve the quality of life for all our veterans who so proudly served our nation.

Mr. Speaker this bill is important not only because it provides for the needs of our veterans today but because it sends an important signal to the men and women serving our nation in places like Bosnia, Kosovo, Germany, Korea, Japan and other far off places around the world. That message is simple, that when you serve our nation we will answer the plea of President Lincoln “to care for him who shall have borne the battle.”

I urge my colleague to vote “yes” on H.R. 2116 and care for the men and women who have borne the battle.

TRIBUTE TO JOHN DORRENBACHER—A GREAT AMERICAN

HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. MCINNIS. Mr. Speaker, it is with great sadness that I wish to take this moment to recognize the remarkable life and significant achievements of a leading civic servant, John Dorrenbacher. Tragically, John died in his home Monday, November 8, 1999. While family, friends and colleagues remember the truly exceptional life of John, I, too, would like to pay tribute to this remarkable man.

For the last 18 years, John ran the computers and books for the Colorado Republican Party. In his time at the party, he was a pioneer of the mailing list. In the earliest days of computers, he mastered integrating information to create better mailing lists. With this advancement, those who John served were able to do targeted mailings, therefore better contacting constituents and ultimately, better serving the people. There may not be a Colorado Republican in legislative or statewide office today who wasn't helped by a mailing list generated by John. Amazingly, John managed to serve five very different Republican chairman. In addition, he once served as Boulder County GOP chairman.

Although his professional accomplishments will long be remembered and admired, most who knew him well will remember John Dorrenbacher, above all else, as someone who loved his country and had a deep faith in our democracy. It is clear that the multitude of those who, like me, have come to know John as a friend will be worse off in his absence. However, Mr. Speaker, I am confident that, in spite of this profound loss, the family and friends of John Dorrenbacher can take solace in the knowledge that each is a better person for having known him.

TRIBUTE TO MRS. DAISY BATES

HON. EARL F. HILLIARD

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HILLIARD. Mr. Speaker, today I rise to with a great sense of twoness—one as an African American and another as an American to honor death of my mentor and friend, Mrs. Daisy Bates. Her death last Friday comes prematurely as we honor Congressional Gold Medals to the men and women, known as the Little Rock Nine, that she shepherded into Central High School against the will of a racist Governor and white neighbors. She worked for many years in the NAACP and with the Democratic National Committee to educate and register voters. In 1987, the City of Little Rock paid tribute to her work by naming an elementary school in her honor. Her life is a celebration of progress and shows us how man in his quest for justice, is determined and cannot be deterred. Her sacrifices to tear down the walls of prejudice and injustice through education and voter registration will go ahead, whether

we accept it or not. Daisy Bates' life, along with the life of other Civil Rights Movement heroes, showcases how overcoming racism in this country has become one of the greatest adventures of all time. But, it is an adventure that must be overcome.

Today as I lift up Daisy Bates, I acknowledge that there is new knowledge to be gained, new rights to be won for the progress of not just African Americans, but all Americans. Whether this country likes it or not, there will come a day when the position of preeminence for the United States will not rest on the human rights it has obtained for others across the world, but the rights and dignity she has bestowed upon her own citizens.

Our forefathers made certain that this country would ride the first waves of the industrial revolution, the first waves of modern invention, the first waves of nuclear power, and the first waves of equality under the law. Unfortunately, we have not yet ridden the wave for equal justice and must struggle to once again be a part of it and lead it. The eyes of the world now look unto us for the banner of freedom and peace.

So, today, as I honor my mentor for her work and undying courage, I challenge my brothers and sisters across the world to begin establishing their lives, like Daisy Bates as instruments of knowledge and understanding.

IN HONOR OF THE SOKOL GREATER CLEVELAND'S NEW ATHLETIC FACILITY

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. KUCINICH. Mr. Speaker, I rise today to announce the grand opening of the Czech Cultural Center of Sokol Greater Cleveland's new athletic, a state-of-the-art expansion to the historic Bohemian National Hall.

After considerable planning and construction, the new facility opening this month will provide a variety of health, fitness, leisure, and cultural activities to everyone in the community. In the tradition of the American Sokol Organization, the Czech Cultural Center of Sokol Greater Cleveland's new athletic facility will provide Cleveland citizens with the opportunity to strengthen both their physical and mental character allowing them to enhance their celebration of life and vitality. With membership open to the community, this new facility is sure to provide Cleveland citizens with an opportunity to cultivate a harmonious and total person.

The Czech Cultural Center of Sokol Greater Cleveland's new athletic facility promises to be a popular place for fitness enthusiasts who will enjoy the volleyball, gymnasium, cardio-conditioning area and strength training center. Additionally, the facility will serve as a center for community development where both young and older generations can display their abilities and knowledge in dance and gymnastic performances. In short, the health and quality of life for everyone in Cleveland will improve greatly with the opening of this new facility.

My fellow colleagues, please join me in recognizing dedication of the Czech Cultural Cen-

ter of Sokol Greater Cleveland for building this new athletic facility for the benefit of the Cleveland community.

EXPRESSING GRAVE CONCERN REGARDING ARMED CONFLICT IN NORTH CAUCASUS REGION OF RUSSIAN FEDERATION

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in support of H. Con. Res. 206. This resolution expresses the sense of the Congress urging all parties involved in the conflict, to cease the indiscriminate use of force against civilian population in Chechnya. In addition this measure calls on all sides in this conflict to enter into a constructive dialogue under the auspicious of the Organization for Security and Cooperation in Europe. This group was successful in brokering a settlement to end the 1994–1996 war.

Yes, Mr. Speaker, this region as once before experienced the horrors of war. As the 1994–1996 Russo-Chechen war resulted in the massive use of force against civilians, causing immense human casualties, human rights violations, large-scale displacement of individuals, and the destruction of property. In recent months this conflict has been renewed as forces in Chechnya have mounted armed incursions into the Russian Federation of Dagestan and have committed bombing in Moscow.

Mr. Speaker, this Congress must insist that all parties in this conflict resolve this situation peacefully, with complete respect to the human rights of all the citizens of the Russian Federation. We must also insist that all parties commit themselves to allowing humanitarian assistance to the victims caught in the middle of this conflict.

I urge my colleagues to lend their support and the considerable weight of this body on all sides involved in this conflict.

HONORING DON SCOGGINS

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HALL of Texas. Mr. Speaker, it is a privilege to rise today in recognition of Don W. Scoggins, president of the Texas Eastman Division of Eastman Chemical Company in Longview, Texas, who is retiring this year after 37 years of service at Texas Eastman.

Mr. Scoggins joined Texas Eastman in 1962 as a Mechanical Engineer in the Plastics Laboratory. He has served as a supervisor, assistant supervisor, assistant to the general superintendent, senior mechanical engineer, and assistant superintendent of various divisions at Texas Eastman. He also served Eastman Chemical in Kingsport, Tennessee, in a variety of capacities before returning to Texas Eastman as director of Administration. He was

named manager of Operations in 1989, became a vice president in 1990 and was named president in 1998.

Mr. Scoggins received a bachelor's degree in mechanical engineering from the University of Texas and is a Registered Professional Engineer in Texas. He serves on the Texas Chemical Council's Board of Directors and on the Board of Trustees at Good Shepherd Medical Center.

Texas Eastman's influence on economic development and community causes in Longview has been enormous, and the employees and administrators at Texas Eastman—like Don Scoggins—have played a significant role in those accomplishments. Mr. Speaker, I am pleased to recognize Don Scoggins for his contributions to Texas Eastman Division and to his community—and to wish him well in his retirement.

I am especially privileged in that Don's mother and father live in my hometown of Rockwall. They are, like Don, strong and loved members of the First United Methodist Church. They teach, direct, entertain, and lead us in both the Sunday School class and in the overall direction of our religious activities.

As we adjourn today—the last day of this century that the United States House of Representatives is in session—let us adjourn on this signal day in respect and admiration for Don Scoggins.

INTRODUCTION OF TWO BILLS TO REDUCE TAXES ON SOCIAL SECURITY BENEFITS

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. NADLER. Mr. Speaker, I rise today to join with Representative NITA LOWEY to announce the introduction of two bills to reduce taxes on Social Security benefits. The first bill would repeal the 1993 tax increase on Social Security benefits. I have always opposed this provision, and I believe that it is now time to repeal this tax on our Nation's seniors.

The 1993 economic plan imposed additional taxation on the benefits of single social security recipients with incomes over \$34,000, and on married recipients with joint incomes over \$44,000 by including, in each case, 85 percent of Social Security benefits in taxable income. At the time, proponents of the tax increase said it was necessary to reduce to deficit. Remember the atrocious national debt had risen from \$800 billion in 1981 to more than \$4 trillion in 1993. The annual deficit, which was almost \$300 billion a year in 1992, was projected to increase to \$500 billion a year later in the decade. We passed a tough economic plan, the economy improved, and the deficit was eliminated.

I believed it was unfair to tax seniors on their social security benefits to reduce the deficit, and, therefore, I joined with Representative NITA LOWEY in offering a bill which would have repealed the provision immediately and taken other steps to reduce the deficit. We demonstrated that you could still reduce the deficit without increasing taxes on social secu-

rity benefits. Now that 6 years have passed and the deficit has been transformed into a surplus, it is more important than ever that we abolish this unnecessary tax on seniors. So, again, I am joining with Representative NITA LOWEY to abolish this unfair tax on social security benefits. I urge my colleagues to support this bill and work toward its swift passage.

Mr. Speaker, if we are unable to implement this bill quickly, then the very least we should do is adjust the 1993 income threshold to take into account the rise in the cost of living. That is why I am also announcing the introduction of another tax relief bill for our seniors, which should be implemented immediately. Again, I am proud to work with Representative NITA LOWEY to advance this effort.

This bill would ensure that we do not inadvertently tax more and more seniors with relatively less income every year. Under current law, the income levels that were set in 1993 were not adjusted for cost of living increases. As a result, more and more people are having their social security benefits taxes. This is unfair and unnecessary. So, this second bill would require the 1993 level to be adjusted on an annual basis to take account for the rise in the cost of living. I am hopeful that we can build strong bipartisan support for this legislation and work together to ease the tax burden on our Nation's seniors. I urge all of my colleagues to support these two tax cut measures.

THE TRAGEDY OF THE S.S. "LEOPOLDVILLE"

HON. RONNIE SHOWS

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. SHOWS. Mr. Speaker, today I would like to take a minute to tell my colleagues and the American People about a pitch-black night on Christmas Eve in 1944 during one of the darkest hours of World War II. A Belgian troop transport, the S.S. *Leopoldville*, was sunk by a German U-Boat, taking the lives of 802 American soldiers. The *Leopoldville* was part of a crossing of the English Channel for the Battle of the Bulge. 2,235 American Soldiers were being carried to this historic battle.

The *Leopoldville* was torpedoed and sunk 5½ miles from Cherbourg, France. The result was a horrific loss of lives—almost one-third of the 66th Infantry Division was killed. 493 bodies were never recovered from the cold and murky waters of the English Channel. Most of the soldiers who died were young Americans, from 18 to 20 years old, barely out of High School. These young men came from 46 out of the 48 states that were part of the Union at that time.

Sadly, this tragic story has been a mere footnote in the history books of World War II. Their efforts to preserve and sustain Democracy must be remembered. Their lives must not be vainly forgotten.

Today, I ask my colleagues and all Americans to join me in remembering and honoring those who gave their lives that we might be free today. The young men aboard the S.S. *Leopoldville*, those who perished and those

who survived, were part of an American force that advanced Democracy and forever changed the world. They went because their country called. They sacrificed because their way of life was threatened. They rose to incredible heights of courage because their faith and resolve mandated no less.

My friend and fellow-Mississippian, Sid Spiro, was on the S.S. *Leopoldville*. Mr. Spiro, after the direct torpedo hit, lowered himself in the freezing water by a rope. And for three hours he floated and waited for help. The water was freezing and he nearly died. He was 19 years old then. Today, he and other survivors often gather to remember and commemorate their fellow Americans who died. I am in awe of these men. And I want Sid and all of them to know of my admiration and respect.

These young men, forever part of our national memory, must be honored. We must never forget. I salute the survivors of the S.S. *Leopoldville* and I honor the memory of those who gave their lives.

INTRODUCTION OF EXPEDITED RESCISSION LEGISLATION

HON. CHARLES W. STENHOLM

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. STENHOLM. Mr. Speaker, I am introducing legislation today that will give the President an important tool to control spending by identifying low priority and wasteful spending that can be eliminated. The legislation I am introducing today, known as modified line item veto or expedited rescission legislation, would strengthen the ability of Presidents to identify and eliminate low-priority budget items with the support of a majority in Congress.

Under this legislation the President would be able to single out individual items in tax or spending legislation and send a rescission package to Congress. The President would have the option of earmarking savings from proposed rescissions to deficit reduction by proposing that the discretionary spending caps be reduced by the amount of the rescissions. Congress would be required to vote up or down on the package under an expedited procedure. Members could offer motions to remove individual items from the package by majority vote if their motion was supported by fifty members. The spending items would be eliminated or the tax item would be repealed if a majority of Congress approves the rescission package. If the rescission bill is defeated in either House the funds for any proposed rescission would be spent or the tax item would take effect.

This legislation embodies an idea which many Members, both Democrats and Republicans, have worked on for several years. Dan Quayle first introduced expedited rescission legislation in 1985. Tom Carper and DICK ARMEY did yeomen's work in pushing this legislation for several years. On the Democratic side, TIM JOHNSON, Dan Glickman, Tim Penny and L.F. Payne were particularly effective advocates of this legislation for years. Numerous Republicans, including Lynn Martin, Bill Frenzel, Gerald Solomon, Harris Fawell and others

made meaningful contributions to expedited rescission legislation as it has developed.

Thanks to the efforts of these and other members, the House overwhelmingly passed expedited rescission legislation in the 102nd Congress. In the 103rd Congress, JOHN SPRATT and Butler Derrick worked with me to refine the legislation. This revised legislation was passed by the House in 1993. In 1994, Representatives JOHN KASICH and Tim Penny joined the effort and helped pass a strengthened version of this legislation. Since then, Representatives BOB WISE, ROB ANDREWS and others have advocated this approach. Today, I am joined by DAVID MINGE, ROB ANDREWS, COLLIN PETERSON, MARION BERRY, MAX SANDLIN, RALPH HALL and ALLEN BOYD in introducing this legislation.

We have heard a lot of talk about eliminating waste and pork barrel spending, but little serious action to actually eliminate pork barrel spending. In fact, the appropriations bills passed by the House includes hundreds of earmarks for spending items that were not requested by the administration and have not been subject to hearings or review. Senator JOHN MCCAIN has identified more than \$14 billion of spending items buried in appropriations bills that have not been subjected to the proper review. Other private organizations have identified even more earmarked spending in the appropriations bills passed by Congress which they believe can be eliminated. Instead of subjecting these spending items buried in the appropriations bills to scrutiny, the Majority has proposed an across the board spending that would cut good programs just as much as we cut low priority and wasteful programs.

Forcing votes on individual items in tax and spending bills will bring a little more accountability to the budget process. I hope that my colleagues from both sides of the aisle who are serious about controlling spending and eliminating wasteful spending and special interest tax breaks that cannot withstand public scrutiny, will join me in cosponsoring this legislation.

SUMMARY OF EXPEDITED RESCISSION LEGISLATION

The legislation would amend the Budget Control and Impoundment Act of 1974 to require Congress to consider Presidential rescissions of appropriations or tax items by a majority vote.

The President could propose to cut or eliminate individual spending items in appropriations bills or to repeal targeted tax breaks (tax breaks which benefit a particular taxpayer or class of taxpayers, except benefits based on demographic conditions).

The President would be required to submit proposed rescissions of tax items within ten days of signing the tax bill. Proposed rescissions of spending items could be submitted at any time during the fiscal year.

The President could propose that the discretionary spending limits be reduced by the amount of the rescissions, but would not be required to do so.

Within ten legislative days after the President sends a rescission package to Congress, a vote shall be taken on the rescission bill in the House. The bill may not be amended on the floor, except that 50 House members can request a vote on a motion to strike an individual rescission from the package.

If the President's rescission package is approved by a simple majority of the House,

the bill would be sent to the Senate for consideration under the same expedited procedure. Fifteen Senators may request a separate vote on an individual item.

If a simple majority in either the House or Senate defeats a rescission proposal, the funds for programs covered by the proposal would be released for obligation in accordance with the previously enacted appropriation, or the tax provision would take effect.

If a bill rescinding spending or eliminating tax benefits is approved by the House and Senate, it would be sent to the President for his signature. Upon Presidential signature, the spending items in the rescission package are reduced or eliminated, or the tax items in the rescission package are repealed.

TRIBUTE TO FRANCES L. MURPHY II

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Ms. NORTON. Mr. Speaker, I rise today to honor Frances L. Murphy II, publisher emeritus of the Washington AFRO-American Newspaper, and a great lady who has had major responsibility for this great asset to the city of Washington and the communities surrounding it. Her hard-hitting editorials and well written stories provide the local African American community with news and information that cannot be obtained elsewhere. She has trained and nurtured many young journalistic talents, who have taken what they learned at the AFRO to institutions as diverse as the NAACP, the Washington Post, and African Americans on Wheels magazine.

Ms. Murphy's grandfather, John H. Murphy, Sr., founded the AFRO in 1892. Her father, Dr. Carl Murphy, was editor and publisher of the AFRO-American Newspapers from 1918 until his death in 1967. But, Ms. Murphy did not start at the top. She learned her business inside out, starting as a library assistant, and moved up the ladder to reporter, then editor, magazine editor, and managing editor before becoming publisher.

In addition to her work as publisher of the AFRO, Ms. Murphy has spent much of her time as an educator. She started in the Baltimore schools in 1958, where she stayed until 1964, when she took her first position in higher education at Morgan State College. Until she retired from teaching in 1991, she held various teaching positions at University of Maryland Baltimore County, Buffalo State College, and Howard University. Her students rated her a top professor, and said, as others have said about her journalism, "She is tough but fair."

Ms. Murphy is well known for her contributions to her community, having served as a member of the National Board of Directors of the NAACP and of the Board of Trustees of both the State Colleges of Maryland and the University of the District of Columbia. She is on the board and serves as treasurer of the African American Civil War Memorial Freedom Foundation. She also is an active member of St. Luke's Episcopal Church, where she is a member of the flower guild, a lector, a member of the Search Committee and president of

the Episcopal Church Women. All this from a woman who has been a distinguished journalist and publisher and managed, as well, to raise three children, and now to be grandmother to fourteen grandchildren, and great-grandmother to two.

Mr. Speaker, Ms. Murphy and her accomplished family are a quintessential family of service and a source of great and enduring pride to the entire Washington region. Like thousands of Washingtonians, I count Frances Murphy as a friend whom I greatly admire. I ask my colleagues to join me in a well deserved honor for the model life and career of Frances L. Murphy II.

OUTSTANDING VETERANS DAY ESSAYS FROM DISTRICT STUDENTS

HON. WILLIAM O. LIPINSKI

OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, November 17, 1999

Mr. LIPINSKI. Mr. Speaker, it gives me great pleasure to bring to the attention of my colleagues, seven outstanding Veterans Day essays by young individuals from the 3rd Congressional District of Illinois. For my annual Veterans Day Ceremony in Chicago, the following students wrote about what Veterans Day means to them. I hope you will also enjoy these essays:

VETERANS DAY

(By Katie Wienczek, Kinzie Elementary School)

Veterans Day is a very important day. It is the day when we remember the American soldiers who have lost their lives in the many wars. More than 58,000 soldiers died during the Vietnam War. It has been called one of the most painful periods in our history. But, America still had it good, after all, we had ceased fighting and were trying to rebuild South Vietnam by sending money. America has been the "good guy" in almost every war. This stereotype goes for not just the government, but the people and soldiers as well. I think they have a right to be remembered. It is our debt to them to have this memorial for four of the many soldiers who fought so hard for us. They need to be noticed. This memorial is a "good thing," as Martha Stewart would say. I would say, it is a very good thing.

VETERANS DAY

(By Rich Pala, Byrne Elementary School)

Veterans Day is a day all proud Americans honor the men and women who served the American Army. Some people fought and died for what they believed was right. Some went to war and many died for our country. These are the true heroes of America, and deserve all the respect of billions of American people. Without these brave men and women, America would not be what it is today. We owe everything to these men and women, because they put the pride and honor in America. They fought for everything America stands for.

VETERANS DAY

(By Shaun Caulfield, Byrne Elementary School)

Bring to mind images of brave soldiers fighting for our country in war time, working in peace time, and trying to keep our

country free. Great soldiers come in mind: General Washington, George Patton, Audie Murphy, the less famous but not less important vet. John Joseph Kunkes, my grandfather, fought in Korea. He was missing from action from his platoon for one month. He was on his own staying alive on skills taught to him by the U.S. Army.

Thinking about my grandfather's adventures makes me remember every veteran has their tale to tell. It would be to our best interest to seek out his story and appreciate his commitments to his country and his branch of service.

To some, Veterans Day is a day off of school or work. But World War I, World War II, Korea and Vietnam fighters make me shiver. They fought in those wars and risked their lives that makes them so great.

On Veterans Day, remember and pray for courageous vets and honor them with the respect and dignity they deserve. To all past, present, and future veterans, remember we are all behind you.

VETERANS DAY

(By Julian Ollry, Nathan Hale Middle School)

Many brave men and women have given their lives in wartime for our country. One that was not so far in the past was the Vietnam War. The veterans of this war must be especially honored for their valor and loyalty at the most crucial time in American History.

This war was difficult for Americans because many of them disagreed with the war. In 1973, the United States government had agreed to stop fighting in Vietnam. When many soldiers returned from the hardships during the war, seeing friends or relatives die in battle, many Americans did not support them and many soldiers felt very unappreciated. Veterans are now beginning to be recognized by other foreign war heroes. Veterans gather at the Vietnam Veterans Memorial in Washington, DC to place gifts and stand quiet vigil at the names of their friends and relatives who fell in the Vietnam War. Families have lost sons and/or daughters in wars. Their thoughts and many others are toward peace and the avoidance of future wars.

Today, let us give thanks to these Vietnam veterans and all the brave men and women who fought for America. These soldiers are our heroes. They gave their lives for us and for the cause of freedom. May each and everyone be honored for eternity.

WHAT VETERANS DAY MEANS TO ME

(By Amanda Lally, Grade 7, St. Jane de Chantal Elementary School)

Veterans Day is a very important holiday in our country. It honors all of those who are living and dead—who served with the US armed forces in times of war. We owe so much to those brave men and women who fought for our freedom and protected our country.

I am very proud to have family members who have served for our country. My great-grandfather fought in World War II. He was captured by the enemy and became a prisoner of war, but he survived and came home. My great-uncle fought in the Korean Conflict. They were both proud to serve our country.

Without all of these brave men and women, where would our country be? they put their life on the line for all of us. We should not only honor our veterans on this commemora-

tive day, but every day, because without our armed forces there would be no peace or freedom.

To all of the people who have served for our country, you make me feel proud to be an American.

WHAT VETERANS DAY MEANS TO ME

(By Jennifer Gename, Grade 8, St. Jane de Chantal Elementary School)

In my opinion, I think it is only fair to have a holiday commemorating the men who risked their lives to uphold the benefits and principles of our country. They worked hard to uphold our nation's belief in freedom, and they deserve to have a day of recognition.

Although Veterans Day is probably not one of the most publicly mentioned holidays, it has great meaning towards my family and me. My grandfather served in World War II, and thankfully survived unharmed. He, and all the other men, worked day and night in the midst of shootings, killings, and pain. They didn't know if they would ever get through a day, let alone survive until the end of the war. If this sort of endurance doesn't deserve a holiday, then I don't know what does. These men did so much for our country, so that everyone would be able to lead happy, safe lives.

So, to me, Veterans Day is a very important holiday, because it helps people realize what others went through to help the nation.

VETERANS DAY

(By William Matuszak, St. Rene Goupil Elementary School)

Veterans Day is a time to remember and honor men and women who have served in the Armed forces. This holiday is celebrated on November, 11.

Veterans Day is important to me for many reasons. Both my grandfathers have served in a war. One served in World War II and the other in the Korean Conflict. It is not only important to me, but to everyone, because many families have served in armies and have fought for their countries in war. Veterans Day can also show people between countries, because war is over and we can celebrate that also.

Veterans Day is a very important day to all. Men and women from all over the world have fought for their countries in many different ways, and we honor them on this very special day. We celebrate their accomplishments and sacrifices. Veterans Day is a great way to honor all who have died and all who are still living that have served their nation in the military. Let us keep all of the men and women who are presently serving in our military that God will keep them out of harm's way.

Mr. Speaker, I wish all of these fine authors the best of luck in their future studies.

COLLEGE STUDENT CREDIT CARD PROTECTION ACT

HON. LOUISE McINTOSH SLAUGHTER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Ms. SLAUGHTER. Mr. Speaker, on October 25, JOHN DUNCAN of Tennessee and I introduced H.R. 3142, the College Student Credit Card Protection Act. Madison Avenue and the credit card companies have convinced our col-

lege students that getting a credit card is necessary for a fun college experience. But upon graduation, many of these young people find themselves buried in debt. Just recently, the House recognized the need to educate young people on this issue by passing a bill to encourage high schools to teach financial literacy, including credit education. College by college, state by state, this issue is being recognized as a serious problem that needs to be addressed.

A recent report found that one-fifth of the Nation's college students are carrying credit debts of more than \$10,000. Seventy percent of undergraduates at 4-year colleges possess at least one credit card. One 19-year-old sophomore student in the Rochester, NY area who had no income recently attempted to declare bankruptcy; he had accumulated a stack of credit cards and owed the credit card companies \$23,000! In Knoxville, TN, one college student ran up \$30,000 in credit card debt in just 2 years. Students are snowballing into debt through the extension of unaffordable credit lines, peer pressure to spend, and financial naivete. Low minimum monthly payments and routine credit limits hikes add to the seductiveness of plastic.

Even though many students with credit cards have no income to pay the bills, credit card companies are aggressively marketing their cards to college students. Credit card companies set up tables during orientation week and outside college lunchrooms, advertising free gifts such as t-shirts and mugs, to sign up as many students as possible. Most of the time, all that is required is a student identification card. For many students, they experience problems when they cannot afford to make payments on their credit cards, which ruins their credit ratings before they have even entered the workforce. While many college students are adults, responsible for the debt they charge, the credit card industry's policy of extending high lines of credit to unemployed or underemployed students needs to be examined.

This bipartisan legislation would compel credit card companies to determine before approving a card whether any prospective customer who is a traditionally aged full-time student, can afford to pay off the balance. This bill would limit credit lines to 20 percent of a student's annual income without a cosigner. Students could also receive a starter credit card with a lower credit limit, allowing increases over time if prompt payments have been made. Another provision would eliminate the fine print in credit card agreements and solicitations, where fees and penalties are hidden. This print would have to be enlarged. Finally, parents would have to agree in writing to increases in the credit limit of cards which they have cosigned.

HONORING GORDON WOOD

HON. CHARLES W. STENHOLM

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. STENHOLM. Mr. Speaker, I rise today with a great deal of Texas pride to recognize

an outstanding individual, Gordon Wood of Brownwood, Texas.

In today's edition of the Dallas Morning News, the newspaper named Coach Wood, the "Coach of the Century" as part of its 100 Years of Texas High School Football series. I can think of no one more deserving. Coach Wood not only led and inspired many young people during his career but also brought great achievements to several Texas communities.

"Coach" was an important figure during the formative years of my life, and he has remained so. Early in his career, he coached in my hometown of Stamford. He led our team to two State championships, and I am proud to have been part of his early success. He went on to lead the Brownwood Lions to seven State championships and won a total of 405 games in his 43-year career.

Coach Wood is a legend in Texas not only for his coaching but for the way he has led his life. To me, that puts him in the Ranks of Tom Landry, Bear Bryant and Joe Paterno.

I wish to include in the RECORD a copy of the article that ran this morning in the Dallas Morning News.

This honor is a great tribute to Coach Wood and his wife, Katharine, and I know there are many folks who join me in sending them congratulations and best wishes.

[From the Dallas Morning News, Nov. 17, 1999]

ALWAYS IN THE GAME—FOOTBALL, GORDON WOOD STYLE, STILL ABSORBS COACH OF CENTURY

(Kevin Sherrington)

BROWNWOOD, TEXAS.—Gordon Wood wears hearing aids in both ears. He had a triple bypass in 1990, and five years ago a stroke punched a few holes in his memory. He's working on his third artificial hip. He's diabetic. A faint white web of scars runs wild over his mottled face, the vestiges of 13 skin tumors.

This is what can happen to you if you live 85 years.

He can't play golf because of the bad left hip. He won't play checkers anymore because that's what he was doing when the world started spinning, and he walked into a restroom and couldn't find his way out. A stroke, the doctors told him. A woman came to get him in the restroom and asked him to step back with his right foot. He tried to comply but stepped forward instead, right into the toilet.

Checkers was fun, and he was good at it, but it's not worth it if it reminds him of that. So now the only hobby he has left is football.

This is what can happen to you if you coach 43 years.

Or maybe this is what happens if you're Gordon Wood, the greatest coach in the history of Texas high school football.

A Dallas Morning News panel of college coaches and sports writers chose Wood over a group that included Waco's Paul Tyson, who won four state championships in the 1920s, and Abilene's Chuck Moser, who won 49 consecutive games. Joe Golding got some consideration at Wichita Falls, as did Amarillo's Blair Cherry.

Wood wasn't a hard choice, though. He won nine state championships, two at Stamford and seven at Brownwood, which in the 40 years before he arrived had won only a single district title.

He won 405 games overall, which was more than anyone else in the nation when he retired in 1985 at 71.

But, if you're looking for numbers to define Wood's greatness, you must know that he is the only coach to win 100 games in three different decades, and the only coach who won state titles in three decades, as well.

Those numbers indicate that he never lost his enthusiasm for the game, never thought he knew so much that he couldn't learn more, never won so much that he got enough of it.

Not when he retired 14 years ago.

Not even now.

The numbers say a lot about Gordon Wood. But, if you really want to know why he was so great, you only have to go to a game with him.

He is better-looking in person than in photographs. Pictures can't capture his vitality or regal posture, his warmth, his habit of extending both hands to someone in greeting, or his habit of holding on to the hand of a young person while he's talking to him. In most pictures, he looks almost sad, or, at best, blank. They couldn't be less telling. Pictures can't show the balletic movement of a curious, inquisitive mind.

He is sitting in the press box of the stadium named after him, talking about his offense between bites of a ham sandwich.

Did you always run the Wing-T?

"I have since the war," Wood says.

He means World War II. He put in the offense at the counsel of Clyde "Bulldog" Turner, once called the toughest football player ever. But it was Turner's old college coach, Warren Woodson, who invented the offense, the same one he used at Hardin-Simmons and New Mexico State and Arizona, and in the process was the only coach ever to produce the nation's top rusher four years in a row.

"Warren Woodson was one of the greatest offensive coaches that ever was," Wood says. "Cocky little devil, too. He watched us one time and came up to me afterward and said, 'Coach, don't tell anybody you run our offense. You did such a lousy job.'"

"Yeah, he was the best offensive coach I ever saw."

He takes a bit out of his sandwich.

"Sorriest defensive coach, too."

Warren Woodson is dead. So is Bulldog Turner. They are great names lost to a younger generation that wouldn't know a Wing-T offense from a wingtip shoe. Wood knew Turner and Woodson, and he knows Darrell Royal, who calls Wood "one of the all-time great football coaches, regardless of the level." He is a friend of Bum Phillips, who calls Wood the best coach he knows. Bear Bryant told Wood's son, Jim, that, had he stayed at Texas A&M, "I would have given your dad a heck of a run for the best coach in Texas."

Wood knows Bill Parcells. Maybe you remember the story that came out a couple of years ago, when Parcells took over as coach of the New York Jets after going to Super Bowls with two different organizations. Parcells told reporters about the time he coached linebackers for Texas Tech in the 1970s. They had 20 spring practices, and at more than a dozen, he saw the same leathery old man in a maroon cap with a "B" on it. Parcells introduced himself and asked the old man where he was from.

"A little town down the road here," the man said.

"Outside Lubbock?" Parcells asked.

"No, a little further."

"How far is it?"

"Well, it's 2½ hours one way."

Wood drove five hours a day to watch Tech's linebackers. He drove every day for two weeks to learn something from a coach half his age. Parcells said Wood had as much influence on him as Halas, Lombardi, Noll or Landry, and he thinks about him every summer when training camp starts, thinks about the old man with more than 300 wins "driving five hours a day to find out something."

Wood has gone farther than that. Every year, for 43 years, he has traveled around the country to the American Football Coaches Association meeting. He has lectured at coaching clinics in 18 states, most of them more than once. He spoke in Tennessee last summer.

He went to Canada three times, in the summers of 1967, '70 and '71. He was guest coach for the CFL's Winnipeg Blue Bombers, coached by a man named Jim Spavitol, who played at Oklahoma State and first met Wood in the Navy.

After one of his summer trips north, Katharine, his wife of 56 years, asked him what it was like working with professional players.

"They're just overgrown boys," he said.

He only had a few players who went on to play professional football. The best probably was Lawrence Elkins, the Baylor receiver, his career ruined by injuries in the NFL. The best set was the three Southall brothers—Si, Terry and Shae—all quarterbacks, the sons of his long-time assistant, Morris Southall.

Southall helped run the offense. In the Wing-T, the Lions flipped the offensive line to double their number of plays and simplify blocking assignments. Wood told Royal about it in 1960, when Royal invited him on a trip to New York. Royal used the flip-flop in 1963, when he won his first national championship.

"We ran more formations than most teams run plays," Wood says. "We'd run 36, 39, 42 plays a week in practice, and the second team got just as many reps as the first team."

And, always, the rules were the same.

"Kid makes a mistake in practice," Wood says, "we run it over again."

Wood hates mistakes. He made a point in his career of making players believe in themselves. He won a state championship his first season at Brownwood, in 1960. He says that, if you severely criticize a player at practice, you have to make sure you do something to build him up again.

But it is his obsessive perfectionism that drives him. He watches anxiously from a press box cubicle as the Lions play host to Joshua, a heavy underdog. He talks until a play starts and then stops talking until it's over. If the play is a success for Brownwood, he might say nothing, most likely picking up his speech where he left off. If the play favors Joshua, it might give him fits.

Like, say, a 10-yard burst on a trap play by Joshua.

"You go back to our state championship teams," he says, irritated, "and see how many zeroes it has there for what the other teams scored."

He is up from his press box seat, talking to someone about how in the world Joshua can be moving the ball at all when he suddenly realizes that the Joshua band is playing.

"Did they score?" he asks, incredulous.

Forty-one-yard field goal, someone says. Makes it 21-3, Brownwood.

"Gaw-dang," Wood says.

He settles down and goes back to talking about offense. He got plays everywhere. He'd see something in a college game on Saturday

afternoon and put it in the game plan Sunday night.

He has spoken at so many clinics that most of what he says seems as if he were reading it off the walls of a locker room.

On a coach who wouldn't leave his team for a week: "If you can't leave for four days, you've got a poor group of assistant coaches. And if you leave for four days, the kids will listen to you more when you come back."

On the variety of offenses available: "It doesn't make a dang what you line up in; it's what you do after you get there."

On his coaching philosophy: "It's not the big things that beat you; it's a million little things."

The little things might surprise you. He watched a coach in practice one day and noticed that, on every offensive play, he put the ball down on a yard line. Wood couldn't believe it. How often does that happen in a game? Move the ball around, he told them. Make the players look to see where the ball is, and maybe they won't draw foolish penalties for lining up offsidies.

His assistants knew what he wanted. Southall, the only assistant over elected president of the Texas High School Coaches Association, worked for him 31 of his last 38 years in coaching.

Southall left him only a couple of times, once to be head coach at Winters after Wood left from Stamford, where he won state championships in 1955 and '56.

"If I'd had him at Stamford . . ." Wood says of Southall and stops in mid-sentence when a ball bounces off a Brownwood receiver and into the hands of a Joshua defensive back.

"That's two balls they've dropped," he says.

He shakes his head.

"If I'd had him at Stamford," he says again, "I'd have won three state championships there. No doubt. He was the best quarterback coach in the state."

He thinks about the interception again and winces.

"That kills me when they do things like that," he says.

He sees mistakes everywhere. He watches the Cowboys every Sunday. He is a friend and "great fan" of Tom Landry, a reluctant admirer of the impersonal Jimmy Johnson and a defender of Barry Switzer.

But he is amazed at what happens on a professional football field. He cites a play in a recent game where Emmitt Smith fumbled on a pitch.

"You know why they fumbled and lost it?" he asks. "Damn poor coaching, that's what."

He says he thought about writing Cowboys coach Chan Gailey and telling him so. Wood is big on writing letters. They appear occasionally in *The News* and the *Abilene Reporter-News*, mostly defending teachers of U.S. Rep. Charles Stenholm, a former all-state end for Wood at Stamford. Sometimes he just writes to correct mistakes of any nature.

He'd write Gailey, he says, but he's not sure it would do any good. He pulls out a sheet of paper and diagrams his trademark play, the power pitch. Any team that wanted to beat his, he says, first had to stop the power pitch. They'd run it 20 times a game and never fumble.

Here's why the Cowboys fumble, he says, whether it's Tony Dorsett or Emmitt Smith: Coaches teach the running back to run at an angle toward the line of scrimmage before taking the pitch. Wood says they should have backs run parallel with the line, which would better allow them to catch the pitch,

then square their shoulders before they hit the hole.

But wouldn't the Cowboys argue that a back gets to the hole faster if he runs at an angle?

"Might be quicker to the hole," Wood says tersely, his eyes returning to the field, "but you aren't gonna get to the hole with the ball."

He stares straight ahead.

"Just a fundamental mistake," he mutters. "S'all there is to it."

Asked his favorite college coaches, he immediately cites Texas Tech's Spike Dykes and Texas' Mack Brown. He is intrigued by Oklahoma's comeback under Bob Stoops, he's impressed by Kansas State Bill Snyder, and he's a great friend of Florida State's Bobby Bowden.

In his 1992 book, "Gordon Wood's Game Plan to Winning Football", he lists 36 coaches who have contributed to his beliefs, ranging from former assistants to Bo Schembechler, W.T. Staple, Gene Stallings and a high school coach from Ohio named Bron Bacevich.

Wood's education in football seems funny, considering how he started. His father was a farmer outside Abilene who didn't believe a man needed much in the way of schooling.

"If you get to third grade and can read and write," A.V. Wood told his eight children, "you're wasting your time going to college. You'll just be a teacher or preacher, and you'll starve."

Gordon Wood was the only one of A.V.'s four sons to earn a high school diploma. He went on to Hardin-Simmons and never starved. But he didn't get rich, either. The most he ever made coaching and teaching, he says, was \$42,000. He had an offer in the '50s to be an assistant coach at Texas Tech, but he didn't like the travel required in recruiting.

He and Katharine, who reared a son and daughter, live in a little three-bedroom house just two blocks from the high school, the same place they've lived since the early '60s, two doors down from Southall. The day that Wood retired, he fulfilled a promise to himself when he bought a luxury car and the best golf cart he could find.

He drove the car into the garage, and Katharine told him it was nice. She also told him she'd never ride in it.

"There are too many hungry people in this town," she told her husband.

So he took the car back. He listens to Katharine, as long as she's not trying to send in a couple of new plays. He says he probably would have coached one more year, but she insisted that he retire, and he reluctantly agreed.

"It was time for me to quit," he says.

He sounds sincere. But he still has a radio program on Thursday evenings to talk about high school football, still has coffee with friends to talk about it. He watches it on television, reads about it in newspapers, visits coaches and players.

And, nearly every week, he goes to a game. "I enjoy watching," he says. "I really do."

Most of the time, anyway. With five minutes left in the Joshua game, he gets up to leave the press box and beat the rush. Brownwood is up, 35-6, and sitting on Joshua's goal line.

At one of the exits, he says to hold up a second. "Let's see if they score," he says.

As if on cue, a Brownwood player is flagged for illegal motion.

"Aw, crap," Wood says, and turns for the parking lot.

Mistakes kill him, and always did. "I'd die if we had two or three penalties a game," he says.

Mistakes kill him, but he says he didn't make one by staying at Brownwood all those years. Katharine had put it in perspective earlier. "You take Tom Landry and Spike Dykes and Grant Teaff and Hayden Fry," she said. "They're all great coaches, but they were all just kids who played high school football in Texas."

And Gordon Wood was a Texas high school football coach, the best ever, his peers say.

Even an old perfectionist couldn't beat that.

"I wouldn't change anything," he says softly, sitting in his driveway in his sensible sedan. "No."

HONORING RONALD R. ROGERS AS HE IS INSTALLED AS GRAND MASTER OF THE GRAND LODGE OF FREE AND ACCEPTED MASONS IN OHIO

HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. PORTMAN. Mr. Speaker, I rise today to recognize Ronald R. Rogers, a constituent, who recently became Grand Master of the Grand Lodge of Free and Accepted Masons for 1999-2000.

Mr. Rogers has an extensive Masonic record. He began his Masonic career as Master Councilor of Ivanhoe Chapter of the Order of DeMolay. He received his Chavalier Degree in 1952 and was awarded the Active Legion of Honor in 1976. He became a Master Mason in Norwood Lodge No. 576 in 1972. Before becoming Grand Master, Mr. Rogers was elected Junior Grand Warden in 1996, Senior Grand Warden in 1997, and Deputy Grand Master in 1998.

A Cincinnati native, Mr. Rogers is a graduate of Norwood High School and received his B.A. from the University of Cincinnati. He worked for Clayton L. Scroggins, a management consulting firm in Cincinnati, for 35 years. Mr. Rogers is the proud father of a daughter, Robin, and the proud grandfather of a granddaughter, Leslie.

Active in his community, Mr. Rogers is a member of the Forest Chapel United Methodist Church. He has served Forest Chapel as Chairman of Finance, Chairman of Music and a member of the Administrative Board. He sang in the Forest Chapel Chancel Choir and also served as its president. Mr. Rogers is a past Area Financial Officer of United Way and past President of the Forest Park Band Boosters.

We congratulate Ronald Rogers on his position as Grand Master, and wish him every success during his tenure.

COMMUNICATIONS SATELLITE
COMPETITION AND PRIVATIZA-
TION ACT OF 1999

SPEECH OF

HON. TOM BLILEY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 10, 1999

Mr. BLILEY. Mr. Speaker, I rise in support of H.R. 3261. I am pleased that today we will

pass on suspension in bipartisan fashion our satellite reform and privatization legislation, H.R. 3261. The fact that we will pass this decisively and that no one has indicated he or she will vote against this bill indicates the widespread support in the House for this legislation. It is high time to end the current cartel-like ownership and management structure of INTELSAT and Inmarsat. They must not only be privatized, they must be privatized in a pro-competitive market. We must eliminate their privileges and immunities, warehoused orbital locations or frequencies, and limit their ability to use their governmental privileges to expand their services and assets pending privatization. There is no reason for government to be providing commercial communications services. We must also replace monopoly control with competition and provide full direct access in the United States to INTELSAT and Inmarsat.

As the author and manager of this legislation, I think it is important to specify what will be the legislative history for H.R. 3261. With the exception of section 641, the deletion of old section 642, the addition of section 649, and several date related changes, H.R. 3261 is identical to the bill the House passed on May 6, 1998, H.R. 1872. We have put this legislation on the suspension calendar because Members already voted for the same text year by a margin of 403 to 16. Because most of the bill is identical to last year's bill, it is unnecessary to go through the Committee hearing and report process again this year. Thus, no report will be filed with H.R. 3261. Instead, we intend that the Committee report for H.R. 1872 (See House Rpt. 105-494), the record for the legislative hearing held on September 30, 1997, and the floor debate on H.R. 1872, in relevant part, be used as legislative history for H.R. 3261.

What follows is a specific discussion of changes that have been made in H.R. 3261 when compared to H.R. 1872, which, when taken together with the H.R. 1872 legislative history discussed above, will serve as the legislative history for H.R. 3261.

Section 601(b)(1) advances the dates for the privatization of INTELSAT and Inmarsat, respectively, from January 1, 2002 to April 1, 2001, for INTELSAT, and from January 1, 2001 to April 1, 2000, for Inmarsat. The reason for this change is that it has become clear that the long transition periods provided in H.R. 1872 are no longer necessary. Both organizations have taken some steps toward some form of privatization. For example, Inmarsat moved to end its intergovernmental status, although it still has not proceeded with an initial public offering of its stock. Moreover, the INTELSAT Assembly of Parties announced some steps which could move INTELSAT in the direction of privatization.

Section 602(a)(1)(A) and section 621(1) also have been changed to reflect the new dates set out in section 601(b)(1). Similarly, the dates set out in 603(b) for the Federal Communications Commission to make annual findings and report to Congress on INTELSAT's progress toward privatization have been advanced to reflect the fact that longer transition periods are not needed. Thus, the first Commission finding is required on or before January 1, 2000.

Furthermore, given the fact that over a year has elapsed since passage of H.R. 1872, the

number of annual findings has been reduced from four to three, with the second finding of H.R. 1872 now included in the first annual finding, as set out in section 603(b)(2). The last finding is due January 1, 2002, which is later than the April 1, 2001 date established for INTELSAT privatization. It may be appropriate to make the FCC finding date the same as the privatization date of April 1, 2001 at the next stage in the legislative process.

Finally, there have been changes in the dates by which the privatized INTELSAT and Inmarsat must conduct initial public offerings of their shares; from January 1, 2001 to April 1, 2001 for INTELSAT, and from January 1, 2000 to April 1, 2000 for Inmarsat.

Section 624 deals specifically with Inmarsat. While there already have been some changes in the Inmarsat structure and some provisions of this section may need to be adjusted, such as the reference to the Inmarsat Signatory, this section is still applicable. While Inmarsat has conducted what it deems to be a privatization, that privatization has not been conducted in a pro-competitive manner.

Section 641 of H.R. 3261 ends the monopoly of COMSAT over access to the U.S. market for INTELSAT services. The Commission is to comply with section 641, by adopting orders ensuring the full implementation of all forms of direct access as provided in section 641(a).

Section 641 of H.R. 1872 dealt with various issues raised by ending COMSAT's exclusive access to INTELSAT and Inmarsat. We do not believe it necessary for the new section 641 to address these issues. First, given the changes at Inmarsat, and the provisions of other parts of the legislation dealing with Inmarsat, such as section 624(1), there is no need to specify direct access to Inmarsat in the new section 641. Second, it is appropriate to permit both non-investment, or contract, direct access (also known as Level 3) and investment (also known as Level 4) direct access to INTELSAT immediately upon the effective date of this legislation. All such direct access is in the public interest. It will increase competition for access to INTELSAT services and lower prices for consumers of INTELSAT services.

The Commission currently has the authority to pursue contract or Level 3 direct access. As was the case with respect to H.R. 1872, by including provisions on direct access in H.R. 3261, we do not intend to imply that there is a need to amend any provision of the Communications Satellite Act of 1962 to provide for direct access.

There are several other differences between H.R. 3261 and H.R. 1872 in section 641 regarding direct access. First, H.R. 3261 does not provide for or specifically authorize any signatory support costs. This is a change from H.R. 1872, which permitted compensation to INTELSAT signatories for support costs that the signatories would not otherwise be able to avoid under a direct access regime. Second, H.R. 3261 does not limit the ability of non-U.S. signatories of INTELSAT to provide direct access in the United States. Thus the sections of H.R. 1872 dealing with signatory fees and foreign signatories, along with section 641(1)(A)(iii) regarding carrier pass through of savings realized as a result of direct access, were deleted.

H.R. 3261 does not grant the Commission authority to impose a signatory fee or limit direct access by foreign signatories nor should the statement indicating that the Commission has authority to implement direct access be interpreted as meaning that the Commission has the authority to impose signatory fee or limit direct access by foreign signatories.

New section 641 also does not direct the Commission to take action on COMSAT's petition to be treated as a non-dominant common carrier because the FCC already has acted on this petition. Furthermore, section 641(4), stating that direct access regulation would be eliminated after a pro-competitive privatization of INTELSAT or Inmarsat is achieved was unnecessary and thus was deleted.

H.R. 3261 does not include an equivalent of section 642 of H.R. 1872 dealing with the renegotiation of monopoly contracts, which is also known as "fresh look." The sections of H.R. 3261 following section 641 were renumbered to reflect the deletion of old section 642.

New section 649 is intended to prevent U.S.-licensed international carriers and satellite operators from using leverage they may have in foreign markets to exclude other U.S.-licensed international carriers and satellite operators from gaining access to those foreign markets. The effect of Section 649 is to apply this policy to all foreign satellite operators seeking to do business in the United States. Exclusive market access is a critical barrier to the provision of competitive satellite services by United States companies.

Mr. Speaker, I urge my colleagues to support this important legislation.

CONGRATULATING SOUTH GRAND PRAIRIE HIGH SCHOOL

HON. MARTIN FROST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. FROST. Mr. Speaker, I want to congratulate South Grand Prairie High for winning one of 13 New American High School awards from the Department of Education. This designation recognizes South Grand Prairie's tremendous efforts in raising academic standards and student achievement.

South Grand Prairie is a diverse high school of over 2,400 students. It reflects the changing demographics of the surrounding community, half of the student body comes from minority backgrounds. In 1996, South Grand Prairie undertook an extensive reform program to raise academic performance by the school's "middle majority," the large segment of the student body whose needs were not entirely being met. The high school created a full-academy model that incorporates Advanced Placement-level curricula with career-oriented programs.

Students at South Grand Prairie pursue a rigorous academic program in an area that best suits them—Business and Computer Technology, Creative and Performing Arts, Health Science and Human Services, Humanities or Law, and Math, Science and Engineering. This allows students to raise their performance by capitalizing on their interests.

South Grand Prairie has enlisted the entire community in this effort. They have formed partnerships with local middle schools and area colleges. An Academic Advisory Board comprised of students, teachers, and prominent local business and industry leaders, has been formed to develop a curriculum and assessments of the program. And the Chamber of Commerce participates in a teacher-shadowing program which allows educators to understand the skills needed in the vocational areas in which they are teaching.

The results of this innovative program have been remarkable. South Grand Prairie has raised its students' passage rate on Texas' state math exam by 18 percent. South Grand Prairie students pass the state's reading test at a 24 percent higher rate than the state average, and the school has higher SAT scores and rates of college enrollment than the state's average.

Clearly, South Grand Prairie's academic reforms have been a success, the school is highly deserving of the New American High School award. If South Grand Prairie represents the future in American education, the future looks bright indeed. Congratulations to Principal Roy Garcia and all of South Grand Prairie's students, faculty, and parents. Your school is a model for all of America's high schools and you have made North Texas proud. I am pleased to be able to join South Grand Prairie officials at their White House award ceremony this Friday.

IN RECOGNITION OF THE 5TH ANNUAL COVENANT HOUSE WASHINGTON CANDLELIGHT VIGIL

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Ms. NORTON. Mr. Speaker, I rise today to recognize the Covenant House Candlelight Vigil, where I will speak on Tuesday, December 4, 1999. The Vigil is a national event held every year in early December in some 20 cities across the country. The Candlelight Vigil symbolizes community hope for the well being of all our children and highlights the plight of homeless, runaway, and at-risk children.

The Vigil in Washington alone has 3,000 concerned adults and youth marching, bearing candles and flashlights in support of youth. They will march shoulder to shoulder for a quarter of a mile to the Covenant House Washington Community Service Center, setting a tone of joy, solidarity, commitment, and hope. Similar rallies are held simultaneously at Covenant House sites across the country.

Since its inception in 1995, Covenant House Washington has invested over \$13 million of private funding in our youth. They have given hundreds of youth a hand up by providing food, shelter, tutoring, life skills, job training, legal representation, and positive recreational opportunities.

Mr. Speaker, I ask all my colleagues to join me in honoring Covenant House Washington and their commitment to our most vulnerable young people and in recognizing the 1999 Covenant House Washington Candlelight Vigil.

EXTENSIONS OF REMARKS

HONORING THE WORK OF MIKE WOODS

HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. GORDON. Mr. Speaker, I rise today to honor Mike Woods and his more than 25 years of work as city clerk for the town of Smyrna, Tennessee. Mike's tenure will soon come to an end. He has decided to retire on November 30.

As clerk, Mike has seen Smyrna grow from a small community with an annual budget of \$500,000 dollars and 27 employees to being one of Tennessee's fastest growing cities with a population of more than 20,000, a current budget of more than \$25 million dollars and over 300 employees.

Mike worked hard, along with former Mayor Sam Ridley, to make Smyrna the home of Nissan Motor Manufacturing U.S.A., which has almost 6,000 workers. His vision and invaluable experience have served Smyrna well, and the city has been recognized with numerous state and national awards. Mike truly exemplifies the best of public service and will be sorely missed in city government.

I have known Mike since he first began his tenure in Smyrna and consider him a close friend. He has given me lots of good advice over the years, and I thank him for that. I congratulate Mike for his admirable and distinguished career and wish him the best of luck in future endeavors.

SENSE OF HOUSE REGARDING DIABETES

SPEECH OF

HON. EARL F. HILLIARD

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Mr. HILLIARD. Mr. Speaker, I rise today to call for increased congressional spending to continue the research now progressing to seek a cure for diabetes. This devastating disease affects every family in America—my own brother is a victim of diabetes. The results of the disease are too numerous to count, but include blindness, loss of limbs, even shock resulting at times in death. At this time in our history, the incidence of diabetes in our population appears to be increasing.

We have made many strides in the treatment of diabetes, but much more needs to be done. It is very possible that in the near future we will be able to regenerate damaged beta cells in the pancreas, the cells which normally produce insulin. Alternatively, we may soon be able to generate new beta cells; in either case, it appears we will actually be able to cure the disease.

At this point in the process, we need to make an absolute commitment to this struggle to end this devastating disease. I commit myself and my vote to increasing spending on diabetes to an amount which will be sufficient for our scientists to accomplish this high goal.

November 18, 1999

RECOGNIZING AND HONORING WALTER PAYTON AND EXPRESSING CONDOLENCES OF THE HOUSE TO HIS FAMILY ON HIS DEATH

SPEECH OF

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise to strongly support this measure that recognizes a true sports hero and legend, Walter Payton.

Payton died of bile duct cancer at age 45. He is survived by his wife, Connie; his daughter, Brittney; and his son, Jarrett.

But it is not his death that lingers in our minds. It is his way of life that fills our memories and our hearts.

As a member of the Chicago Bears, Walter Payton stretched athleticism past the bounds of our imaginations. He bulled and wove throughout the football field with a creativity that allowed brute force and artistic expression to merge into one perfect moment.

Payton, the National Football League's leader in yards rushing (16,726) and carries (3,838), was known for his durability. He missed just one game in his 13-year career with the Bears. And during that time, he earned a Super Bowl ring. Payton retired after the 1987 season, and the Bears retired his No. 34. In the first year he was eligible for the Pro Football Hall of Fame, he was a unanimous selection.

But we cannot limit his worth to mere statistics and on-the-field achievement. Walter Payton represented sheer perseverance. Some would call Walter Payton the Cal Ripken of football. I would suggest that Cal Ripken is the Walter Payton of baseball. Indeed, Payton is the very embodiment of the term, "iron will."

His commitment to excellence and immense endurance makes his death seem all the more unbelievable. But Walter Payton did not lose his battle with liver disease. He simply ran out of time.

During an emotional, invitation-only memorial service that drew about 1,200 people, friends and family remembered Payton's practical jokes, his passion for those around him, his determination to be the best at what he did, and his generosity.

The public also had its chance to say goodbye during a ceremony at Soldier Field. Thousands of Bears fans filed into the stadium, many carrying signs in tribute and others dressed in Payton's familiar No. 34 jersey.

Yet, sports aficionados are not the only members of society who claim Payton as their hero. Any American, regardless of race or gender, can identify with Walter Payton. The consummate statesman, Payton carried himself on and off the field with dignity and class. He achieved, yet, he always remained committed to his team—individuality was not his style. It is because of his gentle and caring demeanor that he truly earned his nickname, "Sweetness." He was as sweet a person in real life as he was to watch on the football field.

And as an African-American, I am proud that an African-American holds such an imposing NFL record. His rushing record shows that anyone can achieve lofty goals, regardless of race. It is a record that will stand for many years and will remain a testament to Payton's excellence.

Teammate Mike Singletary, one of five who offered a tribute at Payton's service, said if Payton saw people crying he would say: "Hold everything—I'm on hallowed ground. I'm running hills, I'm running on clouds. I'm running on stars. I'm on the moon."

"He affected so many people in a positive way, not only through athletic prowess, but through his generosity and for the way he lived his life," said Ditka, the coach of that Bears team that went 18-1. "Yeah, it isn't fair. Forty-five years on this Earth, you should be in the prime of your life. But I think it warns us that tomorrow is not promised."

We will remember Walter Payton and his famous jersey number "34" that he wore first at Jackson State and then with the Bears. We also will remember Payton in his Chicago uniform with his trademark white headband.

But most of all, we will remember Walter Payton for his pleasant smile, his warmth of character, and his will to achieve.

IN HONOR OF ANDREW SHARP
PEACOCK

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. KUCINICH. Mr. Speaker, I rise today to say farewell to a good friend and great leader, Australian Ambassador, Andrew Peacock. Ambassador Peacock will retire from his duties as the Australian Ambassador to the United States. There will be a celebration in his honor to commend him for his many accomplishments and his lifetime service to his country and to the world's diplomatic corps.

Ambassador Peacock has had a brilliant career and has succeeded in every endeavor, at every level, and has done so with a joy of life. His life in public service began at the young age of 17, when he joined the Young Liberals in his native country, Australia. In just a few short years, his incredible leadership skills and great wit carried him to the position of President of the Young Liberal Movement. Shortly afterwards, Mr. Peacock became Vice-President and then President of the Victorian Division of the Liberal Party. Andrew Peacock made a great endeavor and entered Federal Parliament in 1966. As a parliamentarian, Mr. Peacock was instrumental in the nation's foreign affairs and industrial relations for almost 30 years. He redefined the Liberal Party in Australia and has proved his love of Australia throughout his career.

Mr. Peacock came to the United States from Australia in February 1997 after resigning from the Federal Parliament. His accomplishments here have been immeasurable and noteworthy. Ambassador Peacock has helped preserve the outstanding relationship between the United States and our loyal ally, Australia. Recently, Australia and the United States were

able to move side by side in the peace-keeping efforts in East Timor, thanks to the enviable diplomatic skills of Ambassador Peacock.

My fellow colleagues, please join me in honoring Ambassador Peacock for dedicating his life to his native land of Australia, to the cause of human dignity, and to the cause of world peace. Not only has Ambassador Peacock proven to be a true hero in Australia but also a great friend to the American people through his great efforts as Ambassador. On a personal level, I am blessed to consider him a friend of many years, and I will miss his presence in our nation's capital. His laugh, his charm, and spirit has touched this city in so many ways. He has had a profound effect on Australia, America, and the world. I wish him well on all of his new endeavors.

IN REMEMBRANCE OF DUB HAYES

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HALL of Texas. Mr. Speaker, it is an honor for me to rise today to pay tribute to an outstanding individual and close personal friend, James W. "Dub" Hayes of Whitesboro, Texas, who died suddenly on October 3 of this year. Dub was well-known and well-liked in Whitesboro and Grayson County as a prominent community leader who genuinely cared about people. His influence will be felt for generations to come.

Dub was honored as Outstanding Citizen of Whitesboro three times—in 1965, 1978, and 1994—a testimony to the contributions he made to the life of his home town. At the time of his death he was serving as a director of the Grayson County College Foundation, treasurer of Whitesboro Citizens for Excellence in Education and a member of the Whitesboro Economic Development Corporation Board of Directors.

He was an ardent proponent of education, having served for 33 years as a Trustee of Grayson County College and as past president of the board. He served on the Board from 1965, the year the school opened until 1997.

Dub also served as a charter member of the Texoma Blood Bank Board of Directors, a member of the Grayson County Airport Board and the Texoma Regional Planning Commission, past president of the Chamber of Commerce, Rotary Club and Quarterback Club in Whitesboro. Dub was active in the First Baptist Church of Whitesboro, where he served for many years as deacon, treasurer and Sunday School teacher.

Dub and his brother, Ed, owned and operated a retail pharmacy business in Whitesboro for 28 years. Dub also worked as a pharmacist for 15 years at Wilson N. Jones Hospital—and continued working until his death as a relief pharmacist and consultant. Dub will be lovingly remembered as one of those pharmacists who was willing to get up in the middle of the night to fill prescriptions for those who were sick.

He was a member of several professional organizations, including the Grayson, Collin,

Cook Pharmaceutical Association, the Texas Pharmaceutical Association, the Texas Society of Hospital Pharmacists and the American Society of Hospital Pharmacists.

Born in 1925 in Whitesboro, the son of the late James Albert Hayes and Ruth Cherry Hayes, Dub graduated from Whitesboro High School, attended North Texas Agricultural College in Arlington and received his Pharmacy degree from the University of Texas. He served his county during World War II in both the Pacific and European theaters. In 1949 he married his wife of 50 years, Ruth Helen Acker.

Dub is survived by his wife, Helen; three children, Diane Hayes Gibson and her husband, Mark; Dr. Jim Hayes of Dallas; and Bill Hayes and his wife, Kelly; four grandchildren, Laura and Robert Gibson and Sarah and Charlie Hayes; brother, Ed Hayes, and his wife, Pat; sister-in-law Marjorie Acker Laney and her husband, Bobby; three nieces and two nephews.

Mr. Speaker, Dub Hayes was a truly great man who lived a life of devotion to his family, his community, his church, and his profession. He was a community leader who led an exemplary life—and he was loved by all who knew him. We will miss him—but his memory will be kept alive in our hearts and in our thoughts—and his legacy will continue to be felt in Whitesboro and Grayson County. Mr. Speaker, as we adjourn today for the last time during this century, I ask my colleagues to join me in paying our last respects to this outstanding man and great American—James W. "Dub" Hayes.

INTRODUCTION OF THE TELE-
HEALTH IMPROVEMENT ACT OF
1999

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. BILBRAY. Mr. Speaker, I rise today to announce the introduction of H.R. 3420, the Telehealth Improvement Act of 1999. As we are learning, telemedicine services can dramatically improve upon the range of health care services available in medically underserved areas through the use of telecommunications technologies and services. Telemedicine can improve the delivery and access of health care services, and is especially useful when a patient needs a specialist who is unavailable in his or her area.

By relying on technologies ranging from interactive video, e-mail, computers, fax machines, and satellites, patients will be able to communicate with their doctors and receive the health care they need regardless of their physical location. These telemedicine technologies can be used to deliver health care, diagnose patients, read X-rays, provide consultation, and educate health professionals, among other things.

Telemedicine services reduce the cost of health care by increasing the timeliness of care, reducing emergency transportation costs, improving patient administration, and strengthening the expertise available to primary-care providers. Telemedicine services

also help to bring services to medically underserved areas in a quick and cost-effective manner, and can enable patients to avoid traveling long distances in order to receive access to health care.

While the Balanced Budget Act of 1997 includes a provision that provides for some Medicare reimbursement of telemedicine services, the Health Care Financing Administration (HCFA) has interpreted it too narrowly and as a result, has severely limited the services which are covered. The Telehealth Improvement Act of 1999 will clarify the intent of Congress regarding Medicare reimbursement for telemedicine services and increases telemedicine access to medically underserved areas. This legislation makes improvements to the way telemedicine services are currently regulated and reimbursed through the Medicare program, and applies to rural, underserved, and frontier areas, including areas designated as health professional shortage areas under the Public Health Service Act.

Mr. Speaker, I urge my colleagues in the House to support and cosponsor the Telehealth Improvement Act of 1999. We must continue to provide access to health care to underserved areas and provide adequate reimbursement to the hospitals and providers that are currently providing these services.

**HONORING THE LATE D.R.
MILLER, "MR. CIRCUS"**

HON. WES WATKINS

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. WATKINS. Mr. Speaker, today I pay tribute to the late D.R. Miller, known as "Mr. Circus" to those who knew him best, for his decades of service to his fellow citizens, and for his lifetime of providing laughter and fun to children of all ages.

D.R. Miller was born on July 27, 1916, in Smith Center, Kansas. But it was Hugo, the town in Oklahoma's Third Congressional District that serves as the winter headquarters for his Carson & Barnes Circus, that D.R. called home.

D.R. Miller passed away on September 8, 1999, in McCook, Nebraska—the very town where D.R.'s father and mother took D.R. and his brother to see their first circus, on August 24, 1924.

In 1937, after numerous business ventures, D.R., his father and brother, founded the famed Al G. Kelly Miller Bros. Circus, advertised as the 2nd Largest Circus in America, and toured the U.S. for years. When Ringling Bros. abandoned big top tents for buildings in 1956, the Al G. Kelly Miller Bros. Circus became the World's Largest Big Top Circus.

After several business and personal setbacks in the 1960s and 70s, D.R. roared back with the Carson & Barnes Circus, which grew and evolved into the 5 Ring Extravaganza that continues to entertain and amaze children of all ages.

In addition to his founding of two circuses, D.R. gave of himself to make this world a better place. D.R. served his country as a proud member of the Army's 273rd Artillery Division

during World War II. He founded the Endangered Ark Foundation, a non-profit association dedicated to the preservation and procreation of endangered animals. He established the D.R. and Isla Miller Scholarship Fund to provide scholarships to deserving Hugo High School graduates. D.R. established the non-profit Showman's Rest Trust Fund to provide plots, burials and proper markers for indigent show people.

D.R. provided countless opportunities to circus artists and fellow dreamers. He was a friend to all. In January, 1995, he was inducted into the Circus Ring of Fame in Sarasota, Florida, with his wife and partner Isla Marie Miller, who preceded D.R. in passing.

D.R. Miller was an entertainer, a showman, a family man, a veteran, and a model citizen whose example of success and hard work shines like a beacon for all Americans who aspire to improve their own lives and the lives of others. D.R. Miller was believed by all who knew him.

Mr. Speaker, I ask that today the House pay tribute to Mr. Circus: D.R. Miller.

**A TRIBUTE TO ISRAEL POLICY
FORUM**

HON. NITA M. LOWEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mrs. LOWEY. Mr. Speaker, I rise today to express my thanks to Israel Policy Forum.

Since its founding in 1993, IPF has been a vigorous and effective advocate for Middle East peace and Israel security. Few organizations have done so much to shape public attitude's about the peace process or to educate decision-makers about the significance of American international leadership.

On November 20th, the directors, members, and friends of Israel Policy Forum will hold their second Tribute Dinner. In addition to celebrating recent progress in the Middle East peace negotiations and welcoming Prime Minister Ehud Barak, this event will also be an occasion to recognize the outstanding contributions of several remarkable individuals.

Nathan Gantcher has devoted his considerable intellect and energy to the challenges of business, education, and community service. A towering figure in the world of finance, he is widely respected for his exceptional professional skills and deep devotion to principle.

Robert Lifton has contributed to remarkable range of fields, including law, real estate, entertainment, finance, and health care. His personal commitment to American-Israeli relations is evidenced by his leadership of groups as the American Jewish Congress, AIPAC, the Council on Foreign Relations, and many others.

Norman Pattiz is the founder and Chairman of Westworld One, the undisputed leader in the radio industry, with some 7,000 affiliated stations worldwide. His business acumen is matched by a powerful commitment to quality programming, and a creative understanding of the media's role in shaping a stronger society. His devotion to promoting Middle East Peace is prodigious, and he has pursued this goal

both through personal involvement with Middle Eastern leaders and through tireless activism in the American Jewish community.

Peggy Tishman is a nationally-recognized philanthropic leader, whose devotion to the Jewish community has been particularly inspiring. She was the first President of the merged UJA-Federation, where she helped lay a strong foundation for the future success of the organization, and where she demonstrated the character and charisma that would make her such an invaluable resource to a range of civic endeavors.

I am very pleased to join in this special tribute, to express my enormous pride in IPF's fine work, and to salute the examples of dynamic public advocacy IPF's honorees and leaders set every day.

**CONGRATULATING ST. SAVA'S
SERBIAN ORTHODOX CHURCH**

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. VISCLOSKY. Mr. Speaker, It is with great pleasure that I congratulate St. Sava's Serbian Orthodox Church in Merrillville, Indiana, as it celebrates its 85th Anniversary as a parish this Sunday. I would also like to take this opportunity to congratulate Reverend Jovan Todorovich on this glorious occasion.

On November 20th, St. Sava's Serbian Orthodox Church will open its 85th Anniversary celebration at 9:30 a.m. at the church. Reverend Todorovich will begin with a liturgy, followed by a blessing of a new icon painting, and a Parastos, or ceremony for the dead. Beginning at noon in the church's small banquet hall in Hobart, Indiana, the celebration will continue with a Pomen ceremony, a wreath laying, taps, and a service by the American Legion in honor of all veterans from St. Sava's congregation. A banquet will be served at 1:00 p.m. in the main hall in Hobart. Entertainment will be provided by Drina Tamburitza, and Nikola P. Kostich will be the guest speaker at this gala occasion. Nikola Kostich is an attorney from Milwaukee and is the lead counsel for the Serbian Republic and for the United Nations International Criminal Tribunal for the former Yugoslavia.

A church of humble beginnings, St. Sava's Serbian Orthodox Church was founded in 1914 in Gary, Indiana by about 200 immigrant families. Today, it is home to 625 families. During the past 85 years, the congregation at St. Sava's has worshiped in five different locations and weathered a major disaster when one church building was destroyed by a fire. The history of the parish, from both a joyous and sorrowful perspective, will be remembered Sunday when the church celebrates its 85th Anniversary.

The church's roots go back to a group of Serbian immigrants who first formed a choir. In 1914, the choir members began meeting for church services at a hall located near 13th Avenue and Washington Street in Gary. By 1915, they had built and consecrated a church in Gary at 20th Avenue and Connecticut Street. In 1938, a new church was built at

13th Avenue and Connecticut Street. The congregation remained there until 1978, when the church burned down. The congregation held services at a hall located on their picnic grounds in Hobart, while they raised money to build a new church in Merrillville. In 1983, the church broke ground at 9191 Mississippi Street in Merrillville, and in 1991, the church was completed and consecrated.

Mr. Speaker, I ask you and my other distinguished colleagues to join me in congratulating the parish family of St. Sava's Serbian Orthodox Church, under the guidance of Reverend Jovan Todorovich, as they prepare to celebrate their 85th anniversary. All past and present parishioners and pastors should be proud of the numerous contributions they have made out of the love and devotion they have displayed for their church throughout the past 85 years.

HONORING SOUTH POST OAK BAPTIST CHURCH

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. BENTSEN. Mr. Speaker, I rise to congratulate the members of the congregation of South Post Oak Baptist Church in my home district of Houston, Texas for celebrating their church's 40th anniversary. The South Post Oak Baptist Church family has been a pillar of the community, effectively ministering to its members for four decades.

South Post Oak Baptist Church was organized October 4, 1959 as a separate entity of Alameda Baptist Church and was incorporated in 1961. From its humble beginnings, the church has been a viable point of spiritual reference for the community. Under the leadership of Rev. Remus E. Wright, the membership of the church has grown rapidly, from 300 in 1991 to more than 4,500 members in 1999.

Over the past decade Rev. Wright and his wife Mia have worked to make South Post Oak Baptist Church, "A Positive Place in a Negative World." Their endurance and tremendous energy in addressing the needs of South Post Oak Baptist Church's congregation have served their community well.

The youngest of nine children born to Remus and Elizabeth Wright in Indianapolis, Indiana, Rev. Wright answered the call to the ministry during his mid-twenties, becoming an Associate Minister at Grace Apostolic church. He joined the Pentecostal Ambassadors and recorded two gospel albums on which he sang, wrote and produced most of the songs. Upon relocating to Houston, Pastor Wright found his home at South Post Oak Baptist Church, guiding the church into its largest ever period of growth. The Church's focus has been on the family; the responsibilities of men; special needs of our senior citizens; and "real life" programs for youth. Rev. Wright's focus on families is a major reason why he now devotes his energy to ministering to more than 2,500 families at South Post Oak Baptist Church.

While Rev. Wright's religious and spiritual obligations have always been paramount, as a

community leader, he has undertaken his civic duties with the utmost seriousness and passion, serving on several boards and organizations. He serves on two local high school boards, the YMCA board, and is a volunteer with LifeGift Organ Donation Program. He was selected to serve as a Foreign Missionary and Church Planter for the Southern Baptist Association in Zimbabwe, Africa. Most recently, he became part of an on-going Summer Leadership Institute Program at Harvard University designed to strengthen faith-based programs throughout urban communities in the United States.

Mr. Speaker, South Post Oak Baptist Church has much to celebrate on its 40th anniversary. The church has been a haven for its community. Since its beginnings four decades ago through the last 8 years of unprecedented growth, South Post Oak Baptist Church should be commended for its dedication to God and commitment to the needs of its congregation and surrounding community.

CONGRATULATIONS TO THE UNIVERSITY OF WISCONSIN'S FOOTBALL TEAM

HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Ms. BALDWIN. Mr. Speaker, I rise today to congratulate the University of Wisconsin's football team. This has been an exceptional season for the Badgers in many respects.

For the second straight year, the Badgers are off to play in a major NCAA Bowl Game. The Badgers could go to the Rose Bowl, just as they did last year, or to another major bowl, depending on how other college teams fare in the closing weeks of the season. On Saturday, a beautiful and unusually balmy day at Camp Randall, the Badgers sealed their ticket to a bowl game by defeating the Iowa Hawkeyes, 41 to 3, and winning the Big Ten championship.

But securing the championship was not all that was celebrated on Saturday. Before nearly 80,000 screaming Badger fans, tailback Ron Dayne made history as he became the all-time rushing leader in NCAA Division I football. Ron Dayne has finished his collegiate career with 6,397 yards—and is the favorite for winning this year's Heisman Trophy.

Ron Dayne's historic record and going to a major bowl game for the second straight year are only part of the triumphant season. The whole team created this championship. It was particularly heartening to see the team come together when Coach Barry Alvarez was either coaching from his hospital bed or the coach's box while waiting for knee replacement surgery.

The Badgers end the regular season with a 9–2 record. Congratulations to all the players, students and fans at the University of Wisconsin. I look forward to enjoying the Fifth Quarter at the bowl game. On Wisconsin!

STOPPING ABUSE OF COMPREHENSIVE OUTPATIENT REHABILITATION FACILITY PROGRAM

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. STARK. Mr. Speaker, one of the good services in Medicare is the CORF (Comprehensive Outpatient Rehabilitation Facility) program, where beneficiaries recovering from an illness or operation can get a wide range of quality rehab services.

Unfortunately, there appears to be a loophole in the law allowing the establishment of "satellite" CORFs. In this scheme, doctors are getting letters offering to rent part of their office for the placement of a therapist. The rent offered is often sight-unseen and is far above what is a reasonable rental rate. It is, in my opinion, a violation of the anti-kickback laws and is a way to get referrals that greatly drives up utilization and costs for Medicare.

To stop this proliferation of services we never knew we needed, I am introducing a bill, with an effective date of today, to require that all CORF services be provided at one site. I submit a letter from the HCFA Deputy Administrator on this issue and on the steps Medicare is taking to avoid fraudulent utilization in this area. The Administration is to be commended for its efforts to prevent abuse in this area—but clarifying the law will also be helpful.

DEPARTMENT OF HEALTH AND HUMAN SERVICES, HEALTH CARE FINANCING ADMINISTRATION, DEPUTY ADMINISTRATOR

Washington, DC, Oct. 27, 1999.

Hon. PETE STARK,

House of Representatives, Washington, DC.

DEAR MR. STARK: Thank you for your letter to the Administrator regarding contracts being mailed to doctors to open uncertified mini-Comprehensive Outpatient Rehabilitation Facilities (CORFs) in physicians' offices. I am responding on her behalf, and I apologize for the delay in this response. You also stated that you earlier copied the Administrator on a letter you sent to the Department of Health and Human Services' (DHHS') Office of the Inspector General regarding this matter. You are requesting that the Administrator immediately put a halt to the proliferation of these "satellite" CORFs.

I share your concern with the apparent proliferation of satellite CORFs. Based on the information furnished, the establishment of satellite facilities is consistent with section 1861(cc) of the Social Security Act (the Act). Section 1861(cc)(1) of the Act states that in the case of physical therapy (PT), occupational therapy (OT), and speech pathology (SP) services there shall be no requirement that the item or service be furnished at any single, fixed location. All other CORF services must be provided at the site of the CORF approved for Medicare participation.

It should be noted that although the Act exempts these services from the single, fixed location requirement, it does not exempt them from any of the other CORF requirements. Since the CORF must make documentation available to the state survey agency surveyor demonstrating that it furnishes all services in compliance with the CORF requirements, we would expect the documentation at the CORF for services furnished off-site would not be unlike that for

services furnished at the CORF. Also, state survey agencies are not precluded from making visits to the off-site locations as necessary, to ensure that the CORF requirements are met.

Recently, a briefing on CORFs and outpatient rehabilitation facilities was held for Kevin Thurm, Deputy Secretary of DHHS. I presented the Health Care Financing Administration' (HCFA's) program integrity action plan based on analysis we had initiated with the HCFA Miami Satellite Office. The plan includes intensified medical review in targeted areas, education of providers and fiscal intermediaries, and increased reviews of off-site locations. I believe these interventions and the increased oversight will curb inappropriate growth of the providers until HCFA is granted statutory authority to require that PT, OT, or SP be furnished at a single, fixed location.

Thank you for your interest in this matter.

Sincerely,

MICHAEL M. HASH,
Deputy Administrator.

A TRIBUTE TO BILL SHIVELY ON HIS RETIREMENT

HON. JIM RAMSTAD

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. RAMSTAD. Mr. Speaker, I rise today to pay tribute to one of our nation's best and brightest business leaders.

By any measure of merit, William C. Shively, is a truly visionary business leader. His hard work and pioneering efforts in the area of financial management and commitment to public service are absolutely exemplary—as well as an inspiration to us all.

Mr. Speaker, Bill Shively is retiring as Executive Vice President of the nationally recognized Gelco Information Network in my Third District of Minnesota.

Bill had the vision in 1992 to bring corporate America's soundest financial management practices to the federal government. In his book *Best Practices*, Bill Shively identified areas for immediate improvement and re-engineering. He targeted official business travel within government since, in the corporate world, travel is the third largest business expense behind payroll and data processing.

Mr. Speaker, in 1995 the federal government was spending over \$7 billion on official business travel. Mr. Shively realized the government was spending unnecessary overhead based on the outdated business processes that governed federal travel.

The need for improvement in this arena, Mr. Speaker, was the source for Bill's vision to create a business unit dedicated to identifying improvements and recommending solutions to save taxpayer money. The vision's underlying theme was to save taxpayer money through the implementation of re-engineered systems and processes.

Mr. Speaker, the Government Services Division of Gelco was born on March 1, 1995 and was comprised of Bill and one other employee. Since 1995, the business has grown to close to 100 employees, supporting products and services utilized today within every single federal executive agency within our government.

Bill helped the Department of Defense through the evolutionary stages of defining its vision, leading to one of the largest non-weapons procurements—DTS.

Mr. Speaker, Bill Shively leaves a legacy of public service that will be long remembered. But, more important to Bill, he leaves a legacy to that is sure to inspire his family for generations to come. Despite the impact of his visionary actions around the world, Bill Shively's No. 1 priority has been his family. Bill has been a dedicated father of three sons and a devoted husband to his wife, Betty.

Mr. Speaker, Bill Shively has done much for his country. We must take the time to pay tribute to great Americans like Bill, citizens who share their special skills to make outstanding contributions to their nation. Bill Shively may be retiring, but he has improved federal processes and driven down costs to taxpayer—truly lasting contributions that will benefit our country for generations to come.

At a time when good role models are few and far between, a time when people of integrity are needed more than ever, Bill Shively is a shining example of how to achieve success in our personal, professional and public lives.

Mr. Speaker, please join with me today to honor William Shively for all he has done to help others. We wish him and his family all the best in his retirement and in all his future endeavors.

RESIGNATION OF NATIONAL FOREST SUPERVISOR GLORIA FLORA

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. GEORGE MILLER of California. Mr. Speaker, Gloria Flora, forest Supervisor of the Humboldt-Toiyabe National Forest in Nevada resigned last week, citing relentless "fed-bashing." Since becoming Supervisor of the largest national forest in the lower 48 just over a year ago, Ms. Flora has become embroiled in disputes over grazing, endangered species protection, and road closures. One of these disputes recently culminated in Elko County residents, including public officials, illegally rebuilding a forest road without federal permits, an act which in turn triggered a U.S. Fish and Wildlife Service emergency listing of the bull trout. At the forefront of these disputes are extremists whose radical anti-government stance has translated into several instances of intimidation and harassment of federal land managers and acts of violence against public servants and property.

It is deeply distressing that public servants who are administering and enforcing the law are subjected to such hostile circumstances that they are forced to leave their jobs and homes. We should keep in mind that federal land managers like Ms. Flora are charged with enforcing laws passed by the Congress and entrusted with public lands and natural resources that belong to all the people of this country.

For twenty years, the wise use movement in its various forms—the Sagebrush rebellion, states' rights, county supremacy—has fo-

mented hostility and hatred toward officials enforcing the laws of Congress. Rather than perpetuate the disregard and disdain for the government and its laws, I urge my colleagues to use their good offices to create a climate of decency and cooperation.

Mr. Speaker, while I deeply regret that Ms. Flora has chosen to resign, I sincerely hope that we take this opportunity to express our support for her and for the many Forest Service employees who share her concerns. I submit Ms. Flora's letter to her fellow employees.

OPEN LETTER TO EMPLOYEES OF THE HUMBOLDT-TOIYABE NATIONAL FOREST

NOVEMBER 8, 1999

There is no easy way to say good-bye to a group of hard-working, dedicated employees and friends. But the time has come when I must do just that. The best part of working on this Forest is watching each of you perform your work so well. The results speak for themselves in the outstanding land stewardship and exemplary business practices found on this Forest.

I have become increasingly troubled by the difficult conditions that so many of us face in the state of Nevada. We now accept as commonplace unwarranted criticisms of and verbal attacks on federal employees. Officials at all levels of government in Nevada participate in this irresponsible fed-bashing. The public is largely silent, watching as if this were a spectator sport. This level of anti-federal fervor is simply not acceptable.

It is not like this in other places! As you know, I've worked throughout the Intermountain West: Montana, Idaho, Utah and Wyoming. Yes, there are arguments and strong disagreements over land use policy, but they usually stay within the bounds of reason. As tensions escalate, others weigh in with their opinions and the media does in-depth investigative reporting. There is a sense of balance. Outlandish words and acts, regardless of the origin, are repudiated openly by reasonable community members. Constructive collaboration and discourse are recognized as the methods to resolve complex natural resource issues. Yes, things may get heated but all people have a voice.

The attitude towards federal employees and federal laws in Nevada is pitiful. People in rural communities who do respect the law and accept responsibility for complying with it are often rebuked or ridiculed. They are compared to collaborators with the Vichy government in Nazi-controlled France! People who support the federal government or conservation of natural resources ask that they not be identified for fear of retaliation. When I speak against the diatribes and half-truths of the Sagebrush Rebellion, I am labeled a liar and personally vilified in an attempt to silence me. When I express concerns for Forest Service employees' safety, I am accused of inciting violence.

This is the United States of America. All people have a right to speak and all people have a right to protection from discrimination. However, I learned that in Nevada, as a federal employee, you have no right to speak, no right to do your job and certainly no right to be treated with respect. I could go on and on with examples of those of you who have been castigated in public, shunned in your communities, refused service in restaurants, kicked out of motels . . . just because of who you work for. And we cannot forget those who have been harassed, called before kangaroo courts, or had their very lives threatened.

It disturbs me to think that two million people in this state watch silently, or worse,

in amusement, as a small percent of their number break laws and trounce the rights of others with impunity. Worse yet, there are elected officials who actively support these offenders. Those whose responsibility it is to help us enforce the laws passed by Congress and do our mandated jobs, always seem to have a reason why action must be postponed.

The Jarbidge situation is just another example of how certain elements would rather fight and excoriate the federal government than work towards a solution. These people need an "evil empire" to attack. When a member of the United States Congress joins forces with them, using the power of the office to stage a public inquisition of federal employees followed by a political fundraiser, I must protest. This member and others continue to do this, and we, as an agency, believe that it is best to keep turning the other cheek. Enough is enough. I am not promoting conflict; I'm simply advocating that our agency demands fairness and common decency. It's time to speak up.

But speaking up and continuing to work here are not compatible. By speaking out, I cannot provide you, my employees, with a safe working environment. And to date, I have not been able to convince others that the current atmosphere is unacceptable and requires a proactive response. I refuse to continue to participate in this charade of normalcy.

Equally troubling is our limited ability to perform the mission of the Forest Service under these conditions. As stewards for public lands, entrusted with protecting and restoring natural resources for present and future generations, we must be able to perform those functions in a collaborative and cooperative manner. The health of the land is paramount.

I am choosing to leave for my principles, for my personal well-being, and so I can actualize my commitment to natural resource management in a setting where respect and civil discourse is the norm. I have no definite plans and I am not seeking special treatment from the agency. I will stay at least until the end of the year to help ensure a smooth transition to new leadership.

I leave you with my fondest wishes for continuing your excellent work and gaining the fulfillment and respect that you all deserve. As I told you when I first arrived, simply demonstrate honesty, integrity and ethical behavior and you will succeed. Thank you for the tremendous support you have given me, I couldn't have asked for more from you.

Sincerely,

GLORIA E. FLORA,
Forest Supervisor.

TRIBUTE TO BRIAN LANCE GOTTLIEB

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. WEINER. Mr. Speaker, I rise today to recognize an upstanding member of our community who is being recognized by the Brighton-Atlantic Unit #1671 of B'nai Brith on the occasion of its 1999 Youth Services Award Breakfast.

Brian Lance Gottlieb has earned a well-deserved reputation as a tireless fighter on behalf of the youth in our community, and is rightfully honored for his achievements by B'nai Brith on this special occasion.

Gottlieb, who serves as the liaison to Intermediate School 303 and Public Schools 90, 100, 209 and 253, is currently working on different ways to protect our community's children. As a member of the District 21 School Board, he has initiated the process of identifying unsafe streets throughout District 21 to ensure the safety of all pedestrians. And, throughout this school year, Gottlieb will be hosting a series of Child Safety Programs that will provide parents with free copies of their children's fingerprints along with Polaroid pictures to present to law enforcement personnel in the event of an emergency.

Further, as my Deputy Chief of Staff, Brian Lance Gottlieb has served as my liaison to the Board of Education and School Construction Authority for the last three years. In addition, he is primarily responsible for the intake and resolution of constituent concerns in my Community Office located in the Sheepshead Bay section of Brooklyn.

Gottlieb, who credits his late mother, Myrna, with teaching him the importance of helping others and being active in the community, created the highly successful organization Shorefront Toys for Tots in 1995. Founded in his mother's memory, Shorefront Toys for Tots has helped bring Chanukah cheer to more than 7,500 underprivileged children in the Shorefront community.

As a student at the Rabbi Harry Halpern Day School and its Talmud Torah High School division, Gottlieb packed and delivered Passover packages to aid needy senior citizens. Gottlieb strengthened his bond with the Jewish community as an undergraduate and graduate student through his involvement with the Jewish Culture Foundation at New York University and B'nai Brith Hillel at the University of Florida, where he served as a Reporter for the Jewish Student News.

Gottlieb is a member of Community Board 13 and serves on its Education and Library and Youth Services committees. He also serves his neighbors as a member of the Board of Directors in Section 4 of Trump Village and as an Executive Board member of the 60th Precinct Community Council.

Mr. Speaker, I applaud the members of Brighton-Atlantic Unit #1671 of B'nai Brith for recognizing the achievements of Brian Lance Gottlieb, a tireless worker for the people of Brooklyn and Queens.

CONGRATULATING THE PASCACK HISTORICAL SOCIETY

HON. MARGE ROUKEMA

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mrs. ROUKEMA. Mr. Speaker, I rise to congratulate the Pascack Historical Society on the recent restoration of its museum, and for all the work the Society has done to preserve the heritage of the Pascack Valley.

The Pascack Historical Society Museum, located in Park Ridge, New Jersey, is a wonderful collection of artifacts depicting life in the region from the 18th Century through the early 20th Century. It is a popular destination for tourists and natives alike, and is a treasure-

trove of archival information for scholars of local history.

Special recognition must go to a number of key individuals involved. The project was ably guided by Historical Society President Katharine P. Randall, Vice President Francesca M. Moskowitz, Secretary Ellen Kramer and Treasurer Richard Ross.

The renovation would not have been possible without the generosity of the late Ellen Berdais, a long-time member of the Historical Society who died of cancer in 1995, just after the project began. In her honor, the annex will be named the Ellen Berdais Hall. In addition, the main museum building will be named in memory of its longtime curator, Wilma Uder.

The museum is housed in the 19th century former First Congregational Church of Park Ridge. During the three-year, \$275,000 renovation, the church building was substantially restored and a dilapidated barn was replaced with an 18,000-square-foot addition. Its exhibits include the facade of a country store, a turn-of-the-century parlor, and a recreation of rooms from a small, Colonial-era home. Artifacts include items the Leni-Lenape Indian tribe and early settlers used for trading, farming and manufacturing. A machine for making the "wampum" ornaments Native Americans once used as currency is part of the collection, along with a printing press from a local newspaper and a wooden horse used by a saddle maker.

The Historical Society was founded in the 1930s by John C. Storms, publisher of the Park Ridge Local, and was formally incorporated in 1942. A small group of area residents dedicated themselves to collecting and preserving artifacts and written accounts of Pascack Valley history, and sharing the collection through exhibits, lectures and a quarterly newsletter. The society's collection was housed in various locations until it found a permanent home in 1952 with the purchase of the church, which had been a Park Ridge landmark since 1873.

During its nearly half-century of operation, thousands of school classes, civic organizations, researchers and individuals have visited the museum and attended the Historical Society's lectures. Staffed entirely by volunteers, the museum has depended on the generosity of its members and friends for financial support.

It became obvious in 1994 that the adjacent bar—used as a meeting room, research center, storage area and workroom—was in such a dangerous state of disrepair that its demolition was ordered by the borough. With the loss of this facility, it was necessary to temporarily close the museum and begin a major fundraising campaign to rebuild. Supports worked for five years to make the dream a reality.

I ask my colleagues in the House of Representatives to join me in commending the Pascack Historical Society and all its members on the hard work and dedication that have preserved this American historic treasure for the benefit of all.

THE BICENTENNIAL OF MONROE,
NEW YORK

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. GILMAN. Mr. Speaker, I am pleased to note to our colleagues that the Town of Monroe, New York, in my congressional district is currently celebrating its 200th anniversary.

With its population estimated in 1996 to be nearly 26,000, the Town of Monroe has long been considered one of the major hubs of our Hudson River valley. Within the boundaries of the Town are three incorporated villages: the Village of Monroe (incorporated in 1894), the Village of Harriman (incorporated in 1914), and the Village of Kiryas Joel (incorporated in 1977).

The Village of Monroe sprang up along a mill pond created by the construction of a dam and grist mill constructed prior to the Revolutionary War. Soon, stagecoach routes, inns, and taverns grew along Monroe's Mill Pond, and soon the community became the economic and social focal point of the area.

The Village of Harriman was the site of a creamery and grist mill, which early in this century became the site of the estate of the railroad magnate Edward H. Harriman. The Village was named in his honor, and became the home of his son, Averill, who served as a cabinet member, diplomat, and Governor of New York.

The Village of Kiryas Joel is the second legally incorporated community of Hasidic Jews in the world. The community is a unique village where traditional values and the centrality of family are the guiding principles of community life. To preserve these values, Kiryas Joel remains without television or radio.

The entire Town of Monroe has enjoyed a varied history over the past 200 years. In the earliest days, it was known for its iron mines and smelting furnaces. The famous giant chain which was stretched across the Hudson River to prevent invasion by the British army was forged in Monroe. The Monroe iron mines thrived as late as the 1880's.

For many years, Monroe was the center of a thriving dairy and cheese industry. We forget today that the concept of shipping fresh milk from the farm to the city is a relatively new concept which did not come about until the advent of the railroads. The Town of Monroe was host to a variety of dairy farms, and beginning in 1841 what are now the Villages of Monroe and Harriman were the railroad terminals from which dairy products were shipped.

But it is for cheese that Monroe is most famous. Two types of cheese beloved throughout the world—velveeta and liederkranz—were invented in Monroe and originally manufactured at the factory operated by Emil Frey.

Today, the Monroe Cheese Festival is the biggest and most successful event held annually in Monroe. Conceived by Village Mayor Robert Bonney—who tragically passed away soon after he "sold" the festival idea to the community—the cheese festival annually attracts thousands of visitors of all ages to the community from far and wide.

In 1997, a local newspaper reporter wrote that: "There are few places where a kid can

EXTENSIONS OF REMARKS

wear a giant foam cheese wedge on his head and still look pretty cool. A Green Bay Packer game may be one. Another, most definitely, is the Monroe Cheese Festival."

Other long time traditions which permeate Monroe are the Mombasha Fire Department, over 100 years old, and the Museum Village, which preserves for tourists and scholars a typical colonial community. The legendary showman, George M. Cohan, was a resident of Monroe. When in his declining years the classic motion picture biography of his life, "Yankee Doodle Dandy" was released, he was too ill to travel to New York City for the grand premiere. So a special screening for Cohan and his family was arranged to take place at the Mombasha Fire House. Mr. Cohan applauded the portrayal of his life story by the legendary Jimmy Cagney.

Today, as we stand on the threshold of a new millennium, the Town of Monroe and the three Villages within its boundaries all look forward to the third hundred years with a sense of confidence that the challenges of tomorrow will be met.

Mr. Speaker, I invite all of our colleagues to join with me in saluting the town of Monroe, New York, on this milestone occasion.

TRIBUTE TO STEPHEN M. MELTZ

HON. DAVID D. PHELPS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. PHELPS. Mr. Speaker, I rise today to pay tribute to Stephen M. Meltz on his sixtieth birthday. Stephen will gather with his friends and family to celebrate this momentous occasion just after Thanksgiving. Stephen was born in Chicago, Illinois, on December 15, 1939, to Jacob and Cecilia Meltz. He is married to Nadine (Greenberg) Meltz and has two sons: David and Gary. Stephen has lived in Chicago his entire life. He attended college at the University of Chicago, receiving both his undergraduate degree in political science and his M.B.A. at the prestigious university. He also served his country proudly in the United States Army Reserve.

Stephen M. Meltz is currently the President of Stephen M. Meltz and Associates, a C.P.A. firm located in Lincolnwood, Illinois. It is a successful business, where his clients know that the work done by Stephen's firm is both professional and honest. For the last year his son David Meltz has joined him at the firm, which now makes it truly a family business. But for all the success Stephen has had in his professional life, I know that his family is his greatest sense of pride and accomplishment.

Stephen has always made the best interests of his family his primary concern. He has taken care of his wife, his children, his parents, his wife's parents and many members of his extended family with loving care. He saw to it that his children received the best educations available. He made sure that the final years of his and his wife's parents were lived with dignity and comfort. Like many fathers, his dedication to his family has sometimes gone unnoticed, but he does not care for his loved ones for accolades, but because he

November 18, 1999

loves his family. For all these reasons, Stephen is a patriarch in the truest sense of the term. A pillar of integrity that all his family can lean on in their hour of need and celebrate with during times of joy.

Mr. Speaker, it is often said, that the road to the Underworld is paved with good intentions. Contrary to this premise, Stephen M. Meltz has always had honor and a strong core of moral beliefs and intentions, and his actions have always mirrored those values. Aristotle said, "In the arena of human life the honors and rewards fall to those who show their good qualities in action." Stephen's rewards are both a devout family and loyal friends who have witnessed his lifelong "good qualities in action" and will honor him over dinner on his sixtieth birthday.

Mr. Speaker, lastly, I am particularly pleased to have this opportunity to congratulate Stephen M. Meltz, on his sixtieth birthday, because his son Gary C. Meltz is a member of my staff here in Washington, DC. Gary asked me to put into the CONGRESSIONAL RECORD a speech to commemorate his father's birthday. I am honored to do this for Gary and his father. I urge all my colleagues to join me now in wishing Stephen M. Meltz a happy sixtieth birthday and Godspeed.

M.D. ANDERSON CANCER CENTER

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. GREEN of Texas. Mr. Speaker, I wish to bring to the attention of my colleagues in the House of Representatives a recent article about the wonderful medical advances at the M.D. Anderson Cancer Center in Houston, Texas. The article tells the stories of two people, a young college student and the former Speaker of the House Jim Wright, dealing with cancer of the jaw and their experiences with this once debilitating disease. Their respective stories highlight the need to support our Nation's cancer centers and highlight how medical advances can truly give Americans hope where none previously existed.

Reconstructing Lives by Mary Jane Schier—For 19-year old James Smith, the quality of survival from cancer of the jaw is paramount in order to pursue his dream of playing professional football.

Smith is a junior majoring in health and human performance at McNeese State University in Lake Charles, LA, where he was an outstanding defensive tackle until diagnosed with a disease uncommon among teenagers.

He and his family were stunned to learn in November 1998 that he had a tumor in his right mandible, the horseshoe-shaped bone that forms the lower jaw. The mandible, he knows, is the largest and strongest bone in the face.

Smith was forced to take an extended timeout from the football team to begin the biggest challenge of his young life. Upon coming to M.D. Anderson, he joined a new team whose members are nationally ranked for treating head and neck cancers.

The head coaches in the multidisciplinary treatment regimen that Smith received are Dr.

Helmuth Goepfert and Dr. Geoffrey L. Robb, who chair the Department of Head and Neck Surgery and the Department of Plastic Surgery, respectively. For the coaches and their specialty colleagues, the common goal centers on removing patients, cancers and restoring optimal form and function.

Smith's surgery 3 days before last Christmas involved cutting out his diseased jaw and reconstructing the mandible with bone and tissue taken from his left leg. Although he couldn't talk or eat his favorite pizza for a while, Smith says now, "I'm getting stronger every day . . . and I'm eager to play again."

At the other end of the age spectrum is former U.S. House Speaker Jim Wright, who at age 76 also illustrates the importance of high quality in one's life.

I've always been a talker, so I was a little concerned before the surgery that I wouldn't be able to talk well enough for people to understand me," confides Wright, a Fort Worth Democrat whose 34-year span in Congress was complete in 1989.

During more than 13 hours of surgery at M.D. Anderson last March 12, Wright's cancerous right mandible, an adjacent segment of the tongue and eight teeth were removed, then a six inch piece of bone from his left leg was used to form a new jaw. Skin from his left thigh overlying the bone was also transplanted to replace part of his inside of his mouth and tongue and the external skin of his cheek.

"Believe me, I feel truly blessed," Wright says in a strong and clear voice.

His gratitude has been enhanced by recalling how his father lost a jaw to cancer more than 30 years ago. "There was no thought then of replacing it with bone from somewhere else in the body . . . (He) spent his last days with a facial disfigurement that was the mark then of many cancer victims," Wright remembers.

This was Wright's second bout with an oral cancer. In 1991, he had surgery at M.D. followed by radiation treatments. Since his latest extensive surgery, he has resumed most of his favorite activities, including writing a regular newspaper column and, of course, "talking with anyone who'll listen."

Intensive collaboration among head and neck surgeons and plastic surgeons in recent years has "greatly improved our ability to resect all sizes of tumors and to restore vital function and appearance as well as to extend survival," observes Dr. Goepfert, who holds the M.G. and Lillie A. Johnson Chair for Cancer Treatment and Research.

New methods developed by plastic surgeons permit reconstruction of the oral cavity safely and with increasingly good outcomes. The key to success involves transferring tissues—together with vital blood vessels and nerves—from elsewhere in a patient's body to use for rebuilding parts of the head and neck affected by cancer.

Dr. Robb explains, "The head and neck is the most difficult area to reconstruct. But through specialized Micro vascular techniques, we can move tissues, muscle, fat and bone, along with their blood supply, to use in reshaping jaws, the tongue, and parts of the nose, ears, and throat."

Age is no obstacle for performing big reconstructive procedures so long as older patients

have good blood vessels to transfer with the tissues. Regardless of age, Dr. Robb says, "Our primary aim is to restore form, contour and function to the body parts affected by cancer surgery so that patients can enjoy the highest quality of life."

For Wright, being able to talk, chew, swallow and look virtually normal is a "miracle" stemming from remarkable medical progress and his religious faith. "The good news is that cancer is conquerable" and "useful life is prolongable."

Realizing the best quality of cancer survival for Smith, however, will occur when he can return to the football field. During a recent follow-up visit to M.D. Anderson, his doctors encouraged him to continue that dream.

COMMUNICATIONS SATELLITE COMPETITION AND PRIVATIZA- TION ACT OF 1999

SPEECH OF

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 10, 1999

Mr. PALLONE. Mr. Speaker, I wish to commend the distinguished Chairman of the Commerce Committee, Chairman BILEY, and Chairman TAUZIN, who have worked diligently to bring satellite privatization legislation before the House in these last days of this Session. This bill is an important step toward legislation that will advance increased competition in the global satellite telecommunications market.

When the House passed this bill last year, it was with the firm belief that time and technology had passed by the 1962 law that created COMSAT. In spite of the overwhelming House support, the bill was stalled over concerns raised by colleagues in the other body. Since that time, Lockheed Martin has arrived on the scene to buy COMSAT and make it a normal, private company without legal immunities or exclusive access to the Intelsat system. This is exactly what the proponents of the Biley-Tauzin bill want and is yet another example of the marketplace being ahead on Congress.

To date, Lockheed has followed regular order in its acquisition of COMSAT. It has received the approval of both the Federal Communications Commission and the Department of Justice to acquire 49% of COMSAT. Neither federal agency felt that competition or anti-trust laws were threatened by Lockheed Martin's purchase.

Now it is Congress' turn to weigh on this issue and I believe that this bill goes to great lengths to achieve honest and fair competition in the satellite competition in the satellite communications market. I also believe that we can complete legislative action on this bill before Congress leaves this year, which I understand the Chairman has said he intends to do. But as we move toward that legislative objective, it is important that we realize that certain issues must be addressed before we can declare a victory for the private competitive marketplace.

First of all, there is the issue known as "Level IV direct access". In effect, it would re-

sult in the forced divestiture of billions of dollars of Comsat shareholder investment in Intelsat infrastructure—investment undertaken often at the behest of the U.S. Government. Level 4 direct access simply guts the economic rationale for a private company to invest in Comsat. Indeed, that may be the rationale behind this provision: to dissuade Lockheed from acquiring Comsat. If that is the case, it would be a cynical attempt to manipulate the free market in the name of "competition." This provision must be changed in conference. Similarly, Congress should simply repeal the ownership cap on Comsat upon enactment of final consensus legislation, rather than making it contingent upon occurrence of unrelated events as it does now.

Other outstanding differences between the House and Senate have been raised by other Members and must similarly be resolved in conference. I urge Chairman BILEY to work with Mr. DINGELL toward a consensus, notably on the privatization criteria, which serve as FCC licensing criteria, and must be made more flexible.

Again, I consider myself as a supporter of this bill. The Congress has been very shrewd in letting the telecommunications marketplace work its will towards fair competition. We should use this opportunity to continue that successful record. I urge the conferees to consider these issues when crafting a final package to present to the Congress and ultimately the President.

A TRIBUTE TO FREDERICK C. MALKUS, JR.

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HOYER. Mr. Speaker, I rise to pay tribute to a great statesman and leader in the State of Maryland. With the death of former state Senator Frederick C. Malkus, Jr., on November 9, Maryland, as well as the entire Country, lost a great patriot and a dutiful public servant.

Frederick C. Malkus, Jr. died at the age of 86, having spent all of his adult life in the service of his fellow citizens. Senator Malkus, a conservative Democrat, served in the legislature for 46 years—12 in the House of Delegates and 34 in the Senate—before retiring in 1994. Upon his retirement, he was the longest serving State Legislator in the United States.

Born July 1, 1913, in Baltimore, Senator Malkus moved to the 380 acre Egypt Road farm, nine miles outside of Cambridge, on Maryland's Eastern Shore where he was raised there by his aunt and uncle. He spent the past 83 years on the working farm that produces wheat, corn, and soybeans. He graduated from Western Maryland College in 1934 and received his law degree four years later from the University of Maryland Law School. During World War II, Senator Malkus served in the U.S. Army and rose to the rank of major. He returned to Maryland and in 1947 won a seat in the House of Delegates.

He was, Mr. Speaker, an unforgettable individual who was a wonderful servant to Maryland and America. To know Fred Malkus was

to know how deeply he cared for rural America and more specifically for the Chesapeake Bay region. Senator Malkus was at the forefront of the fight to save the Bay. Even though he was pro-business in his views, he was a great environmentalist. His legacy will no doubt live on and serve as a model for future leaders of our State and our Country.

Senator Malkus is survived by his wife of 41 years, the former Margaret "Maggie" Moorer, his son, Frederick C. Malkus III, two daughters, Margaret Elizabeth "Betsy" LaPerch, and Susan Moorer Malkus, and three grandsons.

HONORING JACK A. BROWN III

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. TOWNS. Mr. Speaker, I want to recognize the achievements of Jack A. Brown III.

Jack is a native New Yorker who was born and raised on the lower east side of Manhattan. He currently resides, in my district, in the Clinton Hill section of Brooklyn. Jack has had a distinguished seven-year career with the Correctional Services Corporation (CSC). The Corporation is a private company contracted by local, State, and Federal Corrections Department to provide concrete services to the inmate population. As the Vice President of Correctional Services Corporation Community Services Division, Mr. Brown maintains overall responsibility for the day to day operations of the five New York programs. These programs, three for the Federal Bureau of Prisons and two for the New York State Department of Corrections, are designed to provide inmates with the tools necessary to successfully reintegrate back into their prospective communities as self-sufficient, responsible, law abiding citizens.

Prior to his employment with CSC, Jack served as an officer in the United States Army's Air Defense Artillery Division for four years. He is a graduate of the State University of New York at Buffalo with a Bachelor's degree in Human Services, with a concentration in mental health, and Biology. During his academic years, he gained invaluable experience in the field of human services holding positions as Psychiatrics Counselor, Chemical Dependency Counselor and Youth Counselor. In December, Jack expects to earn a double Masters degree, an MBA and a Master of Science and Economic Development, from the University of New Hampshire.

I wish Jack Brown success in his future endeavors and I commend his achievements to my colleagues' attention.

TRIBUTE TO NATIONAL WOMAN'S CHRISTIAN TEMPERANCE UNION

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. BURTON of Indiana. Mr. Speaker, on November 18, 1999, the National Woman's

Christian Temperance Union (WCTU) will celebrate 125 years in existence, making it the oldest, continuing, nonsectarian Christian woman's organization in the United States. Their motto is "For God and Home and Every Land."

Directed entirely by women from its beginning, the WCTU has united women from various backgrounds and geographical regions in their determination to educate the world about the dangers associated with the use of alcohol, tobacco, and other drugs. Throughout the years, the WCTU has advocated for universal voting rights for women and minorities, the eight-hour work day, equal pay for equal work, opposition to child labor, shelters for abused women and children, and world peace. In 1945, the WCTU became a charter member of the United Nations Non-Governmental Organizations (NGO).

Their first National president, Annie Wittenmyer, was thanked by Presidents Abraham Lincoln and Ulysses S. Grant for her work during the Civil War in organizing diet kitchens in military hospitals. Their second National president, Frances E. Willard, was honored in 1905 by having her statue placed in the Statuary Hall of the U.S. Capitol—the first woman and the only woman to be honored for more than 50 years. The current National president of the WCTU is Sarah Ward, a resident of the great State of Indiana, and I wish her all the best in her endeavors with the WCTU as they continue their good work for the protection of the home.

A TRIBUTE TO JENNIFER MUMMERT

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. LEWIS of California. Mr. Speaker, I would like today to pay tribute to Jenny Mummert, a hardworking, highly valued staff member of the Defense Subcommittee of the House Appropriations Committee, who is leaving November 19th after eight years to pursue her career in the private sector.

Whether she was putting in long days and endless hours working on behalf of our national defense—or struggling to look serious at the Paris Air Show—Jenny Mummert couldn't help being her ever-positive self. She has always been a vital member of the team, doing all she can to make the defense appropriations subcommittee the best committee in the House of Representatives.

Now she has decided to leave us to seek new challenges and opportunities. But she will always be a part of our family. We know that her husband, Joe, and their four children, Joey, Kandyce, Kevin and Karley, are excited about her new career. But they are very likely just as excited about the prospect of mom having a more normal work schedule.

Mr. Speaker, I ask you and my colleagues to join me in wishing all the best for Jenny in her new endeavor, and to let her know that we will miss her every day and will always be grateful for what she's done for the Congress and our national defense.

THE BOOKER T. WASHINGTON LEADERSHIP INSTITUTE AT HAMPTON UNIVERSITY

HON. ROBERT C. SCOTT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. SCOTT. Mr. Speaker, I am pleased today to introduce "The Booker T. Washington Leadership Act of 1999". This legislation will establish the Booker T. Washington Leadership Institute at Hampton University in Hampton, Virginia.

Booker T. Washington is perhaps the most renowned alumnus of Hampton University. His vision championed the idea that black colleges and universities should embrace the responsibility not only to train men and women in their disciplines and trades, but to create and sustain new institutions and communities driven by the principle of service—service to God, country, and humankind.

The mission of this Institute reflects this vision. It is based on Hampton University's fundamental premise that leadership development is best understood and achieved in the moral context of social responsibility and service to society. The Institute will be committed to the development of ethical values, interpersonal skills and the competencies that are required for effective leadership in a broad range of business, civic and political environments.

Hampton University is uniquely prepared to launch this Institute. For the past 130 years, Hampton University has promoted higher education and positive character development as the cornerstones of effective leadership and responsible citizenship. Initially founded in 1868 to train promising young men and women to teach and lead their recently emancipated people, it has grown into a comprehensive university, offering a broad range of technical, liberal arts, pre-professional, professional and graduate degree programs. Over the past twenty years, Hampton University has doubled the student population from 2,700 to 7,000, and the average student SAT score has increased by 300 points. Forty-five academic programs have been added, including graduate degree programs in Business Administration, Museum Studies, Applied Mathematics and Chemistry, with PhD programs in Physics, Pharmacy, Physical Therapy and Nursing. Over 40% of Hampton University graduates enter graduate school within 5 years.

The Booker T. Washington Leadership Institute combines the heritage of Hampton University with the vision of Booker T. Washington, to educate young people with the knowledge, skills, insights, and positive values necessary for leading the United States into the new millennium.

Mr. Speaker, I submit the Booker T. Washington Leadership Act for my colleagues consideration.

SENSE OF HOUSE REGARDING
DIABETES

SPEECH OF

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Mr. KLECZKA. Mr. Speaker, I am proud to be a cosponsor of this important resolution expressing our continued commitment to the fight against diabetes.

Diabetes is one of the most costly health problems in America. More than 1 out of every 10 health care dollars in the United States, and about 1 out of every 4 Medicare dollars is spent on care for people with diabetes.

The devastation caused by diabetes, however, goes far beyond the financial costs. Over 16 million Americans suffer from this chronic disease for which there is no cure. Diabetes is the seventh leading cause of death in the United States.

While over 10 million Americans know that they are living with diabetes, another 5.4 million people are not even aware that they have the disease. Many people only realize that they have diabetes when they develop a life-threatening complication like blindness, kidney disease, nerve damage, heart disease or stroke.

Early diagnosis and treatment can help reduce the risk of these terrible complications. I am pleased to note that constituents in my district have access to a number of outstanding diabetes education programs, including those at the Children's Hospital of Wisconsin, Clement J. Zablocki VA Medical Center, Columbia Hospital, Froedtert Memorial Lutheran Hospital, St. Francis Hospital, St. Luke's Medical Center, Waukesha Memorial Hospital, and West Allis Memorial Hospital. The resolution before us today recognizes the important role that these dedicated health professionals and volunteers play in the fight against diabetes.

Mr. Speaker, these health providers and their patients need our help. Improvements in technology and the general growth in scientific knowledge have created unprecedented opportunities for advances that might lead to better treatments, prevention, and ultimately a cure. Congress has a responsibility to support this critical, life-saving research. I urge my colleagues to support this resolution and affirm their commitment to find a cure for diabetes.

IN RECOGNITION OF JOHN P.
POWELL**HON. BOB RILEY**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. RILEY. Mr. Speaker, I rise today to recognize John P. Powell, who was honored on November 14, 1999, at the official dedication of the newly named J.P. Powell Middle School in Chambers County, Alabama.

John P. Powell was born in Chambers County, Alabama, on September 13, 1912. After graduating from Florida A&M University,

he began his teaching career at Langdale School in 1949. On September 24, 1954, he became the principal of the Chambers County Training School (renamed Southside Elementary School during the 1970-71 school year) and remained its principal for 27 years until his retirement on May 28, 1976. The Chambers County Board of Education by official action renamed the school, now a middle school for grades 6-8, in Professor Powell's honor on May 19, 1999.

During his career and after his retirement, Mr. Powell was active in the Lafayette, Alabama, community. He served on the Chambers County Industrial Board and was active in the Chambers County Extension Service. His community involvement included the Red Cross, the United Givers Fund, Powell Chapel United Methodist Church, the Chambers County Retired Teachers organization and senior citizens' groups. Even now, at the age of 87, Professor Powell is president of the Birmingham Rehabilitation Center where he resides.

In 1991, the Lafayette City Council proclaimed John Powell Day in Lafayette. In the resolution issued, Mr. Powell was commended for his community involvement and his leadership, particularly in the fields of education, industry and race relations. Now, once again, he is being recognized for what he has done to promote respect between races and the value of education for his students. Most important, however, he is recognized for his life-long commitment to public service.

I join the residents of Chambers County in thanking John P. Powell and saluting him on this special day of recognition.

CONDEMNING ARMENIAN
ASSASSINATIONS

SPEECH OF

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Mr. KING. Mr. Speaker, I rise today to express my concern about the violence that recently took place in Armenia. The Prime Minister and the Speaker of the Parliament, as well as other prominent Armenian politicians, were killed in a hail of gunfire on the floor of the Armenian Parliament.

Besides my deep concern and sympathy for the individuals who were brutally murdered and for their families and friends, I fear that this event could cause a delay or postponement of the peace talks currently underway between Armenia and Azerbaijan. Thankfully, both governments have stated that the peace process will not be interrupted by this tragic event.

Armenia should step up its efforts to push the peace process along. The conflict between Armenia and Azerbaijan has been going on for 11 years now, and more than 30,000 people have been killed and over a million refugees created on both sides, including over 800,000 in Azerbaijan. It is time to reach a peace agreement, and Presidents Heydar Aliyev of Azerbaijan and Robert Kocharian of Armenia have met four times in recent months to discuss such a settlement.

As original sponsor of legislation designed to repeal Section 907 of the Freedom Support Act, I would like to draw your attention to a statement in the New York Times, that appeared on November 3, urging to lift "the ban on giving Azerbaijan the same kind of economic assistance that it provides to all other former Soviet republics. This would serve both to recognize the risks that Heydar Aliyev, Azerbaijan's President, has taken for peace and begin to bring about more realistic attitudes in Armenia. If we are to be an effective broker, we must adopt a balanced approach."

PERSONAL EXPLANATION

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. ORTIZ. Mr. Speaker, during the following rollcall votes, I was unavoidably detained. Had I been present, I would have voted as indicated below.

Rollcall No. 587, "yes"; rollcall No. 588, "yes"; rollcall No. 589, "yes"; rollcall No. 590, "no"; rollcall No. 591, "yes"; rollcall No. 592, "yes"; rollcall No. 593, "yes"; rollcall No. 594, "yes"; rollcall No. 595, "no".

A PROPOSAL TO GUARANTEE
HEALTH INSURANCE TO EVERY
AMERICAN CHILD BORN IN THE
NEXT CENTURY: SEEKING IDEAS
AND COMMENTS ON THE PRO-
POSAL**HON. FORTNEY PETE STARK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. STARK. Mr. Speaker, it is a national disgrace that 11.1 million children in the United States still do not have health insurance as we enter a new millennium.

What we have done so far has not worked. Since 1996, the numbers and percentages of children without insurance have actually crept upward. They have not yet reached a statistically significant degree of increase, but we are moving in the wrong direction.

The web of programs we pieced together in 1997, CHIP/Medicaid/transitional Medicaid, are failing to get health insurance coverage to more children.

We need to come back to this question, and find something that will work. America's children deserve health insurance.

I have begun to develop a bill to address this problem, currently in a rough draft form, which is based on the idea that we need a simple and comprehensive solution:

We want every child in America to have health insurance.

Every child in America is issued a birth certificate and social security number at birth. Let's automatically enroll every child at birth into a Medicare-type program; call it "MediKids."

MedKids will be both an umbrella and a safety net for all of the other programs insuring our children, so that no child will ever fall

through the enrollment cracks again, much less 11.1 million children.

Our current approach places the burden on already disadvantaged parents. State and local enrollment and welfare workers are unable to determine which families match various programs—much less process pages of forms and documentation in order to enroll children in health insurance.

Instead, I propose we do what's right, sensible, and directly accomplishes the goal of health insurance for all of our children: (1) Enroll every child in MediKids automatically at birth; and (2) allow parents who do have other choices for a child's health insurance to attach evidence of coverage to their tax forms, thus exempting themselves from the premiums used to finance MediKids.

Children are relatively inexpensive to insure, but this program will have a budget impact. I am developing a plan for covering the costs of this program. Ultimately, however we pay for it, we must make the stand that some things are worth spending money on, particularly in this time of unprecedented, record-breaking economic growth.

My staff and I will be refining this bill over the holiday recess. For example, we will want to adjust the MediKids program to cover the specific services which children need. As our work progresses, we will be posting our drafts on our website, <http://www.house.gov/stark> and we invite everyone to visit the site and offer their input.

We plan to introduce this bill at the start of the next Congressional session—the first of the new millennium. I invited all of my colleagues, and everyone in America who cares about the health of our children, to join us in developing this idea, and to co-sponsor this important effort to get every millennium baby off to a good start.

IN HONOR OF THE PANPAPHIAN
ASSOCIATION AND SAVAS C.
TSIVICOS

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mrs. MALONEY of New York. Mr. Speaker, I rise today to pay special tribute to the Panpaphian Association, its members, friends and special honoree, this year, Savas Tsivicos.

The Panpaphian Association was founded in 1987, by a group of Cypriot-Americans of Paphian ancestry in order to encourage and help promote awareness of the customs and traditions of the region of Paphos and Cyprus. It is a vital philanthropic organization concerned with education, the health and well-being of students from the United States and Cyprus, and the liberation of Cyprus from the Turkish invasion of 1974.

This year's honoree, Savas Tsivicos, exemplifies the honorable characteristics of the people from Paphos. He came to the United States in 1982 from a farming community in the village of Inia to live the "American Life." His life embodies the dreams, hopes and aspirations of thousands of immigrants who arrive

in the United States to construct a decent life. Mr. Tsivicos holds a Bachelor's Degree and MBA from Fairleigh Dickinson University and a Masters Certificate from George Washington University, where he received numerous scholastic awards and honors.

Mr. Tsivicos has also become an outspoken community leader. He serves on the Ethnic Advisory Council of New Jersey and he has been elected President of the Cyprus Federation of America. He is a member of the Archdiocesan Council of the Greek Orthodox Church of America and is an Archon of the Ecumenical Patriarchate. Mr. Tsivicos is on the Advisory Board of the Center for Byzantine and Modern Greek Studies of Queens College, and on the Board of Directors for the Foundation of Hellenic Studies, the Greek American Chamber of Commerce, and the Council of Overseas Cypriots.

Savas Tsivicos is a proud American who has not forgotten his roots. He is imbued with determination to bring justice and freedom to Cyprus and has served as Vice President of the International Coordinating Committee Justice for Cyprus. A very successful businessman, Mr. Tsivicos is president and owner of Paphian Enterprises, Inc. He is married to Maria Tsivicos and they have three children, Haralambos, Elpetha and Evangelos ages 11, 9 and 6.

The Panpaphian Association is now led by Florentia Christodoulidou, and supported by: George Sophocleous, Debbie Riga Evangelides, Spyros Stylianou, Michael Hadjiloucas, Kyriaki Christodoulou, Irene Theodorou, Andreas Pericleous and George Theodorou, plus the Advisory Board, Stavros Charalambous, Annoula Constantinides, Andreas Chrysostomou, Anna Chrsostomou, Savvas Konnaris, Georgios Kouspos, Chrusi Kleopas Notskas, Ismini Michaelides, and Evan Tziatzas.

Mr. Speaker, I salute Mr. Savas Tsivicos and the work of the officers and friends of the Panpaphian Association of America.

1999 INTERNATIONAL PRESS
FREEDOM AWARDS

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mrs. MORELLA. Mr. Speaker, I want to congratulate this year's recipients of the 1999 International Press Freedom Awards, presented by the Committee to Protect Journalists (CPJ).

CPJ was founded by American journalists in 1981 to defend the "human and professional rights of journalists around the world." CPJ works to protect reporters who are threatened by authoritarian regimes and other foes of accurate, independent journalism. Its annual awards honor those journalists working under the most onerous of conditions.

This year's honorees, who have been beaten, jailed, or had their lives threatened because of their work, will receive their awards at a ceremony in New York next week. I join CPJ in congratulating: Jesus Joel Diaz Hernandez, who is serving a four-year prison sen-

tence in Cuba for starting an independent news agency; Baton Haxhiu, editor of Kosovo's leading independent newspaper, "Koho Ditore," which he continued to publish from exile after eluding Serbian police; Jugnu Mohsin and Najam Sethi, publisher and editor of "The Friday Times" of Lahore, Pakistan—last spring, Sethi was beaten, abducted, and jailed after the paper published charges of government corruption; and Maria Cristina Caballerio, a reporter for Colombia's "Semana," who received frequent death threats as a result of her work covering the country's civil war.

Mr. Speaker, too often we take a free press for granted. CPJ and this year's honoree's remind us that press freedoms are vital to the functioning of democratic government and that journalists often risk their lives to assure that the rest of us know the truth.

EXPRESSING SUPPORT OF CON-
GRESS FOR RECENT ELECTIONS
IN REPUBLIC OF INDIA

SPEECH OF

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Mr. ACKERMAN. Mr. Speaker, I rise in support of H. Con. Res. 211. First let me thank Mr. GEJDENSON, Mr. LANTOS, Mr. BROWN, and Mr. HASTINGS for co-sponsoring this resolution.

Mr. Speaker, the contrasting events in India and Pakistan over a single 24 hour period speak eloquently about the new challenges and opportunities that we face in South Asia. In India, we have seen hundreds of millions of voters enthusiastically exercise their votes in a free and fair election. In Pakistan, we witnessed a military coup.

This resolution, Mr. Speaker, recognizes that the people of India have a deep and abiding commitment to democracy and it salutes them for the passion with which they choose their own destiny. No country reflects our own values more in that part of the world than does India.

It is high time we seriously begin to recognize this fact and graduate from mere platitudes to some tangible policy changes toward India.

I believe that it is time to re-examine our basic premise regarding U.S. policy in South Asia. We should abandon old paradigms and Cold War hangups and see that India, a democracy, is our natural ally in the region.

The best way to demonstrate our commitment to the people of India is by ensuring that the President travels to India as soon as possible, as the resolution urges him to do.

I urge my colleagues to support the resolution.

November 18, 1999

CONFERENCE REPORT ON H.R. 2116,
VETERANS MILLENNIUM HEALTH
CARE AND BENEFITS ACT

SPEECH OF

HON. MICHAEL F. DOYLE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, November 16, 1999

Mr. DOYLE. Mr. Speaker, I rise today to speak about the final version of legislation that deals with a comprehensive and complex set of veterans' healthcare and benefits issues. Without question, this conference report on H.R. 2116, the Veterans Millennium Health Care and Benefits Act, deals constructively with a significant portion of the substantive matters considered at length by the Veterans Affairs Committees in both the House and the Senate.

I want to recognize the efforts of Senator SPECTER, Senator ROCKEFELLER, Senator STUMP, and Ranking Member EVANS for their demonstrated leadership in crafting collaborative compromises in the most productive manner as the conference allowed.

This agreement makes significant steps forward in defining the VA's mission in a number of critical health care areas: Extended care, emergency services, mental health services, and chiropractic treatment to name a few. This agreement also moves in the right direction in terms of addressing the lingering need for additional national veterans cemeteries and long-term care facilities, as well as needed renovations at various VA medical centers.

This agreement also provides constructive direction in the areas of veterans' education and housing, in meeting the needs of homeless veterans, and improving the administrative structure of the court of appeals for veterans claims.

I am disappointed however, that many of the provisions that were originally included in the House version of the bill pertaining to employee and veterans organizations participation in various VA decision-making and planning practices were not made part of this final package. I also think that the conference could have produced a better work product in terms of providing strong language that speaks to the need for cost-benefit analysis, employee protections, stringent hospital closure guidelines, and heightened oversight measures throughout the entire VA network. Inclusion of such provisions would have greatly improved the agreement's overall intentions and would have made them less susceptible to inconsistent treatment system wide.

So in summary, while the conference agreement is not a perfect piece of legislation, it is nonetheless worthy of members' support. And as Representative EVANS pointed out earlier, the conference agreement in many ways represents the need to demonstrate our concerted interest in reaffirming our commitment to our nation's veterans. But as I have repeatedly stated, the most well intentioned efforts in terms of authorizing language are only as good as the amount of adequate funding that is appropriated. I have very serious concerns that next year we will find ourselves in the same vicious circle of logical debate. And the circle begins and ends with the need to have

EXTENSIONS OF REMARKS

adequate resources to sufficiently support our responsibilities in meeting the needs of our veterans.

It is my hope that all members who cast their vote in support of the conference agreement will maintain their focus on veterans issues so that in the next fiscal year we can reverse the course we have been on for far too long and begin our work on matters concerning veterans with enhanced resources, not severe budgetary cuts.

TRIBUTE TO COLONEL HARRY
SUMMERS

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. SKELTON. Mr. Speaker, Colonel Harry G. Summers, Jr., United States Army, died this week. In his passing, the Army and the Nation have lost a soldier and scholar, who ranks among the preeminent military strategists and analysts of this century.

As an Army officer, who began his professional life as an enlisted soldier, and later as a military analyst, author and commentator, Colonel Summers knew personally the bayonet-point reality of war and thought and wrote widely about strategic issues. He was a decorated veteran of combat in Korea and Vietnam, awarded the Silver Star and the Bronze Star for Valor, and the Legion of Merit; twice awarded the combat infantry badge; and twice awarded the Purple Heart for wounds received in combat.

An infantry squad leader in the Korean conflict, he served as a battalion and corps operation officer during the Vietnam war, and later as a negotiator with the North Vietnamese in Saigon and in Hanoi. Instructor of strategy at the U.S. Army Command and General Staff College, he was a political-military action officer on the Army General Staff, a member of the then Army chief of staff Creighton Abrams' strategic assessment group, and served in the Office of the Army Chief of Staff from 1975 to 1980, before joining the faculty of the U.S. Army War College.

At the war college, Colonel Summers was at the heart of the rebirth of strategic studies in the professional military education of our Armed Forces in the early 1980's. His book *On Strategy: The Vietnam War in Context* provided a critical strategic appraisal of American strategy in that war and a seminal American work in the relationship of military strategy to national policy. *On Strategy* has been characterized as being "about" the Vietnam war in much the same way that Clausewitz is "about" the Napoleonic wars or that Mahan is "about" 18th-century naval struggles between France and England. That is, Harry Summers used the Vietnam war as a vehicle for analysis and illustration of principles of war that apply universally.

After his retirement from active service, Harry Summers continued to contribute to the professional development of the officer corps and to the development of strategic thought and military strategy as a lecturer, visiting professor, columnist, editor, and commentator.

30821

When Harry Summers testified before the House Armed Services Committee in December 1990 before Operation Desert Storm, he reemphasized the need for clarity of purpose and the relation of means to objective as this House wrestled with the decision to go to war against Iraq and commit U.S. military forces to protect the vital interests of the United States. He appeared before the committee again as we reviewed what happened to U.S. forces in Somalia in 1994 and provided valuable insights on the relation of military force and commitment to our national objectives and commitment in that country.

Harry Summers was justifiably proud of his sons and their service as Army officers and of his daughter-in-law who served as a warrant officer in the Persian Gulf War. In all this, he was supported by his wife, Eloise. My good friend, Floyd Spence, the chairman of the House Armed Services, joins me in sending our sympathies to them at this time.

Colonel Harry Summers made a tremendous contribution to the rebirth of the study of military strategy and to the professional military education of our armed forces, and that legacy lives on after him. His commitment to the Nation and the Army that he loved was unstinting. The Nation and the Army are poorer for his passing.

IN HONOR OF MS. JAMILA DEMBY,
NCAA WOMAN OF THE YEAR

HON. DOUG OSE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. OSE. Mr. Speaker, it is with great pride that I rise to acknowledge University of California Davis student, Jamila Demby, who was recently named NCAA Woman of the Year.

Ms. Demby, the first UC Davis athlete to earn this NCAA honor, was selected as a national finalist from among 50 state winners. Representing California, she was one of two Division II finalists.

It was a perfect ending to a perfect career at UC Davis. A seven-time All-American, Ms. Demby won eight conference championships in four years. During last year's California Collegiate Athletic Association championships, Ms. Demby established a new UC Davis 800-meter record of 2 minutes, 10.8 seconds. In addition, she ran the final leg of the 4400 relay team, which set a UC Davis record of 3:45.33.

In addition to her athletic achievements, Ms. Demby has been active in student and community activities. In addition to serving as a UC Davis Aggie team captain and sitting on the student-athlete advisory committee, Ms. Demby finds time to regularly visit children at the Shriner's Hospital and tutor at local schools. In fact, her work with children has become such an influential experience that she changed her career path from advertising to serving underprivileged and underrepresented youth.

As NCAA Woman of the Year, Ms. Demby was chosen from a group of highly accomplished women. Ms. Demby will graduate from UC Davis this December with a degree in rhetoric and communications and will continue to give back to her community.

In closing, I would like to congratulate Ms. Demby for a job well done.

FEDERAL GOVERNMENT'S OBLIGATION TO THE STATE OF LOUISIANA

HON. CHRISTOPHER JOHN

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. JOHN. Mr. Speaker, I rise today to introduce a bill with Mr. TAUZIN and the entire Louisiana congressional delegation that will bring closure to an issue that has lingered long enough concerning our home State of Louisiana. Mr. Speaker, the State of Louisiana and the Federal Government have a long history of working together to develop our abundant natural resources in a cooperative manner that protects our unique habitat and spurs economic development. I am pleased that we have been able to rectify our differences when they occur in order to reach sensible and judicious decisions that foster goodwill and the efficient use of our resource base.

Mr. Speaker, there remains before this House an obligation on the part of the Federal Government to satisfy an authorization that was included in the Oil Pollution Act of 1990. This authorization was crafted to resolve a unique dispute between the State of Louisiana and the Federal Government over the development of the oil and gas resources on the Outer Continental Shelf. Unfortunately, this authorization has never been satisfied and my home state has lost literally millions of dollars as a result.

Today, I am joined by members from Louisiana, Texas, New York and Pennsylvania in introducing legislation directing the Minerals Management Service (MMS) to grant the State of Louisiana and its lessees a credit in the payment of Federal offshore royalties to satisfy the authorization contained within the Oil Pollution Act of 1990 for oil and gas drainage in the West Delta Field.

I will be brief with the history of this matter, but I feel compelled to clarify for all our colleagues why the language contained in OPA must be satisfied both out of concern for the treatment of the State and for the protection of our coastal environment.

In November of 1985, the State of Louisiana began to notify the MMS that a federal lessee was draining the West Delta Field at the expense of the State and its lessees. The Governor made this request based on the entire history of cooperative development agreements between the State and Federal government. The State sought to "unitize" the field by allocating the appropriate shares of the field's resources to each lessee. Unitization is standard practice in cases where multiple producers share common reservoirs. Much to the State's amazement, officials at MMS disagreed with the State and the entire Louisiana congressional delegation regarding the need and availability of relief for the State.

In order to bring some unbiased perspective to the debate, the Congress authorized an independent fact finder to review the situation and to determine if unauthorized drainage oc-

curred and to what extent, if any, loss had been identified. In 1988, the Congress, in the Interior Appropriations Act for FY89, authorized the Secretary of the Interior to appoint an independent fact-finder to determine if Louisiana had been drained of its gas and oil reserves and, if so, the market value of those confiscated reserves.

That independent fact finder reported to Congress in 1989 that drainage had indeed occurred and quantified the resulting loss. At that point, the congressional delegation sought and obtained an authorization of appropriations for compensation that matched the determination of the fact finder. It is important to note that during the 4-year period of study, the federal lessee continued to drain the sacred reservoir and actually continued to drain the field until the Federal wells ceased producing in 1998.

Why is that important to note? Because the State is seeking compensation only for the drainage that can be empirically determined by the fact finder's report for those initial 4 years. All drainage that occurred for the next decade has basically been written off by my State although they would have every right to seek their share of those revenues siphoned by the Federal Government. In short, my State is knowingly leaving money on the table in order to make a good faith effort to resolve this issue.

In addition, we believe it is important to point out that satisfying this obligation in no way opens the doors to a myriad of similar demands on the Federal budget. From early on, the uniqueness of this situation was recognized when the Department of Interior wrote to then-Senator Johnston on September 19, 1991, that "To the best of our knowledge, the West Delta dispute is the only (emphasis added) situation in which the Department did not agree to unitization, or a similar joint development agreement on the Outer Continental Shelf when requested to do so by the Governor of a coastal State." To verify that this situation is unique, the State of Louisiana thoroughly reviewed its records and has confirmed that there are no other similar cases anywhere along the OCS boundary. In fact, in that same letter the Department wrote, "The Department agrees with your understanding that Section 6004 (c) of the Oil Pollution Act does not create a precedent for the payment of any funds to any parties other than the State of Louisiana and its lessees."

As for the environmental concerns raised by the Federal government's inappropriate actions, the record is clear. In OPA 90, the Congress specifically reiterated the harmful effects of "unrestrained competitive production on hydrocarbons from a common hydrocarbon-bearing geological area underlying the Federal and State boundary." The logic behind this language is simple. Why would we encourage the construction and operation of more oil and gas wells in U.S. waters than are necessary? If a field can be produced with one well, having two only doubles that chances of an accident. The concept is common sense and has been at the root of all Federal and State policies for decades. I see no reason to abandon that intelligent precedent now.

Mr. Speaker, after years of waiting, my State is interested in putting this issue behind

us and moving on. What makes that statement so intriguing is that is the exact line the MMS stated in a letter to the dean of the Louisiana delegation over 9 years ago when they too wrote, "We are also very interested in putting this matter behind us."

Our legislation is simple. It will allow the State and its lessees to recover a portion of what was lost by the unauthorized development of the West Delta Field and will do so in the most benign of methods. The State and its lessees have proposed an alternative method for providing compensation by foregoing payment of federal royalties due by the lessee on other federal leases and distributing those withholdings to the State and lessee until the federal obligation is satisfied. Upon restitution, the lessee will resume their payments to the Federal Government. By withholding royalty payments and sharing those revenues proportionately between the State and its lessees we expect the Federal obligation will be satisfied within 2 to 3 years.

After more than a decade, it is time for the federal government to settle this outstanding obligation and, at the same time, protect the rights of my home State. In addition, we must reaffirm that this Congress does not support policies that may well create precedents that would needlessly and recklessly endanger our coastal environments.

PERSONAL EXPLANATION

HON. JAMES H. MALONEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. MALONEY of Connecticut. Mr. Speaker, yesterday I was unavoidably detained during rollcall vote No. 588.

Had I been present I would have voted yea on rollcall No. 588.

CELEBRATING THE 100TH BIRTHDAY OF MRS. AGNES VENETTA STANDBRIDGE

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Ms. ESHOO. Mr. Speaker, I rise in honor of Mrs. Agnes Venetta Standbridge, who will celebrate her 100th birthday on December 20, 1999.

As a young adult, Mrs. Standbridge observed first hand the effects that both World War I and World War II had on family and friends. She saw the world turned upside down as many of her friends, neighbors and family went off to the trenches in Europe and never returned or returned scarred by injury and the nightmares of battle. During World War II, Mrs. Standbridge was a young mother raising her four children in Lemington Spa near Coventry, England. There, she and her husband, Albert Standbridge did their best to protect their children from the sights and sounds of German aircraft bombing factories in the area. During these tumultuous times

November 18, 1999

she developed a quiet courage and inner strength. By the early 1950's she would need that bravery to confront the passing of her beloved husband at a young age. She never remarried and his memory remains with her today.

Mrs. Standbridge began another memorable chapter in her life when she moved to Northern California and ultimately settled in Mountain View where she has lived for 38 years. Living in beautiful Silicon Valley, Mrs. Standbridge witnessed the world change again—in a far more positive way. The technological revolution that has occurred over the last few decades has made her world and ours, a more prosperous place than ever before.

The events of the 20th Century have had a great impact on Mrs. Standbridge's life and she has been shaped by the relationships of those who hold her dear. Family and friendship flow through her life and have enriched her century of living. She is a great example of resilience and courage. I'm proud to represent Mrs. Standbridge and ask my colleagues to join me in wishing this extraordinary woman a very blessed and a very happy 100th birthday.

EXTENSIONS OF REMARKS

TRIBUTE TO PETER McCUEN

HON. DOUG OSE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. OSE. Mr. Speaker, I rise today with a humble heart to pay tribute to a distinguished leader, a personal friend, and a true pioneer for the city of Sacramento, Mr. Peter McCuen. The city lost one of its great giants on Monday, when Peter succumbed to his third battle with cancer.

More than any other person in the last 20 years, Peter McCuen transformed the landscape of Sacramento and many of those who live in it. We can see the visual legacy he left when we drive through the Highway 50 corridor. The region's most graceful skyscraper and its most visible ziggurat building remind us how integral he was in bringing prosperity to the city.

Peter came to Sacramento in 1980 after having successful careers as a professor at Stanford University and a hi-tech entrepreneur in Silicon Valley. He had planned on retiring in the city. But immediately after he arrived, he saw the many opportunities Sacramento had to offer. He was involved in over 100 development projects, including the Library Plaza, the U.S. Bank Plaza, the Teale Data Building, and

the redevelopment of Mather Air Field. He also played a vital role in brining major corporations like Intel and Sprint to this region, which created thousands of jobs for the people of Sacramento. His impact on the economic development of the Sacramento area is unparalleled.

But for many of us, it is not just the suburban business parks he built or the highrises he helped engineer that touched our lives. It is Peter's unreserved generosity, canny vision, boundless energy and incomparable intellect that make him a truly unique human being.

Peter's philanthropic efforts benefited a long list of causes and groups in the city. His renowned love of arts, education and civic organizations earned him the Regional Pride Excellence Award in 1991. He served on the advisory boards of the Cancer Center at UC Davis Medical Center and both the engineering school and the graduate school of management at UCD. He also served on the advisory board to the president of the Cal State University, Sacramento and the State's Clean Air Partnership.

Peter had a bright vision for our city, and he tried everything in his power to fulfill that vision. Sacramento is a better place because of Peter McCuen. My heart goes out to his wife Susan, his two children, Pamela and Patrick, and the entire McCuen family. Sacramento will miss one of its true leaders.

30823

HOUSE OF REPRESENTATIVES—Friday, November 19, 1999

The House met at noon.

The Reverend Dr. Ronald F. Christian, Chaplain, Lutheran Social Services, Fairfax, VA, offered the following prayer:

Almighty God, we speak our words of gratitude from hearts that sense Your goodness.

You open Your hand and You satisfy the desire of every living thing, and so we raise our thankful song, for again the fall harvest has provided us with granaries that are overflowing.

The good Earth has produced bountiful fruits and seeds, and we are all blessed because of it.

So this day we are a chorus of Your grateful recipients, and we sing as so many have sung through the years.

Now thank we all our God with heart and hands and voices.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Indiana (Mr. PEASE) come forward and lead the House in the Pledge of Allegiance.

Mr. PEASE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed without amendment a concurrent resolution of the House of the following title:

H. Con. Res. 235. Concurrent resolution providing for a conditional sine die adjournment of the first session of the One Hundred Sixth Congress.

The message also announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a joint resolution of the House of the following title:

H.J. Res. 82. Joint resolution making further continuing appropriations for the fiscal year 2000, and for other purposes.

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. PEASE). Under the Speaker's announced policy of January 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

THOUGHTS ON THE FIRST SESSION OF THE 106TH CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. HASTERT) is recognized for 5 minutes.

Mr. HASTERT. Mr. Speaker, as the first session of the 106th Congress concludes, I think it is proper to give this legislative body my thoughts on what the House has accomplished this year and what is left to accomplish next year. Together we have enjoyed many victories and some disappointments.

When I became Speaker last January, the House needed some serious work. The distrust and bitterness and rampant partisanship of both parties threatened to undermine the public support of this House. We had Members who would not even talk to each other, let alone work with one another.

Given that situation, last January in this very spot I said solutions to problems cannot be found in a pool of bitterness. Solutions can be found in an environment in which we trust one another, and we trust one another's word, and where we generate heat and passion, but where we recognize that each Member is equally important to our overall mission of improving the life of America's people.

We have made progress in putting that bitterness behind us, because we decided to go to work. Members of the minority cosponsored six out of the ten top bills introduced by the majority.

Our greatest achievements this year had bipartisan support: The budget bill that we just passed, the Social Security lockbox bill, the appropriations bills, the missile defense bill, the Education Flexibility bill and the Financial Services Modernization Act. Both parties must continue to promote their views and their philosophies, but we must never sacrifice the common good of the American people on the altar of partisan competition.

We have proved that when we work together, we get our work done. This year, we passed the budget on time for only the second time since 1974. By completing our budget on time, we were able to complete all 13 appropriations bills without dipping into the So-

cial Security Trust Fund, doing that for the first time since 1967. For the second consecutive year we passed a balanced budget. That is the first time that has happened since 1960.

The appropriations process was hard work and took longer than I wanted to take, but, thanks to the dogged determination of the gentleman from Florida (Chairman YOUNG) and the ranking member, the gentleman from Wisconsin (Mr. OBEY), and the rest of the Committee on Appropriations, we completed the work of the House; and, by doing so, we made great progress in preparing America for the next century.

We had four goals at the beginning of this Congress: Protect retirement security for the next century, improve national security by bolstering our armed services, reform our education system so that all of our children can go to a good school in a safe environment, and promote economic security and fairness by paying down debt while giving tax relief to American families.

We have made progress in all four areas. Our budget stopped the raid on Social Security for the first time in 30 years. Why do we care so much about protecting Social Security and the surplus? Let me give you three reasons.

First, it helps to strengthen the Social Security system far into the next century. That means baby-boomers can have the peace of mind that Social Security will be there for them.

Second, when we protect the Social Security surplus, we also pay down the Nation's debt. Think about how good you feel when you pay off your home mortgage or your car loan. When we take responsibilities for our Nation's debt, we ease the crippling burden of our debt on our children and our grandchildren. Our budget discipline has allowed our government to make the largest debt reduction payment in the history of this Nation.

Third, when we protect the Social Security surplus, we stop the government's spending spree. We have torn up the government credit card and said that now it is time for a new era of fiscal responsibility.

Retirement security also includes vital programs like Medicare, and I am pleased that we were able to take steps to restore vital funding for Medicare. The health care bureaucrats misinterpreted the Balanced Budget Act guidelines and began slashing Medicare reimbursements to nursing homes, hospitals, and other health care agencies.

We believe that Medicare must be more efficient, yet still responsive to

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

the needs of our citizens. We passed reform that fulfilled those needs and restored funding to the nursing homes and hospitals.

Millions of seniors rely on Medicare every day. Our government must continue to improve and strengthen this lifeline for our seniors. We still have a year left in this Congress, and I hope that the President will work with us to find long-term solutions to the problems that affect the Medicare program.

As important as retirement security is to older Americans, education is vital to the future of all Americans. As a former public schoolteacher, improving education is one of my top priorities.

America's teachers and parents and grandparents have told us that they want the government to help improve the Nation's schools. We have responded by putting education improvement at the top of our agenda, and I am proud to say that we passed more education funding with less strings attached, which ensures that more dollars will go directly to the classroom.

Earlier this year the President signed our legislation that would give more control over education to parents and teachers and local administrators. Although Washington provides only 6 percent of the resources for our Nation's schools, it mandates over 60 percent of the red tape that our schools have to deal with. The Federal Government should be providing a helping hand not a heavier load for our Nation's schools.

We also passed legislation to improve teacher quality, improve student results, and give parents and teachers more flexibility to teach our children. Every child should have the opportunity to go to a school in a safe environment, and we are committed to seeing that those opportunities exist.

Likewise, all Americans must be safe from international threats, and so our Republican majority will continue our commitment to improving the national security.

I am proud to say that we have successfully increased commitment to our men and women in uniform. We have given them a well-deserved pay increase. We have increased defense spending in other areas so that our troops have the resources to get the job done. And why have we made this commitment to our nation's defense? It is a dangerous world out there, and for too many years the administration has been slashing funding for our military, while at the same time asking our troops to serve in more and more dangerous places around the world.

We currently have soldiers and sailors stationed in the Middle East, in Bosnia, in Kosovo, in East Timor and Korea, to name just a few places. Our servicemen and servicewomen spend months away from their families and are poorly compensated for doing so, and, as a result, many of them are

leaving the military. In these good economic times, it is crucial that we increase our military budget to deter hostile or maverick countries and to improve the quality of life for military personnel and their families.

We also passed and the President signed a national missile defense bill that will make our homes and neighborhoods safer. Many hostile nations are developing missile technology that will soon put the United States in harm's way. Fortunately, our missile defense bill makes it a national priority for the United States to develop a missile defense system capable of protecting us from the threat of enemy missiles.

As Americans, our liberty is our most valuable asset, and we must protect ourselves from those who would threaten it. National defense is among the most important roles of our Federal Government. This is why this Congress will continue to support our military and give our troops the funding they need to defend America and her interests.

Finally, we remain committed to providing tax relief to the American people. This is why we sent a fair and responsible tax relief package to the President's desk.

Currently we have a Tax Code that punishes couples for getting married through the marriage tax penalty. We have a Tax Code that punishes people for trying to save for retirement through the capital gains tax. We have a Tax Code that punishes widows through the death tax.

The time has come to get some fairness to the Tax Code. Couples should be able to get married without the fear of higher taxes, the government should be encouraging people to save for retirement, not punishing them, and our tax relief package was responsible because it took money out of Washington and put it back into the pockets of the people who earned it, the American people. It would be irresponsible to leave the whole \$3 trillion surplus here in Washington so that only politicians can spend it.

Our tax relief package kept faith with the balanced budget and it secured \$2.2 trillion for retirement security and for debt relief. As a matter of fact, our budget spends down \$350 billion of national debt this year. Although the President vetoed this common sense proposal, I hope he will work with us next year to provide tax relief to the American people.

We have come a long way since the House first asked me to be the Speaker, but we still have much left to accomplish next year, and we will consider a conservative agenda that makes America a more compassionate place to live.

Earlier this month the President and I went to the South Side of Chicago to promote a plan that we hope will revitalize

America's most impoverished urban and rural communities. It accomplishes this goal through tax incentives, environmental cleanup, and other private sector and public sector partnerships. Coupled with common sense education reform and better crime and drug control strategy, we can make these communities a safer place to grow up and to raise a family.

This is compassionate conservatism. We will push for tax relief for the American family. It is compassionate to put more dollars into the family budget.

We will consider health care legislation that will make HMOs more accountable and health care insurance more accessible.

We will take up a trade bill for Africa and the Caribbean basin. We believe helping these countries help themselves is done more effectively with trade, not necessarily foreign aid.

We will continue to find ways to improve retirement security for our Nation's seniors by addressing the long-term problems that face our Social Security system, our Medicare system, and our pension system. And we will continue to do the work of the House.

As we continue our agenda in the second session of the 106th Congress, we will fight for certain principles. We will fight to keep the Social Security surplus dedicated only to retirement security, we will also continue to fight for the principles of a smaller and smarter government, and we will continue to fight against government waste, unnecessary government power and undue government influence.

Government does have an important role to play in the lives of the American people. It does have a responsibility to secure the freedom and promote the general welfare of its citizens.

But we must remember this: the Government works for the people; the people should not be forced to work for the Government.

I want to thank my colleagues for the great trust that they have placed in me over the course of this session. It is a great honor and privilege to serve as Speaker of the House. I look forward to an even more productive second session.

RECESS

The Speaker. Pursuant to clause 12 of rule I, the Chair declares the House in recess for 5 minutes.

Accordingly (at 12 o'clock and 20 minutes p.m.), the House stood in recess for 5 minutes.

□ 1225

AFTER RECESS

The recess having expired, the House was called to order at 12 o'clock and 25 minutes p.m.

CORRECTING ENROLLMENT OF H.R. 3194, CONSOLIDATED APPROPRIATIONS AND DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 2000

Mr. PEASE. Mr. Speaker, I ask unanimous consent that House Concurrent Resolution 239, directing the Clerk of the House of Representatives to make a technical correction in the enrollment of the bill H.R. 3194, which has been introduced, be considered and adopted.

The Clerk read the title of the concurrent resolution.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The text of House Concurrent Resolution 239 is as follows:

H. CON. RES. 239

Resolved by the House of Representatives (the Senate concurring), That in the enrollment of the bill (H.R. 3194), making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against revenues of said District for the fiscal year ending September 30, 2000, and for other purposes, the Clerk of the House of Representatives shall insert before the comma at the end of section 1000(a)(7) of division B the following: “, except that subsection (c) of section 912 of H.R. 3427 shall be deemed to read as follows:

“(c) ADVANCE CONGRESSIONAL NOTIFICATION.—

“(1) FISCAL YEAR 1998.—Funds made available pursuant to section 911(a)(1) may be obligated and expended beginning on or after December 15, 1999, provided that the appropriate certification has been submitted to the appropriate congressional committees.

“(2) FISCAL YEARS 1999 AND 2000.—Funds made available pursuant to paragraph (2) or (3) of section 911(a) may be obligated and expended only if the appropriate certification has been submitted to the appropriate congressional committees 30 days prior to the payment of the funds”.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

ADJOURNMENT TO MONDAY, NOVEMBER 22, 1999

Mr. PEASE. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at noon on Monday next.

The SPEAKER. Is there objection to the request of the gentleman from Indiana?

There was no objection.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

The following Member (at his own request) to revise and extend his remarks and include extraneous material:

Mr. HASTERT, for 5 minutes, today.

ADJOURNMENT

Mr. PEASE. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 26 minutes p.m.), under its previous order, the House adjourned until Monday, November 22, 1999, at noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

5471. A letter from the Executive Director, Committee For Purchase From People Who Are Blind Or Severely Disabled, transmitting the Committee's final rule—Procurement List Additions—received November 18, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Government Reform.

5472. A letter from the Director, Office of Procurement and Assistance Management, Department of Energy, transmitting the DOE's 1999 list of government activities not inherently governmental in nature; to the Committee on Government Reform.

5473. A letter from the President and Chief Executive Officer, Overseas Private Investment Corporation, transmitting a report on the FY 1999 activities of the agency's formal management control review program, pursuant to 5 app.; to the Committee on Government Reform.

5474. A letter from the Board Members, Railroad Retirement Board, transmitting the Board's commercial activities inventory; to the Committee on Government Reform.

5475. A letter from the Inspector General, Social Security Administration, transmitting the Administration's inventory of commercial activities; to the Committee on Government Reform.

5476. A letter from the Director, Fish and Wildlife Service, Department of the Interior, transmitting the Department's final rule—Endangered and Threatened Wildlife and Plants; Determination of Endangered Status for the Plant *Lesquerella thamnophila* (Zapata Bladderpod) (RIN: 1018-AE54) received November 15, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

TIME LIMITATION OF REFERRED BILL

Pursuant to clause 5 of rule X the following action was taken by the Speaker:

H.R. 1838. Referral to the Committee on Armed Services extended for a period ending not later than November 22, 1999.

H.R. 3081. Referral to the Committee on Education and the Workforce extended for a period ending not later than November 22, 1999.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. ACKERMAN (for himself, Mr. KING, Mr. WEINER, Mr. FORBES, Mrs. MALONEY of New York, Mr. CROWLEY, Mr. BENTSEN, Mr. CALVERT, Mr. CAPUANO, and Mr. OSE):

H.R. 3511. A bill to prohibit deductions under the Internal Revenue Code of 1986 for payments to Holocaust survivors under certain settlements; to the Committee on Ways and Means.

By Mrs. CHRISTENSEN:

H.R. 3512. A bill to amend title 46, United States Code, to exempt from inspection certain small passenger vessels that operate in waters of the United States only in the Virgin Islands; to the Committee on Transportation and Infrastructure.

By Mr. TALENT (for himself and Mr. THUNE):

H.R. 3513. A bill to provide for grants to assist value-added agricultural businesses; to the Committee on Agriculture.

By Mr. GILMAN (for himself and Mr. GEJDENSON):

H. Con. Res. 239. Concurrent resolution directing the Clerk of the House of Representatives to make a technical correction in the enrollment of the bill H.R. 3194; to the Committee on House Administration.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 230: Ms. PELOSI.

H.R. 939: Ms. MCKINNEY and Mr. WATT of North Carolina.

H.R. 1168: Mr. FOSSELLA, Mr. GILCHREST, and Mr. MCINNIS.

H.R. 1275: Mr. LAZIO, Mr. RANGEL, Mr. CONYERS, Mr. SABO, Mr. WYNN, Ms. PELOSI, Mr. INSLEE, Mr. BILBRAY, Mr. BERMAN, and Mr. HALL of Ohio.

H.R. 1322: Mr. BILBRAY.

H.R. 1606: Mrs. MALONEY of New York.

H.R. 2166: Ms. BERKLEY and Mr. DEFazio.

H.R. 2511: Mr. GOODLATTE.

H.R. 2782: Mr. ROTHMAN.

H.R. 2893: Mr. UDALL of Colorado.

H.R. 2966: Mr. DELAHUNT.

H.R. 3293: Mrs. MCCARTHY of New York, Ms. SLAUGHTER, and Mrs. FOWLER.

H.R. 3405: Mr. FRANKS of New Jersey and Mr. TALENT.

SENATE—Friday, November 19, 1999

The Senate met at 10 a.m. and was called to order by the President pro tempore [Mrs. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Dear God, it is with reverence and commitment that we address You as Sovereign of our lives and of our Nation. You are absolute Lord of all, the one to whom we are accountable and the only one we must please. Our forefathers and foremothers called You Sovereign, with awe and wonder as they established this land and trusted You for guidance and courage. Our founders really believed that they derived their power through You and governed with divinely delegated authority.

In our secularized society, Lord, recall the Senators to their commitment to Your sovereignty over all that is said and done. May this day be a reaffirmation that You are in control and that their central task is to seek and to do Your will. Thank You that this is the desire of the Senators. So speak, Lord; they are listening. Guide, strengthen, and encourage faithfulness to You. In Your holy, all-powerful name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable CHUCK HAGEL, a Senator from the State of Nebraska, led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

Mr. HAGEL. I thank the Chair.

SCHEDULE

Mr. HAGEL. Mr. President, on behalf of the leader, this morning the Senate will consider numerous legislative items that have been cleared for action. Following consideration of those bills, the Senate will resume debate on the final appropriations conference report. Cloture was filed on the conference report yesterday, and it is still hoped that those Senators objecting to an agreement to change the time of the cloture vote to occur at a reasonable hour during today's session will reconsider. However, if no agreement is made, the cloture vote will occur at

1:01 a.m., Saturday morning. Senators may also expect a vote on final passage to occur a few hours after the cloture vote. In addition, the Senate could consider the work incentives conference report prior to adjournment.

Mr. President, I thank you.

I suggest the absence of a quorum.

Mr. REID addressed the Chair.

Mr. HAGEL. Mr. President, I would ask the acting minority leader be recognized.

The PRESIDENT pro tempore. The Senator from Nevada.

BANKRUPTCY REFORM

Mr. REID. Mr. President, I hope in the final hours of the session in the final day we will not forget the progress that has been made on the bankruptcy bill. I spoke to the manager of the bill, the subcommittee chair, late yesterday evening, and he indicated that there was some thought by the Republican majority leadership they would accept the unanimous-consent agreement that I suggested yesterday morning. As I indicated at that time, we have gone from some 320 amendments down to 14, 7 of which have either been accepted or they will be resolved in some manner. We only have seven contested amendments.

I hope we do not lose the initiative that has taken place to this point in the next few hours, or the next few minutes, really, that we could enter into that unanimous-consent agreement so that at such time as we return to the bankruptcy bill, we have a finite number of amendments and can proceed to wrapping that up. I repeat that it is not the minority but, rather, the majority that is holding up this most important bill.

Mr. HAGEL. Mr. President, I note the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

(Mr. HAGEL assumed the chair.)

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a

period for the transaction of morning business.

The Senator from Illinois.

A CHALLENGING SESSION OF THE SENATE

Mr. DURBIN. Mr. President, the Senate, we hope today or perhaps tomorrow, will be bringing this session to a close. It has been a session which has involved some historic decisions by the Senate. Of course, it began with an impeachment trial of the President of the United States, which ended in a bipartisan decision of the Senate not to convict the President. Then, shortly thereafter, we faced a rather historic challenge in terms of our role in Kosovo. So we went from one extreme in the Constitution, involving an impeachment against the President, to the other extreme, where this Senate had to contemplate the possibility, the very real possibility, of war. That is how our session began, at such a high level with such great challenges.

There were so many other challenges that were presented to the Senate during the course of the year. I am sad to report that we addressed very few of them. Things that American families really care about we did not spend enough time on, we did not bring to a conclusion. So, as we return to our homes, States, and communities after this session is completed and we are confronted by those who are concerned about their daily lives and they ask us, What did you achieve during the course of this session? I am afraid there is very little to which to point.

This morning, I received some letters from my home State of Illinois from senior citizens concerned about the cost of prescription drugs, as well they should be, because not only are these costs skyrocketing, but we find gross disparities between the charges for prescription drugs in the United States and the cost of the very same drugs made by the same companies if they are sold in Canada or in Europe.

In fact, in the northern part of the United States, it is not uncommon for many senior citizens to get on a bus and go over the border to Canada to buy their prescription drugs at a deep discount from what they would pay in the United States. That is difficult for seniors to understand; it is difficult for Senators to understand as to why that same prescription drug should be so cheap if purchased overseas and so expensive for American citizens in a country where those pharmaceutical companies reside and do business.

The senior citizens have asked us, as well as their families who are concerned about the costs they bear, to do something. Yet this session comes to an end and nothing has been done—nothing has been done—either to address the spiraling cost of prescription drugs or to amend the Medicare program and to make prescription drugs part of the benefits.

Think about it: In the 1960s, under President Lyndon Johnson when Medicare was created, we did not include any provision for paying for prescription drugs. We considered it from a Federal point of view as if prescription drugs were something similar to cosmetic surgery, just an option that one might need or might not need, but certainly something that was not life-threatening.

Today, we know we were wrong. In many instances, because of the wide array of prescription drugs and the valuable things they can do for seniors, we find a lot of our senior citizens dependent on them to avoid hospitalizations and surgeries and to keep their lives at the highest possible quality level.

Last week, I went to East St. Louis, IL, the town where I was born, and St. Mary's Hospital and visited a clinic. I walked around and met groups of senior citizens and asked them how much they were paying for prescription drugs. The first couple took the prize: \$1,000 a month came in from their Social Security; \$750 a month went out for prescription drugs. Three-fourths of all the money they were bringing in from Social Security went right out the window to the pharmacy.

There was another lady with about \$900 a month in Social Security; \$400 a month paid in prescription drugs.

Another one, about \$900 a month in Social Security; \$300 a month in prescription drugs.

The last person we met, though, told another story. He was retired from a union job he worked at for many years, a tough job, a manual labor job, and he, too, had expensive prescription drugs, but he was fortunate. The union plan helped him to pay for them. Out of pocket, he puts down \$5 to \$15 a month and is happy to do it.

Think of the contrast between \$750 a month and \$15 a month. One can understand why people across America, seniors who want to continue to lead active and healthy lives, have turned to Congress and said: Please, learn from the President's lead in the State of the Union Address that we should have a prescription drug benefit.

This Senate—this Congress—will go home without even addressing that issue. That is sad. It is a reality facing American families. You will recall, as well as I, a few months ago we were all in shock over what happened at Columbine High School with the killing of those innocent students. This Senate made an effort to keep guns out of the

hands of children and criminals with a very modest bill that said if you were going to buy a gun at a gun show, we want to know your background.

The bill passed. It was sent over to the House of Representatives. The gun lobby got its hands on it, and that was the end of it. End of discussion.

As we return home to face parents who say, what have you done to make America safer, to make communities, neighborhoods, and schools safer, the honest answer is nothing, nothing.

Take a look at campaign finance reform. Senator FEINGOLD of Wisconsin is on the floor. He has been a leader on this issue with Senator MCCAIN of Arizona. They had a bipartisan effort to clean up this mess of campaign funding in America. Yet when it came to a vote, we could muster 55 votes out of 100 favoring reform, which most people would say: You have a majority; why didn't you win?

Under Senate rules, it takes more than a majority. It takes 60 votes. We were five votes short. All of the Democratic Senators supported campaign finance reform, and 10 stalwarts on the Republican side came forward. Yet when it was all said and done, nothing was done. We will end this session never having addressed campaign finance reform, something so basic to the future of our democracy.

On a Patients' Bill of Rights, there is a term which a few years ago American families might not have been able to define. I think they understand it now. It was an effort on the floor of the Senate to say that families across America and individuals and businesses would get a fair shake from their health insurance companies; that life-and-death decisions would be made by doctors and nurses and medical professionals, not by clerks at insurance companies. It is that basic. Mr. President, you know as well as I, time and again, a good doctor making a diagnosis, who wants to go forward with a procedure, first has to get on the phone and ask for permission.

I can recall a time several years ago in a hospital in downstate Illinois where I accompanied a doctor on rounds for a day. I invite my colleagues to do that. It is an eye-opener to see what the life of a doctor is like, but also to understand how it has been changed because health insurance companies now rule the roost when it comes to making decisions about health care.

This poor doctor was trying to take care of his patients and do the right thing from a medical point of view, and he spent most of his time while I was with him on the phone with insurance companies. He would be at the nurses' station on a floor of St. John's Hospital in Springfield, IL, begging these insurance companies to allow him to keep a patient in the hospital over a weekend, a patient he was afraid might

have some dangerous consequences if she went home before her surgery—her brain surgery—on Monday. Finally, the insurance company just flat out said: No, send her home.

He said: I cannot do that. In good conscience, she has to stay in the hospital, and I will accept the consequences.

That is what doctors face. Patients who go to these doctors expecting to get the straight answers about their medical condition and medical care find they are involved in a game involving health insurance companies and clerks with manuals and computers who decide their fate.

When we tried to debate that issue on the floor of the Senate, we lost. American families lost. The winners were the insurance companies. They came here, a powerful special interest, and they won the day. They had a majority of 100 Members of the Senate on their side, and American families lost.

Thank goodness that bill went to the other side of the Rotunda. The House of Representatives was a different story. Sixty-eight Republicans broke from the insurance lobby and voted with the Democrats for the Patients' Bill of Rights so that families across America would have a chance. But nothing came of it. That was the end of it. The debate in the House was the last thing said; no conference committee, no bill, no relief, no protection for families across America.

I will return to Illinois, and my colleagues to their States, unable to point to anything specific we have done to help families deal with this vexing problem.

The minimum wage debate is another one. Senator KENNEDY, who sits to my right, has been a leader in trying to raise the minimum wage 50 cents a year for the next 2 years to a level of \$6.15. He has been trying to do this for years. He has been stopped for years. We are literally talking about millions of Americans, primarily women, who go to work in minimum-wage jobs and try to survive. Many of them are the sole bread winners of their families. We will leave this session of the Congress—the Senate and the House will go home—and those men and women will get up and go to work on Monday morning still facing \$5.15 an hour.

In a Congress which could come up with \$792 billion for tax breaks for the wealthiest people in America, we cannot find 50 cents for the hardest working men and women, who get up every single day and go to work, as people who watch our children in day-care centers, as those who care for our parents and grandparents in nursing homes, as those people who make our beds when we stay in hotels, service our tables when we go to restaurants. They get up and go to work every single day. This Senate did not go to work to help those people. We could find tax

breaks for wealthy people, but when it came to helping those who are largely voiceless in this political process, we did nothing. We will return home and face the reality of that decision.

If there is any positive thing that came of this session, it emerged in the last few days. Finally, after an impasse over the budget that went on for month after weary month, the Republican leadership sat down at the table with the President. The President insisted on priorities, and you have to say, by any measure, he prevailed. And thank goodness he did.

Let me tell you some of the things that are achieved in the budget we will vote for. It has its shortcomings—and I will point out a few of them—but it has several highlights.

The President's 100,000 COPS Program across America has had a dramatic impact in reducing violent crime and making America a safer place to live. There was opposition from Republican leadership to continue this program. But, finally, the President prevailed, and we will move forward to send more police and community policemen into our neighborhoods and schools across America to make them safer. That is something achieved by the President, in negotiation with congressional leaders at the 11th hour and the 59th minute.

In the area of education, the President has an initiative at the Federal level which makes sense from a parent's point of view. If we can keep the class sizes in the first and second grade smaller—rather than larger—teachers have a better chance to connect with a child, to find out if this is a gifted child who has a bright future, or a child who needs some special help with a learning disability, or perhaps a slow learner who needs a little more tutorial assistance to get through the first and second grade.

You know what happens when those kids do not get that attention? They start feeling frustrated and falling behind, and the next thing you know, it is even a struggle to stay in school, let alone enjoy the experience and learn from it. The President has said: Let's take our Federal funds, limited as they are, and focus on an American initiative to make class sizes smaller in the first and second grade.

I went to Wheaton, IL, and I saw a class like this. Believe me, it works. Don't take my word for it. Ask the administrators at the school, who applied for it, and the teachers who benefit from it. And the parents are happy that it is there.

The Republican side of the aisle resisted the President's initiative. But thank goodness, in the closing minutes of the negotiations, the President prevailed. Common sense prevailed. And we will continue this initiative to reduce class size.

The way we are paying for some of these things is very suspect; I will be

honest with you. We had this long debate during the course of the year about the future of the Social Security trust fund. Some on the Republican side said: We will never touch it. Well, historically we have touched it many times. The money, the excess and surplus in that fund that is not needed to pay Social Security recipients has been borrowed by President Reagan, President Bush, and President Clinton, with the understanding it would be paid back with interest.

Now that we have gotten beyond the deficit era in America, when we talk about surplus, we hope we do not have to borrow from it in the future. So this year, to avoid directly borrowing from the fund, Republicans argued that they have done some things that are fiscally responsible.

Let me give one illustration. This budget agreement contains \$38 billion for education programs. That is 7 percent, \$2.4 billion, more than last year. However, this increase is due to the fact that the agreement includes \$6.2 billion more in advance appropriations than last year's bill.

What is an advance appropriation? You borrow from next year. You do not take your current revenue; you borrow from next year. So in order to provide more for education, we borrow from next year.

You might assume, then, we are going to have this huge surplus of money from which we continue to borrow. It is anybody's guess. We pass a bill, we appropriate the money, but we cannot account for its sources.

Let me tell you about Head Start.

This is a good story. Head Start is a program created by President Lyndon Johnson in the Great Society. There were people who were critics of the President's initiatives, but Head Start has survived because it is a great idea. We take kids from lower income and disadvantaged families, and bring them into a learning environment at a very early age, put them in something similar to a classroom, and give them a chance to start learning. And we involve their parents. That is the critical element in Head Start.

This budget is going to provide \$5.3 billion—the amount requested by the President—to serve an additional 44,000 kids across America, and to stay on track to serve 1 million children by the year 2002.

Class size reduction, which I have mentioned to you, is one that is very important to all of us. Disadvantaged students—there is \$8.7 billion for title I compensatory education programs. That is an increase of \$274 million, but it is still short of what the President requested.

In special education there is good news. This budget will provide \$6 billion, \$912 million—or 18 percent—more than the fiscal year 1999 appropriations for special ed. In my home State of Illi-

nois, school districts will receive \$227 million, a 62-percent increase since 1997.

Keep in mind these school districts, because of a court decision and Federal legislation, now bring disabled children and kids with real problems into a learning atmosphere to give them a chance. But it is very labor intensive and very expensive. I am glad to see that this budget will provide more money to those school districts to help pay for those costs.

Afterschool programs: We provide \$453 million, an increase of \$253 million, to serve an additional 375,000 students in afterschool programs. How important are afterschool programs? Ask your local police department. Ask the families who leave their kids at the school door early in the morning, and perhaps do not return home from work until 6 or 7 o'clock at night. They have to be concerned about those kids, as anyone would be. And the people in the local police department will tell you, after school lets out, we often run into problems. So afterschool programs give kids something constructive to do after school. I am glad the Federal Government is taking some leadership in providing this.

In student aid, the agreement increases maximum Pell grant awards to college students by \$175, from \$3,125 to \$3,300. Since President Clinton has taken office, we have seen the Pell grants increase by 43 percent.

This is an illustration of things that can be done when Congress works together. But we literally waited until the last minute to consider the education bill in the Senate. What is the highest priority for American families was the lowest priority of the Appropriations Committee. When we wait that long, we invite controversy and delay. Fortunately, it ended well. The President prevailed. These educational programs will be well funded.

Let me tell you of a bipartisan success story: The National Institutes of Health. That is one of the best parts of the bill that we are going to vote on. It receives a 15-percent increase over last year's funding level. The National Institutes of Health conducts medical research. Those of us who are in the Senate, those serving in the House, are visited every single year by parents with children who suffer from autism, juvenile diabetes, by people representing those who have Alzheimer's disease, cancer, heart disease, AIDS. And all of them come with a single, unified message: Please, focus more resources, more money on research, more money on the National Institutes of Health. We increase it this year some 15 percent.

Fortunately, one of the budget gimmicks which would have delayed giving the money to the National Institutes of Health until the last 48 hours of the fiscal year was changed dramatically. Because of that change, we do not believe

there will be any disadvantage to this important agency.

I will give you an example of the life of a Senator and how this agency affects it. A few weeks ago, a family in Peoria, IL, who had a little boy named Eric with a life-threatening genetic disease called Pompe's disease, called my office. Their son's only chance to live was through a clinical trial; in other words, an experimental project at Duke University, which was being sponsored by a private company.

Unfortunately, there were not any additional slots available for Eric in this clinical trial. The company could only manufacture enough of the drug for three patients. Eric would have been the fourth. Eric was denied admission to the trial for this rare disease. Sadly, Eric passed away. Pompe's disease is rare. Children like Eric frequently rely on the Government and its sponsored research for cures because a cure for a rare disease is unlikely to be very profitable for a lot of the pharmaceutical companies. I am glad to salute Senator SPECTER, Republican of Pennsylvania; Senator HARKIN, my Democratic colleague from Iowa; and my colleague from Illinois, Congressman JOHN PORTER, a Republican. They have made outstanding progress in increasing the money available for the National Institutes of Health in this bill.

There is money also available for community health centers. We have talked about a lot of things in this Congress, but we don't talk about the 42 million Americans—and that number is growing—who have no health insurance. Many of these Americans who are not poor enough to qualify for Medicaid and not fortunate enough to have a job with health insurance go to community health centers, trying to get the basic health care which all of us expect for our families in this great Nation. These community health centers serve so many of these people, and they deserve our support. With a 30-year track record of providing quality service to America's most vulnerable, these community health centers need to have our support.

According to congressional testimony by the Health Resources Service Administration, which oversees health center programs, 45 percent of these health centers are at risk financially, 5 to 7 percent close to bankruptcy, and 5 to 10 percent in severe financial trouble. Between 60 and 70 health center delivery sites already have been forced to close their doors. Changes in the Medicaid program have cut the compensation for these centers. The Balanced Budget Act, which was good overall, made some cuts that really have resulted in deprivation of funds. An additional \$100 million to community health centers would provide health care to another 350,000 Americans. It can open up 259 new clinics. This is something we should do.

Let me point to one thing I am particularly proud of in this bill. It is an initiative on asthma. I was shocked to learn of the prevalence of asthma in America today. I was stunned when I learned it is the No. 1 diagnosis of children who were admitted to emergency rooms across America. Asthma is the No. 1 reason for school absenteeism in America. When I asked my staff to research what we are doing to deal with asthma, I found that we did precious little. I started asking my colleagues in the Senate about their concerns over asthma and was surprised to find so many of them who either had asthma themselves or had a member of their family with asthma.

They joined in trying to find a new approach, a new initiative that would deal with this problem. Leading that effort was my colleague from the State of Ohio, Senator MIKE DEWINE. He and I put in an amendment, which was funded in this bill, to provide \$10 million in funding to the Centers for Disease Control for childhood asthma programs.

What is asthma like? I have never suffered from it, thank God. But imagine this illustration: For the next 15 minutes, imagine breathing through a tiny straw the size of a coffee stir, never getting enough air. Now imagine suffering this three to six times a day. That is asthma.

There have been some innovative things that have been done. In Southern California, Dr. Jones, with the University of Southern California, has started a "breathmobile" moving around the areas and neighborhoods of highest incidence of asthma, identifying kids with the problem, making sure they receive the right treatment and that their parents and teachers know what to do. That is what we have to encourage. The \$10 million Senator DEWINE and I have put in this bill for this type of outreach program for asthma can have dramatic positive results.

There is one other thing I will mention. That is a program in which I became interested in 1992. I went to Detroit, MI, and saw an effort that was underway to provide residential treatment to addicted pregnant women. I thought it was such a good program, I asked the directors: Where do you get your Federal funds? They said: We don't qualify for Federal funds. I went back to Washington and put a demonstration project in place so that we could take addicted mothers across America out of their drug-infested neighborhoods, put them in a safe environment, and try to make certain that the babies they would bear would be free from drug addiction.

It was a demonstration project, and it worked—1,500 children in 1994 in America were born drug free because of this program which we started in 1992. We were about to lose it this year. Imagine, we know a drug-addicted baby

is extremely expensive, let alone, perhaps, a waste of great potential in human life. I was able to work with Senators SPECTER and HARKIN to put \$5 million in the bill to expand our current efforts.

I say, in closing, there is one area of this bill I find particularly troubling. In a world which now has 6 billion people, in a world where we see the need for family planning and population control to avoid serious poverty, to avoid environmental disaster, and to avoid wars, the leadership in the House of Representatives and the Senate has turned a blind eye to international family planning. I cannot understand how this Republican Party—not all of them but many of them—can be so insensitive to the need for international family planning. Every year it is a battle. We have to understand that when population growth is out of control in underdeveloped countries, it is a threat to the stability not only of that country, of that region, but of the world and the United States.

We have to follow the lead of President Clinton and many in Congress who have said U.S. involvement in international family planning is absolutely essential. We hear arguments and see amendments offered because there are some who want to make this an abortion issue. The sad reality is that if a woman in a faraway land does not have the wherewithal to plan the size of her family and has an unintended pregnancy, it increases the likelihood of abortion. So family planning, when properly used, will reduce the likelihood of these unintended pregnancies. That is as night follows day, for those who care to even take a look at this policy issue.

I am sorry to report that although we are going to finally pay a major part of our U.N. dues, which has been an embarrassment to many of us for so many years while the Republican Congresses have refused to pay those dues, it was at the price of threatening international family planning programs. The Republican leadership in the House of Representatives insisted, if we are going to pay our U.N. dues, it has to be at the expense of international family planning programs. I think that is extremely shortsighted. I hope the next Congress will have a little more vision when it comes to family planning, when it comes to enacting a treaty, for example, a nuclear test ban treaty. The Senator from Nebraska, who is now presiding over the Senate, is working with Senator LIEBERMAN from Connecticut in an effort to revive that effort as well.

I hope the next session of Congress will be more productive in that area and many others.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. WELLSTONE. Mr. President, will the Senator from Nevada yield?

Mr. REID. Of course.

Mr. WELLSTONE. I ask unanimous consent I be allowed to follow the Senator from Nevada.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, before my friend from Illinois leaves the floor, I want to direct a few questions to him. I appreciate very much the outline of this congressional session made by my friend from Illinois. The Senator from Illinois and I came to the Senate from the House of Representatives. I feel a great affinity for my friend, not only for the great work he does but because we came as part of the same class. I made a number of notations as he gave his speech.

Isn't it about time we updated, revised, modernized Medicare? I say that because it was almost 40 years ago, certainly 35, 36 years ago, that Medicare passed. Almost 40 years ago, 4 decades ago, we didn't have prescription drugs; we didn't have drug therapies that extended lives or made life more comfortable for most people.

I say to my friend from Illinois, isn't it about time Medicare became modern? Isn't it about time senior citizens have a program where they can get an affordable prescription drug program to keep them alive, to keep them healthy?

Mr. DURBIN. I agree with the Senator from Nevada. Isn't it ironic that if you bought a hospitalization policy now, as an employee of a company, you would expect some sort of prescription drug benefit as part of it, that goes along with most policies?

Medicare does not include that. Seniors find themselves at a distinct disadvantage. Many of the seniors I talked to the other day in East St. Louis, IL, had heart problems. Back 35 years ago, we didn't have the wide array of potential prescription drugs to deal with blood pressure problems, for example. Now we do. The fact that these prescription drugs are available means longer and better lives for seniors.

Mr. REID. Also, while we are talking about prescription drugs, I offered an amendment in the Senate, which passed, that said for Federal employees—I tried to broaden it to cover all insurance policies but was unable to do that—health insurance programs, the people who are allowed to get prescription drugs should be allowed to get prescriptions for contraceptives. The reason is that there are 3.6 million unintended pregnancies in the United States and almost 50 percent of those wind up in abortion.

So if people really care about cutting back the number of abortions, we should have prescription drugs available in the form of contraceptives for people. But what the Senator didn't mention is hidden in this huge bill is language to lessen the effectiveness of

this program. For reasons unknown to anyone, other than a way to attempt to help the insurance companies, they have said there is going to be a conscience clause for pharmacists. I say to my friend, I understand there should be a conscience clause for physicians who might prescribe these drugs, but does the Senator see any reason why you should weaken this most important piece of legislation in law and have a so-called conscience clause for pharmacists?

Mr. DURBIN. I do not. I agree with the Senator from Nevada that it is extremely shortsighted. Perhaps we are striking a moralistic pose when we say we are not going to allow prescriptions for contraception. In other words, we will acknowledge all of the other needs a woman may have, but not provide for birth control pills. That seems to me to be out of step with what American families expect us to do. Let them make the decision with their doctor. Instead, we are imposing on them what may be viewed by many as a moralistic point of view that should not be in our province. This is the first I have heard of this conscience clause, where a pharmacist, for example, might refuse to fill a prescription for birth control pills. Under this amendment that is being put in the bill, he or she is not required to do so.

Mr. REID. It is in this bill on which we are going to vote.

Mr. DURBIN. I think it really stretches credibility to think that a pharmacist, in this situation, would be allowed to make that decision and perhaps disadvantage a woman who may not have easy access to another pharmacy.

Mr. REID. The Senator has said it all there. Not everybody lives in metropolitan Chicago, where they can go to two or three different pharmacies within a matter of a few blocks. In some places, there is only one pharmacy.

I also say to my friend it seems unusual—while we are talking about health care—and the Senator did an excellent job in talking about the Patients' Bill of Rights. We passed a patients' non-bill of rights. We passed a bill here that is a bill in name only. If you read the Patients' Bill of Rights, the Senator knows it is not a Patients' Bill of Rights.

It is unusual in this country—and the Senator and I are both lawyers, and I know sometimes the legal profession doesn't have the greatest name, unless you need a lawyer. But in our great society, this country that we admire—and we salute the flag every day—it is interesting that the only two groups of people you can't sue in America are foreign diplomats and HMOs.

Doesn't the Senator think that should be changed?

Mr. DURBIN. I agree completely with the Senator from Nevada. If we did nothing else but change that to say

these health insurance companies could be held liable in a court of law before a jury of Americans for their decisions on health care, it would have a dramatic overnight impact on their decisions also. They would think twice about denying a doctor's recommendation for a surgical procedure or a hospitalization. They would think twice about delaying these decisions.

I have noticed, and I am sure the Senator from Nevada has noticed as well, many times, poor families I represent in Illinois will get into a struggle with an insurance company to try to get help, for example, for a child with a serious illness or disease, and the struggle goes on for months; ultimately, the family prevails; but during that period of time, the poor child is suffering and the family is suffering. I think that giving those families across America the right to sue health insurance companies and saying to the health insurance companies that, like every other business in America, you will be held accountable for any wrongdoing, is just simple justice. To do otherwise is to suggest that we are going to create some special, privileged class of companies and that, literally, the health insurance companies are above the law. That is not America.

Mr. REID. My friend also knows that with part of the public relations mechanisms these giant HMOs have, they are going around saying, well, what these people in Washington want to do—the Congressmen—is allow suits against your employer. Now, the Senator knows that is fallacious. Any litigation that would be directed against the wrongful acts of the entity that disallows the treatment has nothing to do with the employer. Does the Senator understand that?

Mr. DURBIN. That is right. The Senator probably saw the survey that there are people against giving families the right to hold health insurance companies accountable in court, and they say, well, if you work for an employer who provides health insurance, those families may turn around and sue the employer, as opposed to the health insurance company. So we looked at that and did a survey; we investigated. We found out that only in a very rare situation has that occurred. Here is an example.

In one circumstance, the employer collected the health insurance premiums from the employee and then didn't pay the health insurance company. So when the family tried to get coverage for medical care, the next thing that occurred was they found out the premiums had not been paid by the employer. That was the only example we could find. But if the employer picks a health insurance company and they make a decision, we could not find a single case where the employer was held liable because of the health insurance company's bad medical decision.

So that, I think, is a red herring, one that really does a disservice to American families who deserve this right.

Mr. REID. The Senator also gave an example of one of his constituents in Illinois whose child has Pompe's disease, who, as we speak, is not receiving treatment for that.

Mr. DURBIN. The child has passed away.

Mr. REID. He wanted to participate in what is called a clinical trial. Is the Senator aware that HMOs almost universally deny the ability of their enrollees to participate in clinical trials?

Mr. DURBIN. Yes. Frankly, during the course of the debate here, the Senator can remember that when they referred to reputable medical leaders in the United States, such as Sloan Kettering—which is a great institution when it comes to cancer treatment and research and is respected around the world—they said, after their survey, that clinical trials really open the door for new treatments and therapies that, frankly, save us money. They found better and more efficient ways to keep people healthy. Meanwhile, the health insurance companies won't pay for them, and we are literally stopped in our tracks from moving forward with this kind of medical research and clinical trials.

In this case, with this little boy, Eric, who passed away from this disease, he was closed out of a clinical trial. Would he have survived with it? I am not sure, but because of the health insurance company, he never got a chance.

Mr. REID. On the floor today, right next to the Senator, is the Senator from Minnesota, who has been a leader in Congress fighting for the rights of those people who are disadvantaged because of mental disease. Well, there was a big fanfare a week or two ago about some big health entity in the Midwest that had decided they were going to let doctors make the decision, rather than checking them out. They looked on their accounting and found they could spend a lot of money trying to direct care. They said what they are going to do now is let doctors make the decision. What they didn't tell us is that this would not apply to people who had mental disease, who had emotional problems. Is the Senator aware of that?

Mr. DURBIN. I am aware of it. I salute the Senator from Minnesota, my friend, Senator PAUL WELLSTONE, and our colleague, Senator DOMENICI from New Mexico, for their leadership on this issue. It is a classic illustration of another problem facing American families which this Congress has refused to address. The problem is very straightforward.

An internist from Springfield, IL, came to see me and said, "Senator, I am literally afraid to put in a patient's record that I am giving them medica-

tion for depression because the insurance company will then label them as 'victims of chronic depression,' a mental illness, and discriminate against them when it comes to future health insurance coverage."

That is outrageous. Mental illness is an illness, it is not a moral shortcoming. These people can and deserve to receive the very best care. Unless and until the Senator from Minnesota and others of like mind prevail in the Senate and in the House of Representatives, we will continue to discriminate against the victims of mental illness. That is something this Congress can do something about. We will leave here today or tomorrow, again, with that unfinished item on the agenda.

Mr. REID. I also say to my friend that we were here last year wrapping up the congressional session. Is the Senator aware that since that time we have had 1½ million new people in America added to the uninsured rolls?

Mr. DURBIN. The list grows. The Senator from Nevada knows as well as I do that unless and until we face the reality that every American citizen and every American family deserves the peace of mind of health insurance coverage, you will continue to see employers deciding not to offer health insurance protection, and working, lower income people in America will be without the protection of either Medicaid or health insurance at work. These people get sick as other people do. When they present themselves to hospitals, they receive charity treatment which is paid for by everyone, instead of receiving quality health care from the start. Preventive care can avoid serious illness.

Again, it is an issue that this Congress has refused to address.

Mr. REID. I wanted to say this—the Senator has said it, but I want to underline it and make it more graphic. The Senator who is on the floor is the leader for the Democrats. I am the whip for the Democrats. We spend a lot of time here on the floor. Have we missed something? Has the Senator heard any debate dealing with the uninsured in this country?

Mr. DURBIN. No. We haven't missed it, as the Senator from Nevada knows very well. This is the third rail for a lot of politicians around here because you have to start to talk about things that cost a lot of money. Doing nothing costs a lot more money. People get ill, they have to go to the doctor, and to the hospital. When they need to have serious treatment, or hospitalization, that is very expensive, too.

It strikes me that those of us who sought this office to serve in the Senate or the House of Representatives did not do it just to collect a paycheck and accumulate years toward a pension but to do something to help families across this country. This is the No. 1 concern of families across the country.

If you have a child reaching the age of 23, and all of a sudden it dawns on you: Where is my daughter going to get her health insurance? I can't bring her under my policy. You start thinking. I am sure the Senator from Nevada has. I have. As a parent, every day I call my daughter in Chicago, who is an art student, and an artist, and say, "Jennifer, are you insured this month?" "Yes, dad." But I have to ask the question because health insurance is not automatic.

This Congress has done little, if anything, to help families across America who struggle with this every single day—not to mention those with pre-existing conditions. If you have a pre-existing condition and it is a serious one, and you have to change insurers, good luck. Most people find themselves being discriminated against.

I agree with the Senator from Nevada. We have been here day in and day out, and I have heard literally nothing suggested by the Republican leadership to deal with this.

Mr. REID. At the beginning of our August break, I traveled back to Nevada with my wife. As we flew home, my wife became very sick. We got off the airplane and went immediately to the Sunrise Hospital emergency room. As we walked in that room—she was wheeled into the room—there were lots of people. It was very crowded. We were probably among the 10 percent of the fortunate ones in that room; we had insurance to cover my wife's illness. She was there for 18 days. Ninety percent of the people there had no health insurance of any kind. They were there because they had no place else to go.

Those uninsured people get care. The most expensive kind of care you can get anyplace is in an emergency room. Who pays for that? You and I pay for it. Everybody in America pays for it in the form of higher taxes for indigent care—higher insurance premiums, higher insurance policies, and higher hospital and doctor bills. We all pay for it anyway.

But we don't have the direction from the majority here to have a debate on what we are going to do with the rapidly rising number of people with no health insurance.

Next year, we are going to probably have 2 million more. It is going up every year. We have 45 million people—actually 44 million people now—who have no health insurance. Next year, it will be close to 46 million people. Will the Senator agree with me that it is somewhat embarrassing for this great, rich country, the only superpower in the world, that 44 million people will have no health insurance?

Mr. DURBIN. It is an embarrassment, and it is sad. We have spent more time this morning on the floor of the Senate talking about providing health insurance to the uninsured than we have

spent in the entire session this year debating any proposals to deal with the problem.

I would say to my friends on the Republican side of the aisle that if you have an idea, or a concept, or a piece of legislation, come forward with it. Let us put our best proposal on the table. That is what the Senate is supposed to be about. It is supposed to be a contest of ideas, and the hope that when it is all said and done, the American people will prosper because we will come out with something that improves the quality of their lives. This year we have not.

Mr. REID. I want the Senator, also, to react to this. If we passed all of the programs the Republicans have talked about, the majority has talked about, on rare occasions—medical savings accounts, tax breaks for employers, and insurance—does the Senator realize that would cover less than 5 million of the 45 million people?

Mr. DURBIN. The Senator from Nevada is right. We overlook the numbers. The numbers are important. It is good to do something symbolic, but it doesn't solve the problem. We know the problem grows, as the Senator from Nevada has indicated, by 1 or 2 million a year—more people without health insurance coverage, more people who are vulnerable, and a Congress which has a tin ear when it comes to this issue.

We look at the Time magazine polls where it talks about the concern of the American people about health care. It doesn't get through to the leadership in Congress, and we will leave this year having done nothing to make it better.

Mr. REID. The Senator made an outstanding statement relating to guns, juvenile justice, kids getting killed, and people getting killed. So that those people within the sound of our voice understand what we are talking about, we are talking about people who purchase a gun shouldn't be crazies or a criminal. Isn't that what we are saying?

Mr. DURBIN. It is very basic. That is it.

Mr. REID. We are saying that we believe the legislation we passed, with the Democrats voting for it and a few Republicans, basically said that under this law if you are mentally deranged, a criminal, or a felon, you shouldn't be able to buy a gun. It should apply to pawnshops, and it should apply to gun shows. Is that what the legislation we passed said, and we can't even get to conference on it?

Mr. DURBIN. That is what it came down to. Those who would argue that gun control legislation and Capitol Hill want to take your gun away, that is not the case at all. What it is all about here is to say if you want to purchase a gun in America, whether it is from a licensed dealer, a pawnshop, or a gun show, we want to know a little about you. Are you a stable person? Do you

have a criminal record? If the answer is yes to either of those, if you are unstable, or you have a criminal record, then we will deny you the right to own a gun. Who can argue with that? A person who may in a weak moment do something to hurt an innocent person shouldn't be given advantage or given an opportunity by the purchase of a firearm.

We passed that when Vice President GORE came to the floor and cast a deciding vote just a few weeks after Columbine. And that issue died over in the U.S. House of Representatives when the gun lobby came through and said that is an outrageous suggestion—that you would keep guns out of the hands of kids and criminals.

I think American families see this a lot differently. I am hoping that when Members of the Senate who voted with the gun lobby go home, they will hear the other side of the story.

Mr. REID. The Senator also mentioned something we have not done—campaign finance reform. I would like the Senator to reflect a minute on how many people live in the State of Illinois, approximately.

Mr. DURBIN. About 12 million.

Mr. REID. In the State of Nevada, we have at least 2 million. But yet in a Senate race a little over a year ago in the State of Nevada, Harry REID and his opponent spent \$20 million; that is, between the State party moneys, our own money, \$20 million. That doesn't count independent expenditures by people who come from someplace and are spending money. You don't know who they are, and where they are from—another probably \$3 million. So in a small State of Nevada, about \$23 million.

Does that sound a little excessive to the Senator from Illinois?

Mr. DURBIN. It is more than a little excessive. It is outrageous. In Illinois, of course, we are faced with similar demands. If you want to buy television time, you have to raise money. If you can't write a personal check for it, you have to go out and beg for it.

Members of the Senate and House of Representatives who spend their time on the telephone begging for money from individuals and special interest groups are not using their time to represent people in Congress. They are, frankly, unfortunately bringing an element into this political process that is not positive. And the voters know this.

Interestingly enough, since 1960, we have seen a dramatic increase in spending on Presidential election campaigns, for example. And we have seen a dramatic decline in voter turnout and the number of people who participate. Voters have decided to vote with their feet and stay home. They are sick of the negative advertising. They are sick of the special interest groups. They are sick of the fundraising involved in this. And they are sick of the process. In a democracy, you can't stand that very

long because if democracy is going to work, people have to be involved in it. And that means cleaning up our acts. When Senators FEINGOLD and McCAIN came forward with campaign finance reform, 55 Senators—45 Democrats, 10 Republicans—said we agree, at least with respect to eliminating soft money. We should go forward with reform.

The Senator from Nevada, though, points to another problem: Even eliminating soft money will not eliminate the expense of campaigns, until we find a way to put legitimate candidates on the television without the extreme costs they run into now.

(Mr. BROWNBACK assumed the chair.)

Mr. REID. Let me say to my friend from Illinois to show how the system has frayed, I was interviewed in Washington by a Reno TV station for a half hour interview. During the interview, they said: How do you feel about the present Senate race? The person I had the good fortune of being able to beat is running again for the Senate; Senator BRYAN is not running for reelection. I said nice things about my opponent. I said I have known him; he is a nice man; I have known his family, and they always supported me. I said nice things about my opponent and I said nice things about the person who is going to be the Democratic nominee.

The Republican Senatorial Campaign Committee issues a press release they poured out to Nevada saying, "Reid endorses Ensign," because I said something nice about my former opponent. They stooped to the level of saying, Reid endorses John Ensign.

I like John Ensign; he is a nice man.

The system has gotten so callous. After this came out, a radio talk show host called me and said, I am a Republican but I want you to know I think what the Republican Senatorial Campaign Committee did is despicable. I think it is, too. We now are suspect because we say something nice about somebody who is running for office. Shouldn't it all be nice? We should be in a contest where we can determine who will be the best for the State of Nevada, the State of Illinois, the State of Minnesota—not the worst.

Mr. DURBIN. I agree with the Senator from Nevada. He came to Congress, as I did, in 1983. There has been a dramatic and palpable change in the atmosphere on Capitol Hill in that period of time. I know he can remember in the early days when there was real civility between the political parties and real dialogue and parties at night. We went to dinner together even if we fought like cats and dogs on an issue on the floor.

That has changed. The well has been poisoned by the obsession with negative politics. I think that is one of the reasons the American people are checking out. They said if that is the

best that can be done, you professionals in the business, we would just as soon stay home and watch professional wrestling. Occasionally professional wrestlers are involved in politics. The point they make is they don't approve of what is happening as we sink to lower and lower depths in the Democratic or Republican campaigns.

I agree with the Senator from Nevada. If one can't say something honest and complimentary about someone across the aisle without another person looking for a political advantage, that is a sorry commentary on the state of political affairs in America.

Mr. REID. I very much appreciate the Senator's statement on education. The Senator talked about how important it is to have additional teachers in America to reduce class sizes.

My daughter is a second grade teacher. She said she can tell within the first few days with these little kids who the smart ones are and those who are not so smart. The problem is classes are so big, what can be done about those in between, the average kid? Most people are average. What happens to the average kids? Many times they are lost in our present system.

No matter how teachers struggle, work long hours, and prepare their lessons, they don't have time to do it all because the classes are too big. What we have been able to do as a result of the President hanging in there is get more teachers to reduce class size. That is a positive step.

One thing the Senator didn't mention, and I know we have spoken about it, is the problem we are having in America with high school dropouts. Every day we have about 3,000 children drop out of high school, half a million a year. We have no specific programs to address that. The Senator from New Mexico and I have introduced legislation two successive years. Last year, it passed; it was killed in the House when the Gingrich Congress killed it. It would have set up within the Department of Education a dropout czar who would have been able to work on programs that have been successful in other parts of the country and, in effect, give challenge grants to local school districts—they would still control the programs, of course—giving them guidance and direction in keeping kids in school.

This year on a strictly partisan vote the majority killed the Bingham-Reid amendment.

Would the Senator acknowledge the fact we have to do something about high school dropouts, we need to do something to keep kids in school?

Mr. DURBIN. The Senator from Nevada knows that is the source of many problems. At juvenile justice facilities across America, whether in the courts or in the correctional system, we will generally find the kids who are there dropped out of high school. Having

dropped out, with time on their hands and no skills to get a job, many of them veered toward drugs and crime and a life that is not productive.

We end up paying for that over and over and over and over again. The old saying about an ounce of prevention is true. The Senator from Nevada has been a leader on this, telling the Nation we have to look at high school dropouts not just as a sad reality but as a challenge to all to do better.

I look at some of the things I have learned recently about the American workforce. When I visited Dell Computer in Austin, TX, last week and talked to their officers and leaders in their company, they said they hired some 6,000 people in the previous 3 months to work for Dell Computer in Austin and Nashville, TN. I find their complaint or request similar to those I have heard in Illinois. We can't find enough skilled workers. That says to me that our educational system has to be better, it can't let any child fall behind and be forgotten. We have to address dropouts. We have to address skilled training. We have to address the kind of educational reform that goes way beyond the question about who wears a uniform to school and who doesn't. But we haven't done it in this Congress.

I am glad the Senator from Nevada has been a leader on this issue of dropout.

Mr. REID. If for no other statistics, we should look at the penitentiaries and jails in America. Eighty-three percent of the people sentenced for crimes in America today are high school dropouts, 83 percent. That says it all as far as I am concerned as to why we need to do something about dropouts.

Mr. WELLSTONE. Will the Senator yield?

Mr. REID. I am happy to yield to the Senator.

Mr. WELLSTONE. Mr. President, Judge Rick Solum from Minnesota told me—and I have to have this confirmed; it is dramatically jarring—there is actually a higher correlation between high school dropout and incarceration than between cigarette smoking and lung cancer. It is quite predictable.

The Senator from Nevada was talking about his daughter's experience as a second grade teacher. In many ways we harp on the complexity of it all to the point it becomes the ultimate cop-out, but a lot of these kids by kindergarten are way behind. There is a learning gap and they fall further behind and then they drop out of school and wind up all too often in prison.

It does seem to me this is a full agenda that we barely touched.

Sorry to interrupt. I am enjoying listening to the discussion.

Mr. REID. I appreciate hearing from the professor.

I want to talk with my friend from Illinois about Social Security. The

Senator mentioned Social Security. One of the things that puts a smile on my face is when I hear the majority talking about having saved Social Security. If that doesn't put a smile on your face, nothing would because the Senator will recall a few years ago here in the Congress we were debating something called the constitutional amendment to balance the budget. As the Senator will recall, I offered the first amendment to say, fine, we want a constitutional amendment to balance the budget; let's exclude the Social Security trust fund from the balancing.

The Senator is aware they defeated that because they wanted to have their calculations applying the vast surplus that we have had the last several years with our Social Security fund, they wanted to apply that to balance the budget.

Is the Senator aware of that?

Mr. DURBIN. I remember that debate. Frankly, I think that was really the critical debate, when it came to the future of that amendment and when the Republican majority rejected our attempts to protect the Social Security trust fund in the balanced budget amendment debate. That was the end of the debate. As I recall, that amendment lost by one or two votes at the most. I voted against it. I think the Senator from Nevada did as well. If it was not going to protect Social Security, then we should not go forward with it.

As I reflect on it, it is a little over 2½ years ago that the battle cry on Capitol Hill was: The deficits, the balanced budget amendment, let the courts step in and have Congress stop spending; that was our only hope. Now we are in the era of surpluses. We have changed so dramatically without that constitutional amendment.

The Senator from Nevada recalls accurately the Social Security trust fund was a viable issue at that point.

Mr. REID. The Senator was also part of this Congress when, in 1993, without a single Republican vote, we passed the budget to address the deficit. It passed. We had to have the Vice President come down and break the tie. The Senator recalls at that time clearly, we had deficits of about \$300 billion a year. Since then, we now have surpluses. We have done very well with low inflation, low unemployment—40-year employment highs in that regard. We have created about 20 million new jobs. We have about 350,000 fewer Federal employees than we had then. We have a Federal Government about the same size as when President Kennedy was President.

We could go on with other things that happened as a result of the hard vote we cast, without a single vote from the Republicans. Does the Senator remember that?

Mr. DURBIN. I was in the House of Representatives and cast a vote in

favor of the President's program. I can tell you, literally, there were Democratic Members of the House of Representatives who lost in the next election, in 1994, because of that vote they cast. It was a really courageous effort on their part. It was exploited by those who said they were going to somehow destroy the economy and raise taxes across America. Yet look at what has happened. From 1993 to the current day, we have seen the Dow Jones index go from 3,500 to over 11,000, and all the things the Senator from Nevada has alluded to.

So that decision by President Clinton, supported exclusively by Democrats on Capitol Hill, had a very positive impact on America and its future. We have gone through one of the longest and strongest economic growth periods in our history. I think it relates back directly to that 1993 vote.

I can recall a number of my colleagues—Congresswoman Mezvinsky, a new Congresswoman from Pennsylvania who only served one term because she had the courage to cast that vote. If she had not, America might have gone on a different course than we have seen recently.

Mr. REID. I apologize to my friend from Minnesota. I want to end by asking one final group of questions to the Senator from Illinois.

We are here in kind of a celebratory fashion. We are going to complete this bill tonight, unless certain Members of the Senate keep our staff in all night long. Otherwise, we will finish it very quickly.

Does the Senator understand getting to this point has been really difficult and we, the minority, have had to hang very tough?

Remember, in an effort to get where we are, there have been a number of ways the majority has attempted to get to this point. You remember the Wall Street Journal article where they talked about the two sets of books the Republicans were keeping? They would, for certain things, go with the Office of Management and Budget and for certain things go with the Congressional Budget Office. Does the Senator remember that?

Mr. DURBIN. Yes.

Mr. REID. You can't keep two sets of books. The Senator recalls that didn't work. Does the Senator remember that?

Mr. DURBIN. Yes, I do.

Mr. REID. Does the Senator also remember they came up with this ingenious idea that they would add a month to the calendar? Does the Senator remember that?

Mr. DURBIN. That is right, 13 months.

Mr. REID. I remember the Senator from Illinois saying that is a great idea because we can just keep adding months to the year and we will never have a Y2K problem.

Mr. DURBIN. That is right.

Mr. REID. That was something also where we said: That is not fair, we are not going to do it. That didn't work.

Does the Senator also recall when they decided, with the earned-income tax credit, the program that President Reagan said was the best welfare program in the history of the country, where you would give the working poor tax incentives to keep working—does the Senator recall they wanted to withhold parts of those moneys to the poor in an effort to balance the budget?

Mr. DURBIN. I remember there was a certain Governor from Texas who admonished the Republican Members in the House and Senate, the House in particular, for their insensitivity. He said you should not balance the budget on the backs of working people, and that was about the time they abandoned that particular gimmick.

Mr. REID. Then there was the across-the-board cut. Does the Senator understand when they were doing that, and it was decided to do all these things, they did it without the offsets that would take an across-the-board cut of 7 or 8 percent, but now they are declaring a victory because they got an across-the-board cut—except the President can decide what is going to be cut—of .37 percent? Does the Senator from Illinois understand that crying victory over having a .3-percent across-the-board cut where the President can decide what would be cut is not something they should be crowing about victoriously?

Mr. DURBIN. It is a face-saving gesture on their part. Once we got into the budget negotiations and the Republican leadership was faced with actually saying, no, we won't add additional teachers, we will not have additional cops on the beat to address the crime problem across America, they could not do it. They ended up saying we actually won because we got this so-called across-the-board cut of .37 percent.

I might say to the Senator from Nevada, as he well knows, this is entirely within the discretion of the President, so it is not across the board. He can decide which areas of Federal spending to reduce to reach this target.

Mr. REID. I have enjoyed very much visiting with my friend from Illinois. As the session is drawing to a close, I want to express appreciation, on behalf of all the Democratic Senators, for the Senator being our floor leader. He has done an outstanding job. He has been here. He has been able to express himself very well, as we all know he can. I want to personally tell him how much I appreciate it. And on behalf of the Democratic Senators, for all of them, I tell the Senator how much we appreciate every word he has spoken, everything he has done, and I will make sure the majority keeps their ear to what the Senator from Illinois is saying. He

has done extremely well in expressing what I believe are the views of the majority of the American people.

Mr. DURBIN. I thank the Senator. It could not have been done without Senator DASCHLE and Senator REID and the leadership of my colleagues who have joined me. I also say it could not have been done without having such good, strong issues the American people support, that we can come talk about on the floor each day, pointing out that in this session of Congress they have not been addressed.

I thank the Senator for his kind words.

Mr. WELLSTONE addressed the Chair.

The PRESIDING OFFICER. Under the previous order, the Senator from Minnesota is recognized.

THE LACK OF SENATE ACCOMPLISHMENTS

Mr. WELLSTONE. Mr. President, I say to my colleagues, there are other colleagues on the floor. I have waited for some time. I think it has been an important discussion, but I am going to try, since there are other Senators on the floor, to abbreviate my remarks. I actually could speak for 3 or 4 or 5 hours right now. I will not. We will see when we are going to finish up today.

I would like to build on a little bit of the discussion I just heard, and then I would like to go to the issue at hand, which is the extension of the Northeast Dairy Compact, the way this was done, the impact on my State of Minnesota, and why we have been fighting this out.

First of all, I also thank Senator DURBIN for his very strong voice on the floor of the Senate. I say to Senator REID from Nevada, sometimes we come out here and compliment each other to the point it becomes so flowery, people are not sure whether it is sincere or not. I believe it is sincere. Senator REID is a good example of somebody in politics who, if he suffers from anything, it is modesty. He rarely takes credit. He really has done some tremendous work in the mental health field. He has probably done more than anybody in the Senate to get us to focus on the problem of depression. He never takes the credit. He should have included himself in this discussion.

I am talking about Senator REID.

Mr. President, I am not sure how exactly to view this overall omnibus conference report we now have before us. I am a little worried about sounding so negative that it will seem I only come to the floor to be negative. I do not. I think some of what my colleagues have talked about—given the framework we were working within and given where we started, I think there are some things people can feel good about.

I am pleased to give the administration and Democrats some credit for at

least being able to get some resources for some areas of priorities, such as more teachers and schools and moving toward smaller class size. It was a fix. I know for the State of Minnesota, and I am sure for many States, the Balanced Budget Act of 1997 and the cuts in Medicare reimbursement had, no pun intended, catastrophic consequences, especially for our rural hospitals, some of the nursing homes, home-based health care, and teaching hospitals. At least we were able to make a difference for a couple of years, though, again, it is temporary.

I feel pretty good about some investment of resources that are going to be helpful to people in Minnesota. If I had to pick out one priority, it would be \$14 million for the Fon du Lac School, a pretty important commitment of resources. I count as one of the best days as a Senator the day I visited Fon du Lac School. It is a pretty horrendous facility, and for years I have been trying to get some money to build a new school for kids in the Indian community.

It is interesting, just this past week I was there, and at the end of the discussion I said to the students: I have to leave in 30 seconds, and I am sorry we are finishing. Can any of you talk about one thing you care more about than anything else?

This one student who is age 15 said: The thing I think the most about is I would like for the children—I viewed him as a child at age 15—I would like the children to live a better life than we have been able to live, and I would like to live a life that will help kids do better.

I said to this student: That was the most beautiful, powerful thing I heard said in any school I have visited, and I have been in a school every 2 weeks for the last 9, 9½ years I have been in the Senate.

I tend to come down more on the side of the editorial debate of the Washington Post. I do not think this Congress has much to be proud of at all. Part of what has happened is we have been engaged in a lot of mutual self-deception. I came out to the floor quite a while ago on an amendment dealing with veterans' health care. I said it was a deliberate effort to bust the budget caps.

The ways in which we have been talking about "not raiding the Social Security surplus" has been ridiculous. President Clinton started to do it. Tom DeLay has done it. We have put ourselves in a straitjacket. We know that is not what it is about, but it is great political sloganeering.

For Republicans who do not believe, when it comes to the most critical issues of people's lives, there is nothing the Government can or should do, then I think you are consistent and I respect your point of view, for those Republicans who take that position, and this

is not a problem. But for Democrats and other Republicans who believe there are certain decisive areas of life in America, such as investment in children and education and opportunities for children, decent health care coverage, environmental protection, making sure we have some support for the most vulnerable citizens in the Congress, whether it be congregate dining or Meals on Wheels or affordable child care or, for God's sake, making sure children are not hungry in America, I do not think we have much to be proud of because we have done precious little.

As a matter of fact, I say to my colleagues on our side of the aisle, if you were to take the "non-Social Security surplus," 75 percent of it because of cuts in the budget caps of 2 years ago in a lot of these areas we say we care the most about, in real dollar terms we are still not spending as much as we spent several years ago.

I do not think we have all that much to be proud of and we have to do a lot better. I said at the beginning I would talk about some positive things. I do not want to come out here appearing to be shrill. I do think, unfortunately, this is a pretty rigorous analysis.

We did not pass campaign finance reform. That is the core issue. That is the core issue, the core problem. We did not pass patient protection legislation. We have done precious little to deal with the reality of 44 million people without any health insurance coverage and many other people having health insurance coverage but being underinsured.

Under title I—I saw this listed as one of our victories—we are funding about one-third of the kids who are eligible to be helped. These are some of our most vulnerable children in America, to the point where in Minnesota, in St. Paul, after you reach the threshold of a school that has 65 percent low-income population, there is no money for any other schools. It is about a \$16 billion shortfall, and we have increased spending by \$75 million.

We have done hardly anything for affordable child care. We did not include prescription drug coverage as a part of Medicare. On a whole host of amendments I have worked on as a Senator, almost all of them were eliminated in conference committee; whether it be at least some support for kids who witness violence in their homes or trying to deal with the problem of exploitation of women in international sex trafficking or juvenile justice mental health services or having an honest policy evaluation of what the welfare "reform" is doing around the country or increasing some funding—I mean real funding, a real increase of funding—for Meals on Wheels or congregate dining or social services support.

If you look at it from the point of view of how at least I think we can make life better for others—I am not

going to speak for others—I think this has been a do-nothing Congress, I really do.

I will make one other point before I talk about this dairy compact, and it is this: I am hearing so much discussion about testing third graders, and if they do not pass those tests, they do not go on to fourth grade. It is high-stakes testing, and by the way, I will have an amendment next year to the Elementary and Secondary Education Act which makes sure we do not start testing at that young of an age.

Here is the point. Jonathan Kozol wrote a book "Savage Inequalities," in which he points out—and all of us know this about our States—some school districts have the best technology, a beautiful building, recruit the best teachers, have the best lab facilities, the best textbooks, and other schools have none of that. We do not do anything to change that.

I cite a second bit of evidence. We have all these reports and studies, irrefutable evidence that if you do not get it right for children by kindergarten, many of them come to school way behind and they fall further behind and then they drop out. This is critically important, and we invest hardly anything in affordable child care.

Third, we do not do anything about the concerns and circumstances of children's lives in New York City or Minneapolis-St. Paul or rural Aitkin County or rural anywhere or inner-suburban anywhere in the country before they go to school and when they go home, whether it be the violence in the homes, or the children who see the violence or the violence in the communities or children who come to school hungry or children who come to school with an abscess because they do not have dental care. It is not very easy for children to do well in school under these conditions. We do not do hardly anything to change any of those conditions for children's lives in America so that we can truly live up to the idea of equal opportunity for every child.

But we are going to flunk them. We are going to fail them. We are going to give them standardized tests and fail them. We already know which kids are going to do well and which kids are not. I would argue it is cowardly. I would argue it is a great political slogan, but it is cowardly. There is a difference between testing and standardized—we should have accountability, but there are different ways of testing.

If you cannot prove you are giving every child the same opportunity to achieve and do well in the test, what are you doing giving these kids these standardized tests and flunking them and not letting them go on to the next grade?

We have done so little when it comes to good health care for every citizen,

equal opportunity for every child, jobs at decent wages, and getting money out of politics and bringing people back into politics and speaking to the economic pain that exists among citizens in our country.

I start with agriculture. I am from an agricultural State. We have a failed farm policy that is driving family farmers off the land. We have not done a thing about the price crisis. We have had another bailout. We have some money for people so they can live to farm another day, but we have not changed a thing when it comes to farmers being able to get a decent price. We have not changed a thing when it comes to all the concentration of power in agriculture and in the media and in banking and in energy and in health insurance companies. We do not want to take on these big conglomerates. We do not want to talk about antitrust action.

So I argue that at the macrolevel this has been a do-nothing Congress. I think people in the country should hold us accountable. I say to the majority party, I think they should especially hold the majority party accountable because I think many of us have wanted to do much more. I think that is what the next election probably will be all about.

If people believe education and health care and opportunities for their children and jobs at decent wages are important issues to them—that is their center; that is the center of their lives—and they believe the Republican majority has not been willing to move on this agenda, and they feel as if there is a big disconnect between what is done here and the lives of people who we are suppose to represent, then I say, let the next election be a referendum. But I certainly wish we had done more.

A FAIR DEAL FOR MINNESOTA DAIRY FARMERS

Mr. WELLSTONE. Mr. President, final point. Some of us have been fighting for several days. We are out of leverage now. It is toward the end. But to be real clear about it, there was a time, when the Northeast Dairy Compact was brought to the floor, it was going to be part of the 1996 "Freedom to Farm." I think it is the "Freedom to Fail" bill. It was defeated.

But this compact, which was not in the farm bill that passed in either House, was then put into the conference committee. There is a reform issue on which we ought to work. There is one in which I am really interested. I do not think the conference committee, which has become the "third House" of the Congress, should be able to put an amendment, a provision, into conference that was not passed in either House; or, for that matter, take out a provision that was passed in both Houses.

So this got snuck in. It was part of a deal. It is how we got the "Freedom to Fail" bill, which has visited unbelievable economic pain and misery.

The argument that was made for the Freedom to Farm bill was it should all be in the market; there ought not be any safety net; so a family farmer should not have any real leverage for bargaining for a decent price. You name it. It was a great bill for grain companies, a great bill for the packers, but not a very good bill for family farmers. On the other hand, when it came to dairy, it was a different set of rules. And we were going to have these dairy compacts with administered prices.

Our dairy producers were just asking for a fair shot—dairy producers in States such as Wisconsin and Minnesota.

Let me explain. In my State, we have 8,700 dairy farms. We rank fifth in the Nation in milk production. These farms generate about \$1.2 billion for our farmers each year. The average size of the Minnesota dairy farm is about 60 cows—60 cows per farm. We are talking about family-size farm operations. We are going to lose many more because this compact, for all sorts of reasons so negative, impacts on our dairy farmers.

Mr. President, I am disgraced by the recent action by the majority party to include such harmful dairy provisions to the State of Minnesota as part of the final spending bill this year. The tactics used to include dairy as part of this bill is yet another illustration of the flagrant abuse of power. I and my fellow colleagues have fought hard and have been successful in defeating previous attempts to extend the Northeast Dairy Compact. We fought openly and fairly on the Senate floor, and now our successful efforts may be unjustly curtailed by clandestine negotiations by those who overtly misuse their power. This type of backroom negotiating style is clearly not the first time that harmful dairy provisions have been attached to the bill. We have been fighting such tactics since the authorization of the compact. In fact, the authorization of the Northeast Dairy Compact was inserted into the 1996 farm bill as part of a backroom deal. In 1996, I offered an amendment which successfully struck the compact out of the Senate bill and the compact was not in the farm bill initially passed by either House of Congress. Instead, it was later inserted during the bill's conference in the passage of the 1996 Freedom to Farm bill. Yet ironically, the 1996 Freedom to Farm bill was passed with the intent to remove government from the marketplace. Although, I adamantly opposed the bill, many viewed the 1996 farm bill as a way to decouple payments to family farmers. The thought at that time was that farmers should produce for the market and that Congress should eliminate a safety net for our farmers.

For some reason, we seemed to play by a different set of rules when it comes to dairy. We told our corn and soybean farmers that to succeed in the 21st century they should pay close attention to market signals, but at the same time we considered implementing compacts that drown out those signals for dairy farmers. And yet even among dairy producers, we scrutinized and only allowed one region of the country to provide a safety net for their farmers, while hurting farmers in other parts of the country.

Minnesota is not asking for special favors. All Minnesota dairy producers are asking for is a fair shot. I have spoken here before about the importance of family dairy farming to my State's economy. Minnesota's dairy industry is one of the cornerstones of the State's economy. We have 8,700 dairy farms in Minnesota, ranking fifth in the Nation's milk production. The milk production from Minnesota farms generates more than \$1.2 billion for our farmers each year. Yet, the average herd size of a Minnesota dairy farm is about 60 cows. Sixty cows per farm. So we are really talking about family operations in my State. Family businesses with a total of \$1.2 billion in sales a year, contributing to their small-town economies, trying to live a productive life on the land.

Let me read from a few farmers in my State of Minnesota who are hurting:

Eunice Biel, a Harmony, MN dairy farmer:

We currently milk 100 cows and just built a new milking parlor. We will be milking 120 cows next year. Our 22-year-old son would like to farm with us. But for us to do so he must buy out my husband's mother (his grandmother) because my husband and I who are 47-years-old, still are unable to take over the family farm. Our son must acquire a beginning farmer loan. But should he shoulder that debt if there is no stable milk price? We continuously are told by bankers, veterinarians and ag suppliers that we need to get bigger or we will not survive. At 120 cows, we can manage our herd and farm effectively and efficiently. We should not be forced to expand in order to survive.

Lynn Jostock, a Waseca, MN dairy farmer:

I have four children. My 11-year-old son Al helps my husband and I by doing chores. But it often is too much to expect of someone so young. For instance, one day our son came home from school. His father asked Al for some help driving the tractor to another farm about 3 miles away. Al was going to come home right afterward. But he wound up helping his father cut hay. Then he helped rake hay. Then he helped bale hay. My son did not return home until 9:30 p.m. He had not yet eaten supper. He had not yet done his schoolwork. We don't have other help. The price we get at the farm gate isn't enough to allow us to hire any farmhands or to help our community by providing more jobs. And it isn't fair to ask your 11-year-old son to work so hard to keep the family going. When will he burn out? How will he ever want to farm?

Les Kylo, a Goodhue dairy farmer:

My grandfather milked 15 cows. My dad milked 26. I have milked as many as 100 cows, and I'm going broke. They made a living out here and I didn't. Since my son went away to college, my farmhands are my 73-year-old father and my 77-year-old father-in-law who has an artificial hip.

I have a barn that needs repairs and updates that I can't afford. I have two children that don't want to farm. At one point, in a 30-mile radius, there were 15 Kylos farming. Now there are three. And now I'm selling my cows. My family has farmed since my ancestors emigrated to the United States.

When I leave farming, my community will lose the \$15,000 I spend locally each year for cattle feed; the \$3,000 I spend at the veterinarian; the \$3,600 I spend for electricity; or the money I spend for fuel, cattle insemination and other farm needs.

The testimony I just read were from MN farmers who felt comfortable to share their names. I have additional testimony, but the farmers who shared their stories, had requested that I not use their name. This is testimony from a farmer in East Ottertail, MN:

Despite the ongoing difficulties, it is amazing the steadfast willingness of this family to try and hold things together. The farm is farmed by two families, a father and his son.

Since dairy prices fell in the second quarter of 1999, there was not enough income for this family to make the loan payments and to provide for family living and cover farm operating expenses. The Farm Credit Services would not release a loan for farm operating assistance, and so the family had to borrow money from the lender from which they are already leasing their cows. They have not been able to feed the cows properly because of the lack of funds. Because they cannot adequately feed their dairy herd, their milk production has fallen and is considerably lower than the herd's average production. In addition, because there was no money for family living, the parents had to cash out what little retirement savings they had so that the two families had something to live on day to day.

The son and wife had to let their trailerhouse go since they could not make the payments and moved into a home owned by a relative for the winter. Most of their machinery is being liquidated. However, there are a few pieces of machinery that go toward paying off their existing debt. The family will be selling off 120 acres of land in their struggle to reduce the debt. Recently, the father has been having serious back troubles and has been unable to help his son with the work. This is tremendous stress both physically and mentally on the son. The son has decided he is going to have to sell part of the herd in order to reduce the herd to a number that is more manageable for one person. In addition, the money acquired from selling off part of the herd will be applied toward their debt. The son hopes that these three items combined: selling machinery, land and part of the herd can pay off enough of their debt that he might be able to do some restructuring on the remainder of the farm and to reduce loan payments to a manageable amount where there is something left to live on after payments are made.

These are just a few of the stories. I read these stories, because it is important that when we consider national dairy policy here in the Senate, we need to keep in mind that we are determining the future of an industry and a

way of life that are basic not only to the agricultural economy, but to the very soul of America's rural heartland. I am concerned that the dairy provisions attached to this omnibus bill will hurt Minnesota dairy farmers and frankly dairy farmers throughout the country. I have been on the floor before discussing how the dairy compacts and any reversal to the implementation of an equitable milk marketing system will harm Minnesota dairy farmers. However, the dairy language included in this bill goes even further and could potentially threaten all family dairy farmers throughout the nation.

What I am talking about and concerned about as are many Americans is the trend towards factory-farm and concentration in dairy. It is unnecessary and unwise. There is no reason we cannot have a family-farm based dairy system. A dairy system which promotes economic vitality in rural communities and one which is more environmentally sustainable than a factory-farm system. Family dairy farms are efficient and innovative. Family dairy farms can provide a plentiful supply of wholesome milk at a fair price. However, there is a provision stuck in this bill which no one has really discussed, and would harm family dairy farmers everywhere. The provision would establish a pilot program allowing for the expansion of forward contracting of milk.

Forward contracting reduces competition in the marketplace and results in lower prices to dairy producers. Forward contracting is not specific to the dairy industry. In fact, one can note the effect of forward contracting by the recent events occurring in the hog industry. Recently, the hog industry has witnessed a significant increase in the number of producers who decided to forward contract. Hog producers will contract with packers to guarantee them a minimum price for their pigs. Contracting is not inherently bad and there are some good contracts. However, what is occurring is that these deals are made often in private and do not reflect the spot market. There is a strong argument that contracting is partly responsible for the depressed hog prices and the rapid increase in the consolidation of the hog industry. What is happening in the hog industry is also happening in dairy.

This provision would expand forward contracting of milk by allowing processors to pay producers less than the federal milk price for milk. Under current law, forward contracting is allowed, however, only if the buyer is willing to offer at least as much as the federal minimum price. In other words, this provision will remove an important safety net for our dairy producers. Expanded forward contracting can also reduce the price for producers who do not forward contract by reducing the competition for milk, thereby dam-

aging the entire dairy market structure. This provision could also discriminate against our family farmers because the most likely scenario is that processors would offer forward contracts to the largest producers. Again, we would see the domino effect of losing family farmers. By giving a better deal to larger producers, our family farmers cannot compete and we would see more losses of family farmers.

Those who support forward contracting contend that forward contracting is a risk management tool; however, this argument doesn't hold water. In fact, National Farmers' Union and other groups contend that the proposal for forward contracting will actually make it more difficult to manage risk by forcing producers to guess whether the volatile dairy market will go up or down. It is logically deduced that in the absence of an adequate support price, the market will continue to be highly volatile. What can happen is that anytime producers price guess wrong, they lose money under this proposal. The truth is that our family dairy farmers cannot compete in such a volatile market place. We must set policy that keeps family dairy farms in business while ensuring that consumer and taxpayer costs are kept at a reasonable level. What we need to achieve here is a fair, sustainable and stable price system for all dairy farmers.

That has clearly not happened, and that's partly why Minnesota continues to lose dairy farmers at an appalling rate. Minnesota is losing dairy farms at the rate of three per day due to base price that are already low and unstable. Let me read to you the past couple of BFP prices for family dairy farmers. The BFP is the basic formula price. It is the monthly base price per hundredweight paid to dairy farmers for their milk.

In August the BFP was \$15.79 per hundredweight. That was quite high and it is a good price. Farmers could be pleased with that price. In September the BFP rose a little higher to \$16.26 per hundredweight. I haven't seen the analysis of why the BFP price rose so high. Back in May of 1999, the BFP was only \$11.26. Some would argue that it was due to the drought in the East that prices rose so high for August and September. The milk price was high because cows in the eastern region were strained and produces less milk. Therefore, milk was in demand and thus the price rose. If this is the case, our farmers are getting a decent price for their milk only at the expense of farmers in other parts of the country who are suffering.

In October, the BFP took a stunning tumble from the \$16.26-September price to \$11.49 per hundredweight. This is a dramatic drop price. The BFP for this month will not be released until

December 3rd, but it is predicted to be even lower. Again, as I have stated before with such volatility in the market, it is no question why our farmers are having a difficult time to survive. And if dairy farmers are not struggling enough with the volatility of the market, Congress is now assisting and in some cases is making the price of my dairy farmers worse—and that is what has happened with the Northeast Dairy Compact. The Northeast Dairy Compact gives six states the right to join together to raise prices to help producers in the region. While it may help the Northeast, it is cutting into our markets. It is true that the compact provided a safety net this spring to certain farmers when dairy prices plunged. When the price of raw milk dropped by 37 percent, one Massachusetts farmer got a \$2,100 check from the compact. Overall, that farmer said, aid from the compact totaled seven percent of his gross income during the first 12 months of its operation. Conversely, Midwest dairy farmers—who also confronted the sharp price decline—got no such price.

The Northeast Dairy Compact fixes fluid milk prices at artificially high prices for the benefit of dairy producers in just that region. This artificial price boost of a compact may benefit the producers covered by the compact, but it hurts all other dairy farmers. It is also no secret that the extension of the Northeast Compact encourages other regions such as the Southeast to form their own compact. This would be detrimental to the Upper Midwest. A recent report by University of Missouri dairy economist Ken Bailey found that Minnesota's farm-level milk price would drop at least 21 cents per hundredweight if a Southeast dairy compact were allowed to be implemented alongside expanded Northeast dairy compact. This would translate into a \$27.2 million annual reduction of Minnesota farm milk sales. The compacts in Bailey's study would cover only 27 percent of U.S. milk production, yet would have a sizable negative impact. If more regions adopted compacts Minnesota prices would drop even further.

Many, such as I heard Senator LEAHY inquire, why doesn't the Upper Midwest form their own compact. Minnesota and Wisconsin farmers would not benefit from organizing their own compact. A compact's price boost applies for only fluid milk. The percentage of Upper Midwest milk going into fluid products is so low that any compact would do little for Minnesota's farmers' income. The negative impact of compacts would far outweigh any minimal boost to fluid prices here in Minnesota. Congress should not accept a policy that so clearly provides benefits to the producers of one region at the expense of consumers and producers elsewhere. Instead, there should be an effort to create a more uniform

and rational national dairy policy—a policy without the regional fragmentation caused by compacts.

To put it simply, compacts erect trade barriers in our country. By fixing milk prices at artificially high levels, Compact proponents understand that their markets become vulnerable to market forces at work elsewhere in the nation. So in order to prevent milk from other regions entering those Compact markets at lower prices, a tariff-like mechanism is established to ensure that all milk entering the Compact area is priced at the level fixed by the price-fixing commission in the region. It is bad enough that the extension of the Northeast Dairy Compact is attached to this bill, but it is unacceptable for Congress to attempt to meddle with USDA's final plan by resurrecting an alternative similar to Option 1-A.

As you know, the referendum voted on by producers nationwide overwhelming passed this past summer. Given the prominence of Minnesota's dairy industry, it should be no surprise that I have pushed for reform of the existing milk pricing system. The Secretary's reforms are a step forward in a long overhaul of dairy policy toward a more unified and simplified pricing system that benefits all producers. We need to reduce and eliminate the regional inequities that exist within the federal order system. The current pricing system regulates the price of fluid milk based on the distance from Eau Claire, Wisconsin. This policy causes market distortions that disadvantage producers in the Upper Midwest. These reforms must move forward quickly, and be implemented as soon as possible by the Secretary.

These dairy provisions are putting at great risk dairy farmers not just in my State, but across the country. It is imperative that we establish a national and equitable dairy system for all. For this reason, and among numerous other inequities included as part of this mammoth omnibus package, I cannot vote for the bill.

Mr. President, milk prices per 100 weight were about \$16. Now they are down to \$11. They are going down further. We do not have any kind of national dairy policy that makes any sense.

What has happened, which affects Eunice Biel and Lynn Jostock, and Les Kylo, and all sorts of other farmers who will remain anonymous but whose statements are included in the RECORD—they do not want their names used—it is hard when you are going through pain, and you are working 19 hours a day, and you are going to lose your farm.

What has happened, to add salt to the wound, insult to injury, is that in the dark of night in a conference committee a few people—it did not pass the Senate; they did not get it through—they put through a provision that ex-

tended this Northeast Dairy Compact, which would have run out, and they blocked the Secretary of Agriculture from being able to move forward with milk marketing order reform.

They have another provision which would allow for a pilot project for the expansion of the forward contracting of milk. That is what we have had in the hog industry. Contracting is not inherently bad, but what happens is these arrangements are made in private; they do not reflect the spot market. Basically, what happens is, you are going to have this consolidated industry, as in the hog industry. And what will happen is that the processors will be able to pay the producers less than the Federal milk price for milk. In other words, under current law, forward contracting is allowed; however, only if the buyer is willing to offer at least as much as the Federal minimum price. But this little-known provision—never debated on the floor of the Senate—would now remove that important safety net for our dairy producers. Processors are going to offer better forward contracts to the larger producers, to the largest producers, and our dairy farms are going to go under.

In Minnesota, we continue to lose dairy farms at an appalling rate. Minnesota is losing dairy farms at the rate of three per day due to a base price that is already so low and so unstable.

I say to each and every one of my colleagues that it is a triple blow to agriculture, to dairy farmers, in Minnesota. First of all, again, this horrendous piece of legislation, which was passed in 1996, that I think the Senate should be ashamed of, took the bargaining power away from farmers. They cannot even get a price to survive.

We have a depression in agriculture. We are going to lose a whole generation of producers. The way this happened, with the Northeast Dairy Compact, was to put that into the conference report. It never passed on the floor. It was part of the whole deal that made this bill possible.

Then this dairy compact was going to expire in 2 years. We had a vote on it. It did not get through the Senate. It came back into the conference committee, in this horrendous process—which will be my last point about this process—no vote, no public discussion, all sorts of provisions, one of which I just mentioned, put into this amendment, and now this omnibus conference report is brought to us, and we cannot amend it. We can't amend it. I can't come to the floor of the Senate and deal with this forward contracting of milk without the safety net. I can't come to the floor of the Senate with an amendment to knock out this amendment. You get a few people who decide in a closed room, outside of any scrutiny, and they put this back in.

I am outraged. But we fought this every way we know how. Today is the

last day. There will be a vote, and we can't stop that vote—whether it be at 1 a.m. or in midafternoon. To me, that is no longer an issue. We have done everything we can.

But I say to my colleagues that I think what has been done to the dairy farmers in the Midwest is an injustice. I think it is an injustice in a piece of legislation that, in and of itself, doesn't represent all that much for America, even though I know everybody will be talking about how great this is. I am certainly going to vote against it.

I also say to my colleagues that I hope we will, next year, think about how we can reform the way we operate. On this, I hold the majority leader accountable—to the extent that I can hold him accountable. And I will figure out every way I can next year, when we come back, to keep raising this issue.

We didn't get a lot of these appropriations bills done. We had a lot of legislation that came to the floor. We weren't allowed to do amendments. Frankly, I don't know how anybody in here thinks we can be good legislators when we don't have the bills coming to the floor. We need to get them out here in the open and have debates that are introduced, have up-or-down votes, and then we move forward. And if we have to work from 9 in the morning until 9 at night, so be it. But instead, we don't do our work.

Those of us who believe the Senate floor is the place to fight for what we believe in and have the debates are not able to do so. Instead, we have this process where six, seven, eight people decide what is in and what is out, and we have this huge monstrosity called the "omnibus" bill that is presented to us, which none of us has read—or maybe two people have. But none of us has read this from cover to cover. I doubt whether there are more than two Senators who know everything that is in here.

I would like to raise the question. How can we be good legislators with this kind of process? We are not being good legislators. I am speaking for myself. I am not able to be an effective legislator representing Minnesota if we are going to continue making decisions in conference committees and rolling in six, seven, eight major pieces of legislation with no opportunity for me as a Senator from Minnesota to bring amendments to the floor. That was done on the dairy compact, and that is what has been done on a whole lot of other decisions. It is no way to legislate.

I contend that that is no way to legislate. I contend that this omnibus bill makes a mockery of the legislative process. I contend on the floor of the Senate today, not only because of what happened to dairy farmers in Minnesota but because of the whole way in which this decisionmaking process has

worked, that this is unconscionable. I contend that this kind of decision-making process is going to lead to more and more disillusionment on the part of people in the country.

People hate the mix of money and politics. They don't like all the hack-attack politics my colleagues, Senator REID and Senator DURBIN, were talking about earlier because they believe that is what is wrong. They don't like what, apparently, some of us relish. They don't like backroom deals, decision-making that is not open, accountable, and that people can understand and comprehend.

Now, my final point. I am not so sure that some of the major decision-makers, given the sort of deck of cards they had to work with—I don't know that I want to point the finger at any one person. I don't think that is probably fair. I am making an argument about process, not about a particular Senator. Some of them who were involved in this probably did everything they could do from their point of view. They are very skillful. But I will tell you one thing. Minnesota dairy farmers came out on the short end of the stick.

I regret the fact that this has been done and stuck into a conference report and was not done in an honest way, with open debate on the floor of the Senate, where we could have amendments. I also regret a legislative process where we didn't get to the bills on time, didn't have the debate on the floor, didn't have amendments we could introduce, didn't have the up-or-down votes, and it all got done by a few people, really, basically, with very little opportunity for public scrutiny, for democratic accountability.

I am going to vote "no" on this bill. I think I would vote "no" just on the issue of the way in which these decisions have been made because, again, I think we have made a mockery of what should be the legislative process.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maine is recognized.

UNANIMOUS CONSENT AGREEMENT

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senator from Iowa, Mr. GRASSLEY, be recognized for approximately 10 minutes, if that is sufficient for the Senator.

Mr. GRASSLEY. I think it is.

Ms. COLLINS. I also ask unanimous consent that he be followed by the Senator from New York, Mr. SCHUMER, for not to exceed 5 minutes, and that I be recognized to transact legislative business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Iowa is recognized.

CHINA'S ACCESSION TO THE WORLD TRADE ORGANIZATION

Mr. GRASSLEY. Mr. President, in my capacity as chairman of the International Trade Subcommittee and getting ready for the Seattle Round, as well as considering China's accession to the World Trade Organization, I want to speak on Congress' power and our responsibility on the whole issue of international trade.

It is very clear in the Constitution that the Congress of the United States has the power, as one of the specifically delineated powers of Congress in the first article, to regulate interstate and foreign commerce. So the United States has just concluded a bilateral market access agreement with China. It should pave the way for China's accession to the World Trade Organization.

From what I have heard about this agreement—and, of course, we only have summaries at this point—it is an exceptionally good one for the United States and especially for American agriculture. I said, when the agreement fell through on April 8, I was fearful that a lot of ground would be lost. I don't think, from what I know, there has been any ground lost with the renegotiation. Charlene Barshefsky, our U.S. Trade Representative, conducted herself in a highly professional way and negotiated what appears to be an excellent agreement, and she did it under very difficult circumstances.

Now that the negotiations are finished, the job of the Senate and the House of Representatives becomes even more important. Our constitutional responsibility requires that the Senate and the House carefully review the agreement in its entirety, and the extent to which there are changes in law, they obviously have to pass the Congress, as any law would, and be signed by the President.

It is a responsibility every Senator takes very seriously because it is assigned to us by the Constitution. And because the Congress has a unique and close relationship with the American people, we must also keep faith with the people who sent us here to fulfill our constitutional responsibilities.

That is why it is critical we know everything that was negotiated.

I want to put emphasis upon that statement.

That is why it is important that the Congress of the United States know everything that was negotiated—everything, every issue, every detail, and every interpretation—so there can be no surprises, no private exchanges of letters, no private understandings about the key meanings of key phrases in the agreement, and no reservations whatsoever that are kept just between negotiators.

In other words, if Congress is going to legislate these agreements and secure these agreements, Congress has a

responsibility not only to make sure everything is on the table but to make sure the administration puts everything on the table.

Let me be clear about this. There is an absolute requirement of disclosure. Congress must see everything that is negotiated. And it has not always been this way, or I wouldn't be to the floor asking my colleagues to consider this, and with an admonition to the administration to make sure everything is given to Congress. When congressional approval is required, only what we see and vote on should become the law. Nothing should become the law of the land that is secretly negotiated and that isn't submitted to Congress for our approval.

Because there have been problems in this area in the past, Senator CONRAD of North Dakota and I have introduced legislation. This legislation is contained in the African trade bill. That trade bill was recently approved by the Senate. I will work very hard to see that this provision is part of the final bill approved by conference committee before the African trade bill is sent to the President.

Why are we where we are today with what Senator CONRAD and I have tried to accomplish, and did accomplish, as far as the Senate is concerned? Unfortunately, past administrations have not complied with their basic principles of complete disclosure and complete openness in their submittal of agreements to the Congress. A prior administration—it happened to be a Republican administration—violated the spirit, if not the letter, of this absolute good faith requirement of complete disclosure. This incident occurred in 1988. I want to give background on it because it was in regard to the Canadian Free Trade Agreement which became part of the North American Free Trade Agreement.

At that time, there was disagreement about the meaning of a term relating to Canada's price support system for wheat.

If anybody has heard the articulate speaking of the Senator from North Dakota on this issue—Senator CONRAD has talked about this many times, about wheat unfairly coming into the northern United States in violation of the free trade agreement but somehow being legal because of these side agreements that Congress didn't know about in the past.

There was a disagreement about the meaning of a term relating to Canada's price support system for wheat. The issue dealt with whether the Canadians were manipulating their price support system by unfairly defining a very key term in their favor, thus allowing them to sell wheat below cost in the United States market in violation of the clear meaning of a provision of the Canadian-United States free trade agreement.

The United States insisted that Canada was, indeed, selling wheat below cost in violation of the agreement. Canada denied the violation. The dispute was even taken to a binational panel for resolution.

In the argument before the binational panel for dispute resolution, the Canadian side at that time produced a letter from a few years back from the United States Trade Representative to the Canadians supporting the Canadian interpretation of the provision and very devastating to the case brought by the United States.

The question now is whether the U.S. Trade Representative's letter, or his interpretation of this controversial and important provision, was properly reported to the Congress before we considered that agreement, voted on it, and it became the law of the land. Some might argue that it was disclosed. Others say it was not.

In my view, because the issue of Canada's price support system for wheat was such a politically sensitive issue in the context of the NAFTA agreement, there should not have been any room for doubt what the administration's interpretation was. The disclosure of the administration's interpretation of this key language should have been fully and completely disclosed—not just in the fine print or in response to questions raised by a Senator at a hearing.

When important issues of foreign commerce are at stake and Congress is exercising its constitutional power of regulating foreign commerce, we in the Congress should not have to guess what the answer is or even have to figure out how to ask the right questions in the hearing at the right time and in the right way to get an honest answer, to have open disclosure of what our agreements are and what the results of the negotiation are.

This incident on the wheat and the Canadian Free Trade Agreement had unfortunate and profound consequences. It led some in Congress to believe they could not trust our negotiators. Some of us believed we weren't dealt with fairly. The American wheat farmer has been harmed as a result of it.

Now, I want to say I have the highest regard for our negotiators, especially for Ambassador Barshefsky. She has done a remarkable job. She has my complete trust. So this is not about Ambassador Barshefsky. It is not about any one of our negotiators. Nor is this a partisan concern. The incident that sparked my concern occurred during a Republican administration. I am concerned about one simple thing. The principle of openness and full disclosure to Congress.

This simple, basic principle applies not just to the agreement with China. In about ten days, the United States will help launch a new round of global trade negotiations in Seattle. This new

round of trade liberalization talks will cover agriculture, services, and other key trade issues. Many of these issues are sensitive, and even controversial.

We must be confident that we will see everything that is negotiated in the new round before it can become law. The legislation Senator CONRAD and I wrote that is part of the Africa trade bill requires full disclosure to Congress of all agreements or understandings with a foreign government relating to agricultural trade negotiations—what we refer to here as agricultural trade negotiations, objectives, and consultation.

Anyway, our provision says that any such agreement or understanding that is not disclosed to Congress before legislation implementing a trade agreement is introduced in the Congress shall not become law. In other words, if Congress doesn't know about the agreement, it should not become law. That is very simple. It is very clear. It is a restatement of the principle of full disclosure. It is consistent with Congress' constitutional responsibility for foreign commerce, but I understand the administration opposes this common-sense provision. They want it removed from the bill.

Mr. President, it says in the Conrad-Grassley bill, no secret side deals. The Congress agreed that there should be fully submitted to Congress all of the provisions of any negotiations that must be approved by Congress. I don't know why the administration wants this language removed from the trade bill, but this is what they have sent to the conferees in the Congress of the United States. They list this section that says no secret side deals. They are suggesting we strike this subsection.

We cannot let this happen. I will do everything I can to make sure this physical disclosure provision becomes the law of the land when the House and Senate conferees finally consider the African trade bill. I believe our Government should live by the same standards we expect from farmers in my hometown of New Hartford, IA, or any businessman in Des Moines, IA. Tell us exactly what you mean. Show us everything in the agreement. Act in good faith.

I ask my colleagues to support this provision and vote for it when it comes back from the conference committee so we have physical disclosure of everything so Congress isn't asked to vote on something that is secret, that we don't know anything about. If we do that, we are violating our constitutional responsibility to the people of this country.

The PRESIDING OFFICER. Under the previous agreement the Senator from New York is recognized for 5 minutes.

GOOD NEWS FOR RURAL NEW YORK

Mr. SCHUMER. Mr. President, today I am happy to say there is good news in the omnibus budget bill for rural New Yorkers in two ways. The Satellite Home Viewer Act will finally allow rural residents in rural areas to receive local television programming, and the dairy language in the omnibus final package allows both option 1-A and the New England Dairy Compact to continue. Let me touch on both of these. It is clearly two dollops of good news for rural New Yorkers.

On the satellite bill, I have had constituent after constituent in areas such as Allegany County and Chenango County and Steuben County and Ulster County, throughout New York State in rural areas, tell me all of a sudden they were unable to receive over the air signals to receive local satellite programming. Imagine being cut off. Imagine for years depending on the weather reports before you took your kids to school or because you are a farmer and then not being able to get them. Imagine having your local news shows cut off. Imagine not being able to see things your family was accustomed to seeing, all because of a court action.

Today, that bill, that court action, is being overruled in the omnibus act. I am delighted to say half a million New York residents will now be able to get their local signal from their satellite which they were not able to do before—half a million people, all back the way they should be.

I hope we will continue the progress of the Satellite Home Viewer Act. The Federal provision was taken out. I understand the Senate Banking Committee plans to hold hearings next year to ensure that multiservice providers are encouraged to extend competition. I want to work with my colleagues to make sure my constituents in upstate rural New York, central New York, the west and southern tier, and in the north country have the same viewing options as those in downstate.

The other bit of good news, of course, is the dairy language in the final bill. First, I know some of my colleagues from Wisconsin and Minnesota have labored long and hard on behalf of their constituents in this regard. I salute their hard work, their tenacity, and their diligence. I heard the Senator from Minnesota say the average dairy farm in his State has 60 cows. It is no different in New York. We don't have large farms, by and large. We shouldn't be pitting one against the other. Without 1-A and without the dairy compact we would have had desperate times in rural New York for our dairy farmers. We are the third largest dairy State. Dairy is a vital industry in much of New York.

If option 1-B were allowed to be implemented, New York would experience the single largest loss of any State,

\$30.5 million a year. Compacts, of course, are necessary. The 1-A option passed both Houses. This is not something being done in the dark of night and not being debated. Both Houses, after full debate, passed both compacts.

I say with all due respect to my colleagues from Minnesota and Wisconsin, it is they who seek to thwart the will of the majority of the House and the Senate when they try at the last minute to stop an omnibus bill from going through. We need this compact.

In New York and New England, the price of milk has not risen by more than 4 cents over the national average in every given year. I say to my downstate constituents, to keep an industry vital to all New Yorkers going, is it worth it to pay that 4 cents? Almost everyone says yes. With senior citizen centers, WIC, and other types of good programs being exempt, this is a worthy piece of legislation. I think it is a good day for the dairy farmers of New York.

It is not all we wanted; I admit that. We want New York to be added to the Northeast Dairy Compact, and we will fight like the devil to make that happen in future years. Without 1-A and the existing dairy compact, which still benefits New York dairy farms in the north country and places such as Washington and Warren Counties and in central New York, those areas without the New England Dairy Compact, we would have suffered dramatically. Adding insult to injury, not having option 1-A would have been devastating.

In the last decade, New York State has lost one-third of its dairy farms, 13,000 to 8,600. The dairy compact and option 1-A will help my State and region retain this vital and cherished industry. I believe that can be done not at the expense of our counterparts in the Midwest.

In conclusion, it is a good day for rural New Yorkers in this omnibus bill. No. 1, the Satellite Home Viewer Act will allow half a million New York families to receive local signal once again; and, an extension of the dairy compact, as well as extension of option 1-A, will allow our dairy farmers who have been struggling over the last decade to have a better chance to survive, to grow, and to prosper in one of the industries most vital to all of New York State.

The PRESIDING OFFICER. Under the previous agreement, the Senator from Maine is recognized.

SENATE ACCOMPLISHMENTS

Ms. COLLINS. For the information of all of our colleagues, I inform Senators that we are still working out some last-minute issues that will then allow the Senate to move a number of important bills that have been cleared on both sides. While we are waiting for these last-minute glitches to be re-

solved, I want to take this opportunity to respond to some of the comments made by my colleagues on the other side of the aisle this morning.

I am disappointed in some of the process, and I do not support all of the provisions of the omnibus appropriations bill which we will consider later this day, but I very much disagree with the assertions made by some of my colleagues on the other side of the aisle that we have not accomplished anything during this Congress. We have, in fact, accomplished a great deal of which we can be proud. Rather than engaging in harsh partisan rhetoric, we should be coming together in these final hours of this session to celebrate what we have done for the American people.

First of all, I think we can take great pride in the accomplishment that we will be producing a balanced budget for the first time in decades, one which does not raid the Social Security trust fund. This is a tremendous accomplishment and it establishes a new milestone in fiscal responsibility. It has been the Republican caucus that has held firm in their determination to prevent one penny of the Social Security trust fund from being diverted to support expensive new unrelated Government programs. We have succeeded. We have kept that commitment. We have fulfilled our obligation to the senior citizens of this country. For the first time in 30 years, the Congress has produced a balanced budget which will result in a surplus that does not rely on funds from the Social Security trust fund. The raid on the Social Security trust fund has been stopped cold.

I give a great deal of credit to Senator DOMENICI, to Senator STEVENS, to Senator ABRAHAM, and to all colleagues in the Republican caucus who have united in their determination to secure the Social Security trust fund for our seniors and for future generations. That is an accomplishment of which we can be proud.

Second, I am delighted the omnibus appropriations bill includes what has been my highest priority in the last few months and that is to restore some of the unintended cuts made by the Balanced Budget Act of 1997 as well as by onerous regulations imposed by the Clinton administration that have impaired the ability of our rural hospitals, our home health care agencies, and our nursing homes to provide much needed quality health care to our Nation's senior citizens.

The Presiding Officer has been an early supporter of legislation that I have introduced to provide financial relief to our distressed home health care agencies. America's home health care agencies allow our senior citizens and our disabled citizens to receive the health care where they want it, in the security and the privacy of their own

homes. Unfortunately, under the Balanced Budget Act of 1997, and exacerbated by misguided policies of the Clinton administration, America's home health agencies have found their ability to provide this care has been jeopardized. This care is so important to our Nation's senior citizens, particularly those who are living in rural areas of our country where access to home health care may spell the difference between staying in their own homes and having to travel many miles to receive health care.

Unfortunately, since cutbacks in home health care have gone into effect, there has been a devastating impact on the senior citizens of our country. Let me use the example of the State of Maine. As you can see, in just a year's time, more than 6,000 Maine senior citizens have lost their access to home care. In fact, it is 6,600 Maine seniors who have lost their access to home health care. The number of home health care visits in Maine has declined by more than 420,000. Reimbursements to Maine's home health agencies have declined in a year's time by more than \$20 million.

Maine's home health agencies have had a long tradition of providing low-cost compassionate care. We are not talking about home health agencies that were in any way abusing the system, making too many visits, or over-billing Medicare. We are talking about home health agencies that were cost effective and efficient, providing quality low-cost care throughout the State of Maine.

I have visited with many of these seniors who have lost access to home health care. One was a retired priest in my hometown of Caribou, ME. He relied on his home health services and has now had to dig deeply into his savings to provide for the care out of his own pocket because Medicare is no longer providing the services he needs.

In another case, I visited an elderly couple in rural Maine who were able to stay together in their own home rather than go into a nursing home because of the valuable services provided by home health care nurses. The woman in this case was severely diabetic. She was confined to a wheelchair and had a wound that was not healing. It was home health care nurses who came three times a week to clean the wound, to change the dressing, to take care of her other health care needs. Home health care allowed her and her elderly husband to stay together in their golden years.

It is that kind of service which has made such a difference to the quality of life of our senior citizens, and it was that kind of service which has been so jeopardized by the ill-advised Clinton administration regulations and the unintended consequences of the Balanced Budget Act of 1997.

The legislation I introduced was a bipartisan bill. It was cosponsored by

more than 30 of my colleagues, to reverse these unintended consequences. The Balanced Budget Remedies Act that is included in the omnibus appropriations bill does not go as far as I would like, frankly, but it is a good and necessary first step. I commend the chairman of the Finance Committee, Senator ROTH, as well as Senator MOYNIHAN, for working with us to come up with legislation that we can enact to ensure our senior citizens do not lose access to much needed health care.

That is also a very important bill to our rural hospitals. In our hospitals, in States such as Maine, we have been suffering from the cutbacks that jeopardize their ability to provide care. These hospitals, in most cases, are the only hospital in the community. If they are forced to close because of unfair and inadequate reimbursements from Medicare, it will devastate the communities. It will leave many of our senior citizens and others in the community without access to health care at all when they become ill and need hospitalization.

One of the features of the cutbacks in home health care troubles me. I wonder what has become of these nearly 7,000 Maine citizens. In some cases they have been forced to pay for the care themselves. Many of the seniors in Maine simply cannot afford that kind of out-of-pocket expense. They are living on Social Security, on limited incomes. They already have a very difficult time affording their prescription drugs. Some of them have become sicker because they have lost their access to home health care and have prematurely been forced into nursing homes or have been subject to repeated hospitalization which would have been avoided had the home health care services been provided. The irony and the wrongheaded effect of this policy is we are probably going to end up paying more for the care for these senior citizens who have lost access to their home health care because hospitalization and nursing home care is so much more expensive than home health care. Surely this has been a shortsighted policy.

I am pleased this legislation is going to take the first steps we need to provide much needed financial relief to our Nation's home health care agencies, our rural hospitals, and our nursing homes. It is going to make a real difference. There is much else that is very valuable in this legislation for our Nation's families. Not only our senior citizens but our children are going to benefit from this legislation.

When you hear the rhetoric in this Chamber about education, you would think that somehow there has been an attempt to slash education funding. Nothing could be further from the truth. In fact, the Republican Senate increased—increased, Mr. President—

education spending by \$500 million beyond what was requested by President Clinton in his budget.

The increase also represents a substantial hike in spending for education programs over last year's spending levels. In fact, the legislation we are about to consider increases education spending by \$2 billion over the last fiscal year, and, again, the increase is \$500 million over what the President proposed.

Clearly, there is a deep and heartfelt commitment in the Senate to increase education spending and to recognize its importance to the future of this country and to ensuring a bright future for our Nation's children. The issue has not been about money. The issue has been who is best able to make education decisions. That is the debate we will continue next year.

To me, the answer is obvious. We do need to increase the Federal investment in education, but at the same time we need to empower our local school boards, our parents, our teachers, and our principals to make the decisions and set the priorities. We need to hold them accountable for improved education achievement, but we do not need a Washington-knows-best, a one-size-fits-all approach to education policy.

There is other good news in the omnibus appropriations bill, and that is good news for students and their families who are pursuing higher education. Since I have come to the Senate, one of my highest priorities has been to increase Pell grants and student loans so that no qualified student faces a financial barrier that makes it impossible for him or her to attend college.

Prior to coming to the Senate, I worked at a small business and health college in Bangor, ME, known as Husson College. It was there that I first became aware of how critically important Federal financial assistance was for students who are attending college.

Eighty-five percent of the students at Husson College could not afford to attend college but for the assistance they were provided from student loans and from Pell grants. This assistance was absolutely essential in allowing them to attend college. Many of them were first-generation college students. They were the first people in their families to have the opportunity to attend college. They were taking a big step they knew would ensure a brighter future for them and more opportunities.

We know the vast majority of new jobs that are being created into the next century will require some kind of postsecondary education, either attendance at a technical college, a private college, or a university. We are going to need more and more skills, more and more education, if we are to compete for the jobs of the future.

That is why I am so delighted the legislation provides a significant increase for Pell grants.

As you can see, the maximum Pell grant will be increased in the appropriations bill. Currently, it is \$3,125. The President proposed \$3,250. The appropriations bill passed by the Senate proposed \$3,325. Those are good steps. They will help make college a little bit more affordable for our Nation's young people; indeed, also for older adults who are returning to college because they realize they need additional skills.

Once again, it is important we emphasize, the Senate increased spending for these essential Pell grants beyond what the President recommended. This is a budget of which we can be proud. It does not include every provision each of us would like. It reflects hours, weeks, and months of work. It reflects compromise. That is what the system is all about.

Each of us would write this bill differently. Each of us wishes the process could be cleaner, that we could work to get our legislation accomplished earlier, that we had more cooperation with the White House in achieving this goal. But the fact is, this legislation will ensure brighter futures for the families of America.

I appreciate the opportunity to set the record straight on these important issues. The bill, which will be before us later today, is not perfect but it is good legislation that deserves the support of all our colleagues.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative assistant proceeded to call the roll.

Ms. COLLINS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

DECEPTIVE MAIL PREVENTION AND ENFORCEMENT ACT

Ms. COLLINS. Mr. President, I ask the Chair lay before the Senate a message from the House of Representatives on the bill (S. 335) to amend chapter 30 of title 39, United States Code, to provide for the nonmailability of certain deceptive matter relating to sweepstakes, skill contests, facsimile checks, administrative procedures, orders, and civil penalties relating to such matter, and for other purposes.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 335) entitled "An Act to amend chapter 30 of title 39, United States Code, to provide for the nonmailability of certain deceptive matter relating to sweepstakes, skill contests, facsimile checks, administrative procedures,

orders, and civil penalties relating to such matter, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

Sec. 1. Table of contents.

TITLE I—DECEPTIVE MAIL PREVENTION AND ENFORCEMENT

Sec. 101. Short title.

Sec. 102. Restrictions on mailings using misleading references to the United States Government.

Sec. 103. Restrictions on sweepstakes and deceptive mailings.

Sec. 104. Postal service orders to prohibit deceptive mailings.

Sec. 105. Temporary restraining order for deceptive mailings.

Sec. 106. Civil penalties and costs.

Sec. 107. Administrative subpoenas.

Sec. 108. Requirements of promoters of skill contests or sweepstakes mailings.

Sec. 109. State law not preempted.

Sec. 110. Technical and conforming amendments.

Sec. 111. Effective date.

TITLE II—FEDERAL RESERVE BOARD RETIREMENT PORTABILITY

Sec. 201. Short title.

Sec. 202. Portability of service credit.

Sec. 203. Certain transfers to be treated as a separation from service for purposes of the thrift savings plan.

Sec. 204. Clarifying amendments.

TITLE III—AMENDMENT TO THE FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT OF 1949

Sec. 301. Transfer of certain property to State and local governments.

TITLE I—DECEPTIVE MAIL PREVENTION AND ENFORCEMENT

SEC. 101. SHORT TITLE.

This title may be cited as the "Deceptive Mail Prevention and Enforcement Act".

SEC. 102. RESTRICTIONS ON MAILINGS USING MISLEADING REFERENCES TO THE UNITED STATES GOVERNMENT.

Section 3001 of title 39, United States Code, is amended—

(1) in subsection (h)—

(A) in the first sentence by striking "contains a seal, insignia, trade or brand name, or any other term or symbol that reasonably could be interpreted or construed as implying any Federal Government connection, approval or endorsement" and inserting the following: "which reasonably could be interpreted or construed as implying any Federal Government connection, approval, or endorsement through the use of a seal, insignia, reference to the Postmaster General, citation to a Federal statute, name of a Federal agency, department, commission, or program, trade or brand name, or any other term or symbol; or contains any reference to the Postmaster General or a citation to a Federal statute that misrepresents either the identity of the mailer or the protection or status afforded such matter by the Federal Government"; and

(B) in paragraph (2)—

(i) in subparagraph (A) by striking "and" at the end;

(ii) in subparagraph (B) by striking "or" at the end and inserting "and"; and

(iii) by inserting after subparagraph (B) the following:

"(C) such matter does not contain a false representation stating or implying that Federal Government benefits or services will be affected by any purchase or nonpurchase; or";

(2) in subsection (i) in the first sentence—

(A) in the first sentence by striking "contains a seal, insignia, trade or brand name, or any other term or symbol that reasonably could be interpreted or construed as implying any Federal Government connection, approval or endorsement" and inserting the following: "which reasonably could be interpreted or construed as implying any Federal Government connection, approval, or endorsement through the use of a seal, insignia, reference to the Postmaster General, citation to a Federal statute, name of a Federal agency, department, commission, or program, trade or brand name, or any other term or symbol; or contains any reference to the Postmaster General or a citation to a Federal statute that misrepresents either the identity of the mailer or the protection or status afforded such matter by the Federal Government"; and

(B) in paragraph (2)—

(i) in subparagraph (A) by striking "and" at the end;

(ii) in subparagraph (B) by striking "or" at the end and inserting "and"; and

(iii) by inserting after subparagraph (B) the following:

"(C) such matter does not contain a false representation stating or implying that Federal Government benefits or services will be affected by any contribution or noncontribution; or";

(3) by redesignating subsections (j) and (k) as subsections (m) and (n), respectively; and

(4) by inserting after subsection (i) the following:

"(j)(1) Any matter otherwise legally acceptable in the mails which is described in paragraph (2) is nonmailable matter, shall not be carried or delivered by mail, and shall be disposed of as the Postal Service directs.

"(2) Matter described in this paragraph is any matter that—

"(A) constitutes a solicitation for the purchase of or payment for any product or service that—

"(i) is provided by the Federal Government; and

"(ii) may be obtained without cost from the Federal Government; and

"(B) does not contain a clear and conspicuous statement giving notice of the information set forth in clauses (i) and (ii) of subparagraph (A).";

SEC. 103. RESTRICTIONS ON SWEEPSTAKES AND DECEPTIVE MAILINGS.

Section 3001 of title 39, United States Code, is amended by inserting after subsection (j) (as added by section 102(4)) the following:

"(k)(1) In this subsection—

"(A) the term 'clearly and conspicuously displayed' means presented in a manner that is readily noticeable, readable, and understandable to the group to whom the applicable matter is disseminated;

"(B) the term 'facsimile check' means any matter that—

"(i) is designed to resemble a check or other negotiable instrument; but

"(ii) is not negotiable;

"(C) the term 'skill contest' means a puzzle, game, competition, or other contest in which—

"(i) a prize is awarded or offered;

"(ii) the outcome depends predominately on the skill of the contestant; and

"(iii) a purchase, payment, or donation is required or implied to be required to enter the contest; and

"(D) the term 'sweepstakes' means a game of chance for which no consideration is required to enter.

"(2) Except as provided in paragraph (4), any matter otherwise legally acceptable in the mails which is described in paragraph (3) is nonmailable matter, shall not be carried or delivered by mail, and shall be disposed of as the Postal Service directs.

"(3) Matter described in this paragraph is any matter that—

"(A)(i) includes entry materials for a sweepstakes or a promotion that purports to be a sweepstakes; and

"(ii)(I) does not contain a statement that discloses in the mailing, in the rules, and on the order or entry form, that no purchase is necessary to enter such sweepstakes;

"(II) does not contain a statement that discloses in the mailing, in the rules, and on the order or entry form, that a purchase will not improve an individual's chances of winning with such entry;

"(III) does not state all terms and conditions of the sweepstakes promotion, including the rules and entry procedures for the sweepstakes;

"(IV) does not disclose the sponsor or mailer of such matter and the principal place of business or an address at which the sponsor or mailer may be contacted;

"(V) does not contain sweepstakes rules that state—

"(aa) the estimated odds of winning each prize;

"(bb) the quantity, estimated retail value, and nature of each prize; and

"(cc) the schedule of any payments made over time;

"(VI) represents that individuals not purchasing products or services may be disqualified from receiving future sweepstakes mailings;

"(VII) requires that a sweepstakes entry be accompanied by an order or payment for a product or service previously ordered;

"(VIII) represents that an individual is a winner of a prize unless that individual has won such prize; or

"(IX) contains a representation that contradicts, or is inconsistent with sweepstakes rules or any other disclosure required to be made under this subsection, including any statement qualifying, limiting, or explaining the rules or disclosures in a manner inconsistent with such rules or disclosures;

"(B)(i) includes entry materials for a skill contest or a promotion that purports to be a skill contest; and

"(ii)(I) does not state all terms and conditions of the skill contest, including the rules and entry procedures for the skill contest;

"(II) does not disclose the sponsor or mailer of the skill contest and the principal place of business or an address at which the sponsor or mailer may be contacted; or

"(III) does not contain skill contest rules that state, as applicable—

"(aa) the number of rounds or levels of the contest and the cost to enter each round or level;

"(bb) that subsequent rounds or levels will be more difficult to solve;

"(cc) the maximum cost to enter all rounds or levels;

"(dd) the estimated number or percentage of entrants who may correctly solve the skill contest or the approximate number or percentage of entrants correctly solving the past 3 skill contests conducted by the sponsor;

"(ee) the identity or description of the qualifications of the judges if the contest is judged by other than the sponsor;

"(ff) the method used in judging;

"(gg) the date by which the winner or winners will be determined and the date or process by which prizes will be awarded;

"(hh) the quantity, estimated retail value, and nature of each prize; and

"(ii) the schedule of any payments made over time; or

"(C) includes any facsimile check that does not contain a statement on the check itself that such check is not a negotiable instrument and has no cash value.

"(4) Matter that appears in a magazine, newspaper, or other periodical shall be exempt from paragraph (2) if such matter—

"(A) is not directed to a named individual; or

"(B) does not include an opportunity to make a payment or order a product or service.

"(5) Any statement, notice, or disclaimer required under paragraph (3) shall be clearly and conspicuously displayed. Any statement, notice, or disclaimer required under subclause (I) or (II) of paragraph (3)(A)(ii) shall be displayed more conspicuously than would otherwise be required under the preceding sentence.

"(6) In the enforcement of paragraph (3), the Postal Service shall consider all of the materials included in the mailing and the material and language on and visible through the envelope or outside cover or wrapper in which those materials are mailed.

"(I)(1) Any person who uses the mails for any matter to which subsection (h), (i), (j), or (k) applies shall adopt reasonable practices and procedures to prevent the mailing of such matter to any person who, personally or through a conservator, guardian, or individual with power of attorney—

"(A) submits to the mailer of such matter a written request that such matter should not be mailed to such person; or

"(B)(i) submits such a written request to the attorney general of the appropriate State (or any State government officer who transmits the request to that attorney general); and

"(ii) that attorney general transmits such request to the mailer.

"(2) Any person who mails matter to which subsection (h), (i), (j), or (k) applies shall maintain or cause to be maintained a record of all requests made under paragraph (1). The records shall be maintained in a form to permit the suppression of an applicable name at the applicable address for a 5-year period beginning on the date the written request under paragraph (1) is submitted to the mailer."

SEC. 104. POSTAL SERVICE ORDERS TO PROHIBIT DECEPTIVE MAILINGS.

Section 305(a) of title 39, United States Code, is amended—

(1) by striking "or" after "(h)," each place it appears; and

(2) by inserting ", (j), or (k)" after "(i)" each place it appears.

SEC. 105. TEMPORARY RESTRAINING ORDER FOR DECEPTIVE MAILINGS.

(a) IN GENERAL.—Section 3007 of title 39, United States Code, is amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by striking subsection (a) and inserting the following:

"(a)(1) In preparation for or during the pendency of proceedings under section 3005, the Postal Service may, under the provisions of section 409(d), apply to the district court in any district in which mail is sent or received as part of the alleged scheme, device, lottery, gift enterprise, sweepstakes, skill contest, or facsimile check or in any district in which the defendant is found, for a temporary restraining order and preliminary injunction under the procedural requirements of rule 65 of the Federal Rules of Civil Procedure.

"(2)(A) Upon a proper showing, the court shall enter an order which shall—

"(i) remain in effect during the pendency of the statutory proceedings, any judicial review of such proceedings, or any action to enforce orders issued under the proceedings; and

"(ii) direct the detention by the postmaster, in any and all districts, of the defendant's incoming mail and outgoing mail, which is the subject of the proceedings under section 3005.

"(B) A proper showing under this paragraph shall require proof of a likelihood of success on the merits of the proceedings under section 3005.

"(3) Mail detained under paragraph (2) shall—

"(A) be made available at the post office of mailing or delivery for examination by the defendant in the presence of a postal employee; and

"(B) be delivered as addressed if such mail is not clearly shown to be the subject of proceedings under section 3005.

"(4) No finding of the defendant's intent to make a false representation or to conduct a lottery is required to support the issuance of an order under this section.

"(b) If any order is issued under subsection (a) and the proceedings under section 3005 are concluded with the issuance of an order under that section, any judicial review of the matter shall be in the district in which the order under subsection (a) was issued."

(b) REPEAL.—

(1) IN GENERAL.—Section 3006 of title 39, United States Code, and the item relating to such section in the table of sections for chapter 30 of such title are repealed.

(2) CONFORMING AMENDMENTS.—(A) Section 3005(c) of title 39, United States Code, is amended by striking "section and section 3006 of this title," and inserting "section,".

(B) Section 3011(e) of title 39, United States Code, is amended by striking "3006, 3007," and inserting "3007".

SEC. 106. CIVIL PENALTIES AND COSTS.

Section 3012 of title 39, United States Code, is amended—

(1) in subsection (a) by striking "\$10,000 for each day that such person engages in conduct described by paragraph (1), (2), or (3) of this subsection." and inserting "\$50,000 for each mailing of less than 50,000 pieces; \$100,000 for each mailing of 50,000 to 100,000 pieces; with an additional \$10,000 for each additional 10,000 pieces above 100,000, not to exceed \$2,000,000.";

(2) in paragraphs (1) and (2) of subsection (b) by inserting after "of subsection (a)" the following: ", (c), or (d)";

(3) by redesignating subsections (c) and (d), as subsections (e) and (f), respectively; and

(4) by inserting after subsection (b) the following:

"(c)(1) In any proceeding in which the Postal Service may issue an order under section 3005(a), the Postal Service may in lieu of that order or as part of that order assess civil penalties in an amount not to exceed \$25,000 for each mailing of less than 50,000 pieces; \$50,000 for each mailing of 50,000 to 100,000 pieces; with an additional \$5,000 for each additional 10,000 pieces above 100,000, not to exceed \$1,000,000.

"(2) In any proceeding in which the Postal Service assesses penalties under this subsection the Postal Service shall determine the civil penalty taking into account the nature, circumstances, extent, and gravity of the violation or violations of section 3005(a), and with respect to the violator, the ability to pay the penalty, the effect of the penalty on the ability of the violator to conduct lawful business, any history of prior violations of such section, the degree of culpability and other such matters as justice may require.

"(d) Any person who violates section 3001(l) shall be liable to the United States for a civil penalty not to exceed \$10,000 for each mailing to an individual."

SEC. 107. ADMINISTRATIVE SUBPOENAS.

(a) IN GENERAL.—Chapter 30 of title 39, United States Code, is amended by adding at the end the following:

"§3016. Administrative subpoenas

"(a) SUBPOENA AUTHORITY.—

"(1) INVESTIGATIONS.—

"(A) IN GENERAL.—In any investigation conducted under section 3005(a), the Postmaster

General may require by subpoena the production of any records (including books, papers, documents, and other tangible things which constitute or contain evidence) which the Postmaster General considers relevant or material to such investigation.

“(B) **CONDITION.**—No subpoena shall be issued under this paragraph except in accordance with procedures, established by the Postal Service, requiring that—

“(i) a specific case, with an individual or entity identified as the subject, be opened before a subpoena is requested;

“(ii) appropriate supervisory and legal review of a subpoena request be performed; and

“(iii) delegation of subpoena approval authority be limited to the Postal Service's General Counsel or a Deputy General Counsel.

“(2) **STATUTORY PROCEEDINGS.**—In any statutory proceeding conducted under section 3005(a), the Judicial Officer may require by subpoena the attendance and testimony of witnesses and the production of any records (including books, papers, documents, and other tangible things which constitute or contain evidence) which the Judicial Officer considers relevant or material to such proceeding.

“(3) **RULE OF CONSTRUCTION.**—Nothing in paragraph (2) shall be considered to apply in any circumstance to which paragraph (1) applies.

“(b) **SERVICE.**—

“(1) **SERVICE WITHIN THE UNITED STATES.**—A subpoena issued under this section may be served by a person designated under section 3061 of title 18 at any place within the territorial jurisdiction of any court of the United States.

“(2) **FOREIGN SERVICE.**—Any such subpoena may be served upon any person who is not to be found within the territorial jurisdiction of any court of the United States, in such manner as the Federal Rules of Civil Procedure prescribe for service in a foreign country. To the extent that the courts of the United States may assert jurisdiction over such person consistent with due process, the United States District Court for the District of Columbia shall have the same jurisdiction to take any action respecting compliance with this section by such person that such court would have if such person were personally within the jurisdiction of such court.

“(3) **SERVICE ON BUSINESS PERSONS.**—Service of any such subpoena may be made upon a partnership, corporation, association, or other legal entity by—

“(A) delivering a duly executed copy thereof to any partner, executive officer, managing agent, or general agent thereof, or to any agent thereof authorized by appointment or by law to receive service of process on behalf of such partnership, corporation, association, or entity;

“(B) delivering a duly executed copy thereof to the principal office or place of business of the partnership, corporation, association, or entity; or

“(C) depositing such copy in the United States mails, by registered or certified mail, return receipt requested, duly addressed to such partnership, corporation, association, or entity at its principal office or place of business.

“(4) **SERVICE ON NATURAL PERSONS.**—Service of any subpoena may be made upon any natural person by—

“(A) delivering a duly executed copy to the person to be served; or

“(B) depositing such copy in the United States mails, by registered or certified mail, return receipt requested, duly addressed to such person at his residence or principal office or place of business.

“(5) **VERIFIED RETURN.**—A verified return by the individual serving any such subpoena setting forth the manner of such service shall be proof of such service. In the case of service by

registered or certified mail, such return shall be accompanied by the return post office receipt of delivery of such subpoena.

“(c) **ENFORCEMENT.**—

“(1) **IN GENERAL.**—Whenever any person, partnership, corporation, association, or entity fails to comply with any subpoena duly served upon him, the Postmaster General may request that the Attorney General seek enforcement of the subpoena in the district court of the United States for any judicial district in which such person resides, is found, or transacts business, and serve upon such person a petition for an order of such court for the enforcement of this section.

“(2) **JURISDICTION.**—Whenever any petition is filed in any district court of the United States under this section, such court shall have jurisdiction to hear and determine the matter so presented, and to enter such order or orders as may be required to carry into effect the provisions of this section. Any final order entered shall be subject to appeal under section 1291 of title 28, United States Code. Any disobedience of any final order entered under this section by any court may be punished as contempt.

“(d) **DISCLOSURE.**—Any documentary material provided pursuant to any subpoena issued under this section shall be exempt from disclosure under section 552 of title 5, United States Code.”

(b) **REGULATIONS.**—Not later than 120 days after the date of the enactment of this section, the Postal Service shall promulgate regulations setting out the procedures the Postal Service will use to implement the amendment made by subsection (a).

(c) **SEMIANNUAL REPORTS.**—Section 3013 of title 39, United States Code, is amended by striking “and” at the end of paragraph (4), by redesignating paragraph (5) as paragraph (6), and by inserting after paragraph (4) the following:

“(5) the number of cases in which the authority described in section 3016 was used, and a comprehensive statement describing how that authority was used in each of those cases; and”.

(d) **TECHNICAL AND CONFORMING AMENDMENT.**—The table of sections for chapter 30 of title 39, United States Code, is amended by adding at the end the following:

“3016. Administrative subpoenas.”.

SEC. 108. REQUIREMENTS OF PROMOTERS OF SKILL CONTESTS OR SWEEPSTAKES MAILINGS.

(a) **IN GENERAL.**—Chapter 30 of title 39, United States Code (as amended by section 107) is amended by adding after section 3016 the following:

“§3017. **Nonmailable skill contests or sweepstakes matter; notification to prohibit mailings**

“(a) **DEFINITIONS.**—In this section—

“(1) the term ‘promoter’ means any person who—

“(A) originates and mails any skill contest or sweepstakes, except for any matter described in section 3001(k)(4); or

“(B) originates and causes to be mailed any skill contest or sweepstakes, except for any matter described in section 3001(k)(4);

“(2) the term ‘removal request’ means a request stating that an individual elects to have the name and address of such individual excluded from any list used by a promoter for mailing skill contests or sweepstakes;

“(3) the terms ‘skill contest’, ‘sweepstakes’, and ‘clearly and conspicuously displayed’ have the same meanings as given them in section 3001(k); and

“(4) the term ‘duly authorized person’, as used in connection with an individual, means a conservator or guardian of, or person granted power of attorney by, such individual.

“(b) **NONMAILABLE MATTER.**—

“(1) **IN GENERAL.**—Matter otherwise legally acceptable in the mails described in paragraph (2)—

“(A) is nonmailable matter;

“(B) shall not be carried or delivered by mail; and

“(C) shall be disposed of as the Postal Service directs.

“(2) **NONMAILABLE MATTER DESCRIBED.**—Matter described in this paragraph is any matter that—

“(A) is a skill contest or sweepstakes, except for any matter described in section 3001(k)(4); and

“(B)(i) is addressed to an individual who made an election to be excluded from lists under subsection (d); or

“(ii) does not comply with subsection (c)(1).

“(c) **REQUIREMENTS OF PROMOTERS.**—

“(1) **NOTICE TO INDIVIDUALS.**—Any promoter who mails a skill contest or sweepstakes shall provide with each mailing a statement that—

“(A) is clearly and conspicuously displayed;

“(B) includes the address or toll-free telephone number of the notification system established under paragraph (2); and

“(C) states that the notification system may be used to prohibit the mailing of all skill contests or sweepstakes by that promoter to such individual.

“(2) **NOTIFICATION SYSTEM.**—Any promoter that mails or causes to be mailed a skill contest or sweepstakes shall establish and maintain a notification system that provides for any individual (or other duly authorized person) to notify the system of the individual's election to have the name and address of the individual excluded from all lists of names and addresses used by that promoter to mail any skill contest or sweepstakes.

“(d) **ELECTION TO BE EXCLUDED FROM LISTS.**—

“(1) **IN GENERAL.**—An individual (or other duly authorized person) may elect to exclude the name and address of that individual from all lists of names and addresses used by a promoter of skill contests or sweepstakes by submitting a removal request to the notification system established under subsection (c).

“(2) **RESPONSE AFTER SUBMITTING REMOVAL REQUEST TO THE NOTIFICATION SYSTEM.**—Not later than 60 calendar days after a promoter receives a removal request pursuant to an election under paragraph (1), the promoter shall exclude the individual's name and address from all lists of names and addresses used by that promoter to select recipients for any skill contest or sweepstakes.

“(3) **EFFECTIVENESS OF ELECTION.**—An election under paragraph (1) shall remain in effect, unless an individual (or other duly authorized person) notifies the promoter in writing that such individual—

“(A) has changed the election; and

“(B) elects to receive skill contest or sweepstakes mailings from that promoter.

“(e) **PRIVATE RIGHT OF ACTION.**—

“(1) **IN GENERAL.**—An individual who receives one or more mailings in violation of subsection (d) may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

“(A) an action to enjoin such violation;

“(B) an action to recover for actual monetary loss from such a violation, or to receive \$500 in damages for each such violation, whichever is greater; or

“(C) both such actions.

It shall be an affirmative defense in any action brought under this subsection that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent mailings in violation of subsection (d). If the court finds that the defendant

willfully or knowingly violated subsection (d), the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B).

“(2) ACTION ALLOWABLE BASED ON OTHER SUFFICIENT NOTICE.—A mailing sent in violation of section 3001(l) shall be actionable under this subsection, but only if such an action would not also be available under paragraph (1) (as a violation of subsection (d)) based on the same mailing.

“(f) PROMOTER NONLIABILITY.—A promoter shall not be subject to civil liability for the exclusion of an individual's name or address from any list maintained by that promoter for mailing skill contests or sweepstakes, if—

“(1) a removal request is received by the promoter's notification system; and

“(2) the promoter has a good faith belief that the request is from—

“(A) the individual whose name and address is to be excluded; or

“(B) another duly authorized person.

“(g) PROHIBITION ON COMMERCIAL USE OF LISTS.—

“(1) IN GENERAL.—

“(A) PROHIBITION.—No person may provide any information (including the sale or rental of any name or address) derived from a list described in subparagraph (B) to another person for commercial use.

“(B) LISTS.—A list referred to under subparagraph (A) is any list of names and addresses (or other related information) compiled from individuals who exercise an election under subsection (d).

“(2) CIVIL PENALTY.—Any person who violates paragraph (1) shall be assessed a civil penalty by the Postal Service not to exceed \$2,000,000 per violation.

“(h) CIVIL PENALTIES.—

“(1) IN GENERAL.—Any promoter—

“(A) who recklessly mails nonmailable matter in violation of subsection (b) shall be liable to the United States in an amount of \$10,000 per violation for each mailing to an individual of nonmailable matter; or

“(B) who fails to comply with the requirements of subsection (c)(2) shall be liable to the United States.

“(2) ENFORCEMENT.—The Postal Service shall, in accordance with the same procedures as set forth in section 3012(b), provide for the assessment of civil penalties under this section.”.

(b) TECHNICAL AND CONFORMING AMENDMENTS.—The table of sections for chapter 30 of title 39, United States Code, is amended by adding after the item relating to section 3016 the following:

“3017. Nonmailable skill contests or sweepstakes matter; notification to prohibit mailings.”.

(c) EFFECTIVE DATE.—This section shall take effect 1 year after the date of the enactment of this Act.

SEC. 109. STATE LAW NOT PREEMPTED.

(a) IN GENERAL.—Nothing in the provisions of this title (including the amendments made by this title) or in the regulations promulgated under such provisions shall be construed to preempt any provision of State or local law that imposes more restrictive requirements, regulations, damages, costs, or penalties. No determination by the Postal Service that any particular piece of mail or class of mail is in compliance with such provisions of this title shall be construed to preempt any provision of State or local law.

(b) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this section shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State or any specific civil or criminal statute of such State.

SEC. 110. TECHNICAL AND CONFORMING AMENDMENTS.

(a) REFERENCES TO REPEALED PROVISIONS.—Section 3001(a) of title 39, United States Code, is amended by striking “1714,” and “1718.”.

(b) CONFORMANCE WITH INSPECTOR GENERAL ACT OF 1978.—

(1) IN GENERAL.—Section 3013 of title 39, United States Code, is amended—

(A) by striking “Board” each place it appears and inserting “Inspector General”; and

(B) in the third sentence by striking “Each such report shall be submitted within sixty days after the close of the reporting period involved” and inserting “Each such report shall be submitted within 1 month (or such shorter length of time as the Inspector General may specify) after the close of the reporting period involved”; and

(C) by striking the last sentence and inserting the following:

“The information in a report submitted under this section to the Inspector General with respect to a reporting period shall be included as part of the semiannual report prepared by the Inspector General under section 5 of the Inspector General Act of 1978 for the same reporting period. Nothing in this section shall be considered to permit or require that any report by the Postmaster General under this section include any information relating to activities of the Inspector General.”.

(2) EFFECTIVE DATE.—This subsection shall take effect on the date of the enactment of this Act, and the amendments made by this subsection shall apply with respect to semiannual reporting periods beginning on or after such date of enactment.

(3) SAVINGS PROVISION.—For purposes of any semiannual reporting period preceding the first semiannual reporting period referred to in paragraph (2), the provisions of title 39, United States Code, shall continue to apply as if the amendments made by this subsection had not been enacted.

SEC. 111. EFFECTIVE DATE.

Except as provided in section 108 or 110(b), this title shall take effect 120 days after the date of the enactment of this Act.

TITLE II—FEDERAL RESERVE BOARD RETIREMENT PORTABILITY

SEC. 201. SHORT TITLE.

This title may be cited as the “Federal Reserve Board Retirement Portability Act”.

SEC. 202. PORTABILITY OF SERVICE CREDIT.

(a) CREDITABLE SERVICE.—

(1) IN GENERAL.—Section 8411(b) of title 5, United States Code, is amended—

(A) by striking “and” at the end of paragraph (3);

(B) in paragraph (4)—

(i) by striking “of the preceding provisions” and inserting “other paragraph”; and

(ii) by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(5) a period of service (other than any service under any other paragraph of this subsection, any military service, and any service performed in the employ of a Federal Reserve Bank) that was creditable under the Bank Plan (as defined in subsection (i)), if the employee waives credit for such service under the Bank Plan and makes a payment to the Fund equal to the amount that would have been deducted from pay under section 8422(a) had the employee been subject to this chapter during such period of service (together with interest on such amount computed under paragraphs (2) and (3) of section 8334(e)).

Paragraph (5) shall not apply in the case of any employee as to whom subsection (g) (or, to the extent subchapter III of chapter 83 is involved, section 8332(n)) otherwise applies.”.

(2) BANK PLAN DEFINED.—Section 8411 of title 5, United States Code, is amended by adding at the end the following:

“(i) For purposes of subsection (b)(5), the term ‘Bank Plan’ means the benefit structure in which employees of the Board of Governors of the Federal Reserve System appointed on or after January 1, 1984, participate, which benefit structure is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act (and any redesignated or successor version of such benefit structure, if so identified in writing by the Board of Governors of the Federal Reserve System for purposes of this chapter).”.

(b) EXCLUSION FROM CHAPTER 84.—

(1) IN GENERAL.—Paragraph (2) of section 8402(b) of title 5, United States Code, is amended by striking the matter before subparagraph (B) and inserting the following:

“(2)(A) any employee or Member who has separated from the service after—

“(i) having been subject to—

“(I) subchapter III of chapter 83 of this title;

“(II) subchapter I of chapter 8 of title I of the Foreign Service Act of 1980; or

“(III) the benefit structure for employees of the Board of Governors of the Federal Reserve System appointed before January 1, 1984, that is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act; and

“(ii) having completed—

“(I) at least 5 years of civilian service creditable under subchapter III of chapter 83 of this title;

“(II) at least 5 years of civilian service creditable under subchapter I of chapter 8 of title I of the Foreign Service Act of 1980; or

“(III) at least 5 years of civilian service (other than any service performed in the employ of a Federal Reserve Bank) creditable under the benefit structure for employees of the Board of Governors of the Federal Reserve System appointed before January 1, 1984, that is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act,

determined without regard to any deposit or re-deposit requirement under either such subchapter or under such benefit structure, or any requirement that the individual become subject to either such subchapter or to such benefit structure after performing the service involved; or”.

(2) EXCEPTION.—Subsection (d) of section 8402 of title 5, United States Code, is amended to read as follows:

“(d) Paragraph (2) of subsection (b) shall not apply to an individual who—

“(I) becomes subject to—

“(A) subchapter II of chapter 8 of title I of the Foreign Service Act of 1980 (relating to the Foreign Service Pension System) pursuant to an election; or

“(B) the benefit structure in which employees of the Board of Governors of the Federal Reserve System appointed on or after January 1, 1984, participate, which benefit structure is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act (and any redesignated or successor version of such benefit structure, if so identified in writing by the Board of Governors of the Federal Reserve System for purposes of this chapter); and

“(2) subsequently enters a position in which, but for paragraph (2) of subsection (b), such individual would be subject to this chapter.”.

(c) PROVISIONS RELATING TO CERTAIN FORMER EMPLOYEES.—A former employee of the Board of Governors of the Federal Reserve System who—

(1) has at least 5 years of civilian service (other than any service performed in the employ

of a Federal Reserve Bank) creditable under the benefit structure for employees of the Board of Governors of the Federal Reserve System appointed before January 1, 1984, that is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act;

(2) was subsequently employed subject to the benefit structure in which employees of the Board of Governors of the Federal Reserve System appointed on or after January 1, 1984, participate, which benefit structure is a component of the Retirement Plan for Employees of the Federal Reserve System, established under section 10 of the Federal Reserve Act (and any redesignated or successor version of such benefit structure, if so identified in writing by the Board of Governors of the Federal Reserve System for purposes of chapter 84 of title 5, United States Code); and

(3) after service described in paragraph (2), becomes subject to and thereafter entitled to benefits under chapter 84 of title 5, United States Code, shall, for purposes of section 302 of the Federal Employees' Retirement System Act of 1986 (100 Stat. 601; 5 U.S.C. 8331 note) be considered to have become subject to chapter 84 of title 5, United States Code, pursuant to an election under section 301 of such Act.

(d) EFFECTIVE DATE.—

(1) **IN GENERAL.**—Subject to succeeding provisions of this subsection, this section and the amendments made by this section shall take effect on the date of the enactment of this Act.

(2) **PROVISIONS RELATING TO CREDITABILITY AND CERTAIN FORMER EMPLOYEES.**—The amendments made by subsection (a) and the provisions of subsection (c) shall apply only to individuals who separate from service subject to chapter 84 of title 5, United States Code, on or after the date of the enactment of this Act.

(3) **PROVISIONS RELATING TO EXCLUSION FROM CHAPTER.**—The amendments made by subsection (b) shall not apply to any former employee of the Board of Governors of the Federal Reserve System who, subsequent to his or her last period of service as an employee of the Board of Governors of the Federal Reserve System and prior to the date of the enactment of this Act, became subject to subchapter III of chapter 83 or chapter 84 of title 5, United States Code, under the law in effect at the time of the individual's appointment.

SEC. 203. CERTAIN TRANSFERS TO BE TREATED AS A SEPARATION FROM SERVICE FOR PURPOSES OF THE THRIFT SAVINGS PLAN.

(a) **AMENDMENTS TO CHAPTER 84 OF TITLE 5, UNITED STATES CODE.**—

(1) **IN GENERAL.**—Subchapter III of chapter 84 of title 5, United States Code, is amended by inserting before section 8432 the following:

"§8431. Certain transfers to be treated as a separation

"(a) For purposes of this subchapter, separation from Government employment includes a transfer from a position that is subject to one of the retirement systems described in subsection (b) to a position that is not subject to any of them.

"(b) The retirement systems described in this subsection are—

"(1) the retirement system under this chapter;

"(2) the retirement system under subchapter III of chapter 83; and

"(3) any other retirement system under which individuals may contribute to the Thrift Savings Fund through withholdings from pay."

(2) **CLERICAL AMENDMENT.**—The table of sections for chapter 84 of title 5, United States Code, is amended by inserting before the item relating to section 8432 the following:

"8431. Certain transfers to be treated as a separation."

(b) **CONFORMING AMENDMENTS.**—Subsection (b) of section 8351 of title 5, United States Code, is amended by redesignating paragraph (11) as paragraph (8), and by adding at the end the following:

"(9) For the purpose of this section, separation from Government employment includes a transfer described in section 8431."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to transfers occurring before, on, or after the date of the enactment of this Act, except that, for purposes of applying such amendments with respect to any transfer occurring before such date of enactment, the date of such transfer shall be considered to be the date of the enactment of this Act. The Executive Director (within the meaning of section 8401(13) of title 5, United States Code) may prescribe any regulations necessary to carry out this subsection.

SEC. 204. CLARIFYING AMENDMENTS.

(a) **IN GENERAL.**—Subsection (f) of section 3304 of title 5, United States Code, as added by section 2 of Public Law 105-339, is amended—

(1) by striking paragraph (4);

(2) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(3) by inserting after paragraph (1) the following:

"(2) If selected, a preference eligible or veteran described in paragraph (1) shall acquire competitive status and shall receive a career or career-conditional appointment, as appropriate."

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall take effect as if enacted on October 31, 1998.

TITLE III—AMENDMENT TO THE FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT OF 1949

SEC. 301. TRANSFER OF CERTAIN PROPERTY TO STATE AND LOCAL GOVERNMENTS.

Section 203(p)(1)(B)(ii) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(p)(1)(B)(ii)) is amended by striking "December 31, 1999," and inserting "July 31, 2000. During the period beginning January 1, 2000, and ending July 31, 2000, the Administrator may not convey any property under subparagraph (A), but may accept, consider, and approve applications for transfer of property under that subparagraph."

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate agree to the amendment of the House.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Mr. President, I am delighted the Senate has now sent S. 335, the Deceptive Mail Prevention and Enforcement Act that I introduced to curb deceptive mailings, to the President for his signature.

The Senate originally passed this legislation by a vote of 93-0 on August 2. It will impose new disclosure requirements on sweepstakes mailings to protect consumers. It will also provide new authority to the Postal Service to take enforcement action against those companies sending deceptive mailings.

I want to thank several people whose hard work has made passage today possible. I particularly want to acknowledge the contributions of Senator LEVIN of Michigan, the ranking minority member of the permanent Subcommittee on Investigations, and the chief cosponsor of this important legislation. In addition, Senator COCHRAN

and Senator EDWARDS were real leaders in this effort and contributed greatly to the legislation.

There were many other Senators, as well, who cosponsored this measure. In particular, I want to recognize the contributions of several members of the Committee on Governmental Affairs, including Chairman THOMPSON, Senators LIEBERMAN, STEVENS, DURBIN, DOMENICI, AKAKA, and SPECTER. They were early cosponsors of this legislation.

Senator CAMPBELL has also played an important role. He first introduced legislation to curb some of the deceptive practices of sweepstakes companies.

In addition, there are several Members of the House of Representatives who have also worked very hard to bring to about passage today. They include Congressman JOHN McHUGH, who is chairman of the Subcommittee on the Postal Service; Congressman FATTAH, who is the ranking minority member of the subcommittee; Congressman LOBIONDO, Congressman ROGAN, Congressman MCCOLLUM, Congressman and Chairman DAN BURTON, and Congressman HENRY WAXMAN. All of them worked very hard to forge workable legislation that is going to make a real difference.

I also want to express my thanks to the members of my staff who worked very hard on this. On the subcommittee staff, Lee Blalack and Kirk Walder were instrumental, and on my personal staff, Michael Bopp, my legislative director—all of them worked very hard.

The requirements in this legislation will reduce the deceptive techniques that have caused countless Americans, hundreds of thousands of Americans, many of them elderly, to purchase products they do not need nor do they want. Once this legislation takes effect, mailings will be required to make crystal clear to consumers that no purchase is necessary to enter a sweepstakes and that making a purchase will not improve your chances of winning.

That is the primary misconception our investigation identified. Too many consumers believe if they make a purchase, somehow they will improve their chances of winning, but nothing could be further from the truth. It is easy to see why they have that misconception because that is exactly the impression these deceptive mailings are intended to leave.

In addition, the legislation will prohibit sweepstakes companies from telling people they are a winner unless they really have won a prize.

Enactment of this legislation concludes a year-long investigation by the Permanent Subcommittee on Investigations, which I chair. Prompted by complaints from my constituents in Maine, I began an investigation to examine deceptive mailings. Hearings before the subcommittee demonstrated

that the deceptive techniques of major sweepstakes companies were misleading thousands of Americans into making purchases of products. Further investigation into the activities of the smaller sweepstakes companies, the ones that I call the "stealth companies," showed that their practices were even more deceptive. In some cases, they bordered on outright fraud.

The subcommittee heard heart-breaking testimony that deceptive sweepstakes can induce trusting consumers to buy thousands of dollars of unnecessary and unwanted merchandise. One example was a magazine subscription extending to the year 2018 that one witness testified that her 82-year-old father-in-law purchased because of sweepstakes promotions.

We found that our senior citizens are particularly vulnerable to these kinds of deceptive mailings. They are a trusting generation. Many seniors tend to believe what they read, particularly if it is endorsed by a trusted spokesman, comes from a well-known company, or involves a mailing that has been designed to appear as if it is from the Federal Government.

Family members told us of loved ones who were so convinced that they had won a sweepstakes that they refused to leave their home for fear they would miss the Prize Patrol. One constituent of mine actually canceled needed surgery because she did not want to miss Ed McMahon's visit. Sadly, of course, Ed McMahon never showed up.

We found cases of seniors enticed by the bold promises of sweepstakes who spent their Social Security checks, squandered their life's savings, and even borrowed money to buy unwanted magazines and other merchandise.

I will never forget the testimony of one man who broke down in tears as he recounted how the sweepstakes companies had deceived him into purchasing \$15,000 worth of products in an effort to win the big prize.

The loss suffered by consumers cannot be measured in dollars alone. As one elderly gentleman put it:

My wife has finally come to realize that she has been duped by the sweepstakes solicitations for all these years. Although the financial train is now halted, the loss of her dignity is incalculable.

Unfortunately, these are not isolated examples. According to a survey commissioned by the AARP, 40 percent of seniors surveyed believe there is a connection between purchasing and winning. It is easy to see why consumers believe they have already won or that they will win if they just purchase something as a result of these mailings.

I would like to show you, Mr. President, and read from a sweepstakes mailing that I received last week at my home in Bangor, ME. As you can see, in bold print, it proclaims: "Our sweep-

stakes results are now final." "Ms. Susan M. Collins has won a cash prize of \$833,337." "A bank check for \$833,337 is on its way to"—my address—"in Bangor." It further warns that I will forfeit the entire amount if I refuse to respond to this notice. On the back it says, again, "A bank check for \$833,337 in cash will be sent to you by certified mail if you respond now."

I have a feeling you will not be surprised to learn that I am not the big winner. But if I relied on the information in this mailing, it would be easy to see why many people would be deceived into thinking they have, indeed, won the grand prize.

Now, in the small print—not in the bold type—but in the small print it explains that I have to have the winning number to really win the prize.

That message is overwhelmed by the bold proclamations telling me I am a winner. Of course, in case I am tempted not to enter, there is what appears to be a personal note that says, "Please don't say no now," and implores me to enter and to buy the product offered. This is not unusual. This is typical of the kinds of deceptive mailings that are all too common and that flood the mailboxes of American consumers with more than a billion pieces of mail a year.

You shouldn't have to be a lawyer, you shouldn't have to have a magnifying glass, to figure out the rules of the game and the odds of winning. Our legislation will make a real difference by requiring honest disclosures, by preventing sweepstakes companies from telling people they have won when they have not, and, most importantly, by making crystal clear to consumers that you don't have to make a purchase to win and that making a purchase will not increase your chances of winning.

Mr. President, as I said, I am pleased that the Senate is now poised to send my legislation to curb deceptive mailings to the President for his signature.

As I have described to my colleagues previously, you only have to look at some of these sweepstakes mailings to understand why. For example, one mailing by Publisher's Clearing House, which is famous for its Prize Patrol, tells the consumer to "Open Your Door To \$31 Million on January 31." This mailing suggests to the reader that his or her past purchases are paying off. Specifically, the mailing states: "You see, your recent order and entry has proven to us that you're indeed one of our loyal friends and a savvy sweepstakes player. And now I'm pleased to tell you that you've passed our selection criteria to receive this special invitation."

Another mailing from American Family Publishers stated, "It's Down to a 2 person race for \$11,000,000—You And One Other Person In Georgia Were Issued the Winning Number . . . Who-

ever Returns It First Wins It All!" Most people probably didn't see the fine print that declared, "If you have the winning number." Unless the contestant reads and understands this fine print, the mailing leaves the unmistakable impression that the recipient and one other person have the winning number for the \$11 million prize.

Mr. President, the bill adopted by the Senate would curb these problems by, for the first time, establishing federal standards for a variety of promotional mailings, including sweepstakes mailings. Such mailings must clearly and conspicuously display several important disclosures, including statements that no purchase is necessary to enter the contest and that a purchase will not improve your chances of winning; the odds of winning; the value and nature of each prize; and the name and address of the sponsor. Sweepstakes mailings would also be required to include all the rules and entry procedures for the sweepstakes.

This legislation also addresses another problem consumers experience in dealing with sweepstakes companies. The Subcommittee heard from many individuals who found it difficult to have their name or a parent's name removed from the mailing lists of sweepstakes companies, or who were told that the name removal process might take as long as six months. To address this problem, this legislation includes a section developed by Senator EDWARDS that would require companies sending sweepstakes or skill contests to establish a system allowing consumers to call or write to have their names removed from the companies' mailing lists.

The House made several modifications to this section of the bill, including extending the time from 35 days to 60 days by which companies must remove names of consumers who do not wish to receive future sweepstakes or skill contest mailings. Non-profit mailers who use sweepstakes contests requested a time limit of longer than 35 days, arguing that their limited resources might not allow the establishment of a system to quickly remove names. The 60-day limit in the bill, however, should not be used by any company to continue to inundate with more mailings those consumers who have asked to be removed from sweepstakes mailing lists. Accordingly, companies should make every effort to remove names as quickly as possible.

The House also added provisions to allow consumers to bring a private right of action in state court if they receive a mailing after previously requesting to be removed from the mailing list of a skill contest or sweepstakes promoter. Sweepstakes promoters will have an affirmative defense if they have established and implemented, with due care, reasonable practices and procedures to effectively

prevent mailings that would violate the section on name removal.

The notification system in the bill passed by the Senate, and modified by the House, requires companies to include in every mailing the address or a toll-free telephone number of the notification system, but does not require that consumers submit their name in writing to comply with the removal system. Companies are encouraged to adopt a consumer friendly system for the removal of names from their mailing lists, which may include the ability to have names removed by calling a toll-free number. Under this legislation, companies using a toll-free number to permit the removal of names would not need to require a consumer to also provide their name in writing. Any appropriate method of establishing a record of removal requests by consumers would comply with the requirements of Section 8(d) of the legislation. For example, companies may wish to electronically verify the consumer's election to be removed from their mailing list.

The legislation would strengthen the ability of the Postal Service to investigate, penalize, and stop deceptive mailings. It grants the Postal Inspection Service subpoena authority, nationwide stop mail authority, and the ability to impose tougher civil penalties. The House made several changes in the subpoena authority, including requiring the Postal Service to develop procedures for the issuance of subpoenas and their approval by the General Counsel or a Deputy General Counsel of the Postal Service. The new subpoena authority will give the Postal Inspection Service better ability to investigate and stop deceptive mailings, and I encourage the General Counsel of the Postal Service to recognize that effective enforcement of this legislation requires the timely issuance of subpoenas.

Mr. President, S. 335 will provide important new consumer protections against the many deceptive techniques currently used in promotional mailings. I thank my colleagues for their support of this measure.

I yield to the subcommittee's ranking minority member, Senator LEVIN. As I explained earlier in my remarks, he has been the chief cosponsor of this legislation and a true leader in the effort to crack down on deceptive mailings.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, I thank the good Senator from Maine for her leadership in this and so many other consumer issues. This bill would not be here on the floor of the Senate without her leadership on the Permanent Subcommittee on Investigations, which has taken responsibility for getting this bill passed.

S. 335, the bill we have just passed and sent to the President is going to

crack down on deceptive sweepstakes practices that have affected people in all of our States. Most of us have personal knowledge of the kind of egregious deceptive practices which have been perpetrated by too many companies, including some otherwise reputable companies that are using deceptive practices to suck into their net people who will be lured into believing that if they buy something or subscribe to something, somehow or other that will increase their chances of winning a prize.

The bill we are passing today is similar to one I had introduced in the 105th Congress to curb abuse of sweepstakes solicitations and provide for additional enforcement tools against deceptive mailings by the Postal Service. There were hearings held in September of 1998 in the Governmental Affairs Committee Federal Services Subcommittee that was then chaired by Senator COCHRAN.

We learned from witnesses at that hearing, including the Florida attorney general, the Michigan assistant attorney general, and the Postal Inspection Service, that senior citizens in particular are vulnerable to these deceptive solicitations and that the financial cost to seniors for deceptive and fraudulent sweepstakes is a serious problem. Deceptive sweepstakes solicitations not only cause significant financial losses but frequently carry heavy emotional losses as well.

We have constituents in Michigan, seniors, who have lost tens of thousands of dollars to deceptive sweepstakes. Their houses are frequently filled with hundreds of items they don't need that they bought because they thought somehow or other it might help them win the promised prize.

The Postal Service has inadequate tools to effectively shut down these deceptive marketing people, so we have added some tough enforcement tools in this bill.

Until this bill becomes law, the Postal Service, for instance, cannot impose a fine against a promoter who uses deceptive practices until the Postal Service first issues a stop order. Now, if you wait for a stop order to be violated before you can impose an administrative fine, what the deceptive sweepstakes promoter does is slightly modify in some way the deceptive mailing that is the subject of the stop order so they can avoid being caught by a violation of the Postal Service stop order. The Postal Service currently is too often powerless to stop these kinds of deceptive practices and the slight changes which are made in them which allow the companies that are using these practices to continue and ignore what appears to be a stop order.

In March and July of this year, Senator COLLINS chaired hearings in the Permanent Subcommittee on Inves-

tigations, where I serve as ranking member. The bill we are taking up today, S. 335, reflects what we learned at those hearings as well. Senator COLLINS has set forth for us some of the egregious examples. I will not take the time of this body to go through some of these additional examples we have. We have seen them all. We have seen the big print that says, "you have just won a big prize;" we have seen the fine, unreadable print that says but only "if you have the winning number;" the headline which says "a million dollars is yours" or "just submit this number" and you will have this big prize. The fine print says "no," you haven't. We have all seen those kinds of examples and the way people are taken in.

Fortunately, most people aren't taken in, but enough people are, so that a billion pieces of this kind of mail, sweepstakes mail, is sent out each year, including by some companies that are otherwise companies that have good reputations. We have had these kinds of deceptive mailings sent out by Time Warner, by Reader's Digest, by other companies whose names have generally prompted positive responses in people because their products have been good products. Yet they have stooped, in the case of sweepstakes, to deceptive practices in order to lull the people who receive these sweepstakes mailings into believing that if they will just buy that magazine or just buy that product, they will really seal the deal and the truck will really show up with the check. We have seen these ads on television, the come-ons. Thank God, 90 or 95 percent of the people look at them and can see them for what they are. It is that 5 or 10 percent, frequently seniors, who are taken in. We are trying to stop these practices. This bill, hopefully, will do exactly that.

We are going to require that the statement that a purchase will not increase an individual's chances of winning and that no purchase is necessary to win be clearly and conspicuously displayed in the mailing—in fact more conspicuously displayed than the other information in the mailing.

The House changed the term "prominently" in our Senate bill, which was used to describe how these two key required statements must be displayed and substituted "more conspicuously" for "prominently" to better match previous uses of the term. The intent of both houses on this subject is the same, however, and we have emphasized that point in the committee report. There should be no misunderstanding by the Postal Service and by the direct mail industry on what we intend by this.

S. 335 is also going to provide the Postal Service with authority to issue a civil penalty for the first-time violation of the statute, and we are going to

give the Postal Service subpoena authority. Those are some of the things we have done.

Again, I thank the good Senator from Maine, Ms. COLLINS, her staff, my staff, Linda Gustitus and her good crew, who have made it possible for this bill to happen. Senator EDWARDS has been extremely helpful with his provision requiring a delisting of persons not wanting to receive sweepstakes mailings. Senator COCHRAN has been very much in the forefront of this effort. Again, the majority and minority staffs of the Permanent Subcommittee on Investigations have done an absolutely superb job of putting together these hearings and developing this legislation.

I am confident that with the Senate's passage today, the President will sign the bill into law. It is a bill that will help end the abuses which too often occur in this area and which take advantage of people who are too often vulnerable to the power of suggestion.

PRIVILEGE OF THE FLOOR

Ms. COLLINS. Mr. President, I ask unanimous consent that Benjamin Brown, a legislative assistant in Senator TED STEVENS' office, be granted floor privileges for the 19th and 20th of November.

The PRESIDING OFFICER. Without objection, it is so ordered.

INTERNET GAMBLING PROHIBITION ACT OF 1999

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 158, S. 692.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 692) to prohibit Internet gambling, and for other purposes.

The Senate proceeded to consider the bill, which had been reported from the Committee on the Judiciary with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

S. 692

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Internet Gambling Prohibition Act of 1999".

SEC. 2. PROHIBITION ON INTERNET GAMBLING.

(a) IN GENERAL.—Chapter 50 of title 18, United States Code, is amended by adding at the end the following:

"§ 1085. Internet gambling

"(a) DEFINITIONS.—In this section:

"(1) BETS OR WAGERS.—The term 'bets or wagers'—

"(A) means the staking or risking by any person of something of value upon the outcome of a contest of others, a sporting event, or a game of chance, upon an agreement or understanding

that the person or another person will receive something of value based on that outcome;

"(B) includes the purchase of a chance or opportunity to win a lottery or other prize (which opportunity to win is predominantly subject to chance);

"(C) includes any scheme of a type described in section 3702 of title 28; and

"(D) does not include—

"(i) a bona fide business transaction governed by the securities laws (as that term is defined in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(47))) for the purchase or sale at a future date of securities (as that term is defined in section 3(a)(10) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(10)));

"(ii) a transaction on or subject to the rules of a contract market designated pursuant to section 5 of the Commodity Exchange Act (7 U.S.C. 7);

"(iii) a contract of indemnity or guarantee; or

"(iv) a contract for life, health, or accident insurance.

"(2) CLOSED-LOOP SUBSCRIBER-BASED SERVICE.—The term 'closed-loop subscriber-based service' means any information service or system that uses—

"(A) a device or combination of devices—

"(i) expressly authorized and operated in accordance with the laws of a State, exclusively for placing, receiving, or otherwise making a bet or wager described in subsection (f)(1)(B); and

"(ii) by which a person located within any State must subscribe and be registered with the provider of the wagering service by name, address, and appropriate billing information to be authorized to place, receive, or otherwise make a bet or wager, and must be physically located within that State in order to be authorized to do so;

"(B) an effective customer verification and age verification system, expressly authorized and operated in accordance with the laws of the State in which it is located, to ensure that all applicable Federal and State legal and regulatory requirements for lawful gambling are met; and

"(C) appropriate data security standards to prevent unauthorized access by any person who has not subscribed or who is a minor.

"(3) FOREIGN JURISDICTION.—The term 'foreign jurisdiction' means a jurisdiction of a foreign country or political subdivision thereof.

"(4) GAMBLING BUSINESS.—The term 'gambling business' means—

"(A) a business that is conducted at a gambling establishment, or that—

"(i) involves—

"(I) the placing, receiving, or otherwise making of bets or wagers; or

"(II) the offering to engage in the placing, receiving, or otherwise making of bets or wagers;

"(ii) involves 1 or more persons who conduct, finance, manage, supervise, direct, or own all or part of such business; and

"(iii) has been or remains in substantially continuous operation for a period in excess of 10 days or has a gross revenue of \$2,000 or more from such business during any 24-hour period; and

"(B) any soliciting agent of a business described in subparagraph (A).

"(5) INFORMATION ASSISTING IN THE PLACING OF A BET OR WAGER.—The term 'information assisting in the placing of a bet or wager'—

"(A) means information that is intended by the sender or recipient to be used by a person engaged in the business of betting or wagering to place, receive, or otherwise make a bet or wager; and

"(B) does not include—

"(i) information concerning parimutuel pools that is exchanged exclusively between or among 1 or more racetracks or other parimutuel wager-

ing facilities licensed by the State or approved by the foreign jurisdiction in which the facility is located, and 1 or more parimutuel wagering facilities licensed by the State or approved by the foreign jurisdiction in which the facility is located, if that information is used only to conduct common pool parimutuel pooling under applicable law;

"(ii) information exchanged exclusively between or among 1 or more racetracks or other parimutuel wagering facilities licensed by the State or approved by the foreign jurisdiction in which the facility is located, and a support service located in another State or foreign jurisdiction, if the information is used only for processing bets or wagers made with that facility under applicable law;

"(iii) information exchanged exclusively between or among 1 or more wagering facilities that are located within a single State and are licensed and regulated by that State, and any support service, wherever located, if the information is used only for the pooling or processing of bets or wagers made by or with the facility or facilities under applicable State law;

"(iv) any news reporting or analysis of wagering activity, including odds, racing or event results, race and event schedules, or categories of wagering; or

"(v) any posting or reporting of any educational information on how to make a bet or wager or the nature of betting or wagering.

"(6) INTERACTIVE COMPUTER SERVICE.—The term 'interactive computer service' means any information service, system, or access software provider that operates in, or uses a channel or instrumentality of, interstate or foreign commerce to provide or enable access by multiple users to a computer server, including specifically a service or system that provides access to the Internet.

"(7) INTERACTIVE COMPUTER SERVICE PROVIDER.—The term 'interactive computer service provider' means any person that provides an interactive computer service, to the extent that such person offers or provides such service.

"(8) INTERNET.—The term 'Internet' means the international computer network of both Federal and non-Federal interoperable packet switched data networks.

"(9) PERSON.—The term 'person' means any individual, association, partnership, joint venture, corporation (or any affiliate of a corporation), State or political subdivision thereof, department, agency, or instrumentality of a State or political subdivision thereof, or any other government, organization, or entity (including any governmental entity (as defined in section 3701(2) of title 28)).

"(10) PRIVATE NETWORK.—The term 'private network' means a communications channel or channels, including voice or computer data transmission facilities, that use either—

"(A) private dedicated lines; or

"(B) the public communications infrastructure, if the infrastructure is secured by means of the appropriate private communications technology to prevent unauthorized access.

"(11) STATE.—The term 'State' means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a commonwealth, territory, or possession of the United States.

"(12) SUBSCRIBER.—The term 'subscriber'—

"(A) means any person with a business relationship with the interactive computer service provider through which such person receives access to the system, service, or network of that provider, even if no formal subscription agreement exists; and

"(B) includes registrants, students who are granted access to a university system or network, and employees or contractors who are granted access to the system or network of their employer.

“(b) **INTERNET GAMBLING.**—

“(1) **PROHIBITION.**—Subject to subsection (f), it shall be unlawful for a person engaged in a gambling business knowingly to use the Internet or any other interactive computer service—

“(A) to place, receive, or otherwise make a bet or wager; or

“(B) to send, receive, or invite information assisting in the placing of a bet or wager.

“(2) **PENALTIES.**—A person engaged in a gambling business who violates this section shall be—

“(A) fined in an amount equal to not more than the greater of—

“(i) the total amount that such person bet or wagered, or placed, received, or accepted in bets or wagers, as a result of engaging in that business in violation of this section; or

“(ii) \$20,000;

“(B) imprisoned not more than 4 years; or

“(C) both.

“(3) **PERMANENT INJUNCTIONS.**—Upon conviction of a person under this section, the court may enter a permanent injunction enjoining such person from placing, receiving, or otherwise making bets or wagers or sending, receiving, or inviting information assisting in the placing of bets or wagers.

“(c) **CIVIL REMEDIES.**—

“(1) **JURISDICTION.**—The district courts of the United States shall have original and exclusive jurisdiction to prevent and restrain violations of this section by issuing appropriate orders in accordance with this section, regardless of whether a prosecution has been initiated under this section.

“(2) **PROCEEDINGS.**—

“(A) **INSTITUTION BY FEDERAL GOVERNMENT.**—

“(i) **IN GENERAL.**—The United States may institute proceedings under this subsection to prevent or restrain a violation of this section.

“(ii) **RELIEF.**—Upon application of the United States under this subparagraph, the district court may enter a temporary restraining order or an injunction against any person to prevent or restrain a violation of this section if the court determines, after notice and an opportunity for a hearing, that there is a substantial probability that such violation has occurred or will occur.

“(B) **INSTITUTION BY STATE ATTORNEY GENERAL.**—

“(i) **IN GENERAL.**—The attorney general of a State (or other appropriate State official) in which a violation of this section allegedly has occurred or will occur, after providing written notice to the United States, may institute proceedings under this subsection to prevent or restrain the violation.

“(ii) **RELIEF.**—Upon application of the attorney general (or other appropriate State official) of an affected State under this subparagraph, the district court may enter a temporary restraining order or an injunction against any person to prevent or restrain a violation of this section if the court determines, after notice and an opportunity for a hearing, that there is a substantial probability that such violation has occurred or will occur.

“(C) **INDIAN LANDS.**—Notwithstanding subparagraphs (A) and (B), for a violation that is alleged to have occurred, or may occur, on Indian lands (as that term is defined in section 4 of the Indian Gaming Regulatory Act (25 U.S.C. 2703))—

“(i) the United States shall have the enforcement authority provided under subparagraph (A); and

“(ii) the enforcement authorities specified in an applicable Tribal-State compact negotiated under section 11 of the Indian Gaming Regulatory Act (25 U.S.C. 2710) shall be carried out in accordance with that compact.

“(D) **EXPIRATION.**—Any temporary restraining order or preliminary injunction entered pursu-

ant to subparagraph (A) or (B) shall expire if, and as soon as, the United States, or the attorney general (or other appropriate State official) of the State, as applicable, notifies the court that issued the order or injunction that the United States or the State, as applicable, will not seek a permanent injunction.

“(3) **EXPEDITED PROCEEDINGS.**—

“(A) **IN GENERAL.**—In addition to any proceeding under paragraph (2), a district court may, in exigent circumstances, enter a temporary restraining order against a person alleged to be in violation of this section upon application of the United States under paragraph (2)(A), or the attorney general (or other appropriate State official) of an affected State under paragraph (2)(B), without notice and the opportunity for a hearing as provided in rule 65(b) of the Federal Rules of Civil Procedure (except as provided in subsection (d)(3)), if the United States or the State, as applicable, demonstrates that there is probable cause to believe that the use of the Internet or other interactive computer service at issue violates this section.

“(B) **HEARINGS.**—A hearing requested concerning an order entered under this paragraph shall be held at the earliest practicable time.

“(d) **INTERACTIVE COMPUTER SERVICE PROVIDERS.**—

“(1) **IMMUNITY FROM LIABILITY FOR USE BY ANOTHER.**—

“(A) **IN GENERAL.**—An interactive computer service provider described in subparagraph (B) shall not be liable, under this section or any other provision of Federal or State law prohibiting or regulating gambling or gambling-related activities, for the use of its facilities or services by another person to engage in Internet gambling activity that violates such law—

“(i) arising out of any transmitting, routing, or providing of connections for gambling-related material or activity (including intermediate and temporary storage in the course of such transmitting, routing, or providing connections) by the provider, if—

“(I) the material or activity was initiated by or at the direction of a person other than the provider;

“(II) the transmitting, routing, or providing of connections is carried out through an automatic process without selection of the material or activity by the provider;

“(III) the provider does not select the recipients of the material or activity, except as an automatic response to the request of another person; and

“(IV) the material or activity is transmitted through the system or network of the provider without modification of its content; or

“(ii) arising out of any gambling-related material or activity at an online site residing on a computer server owned, controlled, or operated by or for the provider, or arising out of referring or linking users to an online location containing such material or activity, if the material or activity was initiated by or at the direction of a person other than the provider, unless the provider fails to take expeditiously, with respect to the particular material or activity at issue, the actions described in paragraph (2)(A) following the receipt by the provider of a notice described in paragraph (2)(B).

“(B) **ELIGIBILITY.**—An interactive computer service provider is described in this subparagraph only if the provider—

“(i) maintains and implements a written or electronic policy that requires the provider to terminate the account of a subscriber of its system or network expeditiously following the receipt by the provider of a notice described in paragraph (2)(B) alleging that such subscriber has violated or is violating this section; and

“(ii) with respect to the particular material or activity at issue, has not knowingly permitted

its computer server to be used to engage in activity that the provider knows is prohibited by this section, with the specific intent that such server be used for such purpose.

“(2) **NOTICE TO INTERACTIVE COMPUTER SERVICE PROVIDERS.**—

“(A) **IN GENERAL.**—If an interactive computer service provider receives from a Federal or State law enforcement agency, acting within its authority and jurisdiction, a written or electronic notice described in subparagraph (B), that a particular online site residing on a computer server owned, controlled, or operated by or for the provider is being used by another person to violate this section, the provider shall expeditiously—

“(i) remove or disable access to the material or activity residing at that online site that allegedly violates this section; or

“(ii) in any case in which the provider does not control the site at which the subject material or activity resides, the provider, through any agent of the provider designated in accordance with section 512(c)(2) of title 17, or other responsible identified employee or contractor—

“(I) notify the Federal or State law enforcement agency that the provider is not the proper recipient of such notice; and

“(II) upon receipt of a subpoena, cooperate with the Federal or State law enforcement agency in identifying the person or persons who control the site.

“(B) **NOTICE.**—A notice is described in this subparagraph only if it—

“(i) identifies the material or activity that allegedly violates this section, and alleges that such material or activity violates this section;

“(ii) provides information reasonably sufficient to permit the provider to locate (and, as appropriate, in a notice issued pursuant to paragraph (3)(A) to block access to) the material or activity;

“(iii) is supplied to any agent of a provider designated in accordance with section 512(c)(2) of title 17, if information regarding such designation is readily available to the public;

“(iv) provides information that is reasonably sufficient to permit the provider to contact the law enforcement agency that issued the notice, including the name of the law enforcement agency, and the name and telephone number of an individual to contact at the law enforcement agency (and, if available, the electronic mail address of that individual); and

“(v) declares under penalties of perjury that the person submitting the notice is an official of the law enforcement agency described in clause (iv).

“(3) **INJUNCTIVE RELIEF.**—

“(A) **IN GENERAL.**—The United States, or a State law enforcement agency acting within its authority and jurisdiction, may, not less than 24 hours following the issuance to an interactive computer service provider of a notice described in paragraph (2)(B), in a civil action, obtain a temporary restraining order, or an injunction to prevent the use of the interactive computer service by another person in violation of this section.

“(B) **LIMITATIONS.**—Notwithstanding any other provision of this section, in the case of any application for a temporary restraining order or an injunction against an interactive computer service provider described in paragraph (1)(B) to prevent a violation of this section—

“(i) arising out of activity described in paragraph (1)(A)(i), the injunctive relief is limited to—

“(I) an order restraining the provider from providing access to an identified subscriber of the system or network of the interactive computer service provider, if the court determines that there is probable cause to believe that such

subscriber is using that access to violate this section (or to engage with another person in a communication that violates this section), by terminating the specified account of that subscriber; and

“(II) an order restraining the provider from providing access, by taking reasonable steps specified in the order to block access, to a specific, identified, foreign online location;

“(ii) arising out of activity described in paragraph (1)(A)(ii), the injunctive relief is limited to—

“(I) the orders described in clause (i)(I);

“(II) an order restraining the provider from providing access to the material or activity that violates this section at a particular online site residing on a computer server operated or controlled by the provider; and

“(III) such other injunctive remedies as the court considers necessary to prevent or restrain access to specified material or activity that is prohibited by this section at a particular online location residing on a computer server operated or controlled by the provider, that are the least burdensome to the provider among the forms of relief that are comparably effective for that purpose.

“(C) CONSIDERATIONS.—The court, in determining appropriate injunctive relief under this paragraph, shall consider—

“(i) whether such an injunction, either alone or in combination with other such injunctions issued, and currently operative, against the same provider would significantly (and, in the case of relief under subparagraph (B)(ii), taking into account, among other factors, the conduct of the provider, unreasonably) burden either the provider or the operation of the system or network of the provider;

“(ii) whether implementation of such an injunction would be technically feasible and effective, and would not materially interfere with access to lawful material at other online locations;

“(iii) whether other less burdensome and comparably effective means of preventing or restraining access to the illegal material or activity are available; and

“(iv) the magnitude of the harm likely to be suffered by the community if the injunction is not granted.

“(D) NOTICE AND EX PARTE ORDERS.—Injunctive relief under this paragraph shall not be available without notice to the service provider and an opportunity for such provider to appear before the court, except for orders ensuring the preservation of evidence or other orders having no material adverse effect on the operation of the communications network of the service provider.

“(4) EFFECT ON OTHER LAW.—

“(A) IMMUNITY FROM LIABILITY FOR COMPLIANCE.—An interactive computer service provider shall not be liable for any damages, penalty, or forfeiture, civil or criminal, under Federal or State law for taking in good faith any action described in paragraph (2)(A) to comply with a notice described in paragraph (2)(B), or complying with any court order issued under paragraph (3).

“(B) DISCLAIMER OF OBLIGATIONS.—Nothing in this section may be construed to impose or authorize an obligation on an interactive computer service provider described in paragraph (1)(B)—

“(i) to monitor material or use of its service; or

“(ii) except as required by a notice or an order of a court under this subsection, to gain access to, to remove, or to disable access to material.

“(C) RIGHTS OF SUBSCRIBERS.—Nothing in this section may be construed to prejudice the right of a subscriber to secure an appropriate determination, as otherwise provided by law, in a Federal court or in a State or local tribunal or agency, that the account of such subscriber

should not be terminated pursuant to this subsection, or should be restored.

“(e) AVAILABILITY OF RELIEF.—The availability of relief under subsections (c) and (d) shall not depend on, or be affected by, the initiation or resolution of any action under subsection (b), or under any other provision of Federal or State law.

“(f) APPLICABILITY.—

“(1) IN GENERAL.—Subject to paragraph (2), the prohibition in this section does not apply to—

“(A) any otherwise lawful bet or wager that is placed, received, or otherwise made wholly intrastate for a State lottery, or for a multi-State lottery operated jointly between 2 or more States in conjunction with State lotteries if—

“(i) each such lottery is expressly authorized, and licensed or regulated, under applicable State law;

“(ii) the bet or wager is placed on an interactive computer service that uses a private network;

“(iii) each person placing or otherwise making that bet or wager is physically located when such bet or wager is placed at a facility that is open to the general public; and

“(iv) each such lottery complies with sections 1301 through 1304, and other applicable provisions of Federal law;

“(B) any otherwise lawful bet or wager that is placed, received, or otherwise made on an interstate or intrastate basis on a live horse or a live dog race, or the sending, receiving, or inviting of information assisting in the placing of such a bet or wager, if such bet or wager, or the transmission of such information, as applicable, is—

“(i) expressly authorized, and licensed or regulated by the State in which such bet or wager is received, under applicable Federal and such State's laws;

“(ii) placed on a closed-loop subscriber-based service;

“(iii) initiated from a State in which betting or wagering on that same type of live horse or live dog racing is lawful and received in a State in which such betting or wagering is lawful;

“(iv) subject to the regulatory oversight of the State in which the bet or wager is received and subject by such State to minimum control standards for the accounting, regulatory inspection, and auditing of all such bets or wagers transmitted from 1 State to another; and

“(v) in the case of—

“(I) live horse racing, made in accordance with the Interstate Horse Racing Act of 1978 (15 U.S.C. 3001 et seq.); or

“(II) live dog racing, subject to consent agreements that are comparable to those required by the Interstate Horse Racing Act of 1978, approved by the appropriate State regulatory agencies, in the State receiving the signal, and in the State in which the bet or wager originates; or

“(C) any otherwise lawful bet or wager that is placed, received, or otherwise made for a fantasy sports league game or contest.

“(2) BETS OR WAGERS MADE BY AGENTS OR PROXIES.—

“(A) IN GENERAL.—Paragraph (1) does not apply in any case in which a bet or wager is placed, received, or otherwise made by the use of an agent or proxy using the Internet or an interactive computer service.

“(B) QUALIFICATION.—Nothing in this paragraph may be construed to prohibit the owner operator of a parimutuel wagering facility that is licensed by a State from employing an agent in the operation of the account wagering system owned or operated by the parimutuel facility.

“(3) ADVERTISING AND PROMOTION.—The prohibition of subsection (b)(1)(B) does not apply to advertising or promotion of any activity that is not prohibited by subsection (b)(1)(A).

“(g) RULE OF CONSTRUCTION.—Nothing in this section may be construed to affect any prohibition or remedy applicable to a person engaged in a gambling business under any other provision of Federal or State law.”

(b) TECHNICAL AMENDMENT.—The analysis for chapter 50 of title 18, United States Code, is amended by adding at the end the following:

“1085. Internet gambling.”

SEC. 3. REPORT ON ENFORCEMENT.

Not later than 3 years after the date of enactment of this Act, the Attorney General shall submit to Congress a report, which shall include—

(1) an analysis of the problems, if any, associated with enforcing section 1085 of title 18, United States Code, as added by section 2 of this Act;

(2) recommendations for the best use of the resources of the Department of Justice to enforce that section; and

(3) an estimate of the amount of activity and money being used to gamble on the Internet.

SEC. 4. SEVERABILITY.

If any provision of this Act, an amendment made by this Act, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this Act, the amendments made by this Act, and the application of this Act and the provisions of such amendments to any other person or circumstance shall not be affected thereby.

AMENDMENT NO. 2782

(Purpose: To provide a complete substitute)

Ms. COLLINS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Maine [Ms. COLLINS], for Mr. KYL, for himself and Mr. BRYAN, proposes an amendment numbered 2782.

Ms. COLLINS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under “Amendments Submitted.”)

AMENDMENT NO. 2783 TO AMENDMENT NO. 2782

Ms. COLLINS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Maine [Ms. COLLINS], for Mr. CAMPBELL, proposes an amendment numbered 2783 to amendment No. 2782.

Ms. COLLINS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 35 of the Kyl-Bryan substitute, after line 18, insert the following:

(4) INDIAN GAMING.—

(A) IN GENERAL.—Subject to paragraph (2), the prohibition in this section does not apply to any otherwise lawful bet or wager that is placed, received, or otherwise made on any game that constitutes class II gaming or class III gaming (as those terms are defined in section 4 of the Indian Gaming Regulatory

Act, 25 U.S.C. 2703), or the sending, receiving, or inviting of information assisting in the placing of any such bet or wager, as applicable, if—

(i) the game is permitted under and conducted in accordance with the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.);

(ii) each person placing, receiving, or otherwise making such bet or wager, or transmitting such information, is physically located on Indian lands (as that term is defined in section 4 of Indian Gaming Regulatory Act, 25 U.S.C. 2703) when such person places, receives, or otherwise makes the bet or wager, or transmits such information;

(iii) the game is conducted on a closed-loop subscriber-based system or a private network; and

(iv) in the case of a game that constitutes class III gaming—

(I) the game is authorized under, and is conducted in accordance with, the respective Tribal-State compacts (entered into and approved pursuant to section 11(d) of the Indian Gaming Regulatory Act, 25 U.S.C. 2710) governing gaming activity on the Indian lands, in each respective State, on which each person placing, receiving, or otherwise making such bet or wager, or transmitting such information, is physically located when such person places, receives, or otherwise makes the bet or wager, or transmits such information; and

(II) each such Tribal-State compact expressly provides that the game may be conducted using the Internet or other interactive computer service only on a closed-loop subscriber-based system or a private network.

(B) ACTIVITIES UNDER EXISTING COMPACTS.—The requirement of subparagraph (A)(iv)(II) shall not apply in the case of gaming activity, otherwise subject to this section, that was being conducted on Indian lands on September 1, 1999, with the approval of the state gaming commission or like regulatory authority of the State in which such Indian lands are located, but without such required compact approval, until the date on which the compact governing gaming activity on such Indian lands expires (exclusive of any automatic or discretionary renewal or extension of such compact), so long as such gaming activity is conducted using the Internet or other interactive computer service only on a closed-loop subscriber-based system or a private network. For purposes of this subparagraph, the phrase “conducted on Indian lands” shall refer to all Indian lands on which any person placing, receiving, or otherwise making a bet or wager, or sending, receiving, or inviting information assisting in the placing of a bet or wager, is physically located when such person places, receives, or otherwise makes the bet or wager, or sends, receives, or invites such information.

Mr. KYL. Mr. President, I rise in strong support of S. 692, the Internet Gambling Prohibition Act of 1999. As we move toward passage of this landmark legislation, I want to thank especially Senator BRYAN, the original cosponsor of S. 692, Senator FEINSTEIN, the ranking member of the Subcommittee on Technology, Terrorism, and Government Information, and Senator HATCH, the Chairman of the Judiciary Committee. I also want to acknowledge the role of Senator CAMPBELL in helping ensure that the legislation addressed issues of concern to Indian tribes, and Senator LEAHY, the

ranking member of the Judiciary Committee, who helped advance S. 692 notwithstanding his differences with some of its features. Finally, I want to thank all of my colleagues who joined the legislation as cosponsors following its introduction.

S. 692 enjoys extraordinarily broad public support. Those supporting it—ranging from Federal and State law-enforcement authorities to religious, consumer, and family groups, from the professional and amateur sports leagues to the thoroughbred racing industry—are fully identified in the Judiciary Committee report accompanying the bill. I want to acknowledge, in particular, the support of the National Association of Attorneys General, the National Football League, and the National Collegiate Athletic Association, and the constructive role played by the American Horse Council, the Major League Baseball Players Association, and America Online, which spearheaded a coalition of Internet service providers and others interested in this legislation. I would particularly like to thank David Remes, Gerry Waldron, Marty Gold, Daniel Nestel, and Stephen Higgins, whose hard work and diplomatic skills played an important role in securing the passage of the bill by unanimous consent.

The bill we are voting on today, which the Judiciary Committee approved in June by a recorded vote of 16-1, is the culmination of efforts begun in the last Congress, when Senator BRYAN and I first introduced legislation to prohibit Internet gambling. That legislation, S. 474, was approved by the Judiciary Committee in August 1997 and passed by a 90-10 vote as an amendment to the Commerce-Justice-State appropriations bill in July 1998. The Subcommittee on Crime of the House Judiciary Committee held hearings on an Internet gambling bill in that the last Congress (H.R. 2380) and approved a revised version of the bill (H.R. 4427), but the House did not complete action on the legislation due to the lateness of the session, and the Senate language was not included in the final version of the appropriations measure. New legislation, similar to S. 692, has been introduced in the House in this Congress, and I am quite hopeful that Internet gambling legislation will be enacted into law early next year.

Mr. President, as documented in the Judiciary Committee's report, both the number of Internet gambling sites, and Internet gambling revenues, have grown rapidly since Internet gambling first appeared in the summer of 1995. Two studies cited by the National Gambling Impact Study Commission in its “Final Report” to Congress this summer indicate that Internet gambling revenues have doubled every year for the past three years. One study reported growth from \$300 million in 1998

to \$651 million in 1999, and projected revenues of \$2.3 billion by 2001. Another study reported growth from \$445.4 million in 1997 to \$919.1 million in 1998. The Commission noted estimates by the Financial Times and Smith Barney that Internet gambling will reach annual revenues of \$10 billion early in the new millennium. A third study cited by the Commission found that the number of online gamblers had increased from 6.9 million to 14.5 million between 1997 and 1998. According to the Commission, “virtually all observers assume the rapid growth of Internet gambling will continue.”

It is no exaggeration to say that the Internet has brought gambling into every home that has purchased a computer and chosen to go online. According to the Department of Commerce, 26.2 percent of U.S. households had Internet access at the end of 1998, representing 27 million households. That percentage will undoubtedly continue to grow (millions of other U.S. households have computers but simply have not yet chosen to go online) until, not long from now, online home computers will be as commonplace as the humble telephone—which, like the telegraph before it, seemed as revolutionary and wondrous, in its day, as the Internet seems today.

As a new technology, the Internet presents new problems that current law must be updated to address. These problems, which S. 692 is designed to remedy, are extensively documented in the Judiciary Committee's report. They include, among others, serious harms to our young people, who are the most adept users of Internet; harms from gambling on professional and amateur sports events and athletic performances; and harms relating to pathological gambling and criminal activity. It is vital that we legislate to prevent the Internet from being used as an instrument of gambling and establish an effective mechanism—specifically tailored to this new medium—for enforcing that prohibition. In establishing such a mechanism, however, it is also important to avoid impeding or disrupting the use of the Internet as an instrument of lawful activity. I am confident that S. 602 meets these objectives. Moreover, the fact that the legislation is strongly supported by the chief law enforcement officers of the States is compelling evidence that it strikes the right balance between Federal and State authority in this area.

S. 692 creates a new section 1085 of title 18. It prohibits any person engaged in a gambling business from using the Internet to place, receive, or otherwise make a bet or wager, or to send, receive, or invite information assisting in the placing of a bet or wager, and it establishes mechanisms tailored to the Internet to enforce this prohibition. The new section provides criminal penalties for violations, authorizes

civil enforcement proceedings by Federal and State authorities, and establishes mechanisms for requiring Internet service providers to terminate or block access to material or activity that violates the prohibition.

Because section 1085, as reported by the Judiciary Committee, is comprehensively analyzed in the Judiciary Committee's report, I will only describe its structure here. Section 1085(a) contains definitions. Section 1085(b) contains the prohibitions and criminal penalties. Section 1085(c) provides for civil actions by the United States and the States to prevent and restrain violations, applicable to persons other than Internet service providers. Section 1085(d) establishes responsibilities for Internet service providers, enforceable through civil injunction actions by Federal and State authorities, and grants providers specified immunities from liability. Section 1085(e) specifies that the availability of relief under subsections (c) and (d), which is civil in nature, is independent of any criminal action under subsection (b) or any other Federal or State law. Section 1085(f) specifies categories of activities that, if otherwise lawful, are not subject to the prohibition of subsection (b). This subsection addresses State lotteries, pari-mutuel animal wagering, Indian gaming, and fantasy sports league games and contests. Section 1085(f) specifically preserves the regulatory authority of the States with respect to gambling and gambling-related activities not subject to the prohibition of subsection (b), but nothing in section 1085 authorizes discriminatory or other action by a State that would otherwise violate the Commerce Clause. Section 1085(g) specifies that section 1085 does not create immunity from any criminal prosecution under any provision of Federal or State law, except as provided in subsection (d), and does not affect any prohibition or remedy applicable to a person engaged in a gambling business under any other provision of Federal or State law.

Mr. President, the bill we are voting on today has been modified in several respects from the version reported by the Judiciary Committee. All but one of those modifications affect section 1085. The other affects section 3 of the bill, which calls for a report to Congress by the Department of Justice two years after enactment.

Proceedings by Sports Organizations. The bill has been amended by adding a new subparagraph (C) to section 1085(c)(2) to authorize a professional or amateur sports organization whose games, or the performances of whose athletes in such games, are alleged to be the basis of a violation of section 1085 to institute civil proceedings in an appropriate district court of the United States to prevent or restrain the violation. The right of action provided by this subparagraph is similar to the

right of action for sports organizations provided in the Professional and Amateur Sports Protection Act, 28 U.S.C. 3701 et seq., which Congress passed in 1992 to halt the spread of legalized sports betting and S. 692 is intended to reinforce. The new subparagraph limits proceedings, by sports organizations against interactive computer service providers.

Advertising and promotion of Non-Internet Gambling. The bill has been amended by adding a new paragraph (4) to section 1085(d) to address the responsibilities and immunities of an Internet service provider relating to the use of its facilities by another person to advertise or promote non-online gambling. Paragraph (4) generally mirrors the approach of paragraph (1), which addresses the responsibilities and immunities of an Internet service provider relating to the use of its facilities by another person to engage in online gambling activity. Paragraph (4) provides that, if specified conditions are met, a provider shall not be liable, under any provision of Federal or State law prohibiting or regulating gambling or gambling-related activities, or under any State law prohibiting or regulating advertising and promotional activities, either (1) for content, provided by another person, that advertises or promotes non-Internet gambling activity that is unlawful under such Federal or State law, arising out of any of the activities described in section 1085(d)(1)(A)(i) or (ii); or (2) for content, provided by another person, that advertises or promotes non-Internet gambling activity that is lawful under both Federal law and the law of the State where the gambling activity is being conducted. To be eligible for immunity under paragraph (4), a provider must, among other things, offer residential customers at reasonable cost computer software, or another filtering or blocking system, that includes the capability of filtering or blocking access by minors to Internet gambling sites that violate section 1085. Paragraph (4) provides for injunctive relief under specified circumstances.

Horse Racing. The bill has been amended by adding language to subsection (f)(1)(B)(v)(I) to recognize, expressly, the authority of the State in which the bet or wager originates to prohibit or regulate the activity relating to live horse races described in subparagraph (B). This authority was implicit; the amendment makes it explicit.

Indian Gaming. The bill has been amended to address Indian gaming by adding a new paragraph (4) to section 1085(f). The new paragraph specifies that the prohibitions of section 1085 regarding the use of the Internet or other interactive computer service do not apply to any otherwise lawful bet or wager that is placed, received, or oth-

erwise made on any game that constitutes class II gaming or class III gaming (as those terms are defined in the Indian Gaming Regulatory Act), or the sending, receiving, or inviting of information assisting in the placing of any such bet or wager, as applicable, if four conditions are met.

First, the game must be one that is permitted under and conducted in accordance with the Indian Gaming Regulatory Act.

Second, each person placing, receiving, or otherwise making such bet or wager, or transmitting (i.e., sending, receiving, or inviting) such information, must be physically located in a gaming facility on Indian lands when such person places, receives, or otherwise makes the bet or wager, or transmits such information.

Third, the game must be conducted on a closed-loop subscriber-based system or a private network.

Fourth, in the case of a game that constitutes class III gaming, the game must be authorized under, and be conducted in accordance with, the respective Tribal-State compacts that govern gaming activity on the Indian lands on which each person placing, receiving, or otherwise making such bet or wager, or transmitting such information, is physically located when such person places, receives, or otherwise makes the bet or wager, or transmits such information. In addition, each such Tribal-State compact must expressly provide that the game may be conducted using the Internet or other interactive computer service only on a closed-loop subscriber-based system or a private network.

To illustrate one application of the fourth condition, suppose that Person A, a player who is physically located on Indian lands in Florida, by using the Internet or other interactive computer service, places or makes a bet or wager with Person B, a person operating or employed by a casino who is physically located on Indian lands in Idaho. To be lawful under section 1085 in this illustration, the game, among other things, must be one that is expressly authorized (1) by the compact that governs gaming activity on the Indian lands in Florida on which Person A is physically located when he places or makes the bet or wager, and (2) by the compact that governs gaming activity on the Indian lands in Idaho on which Person B is physically located when the bet is placed, received, or otherwise made. In addition, both compacts must expressly provide such gaming activity may be conducted using the Internet or other interactive computer service only on a closed-loop subscriber-based system or a private network.

Paragraph (4) further provides that the requirement of compact language expressly allowing the game to be conducted using the Internet or other interactive computer service, if a

closed-loop subscriber-based system or a private network is used, as set forth in paragraph (4)(A)(iv)(II), shall not apply in the case of gaming activity, otherwise subject to section 1085, that was being conducted on Indian lands using the Internet or other interactive computer service on September 1, 1999, with the approval of the State gaming commission or like regulatory authority of the State in which such Indian lands are located, but without the compact language required by paragraph (4)(A)(iv)(II). The exemption applies only until the date on which the compact governing gaming activity on such Indian lands expires (exclusive of any automatic or discretionary renewal or extension of such compact), and only to the extent that the gaming activity is conducted using the Internet or other interactive computer service on a closed-loop subscriber-based system or a private network. This exemption avoids the need to renegotiate compacts currently in effect if the specified conditions are satisfied. The exemption waives only the requirement of subparagraph (A)(iv)(II). It does not in any manner waive the compact authorization requirement of subparagraph (A)(iv)(I), the physical location requirement of subparagraph (A)(ii), the closed-loop or private network requirement of subparagraph (A)(iii), or any other requirement of subparagraph (A).

To use the previous illustration, if the compact that currently governs gaming on the Indian lands in Florida on which Person A is physically located when Person A places or makes the bet or wager does not expressly specify that the game may be conducted using the Internet or other interactive computer service (if a closed-loop subscriber-based system or a private network is used), the game may nevertheless be conducted on those Indian lands using the Internet or other interactive computer service (if a closed-loop subscriber-based system or a private network is used), notwithstanding section 1085, until that compact expires, if the game was one that was conducted on those Indian lands in Florida using the Internet or other interactive computer service on September 1, 1999, with the approval of the gaming commission or like regulatory authority of Florida. After the compact expires, however, any gaming on those Indian lands using the Internet or other interactive computer service is subject to the requirement of express approval (limited to use of a closed-loop subscriber-based system or a private network) in subsequent compacts governing gaming activity on those Indian lands.

Rule of Construction. The bill has been amended by adding a new paragraph to section 1085(g) to make even more explicit that, except as provided in subsection (d), section 1085 does not

create immunity from any criminal prosecution under any provision of Federal or State law. This amendment responds to a concern expressed by Senator LEAHY.

Report on Enforcement. Section 3 of S. 692 has been amended to require the Justice Department to include in the required report to Congress further information specified by the Gambling Impact Study Commission in its "Final Report".

Mr. President, S. 692 is urgently needed to address a serious social problem. It reflects the very best thinking on how to update existing law to meet the challenges of a new technology. I respectfully urge its passage.

Mr. LEAHY. Mr. President, I have long been an advocate for legislation that ensures that existing laws keep pace with developing technology. It is for this reason that I have sponsored and supported over the past few years a host of bills to bring us into the 21st Century.

This same impetus underlies my support of legislation to ensure our nation's gambling laws keep pace with developing technology, particularly the Internet. The Department of Justice has noted that "the Internet has allowed for new types of electronic gambling, including interactive games such as poker or blackjack, that may not clearly be included within the types of gambling currently made illegal. . . ." This new technology clearly has the potential to diminish the effectiveness of current gambling statutes.

Vermonters have spoken clearly that they do not want certain types of gambling permitted in our state, and they do not want current laws to be rendered obsolete by the Internet. Vermont Attorney General William Sorrell strongly supports federal legislation to address Internet gambling, as do other law enforcement officials in Vermont.

I believe, therefore, that there is considerable value in updating our federal gambling statutes, which is why I voted for S. 692, the "Internet Gambling Prohibition Act," during Senate Judiciary Committee consideration. I support the bill as a step forward in our bipartisan efforts to make sure our federal laws continue to keep pace with emerging technologies.

I do, however, have concerns that S. 692 might unnecessarily weaken existing federal and state gambling laws.

My first concern is that the bill provides unnecessary exemptions from its Internet gambling ban for certain forms of gambling activities without a clear public policy justification. For example, the bill exempts parimutuel wagering on horse and dog racing from its ban on Internet gambling. The sponsors of S. 692 have offered no compelling reason for this special treatment of one form of gambling. Indeed, the Department of Justice is "espe-

cially troubled by the broad exemptions given to parimutuel wagering, which essentially would make legal on the Internet types of parimutuel wagering that are not legal in the physical world," according to its June 9, 1999 views letter on S. 692.

Broad exemptions from the Internet gambling ban also contradict the recent recommendations to Congress of the National Gambling Impact Study Commission. After 2 years of taking testimony at hearings across the country, the Commission has endorsed the need for Federal legislation to prohibit Internet gambling. But the Commission clearly rejected adding new exemptions to the law in such a ban.

Indeed, in a letter to me dated June 15, 1999, Kay C. James, Chair, and William Bible, Commissioner, of the National Gambling Impact Study Commission, wrote:

The Commission recommends to the President, Congress, and the Department of Justice (DOJ) that the Federal government should prohibit, *without allowing new exemptions or the expansion of existing federal exemptions to other jurisdictions*, Internet gambling not already authorized within the United States or among parties in the United States and any foreign jurisdiction. (emphasis in the original)

My second concern is that the bill unnecessarily creates a new section in our Federal gambling statutes, which may prove inconsistent with existing law and established legal precedent. Instead of updating section 1084 of title 18, which has prohibited interstate gambling through wire communications since 1961, S. 692 creates a new section 1085 to title 18 to cover Internet gambling only. Creating a new section out of whole cloth with different definitions and other provisions from existing Federal gambling statutes creates overlapping and inconsistent Federal gambling laws for no good reason.

According to its views letter on S. 692, the Department of Justice believes overlapping and inconsistent Federal gambling laws can be easily avoided by amending section 1084 of title 18 to cover Internet gambling:

We therefore strongly recommend that Congress address the objective of this legislation through amending existing gambling laws, rather than creating new laws that specifically govern the Internet. Indeed, the Department of Justice believes that an amendment to section 1084 of title 18 could satisfy many of the concerns addressed in S. 692, as well as ensure that the same laws apply to gambling businesses, whether they operate over the Internet, the telephone, or some other instrumentality of interstate commerce.

I want to thank the sponsors of the legislation, Senators KYL and BRYAN, for addressing my third concern in their substitute amendment. I was concerned that the bill might unnecessarily create immunity from criminal prosecution under State law for Internet gambling. Any new immunity would have been in sharp contrast to

existing Federal law, which specifically does not grant immunity from State prosecution for illegal gambling over wire communications.

To address this concern, the substitute amendment adds a new Rules of Construction section, section 2 (g)(1), which I authored. This section makes it clear that, except for the liability limits provided to Interactive Computer Service Providers in section 2 (d) of the bill, S. 692 does not provide any other immunity from Federal or State prosecution for illegal Internet gambling.

Indeed, the New York Attorney General recently prosecuted an offshore Internet gambling company, World Interactive Gaming Corporation, for targeting New York citizens in violation of State and Federal anti-gambling statutes. This past July, the New York State Supreme Court upheld that prosecution.

As a former State prosecutor in Vermont, I strongly believe that Congress should not tie the hands of our State crime-fighting partners in the battle against Internet gambling when we do not mandate Federal preemption of state criminal laws for other forms of illegal gambling. Instead, we need to foster effective Federal-State partnerships to combat illegal Internet gambling.

During our consideration of the Internet Gambling Prohibition Act in this Congress and the last, the sponsors of the bill and members of the Senate Judiciary Committee have improved and refined the bill on a bipartisan basis. The bill now applies only to gambling businesses, instead of individual bettors. This will permit Federal authorities to target the prosecution of interstate gambling businesses, while rightly leaving the prosecution of individual bettors to the discretion of state authorities acting under state law.

As Senators continue to work together to enact a ban on Internet gambling, we should keep these words from the Department of Justice foremost in our minds: "[A]ny prohibitions that are designed to prohibit criminal activity on the Internet must be carefully drafted to accomplish the legislation's objectives without stifling the growth of the Internet or chilling its use as a communication medium."

I look forward to working with my colleagues on both sides of the aisle and the administration to enact into law carefully drafted legislation to update our Federal gambling statutes to ensure that new types of gambling activities made possible by emerging technologies are prohibited.

Mr. TORRICELLI. Mr. President, I express my deep appreciation and thanks to Senator KYL for his diligent work to help resolve my concerns. This compromise is reflected in section 1085. This language is very important to permitting parimutuel wagering on horse

racing to be exempted from the prohibition on Internet gambling that we are enacting.

The new language makes explicit which was implicit and assures that every State has the right to establish requirements for Internet and phone wagering that will best serve the public and governmental interests of the State and to do so, if it wishes, before such wagering takes place. I believe this is so important because it ensures that a State will have its traditional authority to safeguard the interests of its consumers and racing industry through the regulatory and approval process of proposed phone or Internet wagering.

Mr. CAMPBELL. Mr. President, today the Senate considers S. 692, entitled the "Internet Gaming Prohibition Act." As my colleagues know, I support this measure but from the day this bill was introduced I have had concerns about its scope. As Chairman of the Committee on Indian Affairs I have been concerned that existing law, namely the Indian Gaming Regulatory Act, would be irreparably harmed unless we made certain changes to the bill.

This is an important bill and I support the intent of the bill's sponsors to make it more difficult for this kind of gaming to be conducted, particularly by underage players.

If enacted, this bill would prohibit Internet gambling, but make exceptions for certain segments of the gaming industry which currently use a variety of technologies to enhance traditional gaming.

It is important for my colleagues to realize that the bill does not prohibit all forms of gaming using available high-technology. When I reviewed S. 692 for the first time, I realized that certain gaming activities currently being conducted by Indian tribes would be prohibited by this bill.

My concerns centered on the fact that the same or similar activities were allowed to other entities—such as the states, the horse-racing industry and others—that were disallowed to tribes. This fundamental inequity is what led me to propose fair treatment for tribal governmental gaming.

In addition to issues of equity, the economic impacts of Indian gaming are substantial and should be acknowledged. These revenues provide an important source of development capital and jobs for many tribes across the country. Contrary to the views many here hold, Indian gaming is very highly regulated by federal, state and tribal officials, and has been subject to federal law for eleven years.

I addressed my concerns to the Senate Judiciary Committee in June of this year and began discussions on how best to address currently-legal Indian gaming in S. 692. My main concerns with drafting any language dealing

with Indian gaming and the IGRA centered on the following requirements:

1. All gaming must be legal under current federal law;
2. All class III gaming (casino style) must be conducted pursuant to a tribal state compact; and
3. All aspects of the game must take place on Indian Lands (game, player, facility, server, etc.).

It is critical to note that there is no tribe in the U.S. that is currently offering online/Internet betting. Instead, several tribes currently use widely-available technology to broadcast bingo to numerous operations located on Indian lands or to link class III games for the purpose of determining an aggregate betting pool for the purpose of offering bigger prizes.

It is my understanding in supporting the substitute along with my amendment, that S. 692 allows tribes to continue their current practices regarding the use of technology to enhance the effectiveness and profitability of their operations, but does not authorize any tribe to operate betting on the Internet as it currently perceived by the general public.

The specific provisions of my amendment address all currently legal class II and class III gaming, as defined in the Indian Gaming Regulatory Act, 25 U.S.C. §2701 et seq.

Accordingly, for Indian gaming activities to not run afoul of the provisions of S. 692

1. The game must be conducted according to the requirements of IGRA.

2. All persons making or receiving a bet, or transmitting information regarding a bet must be on Indian lands. That means all aspects of the game must be located on tribal land, including the person playing the game, the actual machine which is the game, and any computer server which may be used to keep track of information relating to the play of the game. In the case of a satellite (which cannot be located on Indian land), all machinery used to receive the signal must be located on Indian land.

3. The game must be conducted on an interactive computer service which uses a closed-loop subscriber based service or a private network.

4. Where class III games are conducted, each tribe participating in a network must have a compact which authorizes games to be conducted using the technology described, that is, an interactive computer service which uses a closed-loop subscriber-based service or a private network. It is critical to understand that this means that a tribe must have a compact only in the state in which they are located, not that they compact with every state in which the network is located.

5. In jurisdictions where class III gaming is currently using technology to link games, but either have compacts which do not specifically authorize networked games, or that do authorize these games, but do not contain

the specific authorization required in S. 692, the amendment allows them to continue the operations of those games until the expiration of their current compact. The current language addressing technology that is included in most compacts does not contain the exact terminology as defined in S. 692.

Additionally, there are other states where language that addresses the use of technology is not contained in the compact, but the state has consented to the use of technology. My amendment contains a "grandfather clause" for those operations, which will run until their compacts expire by their own terms. Once a tribe's compact expires, the compact must be renegotiated and will be required to contain language which conforms to the requirements of S. 692.

Contrary to the views of some, Indian tribes are not generally interested in operating games which are broadcast on the "world wide web" or the Internet, and in which a person sitting in their home may "log on" to a computer and begin placing bets.

Indian tribes are, however, interested in continuing the operation of the games they currently have, and which they have agreed with their states are legal. This amendment allows them to do just that.

Mr. FEINGOLD. Mr. President, I rise today to express my opposition to the Internet Gambling Prohibition Act of 1999. I voted against this bill when it was brought to the floor last year as an amendment to an appropriations bill and again this year when it came through the Judiciary Committee.

I am pleased to see that Senator KYL was able to reach an agreement with Senator CAMPBELL and others to address Indian gaming issues. The bill's special treatment of certain forms of gambling was one of the reasons I voted against this bill when it was before the Judiciary Committee. It allowed state lotteries, fantasy sports leagues, and horse and dog track racing to continue to operate over the Internet, but prohibited use of the Internet for Indian gaming, which is expressly authorized by federal law. Under Senator CAMPBELL's amendment to S. 692, Indian gaming can continue to operate over the Internet under certain circumstances.

While I am glad to see the Indian gaming issue addressed, I nevertheless remain concerned with the fact that this bill singles out one emerging technology, the Internet, to try to attack the broad, complex social problems associated with gambling. The Internet is an evolving technology, and its full potential as a medium of expression has not been reached. While I share some of the concerns about the dangers of gambling that have inspired the sponsors of this legislation, I am reluctant to start down the path of restricting the use of the Internet for any particular lawful

purpose. Once we have prohibited gambling on the Internet, what will be the next on-line activity that we will try to ban? We need to be very careful not to create a precedent that might stifle the commercial and educational development of this very exciting technological tool with unhealthy implications for the First Amendment. I fear that this bill starts us down a road in that direction.

Mr. President, in light of the expressed sentiment of this body last year, I did not object to the unanimous consent request to pass this bill in the closing days of this session, but I would like the record to reflect my continuing opposition to this bill.

Thank you. I yield the floor.

Ms. COLLINS. Mr. President, I ask unanimous consent that the amendments be agreed to, the substitute amendment be agreed to, as amended, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2783) was agreed to.

The amendment (No. 2782) was agreed to.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 692), as amended, was read the third time and passed, as follows:

[The bill was not available for printing. It will appear in a future edition of the RECORD.]

DATE-RAPE DRUG CONTROL ACT OF 1999

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 416, S. 1561.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill to amend the Controlled Substance Act to add gamma hydroxybutyric acid and ketamine to the schedules of control substances, to provide for a national awareness campaign, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on the Judiciary, with amendments as follows:

[Matter proposed to be deleted is enclosed in black brackets; new matter is printed in italic.]

S. 1516

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

[This Act may be cited as the "Date-Rape Drug Control Act of 1999".]

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hillory J. Farias and Samantha Reid Date-Rape Drug Prohibition Act of 1999".

SEC. 2. FINDINGS.

Congress finds as follows:

(1) Gamma hydroxybutyric acid (also called G, Liquid X, Liquid Ecstasy, Grievous Bodily Harm, Georgia Home Boy, Scoop) has become a significant and growing problem in law enforcement. At least 20 States have scheduled such drug in their drug laws and law enforcement officials have been experiencing an increased presence of the drug in driving under the influence, sexual assault, and overdose cases especially at night clubs and parties.

(2) A behavioral depressant and a hypnotic, gamma hydroxybutyric acid ("GHB") is being used in conjunction with alcohol and other drugs with detrimental effects in an increasing number of cases. It is difficult to isolate the impact of such drug's ingestion since it is so typically taken with an ever-changing array of other drugs and especially alcohol which potentiates its impact.

(3) GHB takes the same path as alcohol, processes via alcohol dehydrogenase, and its symptoms at high levels of intake and as impact builds are comparable to alcohol ingestion/intoxication. Thus, aggression and violence can be expected in some individuals who use such drug.

(4) If taken for human consumption, common industrial chemicals such as gamma butyrolactone and 1,4-butanediol are swiftly converted by the body into GHB. Illicit use of these and other GHB analogues and precursor chemicals is a significant and growing law enforcement problem.

(5) A human pharmaceutical formulation of gamma hydroxybutyric acid is being developed as a treatment for cataplexy, a serious and debilitating disease. Cataplexy, which causes sudden and total loss of muscle control, affects about 65 percent of the estimated 180,000 Americans with narcolepsy, a sleep disorder. People with cataplexy often are unable to work, drive a car, hold their children or live a normal life.

(6) Abuse of illicit GHB is an imminent hazard to public safety that requires immediate regulatory action under the Controlled Substances Act (21 U.S.C. 801 et seq.).

SEC. 3. ADDITION OF GAMMA HYDROXYBUTYRIC ACID AND KETAMINE TO SCHEDULES OF CONTROLLED SUBSTANCES; GAMMA BUTYROLACTONE AS ADDITIONAL LIST I CHEMICAL.

[(a) ADDITION TO SCHEDULE I.—

[(1) IN GENERAL.—Section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)) is amended by adding at the end of schedule I the following:

["(d) Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation, which contains any quantity of the following substance having a depressant effect on the central nervous system, or which contains any of their salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

["(1) Gamma hydroxybutyric acid.".]

[(2) SECURITY OF FACILITIES.—For purposes of any requirements that relate to the physical security of registered manufacturers and registered distributors, gamma hydroxybutyric acid and its salts, isomers, and salts of isomers manufactured, distributed, or possessed in accordance with an exemption approved under section 505(i) of the Federal Food, Drug, and Cosmetic Act shall be treated as a controlled substance in schedule III under section 202(c) of the Controlled Substances Act.

[(b) ADDITION TO SCHEDULE III.—Schedule III under section 202(c) of the Controlled

Substances Act (21 U.S.C. 812(c)) is amended in (b)—

[(1) by redesignating (4) through (10) as (6) through (12), respectively; and

[(2) by redesignating (3) as (4);

[(3) by inserting after (2) the following:

“(3) Gamma hydroxybutyric acid and its salts, isomers, and salts of isomers contained in a drug product for which an application has been approved under section 505 of the Federal Food, Drug, and Cosmetic Act.”; and

[(4) by inserting after (4) (as so redesignated) the following:

“(5) Ketamine and its salts, isomers, and salts of isomers.”.

[(c) ADDITIONAL LIST I CHEMICAL.—Section 102(34) of the Controlled Substances Act (21 U.S.C. 802(34)) is amended—

[(1) by redesignating subparagraph (X) as subparagraph (Y); and

[(2) by inserting after subparagraph (W) the following subparagraph:

“(X) Gamma butyrolactone.”.

[(d) RULE OF CONSTRUCTION REGARDING CONTROLLED SUBSTANCE ANALOGUES.—Section 102(32) of the Controlled Substances Act (21 U.S.C. 802(32)) is amended—

[(1) in subparagraph (A), by striking “subparagraph (B)” and inserting “subparagraph (C)”;

[(2) by redesignating subparagraph (B) as subparagraph (C); and

[(3) by inserting after subparagraph (A) the following new subparagraph (B):

“(B) The designation of gamma butyrolactone or any other chemical as a listed chemical pursuant to paragraph (34) or (35) does not preclude a finding pursuant to subparagraph (A) that the chemical is a controlled substance analogue.”.

[(e) PENALTIES REGARDING SCHEDULE I.—

[(1) IN GENERAL.—Section 401(b)(1)(C) of the Controlled Substances Act (21 U.S.C. 841(b)(1)(C)) is amended in the first sentence by inserting after “schedule I or II,” the following: “gamma hydroxybutyric acid in schedule III.”.

[(2) CONFORMING AMENDMENT.—Section 401(b)(1)(D) of the Controlled Substances Act (21 U.S.C. 841(b)(1)(D)) is amended by inserting “(other than gamma hydroxybutyric acid)” after “schedule III”.

[(f) DISTRIBUTION WITH INTENT TO COMMIT CRIME OF VIOLENCE.—Section 401(b)(7)(A) of the Controlled Substances Act (21 U.S.C. 841(b)(7)(A)) is amended by inserting “or controlled substance analogue” after “distributing a controlled substance.”.]

SEC. 3. EMERGENCY SCHEDULING OF GAMMA HYDROXYBUTYRIC ACID AND LISTING OF GAMMA BUTYROLACTONE AS LIST I CHEMICAL.

(a) EMERGENCY SCHEDULING OF GHB.—

(1) IN GENERAL.—The Congress finds that the abuse of illicit gamma hydroxybutyric acid is an imminent hazard to the public safety. Accordingly, the Attorney General, notwithstanding sections 201(a), 201(b), 201(c), and 202 of the Controlled Substances Act, shall issue, not later than 60 days after the date of the enactment of this Act, a final order that schedules such drug (together with its salts, isomers, and salts of isomers) in the same schedule under section 202(c) of the Controlled Substances Act as would apply to a scheduling of a substance by the Attorney General under section 201(h)(1) of such Act (relating to imminent hazards to the public safety), except as follows:

(A) For purposes of any requirements that relate to the physical security of registered manufacturers and registered distributors, the final order shall treat such drug, when the drug is manufactured, distributed, or possessed in accordance with an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act

(whether the exemption involved is authorized before, on, or after the date of the enactment of this Act), as being in the same schedule as that recommended by the Secretary of Health and Human Services for the drug when the drug is the subject of an authorized investigational new drug application (relating to such section 505(i)). The recommendation referred to in the preceding sentence is contained in the first paragraph of the letter transmitted on May 19, 1999, by such Secretary (acting through the Assistant Secretary for Health) to the Attorney General (acting through the Deputy Administrator of the Drug Enforcement Administration), which letter was in response to the letter transmitted by the Attorney General (acting through such Deputy Administrator) on September 16, 1997. In publishing the final order in the Federal Register, the Attorney General shall publish a copy of the letter that was transmitted by the Secretary of Health and Human Services.

(B) In the case of gamma hydroxybutyric acid that is contained in a drug product for which an application is approved under section 505 of the Federal Food, Drug, and Cosmetic Act (whether the application involved is approved before, on, or after the date of the enactment of this Act), the final order shall schedule such drug in the same schedule as that recommended by the Secretary of Health and Human Services for authorized formulations of the drug. The recommendation referred to in the preceding sentence is contained in the last sentence of the fourth paragraph of the letter referred to in subparagraph (A) with respect to May 19, 1999.

(2) FAILURE TO ISSUE ORDER.—If the final order is not issued within the period specified in paragraph (1), gamma hydroxybutyric acid (together with its salts, isomers, and salts of isomers) is deemed to be scheduled under section 202(c) of the Controlled Substances Act in accordance with the policies described in paragraph (1), as if the Attorney General had issued a final order in accordance with such paragraph.

(b) ADDITIONAL PENALTIES RELATING TO GHB.—

(1) CONTROLLED SUBSTANCES ACT.—

(A) IN GENERAL.—Section 401(b)(1)(C) of the Controlled Substances Act (21 U.S.C. 841(b)(1)(C)) is amended in the first sentence by inserting after “schedule I or II,” the following: “gamma hydroxybutyric acid (including when scheduled as an approved drug product for purposes of section 3(a)(1)(B) of the Hillory J. Farias and Samantha Reid Date-Rape Drug Prohibition Act of 1999).”.

(B) CONFORMING AMENDMENT.—Section 401(b)(1)(D) of the Controlled Substances Act (21 U.S.C. 841(b)(1)(D)) is amended by striking “, or 30” and inserting “(other than gamma hydroxybutyric acid), or 30”.

(2) CONTROLLED SUBSTANCES IMPORT AND EXPORT ACT.—

(A) IN GENERAL.—Section 1010(b)(3) of the Controlled Substances Import and Export Act (21 U.S.C. 960(b)(3)) is amended in the first sentence by inserting after “I or II,” the following: “gamma hydroxybutyric acid (including when scheduled as an approved drug product for purposes of section 3(a)(1)(B) of the Hillory J. Farias and Samantha Reid Date-Rape Drug Prohibition Act of 1999).”.

(B) CONFORMING AMENDMENT.—Section 1010(b)(4) of the Controlled Substances Import and Export Act (21 U.S.C. 960(b)(4)) is amended by striking “flunitrazepam” and inserting the following: “flunitrazepam and except a violation involving gamma hydroxybutyric acid”.

(c) GAMMA BUTYROLACTONE AS ADDITIONAL LIST I CHEMICAL.—Section 102(34) of the Controlled Substances Act (21 U.S.C. 802(34)) is amended—

(1) by redesignating subparagraph (X) as subparagraph (Y); and

(2) by inserting after subparagraph (W) the following subparagraph:

“(X) Gamma butyrolactone.”.

SEC. 4. AUTHORITY FOR ADDITIONAL REPORTING REQUIREMENTS FOR GAMMA HYDROXYBUTYRIC PRODUCTS IN SCHEDULE III.

Section 307 of the Controlled Substances Act (21 U.S.C. 827) is amended by adding at the end the following:

“(h) In the case of a drug product containing gamma hydroxybutyric acid for which an application has been approved under section 505 of the Federal Food, Drug, and Cosmetic Act, the Attorney General may, in addition to any other requirements that apply under this section with respect to such a drug product, establish any of the following as reporting requirements:

“(1) That every person who is registered as a manufacturer of bulk or dosage form, as a packager, repackager, labeler, relabeler, or distributor shall report acquisition and distribution transactions quarterly, not later than the 15th day of the month succeeding the quarter for which the report is submitted, and annually report end-of-year inventories.

“(2) That all annual inventory reports shall be filed no later than January 15 of the year following that for which the report is submitted and include data on the stocks of the drug product, drug substance, bulk drug, and dosage forms on hand as of the close of business December 31, indicating whether materials reported are in storage or in process of manufacturing.

“(3) That every person who is registered as a manufacturer of bulk or dosage form shall report all manufacturing transactions both inventory increases, including purchases, transfers, and returns, and reductions from inventory, including sales, transfers, theft, destruction, and seizure, and shall provide data on material manufactured, manufactured from other material, use in manufacturing other material, and use in manufacturing dosage forms.

“(4) That all reports under this section must include the registered person's registration number as well as the registration numbers, names, and other identifying information of vendors, suppliers, and customers, sufficient to allow the Attorney General to track the receipt and distribution of the drug.

“(5) That each dispensing practitioner shall maintain for each prescription the name of the prescribing practitioner, the prescribing practitioner's Federal and State registration numbers, with the expiration dates of these registrations, verification that the prescribing practitioner possesses the appropriate registration to prescribe this controlled substance, the patient's name and address, the name of the patient's insurance provider and documentation by a medical practitioner licensed and registered to prescribe the drug of the patient's medical need for the drug. Such information shall be available for inspection and copying by the Attorney General.

“(6) That section 310(b)(3) (relating to mail order reporting) applies with respect to gamma hydroxybutyric acid to the same extent and in the same manner as such section applies with respect to the chemicals and drug products specified in subparagraph (A)(i) of such section.”.

[SEC. 5. DEVELOPMENT OF FORENSIC FIELD TESTS FOR GAMMA HYDROXYBUTYRIC ACID.

[The Attorney General shall make a grant for the development of forensic field tests to assist law enforcement officials in detecting

the presence of gamma hydroxybutyric acid and related substances.]

SEC. 5. CONTROLLED SUBSTANCES ANALOGUES.

(a) **RULE OF CONSTRUCTION REGARDING CONTROLLED SUBSTANCE ANALOGUES.**—Section 102(32) of the Controlled Substances Act (21 U.S.C. 802(32)) is amended—

(1) in subparagraph (A), by striking “subparagraph (B)” and inserting “subparagraph (C)”;

(2) by redesignating subparagraph (B) as subparagraph (C); and

(3) by inserting after subparagraph (A) the following new subparagraph (B):

“(B) The designation of gamma butyrolactone or any other chemical as a listed chemical pursuant to paragraph (34) or (35) does not preclude a finding pursuant to subparagraph (A) of this paragraph that the chemical is a controlled substance analogue.”.

(b) **DISTRIBUTION WITH INTENT TO COMMIT CRIME OF VIOLENCE.**—Section 401(b)(7)(A) of the Controlled Substances Act (21 U.S.C. 841(b)(7)(A)) is amended by inserting “or controlled substance analogue” after “distributing a controlled substance”.

SEC. 6. DEVELOPMENT OF MODEL PROTOCOLS, TRAINING MATERIALS, FORENSIC FIELD TESTS, AND COORDINATION MECHANISM FOR INVESTIGATIONS AND PROSECUTIONS RELATING TO GAMMA HYDROXYBUTYRIC ACID, OTHER CONTROLLED SUBSTANCES, AND DESIGNER DRUGS.

(a) **IN GENERAL.**—The Attorney General, in consultation with the Administrator of the Drug Enforcement Administration and the Director of the Federal Bureau of Investigation, shall—

(1) develop—

(A) model protocols for the collection of toxicology specimens and the taking of victim statements in connection with investigations into and prosecutions related to possible violations of the Controlled Substances Act or other Federal or State laws that result in or contribute to rape, other crimes of violence, or other crimes involving abuse of gamma hydroxybutyric acid, other controlled substances, or so-called “designer drugs”; and

(B) model training materials for law enforcement personnel involved in such investigations; and

(2) make such protocols and training materials available to Federal, State, and local personnel responsible for such investigations.

(b) **GRANT.**—

(1) **IN GENERAL.**—The Attorney General shall make a grant, in such amount and to such public or private person or entity as the Attorney General considers appropriate, for the development of forensic field tests to assist law enforcement officials in detecting the presence of gamma hydroxybutyric acid and related substances.

(2) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(c) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Attorney General shall submit to the Committees on the Judiciary of the Senate and House of Representatives a report on current mechanisms for coordinating Federal, State, and local investigations into and prosecutions related to possible violations of the Controlled Substances Act or other Federal or State laws that result in or contribute to rape, other crimes of violence, or other crimes involving the abuse of gamma hydroxybutyric acid, other controlled substances, or so-called “designer drugs”. The report shall also include recommendations for the improvement of such mechanisms.

[SEC. 6. ANNUAL REPORT REGARDING DATE-RAPE DRUGS; NATIONAL AWARENESS CAMPAIGN.]

SEC. 7. ANNUAL REPORT REGARDING DATE-RAPE DRUGS; NATIONAL AWARENESS CAMPAIGN.

(a) **ANNUAL REPORT.**—The Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall periodically submit to Congress reports each of which provides an estimate of the number of incidents of the abuse of date-rape drugs (as defined in subsection (c)) that occurred during the most recent one-year period for which data are available. The first such report shall be submitted not later than January 15, 2000, and subsequent reports shall be submitted annually thereafter.

(b) **NATIONAL AWARENESS CAMPAIGN.**—

(1) **DEVELOPMENT OF PLAN; RECOMMENDATIONS OF ADVISORY COMMITTEE.**—

(A) **IN GENERAL.**—The Secretary, in consultation with the Attorney General, shall develop a plan for carrying out a national campaign to educate individuals described in subparagraph (B) on the following:

(i) The dangers of date-rape drugs.

(ii) The applicability of the Controlled Substances Act to such drugs, including penalties under such Act.

(iii) Recognizing the symptoms that indicate an individual may be a victim of such drugs, including symptoms with respect to sexual assault.

(iv) Appropriately responding when an individual has such symptoms.

(B) **INTENDED POPULATION.**—The individuals referred to in subparagraph (A) are young adults, youths, law enforcement personnel, educators, school nurses, counselors of rape victims, and emergency room personnel in hospitals.

(C) **ADVISORY COMMITTEE.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish an advisory committee to make recommendations to the Secretary regarding the plan under subparagraph (A). The committee shall be composed of individuals who collectively possess expertise on the effects of date-rape drugs and on detecting and controlling the drugs.

(2) **IMPLEMENTATION OF PLAN.**—Not later than 180 days after the date on which the advisory committee under paragraph (1) is established, the Secretary, in consultation with the Attorney General, shall commence carrying out the national campaign under such paragraph in accordance with the plan developed under such paragraph. The campaign may be carried out directly by the Secretary and through grants and contracts.

(3) **EVALUATION BY GENERAL ACCOUNTING OFFICE.**—Not later than two years after the date on which the national campaign under paragraph (1) is commenced, the Comptroller General of the United States shall submit to Congress an evaluation of the effects with respect to date-rape drugs of the national campaign.

(c) **DEFINITION.**—For purposes of this section, the term “date-rape drugs” means gamma hydroxybutyric acid and its salts, isomers, and salts of isomers and such other drugs or substances as the Secretary, after consultation with the Attorney General, determines to be appropriate.

SEC. 8. SPECIAL UNIT IN DRUG ENFORCEMENT ADMINISTRATION FOR ASSESSMENT OF ABUSE AND TRAFFICKING OF GHB AND OTHER CONTROLLED SUBSTANCES AND DRUGS.

(a) **ESTABLISHMENT.**—Not later than 60 days after the date of the enactment of this Act, the Attorney General shall establish within the Op-

erations Division of the Drug Enforcement Administration a special unit which shall assess the abuse of and trafficking in gamma hydroxybutyric acid, flunitrazepam, ketamine, other controlled substances, and other so-called “designer drugs” whose use has been associated with sexual assault.

(b) **PARTICULAR DUTIES.**—In carrying out the assessment under subsection (a), the special unit shall—

(1) examine the threat posed by the substances and drugs referred to in that subsection on a national basis and regional basis; and

(2) make recommendations to the Attorney General regarding allocations and reallocations of resources in order to address the threat.
